

OFFERING CIRCULAR

BARCLAYS BANK PLC

(Incorporated with limited liability in England and Wales)

Pursuant to the Global Structured Securities Programme

This Offering Circular has not been submitted to, reviewed by or approved by the United Kingdom Financial Conduct Authority in its capacity as competent authority under the Financial Services and Markets Act 2000 (the "FSMA") or any other regulatory authority in its capacity as competent authority in the EU or the London Stock Exchange plc or any other stock exchange which constitutes a regulated market for the purposes of Directive 2014/65/EU and Regulation (EU) No. 600/2014 (together, as may be amended from time to time, "MiFID II/MiFIR").

This means that this Offering Circular does not comprise (i) a Base Prospectus for the purposes of Article 5(4) of Directive 2003/71/EC of the European Parliament and of the Council as amended or superseded (the "Prospectus Directive") or any UK or other implementing legislation related to the Prospectus Directive as applicable, or (ii) Listing Particulars for the purposes of Section 79 of the FSMA or any other rules or regulations related to a listing on any regulated market of any stock exchange.

As a result of this Offering Circular not having been approved by any regulatory authority in its capacity as a competent authority, you should be aware that:

- this Offering Circular may not include the type, level and detail of disclosure required by the Prospectus Directive or other UK or EU legislation concerning disclosure requirements; and
- if you acquire Securities to which this Offering Circular relates you will not have any recourse to the Issuer under any Prospectus Directive related liability regime, including but not limited to provisions for compensation arising under Section 90 of the FSMA.

What is this document?

This document as supplemented from time to time by any supplemental offering circular (a "Supplemental Offering Circular") is an offering circular (this "Offering Circular"), describing certain securities ("Securities") that may be offered and issued by Barclays Bank PLC (the "Issuer") under its Global Structured Securities Programme (the "Programme").

This document may be supplemented using a Supplemental Offering Circular from time to time to reflect any significant new factor, material mistake or inaccuracy relating to the information included in it.

This Offering Circular has been prepared on the basis that any offer of Securities in a member state of the European Economic Area which has implemented the Prospectus Directive will be made under an exemption in the Prospectus Directive from the requirement to publish a prospectus for offers of such Securities. Accordingly, if you are making or intending to make an offer of Securities to which this Offering Circular as supplemented from time to time (by any Supplemental Offering Circular) relates, as amended or supplemented by the Pricing Supplement in any relevant member state, you must only do so in circumstances where no obligation to publish a prospectus under Article 3 of the Prospectus Directive arises. The Issuer has not authorised and will not authorise any offer of Securities which would require the Issuer or any other entity to publish a prospectus in respect of such offer.

Securities issued pursuant to the Programme may be unlisted or an application may be made for Securities to be listed on any stock exchange other than any stock exchange or market which constitutes a regulated market for the purposes of MiFID II/MiFIR.

As of the date of this Offering Circular this Offering Circular has been (a) approved by the Irish Stock Exchange plc trading as Euronext Dublin ("Euronext Dublin") as 'Listing Particulars' for the purposes

of the rules of the Global Exchange Market ("**GEM**") of Euronext Dublin, (b) approved by the Luxembourg Stock Exchange (the "**Luxembourg Stock Exchange**") in its capacity as competent authority under Part IV of the Prospectus Act 2005 and (c) approved by the SIX Swiss Exchange (the "**SIX Swiss Exchange**") in its capacity as competent authority under the listing rules of the SIX Swiss Exchange. This means that the Securities issued pursuant to the Programme may (i) for a period of 12 months from the date of this Offering Circular be admitted to listing on the official list of and trading on the GEM of Euronext Dublin, and/or (ii) for a period of 12 months from the date of this Offering Circular be admitted to listing on the official list of and trading on the Euro MTF market (the "**Euro MTF**") of the Luxembourg Stock Exchange and/or (iii) for a period of 12 months from the date of this Offering Circular be admitted to listing on the official list of SIX Swiss Exchange and trading on the SIX Structured Products Exchange AG's platform (the "**SIX platform**") of the SIX Swiss Exchange. Neither the GEM nor the Euro MTF, nor the SIX platform is an EU regulated market for the purposes of MiFID II/MiFIR.

What should I consider before investing in Securities issued under the Offering Circular?

Investment in Securities to which this Offering Circular relates involves a significant degree of risk and if you invest in them you should be prepared to sustain a loss of all or part of your investment. You should not acquire any Securities unless (i) you understand the nature of the relevant transaction, the complexity of the transaction, the risks inherent in securities generally and the relevant Securities in particular and the extent of your exposure to potential loss and (ii) any investment in such Securities is consistent with your overall investment strategy. Before investing in the Securities you should consider carefully whether the Securities you are considering acquiring are suitable in light of your investment objectives, financial capabilities and expertise. You should also consult your own business, financial, investment, legal, accounting, regulatory, tax and other professional advisers to assist you in determining the suitability of the Securities for you as an investment.

See '*What other documents do I need to read?*' below for more information.

What type of Securities does this Offering Circular relate to?

This Offering Circular relates to the issuance of Securities in the form of Notes, Certificates or Warrants which may or may not bear interest. If the Securities are interest-bearing, such interest may accrue at a fixed rate, floating rate or a rate determined by reference to the performance of a Reference Asset. The Securities may be redeemable and issued in Note or Certificate form or they may be exercisable and issued in Warrant or Exercisable Certificate form.

The Securities may or may not be subject to automatic early redemption or cancellation or may have an option to allow early redemption or cancellation by the Issuer or Securityholder. The Securities may be redeemed or cancelled at a cash or physical settlement amount which may or may not be linked to the performance of one or more specified Reference Assets. Warrants or Exercisable Certificates may be exercised automatically, be contingent on the performance of a Reference Asset or subject to some other condition and, if not exercised before a relevant time and date specified, shall become void.

Who is the Issuer?

The Securities will be issued by Barclays Bank PLC (the "**Issuer**"). If you invest in Securities, you are therefore exposed to the credit risk of the Issuer and as the investment is not a deposit and is not insured or guaranteed by any government or agency or under the UK Government credit guarantee scheme, all payments or deliveries to be made by the Issuer are subject to the Issuer's financial position and its ability to meet its obligations. This Offering Circular incorporates by reference information describing the business activities of the Issuer and its subsidiaries (the "**Bank Group**" or "**Barclays**") as well as certain financial information and material risks faced by the Issuer and the Bank Group.

How do I use this Offering Circular?

This Offering Circular, together with certain other documents listed within it, is intended to provide you with information necessary to enable you to make an informed investment decision before you purchase any Securities.

The contractual terms of any particular issuance of Securities will comprise the terms and conditions set out on pages 211 to 296 of this Offering Circular (the "**Base Conditions**"), as supplemented by any

Relevant Annex(es) which are specified as applicable in the Pricing Supplement and set out on pages 297 to 645 of this Offering Circular, each as supplemented by a separate Pricing Supplement, which is specific to that issuance of Securities.

See *'What other documents do I need to read?'* and *'What information is included in the Pricing Supplement?'* below for more information.

The Base Conditions are generic provisions which may apply to any issuances of Securities.

The Relevant Annexes comprise 11 individual annexes:

1. Bond Linked Annex
2. Commodity Linked Annex
3. Credit Linked Annex
4. Equity Linked Annex
5. Fund Linked Annex
6. FX Linked Annex
7. Inflation Linked Annex
8. Barclays Index Annex
9. French Securities Annex
10. Swiss Securities Annex
11. Belgian Securities Annex

Each Relevant Annex contains certain optional provisions that will only apply to certain issuances of Securities. The Pricing Supplement will specify which Relevant Annex(es) will apply to your Securities.

This Offering Circular also includes other general information such as information about the material risks relating to investing in Securities and information on selling and transfer restrictions.

Capitalised terms used in this Offering Circular have the meanings given to them elsewhere in this Offering Circular or in the Pricing Supplement. An index of defined terms begins on page 699.

What other documents do I need to read?

This Offering Circular and any Supplemental Offering Circular contain all the information which is necessary to enable you to make an informed decision regarding the financial position and prospects of the Issuer and the rights attaching to the Securities. Some of this information is incorporated by reference from other publicly available documents and some of this information is supplemented and/or completed in an issue-specific document called the Pricing Supplement. You should read the documents incorporated by reference, as well as the Pricing Supplement in respect of such Securities, together with the Offering Circular and any Supplemental Offering Circular.

Documents will be made available at the registered office of the Issuer and by electronic version from the applicable Issue and Paying Agent.

What information is included in the Pricing Supplement?

While the Offering Circular includes general information about all Securities, the Pricing Supplement is the document that sets out the specific details of each particular issuance of Securities. For example, the Pricing Supplement will contain:

- the issue date;

- the type of security;
- the dates on which payments or deliveries may be made and the Securities may redeem or be cancelled early;
- if interest is payable and, where it is, the type of interest and the interest payment dates;
- the type of final redemption amount or entitlement payable or deliverable (assuming that the Securities do not redeem or are cancelled early) and the Scheduled Redemption Date or Expiry Date;
- any other information needed to complete the terms included in this Offering Circular for the particular Securities (identified by the words 'as specified in the Pricing Supplement' or other equivalent wording);
- the Relevant Annex(es) which are applicable (if any); and
- if the Securities are unlisted or listed on any official list and if they are admitted to trading on any stock exchange (other than any stock exchange or market which constitutes a regulated market for the purposes of MiFID II/MiFIR).

Wherever the Base Conditions or a Relevant Annex provide optional provisions, the Pricing Supplement will specify which of those provisions apply to a specific issuance of Securities.

What type of Reference Assets can the Securities be linked to?

The payments and/or deliveries under the terms of the Securities issued under this Offering Circular may be linked to the performance of one or more indices (both public and proprietary), shares, debt instruments, currencies, commodities, funds and/or FX rates.

IMPORTANT INFORMATION

IMPORTANT – EEA RETAIL INVESTORS

If the Pricing Supplement in respect of the Securities includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA Retail Investor**"). For these purposes, an EEA Retail Investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended from time to time, "**MiFID II**"); (ii) a customer within the meaning of Directive 2002/92/EC (as amended from time to time), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended from time to time, the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to EEA Retail Investors has been prepared and therefore offering or selling such Securities or otherwise making them available to any EEA Retail Investor may be unlawful under the PRIIPs Regulation.

No investment advice

None of this Offering Circular, any Supplemental Offering Circular, any Relevant Annex or any Pricing Supplement is, nor does it purport to be, investment advice or a recommendation. Unless expressly agreed otherwise with a particular investor, none of the Issuer or any Manager is acting as an investment adviser or providing advice of any other nature, or assumes any fiduciary obligation, to any investor in Securities.

Responsibility

The Issuer accepts responsibility for the information contained in this Offering Circular. To the best of the knowledge of the Issuer (having taken all reasonable care to ensure that such is the case), the information contained in this Offering Circular is in accordance with the facts and does not omit anything likely to affect the import of such information.

The Pricing Supplement will (if applicable) specify the nature of the responsibility taken by the Issuer for the information relating to any Reference Asset to which relevant Securities relate and which is contained in such Pricing Supplement.

Ratings

The credit ratings included or referred to in this Offering Circular or any document incorporated by reference are, for the purposes of Regulation (EC) No. 1060/2009 on credit rating agencies (the "**CRA Regulation**"), issued by Fitch Ratings Limited ("**Fitch**"), Moody's Investors Service Ltd. ("**Moody's**") and Standard & Poor's Credit Market Services Europe Limited ("**Standard & Poor's**"), each of which is established in the European Union and has been registered under the CRA Regulation.

As of the date of this Offering Circular, the short-term unsecured obligations of the Issuer are rated A-1 by Standard & Poor's, P-1 by Moody's, and F1 by Fitch and the long-term obligations of the Issuer are rated A by Standard & Poor's, A2 by Moody's, and A+ by Fitch.

Independent evaluation

Nothing set out or referred to in this Offering Circular or supplied in connection with the Programme or any Securities is intended to provide the basis of any credit or other evaluation (except in respect of any purchase of Securities described herein) or should be considered as a recommendation by the Issuer or any Manager that any recipient of this Offering Circular (or any document referred to herein) or any information supplied in connection with the Programme or any Securities should purchase any Securities.

A prospective investor should not purchase the Securities unless they understand the extent of their exposure to potential loss. Prospective investors are urged to read the factors described in the section headed 'Risk Factors', together with the other information in this Offering Circular (including any

information incorporated by reference), as supplemented from time to time by any Supplemental Offering Circular, and the Pricing Supplement, before investing in the Securities.

Prospective investors should note that the risks described in the section headed 'Risk Factors' are not the only risks that the Issuer faces or that may arise because of the nature of the Securities. The Issuer has described only those risks relating to its operations and to the Securities that it considers to be material. There may be additional risks that the Issuer currently considers not to be material or of which it is not currently aware.

Given the nature, complexity and risks inherent in the Securities (and investments relating to any Reference Asset), the Securities may not be suitable for an investor's investment objectives in the light of his or her financial circumstances. Prospective investors should conduct their own independent investigations into the financial condition, affairs of and their own appraisal of the creditworthiness of the Issuer, the suitability of the relevant Securities as an investment in light of their own circumstances and financial condition and the relevant Reference Asset(s) and after due consideration of an investment linked to any relevant Reference Asset(s). In deciding whether to purchase Securities, prospective investors should form their own views of the merits of such an investment based upon such investigations and not in reliance solely upon any information given in this Offering Circular, any applicable Relevant Annex(es) and/or the Pricing Supplement. Prospective investors should consider seeking independent advice to assist them in determining whether the Securities are a suitable investment for them or to assist them in evaluating the information contained or incorporated by reference into this Offering Circular, contained in a Supplemental Offering Circular, set out in the Pricing Supplement or received as a result of their own investigations.

Tax

None of the Issuer or any Manager or Agent makes any representation or warranty as to the tax consequences of an investment in Securities and/or the tax consequences of the acquisition, holding, transfer or disposal of the Securities by any investor (including, without limitation, whether any stamp duty, stamp duty reserve tax, excise, severance, sales, use, transfer, documentary or any other similar tax, duty or charge may be imposed, levied, collected, withheld or assessed by any government, applicable tax authority or jurisdiction on the acquisition, holding, transfer or disposal of Securities by any investor). While the attention of prospective investors is drawn to the section entitled 'Taxation', the tax consequences for each prospective investor in Securities can be different. Therefore, prospective investors should consider consulting with their tax advisers as to their specific consequences.

Change of circumstances

The delivery of any of the Offering Circular, any Supplemental Offering Circular, any Relevant Annex(es) and the Pricing Supplement for a Series (together the "**Offering Documents**") and any sale of Securities pursuant thereto does not mean (and a prospective investor must not assume) that information relating to the Issuer is correct at any time subsequent to the date of such document or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date of such document.

Representations

In connection with the issue and sale of Securities, no person has been authorised to give any information or to make any representation not contained in or consistent with the Offering Documents and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer or any Manager. The Issuer does not accept responsibility for any information not contained in the Offering Documents. The Issuer or any Manager does not make any representation or warranty whatsoever or accept any responsibility with respect to any Reference Asset or to the effect or possible effect of the linking of any exercise rights, payments or deliveries due under the Securities to the performance of any Reference Asset(s).

Distribution

The distribution or delivery of the Offering Documents and any offer or sale of the Securities in certain jurisdictions may be restricted by law. This document does not constitute, and may not be used for the

purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offering or solicitation, and no action is being taken to permit an offering of the Securities or the distribution of this Offering Circular in any jurisdiction where action is required. Persons into whose possession the Offering Documents come are required by the Issuer to inform themselves about and to observe any such restrictions.

The Securities and, in certain cases, the Reference Assets or Entitlement, as the case may be, have not been and will not be registered under the US Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, and the Securities may be in the form of Bearer Securities that are not Cleared Securities and therefore subject to US tax law requirements. Subject to certain exceptions, Securities may not be offered, sold or, in the case of Bearer Securities, delivered within the United States or to U.S. persons (as defined in Regulation S under the Securities Act) or, in the case of a Bearer Security that is not a cleared security, to, or for the account or benefit of, U.S. persons (as defined in the US Internal Revenue Code of 1986, as amended and the regulations thereunder).

Details of selling restrictions for various jurisdictions are set out in the section headed 'Purchase and Sale'. The information contained therein may be amended from time to time by any applicable Relevant Annex(es) and/or the Pricing Supplement.

Listing

Securities issued pursuant to the Programme may be unlisted or an application may be made for Securities to be listed on any stock exchange other than any stock exchange or market which constitutes a regulated market for the purposes of MiFID II/MiFIR. Securities to which this Offering Circular relates cannot be admitted to trading on an EU regulated market for the purposes of MiFID II/MiFIR.

As of the date of this Offering Circular this Offering Circular has been (a) approved by Euronext Dublin as 'Listing Particulars' for the purposes of the rules of the GEM of Euronext Dublin, (b) approved by the Luxembourg Stock Exchange in its capacity as competent authority under Part IV of the Prospectus Act 2005 and (c) approved by the SIX Swiss Exchange in its capacity as competent authority under the listing rules of the SIX Swiss Exchange. This means that the Securities issued pursuant to the Programme may (i) for a period of 12 months from the date of this Offering Circular be admitted to listing on the official list of and trading on the GEM of Euronext Dublin, and/or (ii) for a period of 12 months from the date of this Offering Circular be admitted to listing on the official list of and trading on the Euro MTF of the Luxembourg Stock Exchange and/or (iii) for a period of 12 months from the date of this Offering Circular be admitted to listing on the official list of SIX Swiss Exchange and trading on the SIX platform of the SIX Swiss Exchange. Neither the GEM, nor the Euro MTF, nor the SIX platform is an EU regulated market for the purposes of MiFID II/MiFIR.

The Pricing Supplement will indicate if a Series are unlisted or listed and, in the case of listed Securities, the relevant official list, market and stock exchange.

Any application will be subject to the requirements of any such stock exchange and/or approval by any relevant body and no assurance is given that such listing will be obtained or thereafter maintained.

References in this Offering Circular to Securities being 'listed' (and all related references) shall mean that such Securities have been listed on the relevant official list and (if so specified in the Pricing Supplement) admitted to trading on the GEM, the Euro MTF, the SIX platform or such other stock exchange, each as identified in the Pricing Supplement.

US selling restrictions

The Securities are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S ("**Regulation S**") under the Securities Act and may not be offered, or sold within the United States or to, or for the account or benefit of, U.S. persons, except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws, provided that, in the case of Registered Securities only, and where specified to be applicable in the Pricing Supplement for the relevant Series of Securities such Securities may be offered and sold within the United States to persons reasonably believed to be qualified institutional buyers ("**QIBs**") as defined in

and in reliance on Rule 144A ("**Rule 144A**") under the Securities Act. Prospective investors are hereby notified that sellers of the Securities may be relying on the exemption from the provisions of section 5 of the Securities Act provided by Rule 144A. Trading in the Securities has not been approved by the US Commodities Futures Trading Commission under the US Commodity Exchange Act of 1936, as amended (the "**Commodity Exchange Act**") and the rules and regulations promulgated thereunder. For a description of these and certain further restrictions on offers, sales and transfers of Securities and distribution of the Offering Documents, see sections entitled '*Purchase and Sale*' and '*Clearance and Settlement*' set out in this Offering Circular and in any applicable Relevant Annex(es) or applicable Pricing Supplement.

THE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE US SECURITIES AND EXCHANGE COMMISSION, ANY STATE SECURITIES COMMISSION IN THE UNITED STATES OR ANY OTHER US REGULATORY AUTHORITY, NOR HAVE ANY OF THE FOREGOING AUTHORITIES PASSED UPON OR ENDORSED THE MERITS OF THE OFFERING OF SECURITIES OR THE ACCURACY OR THE ADEQUACY OF THE OFFERING DOCUMENTS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

Overview of Risk Factors under the Programme

Certain factors which may affect the Issuer's ability to fulfil its obligations under the Securities:	The risks described below are material existing and emerging risks which senior management has identified with respect to the Bank Group.
--	---

- (i) **Material existing and emerging risks potentially impacting more than one**

principal risk

Business conditions, general economy and geopolitical issues

The Bank Group's business mix spreads across multiple geographies and client types. The breadth of these operations means that deterioration in the economic environment, or an increase in political instability in countries where the Bank Group is active, or in any systemically important economy, could adversely affect the Bank Group's operating performance, financial condition and prospects.

Process of UK withdrawal from the European Union

The uncertainty around Brexit spanned the whole of 2018, and intensified in the second half of the year. The full impact of the withdrawal may only be realised in years to come, as the economy adjusts to the new regime, but the Bank Group continues to monitor the most relevant risks, including those that may have a more immediate impact, for its business:

- Market volatility, including in currencies and interest rates, might increase which could have an impact on the value of the Bank Group's trading book positions.
- Potential UK financial institutions credit spread widening could lead to reduced investor appetite for the Bank Group's debt securities; this could negatively impact the cost of, and/or access to, funding.
- A credit rating agency downgrade applied directly to the Bank Group, or indirectly as a result of a credit rating agency downgrade to the UK Government, could significantly increase the Bank Group's borrowing costs, credit spreads and materially adversely affect the Bank Group's interest margins and liquidity position.
- Changes in the long-term outlook for UK interest rates may adversely affect pension liabilities and the market value of investments funding those liabilities;
- Increased risk of a UK recession with lower growth, higher unemployment and falling UK house prices. This would negatively impact a number of the Bank Group's portfolios.
- The implementation of trade and customs barriers between the UK and EU could lead to delays and increased costs in the passage of goods for corporate banking customers. This could negatively impact the levels of customer defaults and business volumes which may result in an increase in the Bank Group's impairment

charges and a reduction in revenues.

- Changes to current EU "Passporting" rights may require further adjustment to the current model for the Bank Group's cross-border banking operation which could increase operational complexity and/or costs.
- The ability to attract, or prevent the departure of, qualified and skilled employees may be impacted by the UK's and the EU's future approach to the EU freedom of movement and immigration from the EU countries and this may impact the Bank's access to the EU talent pool.
- The legal framework within which the Bank Group operates could change and become more uncertain if the UK takes steps to replace or repeal certain laws currently in force, which are based on EU legislation and regulation following its withdrawal from the EU.
- Should the UK lose automatic qualification to be part of Single Euro Payments Area there could be a resultant impact on the efficiency of, and access to, European payment systems. In addition, loss of automatic qualification to the European Economic Area (EEA) or access to financial markets infrastructure could impact service provision for clients, likely resulting in reduced market share and revenue and increased operating costs for the Bank Group.
- There are certain execution risks relating to the transfer of the Bank Group's European businesses to Barclays Bank Ireland PLC. Technology change could result in outages or operational errors leading to delays in the transfer of assets and liabilities to Barclays Bank Ireland PLC, and delayed delivery could lead to European clients losing access to products and service and increased reputational risk.

Interest rate rises adversely impacting credit conditions

To the extent that central banks increase interest rates particularly in the Bank Group's main markets, in the UK and the US, there could be an impact on consumer debt affordability and corporate profitability. While interest rate rises could positively impact the Bank Group's profitability, as retail and corporate business income may increase due to margin de-compression, future interest rate increases, if larger or more frequent than expectations, could cause stress in the loan portfolio and underwriting activity of the Bank Group. Higher credit losses driving an increased impairment allowance would most notably impact retail unsecured portfolios and wholesale non-investment grade lending. Changes in interest rates could also have an adverse impact on the

value of high quality liquid assets which are part of the Bank Group Treasury function's investment activity. Consequently, this could create more volatility than expected through the Bank Group's FVOCI (fair value through other comprehensive income) reserves.

Regulatory change agenda and impact on business model

The Bank Group remains subject to ongoing significant levels of regulatory change and scrutiny in many of the countries in which it operates (including, in particular, the UK and the US). A more intensive regulatory approach and enhanced requirements together with the uncertainty (particularly in light of the UK's withdrawal from the EU) and potential lack of international regulatory co-ordination as enhanced supervisory standards are developed and implemented may adversely affect the Bank Group's business, capital and risk management strategies and/or may result in the Bank Group deciding to modify its legal entity structure, capital and funding structures and business mix, or to exit certain business activities altogether or not to expand in areas despite otherwise attractive potential.

(ii) Material existing and emerging risks impacting individual principal risks

Credit risk:

1. Impairment: The introduction of the impairment requirements of IFRS 9 Financial Instruments, implemented on 1 January 2018, results in impairment loss allowances that are recognised earlier, on a more forward looking basis and on a broader scope of financial instruments than has been the case under IAS 39 and has had, and may continue to have, a material impact on the Bank Group's financial condition.
2. Specific sectors and concentrations: The Bank Group is subject to risks arising from changes in credit quality and recovery rate of loans and advances due from borrowers and counterparties in a specific portfolio. Any deterioration in credit quality could lead to lower recoverability and higher impairment in a specific sector.
3. Environmental risk: The Bank Group is exposed to credit risks arising from energy and climate change. Indirect risks may be incurred as a result of environmental issues impacting the credit worthiness of the borrower resulting in higher impairment.

Market risk: An uncertain outlook for the direction of monetary policy, the US-China trade conflict, slowing global growth and political concerns in the US and Europe (including Brexit) are some of the

factors that could heighten market risks for the Bank Group's portfolios.

In addition, the Bank Group's trading business is generally exposed to a prolonged period of elevated asset price volatility, particularly if it negatively affects the depth of marketplace liquidity. Such a scenario could impact the Bank Group's ability to execute client trades and may also result in lower client flow-driven income and/or market-based losses on its existing portfolio of market risks. These can include having to absorb higher hedging costs from rebalancing risks that need to be managed dynamically as market levels and their associated volatilities change.

Treasury and capital risk: The Bank Group may not be able to achieve its business plans due to: a) inability to maintain appropriate capital ratios; b) inability to meet its obligations as they fall due; c) rating agency downgrades; d) adverse changes in foreign exchange rates on capital ratios; e) adverse movements in the pension fund; f) non-traded market risk/interest rate risk in the banking book.

Operational risk:

- **Cyber threat:** The financial sector remains a primary target for cyber criminals. There is an increasing level of sophistication in both criminal and nation state hacking for the purpose of stealing money, stealing, destroying or manipulating data, and/or disrupting operations. Other events have a compounding impact on services and customers. Failure to adequately manage this threat could result in increased fraud losses, inability to perform critical economic functions, customer detriment, potential regulatory censure or penalties, legal liability, reduction in shareholder value and reputational damage.
- **Fraud:** Criminals continue to adapt their techniques and are increasingly focused on targeting customers and clients through ever more sophisticated methods of social engineering. External data breaches also provide criminals with the opportunity to exploit the growing levels of compromised data. These threats could lead to customer detriment, loss of business, regulatory censure, missed business opportunity and reputational damage.
- **Operational resilience:** The loss of or disruption to the Bank Group's business processing is a material inherent risk theme within the Bank Group and across the financial services industry, whether arising through impacts on technology systems, real estate services, personnel availability or the support of major suppliers. Failure to build resilience into business

processes or into the services of technology, real estate or suppliers on which the Bank Group business processes depend may result in significant customer detriment, costs to reimburse losses incurred by customers, potential regulatory censure or penalties, and reputational damage.

- **Supplier exposure:** The Bank Group depends on suppliers for the provision of many of its services and the development of technology. Failure to monitor and control the Bank Group's suppliers could potentially lead to client information or critical infrastructures not being adequately protected or available when required. Failure to adequately manage outsourcing risk could result in increased losses, inability to perform critical economic functions, customer detriment, potential regulatory censure, legal liability and reputational damages.
- **Processing error:** Material operational or payment errors could disadvantage the Bank Group's customers, clients or counterparties and could result in regulatory censure, legal liability, reputational damage and financial loss for the Bank Group.
- **New and emerging technology:** Introducing new forms of technology has the potential to increase inherent risk. Failure to evaluate, actively manage and closely monitor risk exposure during all phases of business development could lead to customer detriment, loss of business, regulatory censure, missed business opportunity and reputational damage.
- **Ability to hire and retain appropriately qualified employees:** The Bank Group's ability to attract, develop and retain a diverse mix of talent is key to the delivery of its core business activity and strategy. Failure to attract or prevent the departure of appropriately qualified employees could negatively impact the Bank Group's financial performance, control environment and level of employee engagement. Additionally, this may result in disruption to service which could in turn lead to disenfranchising certain customer groups, customer detriment and reputational damage.
- **Tax risk:** The Bank Group is required to comply with the domestic and international tax laws and practice of all countries in which it has business operations. There is a risk that the Bank Group could suffer losses due to additional tax charges, other financial costs or reputational damage as a result of failing to comply with such laws and practice, or by failing to manage its tax affairs in an appropriate manner, with much of this risk

attributable to the international structure of the Bank Group.

- **Critical accounting estimates and judgements:** The preparation of financial statements in accordance with IFRS requires the use of estimates. It also requires management to exercise judgement in applying relevant accounting policies. There is a risk that if the judgement exercised, or the estimates or assumptions used, subsequently turn out to be incorrect, this could result in significant loss to the Bank Group, beyond what was anticipated or provided for.
- **Data management and information protection:** The Bank Group holds and processes large volumes of data, including personally identifiable information, intellectual property, and financial data. Failure to accurately collect and maintain this data, protect it from breaches of confidentiality and interference with its availability exposes the Bank Group to the risk of loss or unavailability of data or data integrity issues. This could result in regulatory censure, legal liability and reputational damage, including the risk of substantial fines under the General Data Protection Regulation (the "GDPR"), which strengthens the data protection rights for customers and increases the accountability of the Bank Group in its management of that data.
- **Unauthorised or rogue trading:** Unauthorised trading, such as a large unhedged position, which arises through a failure of preventative controls or deliberate actions of the trader, may result in large financial losses for the Bank Group, loss of business, damage to investor confidence and reputational damage.
- **Algorithmic trading:** In some areas of the investment banking business, trading algorithms are used to price and risk manage client and principal transactions. An algorithmic error could result in increased market exposure and subsequent financial losses for the Bank Group and potential loss of business, damage to investor confidence and reputational damage.

Model risk: The Bank Group relies on models to support a broad range of business and risk management activities, including informing business decisions and strategies, measuring and limiting risk, valuing exposures, conducting stress testing, assessing capital adequacy, supporting new business acceptance and risk and reward evaluation, managing client assets, and meeting reporting requirements. Models are, by their nature, imperfect and incomplete representations of reality. Models may also be

misused. Model errors or misuse may result in the Bank Group making inappropriate business decisions and being subject to financial loss, regulatory risk, reputational risk and/or inadequate capital reporting.

Conduct risk: There is the risk of detriment to customers, clients, market integrity, effective competition or the Bank Group from the inappropriate supply of financial services, including instances of wilful or negligent misconduct.

1. Ineffective product governance could lead to poor customer outcomes, regulatory sanctions, financial loss and reputational damage.
2. The Bank Group may be adversely affected if it fails to effectively mitigate the risk that third parties or its employees facilitate, or that its products and services are used to facilitate financial crime. Failure to comply may lead to enforcement action by the Bank Group's regulators together with severe penalties, affecting the Bank Group's reputation and financial results.
3. Failure to protect personal data can lead to potential detriment to the Bank Group's customers and clients, reputational damage, regulatory sanctions and financial loss, which under the GDPR may be substantial.
4. Failure to meet the requirements and expectations of the UK Senior Managers Regime, Certification Regime and Conduct Rules may lead to regulatory sanctions, both for the individuals and the Bank Group.

Reputation risk: A risk arising in one business area can have an adverse effect upon the Bank Group's overall reputation; any one transaction, investment or event that, in the perception of key stakeholders reduces their trust in the Bank Group's integrity and competence.

The Bank Group's associations with sensitive topics and sectors have the potential to give rise to reputation risk for the Bank Group and may result in loss of business, regulatory censure and missed business opportunity.

In addition, reputation risk has the potential to arise from operational issues or conduct matters which cause detriment to customers, clients, market integrity, effective competition or the Bank Group.

Legal risk and legal, competition and regulatory matters: Legal disputes, regulatory investigations, fines and other sanctions relating to conduct of business and breaches of legislation and/or regulations may negatively affect the Bank Group's results,

reputation and ability to conduct its business.

The Bank Group conducts diverse activities in a highly regulated global market and therefore is exposed to the risk of fines and other sanctions. Authorities have continued to investigate past practices, pursued alleged breaches and imposed heavy penalties on financial services firms. A breach of applicable legislation and/or regulations could result in the Bank Group or its staff being subject to criminal prosecution, regulatory censure, fines and other sanctions in the jurisdictions in which it operates. Where clients, customers or other third parties are harmed by the Bank Group's conduct, this may also give rise to legal proceedings, including class actions. Other legal disputes may also arise between the Bank Group and third parties relating to matters such as breaches, enforcement of legal rights or obligations arising under contracts, statutes or common law. Adverse findings in any such matters may result in the Bank Group being liable to third parties or may result in the Bank Group's rights not being enforced as intended.

The outcome of legal, competition and regulatory matters, both those to which the Bank Group is currently exposed and any others which may arise in the future, is difficult to predict. In connection with such matters, the Bank Group may incur significant expense, regardless of the ultimate outcome. In light of the uncertainties involved in legal, competition and regulatory matters, there can be no assurance that the outcome of a particular matter or matters will not be material to the Bank Group's results of operations or cash flow for a particular period.

Resolution actions (including bail-in actions) in the event the Issuer is failing or likely to fail could materially adversely affect the value of the Securities

Under the UK Banking Act, the Bank of England, the HM Treasury and a number of other UK authorities have substantial powers to take a range of resolution actions to rescue a financial institution (such as the Issuer), where it considers the relevant institution to be failing or likely to fail. In such case, the relevant UK resolution authority could exercise such powers to (a) transfer all or part of the institution's business to a third party and/or to a "bridge bank" and/or to a vehicle created by the resolution authority, (b) take the institution into temporary public ownership, (c) provided the relevant conditions are met, exercise the 'bail-in tool' or (d) require some combination thereof. Exercise of the 'bail-in tool' in respect of the Issuer and the Securities would be expected to be made without the consent of the holders of the Securities, and could result in the cancellation of all, or some, of the principal amount of, interest on, the Securities and/or the conversion of the Securities into shares or other obligations of the Issuer or another person, or

any other modification to the terms of the Securities. The exercise of resolution powers in respect of the Issuer and the Securities (in particular, the 'bail-in tool') could materially adversely affect the rights of the holders of the Securities, the value of the Securities and/or the ability of the Issuer to satisfy its obligations under the Securities, and holders of the Securities could lose some or all of their investment.

Certain factors are material for the purpose of assessing the risks associated with investing in Securities and which may affect the return on, and value of, Securities, including:

- Securities are complex financial instruments and may involve a high degree of risk;
- Securities are unsecured obligations of the Issuer;
- settlement disruptions may occur;
- settlement is subject to satisfaction of all conditions to settlement to be satisfied by the Securityholder within the relevant period;
- leverage may magnify the impact of the negative performance of the Reference Asset(s) on the value Securities;
- Securityholders will have no claim against any Reference Asset;
- the return and value of Securities will be affected by exchange rate risks, exchange controls, interest rate fluctuations and other rate and price movements;
- limitations on the redemption or exercise of Securities may apply;
- Securities may be redeemed or cancelled early for less than the amount invested by the Securityholder and may be zero;
- disruption events may result in adjustments (in respect of French Securities, subject to the prior consent of a Securityholders' general meeting) to the terms of Securities or their redemption or cancellation;
- exercise of Issuer options, including a call on Securities, substitution of assets and/or settlement method elections, may affect the settlement amount payable or the type or quantity of assets deliverable at settlement;
- there may be delay between valuation and settlement;
- the issue price may take into account inducements, commissions and fees paid by the Issuer to a distributor, and thus may not be indicative of the initial market value of the Securities;

- Securities may not provide an effective hedge against the market risk associated with any asset;
- the proceeds of realisation of any Entitlement may be less than the amount the Securityholder may have received if the Security had been cash settled;
- additional taxes and delivery constraints may apply to Physically Delivered Securities;
- there may be no secondary market for and limited liquidity in Securities;
- potential conflicts of interest may arise relating to the trading activities of the Issuer and its affiliates and the interests of Securityholders and the Issuer and its affiliates have no obligation to consider the interests of Securityholders;
- conflicts of interest may also arise when the Securities are linked to the Issuer's proprietary indices since the Issuer or its affiliate may perform the roles of determination agent and index sponsor concurrently;
- market disruptions or other events may occur in respect of the relevant Reference Asset(s);
- if a Reference Asset or benchmark interest rate ceases to exist, that Reference Asset or benchmark interest rate may be substituted, or if there is no suitable substitute, the Securities may be early redeemed;
- payments, deliveries and settlement under Securities may be subject to deduction of Taxes and Settlement Expenses;
- in respect of English law Securities, the Issuer may be substituted (subject to certain conditions);
- the market value of Securities may be affected by the creditworthiness of the Issuer and/or the Bank Group; and
- if specified in the Pricing Supplement, the Securities will be subject to a US withholding tax of 30 per cent. No additional amounts will be payable in respect of such withholding taxes.

Prospective investors should understand the risks associated with Securities and investments and transactions relating to any Reference Asset(s). Prospective investors must reach an investment decision only after careful consideration, with their advisers, of the suitability of such Securities in light of their particular financial circumstances, the information in the relevant Offering Documents and its own investigations into the Issuer, its affiliates and

any applicable Reference Asset(s).

PROSPECTIVE INVESTORS MUST REVIEW ANY APPLICABLE RELEVANT ANNEX(ES) AND THE PRICING SUPPLEMENT BEFORE MAKING ANY DECISION TO PURCHASE ANY SECURITIES.

RISK FACTORS

You should only invest in the Securities after assessing these principal risks, including any risks applicable to the relevant Reference Asset(s). The risks described in this section can be cumulative and apply simultaneously which may unpredictably affect the Securities. Specifically, no assurance can be given as to the effect that any combination of risk factors may have on the value of and return on the Securities. The effect of any one factor may be offset or magnified by the effect of another factor. The risks below are not exhaustive and there may be additional risks and uncertainties that are not presently known to the Issuer or that the Issuer currently believes to be immaterial but that could have a material impact on the business, operations, financial condition or prospects of the Issuer or the value of and return on the Securities.

RISK WARNING

There are a number of circumstances in which you may lose some or all of your investment in the Securities.

The terms of the Securities may not provide for scheduled minimum payment of the face value or issue price of the Securities at maturity: depending on the performance of the Reference Asset(s), you may lose some or all of your investment.

The payment of any amount or delivery of any property due under the Securities is dependent upon the Issuer's ability to fulfil its obligations when they fall due. The Securities are unsecured obligations. They are not deposits and they are not protected under the UK's Financial Services Compensation Scheme or any other deposit protection insurance scheme. Therefore, if the Issuer fails or is otherwise unable to meet its payment or delivery obligations under the Securities, you will lose some or all of your investment.

You may also lose some or all of your investment in the following circumstances:

- The market price of your Securities prior to maturity may be significantly lower than the purchase price you paid for them. Consequently, if you sell your Securities before their scheduled maturity, you may receive far less than your original invested amount.
- Your Securities may be redeemed in certain extraordinary circumstances prior to their scheduled maturity and, in such case, the early redemption amount paid to you may be less than what you paid for the Securities.
- The terms and conditions of your Securities may be adjusted by the Issuer or Determination Agent with the effect that the amount payable or property deliverable to you is less than your initial investment.

FACTORS THAT MAY AFFECT THE ISSUER'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER THE SECURITIES

1. Risks associated with the Issuer's ability to fulfil its obligations under the Securities and status of the Securities

The Issuer is a major, global financial services company and, as such, faces a variety of risks that are substantial and inherent in its businesses, and which may affect its ability to fulfil its payment, delivery or other obligations under the relevant Securities as they fall due. These risks include liquidity risk, market risk, credit risk, operational risk, reputational risk, legal, regulatory and compliance risks, litigation and other contingent liabilities, competition risks, the financial condition of clients, customers and counterparties, adverse economic, monetary, political or legal developments, cross-border and foreign exchange risk, catastrophic events, risks from estimates and valuations and risks relating to strategy.

The Securities are direct, unsecured and unsubordinated obligations of the Issuer and will rank equally among themselves. The Securities are unsecured obligations, are not deposits and are not protected under the UK's Financial Services Compensation Scheme or any other deposit protection insurance scheme. You are therefore exposed to the creditworthiness of the Issuer and any deterioration in the Issuer's creditworthiness or perceived creditworthiness (whether measured by actual or anticipated changes in the credit ratings of the Issuer) may adversely affect the value of the Securities.

These risks are described in the section 'Risk Factors' on pages 1 to 16 of the Registration Document incorporated by reference into this document – see '*Information Incorporated by Reference*'.

2. Regulatory bank resolution framework

The Banking Act provides for a regime to allow the Bank of England (or, in certain circumstances, HM Treasury) to resolve failing banks in the U.K. – see '*Regulatory action in*

the event a bank or investment firm in the Group (such as the Issuer) is failing or likely to fail could materially adversely affect the value of the Securities'.

3. **Regulatory action in the event a bank or investment firm in the Group (such as the Issuer) is failing or likely to fail could materially adversely affect the value of the Securities**

The majority of the requirements of the European Union Directive 2014/59/EU of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms of 15 May 2014, as amended ("**BRRD**") (including the bail-in tool) were implemented in the UK by way of amendments to the United Kingdom Banking Act 2009 (the "**Banking Act**"). For more information on the bail-in tool, see *'The relevant UK resolution authority may exercise the bail-in tool in respect of the Issuer and the Securities, which may result in you losing some or all of your investment'* and *'Under the terms of the Swiss Securities or the French Securities, you have agreed to be bound by the exercise of any UK Bail-In Power by the relevant UK resolution authority'*.

On 23 November 2016, the European Commission published, among other proposals, proposals to amend the BRRD. Adoption of the proposals and publication in the Official Journal is anticipated by mid-2019 but there are still a number of outstanding issues and the technical and legal translation revision process still has to take place on all the issues agreed. Therefore, it is unclear what the effect of such proposals may be on the Group, the Issuer or the Securities.

The Banking Act confers substantial powers on a number of UK authorities designed to enable them to take a range of actions in relation to UK banks or investment firms and certain of their affiliates (currently including the Issuer) in the event a bank or investment firm in the same group is considered to be failing or likely to fail. The exercise of any of these actions in relation to the Issuer could materially adversely affect the value of the Securities.

Under the Banking Act, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury), in consultation with the PRA, the FCA and HM Treasury, as appropriate as part of a special resolution regime (the "**SRR**"). These powers enable the relevant UK resolution authority to implement resolution measures with respect to a UK bank or investment firm and certain of its affiliates (currently including the Issuer) (each a "**relevant entity**") in circumstances in which the relevant UK resolution authority is satisfied that the resolution conditions are met. Such conditions include that a UK bank or investment firm is failing or is likely to fail to satisfy the FSMA threshold conditions for authorisation to carry on certain regulated activities (within the meaning of section 55B of the FSMA) or, in the case of a UK banking group company that is an EEA or third country institution or investment firm, that the relevant EEA or third country relevant authority is satisfied that the resolution conditions are met in respect of such entity.

The SRR consists of five stabilisation options:

- (i) private sector transfer of all or part of the business or shares of the relevant entity;
- (ii) transfer of all or part of the business of the relevant entity to a 'bridge bank' established by the Bank of England;
- (iii) transfer to an asset management vehicle wholly or partly owned by HM Treasury or the Bank of England;
- (iv) the bail-in tool (as described below); and
- (v) temporary public ownership (nationalisation).

The Banking Act also provides for two new insolvency and administration procedures for relevant entities. Certain ancillary powers include the power to modify contractual arrangements in certain circumstances (which could include a variation of the terms of the Securities), powers to impose temporary suspension of payments, powers to suspend enforcement or termination rights that might be invoked as a result of the exercise of the

resolution powers and powers for the relevant UK resolution authority to disapply or modify laws in the UK (with possible retrospective effect) to enable the powers under the Banking Act to be used effectively.

You should assume that, in a resolution situation, financial public support will only be available to a relevant entity as a last resort after the relevant UK resolution authorities have assessed and used, to the maximum extent practicable, the resolution tools, including the bail-in tool (as described below).

The exercise of any resolution power or any suggestion of any such exercise could materially adversely affect the value of any Securities and could lead to you losing some or all of the value of your investment in the Securities.

The SRR is designed to be triggered prior to insolvency of the Issuer, and you may not be able to anticipate the exercise of any resolution power (including the bail-in tool) by the relevant UK resolution authority.

The stabilisation options are intended to be used prior to the point at which any insolvency proceedings with respect to the relevant entity could have been initiated. The purpose of the stabilisation options is to address the situation where all or part of a business of a relevant entity has encountered, or is likely to encounter, financial difficulties, giving rise to wider public interest concerns.

Although the Banking Act provides specific conditions to the exercise of any resolution powers and, furthermore, the European Banking Authority's guidelines published in May 2015 set out the objective elements for the resolution authorities to apply in determining whether an institution is failing or likely to fail, it is uncertain how the relevant UK resolution authority would assess such conditions in any particular pre-insolvency scenario affecting the Issuer and/or other members of the Group and in deciding whether to exercise a resolution power.

The relevant UK resolution authority is also not required to provide any advance notice to you of its decision to exercise any resolution power. Therefore, you may not be able to anticipate a potential exercise of any such powers nor the potential effect of any exercise of such powers on the Issuer, the Group and the Securities.

You may have only very limited rights to challenge the exercise of any resolution powers (including the UK bail-in tool) by the relevant UK resolution authority.

You may have only very limited rights to challenge and/or seek a suspension of any decision of the relevant UK resolution authority to exercise its resolution powers (including the UK bail-in tool) or to have that decision reviewed by a judicial or administrative process or otherwise.

The relevant UK resolution authority may exercise the bail-in tool in respect of the Issuer and the Securities, which may result in you losing some or all of your investment.

Where the relevant statutory conditions for use of the bail-in tool have been met, the relevant UK resolution authority would be expected to exercise these powers without your consent. Subject to certain exemptions set out in the BRRD (including secured liabilities, bank deposits guaranteed under an EU member state's deposit guarantee scheme, liabilities arising by virtue of the holding of client money, liabilities to other non-group banks or investment firms that have an original maturity of fewer than seven days and certain other exceptions), it is intended that all liabilities of institutions and/or their EEA parent holding companies should potentially be within scope of the bail-in tool. Accordingly, any such exercise of the bail-in tool in respect of the Issuer and the Securities may result in the cancellation of all, or a portion, of the principal amount of, interest on, or any other amounts payable on, the Securities and/or the conversion of the Securities into shares or other securities or other obligations of the Issuer or another person, or any other modification or variation to the terms of the Securities.

The Banking Act specifies the order in which the bail-in tool should be applied, reflecting the hierarchy of capital instruments under the Capital Requirements Directive ("**CRD IV**") and otherwise respecting the hierarchy of claims in an ordinary insolvency. In addition, the bail-in

tool contains an express safeguard (known as 'no creditor worse off') with the aim that shareholders and creditors do not receive a less favourable treatment than they would have received in ordinary insolvency proceedings of the relevant entity. Among other proposals, the amendments to BRRD and CRD IV Regulation proposed by the European Commission on 23 November 2016 relate to the ranking of unsecured debt instruments on insolvency hierarchy which resulted in the adoption of EU directive 2017/2399 on 12 December 2017 (the "**Amendment Directive**"). The Amendment Directive introduces a new layer in insolvency for ordinary, long-term, unsecured debt-instruments issued by credit institutions and financial institutions within their consolidation perimeter that are established within the EU. In the UK, the 2018 Order referred to above was published on 19 December 2018 and sets out the new insolvency hierarchy. Further, minimum requirements for own funds and eligible liabilities ("**MREL**"), which are being implemented in the EU and the UK, will apply to EU and UK financial institutions and cover capital and debt instruments that are capable of being written-down or converted to equity in order to prevent a financial institution from failing in a crisis. The Bank of England has set interim MREL compliance dates of 1 January 2019 and 1 January 2020, and a final MREL compliance date of 1 January 2022. The other amendments to BRRD and CRD IV Regulation are still in draft form and subject to the EU legislative process, therefore it is unclear what the effect of such amendments may be on the Group, the Issuer or the Securities.

The exercise of the bail-in tool in respect of the Issuer and the Securities or any suggestion of any such exercise could materially adversely affect your rights in respect of the Securities, the price or value of your investment in the Securities and/or the ability of the Issuer to satisfy its obligations under the Securities and could lead to you losing some or all of the value of your investment in such Securities. In addition, even in circumstances where a claim for compensation is established under the 'no creditor worse off' safeguard in accordance with a valuation performed after the resolution action has been taken, it is unlikely that such compensation would be equivalent to the full losses incurred by you in the resolution and there can be no assurance that you would recover such compensation promptly.

As insured deposits are excluded from the scope of the bail-in tool and other preferred deposits (and insured deposits) rank ahead of any Securities issued by the Issuer, such Securities would be more likely to be bailed-in than certain other unsubordinated liabilities of the Issuer (such as other preferred deposits).

As part of the reforms required by the BRRD, amendments have been made to relevant legislation in the UK (including the UK Insolvency Act 1986) to establish in the insolvency hierarchy a statutory preference (i) firstly, for deposits that are insured under the UK Financial Services Compensation Scheme ("**insured deposits**") to rank with existing preferred claims as 'ordinary' preferred claims and (ii) secondly, for all other deposits of individuals and micro, small and medium sized enterprises held in EEA or non-EEA branches of an EEA bank ("**other preferred deposits**"), to rank as 'secondary' preferred claims only after the 'ordinary' preferred claims. In addition, the UK implementation of the EU Deposit Guarantee Scheme Directive increased, from July 2015, the nature and quantum of insured deposits to cover a wide range of deposits, including corporate deposits (unless the depositor is a public sector body or financial institution) and some temporary high value deposits. The effect of these changes is to increase the size of the class of preferred creditors. All such preferred deposits will rank in the insolvency hierarchy ahead of all other unsecured senior creditors of the Issuer, including you as a holder of the Securities. Furthermore, insured deposits are excluded from the scope of the bail-in tool. As a result, if the bail-in tool were exercised by the relevant UK resolution authority, the Securities would be more likely to be bailed-in than certain other unsubordinated liabilities of the Issuer such as other preferred deposits.

Under the terms of the Swiss Securities or the French Securities, you have agreed to be bound by the exercise of any UK Bail-In Power by the relevant UK resolution authority.

Notwithstanding any other agreements, arrangements, or understandings between us and you as a holder of the Swiss Securities or the French Securities (as applicable), by acquiring the Swiss Securities or French Securities (for the purposes of this risk factor, "**Relevant Securities**"), you as a holder of the Relevant Securities acknowledge, accept, agree to be bound by, and consent to the exercise of, any UK Bail-In Power by the relevant UK resolution

authority that may result in (i) the reduction or cancellation of all, or a portion, of the principal amount of, or interest on, the Relevant Securities; (ii) the conversion of all, or a portion, of the principal amount of, or interest on, the Relevant Securities into shares or other securities or other obligations of the Issuer or another person (and the issue to, or conferral on, the holder of the Relevant Securities such shares, securities or obligations); and/or (iii) the amendment or alteration of the maturity of the Relevant Securities, or amendment of the amount of interest due on the Relevant Securities, or the dates on which interest becomes payable, including by suspending payment for a temporary period; which UK Bail-In Power may be exercised by means of a variation of the terms of the Relevant Securities solely to give effect to the exercise by the relevant UK resolution authority of such UK Bail-In Power. You as a holder of the Relevant Securities further acknowledge and agree that your rights as a holder of the Relevant Securities are subject to, and will be varied, if necessary, solely to give effect to, the exercise of any UK Bail-In Power by the relevant UK resolution authority.

Accordingly, any UK Bail-In Power may be exercised in such a manner as to result in you and other holders of the Relevant Securities losing all or a part of the value of your investment in the Relevant Securities or receiving a different security from the Relevant Securities, which may be worth significantly less than the Relevant Securities and which may have significantly fewer protections than those typically afforded to debt securities. Moreover, the relevant UK resolution authority may exercise any UK Bail-In Power without providing any advance notice to, or requiring the consent of, you as a holder of the Relevant Securities.

In addition, under the terms of the Relevant Securities, the exercise of the UK Bail-in Power by the relevant UK resolution authority with respect to the Relevant Securities is not an Event of Default (as defined in the terms and conditions of the Securities). For more information, see General Condition 26 (*Contractual acknowledgement of bail-in in respect of Swiss Securities*) and General Condition 27 (*Contractual acknowledgement of bail-in in respect of French Securities*), as applicable.

4. **A downgrade of the credit rating assigned by any credit rating agency to the Issuer or, if applicable, to the Securities could adversely affect the liquidity or market value of the Securities. Credit ratings downgrades could occur as a result of, among other causes, changes in the ratings methodologies used by credit rating agencies**

Tranches of Securities issued under the Programme may be rated by credit rating agencies and may in the future be rated by additional credit rating agencies, although the Issuer is under no obligation to ensure that any Securities issued by it under the Programme are rated by any credit rating agency. Credit ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed in these risk factors and other factors that may affect the liquidity or market value of the Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the credit rating agency at any time.

Any rating assigned to the Issuer and/or, if applicable, the Securities may be withdrawn entirely by a credit rating agency, may be suspended or may be lowered, if, in that credit rating agency's judgment, circumstances relating to the basis of the rating so warrant. Ratings may be impacted by a number of factors which can change over time, including the credit rating agency's assessment of: the Issuer's strategy and management's capability; the Issuer's financial condition including in respect of capital, funding and liquidity; competitive and economic conditions in the Issuer's key markets; the level of political support for the industries in which the Issuer operates; and legal and regulatory frameworks affecting the Issuer's legal structure, business activities and the rights of its creditors. The credit rating agencies may also revise the ratings methodologies applicable to issuers within a particular industry, or political or economic region. If credit rating agencies perceive there to be adverse changes in the factors affecting an issuer's credit rating, including by virtue of changes to applicable ratings methodologies, the credit rating agencies may downgrade, suspend or withdraw the ratings assigned to an issuer and/or its securities. Revisions to ratings methodologies and actions on the Issuer's ratings by the credit rating agencies may occur in the future.

If the Issuer determines to no longer maintain one or more ratings, or if any credit rating agency withdraws, suspends or downgrades the credit ratings of the Issuer or the Securities, or

if such a withdrawal, suspension or downgrade is anticipated (or any credit rating agency places the credit ratings of the Issuer or, if applicable, the Securities on 'credit watch' status in contemplation of a downgrade, suspension or withdrawal), whether as a result of the factors described above or otherwise, such event could adversely affect the liquidity or market value of the Securities (whether or not the Securities had an assigned rating prior to such event).

FACTORS WHICH ARE MATERIAL FOR THE PURPOSES OF ASSESSING THE MARKET RISKS IN RELATION TO THE SECURITIES

5. Risks associated with the valuation of Securities

5.1 The initial market value of the Securities is likely to be lower, and may be significantly lower, than the issue or initial purchase price of the Securities

The market value of the Securities is likely to be lower, and may be significantly lower, than the issue price of the Securities. In particular, the difference between the issue price and the initial market value may be a result of:

- (a) where permitted by applicable law, amounts with respect to commissions relating to the issue and sale of the Securities;
- (b) the estimated profit that the Issuer and its subsidiary undertakings (together, the "**Bank Group**" or "**Barclays**") expects to earn in connection with structuring the Securities;
- (c) internal funding rates (which are internally published borrowing rates based on variables such as market benchmarks, the Bank Group's appetite for borrowing and Barclays' existing obligations coming to maturity), which may vary from the levels at which Barclays' benchmark debt Securities trade in the secondary market;
- (d) the estimated cost which Barclays may incur in hedging its obligations under the Securities; and
- (e) estimated development and other costs which Barclays may incur in connection with the Securities.

If not already disclosed, information with respect to the amount of any such inducements, commissions and fees may be obtained from the Issuer or distributor upon request.

5.2 The secondary market value of the Securities will likely be lower than the original issue price of the Securities

Any secondary market prices of the Securities will likely be lower than the original issue price of the Securities because, amongst other things, secondary market prices take into account the secondary market credit spreads of the Issuer and, also, because (as described in risk factor 5.1 (*The initial market value of the Securities is likely to be lower, and may be significantly lower, than the issue or initial purchase price of the Securities*) above) secondary market prices will likely be reduced by selling commissions, profits and hedging and other costs that are accounted for in the original issue price of the Securities. As a result, the price, if any, at which the Manager or any other person would be willing to buy Securities from you in secondary market transactions, if at all, is likely to be lower than the original issue price. Any sale by you prior to the scheduled redemption date could result in a substantial loss to you. See the immediately following risk factor for information about additional factors that may impact any secondary market prices of the Securities.

5.3 The Securities are designed to be buy-to-hold instruments and the value and quoted price of your Securities (if any) at any time prior to redemption will reflect many factors and cannot be predicted

Generally, the market value of your Securities will be affected by the volatility, level, value or price of the Reference Asset(s) at the time, changes in interest rates, the financial condition of the Issuer (whether such changes are actual or perceived) and credit ratings, the supply of and demand for the Securities, the time remaining until the maturity of the Securities and a number of other factors. Some of these factors are interrelated in complex ways and as a result, the effect of any one factor may be offset or magnified by the effect of another factor.

The Securities are designed to be buy to hold investments. The price, if any, at which you will be able to sell your Securities prior to maturity, may be substantially less than the amount you originally invested. The following paragraphs describe the manner in which the market value of the Securities may be affected in the event of a change in a specific factor, assuming all other conditions remain constant.

- Performance of the Reference Asset(s). The market value of the Securities prior to maturity or prior to the relevant exercise date or period, as applicable, will likely depend substantially on the current level (or, in some cases, performance since the date on which the Securities were originally priced) of the Reference Asset(s) relative to its initial level, value or price. If you decide to sell your Securities prior to maturity when the current level, price or value of the Reference Asset(s) at the time of sale is favourable relative to its initial level, value or price, you may nonetheless receive substantially less than the amount that would be payable at maturity based on that level, value or price because of expectations that the level, value or price will continue to fluctuate until the final level, value or price is determined.

The value of and return on your Securities will depend on the performance of the Reference Asset(s). The performance of the Reference Asset(s) may be subject to unpredictable change over time, which may depend on many factors, including financial, political, military or economic events, government actions and the actions of market participants. Any of these events could have a negative effect on the value of the Reference Asset(s) which in turn could adversely affect the value of and return on your Securities.

See also risk factor 8 '*Risk Factors relating to Securities linked to one or more Reference Asset*'.

- Volatility of the Reference Asset(s). Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility of the Reference Asset(s) or its or their components increases or decreases, the market value of the Securities may be adversely affected. A higher potential coupon rate or yield may be associated with a higher expected volatility in the Reference Asset(s) which may also be associated with a greater risk of losing some or all of your investment.
- Interest rates. The market value of the Securities will likely be affected by changes in interest rates. Interest rates also may affect the economy and, in turn, the value of the Reference Asset(s) (if any) (or its components, if any), which would affect the market value of the Securities.
- Supply and demand for the Securities. In general, if the supply of the Securities decreases and/or the demand increases and/or the demand for the Securities decreases, the market value of the Securities may be adversely affected. The supply of the Securities, and therefore the market value of the Securities, may be affected by inventory positions held by Barclays.
- The Issuer's or the Bank Group's financial condition, credit ratings and results of operations. Actual or anticipated changes in the financial condition of the Issuer or the Bank Group, current credit ratings or results of operations may significantly affect the market value of the Securities. The significant difficulties experienced in the global financial system in recent periods and resulting lack of

credit, lack of confidence in the financial sector, increased volatility in the financial markets and reduced business activity could materially and adversely affect Barclays' business, financial condition, credit ratings and results of operations. However, because the return on the Securities is dependent upon factors in addition to the Issuer's ability to pay or settle its obligations under the Securities (such as the current level, value or price of the Reference Asset(s)), an improvement in the Issuer's financial condition, credit ratings or results of operations is not expected to have a positive effect on the market value of the Securities. These credit ratings relate only to the Issuer's creditworthiness, do not affect or enhance the performance of the Securities and are not indicative of the risks associated with the Securities or an investment in the Reference Asset(s). A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

- Time remaining to maturity. A 'time premium' results from expectations concerning the level, value or price of the Reference Asset(s) during the period prior to the maturity of the Securities. As the time remaining to the maturity of the Securities decreases, this time premium will likely decrease, potentially adversely affecting the market value of the Securities. As the time remaining to maturity decreases, the market value of the Securities may be less sensitive to the volatility in the Reference Asset(s). – see risk factor 6.2 (*Conditions of a secondary market and pricing implications associated with terminating a buy-to-hold investment early*).
- Events affecting or involving the Reference Asset. Economic, financial, regulatory, geographic, judicial, political and other developments that affect the level, value or price of the Reference Asset(s), and real or anticipated changes in those factors, also may affect the market value of the Securities. For example, for Reference Asset(s) composed of equity securities, the financial condition and earnings results of the share issuer, and real or anticipated changes in those conditions or results, may affect the market value of the Securities. In addition, speculative trading by third parties in the Reference Asset(s) could significantly increase or decrease the level, value or price of the Reference Asset(s), thereby exposing the Reference Asset(s) to additional volatility which could affect the market value of the Securities.
- Exchange rates. Depending on the terms of the Securities, movements in exchange rates and the volatility of the exchange rates between the currency of denomination of the Securities and the currency of the Reference Asset(s) (if different) may affect the market value of the Securities.
- Issuer call right. During any period when the Issuer may elect to redeem the Securities, and potentially prior to this period, the market value of the Securities will generally not rise above the price at which they can be redeemed.

The effect of any one or more of the factors specified above may offset some or all of any change in the market value of the Securities attributable to another factor.

These factors may affect the market price of the Securities, including any market price which you receive in any secondary market transaction, and may be: (i) different from the value of the Securities as determined by reference to Barclays' pricing models; and (ii) less than the issue price. As a result, if you sell your Securities prior to scheduled maturity, you may receive back less than your initial investment or even zero.

6. **Risks associated with the liquidity of Securities and availability during a subscription period**

6.1 Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities prior to redemption

You must be prepared to hold the Securities until their scheduled maturity.

The Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid and you may not be able to find a buyer. Therefore, you may not be able to sell your Securities or, if you can, you may only be able to sell them at a price which is substantially less than the original purchase price.

The Issuer may list the Securities on a stock exchange but, in such case, the fact that such Securities are listed will not necessarily lead to greater liquidity. If Securities are not listed or traded on any exchange, pricing information for such Securities may be more difficult to obtain and they may be more difficult to sell.

The Issuer is under no obligation to make a market or to repurchase the Securities (subject to the next paragraph). The Issuer and any Manager may, but are not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation. If any Securities are redeemed in part, then the number of Securities outstanding will decrease. Any of these activities may have an adverse effect on the liquidity and price of the outstanding Securities in the secondary market.

Any of the Issuer or a Manager or other party may, as part of its activities as a broker and dealer in fixed income and equity securities and related products or pursuant to stock exchange listing requirements, make a secondary market in relation to any Securities and may provide an indicative bid price on a daily basis. Any indicative prices so provided shall be determined by the relevant party in its sole discretion taking into account prevailing market conditions and shall not be a representation by such party that any Securities can be purchased or sold at such prices (or at all).

However, any of these parties may suspend or terminate making a market and providing indicative prices without notice, at any time and for any reason. Consequently, there may be no market for the Securities and you should not assume that such a market will exist.

6.2 Conditions of a secondary market and pricing implications associated with terminating a buy-to-hold investment early

Where the Issuer does quote an indicative bid price for the Securities, the Issuer may determine the price in a significantly different manner than other market participants. Any price will depend on an assortment of factors including, but not limited to: (i) the creditworthiness of the Issuer; (ii) the time to maturity or expiry of the Securities; (iii) the then current funding levels of the Issuer taking into account market conditions, including the cost to replace a funding amount represented by the Securities being repurchased for a term equivalent to the time to maturity or expiry; and (iv) the value of the Reference Asset(s) – *see risk factor 5.2 (The secondary market value of the Securities will likely be lower than the original issue price of the Securities)*. For example, without taking into account the value of the Reference Asset, if the Securities are due to mature in five years' time and a Securityholder wanted the Issuer to repurchase its holdings in those Securities, the Issuer may, among other matters, calculate what it would cost to replace the funding amount represented by the Securityholder's repurchase request for the remaining term of the Securities (in this example, five years). The then current market conditions affecting the Issuer's ability to borrow funds for a five year term would influence the level of the secondary market price. The higher the current funding levels for the Issuer as compared to funding levels for a comparable term on the Issue Date, the more likely the secondary market price of the Securities would be negatively affected (without taking into consideration the current value of the Reference Asset(s)). The lower the current funding levels for the

Issuer as compared to funding levels for a similar term on the Issue Date, the more likely the secondary market price of the Securities would be positively affected (without taking into consideration the current value of the Reference Asset(s)).

If the Issuer or Manager elects to make a secondary market, it may suspend or terminate such market at any time and impose other conditions and quote prices that may vary substantially from other market participants. For these reasons, you should not assume that a secondary market will exist, and you should be prepared to hold your Securities until their scheduled maturity. Where the Issuer or Manager elects to offer such secondary market, conditions imposed may include, but are not limited to:

- (a) providing a large bid/offer spread determined by the Issuer in its commercially reasonable discretion by reference to the Issuer's own assessment of the risks involved in providing such secondary market;
- (b) providing the timing that any secondary market quotation will remain open, or in any event, not longer than what the Issuer considers a reasonable time;
- (c) requiring that normal market conditions prevail at such date; and
- (d) limiting the number of Securities in respect of which it is prepared to offer such secondary market.

Any of these conditions may severely limit the availability of any such secondary market and may result in you receiving significantly less than you would otherwise receive by holding the Securities to their scheduled maturity.

6.3 **Over-issuance**

As part of its issuing, market-making and/or trading arrangements, the Issuer may issue more Securities than those which are to be initially subscribed or purchased by third party investors. The Issuer (or the Issuer's Affiliates) may hold such Securities for the purpose of meeting any future investor interest or to satisfy market-making requirements. You should therefore not regard the issue size of any Securities as indicative of the depth or liquidity of the market for such Securities, or of the demand for such Securities.

6.4 **The issue of further Securities may cause the secondary market price of your Securities to decline**

If additional securities or options with the same characteristics or linked to the same Reference Asset(s) as your Securities are subsequently issued, either by the Issuer or another issuer, the supply of securities with such characteristics or linked to such Reference Asset(s) in the primary and secondary markets will increase and may cause the secondary market price of your Securities to decline.

6.5 **The Issuer may withdraw the subscription offer at any time**

In the case of subscription offers, the Issuer may provide that it is a condition to the offer that the Issuer reserves the right to withdraw the offer in whole or in part at any time at the discretion of the Issuer, including for reasons beyond its control, such as extraordinary events, substantial change of the political, financial, economic, legal, monetary or market conditions at national or international level and/or adverse events regarding the financial or commercial position of the Issuer and/or other relevant events that in the determination of the Issuer may be prejudicial to the offer. In such circumstances, the offer will be deemed to be null and void. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.

7. **Risks associated with certain features in relation to the calculation of the interest or principal amount or the delivery of entitlements under the Securities**

7.1 **There are risks relating to floating rates of interest**

The performance of floating interest rates is dependent upon a number of factors, including supply and demand on the international money markets, which are influenced by measures taken by governments and central banks, as well as speculations and other macroeconomic factors. This means that the interest amount payable over the term of the Securities may vary and any of these factors could affect the performance of the floating interest rate and therefore could adversely affect the value and return on your Securities.

(a) **Determination of a floating rate following a floating rate disruption**

If, on any day on which a valuation or determination in respect of a reference rate is to be made, the relevant reference rate is not available, the Determination Agent shall determine the floating rate using one of a pre-determined set of methodologies to determine a substitute rate, which will vary depending on the designated maturity of the relevant reference rate and whether the reference rate is the Euro Overnight Index Average ("**EONIA**") or the Sterling Overnight Index Average ("**SONIA**"). See Base Condition 4.2 (*Interest on Floating Rate Securities*).

For reference rates with a designated maturity of 12 months or less, the Determination Agent shall determine the floating rate using Linear Interpolation. If any of the rates to be used for Linear Interpolation is unavailable, the relevant floating rate shall be the last published offered quotation for the reference rate that appeared on the Relevant Screen Page, subject to a cut-off of five preceding business days from the relevant interest determination date. If no offered quotation is available during such five preceding business days, the relevant floating rate shall be determined using Linear Interpolation, save that the relevant interest determination date for such purpose will be deemed to be the immediately preceding business day on which the rates to be used for Linear Interpolation are both available, subject to a cut-off of five preceding business days. If any of the rates to be used for Linear Interpolation is unavailable the relevant floating rate will be some other rate determined by the Determination Agent.

For reference rates with a designated maturity of more than 12 months, the Determination Agent shall request four banks in the relevant market to provide an offered quotation for the relevant reference rate. If two or more quotations are obtained, such quotations shall be used to determine the floating rate to be used for calculating interest payable for the relevant period. If fewer than two quotations are obtained, the Determination Agent shall determine the floating rate by postponement of the interest determination date to the first business day on which the relevant reference rate is available, subject to a maximum of two business days. If the relevant reference rate remains unavailable for more than two consecutive business days, the relevant floating rate will be some other rate determined by the Determination Agent.

If the reference rate is EONIA, the Determination Agent shall determine the floating rate as the last published offered quotation for the reference rate that appeared on the Relevant Screen Page, subject to a cut-off of five preceding business days from the relevant interest determination date. If no offered quotation is available during such five preceding business days, the relevant floating rate will be some other rate determined by the Determination Agent.

If the reference rate is SONIA, the Determination Agent shall determine the floating rate as (i) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing at the close of business on the London Business Day preceding the

relevant London Business Day on which SONIA was to be determined by such number of days as specified in the Pricing Supplement (the "**Bank Rate London Business Day**"); plus (ii) the mean of the spread of the SONIA reference rate to the Bank Rate over the five London Business Days prior to the Bank Rate London Business Day on which a SONIA reference rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate. If the Determination Agent is unable to determine the floating rate in this way, the floating rate will be some other rate determined by the Determination Agent.

There is a risk that the determination of the floating rate using any of these methodologies may result in a lower interest amount payable to you than the use of other methodologies.

(b) **Reference rate discontinuance**

If the calculation and publication of the relevant reference rate is permanently discontinued, the Determination Agent shall determine the floating rate using alternative arrangements which will vary depending on the reference rate. See Base Condition 4.2 (*Interest on Floating Rate Securities*).

If a pre-nominated reference rate (the "**Pre-nominated Index**") has been specified in the Pricing Supplement in respect of the discontinued reference rate, the Pre-nominated Index will be substituted for the discontinued reference rate for all purposes of the Securities, and the Determination Agent may adjust any variable described in this Offering Circular (including, without limitation, any barrier to the reference rate) as, in good faith judgement of the Determination Agent, may be necessary to render the Pre-nominated Index comparable to the discontinued reference rate for the purposes of the Securities.

If a Pre-nominated Index has not been specified in the Pricing Supplement and the reference rate is not EONIA or SONIA, the Determination Agent may identify an alternative rate that it determines represents the same or a substantially similar measure or benchmark as the relevant reference rate, and the Determination Agent may deem that rate (the "**Successor Rate**") to be the reference rate. If a Successor Rate is selected, that Successor Rate will be substituted for the discontinued reference rate for all purposes of the Securities, and the Determination Agent may adjust any variable described in this Offering Circular (including, without limitation, any barrier to the reference rate), as, in the good faith judgement of the Determination Agent, may be necessary to render the Successor Rate comparable to the discontinued reference rate for purposes of the Securities. If no Successor Rate is available, then the Determination Agent will determine the floating rate on each subsequent date of determination using Linear Interpolation. If any of the rates to be used for Linear Interpolation is unavailable, or otherwise the Determination Agent does not determine the Floating Rate of interest, an Additional Disruption Event will be deemed to have occurred and the Determination Agent will adjust, redeem and/or cancel the Securities.

If the reference rate is EONIA or SONIA, the Determination Agent may identify an alternative reference rate that it determines represents the same or a substantially similar measure or benchmark as EONIA or SONIA, and the Determination Agent may deem that successor reference rate to be the reference rate. If a successor reference rate is selected, that successor reference rate will be substituted for the discontinued reference rate for all purposes of the Securities, and the Determination Agent may adjust any variable described in this Offering Circular (including, without limitation, any barrier to the reference rate), as, in the good faith judgement of the Determination Agent, may be necessary to render the successor reference rate comparable to the discontinued reference rate for purposes of the Securities. If no successor reference rate is

available, or otherwise the Determination Agent does not determine the Floating Rate of interest, an Additional Disruption Event will be deemed to have occurred and the Determination Agent will adjust, redeem and/or cancel the Securities.

Notwithstanding these alternative arrangements, the discontinuance of the relevant reference rate may adversely affect the market value of the Securities.

7.2 There are risks relating to interest linked to one or more Reference Asset(s)

The Securities may bear interest at a rate that is contingent upon the performance of one or more Reference Asset(s) and may vary from one interest payment date to the next. The interest rate reflected by any given interest payment may be less than the rate that the Issuer (or any other bank or deposit-taking institution) may pay in respect of deposits for an equivalent period and may be zero. If interest payments are contingent upon the performance of one or more Reference Asset(s), you should be aware of the risk that you may not receive any interest payments if the Reference Asset(s) do not perform as anticipated. See also risk factor 5.3 (*The Securities are designed to be buy-to-hold instruments and the value and quoted price of your Securities (if any) at any time prior to redemption will reflect many factors and cannot be predicted*).

7.3 There are risks where your Securities have a 'memory' interest feature

If the Securities include a 'memory' feature, the payment of interest will be conditional on the value or performance of the Reference Asset. The interest amount payable will be zero on an interest payment date if the Reference Asset does not perform in accordance with the terms of the Securities although such payment will be deferred to the next interest payment date. If the Reference Asset meets the performance criteria, the interest payable will be an amount for the current interest payment date plus any amounts deferred from previous interest payment dates where interest was not paid. You will not be paid any interest or other allowance for the deferred payments of interest and it is possible that the Reference Asset never meets the performance criteria, meaning that you will not receive any interest at all for the lifetime of the Securities.

7.4 There are risks where your Securities have a 'digital' interest feature

If the Securities include a 'digital' feature, the higher pre-determined interest amount is only paid if the level, price or other applicable value of the Reference Asset(s) on the relevant valuation date(s) meets the performance criteria; otherwise the lower pre-determined interest amount (which may be zero) will be paid. It may be possible that you will not receive any interest at all for the lifetime of the Securities.

7.5 There are risks where your Securities have a 'range accrual' feature

If the Securities include a 'range accrual' feature, then interest will only be paid if the level, price or other applicable value of the Reference Asset(s) on the relevant valuation date(s) is at or above one or more specific lower barrier(s) and, if applicable, also at or below one or more specific upper barrier(s). It is possible that such level, price or other applicable value of the Reference Asset(s) on the relevant valuation date(s) will not be at or above the lower barrier(s) or, if applicable, not be within the range during the relevant interest determination period, and therefore, no interest will be payable on the relevant interest payment date. This means that the amount of interest payable to you over the term of the Securities will vary and may be zero.

7.6 There are risks where your Securities have a 'leverage' feature

'Leverage' refers to the use of financial techniques to gain additional exposure to the Reference Asset(s). A leverage feature will magnify the impact of the performance of the Reference Asset(s) to cause a greater or lower return on the Securities than would otherwise be the case in the absence of leverage. As such, a leverage feature magnifies losses in adverse market conditions. In the terms of the Securities, the leverage feature may be referred to variously as 'Participation', 'Leverage', 'Variable', 'Factor' and

'Multiplier', or other term and the Securities will have 'leverage' where any of these factors is equal to more than 100 per cent (or 1.00). The inclusion of such a leverage feature in the Securities means that the Securities will be more speculative and riskier than in the absence of such feature, since smaller changes in the performance of the Reference Asset(s) can reduce (or increase) the return on the Securities by more than if the Securities did not contain a leverage feature. You should be aware that a small movement in the value of the Reference Asset(s) can have a significant effect on the value of the Securities. Securities with a leverage feature are more likely to fall for automatic cancellation in accordance with their terms below. In such event, you may lose some or all of your investment.

7.7 There are risks where your Securities are 'open-ended', including minis and turbos

If your Securities are 'open-ended' - meaning that they do not provide for an expiration date or maturity date but may continue indefinitely until either you exercise your right to put the Securities or the Issuer exercises its right to call the Securities - you are subject to certain risks, including:

- (a) **exercise of an Issuer call option or investor put option:** the yields received upon cancellation following a call by the Issuer or your exercise of the investor put may be lower than expected, and the amount received by you may be lower than the initial price you paid for the Securities and may be zero (see also risk factor 9.4 (*The Securities may be redeemed early following the exercise by the Issuer of a call option or by the investor of a put option*));
- (b) **automatic cancellation of open-ended Securities:** the terms and conditions of your Securities may provide that the Securities will automatically be cancelled early if a specified early cancellation event occurs. A specified early cancellation event may occur if the price or level of the Reference Asset falls to or below (in the case of Securities giving long exposure to the Reference Asset) or rises to or above (in the case of Securities giving short exposure to the Reference Asset) the outstanding amount of the financing provided by the Issuer (as adjusted by any applicable premium). In the event that such a specified early cancellation event occurs, you may be paid a settlement amount calculated based on the price or level of the Reference Asset and the outstanding financed amount and you will not benefit from any subsequent movement in the price or level of the Reference Asset or you may be paid a fixed settlement amount that may be substantially less than the value of the Securities. In such circumstances you are likely to receive less than the amount you originally invested and you could receive zero;
- (c) **additional risks in relation to automatic cancellation of open-ended Securities:** you are also exposed to the risk of losing some or all of your investment if the Issuer is unsuccessful in unwinding its hedging position at a certain level of the Reference Asset, which is calculated by the Issuer, exceeding or below (as the case may be) a certain financing level, which is calculated by the Issuer, on the day on which the specified early cancellation event occurs. This risk exists especially in situations when the value of the Reference Asset decreases considerably or increases considerably (as the case may be) between close of the trading session on one trading day and beginning of the trading session on the following trading day.

You should also take note that the specified early cancellation event may occur outside the hours during which the Securities may be traded. For example, if the Reference Asset trades on a US market and the Securities trade on a non-US market, the value of the Reference Asset may move in the direction approaching the specified early cancellation event at the time when trading on the Securities is closed. In such event, you will not be able to trade the Securities when the value of the Reference Asset approaches the specified early cancellation event;

- (d) **increased risk in an investment in leveraged Securities:** the terms and conditions of your Securities may enable you to participate in any gains or falls in the value of the Reference Asset, by investing only part of the value of the Reference Asset with the remaining portion financed by the Issuer. Leverage makes it more likely that the Securities will fall for automatic cancellation in accordance with their terms as described above. In such event, you may lose some or all of your investment (see also risk factor 7.6 (*There are risks where your Securities have a 'leverage' feature*)); and
- (e) **your return will be reduced through the application of fees:** the amount payable upon the exercise or cancellation of the Securities will be reduced by the application of certain fees (including, if applicable, any Issuer's financing costs, currency hedging costs and management fee). Such fees will accrue on a daily basis throughout the life of the Securities. Accordingly, the longer you hold Securities, the greater the amount of such fees to be deducted from the settlement amount of the Securities will be.

7.8 There are risks where your Securities have an 'averaging' feature (averaging over a series of valuation dates)

Where the terms and conditions of your Securities include an averaging feature, the return on your Securities will depend on an initial price and/or final price which is the arithmetic average of the applicable levels, prices or other applicable values of the Reference Asset(s) on the specified averaging dates, rather than on one initial valuation date and/or final valuation date. This means that if the applicable level, price or value of the Reference Asset(s) dramatically changes on one or more of the averaging dates, the return on your Securities may be significantly less than it would have been if the amount payable or property deliverable had been calculated by reference to a single value taken on an initial valuation date or final valuation date.

7.9 There are risks where your Securities have a 'lookback' feature

Where the terms and conditions of your Securities provide that 'min lookback-out' applies, the return on your Securities will depend on the lowest of the applicable levels, prices or other applicable values of the Reference Asset(s) on the specified 'lookback-out' dates, rather than a single final valuation date. This means that if the applicable level, price or value of the Reference Asset(s) dramatically falls on one of the 'min lookback-out' dates, the return on your Securities may be significantly less than it would have been if the amount payable or property deliverable had been calculated by reference to a single value taken on a single valuation date or another method.

Where the terms and conditions of your Securities provide that 'max lookback-in' applies, the return on your Securities will depend on the maximum of the applicable levels, prices or other applicable values of the Reference Asset(s) on the specified 'lookback-in' dates, rather than a single initial valuation date. This means that if the applicable level, price or value of the Reference Asset(s) dramatically surges on one of the 'lookback-in' dates, the return on your Securities may be significantly less than it would have been if the amount payable or property deliverable had been calculated by reference to a single value taken on a single valuation date or another method.

7.10 There are risks where your Securities include a 'cap'

Where the terms and conditions of your Securities provide that the amount payable or property deliverable is subject to a pre-defined cap, your ability to participate in any positive change in the value of the Reference Asset(s) (or any positive change in floating interest rates) will be limited, no matter how much the level, price or other value of the Reference Asset(s) (or floating interest rates) rises above the cap level over the life of the Securities. Accordingly, the value of or return on your Securities may be significantly less than if you had purchased the Reference Asset(s) (or invested in instruments which pay an uncapped floating rate of interest) directly.

Securities that include a 'floor', whereby the amount payable or property deliverable is subject to a pre-defined minimum amount, will typically also include a cap which limits the participation of the Securities to the potential upside performance of the Reference Asset(s).

7.11 There are risks where your Securities reference a basket of Reference Asset(s)

Where Securities reference a basket of assets as Reference Asset(s), you will be exposed to the performance of each Reference Asset in the basket and you should refer to the relevant risk factors in this section relating to each of the asset classes represented. You should also consider the level of interdependence or 'correlation' between each of the basket constituents with respect to the performance of the basket. If the Reference Asset(s) are correlated, the performance of the Reference Asset(s) in the basket can be expected to move in the same direction.

You should be aware that the performance of a basket with fewer constituents will be more affected by changes in the values of any particular basket constituent than a basket with a greater number of basket constituents. Additionally, you should note that the performance of a basket that gives a greater 'weight' to a basket constituent, as compared to other basket constituents, will be more affected by changes in the value of that particular basket constituent than a basket which apportions an equal weight to each basket constituent.

The performance of basket constituents may be moderated or offset by one another. This means that, even in the case of a positive performance of one or more constituents, the performance of the basket as a whole may be negative if the performance of the other constituents is negative to a greater extent.

7.12 There are risks where your Securities have a 'worst-of' feature

Where the terms and conditions of your Securities include a 'worst-of' feature, you will be exposed to the performance of the Reference Asset(s) which has the worst performance, rather than the basket as a whole.

This means that, regardless of how the other Reference Asset(s) perform, if the worst performing Reference Asset in the basket fails to meet a relevant threshold or barrier for the payment of interest or the calculation of any redemption amount, you might receive no interest payments or return on your initial investment and you could lose some or all of your investment.

7.13 There are risks where your Securities have a minimum scheduled redemption amount feature

If your Securities do not provide for a minimum scheduled redemption amount payable at maturity, you may lose some or all of your investment, depending on the performance of the Reference Asset(s).

If your Securities do provide for a minimum scheduled redemption amount payable at maturity, you must hold them until maturity; otherwise, you may receive less than your original invested amount if you sell your Securities prior to maturity (assuming that you are able to sell them). All payment and delivery obligations of the Issuer under the Securities are subject to the credit risk of the Issuer: if the Issuer fails or goes bankrupt or enters into a resolution regime, you will lose some or all of your investment.

7.14 There are risks where your Securities have a 'barrier' feature

If the calculation of interest or the calculation of any redemption amount depends on the level, value or price of the Reference Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities, such interest or redemption amount may alter dramatically depending on whether the barrier is reached or crossed (as applicable). This means you may receive less (or, in certain cases, more) if the level, value or price of the Reference Asset(s) crosses or reaches (as applicable) a

barrier, than if it comes close to the barrier but does not reach or cross it (as applicable), and in certain cases you might receive no interest payments and/or could lose some or all of your investment.

7.15 There are risks where the redemption of your Securities depends only on the final performance

If your Securities determine the redemption amount based on the performance of the Reference Asset(s) as at the final valuation date only (rather than in respect of multiple periods throughout the term of the Securities) then you may not benefit from any movement in level, value or price of the Reference Asset(s) during the term of the Securities that is not reflected in the final performance.

7.16 There are risks where your Securities have a 'rainbow' feature

Where the terms and conditions of the Securities reference a basket of assets as Reference Asset(s) and include a 'rainbow' feature, the 'weight' assigned to each basket constituent is not fixed and will change throughout the term of the Securities depending on the relative performance of each basket constituent as compared to each other basket constituent as measured at the relevant times. For example, a specified weight will be assigned to whichever of the basket constituents is the best performing basket constituent in respect of the relevant observation dates, another specified weight will be assigned to whichever of the basket constituents is the second best performing basket constituent in respect of the relevant observation dates, and so on. Depending on the relative weight assigned in respect of the relevant performance and the payout terms of the Securities, the 'rainbow feature' could have a significant negative (or positive) effect on the value of, and return, on the Securities. For example, if (i) the weight assigned to the best performing basket constituent over a particular period is zero per cent. and (ii) the payout on the Securities is positively linked to the overall performance of the basket of Reference Assets, then it is likely that the 'rainbow feature' may have the effect of reducing the value of, and return on, the Securities than if the weights of each basket constituent were instead fixed in advance. You will therefore not know at the time of purchasing the Securities what the respective weights of the basket constituents will be. You will also be exposed to the other risks of Securities which reference a basket of Reference Assets – see risk factor 7.11 (*There are risks where your Securities reference a basket of Reference Asset(s)*) above.

7.17 There are risks where your Securities have a 'digital downside' feature

Where the terms and conditions of the Securities include a 'digital downside' feature, and the performance of the Reference Asset falls below such barrier, you will lose a fixed amount of your investment. As the amount payable in such circumstances is fixed then, depending on how far below the barrier the Reference Asset falls and the fixed amount payable in such case, the proportion of the amount of your investment which you will lose could be greater than the proportion by which the Reference Asset has fallen as against its initial level. You will also be exposed to the other risks of Securities which reference a 'barrier' feature – see risk factor 7.14 (*There are risks where your Securities have a 'barrier' feature*) above.

8. Risk Factors relating to Securities linked to one or more Reference Asset(s)

Securities linked to one or more Reference Asset(s) have a different risk profile to other unsecured debt securities and a particular issue of Securities may have features which contain particular risks. This section describes the most common features and related additional factors which you should take into account when considering an investment in such Securities.

8.1 Past performance of a Reference Asset(s) is not indicative of future performance

Any information about the past performance of a Reference Asset(s) should not be regarded as indicative of any future performance of such Reference Asset, or as an indication of the range of, or trends or fluctuations in, the price or value of such

Reference Asset(s) that may occur in the future. It is not possible to predict the future value of the Securities based on such past performance. Actual results will be different, and such differences may be material.

8.2 You will have no claim against or interest in any Reference Asset(s)

The Securities are unsecured, and the Issuer has no obligation to hold the Reference Asset(s). You will not have any legal or beneficial rights of ownership in the Reference Asset(s). For example, where the Reference Asset(s) is a share, you will have no voting rights, no rights to receive dividends or other distributions or any other rights with respect to the Reference Asset(s). In addition, you will have no claim against any share issuer, index sponsor, fund issuer, fund sponsor or any other third party in relation to a Reference Asset(s); such parties have no obligation to act in your interests. Accordingly, you may receive a lower return on the Securities than you would have received had you invested directly in the Reference Asset(s).

8.3 There are certain risks if you are purchasing Securities for hedging purposes

If you are intending to purchase Securities as a hedge instrument, you should recognise the complexities of utilising Securities in this manner. Due to fluctuating supply and demand for the Securities and various other factors, there is a risk that the value of the Securities may not correlate with movements of the Reference Asset(s), and the Securities may not be a perfect hedge for the Reference Asset(s) or a portfolio containing the Reference Asset(s). In addition, it may not be possible to liquidate the Securities at a level which reflects the price, level or value of the Reference Asset(s).

8.4 Non-trading days or market disruption events may adversely affect the value of and return on your Securities

If the Determination Agent determines that a scheduled valuation date falls on a day which is not a scheduled trading day or any other day which is subject to adjustment in accordance with the terms and conditions of the Securities, then the relevant valuation date may be postponed until the next scheduled trading day.

The Determination Agent may determine that the markets have been affected in a manner that prevents it from properly determining the value of a Reference Asset(s) on a scheduled valuation date. These events may include disruptions or suspensions of trading in the markets as a whole. In such case, the valuation date will be postponed and the value of and return on the Securities could be adversely affected.

If any valuation date is postponed to the last possible day and the market disruption event is still occurring on that day or such day is not a trading day, the Determination Agent will nevertheless determine the value of that Reference Asset(s) on such last possible day. Any such determination may negatively impact the value of and return on the Securities.

8.5 There are particular risks where your Securities are linked, directly or indirectly, to Reference Asset(s) located in or otherwise exposed emerging markets

If your Securities are linked, directly or indirectly, to Reference Asset(s) issued by issuers in, or comprised of assets or constituents located in emerging market jurisdictions, you should be aware that investments linked to emerging markets involve additional risks to those typically seen in more developed markets, including generally increased volatility, higher likelihood of governmental intervention and the lack of a developed system of law.

Such Securities may also be exposed to the risks of economic, social, political, financial and military conditions in such jurisdictions, including, in particular, political uncertainty and financial instability; the increased likelihood of restrictions on export or currency conversion; the greater potential for an inflationary environment; the possibility of nationalisation or confiscation of assets; the greater likelihood of regulation by national, provincial and local governments, including the imposition of

currency exchange laws and taxes; less liquidity in emerging market currency markets as compared to the liquidity in developed markets and less favourable growth prospects, capital reinvestment, resources and self-sufficiency.

There is generally less publicly available information about emerging market issuers and potentially less developed accounting, auditing and financial reporting standards and requirements and securities trading rules. Furthermore, the small size of the securities markets and relative inexperience of local market participants in certain emerging market countries and the limited volume of trading in securities may make the Reference Asset(s) illiquid and more volatile than investments in more established markets.

Any or all of these risks may have a negative impact on the value of and return on Securities with exposure to emerging markets.

9. **Risks associated with early redemption (including autocall features) or adjustment of the Securities**

9.1 **If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk**

The Securities may be redeemed prior to their scheduled redemption date, and you are therefore subject to the following risks:

- risk of loss of investment: depending on the circumstance in which your Securities are redeemed prior to their scheduled redemption date, the amount of redemption proceeds you receive may be less than your original investment (see below and, in particular, risk factor 9.6 (*There are costs associated with any early redemption of Securities (other than an automatic (autocall) redemption) that will reduce the amount otherwise payable or deliverable*));
- risk of loss of opportunity: in the event that your Securities are redeemed prior to their scheduled redemption date, you will lose the opportunity to participate in any subsequent positive performance of the Reference Asset(s) and be unable to realise any potential gains in value of the Securities; and
- reinvestment risk: following such early redemption, you may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest rate for a similar level of risk. You should consider such reinvestment risk in light of other available investments before you purchase the Securities.

The circumstances in which your Securities may be redeemed prior to their scheduled redemption date and the amount you can expect to receive in such case are described below.

Also, in certain circumstances, the terms of your Securities may be adjusted by the Issuer or the Determination Agent, which adjustment could have an adverse effect on the value of and return on your Securities. These circumstances include following an Additional Disruption Event (as described below), a redenomination, an index correction, a manifest error in index calculation and a potential adjustment event in relation to shares.

9.2 **Your Securities may redeem early following an 'automatic redemption (autocall) event'**

The terms of your Securities may provide that they will be automatically redeemed prior to the scheduled redemption date if an automatic redemption (autocall) event occurs. An automatic redemption (autocall) event will occur if the level, price, value or performance of the Reference Asset(s) breaches one or more specified thresholds on one or more specified dates. In the event that such an automatic redemption (autocall)

event occurs, you will be paid an early redemption amount equal to the Calculation Amount or such other amount specified in the terms and conditions. In such case, you may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest rate for a similar level of risk. You should consider such reinvestment risk in light of other available investments before you purchase the Securities. In the event that an automatic redemption (autocall) event does not occur during the term of your Securities, you may lose some or all of your investment at maturity, depending on the performance of the Reference Asset(s) and the specific terms and conditions of your Securities.

9.3 Your Securities may redeem early or may be adjusted by the Determination Agent following an 'Additional Disruption Event', 'FX Disruption Event', or early redemption for unlawfulness or impracticability

There are certain events – relating to the Issuer, its hedging arrangements, the Reference Asset(s), taxation or the relevant currency – the occurrence of which may cause the Securities to be redeemed prior to their scheduled redemption date:

(a) Additional Disruption Events

'Additional Disruption Events' include (but are not limited to):

- unless specified to be not applicable to the Securities, a tax event causing the Issuer to pay additional amounts under the terms and conditions of the Securities;
- unless specified to be not applicable to the Securities, an extraordinary market disruption event preventing the Issuer's performance of its obligations under the Securities;
- an extraordinary and/or disruptive event relating to the existence, continuity, trading, valuation, pricing or publication of a Reference Asset;
- unless specified to be not applicable to the Securities, an event impacting one or more currencies that the Issuer determines would materially disrupt or impair its ability to meet its obligations or otherwise settle, clear or hedge the Securities;
- if specified to be applicable to the particular Securities, the Issuer's ability to source or unwind related transactions put in place to provide the returns on the Securities (Hedge Positions) is adversely affected in any material respect;
- unless specified to be not applicable to the Securities, a change in law that means it has become, or is likely to become, illegal for the Issuer to hold Hedge Positions or it will incur a materially increased cost in dealing with Hedge Positions;
- other circumstances specific to the Reference Assets which may be designated as an Additional Disruption Event in accordance with the terms and conditions of the Securities; and
- if the Securities are CREST Securities, loss of CREST eligibility of such Securities.

If any of these events occurs, the Issuer may:

- adjust the terms and conditions of the Securities (without the consent of Securityholders); or

- if the Determination Agent determines that no adjustment that could be made would produce a commercially reasonable result and preserve substantially the economic effect to the holders of a holding of the relevant Security, redeem the Securities prior to their scheduled redemption date.

Any adjustment made to the terms and conditions of the Securities (which may include a reduction in the amount otherwise payable or deliverable under the Securities in order to reflect increased costs or otherwise to the Issuer) may have a negative effect on the value of and return on the Securities.

In the event of early redemption of your Securities due to the occurrence of any of the above events, the early redemption amount you will receive will be equal to the fair market value of your Securities prior to redemption. The market value may include allowances for costs associated with the early redemption, such as those incurred by the Issuer in unwinding any related transactions which were put in place to provide the returns on the Securities. In any case, **the early redemption amount you will receive may be less than your original investment and you could lose some or all of your investment.**

See also risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*), and risk factor 9.6 (*There are costs associated with any early redemption of Securities (other than an automatic (autocall) redemption) that will reduce the amount otherwise payable or deliverable*).

(b) **Unlawfulness or impracticability**

If the Issuer determines that the performance of any of its absolute or contingent obligations under the Securities has become unlawful or a physical impracticability, in whole or in part, the Issuer may redeem the Securities prior to their scheduled redemption date.

In the event of early redemption of your Securities due to the occurrence of any of the above events, the early redemption amount you will receive will be equal to the fair market value of your Securities prior to redemption. The market value may include allowances for costs associated with the early redemption, such as those incurred by the Issuer in unwinding any related transactions which were put in place to provide the returns on the Securities. In any case, **the early redemption amount you will receive may be less than your original investment and you could lose some or all of your money.**

See also risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*), and risk factor 9.6 (*There are costs associated with any early redemption of Securities (other than an automatic (autocall) redemption) that will reduce the amount otherwise payable or deliverable*).

(c) **FX Disruption Event**

An 'FX Disruption Event' is an event occurring on or prior to a payment date that prevents or delays the conversion into the settlement currency of the Securities, including capital controls or other restrictions in the relevant jurisdiction. If 'FX Disruption Event' is applicable in the terms and conditions of your Securities, the Issuer may, following the occurrence of an FX Disruption Event, deduct costs, expenses or charges in connection with such FX Disruption Event, pay in another currency, postpone the relevant valuation or payment date, designate an alternative fallback or price source or treat the FX Disruption Event as an Additional Disruption Event and apply the corresponding adjustments or early redemption – see also risk factor 9.1 (*If your Securities are*

redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk) above.

9.4 The Securities may be redeemed early following the exercise by the Issuer of a call option or by the investor of a put option

Where the terms and conditions of your Securities provide that the Issuer has the right to call the Securities, following the exercise by the Issuer of such option, you will no longer be able to realise your expectations for a gain in the value of such Securities and, if applicable, will no longer participate in the performance of the Reference Asset(s).

Also, an optional redemption feature of Securities is likely to limit the market value of your Securities. During any period when the Issuer may elect to redeem Securities, the market value of the Securities generally will not rise above the price at which they can be redeemed. This also may be true prior to the beginning of any redemption period.

The Issuer is under no obligation to consider the interests of Securityholders when it determines whether or not to exercise its call option, and the Issuer may be expected to redeem Securities when its cost of borrowing is lower than the effective interest rate on the Securities. At those times, you generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the effective interest rate on the Securities being redeemed and may only be able to do so at a significantly lower rate. You should consider such reinvestment risk in light of other currently available investments.

You should also be aware that there may be additional costs of Securities which include an investor put option.

9.5 The Securities may be redeemed early following a Nominal Call Event

Where the terms and conditions of your Securities provide that 'Nominal Call Event' applies, the Issuer may redeem your Securities prior to their scheduled redemption date if the aggregate nominal amount or the number of Securities outstanding drops below a specified threshold (being 10 per cent, or, if applicable, such lesser percentage as specified in the Pricing Supplement of the aggregate nominal amount or number of Securities as at the first Issue Date of the Securities). In such case, you will receive an early redemption amount equal to the fair market value of your Securities on the call date (as determined by the Determination Agent) less costs associated with the Issuer's hedging arrangements. **The early redemption amount you will receive may be less than your original investment and you could lose some or all of your investment.**

See also risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*), and risk factor 9.6 (*There are costs associated with any early redemption of Securities (other than an automatic (autocall) redemption) that will reduce the amount otherwise payable or deliverable*).

9.6 There are costs associated with any early redemption of Securities (other than an automatic (autocall) redemption) that will reduce the amount otherwise payable or deliverable

If the Securities are redeemed prior to their scheduled maturity (other than due to an automatic (autocall) redemption), the amount payable or deliverable will be determined as equal to the market value of the Securities as soon as reasonably practicable on the relevant date and by reference to such factors as the Determination Agent considers to be appropriate. Such factors may include market prices or values for the Reference Asset(s) and other relevant economic variables (such as interest rates and, if applicable, exchange rates) at the relevant time, the remaining term of the Securities had they remained outstanding to scheduled maturity or expiry and/or any scheduled early redemption or exercise date, the value at the relevant time of any minimum redemption

or cancellation amount which would have been applicable had the Securities remained outstanding to scheduled maturity or expiry and/or any scheduled early redemption or exercise date, internal pricing models and prices at which other market participants might bid for securities similar to the Securities. The amount may also be adjusted to take into account any costs, charges, fees, accruals, losses, withholdings and expenses in connection with hedging unwind and funding breakage costs, Local Jurisdiction Taxes and Expenses and certain other taxes, prices or expenses paid (in each case, if any and as applicable as set out in the terms and conditions of the Securities). Such costs, losses and expenses will reduce the amount you will receive on such early redemption and may reduce such amount to zero. The Issuer is not under any duty to hedge itself at all or in any particular manner, and is not required to hedge itself in a manner that would (or may be expected to) result in the lowest costs, losses and expenses.

10. Risks associated with the 'capital protected' or 'principal protected' Securities or Securities which otherwise provide for a minimum amount to be payable on redemption

If the Securities are specified in the Pricing Supplement to be 'capital protected' (or 'principal protected' or otherwise provide for scheduled minimum payment at maturity), such 'capital protection' feature only applies at maturity. If such Securities redeem or are cancelled prior to their scheduled maturity, they may return less than the 'protected' or scheduled minimum amount or even zero. The 'protected' or scheduled minimum amount may also be less than the issue price of the Securities, so if you acquire the Securities (whether on issue or in the secondary market) for an amount that is higher than the capital protected amount, even at maturity, you risk losing the difference between the price you paid for the Security and the 'protected' or scheduled minimum amount at maturity.

11. Risks associated with certain other miscellaneous features and terms of the Securities, including discretions, Issuer substitution and amendments, amongst others

11.1 Discretionary determinations made by the Determination Agent may have a negative impact on the Securities

Any determination made by the Determination Agent will be made in good faith and in a commercially reasonable manner and, in the absence of manifest or proven error, shall be conclusive and binding on all persons (including, without limitation, the Securityholders), notwithstanding the disagreement of such persons or other financial institutions, rating agencies or commentators. Any such determination could adversely affect the value of and return on the Securities. See also risk factor 30 (*Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements*).

11.2 The Issuer may be substituted for another entity without your consent

The Issuer may substitute itself as the principal obligor under the Securities for any other company which has an equivalent or better rating of long-term unsecured, unsubordinated and unguaranteed debt obligations from an internationally recognised rating agency. Following such a substitution, the original Issuer entity will be released from all payment and delivery obligations under the Securities, and you will become subject to the credit risk of the substitute issuer under your Securities. You will have no right of claim against the original Issuer or the substituted Issuer in the event that such substitution has adverse tax consequences for you. A substitution of the Issuer may affect any listing of the Securities and, in particular, it may be necessary for the substituted issuer to reapply for listing on the relevant market or stock exchange on which the Securities are listed.

11.3 Regulatory Disclosure

The Issuer or its Affiliates may, without the consent of or notice to the Securityholders, disclose to any of their Affiliates, agents and/or the relevant Authorities at any time (including, for the avoidance of doubt, any time after the Redemption Date of the

relevant Security), such information relating to the Security, the Securityholder and/or its agents (including, without limitation, the name of the Securityholder and/or its agents), in order for the Issuer, its Affiliates and/or its agents to comply with any applicable laws, rules, regulations, codes, orders, directives, guidelines, policies and/or practices of the relevant Authority.

For the purposes of the above paragraph:

"**Authority**" means any relevant authority, regulator, exchange, clearing house, repository, depository, alternative trading system, electronic communication network, settlement system, court or similar body and/or entity in any jurisdiction to which the Issuer, its Affiliates and/or its agents and/or the Share Company are subject, or to which the Hedge Positions relate.

11.4 If you have not fully satisfied each of the conditions to settlement, delivery of any property deliverable to you and/or payment under the Securities shall be postponed and may ultimately be forfeit

If the Issuer determines that you have not satisfied each of the conditions to settlement in full, payment of the amount payable or delivery of the property deliverable to you will not take place until all such conditions to settlement have been satisfied in full. No additional amounts will be payable to you by the Issuer because of any resulting delay or postponement. Furthermore, if you have not fully satisfied each of the conditions to settlement by the 180th calendar day (or such other period as specified in the terms and conditions of the Securities) following the final settlement cut-off date, you will lose your right to claim the delivery entitlement under your Securities or any cash payment, and you shall have no further claim against the Issuer under your Securities.

If the Securities are to be settled by way of physical settlement, the Issuer's obligation to deliver the relevant property is subject to various additional conditions, including, without limitation, your obligation to deliver to the Issuer a delivery entitlement instruction within the prescribed time frame. No delivery will be made in respect of a physically settled Security unless the Issuer has received the required instructions, certifications and information and, where applicable, the relevant Security has been delivered and surrendered in accordance with the terms of the Master Agency Agreement, the terms and conditions of the Securities and the terms of any relevant Global Security.

11.5 Settlement disruption risk

Certain settlement disruption events may occur which could restrict the Issuer's ability to make payments and/or deliver entitlements (in the case of Securities which provide for settlement by way of physical delivery), and the date of delivery of payments and/or entitlements could be delayed accordingly. In the case of a Physically Delivered Security, where the delivery of the relevant entitlement using the method of delivery specified in the terms and conditions of the Securities is or is likely to become impossible or impracticable by reason of a settlement disruption event having occurred and continuing on the physical delivery date, such date will first be postponed and the Issuer also has the right to either (i) deliver some or all of the entitlement using such other commercially reasonable manner as it may select, or (ii) pay an amount in lieu of delivering the relevant entitlement. Such a disruption event and related determinations may have an adverse effect on the value of the relevant Security.

11.6 There are certain risks where your Securities provide for settlement by way of physical delivery of the relevant Reference Asset(s)

The following risks apply where your Securities provide for settlement by way of physical delivery of the relevant Reference Asset(s). Any of these features could have a negative effect on the value of and return on the Securities.

(a) **Conditions to settlement**

See risk factor 11.4 (*If you have not fully satisfied each of the conditions to settlement, delivery of any property deliverable to you and/or payment under the Securities shall be postponed and may ultimately be forfeit*).

(b) **Settlement disruption risk**

See risk factor 11.5 (*Settlement disruption risk*).

(c) **Entitlement Substitution**

If the terms and conditions of your Securities provide that 'Entitlement Substitution' applies, where the Issuer determines that the relevant property to be delivered is not freely transferable, it is unable to acquire the relevant property or the price has been significantly affected by illiquidity, the Issuer may elect to either (i) substitute the affected entitlement components and deliver substitute assets, or (ii) not deliver the affected entitlement components and to pay an amount in lieu thereof to Securityholders. This may result in you being exposed to the issuer of the substituted assets (as well as any custodian holding such assets). Also, if the substituted assets are physically delivered upon redemption of the Securities, you may not be able to sell such substituted assets for a specific price and, under certain circumstances, the delivered assets may have a very low value and may be worth zero. You may also be subject to documentary or stamp taxes and/or other charges in relation to the delivery and/or disposal of such assets.

11.7 The terms and conditions of your Securities may be amended by the Issuer without your consent in certain circumstances

The terms and conditions of the Securities may be amended by the Issuer without the consent of the Securityholders in any of the following circumstances:

- to cure a manifest or proven error or omission;
- where such amendment will not materially and adversely affect the interests of Securityholders;
- to correct or supplement any defective provision;
- where the amendment is of a formal, minor or technical nature; and/or
- to comply with mandatory provisions of law or (in the case of CREST Securities) any change in CREST Requirements.

In certain other circumstances, the consent of a defined majority of Securityholders is required.

The terms and conditions of the Securities contain provisions for Securityholders to call and attend meetings to vote upon such matters or to pass a written resolution in the absence of such a meeting. Resolutions passed at such a meeting, or passed in writing, can bind all Securityholders, including investors that did not attend or vote, or who do not consent to the amendment.

11.8 Risks in relation to Minimum Tradable Amounts and minimum Specified Denomination where specified to be applicable

Where the terms and conditions of your Securities provide for a Minimum Tradable Amount or Specified Denomination consisting of a nominal amount plus one or more integral multiples of another smaller amount, if you hold an amount which is less than the Minimum Tradable Amount or minimum Specified Denomination at the relevant time:

- you will not be able to transfer or sell your holding;
- you may not receive a Definitive Bearer Security in respect of such holding (should Definitive Bearer Securities be printed); and
- you would need to purchase a nominal amount of Securities such that your holding amounts to such Minimum Tradable Amount or minimum Specified Denomination in order to be able to sell or transfer Securities or receive a Definitive Bearer Security.

If Definitive Bearer Securities are issued, you should be aware that those Securities which have a denomination that is not an integral multiple of any minimum denomination may be illiquid and difficult to trade.

Notwithstanding the foregoing, such Securities will only be transferable in accordance with the rules of the relevant clearing system.

You should be aware that Temporary Global Securities will not be exchangeable for Definitive Bearer Securities, unless there is a default of the relevant clearing system and no alternative clearing system is found.

11.9 There are risks where your Securities are Book-Entry Securities

If you hold your Securities in dematerialised and/or uncertificated form ("**Book-Entry Securities**"), you will not be the legal owner of the Book-Entry Securities. Rights in the Book-Entry Securities will be held through custodial and depositary links through the relevant clearing systems. This means that holders of Book-Entry Securities will only be able to enforce rights in respect of the Book-Entry Securities indirectly through the intermediary depositaries and custodians.

11.10 There are risks if you hold your Securities in the form of CREST Depository Interests

If you hold your Securities in the form of CREST Depository Interests (CDIs), you will not be the legal owner of the Securities to which such CDIs relate (the Underlying Securities). CDIs are separate legal instruments from the Underlying Securities and represent indirect interests in the interests of the CREST nominee in such Underlying Securities. CDIs will be issued by the CREST Depository to investors and will be governed by English law.

The Underlying Securities (as distinct from the CDIs representing indirect interests in such Underlying Securities) will be held in an account with a custodian. The custodian will hold the Underlying Securities through the Relevant Clearing System. Rights in the Underlying Securities will be held through custodial and depositary links through the Relevant Clearing System. The legal title to the Underlying Securities or to interests in the Underlying Securities will depend on the rules of the Relevant Clearing System in or through which the Underlying Securities are held.

Rights in respect of the Underlying Securities cannot be enforced by holders of CDIs except indirectly through the CREST Depository and CREST nominee who in turn can enforce rights indirectly through the intermediary depositaries and custodians described above. The enforcement of rights in respect of the Underlying Securities will therefore be subject to the local law of the relevant intermediary. These arrangements could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying Securities in the event of any insolvency or liquidation of the relevant intermediary, in particular where the Underlying Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

If a matter arises that requires a vote of Securityholders, the Issuer may make arrangements to permit the holders of CDIs to instruct the CREST Depository to exercise the voting rights of the CREST nominee in respect of the Underlying Securities. However, there is no guarantee that it will be possible to put such voting arrangements in place for holders of CDIs.

Holders of CDIs will be bound by all provisions of the CREST Deed Poll and by all provisions of or prescribed pursuant to the CREST International Manual (April 2008) issued by Euroclear UK & Ireland Limited and as amended, modified, varied or supplemented from time to time (the "**CREST Manual**") and the CREST Rules (contained in the CREST Manual) applicable to the CREST International Settlement Links Service. Holders of CDIs must comply in full with all obligations imposed on them by such provisions, including in relation to (i) indemnities, warranties, representations and undertakings to be given by holders of CDIs and limitations on the liability of the CREST Depository as issuer of the CDIs and (ii) fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the Underlying Securities through the CREST International Settlement Links Service.

None of the Issuer or any Manager or Agent makes any representation or warranty as to the tax consequences of an investment in CDIs and/or the tax consequences of the acquisition, holding, transfer or disposal of CDIs by any investor (including, without limitation, whether any stamp duty, stamp duty reserve tax, excise, severance, sales, use, transfer, documentary or any other similar tax, duty or charge may be imposed, levied, collected, withheld or assessed by any government, applicable tax authority or jurisdiction on the acquisition, holding, transfer or disposal of CDIs by any investor). While your attention is drawn to the section entitled 'Taxation', the tax consequences for each investor in CDIs can be different. Therefore, you should consider consulting with a tax adviser as to their specific consequences, including, in particular, whether United Kingdom stamp duty reserve tax will be payable on transfers of CDIs in uncertificated form within CREST.

11.11 There are risks if you hold your Securities through nominee arrangements

Where a distributor and/or a nominee service provider is used by you to invest in the Securities, you will only receive payments and/or deliveries of Reference Asset(s) on the basis of arrangements entered into by you with the distributor or nominee service provider, as the case may be. In such case, you must look exclusively to the distributor or nominee service provider for all payments and/or deliveries attributable to the Securities. Neither the Issuer, Manager(s) nor Determination Agent nor any other person will be responsible for the acts or omissions of the distributor or nominee service provider, nor make any representation or warranty, express or implied, as to the services provided by the distributor or nominee service provider.

11.12 You should be aware that certain specific information in relation to the Securities may not be known at the beginning of a subscription period

In relation to Securities which are being offered by way of a subscription offer, certain specific information relating to the Securities (such as certain amounts, levels, percentages, prices, rates or values (as applicable) used to determine or calculate amounts payable or assets deliverable in respect of the Securities) may not be fixed or determined by the start of the offer. In such case, the terms and conditions of your Securities will provide an indicative amount, an indicative minimum amount, or an indicative maximum amount, or any combination of the foregoing.

The actual amounts, levels, percentages, prices, rates or values (as applicable) will be determined based on market conditions by the Issuer on or around the end of the subscription period and may be the same as or different from any indicative amount

specified in the terms and conditions of your Securities, provided that such actual amounts will not be less than any indicative minimum amount provided in the terms and conditions of your Securities and will not be more than any indicative maximum amount provided in the terms and conditions of your Securities. Notice of the actual amounts, levels, percentages, prices, rates or values (as applicable) will be published prior to the Issue Date in accordance with the Conditions.

You must make your investment decision in relation to the Securities based on the indicative amounts provided rather than the actual amounts, levels, percentages, prices, rates or values (as applicable), which will only be fixed or determined at the end of the subscription period after your investment decision has been made. As there is a risk that the indicative amounts will not be the actual amounts, levels, percentages, prices, rates or values (as applicable), you should assume, for the purposes of evaluating the risks and benefits of an investment in the Securities, that the actual amounts, levels, percentages, prices, rates or values (as applicable) which are fixed or determined at the end of the subscription period will be (i) lower than the indicative amount and equal to the minimum amount (where provided and where a higher amount, level, percentage, price, rate or value (as applicable) may lead to a greater return on the Securities) or (ii) higher than the indicative amount and equal to the maximum amount (where provided and where a lower amount, level, percentage, price, rate or value (as applicable) may lead to a greater return on the Securities).

12. Risks associated with foreign exchange

12.1 **There are foreign exchange risks where the terms and conditions of your Securities provide that payment under the Securities will be made in a currency which is different from the currency of the Reference Asset(s) and/or different from your home currency, or are subject to a foreign exchange conversion**

If the terms and conditions of your Securities provide that payment under the Securities will be made in a currency which is different from the currency of the Reference Asset(s) and/or different from your home currency then, depending on the particular payout terms of your Securities, you may be exposed to the adverse movement of the settlement currency of the Securities relative to the currency of the Reference Asset(s) and/or your home currency.

If the terms and conditions of your Securities provide for physical delivery of a particular Reference Asset(s) and the currency of the Reference Asset(s) is different from the settlement currency of the Securities and/or your home currency then, following the date on which the entitlement to delivery of the relevant property is determined, you will (i) not benefit from the positive movement of the settlement currency of the Securities relative to the currency of the Reference Asset(s) (if any) and (ii) be exposed to the volatility and fluctuations of such currency of the Reference Asset(s) relative to the settlement currency of the Securities and/or your home currency. Furthermore, where the currency of the Reference Asset(s) is different from the settlement currency of your Securities, you may be exposed to similar foreign exchange risk in respect of any fraction of the Reference Asset(s) which is not delivered to you but for which you are entitled to a cash amount.

Foreign exchange rates can be highly volatile and are determined by various factors, including supply and demand for currencies in the international foreign exchange markets, economic factors including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility, safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks.

A foreign exchange rate can be fixed by the sovereign government, allowed to float within a range of exchange rates set by the government or left to float freely. Exchange rates of most economically developed nations are permitted to fluctuate in value relative to each other. However, from time to time governments may use a variety of

techniques, such as intervention by a country's central bank, the imposition of regulatory controls or taxes or changes in interest rates to influence the exchange rates of their currencies. In addition, governments around the world, including the governments of other major world currencies, have recently made, and may be expected to continue to make, very significant interventions in their economies, and sometimes directly in their currencies. Governments may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by a devaluation or revaluation of a currency. These governmental actions could change or interfere with currency valuations and may cause foreign exchange rates to fluctuate more than would otherwise occur in response to economic forces, as well as in response to the movement of currencies across borders.

Foreign exchange fluctuations between your home currency and the currency in which payment under the Securities is due may affect you where you intend to convert gains or losses from the exercise or sale of Securities into your home currency and may eventually cause a partial or total loss of your initial investment.

See also risk factor 24 (*Risks associated with foreign exchange rates as Reference Asset(s)*).

12.2 'Dual Currency' Securities

In the case of any Securities having a settlement currency that is different from the issue currency, the amount of interest and/or any redemption amount payable will be determined by reference to an exchange rate, the method of calculation of which will be determined by the Determination Agent.

Where you purchase 'Dual Currency' Securities, you will be exposed to currency risks in addition to the currency risks relating to the Reference Asset(s) because the value of your Securities may increase or decrease as a result of fluctuations between the issue currency (or your home currency) and the settlement currency. Foreign exchange fluctuations between your home currency or the issue currency and the relevant currency in which the repayment amount of your Securities is denominated may affect you where you intend to convert gains or losses from the exercise or sale of your Securities into your home currency.

Foreign exchange fluctuations between an investor's home currency (or the issue currency) and the Settlement Currency may affect investors who intend to convert gains or losses from the exercise or sale of Securities into their home currency and may eventually cause a partial or total loss of the investor's initial investment.

12.3 There are particular risks relating to CNY

- (a) *The Chinese Renminbi is not freely convertible and there are significant restrictions on remittance of Chinese Renminbi into and outside the People's Republic of China*

The Chinese Renminbi (CNY) is not freely convertible at present. The government of the People's Republic of China ("**PRC**") continues to regulate conversion between CNY and foreign currencies despite the significant reduction over the years by such government of its control over routine foreign exchange transactions conducted through current accounts. The People's Bank of China ("**PBOC**") has established clearing and settlement systems for participating banks in a number of jurisdictions, including Hong Kong, Singapore, Taiwan, Macau, the United Kingdom, France, Germany, Luxembourg, Korea, Qatar, Canada and Australia and are in the process of establishing CNY clearing and settlement mechanisms in other jurisdictions. However, the current size of CNY and CNY-denominated financial assets outside the PRC is limited, and its growth is subject to many constraints imposed by the laws and regulations of the PRC on foreign exchange. There can be no assurance that access to CNY funds for the purposes of making payments

under the Securities or generally will remain available or will not become restricted. The value of CNY against foreign currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. As a result, foreign exchange fluctuations between a purchaser's home currency and CNY may affect you where you intend to convert gains or losses from the sale or redemption of your Securities into your home currency. Developments and the perception of risks in other countries, especially emerging market countries, may adversely affect the exchange rates of CNY against other foreign currencies.

Furthermore, if the Settlement Currency of your Securities is in CNY and the Determination Agent has determined that an event has occurred that negatively affects the liquidity, convertibility or transferability of CNY in the general CNY exchange market in Hong Kong, then the Issuer's obligations to pay amounts under your Securities in CNY may be replaced with the obligation to pay such amounts in an alternative deliverable currency.

Holders of beneficial interests in Securities denominated in Chinese Renminbi may be required to provide certifications and other information (including Chinese Renminbi account information) in order to receive payments in Chinese Renminbi in accordance with the Chinese Renminbi clearing and settlement system for participating banks in Hong Kong. Payments in CNY will only be made to investors by transfer to a bank account denominated in CNY and maintained in accordance with applicable laws and regulations in Hong Kong. There is no assurance that new PRC regulations will not be promulgated or any settlement agreement on the clearing of CNY business between the People's Bank of China and certain Chinese banks will not be terminated or amended in the future which will have the effect of restricting availability of Chinese Renminbi offshore.

There is only limited availability of Chinese Renminbi outside the PRC, which may affect the liquidity of the Securities and the Issuer's ability to and the terms at which it is able to source Chinese Renminbi outside the PRC to service the Securities.

(b) *CNY Settlement Disruption*

If the Settlement Currency of the Securities is in CNY and the Determination Agent has determined that an event has occurred that negatively affects the liquidity, convertibility or transferability of CNY in the general CNY exchange market in Hong Kong (a 'CNY Disruption'), then the Issuer's obligations to pay amounts under the Securities in CNY may be replaced with the obligation to pay such amounts in an alternative deliverable currency (determined by the Determination Agent acting in good faith and a commercially reasonable manner).

13. **Risks associated with Securities linked to common shares, ADRs, GDRs and ETFs as Reference Asset(s)**

If the Reference Asset(s) of your Securities is or includes any one or more of a common share, ADR, GDR or ETF, you should consider the following risks:

13.1 **Risks associated with common shares, ADRs, GDRs and ETFs**

(a) **The performance of the Reference Asset(s) depends on many diverse and unpredictable factors**

The performance of common shares, American Depositary Receipts ("ADRs"), Global Depositary Receipts ("GDRs") and exchange traded funds ("ETFs") is dependent upon (i) macroeconomic factors, such as interest and price levels on the capital markets, currency developments and political factors as well as (ii)

company-specific factors such as earnings, market position, risk situation, shareholder structure and distribution policy. Any one or a combination of such factors could adversely affect the performance of the Reference Asset(s) which, in turn, would have an adverse effect on the value of and return on your Securities.

- (b) **Securityholders of Securities linked to common shares, ADRs, GDRs or ETFs will not participate in dividends or any other distributions (unless otherwise specified to be applicable in the terms and conditions) and the return on the Securities may therefore be lower than holding such Reference Asset(s) directly**

Unless otherwise specified to be applicable in the terms and conditions, you (as an investor of Securities linked to common shares, ADRs, GDRs or ETFs) will not participate in dividends or any other distributions paid on those common shares, ADRs, GDRs or ETFs. Therefore, the return on the Securities may be lower than holding such Reference Asset(s) directly.

- (c) **The occurrence of an 'Additional Disruption Event' or certain other events in relation to the Reference Asset(s) may lead to the adjustment or early redemption of your Securities or substitution of the Reference Asset(s)**

If a Merger Event, Tender Offer, Nationalisation, Insolvency or Delisting (all as defined in the terms and conditions of the Securities) occurs in relation to the underlying shares or the issuer of the relevant underlying shares, this will constitute an 'Additional Disruption Event' leading to the adjustment by the Determination Agent of the terms and conditions of the Securities (without the consent of Securityholders) or the early redemption of the Securities, and for an amount which may be less than you paid for the Securities – see risk factor 9.3 (*Your Securities may redeem early or may be adjusted by the Determination Agent following an 'Additional Disruption Event', 'FX Disruption Event', or early redemption for unlawfulness or impracticability*).

If the terms and conditions of your Securities provide that 'Substitution of Shares' applies, the occurrence of any of the events described in the above paragraph or an insolvency filing, delisting, fund disruption event (in the case of an ETF) or share cancellation in relation to the underlying shares or the issuer of the relevant underlying shares (all as set out in the terms and conditions of the Securities) may cause the replacement of the deliverable shares for substitute shares (as selected by the Determination Agent in accordance with the terms and conditions of the Securities). If there is a substitution of shares, you will be exposed to the issuer of the substituted assets (as well as any custodian holding such assets). If the substituted assets are physically delivered upon redemption of the Securities, you may not be able to sell such substituted assets for a specific price and, under certain circumstances, the delivered assets may have a very low value and may be worth zero. You may also be subject to documentary or stamp taxes and/or other charges in relation to the delivery and/or disposal of such assets.

- (d) **The occurrence of a 'potential adjustment event' could trigger an adjustment to the terms and conditions of the Securities which may have a negative effect on the value of and return on the Securities**

A 'potential adjustment event' is an event which has a diluting or concentrating effect on the theoretical value of the Reference Asset. If a Potential Adjustment Event occurs, the Issuer may elect to amend the terms and conditions of the Securities (such amendment to be determined by the Determination Agent without the consent of Securityholders) or to deliver additional Securities or cash to the Securityholders to account for the diluting or concentrative effect of the event.

Any adjustment made to the terms and conditions of the Securities may have a negative effect on the value of and return on the Securities. Any amount received from the Issuer following an amendment of the terms and conditions of the Securities may be less than your initial investment and could be zero.

(e) **There are particular risks in relation to Securities which provide for physical delivery**

The Securities may include the right of the Issuer, subject to the fulfilment of certain conditions by you as the Securityholder, to redeem the Securities by delivering common shares, ADRs, GDRs or shares in the ETF (as applicable) to you rather than a cash amount. You will therefore be exposed to the issuer of such common shares or shares underlying the ADRs or GDRs (as well as the custodian holding such shares) or the ETF and the risks associated with such assets to be delivered. You may not be able to sell such delivered assets for a specific price after the redemption of the Securities and, under certain circumstances, the delivered assets may have a very low value and may be worth zero. You may also be subject to documentary or stamp taxes and/or other charges in relation to the delivery and/or disposal of such assets.

Additionally, where the property due to be delivered to you would include a fraction of any component comprising the property, you will be entitled to receive an amount in cash in lieu of such fraction as determined by the Determination Agent.

See also risk factor 11.5 (*Settlement disruption risk*).

13.2 Additional risks associated with common shares

The issuer of common shares of a company will not have participated in the offering and issuance of the Securities and none of the Issuer or the Manager(s) will have made any investigation or enquiry in relation to the share issuer for the purposes of the Securities. Therefore, there can be no assurance that all events occurring prior to the Issue Date of the Securities that would affect the trading price of the relevant share(s) will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning the share issuer could affect the trading price of the share and therefore the trading price of the Securities. Also, you should be aware that the issuer of any common shares may or may not take actions in respect of common shares without regard to the interests of Securityholders and any of these actions could have a negative effect on the value of the Securities.

13.3 Additional risks associated with depository receipts

(a) **There is a risk of realising a lower return than the shares underlying the depository receipt**

ADRs are instruments issued in the US in the form of share certificates representing a number of shares held outside the US, in the country where the share issuer is domiciled. GDRs are instruments in the form of share certificates representing a number of shares held in the country of domicile of the share issuer and are usually offered or issued in a country other than the US. The amount you receive on Securities linked to ADRs or GDRs may not reflect the return that you would obtain if you actually owned the shares underlying such ADRs or GDRs because the price of the ADR or GDR may not take into account the value of any dividends or other distributions paid on the underlying shares. Therefore, you may receive a lower return on the Securities than you would have had you invested in the shares underlying such ADRs or GDRs directly.

(b) **There is a risk of non-recognition of beneficial ownership**

The legal owner of the shares underlying the ADRs or GDRs is the custodian bank which is also the issuing agent of the depository receipts. Depending on the jurisdiction under which the depository receipts have been issued, there is a risk that such jurisdiction does not legally recognise the purchaser of the ADR or GDR as the beneficial owner of the underlying shares. In the event the custodian becomes insolvent or that enforcement measures are taken against the custodian it is possible that an order restricting the free disposition of the underlying shares is issued. In this event the purchaser of an ADR or GDR may lose its rights to the underlying shares under the ADR or GDR and the ADR or GDR could become worthless. As a result, the value of Securities linked to the ADRs or GDRs may be negatively affected and could become worthless.

13.4 **Additional risks associated with exchange traded funds ("ETFs")**

(a) **There is a risk of tracking error**

Where your Securities are linked to an interest in an ETF (being a fund, pooled investment vehicle, collective investment scheme, partnership, trust or other similar legal arrangement holding assets, such as shares, indices, bonds, commodities and/or other securities such as financial derivative instruments (for the purposes of this sub-paragraph, "**ETF Reference Asset(s)**") and listed on a recognised exchange) and the investment objective of such ETF is to track the performance of such ETF Reference Asset(s), you are exposed to the performance of such ETF rather than the ETF Reference Asset(s). There is a risk that the ETF may not reflect the actual return you would obtain if you actually owned the ETF Reference Asset(s) underlying the ETF. Accordingly, you may receive a lower return than you would have received had you invested in the ETF Reference Asset(s) underlying such ETF directly.

(b) **There are risks relating to the ETF managers, analytical tools and investments of the ETF**

There is a risk that the ETF managers will not succeed in meeting the investment objectives of the ETF, that any analytical model used thereby will prove to be incorrect and that any assessments of the short-term or long-term prospects, volatility and correlation of the types of investments in which such ETF has or may invest will prove inaccurate, any of which may have a negative effect on the value of and return on the Securities.

(c) **There is a risk of adverse actions by the management company, trustee or sponsor**

The management company, trustee or sponsor of an ETF will have no involvement in the offer and sale of the Securities and accordingly will have no obligation to you as Securityholder and could take any actions without regard to the interests of Securityholders. Any such action may have a negative effect on the value of and return on the Securities.

(d) **There is a risk where the relevant ETF invests in financial derivative instruments**

An ETF may invest in financial derivative instruments which expose the ETF and an investor to the credit, liquidity and concentration risks of the counterparties to such financial derivative instruments. This means that, if the relevant counterparties default under any of these financial derivative instruments, the value of the ETF may decline. As a result, the value of and return on the Securities could be adversely affected.

14. **Risks associated with Securities linked to equity indices as Reference Asset(s)**

If the Reference Asset(s) of your Securities is or includes an equity index, you should consider the following risks:

(a) **There are risks of fluctuations and volatility**

Securities linked to the performance of one or more equity indices provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index or indices.

(b) **There are risks of shares and indices**

Equity indices are composed of a synthetic portfolio of shares, and, as such, the performance of an equity index is in turn subject to the risks associated with indices, as outlined in this risk factor 14 (*Risks associated with Securities linked to equity indices as Reference Asset(s)*) and with shares as specified above in risk factor 13 (*Risks associated with Securities linked to common shares, ADRs, GDRs and ETFs as Reference Asset(s)*).

(c) **You may receive a potentially lower return than if you held the underlying shares directly**

The amount payable or property deliverable on any Securities linked to one or more equity indices (which are not dividend indices or which do not otherwise include dividend distributions in their level) may not reflect the return that you would realise if you actually owned the relevant shares of the companies comprising that equity index. This is because the closing index level of such index on any specified valuation date may reflect the prices of such index components without taking into account any dividend payments on those component shares. Accordingly, you may receive a lower return on Securities linked to one or more equity indices than you would have received had you invested directly in those shares.

(d) **There are risks in relation to a change in composition, methodology or policy used in compiling the index**

The Index Sponsor can add, delete or substitute the components of an index at its discretion, and may also alter the methodology used to calculate the level of the index. These events may have a detrimental impact on the level of the index, which in turn could have a negative impact on the value of and return on your Securities.

(e) **There are risks in relation to index adjustments events, successor indices, corrections and manifest errors**

If an Index Sponsor makes a material alteration to an index or cancels an index and no successor exists, or fails to calculate and announce the index, the Determination Agent may, if it deems the event to have a material effect on the Securities, calculate the level of the Index as per the previous formula and method (or, in the case of Index Cancellation, replace the Index with a Pre-nominated Index in respect of the cancelled Index, if one is specified) or redeem the Securities prior to their scheduled redemption date in accordance with the terms and conditions of the Securities, and for an amount which may be less than you paid for the Securities – see risk factor 9.3 (*Your Securities may redeem early or may be adjusted by the Determination Agent following an 'Additional Disruption Event', 'FX Disruption Event', or early redemption for unlawfulness or impracticability*).

If an index is calculated by a successor index sponsor, or is replaced by a successor index, the successor index or index as calculated by the successor index sponsor will be deemed to be the index if approved by the Determination Agent. Any such successor index may perform poorly and may result in you receiving less than you otherwise expected.

If a correction to the relevant index is published not less than two exchange business days prior to the next payment date, the Determination Agent will recalculate the amount payable based on the corrected level of the relevant index. If there is a manifest error in the calculation of an index in the opinion of the Determination Agent, the Determination Agent may recalculate the Index based on the formula and method used prior to the manifest error occurring.

Any of these events may have an adverse effect on the value of, and return on, the Securities.

(f) **The index or any of its underlying components may trade around the clock; however, the Securities may trade only during regular trading hours in Europe**

If the market for the relevant index or any of its underlying components is a global, around-the-clock market, the hours of trading for the Securities may not conform to the hours during which the relevant index or any of its underlying components are traded. Significant movements may take place in the levels, values or prices of the relevant index or any of its underlying components that will not be reflected immediately in the price of the relevant Securities. There may not be any systematic reporting of last-sale or similar information for the relevant index or any of its underlying components. The absence of last-sale or similar information and the limited availability of quotations would make it difficult to obtain timely, accurate data about the state of the market for the relevant index or any of its underlying components.

(g) **There are data sourcing and calculation risks**

The annual composition of indices is typically recalculated in reliance upon historical price, liquidity and production data that are subject to potential errors in data sources or other errors that may affect the weighting of the index components. Any discrepancies that require revision are not applied retroactively but will be reflected in the weighting calculations of the index for the following year. Index sponsors may not discover every discrepancy. Any such errors or discrepancies may result in the Securities performing less well than they theoretically might have (if all such errors and discrepancies had been discovered earlier).

15. **Risks associated with Securities linked to dividends of shares comprised in an equity index that is a dividend index**

Where the Securities are linked to dividends of shares comprised in an equity index, you will be exposed to the declaration and payment of such dividends (if any) by the issuers of such shares, and such declaration and payment of dividends (if any) may be subject to the following risks:

- the value of the dividends paid by the individual constituent members of the equity index may be influenced by many factors: Payments of cash dividends by constituent members of the equity index may be reduced or not made at all due to a variety of independent factors, such as earnings and dividend policy, which could result in a reduction in the value of, and return on, the Securities.
- changes to the regulator and tax environment: Tax and regulatory decisions may result in reductions in the amount of dividends paid by individual constituent members of the equity index.
- constituent members of the equity index may not pay dividends in the relevant dividend period at all: If no dividends are paid by constituent members of the equity index during the relevant dividend period to which the Securities are linked, you could receive no return on your investment and, in some instances, the Securities may be worth zero.
- not all dividends paid by constituent members may be reflected in the level of the equity index: The equity index may only reflect certain types of dividends, such as

ordinary unadjusted gross cash dividends and/or withholding taxes on special cash dividends and capital returns as applied to the constituent members and may exclude extraordinary dividends which may, in turn, result in a lower return on the Securities.

Upon the occurrence of an FX Inbound Valuation Disruption Event:

- the Issuer may elect to postpone the relevant Valuation Date, Averaging Date and/or any other relevant date of determination or date for payment;
- terms and conditions of the Securities may be adjusted; and/or
- the Securities may be redeemed early at their early cash settlement amount.

Any such postponement or adjustment may have a negative effect on the value of the Securities, and any early cash settlement amount received by investors may be less than their initial investment and could be zero.

23. Risks associated with commodities and commodity indices as Reference Asset(s)

If the Reference Asset(s) of your Securities is or includes a Relevant Commodity or Commodity Index, you should consider the following risks:

23.1 Commodity prices can be volatile and are driven by a variety of factors that can be extremely difficult to predict and which interact in complex ways

Trading in futures contracts on physical commodities, including trading in the components of a Commodity Index, is speculative and can be extremely volatile. Market prices may fluctuate rapidly based on numerous factors, including: changes in supply and demand relationships (whether actual, perceived, anticipated, unanticipated or unrealised); weather; agriculture; trade; fiscal, monetary and exchange control programmes; domestic and foreign political and economic events and policies; disease; pestilence; technological developments; changes in interest rates, whether through governmental action or market movements; and monetary and other governmental policies, action and inaction. The current or 'spot' prices of commodities may also affect, in a volatile and inconsistent manner, the prices of futures contracts in respect of a commodity.

Certain commodities are used primarily in one industry, and fluctuations in levels of activity in (or the availability of alternative resources to) one industry may have a

disproportionate effect on global demand for a particular commodity. Moreover, recent growth in industrial production and gross domestic product has made certain developing nations oversized users of commodities and has increased the extent to which the value of certain commodities are influenced by those markets. Political, economic and other developments that affect those countries may affect the value of a Relevant Commodity or the commodities included in a Commodity Index. In addition, because certain Relevant Commodities and certain of the commodities underlying a Commodity Index may be produced in a limited number of countries and may be controlled by a small number of producers, political, economic and supply-related events in such countries or with such producers could have a disproportionate impact on the prices of such commodities.

For these reasons, commodity prices may change unpredictably and can be extremely volatile. As the value of and return on Commodity Linked Securities and Commodity Index Linked Securities will depend on the performance of each Relevant Commodity or commodities underlying the Commodity Index, such unpredictability and volatility may have an adverse effect on the value of and return on such Securities.

(a) **Aluminium, Copper, Lead, Nickel, Tin and Zinc: there are additional factors specific to industrial metals which may affect their price**

Aluminium, copper, lead, nickel, tin and zinc are industrial metals and therefore their price is subject to a number of additional factors specific to industrial metals, including the following:

(i) **General factors affecting price performance**

There are a number of additional factors specific to industrial metals which may affect their price performance, including:

- changes in the level of industrial activity using industrial metals, and, in particular, aluminium, copper, lead, nickel, tin or zinc, including the availability of substitutes such as man-made or synthetic substitutes;
- disruptions in the supply chain, from mining to storage to smelting or refining;
- adjustments to inventory;
- variations in production costs, including storage, labour and energy costs;
- costs associated with regulatory compliance, including environmental regulations; and
- changes in industrial, government and consumer demand, both in individual consuming nations and internationally.

These factors interrelate in complex ways, and the effect of one factor may offset or enhance the effect of another factor.

(ii) **The London Metal Exchange's use of or omission to use price controls may result in limited appreciation but unlimited depreciation in the price of aluminium, copper, lead, nickel, tin or zinc futures contracts traded on the London Metal Exchange**

US commodity exchanges typically have regulations that limit the amount of fluctuation in some futures contract prices that may occur during a single business day. These limits are generally referred to as 'daily price fluctuation limits'. In contrast, futures contracts on aluminium, copper, lead or nickel that are traded on the London Metal

Exchange (the "LME") are not subject to daily price fluctuation limits to restrict the extent of daily fluctuations in the prices of such contracts. In a declining market, therefore, it is possible that prices for one or more contracts traded on the LME would continue to decline without limitation within a trading day or over a period of trading days. A steep decline in the price of the futures contract could have a significant adverse impact on the value of any Commodity Linked Securities and Commodity Index Linked Securities linked to such aluminium, copper, lead or nickel futures contracts.

Moreover, the LME has discretion to impose 'backwardation limits' by permitting short-sellers who are unable to effect delivery of an underlying commodity and/or borrow such commodity at a price per day that is no greater than the backwardation limit to defer their delivery obligations by paying a penalty in the amount of the backwardation limit to buyers for whom delivery was deferred. Backwardation limits tend to either constrain appreciation or cause depreciation of the prices of futures contracts expiring in near delivery months. Impositions of such backwardation limits could adversely affect the value of any Commodity Linked Securities and Commodity Index Linked Securities linked to such aluminium, copper, lead or nickel futures contracts.

(iii) **Contracts traded on the LME are exposed to concentration risks beyond those characteristic of futures contracts on US futures exchanges**

Futures contracts traded on US futures exchanges generally call for delivery of the physical commodities to which such contracts relate in stated delivery months. In contrast, contracts traded on the LME may call for delivery on a daily, weekly or monthly basis. As a result, there may be a greater risk of a concentration of positions in contracts trading on the LME on particular delivery dates than for futures contracts traded on US futures exchanges, since, for example, contracts calling for delivery on a daily, weekly or monthly basis could call for delivery on the same or approximately the same date. Such a concentration of positions, in turn, could cause temporary aberrations in the prices of contracts traded on the LME for delivery dates to which such positions relate. To the extent such aberrations are in evidence on a given pricing date with respect to the price of any such futures contract, they could adversely affect the value of any Commodity Linked Securities and Commodity Index Linked Securities linked to such futures contracts.

(b) **Cocoa, Coffee, Corn, Cotton, Soybeans, Soybean Oil, Sugar and Wheat: there are additional factors specific to agricultural commodities which may affect their price**

Cocoa, coffee, corn, cotton, soybeans, soybean oil, sugar and wheat are agricultural commodities. Cocoa, coffee, cotton and sugar are soft commodities and; corn, soybeans and wheat are grains. Consequently, in addition to factors affecting commodities generally that are described above, the price of cocoa, coffee, corn, cotton, soybeans, soybean oil, sugar and wheat are subject to a number of additional factors specific to agricultural commodities, including the following:

- weather conditions, including floods, drought and freezing conditions;
- changes in government policies;
- changes in global demand for food or clothing;
- planting decisions;

- changes in bio-diesel or ethanol demand; and
- changes in demand for agricultural products, softs or grains, and in particular cocoa, coffee, corn, cotton, soybeans, soybean oil, sugar or wheat, both with end users and as inputs into various industries.

These factors interrelate in complex ways, and the effect of one factor may offset or enhance the effect of another factor.

(c) **Crude Oil, Heating Oil, Natural Gas and Unleaded Gasoline: there are additional factors specific to energy-related commodities which may affect their price**

Crude oil, heating oil, natural gas and unleaded gasoline are energy-related commodities. Consequently, in addition to factors affecting commodities generally that are described above, the price of crude oil, heating oil, natural gas or unleaded gasoline may be subject to a number of additional factors specific to energy-related commodities, including the following:

- Geopolitical changes and wars;
- changes in the level of industrial and commercial activity with high levels of energy demand;
- disruptions in the supply chain or in the production or supply of other energy sources;
- price changes in alternative sources of energy;
- adjustments to inventory;
- variations in production and shipping costs;
- costs associated with regulatory compliance, including environmental regulations; and
- changes in industrial, government and consumer demand, both in individual consuming nations and internationally.

These factors interrelate in complex ways, and the effect of one factor may offset or enhance the effect of another factor.

(d) **Gold, Silver, Platinum and Palladium: there are additional factors specific to precious metals which may affect their price**

Gold, silver, platinum and palladium are precious metals. Consequently, in addition to factors affecting commodities generally that are described above, the price of gold, silver, platinum or palladium may be subject to a number of additional factors specific to precious metals, including the following:

- disruptions in the supply chain, from mining to storage to smelting or refining;
- adjustments to inventory;
- variations in production costs, including storage, labour and energy costs;
- costs associated with regulatory compliance, including environmental regulations;
- changes in industrial, governmental and consumer demand, both in individual consuming nations and internationally;

- precious metal leasing rates;
- foreign exchange rates;
- level of economic growth and inflation; and
- degree to which consumers, governments, corporate and financial institutions hold physical gold as a safe haven asset (hoarding) which may be caused by a banking crisis/recovery, a rapid change in the value of other assets (both financial and physical) or changes in the level of geopolitical tension.

These factors interrelate in complex ways, and the effect of one factor may offset or enhance the effect of another factor.

(e) **Lean Hogs and Live Cattle: there are additional factors specific to livestock which may affect their price**

Lean hogs and live cattle are each a type of livestock. Consequently, in addition to factors affecting commodities generally that are described above, the price of lean hogs or live cattle may be subject to a number of additional factors specific to livestock, including the following:

- weather conditions, including floods, drought and freezing conditions;
- disease and famine;
- changes in government policies; and
- changes in end-user demand for livestock.

These factors interrelate in complex ways, and the effect of one factor may offset or enhance the effect of another factor.

23.2 **Suspension or disruptions of market trading in commodities and related futures contracts may adversely affect the value of Commodity Linked Securities and/or Commodity Index Linked Securities**

Commodity markets are subject to temporary distortions or other disruptions due to various factors, including the lack of liquidity in the markets, the participation of speculators and government regulation and intervention. In addition, US futures exchanges and some foreign exchanges have regulations that limit the amount of fluctuation in some futures contract prices that may occur during a single business day. These limits are generally referred to as 'daily price fluctuation limits' and the maximum or minimum price of a contract on any given day as a result of these limits is referred to as a 'limit price'. Once the limit price has been reached in a particular contract, no trades may be made at a price beyond the limit, or trading may be limited for a set period of time. Limit prices have the effect of precluding trading in a particular contract or forcing the liquidation of contracts at potentially disadvantageous times or prices. These circumstances could adversely affect the value of any Relevant Commodity or Commodity Index underlying Commodity Linked Securities and, therefore, the value of those Commodity Linked Securities.

23.3 **There are additional risks in relation to a Commodity Index which may affect the value of and return on Commodity Index Linked Securities**

- (a) **Future prices of commodities within a Commodity Index that are different relative to their current prices may result in a reduced amount payable or deliverable upon redemption or exercise – effects of 'backwardation' and 'contango'**

A Commodity Index is composed of one or more futures contracts on physical commodities. Futures contracts on physical commodities and commodity indices are traded on regulated futures exchanges, and physical commodities and other derivatives on physical commodities and commodity indices are traded in the over-the-counter market and on various types of physical and electronic trading facilities and markets. An exchange-traded futures contract provides for the purchase and sale of a specified type and quantity of a commodity or financial instrument during a stated delivery month for a fixed price. A futures contract on an index of commodities provides for the payment and receipt of cash based on the level of the index at settlement or liquidation of the contract. A futures contract provides for a specified settlement month in which the cash settlement is made or in which the commodity or financial instrument is to be delivered by the seller (whose position is therefore described as 'short') and acquired by the purchaser (whose position is therefore described as 'long').

Commodity futures contracts normally specify a certain date for delivery of the underlying commodity. As the exchange-traded futures contracts that comprise a Commodity Index approach expiration, they are replaced by similar contracts that have a later expiration. Thus, for example, a futures contract purchased and held in August may specify an October expiration. As time passes, the contract expiring in October may be replaced by a contract for delivery in November. This process is referred to as 'rolling'. If the market for these contracts is (putting aside other considerations) in 'backwardation', which means that the prices are lower in the distant delivery months than in the nearer delivery months, the sale of the October contract would take place at a price that is higher than the price of the November contract, thereby creating a 'roll yield'. The actual realisation of a potential roll yield will be dependent upon the level of the related spot price relative to the unwind price of the commodity futures contract at the time of sale of the contract. While many of the contracts included in Commodity Indices have historically exhibited consistent periods of backwardation, backwardation will most likely not exist at all times. Moreover, certain of the commodities reflected in Commodity Indices have historically traded in 'contango' markets. Contango markets are those in which the prices of contracts are higher in the distant delivery months than in the nearer delivery months. The absence of backwardation in the commodity markets could result in negative 'roll yields', which could adversely affect the value of the Relevant Commodity or Commodity Index underlying Commodity Linked Securities or Commodity Index Linked Securities and, accordingly, decrease the amount received by you upon redemption or exercise.

(b) Commodity Indices may include contracts that are not traded on regulated futures exchanges

Commodity Indices are typically based solely on futures contracts traded on regulated futures exchanges. However, a Commodity Index may include over-the-counter contracts (such as swaps and forward contracts) traded on trading facilities that are subject to lesser degrees of regulation or, in some cases, no substantive regulation. As a result, trading in such contracts, and the manner in which prices and volumes are reported by the relevant trading facilities, may not be subject to the provisions of, and the protections afforded by, for example, the US Commodity Exchange Act of 1936, or other applicable statutes and related regulations, that govern trading on regulated US futures exchanges, or similar statutes and regulations that govern trading on regulated UK futures exchanges. In addition, many electronic trading facilities have only recently initiated trading and do not have significant trading histories. As a result, the trading of contracts on such facilities, and the inclusion of such contracts in a Commodity Index, may be subject to certain risks not presented by, for example, US or UK exchange-traded futures contracts, including risks related to the liquidity and price histories of the relevant contracts.

- (c) **The Issuer is not responsible for, and has no control over, the actions of the sponsor of a Commodity Index, including in relation to errors in the calculation of the level of the Commodity Index, discontinuation of the Commodity Index, or policies in relation to the methodology, constituents and other terms of the Commodity Index**

This Issuer has no ability to control or predict the actions of the sponsor of a Commodity Index.

For example, the Issuer has no control over any errors in, or discontinuation of disclosure regarding the methods or policies relating to the calculation of, a Commodity Index. The sponsor of a Commodity Index is typically not under any obligation to continue to calculate the Commodity Index or required to calculate any successor indices. If the sponsor discontinues or suspends the calculation of a Commodity Index, it may become difficult to determine the market value of the Commodity Linked Securities linked to that Commodity Index or the amount payable upon redemption or exercise. The Determination Agent may designate a successor index. If the Determination Agent determines that no successor index comparable to the discontinued or suspended Commodity Index exists (and if the Index is not replaced with a Pre-nominated Index), the amount received by you upon redemption or exercise of the Commodity Index Linked Securities linked to that Commodity Index will be determined by the Determination Agent and may result in you receiving less than you otherwise would have.

The policies of the sponsor of a Commodity Index concerning the calculation of the level of a Commodity Index, additions, deletions or substitutions of index components and the manner in which changes affecting the index components are reflected in a Commodity Index could affect the value of the Commodity Index and, therefore, the amount payable or deliverable on the Commodity Index Linked Securities upon redemption or exercise and the market value of the Commodity Index Linked Securities prior to redemption or expiration.

Additional commodity futures contracts may satisfy the eligibility criteria for inclusion in a Commodity Index, and the commodity futures contracts currently included in a Commodity Index may fail to satisfy such criteria. The weighting factors applied to each futures contract included in a Commodity Index may change, based on changes in commodity production and volume statistics. In addition, the sponsor of a Commodity Index may modify the methodology for determining the composition and weighting of a Commodity Index, for calculating its value in order to ensure that the relevant Commodity Index represents an adequate measure of market performance or for other reasons, or for calculating the value of the relevant Commodity Index. The sponsor of a Commodity Index may also discontinue or suspend calculation or publication of a Commodity Index, in which case it may become difficult to determine the market value of that Commodity Index. Any such changes could adversely affect the value of the Commodity Index Linked Securities.

Index sponsors have no obligation to take into account the impact on the Securities of their actions in relation to the Commodity Index, though such actions may have a negative impact on the value of and return on the Securities.

- (d) **If a Commodity Market Disruption Event has occurred, the determination of the value of a Commodity or Commodity Index may be delayed or postponed and this may affect the value and return on Commodity Linked Securities or Commodity Index Linked Securities**

The determination of the value of a Relevant Commodity or Commodity Index on a pricing date may be delayed or postponed if the Determination Agent determines that a Commodity Market Disruption Event with respect to that Relevant Commodity or Commodity Index has occurred or is continuing on

such valuation date. As a result, the relevant settlement date, exercise date(s) or expiration date, as the case may be, of the Commodity Linked Securities and/or Commodity Index Linked Securities could also be delayed or postponed. Where a Commodity Market Disruption Event occurs on a pricing date and continues for longer than a set period of consecutive days, the Determination Agent will estimate the value of the Relevant Commodity or Commodity Index for such valuation date. Any delay in settlement or estimation of the value of the Relevant Commodity or Commodity Index may affect the value and return on Commodity Linked Securities or Commodity Index Linked Securities.

Further, in respect of Commodity Linked Securities, if the Determination Agent is unable, or can no longer continue, to estimate the value of the Relevant Commodity by applying the cascade of disruption fallback specified as applicable in the Pricing Supplement, the Determination Agent may deem such Commodity Market Disruption Event (other than Trade Disruption) to constitute an Additional Disruption Event.

- (e) **Certain Additional Disruption Events may also have an effect on the value of and return on Commodity Linked Securities and/or the Commodity Index Linked Securities: if an Additional Disruption Event has occurred or exists, the Issuer may either adjust or redeem the Securities**

Following the occurrence of an Additional Disruption Event, the Issuer may request the Determination Agent to make a determination in respect of the Securities. If the Determination Agent determines that an adjustment to the terms and conditions of the Securities can be made such that the economic effect of such Additional Disruption Event may be accounted for and economic character of the Securities may be preserved, then the Issuer shall make such adjustment(s) and shall notify the Securityholders as soon as reasonably practicable about the nature of the adjustments and the date on which they will come into effect. If the Determination Agent determines that no such adjustment can be made, then no adjustment will be made to the terms and conditions of the Securities, but the Issuer may instead redeem the Securities early at their early cash settlement amount. Any adjustment or early redemption may affect the value of and return on Commodity Linked Securities and/or the Commodity Index Linked Securities.

23.4 **Changes in law (either legal or regulatory) relating to the Commodities may lead to adjustment or to an early redemption of the Securities**

The legal and regulatory regime in relation to commodities is subject to change in ways that could affect the Issuer's obligations in respect of any underlying or hedging transactions in relation to the Securities. Such changes in the legal and regulatory regime in relation to commodities may lead to adjustment to or early redemption of the Securities and reinvestment risk following such early redemption.

Commodities are subject to legal and regulatory regimes in many jurisdictions, including in particular the United States and Europe. Changes to these legal and regulatory regimes may negatively affect the value of your Securities.

In the United States, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "**Dodd-Frank Act**") contains far reaching regulatory reform including reform of the regulatory regime for foreign banks operating in the United States, which may, among other things, require the US subsidiaries of foreign banks to be held under a United States intermediate holding company subject to a comprehensive set of prudential and supervisory requirements in the United States. The full impact on the Issuer's businesses and markets will not be known until the full suite of legal and regulatory changes are implemented by governmental authorities, a process which is under way and which will take effect over several years.

In Europe, the legal and regulatory regime, including the European Market Infrastructure Regulation ("**EMIR**") and its accompanying technical standards, as well as Directive 2014/65/EU and Regulation (EU) No 600/2014 on markets in financial instruments (together, as may be amended from time to time, "**MiFID II/MiFIR**"), in a similar manner to the legislative and regulatory changes being implemented in the United States, seeks to address concerns in relation to the monitoring of counterparty credit risk of OTC derivatives market participants, transparency and liquidity in financial markets. The main obligations that market participants face under EMIR are things such as central clearing for certain classes of OTC derivatives, application of risk mitigation techniques for non-centrally cleared OTC derivatives, reporting to trade repositories, application of organisational, conduct of business and prudential requirements for central counterparties, and the implication of certain additional requirements for trade repositories, including the duty to make certain data available to the public and relevant authorities. Such changes are likely to have an impact on the Issuer's business and markets, the full implications of which will not be known until the full suite of legal and regulatory changes are implemented by governmental authorities, a process which is under way and which will take effect over several years.

The Dodd-Frank Act, EMIR and MiFID II/MiFIR (EMIR and MiFID II/MiFIR together, the "**European Regulations**") provide for substantial changes to the regulatory scheme governing the trading of futures contracts. The various regulators in the United States and in Europe have adopted certain regulations and are in the process of adopting further regulations in order to implement many of the requirements of the Dodd-Frank Act and the European Regulations. The full implications of which will not be known until the full suite of legal and regulatory changes are implemented by governmental authorities, but such changes could result in reductions in market liquidity and increases in market volatility, which in turn may adversely affect the performance of the futures contracts and/or underlying commodities. The changes that are being implemented include such things as:

- restricting the ability of market participants to participate in the commodity, future and swap markets and markets for other OTC derivatives on physical commodities to the extent that they have in the past;
- increasing the level of regulation of markets and market participants (including restrictions on proprietary trading and fund-related activities (the so-called 'Volcker rule'));
- imposing position limits on market participants (including the Issuer);
- requiring an increasing number of OTC derivative transactions to be executed on regulated exchanges or trading platforms and cleared through regulated trading houses;
- requiring swap dealers (such as the Issuer) to be registered and subject to various additional regulatory requirements, including capital and margin requirements; and
- increasing the costs associated with the trading of futures contracts and limiting the size of positions that can be held by market participants and/or traders.

Such changes to the legal and regulatory regime in relation to commodities may adversely impact the Issuer's obligations in respect of any underlying or hedging transactions in relation to your Securities, or may make it unlawful or unfeasible in whole or in part for any reason for the Issuer to access commodity markets for the purpose of managing commodity market risk. This, in turn, may lead to adjustment to or early redemption of the Securities.

In the event that there is an early redemption of your Securities, any early cash settlement amount may be less than your initial investment, and could even be zero.

Additionally, you may not be able to reinvest the early redemption proceeds at an effective interest rate as high as the interest rate or yield on your Securities.

24. Risks associated with foreign exchange rates as Reference Asset(s)

If the Reference Asset(s) of your Securities is or includes foreign exchange rates, you should consider the following risks:

24.1 There are risks in relation to foreign exchange rates

Securities will be exposed to the performance of such foreign currency or currencies (including if applicable, the relative performance of the Settlement Currency under the Securities and the currency in which the Securities are denominated and/or the currency of the Reference Asset(s)).

You should be aware that foreign exchange rates are highly volatile and are determined by various factors, including supply and demand for currencies in the international foreign exchange markets, economic factors including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility, safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates as well as the availability of a specified currency.

You should also see risk factor 12 (*Risks associated with foreign exchange*).

24.2 Determinations of FX Rates, Spot Rates and Conversion Rates by the Determination Agent could adversely affect the value of and return on your Securities

Where the performance of a Reference Asset is calculated by reference to a Spot Rate, the Determination Agent will determine the Spot Rate at the relevant time and on the relevant day in accordance with foreign exchange transactions for such foreign exchange rates, rather than by reference to a published rate on recognised information services. In the case of Securities having a Settlement Currency that is different from the Issue Currency, the Conversion Rate used to convert amounts calculated in the Issue Currency into the Settlement Currency will be determined by the Determination Agent. The exercise of any determination by the Determination Agent in determining the FX Rate, Spot Rate or Conversion Rate could adversely affect the value of and return on your Securities.

You should note that the Issuer is a dealer in foreign exchange and certain of its Affiliates are regular participants in the foreign exchange markets and in the ordinary course of their business may effect transactions for their own or for the account of their customers and hold long and short positions in currencies and related derivatives, including in the currencies of the relevant FX Rate(s). Such transactions may affect the relevant FX Rate(s), Spot Rate(s) or Conversion Rate(s), the market price, liquidity or value of your Securities and could be adverse to your interests. No Affiliate of the Issuer has any duty to enter into transactions in a manner which is favourable to Securityholders. See risk factor 36 (*Risks associated with conflicts of interest*).

24.3 The occurrence of FX Disruption Events may lead to a postponement of valuation and payment and /or alternative valuation, either of which could have an adverse effect on the value of and return on your Securities

If one or more FX Disruption Events occurs at any time and is continuing, the Determination Agent may, in case of a Price Source Disruption only, specify and adopt an alternate fallback price source, obtain and use quotations provided by leading

dealers in foreign exchange markets, postpone the relevant Rate Calculation Date in respect of which the Price Source Disruption occurred and/or specify and adopt a replacement of any one or more relevant currencies. In the case of any other FX Disruption Event, the Determination Agent may (i) deduct an amount representing the cost, expense, charge and/or deduction arising in connection with such FX Disruption Event(s), (ii) adjust any relevant date for the calculation and payment of any FX Linked Amount(s), and/or (iii) treat the relevant FX Disruption Event as if an Additional Disruption Event had occurred in respect of the Security for the purposes of exercising any applicable rights under the terms and conditions.

Any consequential postponement of, or any alternative provisions for, valuation of any FX Linked Amounts provided in the terms and conditions of your Securities, including a determination of the value of any Reference Asset by the Determination Agent in its reasonable commercial discretion, may have an adverse effect on the value of and return on your Securities.

You should also read risk factor 9.3 (*Your Securities may redeem early or may be adjusted by the Determination Agent following an 'Additional Disruption Event', 'FX Disruption Event', or early redemption for unlawfulness or impracticability*).

25. **Risks associated with Inflation Indices as Reference Asset(s)**

If the Reference Asset(s) of your Securities is or includes an inflation index, you should consider the following risks:

25.1 **There are risks in relation to Inflation Linked Securities**

Where Securities reference one or more inflation indices, you will be exposed to the performance of such inflation indices, which may be subject to fluctuations that may not correlate with changes in interest rates, currencies or other indices and may not correlate with the rate of inflation experienced in your home jurisdiction. Any payments made under the Securities may be based on a calculation made by reference to an inflation index for a month which is several months prior to the date of payment and therefore could be substantially different from the level of inflation at the time of payment on the Securities.

The interest amounts and/or the redemption amount in respect of inflation-linked Securities shall be adjusted up or down to take into account changes in the level of the relevant inflation index over the life of the Securities. Broadly speaking, in an inflationary environment amounts payable shall be adjusted up and in a deflationary environment amounts payable shall be adjusted down. You should note that, in a deflationary environment, the amount of interest payable might be lower than the fixed rate that would have been applicable before such adjustment and the redemption amount may be reduced.

25.2 **The occurrence of certain disruption events in relation to an inflation index may lead to a different calculation of the index level, a replacement index or other adjustments, any of which may reduce the value of and return on the Securities**

Upon the occurrence of certain events in relation to an inflation index, for example, the level of the inflation index level has not been published or is discontinued or such inflation index is rebased or materially modified, then, depending on the particular event, the Issuer may:

- determine the level of the inflation index;
- determine a successor to the original inflation index;
- make changes to the level of the rebased index;
- make adjustments to the inflation index by reference to equivalent determinations, substitutions, changes or adjustments made in respect of the

Related Bond specified in the terms and conditions of the Securities or the Fallback Bond selected by the Determination Agent; or

- in the case of Index Cancellation, replace the Index with a Pre-nominated Index, if one is specified.

Any such event or determination may have an adverse effect on the value of the Securities.

If the inflation index is rebased or materially modified, and no action is taken in respect of the Related Bond or Fallback Bond, the Determination Agent may make changes to the level of the rebased index or make adjustments to the inflation index. Such consequential action by the Determination Agent may have a negative effect on the value of the Securities.

If, on any day on which a valuation is to be made, the level of the inflation index has not been published, and no action to determine a substitute level of the inflation index has been taken in respect of the Related Bond or Fallback Bond, the Determination Agent shall determine a substitute level of the inflation index calculated by reference to the latest published level of the inflation index, and such level may differ from the index level (if any) published or announced after the relevant Valuation Date. Such event may have an effect on the valuation of the Securities and on the interest and/or redemption amounts payable.

If an inflation index has been discontinued and no successor index has been determined in respect of the Related Bond or Fallback Bond, but the sponsor of the inflation index has specified a replacement inflation index, the Determination Agent may specify such replacement inflation index to be the successor inflation index in respect of the Securities. Failing that, the Determination Agent shall ask five leading independent dealers to state what the successor inflation index should be and, if a sufficient number of dealers state the same inflation index, such index shall be the successor. If an insufficient number of dealers state the same inflation index, the Determination Agent shall determine a successor. Such events may have an effect on the valuation of the Securities and on the interest and/or redemption amounts payable.

25.3 **Your Securities may be redeemed early if the inflation index is discontinued**

If the Determination Agent determines that an inflation index has been discontinued and there is no appropriate alternative successor index, the Determination Agent may redeem the Securities prior to their scheduled redemption date in accordance with the terms and conditions of the Securities. In the event of such early redemption the Issuer will repay the Early Cash Settlement Amount. You should note that any Early Cash Settlement Amount may be less than your initial investment and could be zero. You should also read risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*), and risk factor 9.6 (*There are costs associated with any early redemption of Securities (other than an automatic (autocall) redemption) that will reduce the amount otherwise payable or deliverable*).

26. **Risks associated with bonds as Reference Asset(s)**

If your Securities are Bond Linked Securities, you should consider the following risks:

26.1 **There may be differences between the terms and conditions in relation to a Reference Asset which is a bond and the 2003 ISDA Credit Derivatives Definitions or 2014 ISDA Credit Derivatives Definitions**

The terms and conditions of the Bond Linked Securities do not incorporate by reference the definitions and provisions of the 2003 Credit Derivatives Definitions or 2014 ISDA Credit Derivatives Definitions, as published by the International Swaps and Derivatives Association, Inc. (the "**Credit Derivatives Definitions**"), and there may be

differences between the definitions used in the Bond Linked Annex and the Credit Derivatives Definitions. Consequently, investing in Securities is not equivalent to investing in a credit default swap or credit linked security that incorporates the Credit Derivatives Definitions.

26.2 There are risks in relation to call option events

Not all Call Option Events have easily ascertainable triggers and disputes can and have arisen as to whether a specific event did or did not constitute a Call Option Event. However, the Issuer's determination of a Call Option Event will be conclusive and binding on all persons (including, without limitation, the Securityholders).

The decision when and whether to deliver a notice to Securityholders of its intention to redeem the Securities (whether in whole or in part) following the occurrence of a Call Option Event, an Adjustment Event or an Additional Disruption Event and the manner in which the Securities are redeemed (including whether cash or physical settlement will apply) is at the discretion of the Issuer. Following the occurrence of a Call Option Event, redemption of the Bond Linked Securities may occur irrespective of whether the relevant Call Option Event is continuing at the relevant time.

In making any applicable determination in connection with the Bond Linked Securities, the Issuer and/or the Determination Agent may (but is not obliged to) have regard to decisions made by the Credit Derivatives Determinations Committee. Where the Issuer and/or the Determination Agent is a member of such committee, it need not have regard to the interests of Securityholders when taking any action or casting any vote on such committee. Further information about the Credit Derivatives Determinations Committee may be found at <https://www.cdsdeterminationscommittees.org>.

26.3 The Reference Entities and its Obligations and Reference Obligations may be substituted by the Issuer

If so provided in the terms and conditions of your Securities, the Issuer may be entitled to effect replacements of the relevant Reference Obligation(s) for a Series of Bond Linked Securities. Unless otherwise specified in the terms and conditions of the Securities, the Issuer may effect such replacements pursuant to any guidelines specified in the terms and conditions of the Securities or the Bond Linked Conditions without regard to their effect on the value, market price or liquidity of any Bond Linked Securities or of the interests of any person other than the Issuer. If the terms and conditions of the Securities entitle the Issuer to effect such replacements, unless otherwise specified, the Issuer shall have no obligation to effect a replacement of a Reference Obligation as a result of any change in the credit of such Reference Obligation or related Reference Entity and no such inference may be drawn from the terms and conditions of the Securities.

As a result of the circumstances discussed in the preceding paragraph, your Bond Linked Securities may be linked to the credit of certain Reference Entities and its Obligations and Reference Obligations, notwithstanding that such Reference Entities, Obligations and Reference Obligations were not specified in the original terms and conditions upon issuance of such Series of Bond Linked Securities.

26.4 Payments under the Bond Linked Securities may be delayed

Following the occurrence of a Call Option Event, an Additional Disruption Event (if applicable) or an Adjustment Event, the date of redemption and/or the date on which settlement of the Bond Linked Securities takes place may be later than the Redemption Date. In the case of Bond Linked Securities in respect of which the Final Cut-off Date is not applicable, the latest possible date of such redemption and/or settlement of the Bond Linked Securities may be unknown.

Interest Payment Dates and/or the Redemption Date may also be adjusted in certain circumstances as specified herein, including, without limitation, following an

adjustment to the day on which payments are made on the relevant Reference Obligation(s) or following the occurrence of an FX Disruption Event.

26.5 The occurrence of a Settlement Disruption Event may lead to postponement and, ultimately, reduction down to zero in the amount payable under the Securities

If a Settlement Disruption Event has occurred and is continuing on an Optional Early Redemption Date, the obligations of the Issuer to redeem the Securities (or any portion thereof) in the manner which it has elected will be suspended until the occurrence of certain specified events. If, following the occurrence of a Settlement Disruption Event, the Securities held by certain affected Securityholders are not redeemed in accordance with the terms and conditions of the Securities prior to the Final Cut-off Date, following such date, unless otherwise specified in the terms and conditions of the Securities, the Issuer will have no payment or delivery obligations to the Securityholders in respect of the Securities.

26.6 In certain circumstances, the Determination Agent may value the relevant Reference Obligation(s) in its discretion; any such determination may have a material adverse effect on the value of and return on the Securities

Upon a redemption of the Securities following the occurrence of a Call Option Event, an Additional Disruption Event (if applicable) or an Adjustment Event, the Determination Agent may value the relevant Reference Obligation(s). The Determination Agent may determine such value by asking for quotations from dealers. The date, time and method of such request will impact the Final Price. The dealers selected by the Determination Agent for this purpose may include the Issuer; however, no such dealer has any duty towards you and may not be aware that the purpose of the request is to determine a Final Price for purposes of the Bond Linked Securities or any other securities. Any such determination may have a material adverse effect on the value of and return on the Securities.

27. Risk Factors relating to Credit Linked Securities

27.1 Risks related to the structure of a particular issue of Credit Linked Securities

A number of the Credit Linked Securities may have features which contain particular risks. Set out below is a description of the most common such features.

(a) Credit Linked Securities Subject to Optional Redemption by the Issuer After a Relevant Credit Event

The Issuer may redeem Credit Linked Securities (or, if so specified in the terms and conditions of your Securities, a portion thereof) earlier than the stated Scheduled Redemption Date if a Credit Event occurs. The optional redemption feature of Credit Linked Securities is likely to limit their market value. During any period when the Issuer may elect to redeem Credit Linked Securities, the market value of those Credit Linked Securities generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

At the time of such optional redemption, an investor may not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Credit Linked Securities being redeemed. You should consider such reinvestment risk in light of other investments available at the time.

(b) Risk of Loss of Interest

Save as otherwise provided in the terms and conditions of your Securities, no interest will accrue on the Credit Linked Securities (or, if so provided in the terms and conditions of your Securities, the portion of the applicable Calculation Amount of each Security affected thereby) on or after the Interest Expiration Date.

(c) **Risk of Loss of Principal**

You bear the risk of loss if any Relevant Credit Event occurs. The Credit Event Redemption Amount in respect of each Cash Settled CLS is likely to be less than the Calculation Amount as at the relevant Credit Event Redemption Date and may be zero. Similarly, the market value of the Deliverable Obligations Portfolio in respect of each Physically Delivered CLS is likely to be less than the Calculation Amount as at the Relevant Event Determination Date and may be zero.

The Credit Event Redemption Amount or amount of Deliverable Obligations delivered to a Securityholder will reflect the market value of the obligations of the Reference Entity in respect of which a Credit Event occurred less a deduction for Swap Costs. Swap Costs reflect the cost to the Issuer of terminating, liquidating, obtaining or re-establishing any hedges, trading positions, term deposits or funding arrangements entered into by it or on its behalf in respect of the Credit Linked Securities. Swap Costs will be determined by the Determination Agent, taking into account, inter alia, the hedging strategy employed in respect of the Credit Linked Securities and prevailing funding rates, interest rates and credit spreads at the time of determination. The Issuer is not under any duty to hedge itself with respect to any Credit Linked Securities, nor is it required to hedge itself in a manner that will result in the lowest unwind costs. You should be aware that if Swap Costs are greater than the product of the Calculation Amount as at the Relevant Event Determination Date and the Final Price or the market value of the Deliverable Obligations Portfolio, as the case may be, the Credit Event Redemption Amount will be zero.

See also '*Risks relating to the CLS Settlement Method*' below.

27.2 **Risks relating to the Credit Derivatives Definitions and the Credit Derivatives Determinations Committees**

(a) **Credit Derivatives Definitions**

The terms and conditions of the Credit Linked Securities do not incorporate by reference the definitions and provisions of the 2014 ISDA Credit Derivatives Definitions (the "**Credit Derivatives Definitions**") and there may be differences between the definitions used in the Conditions of the Securities and the Credit Derivatives Definitions. Consequently, investing in Credit Linked Securities is not exactly equivalent to investing in a credit default swap that incorporates the Credit Derivatives Definitions.

While ISDA has published the Credit Derivatives Definitions in order to facilitate transactions and promote uniformity in the credit derivative market, the credit derivative market has evolved over time and is expected to continue to change. Consequently, the Credit Derivatives Definitions and the terms applied to credit derivatives, including Credit Linked Securities, are subject to interpretation and further evolution. Past events have shown that the views of market participants may differ as to how the Credit Derivatives Definitions operate or should operate. As a result of the continued evolution in the market, interpretation of the Credit Linked Securities may differ in the future because of future market standards. Such a result may have a negative impact on the Credit Linked Securities.

There can be no assurance that changes to the terms applicable to credit derivatives generally will be predictable or favourable to the Issuer or Securityholders. Future amendments or supplements to the terms applicable to credit derivatives generally will only apply to Credit Linked Securities that have already been issued if the Issuer and the Securityholders agree to amend the Credit Linked Securities to incorporate such amendments or supplements and other conditions to amending the Credit Linked Securities have been met.

(b) Credit Derivatives Determinations Committees

Certain determinations with respect to Credit Linked Securities may be made by reference to a determination of a Credit Derivatives Determinations Committee. Such committees make determinations that are relevant to the majority of the credit derivatives market and to promote transparency and consistency. Credit Derivatives Determinations Committees are regional committees composed of significant participants in the credit default swap market in the applicable region. Credit Derivatives Determinations Committees are typically composed of both the largest dealers in credit default swaps as well as non-dealers, but dealers typically significantly outnumber non-dealers. As at the date of this Offering Circular, Barclays Bank PLC is a member of each of the Credit Derivatives Determinations Committees. In such capacity, it need not have regard to the interests of any Securityholders when taking any action or casting any vote. Further information about the Credit Derivatives Determinations Committees may be found at <https://www.cdsdeterminationscommittees.org>.

Whether or not a Credit Event has occurred or a succession event (or in relation to a Reference Entity that is a Sovereign, a Sovereign Succession Event) in respect of which a Succession Date has occurred and pursuant to which one or more Successors to such Reference Entity has been determined, and certain decisions relating thereto, may be dependent on determinations made by the Credit Derivatives Determinations Committee. In certain circumstances, determinations made by the Determination Agent may be overridden by subsequent determinations made by a Credit Derivatives Determinations Committee. If the Issuer delivers a Credit Event Notice or a Successor Notice to a Securityholder, such Securityholder should be aware that such notice may be superseded by a determination of a Credit Derivatives Determinations Committee.

The procedures of the Credit Derivatives Determinations Committees are set out in the DC Rules. The DC Rules may be amended by a Credit Derivatives Determinations Committee in accordance with the DC Rules. None of ISDA, DC Administration Services Inc., the DC Secretary, the institutions serving on the Credit Derivatives Determinations Committees or any external reviewers owes any duty to any Securityholder in such capacity, and any Securityholder may be prevented from pursuing claims with respect to actions taken by such persons under the DC Rules. Institutions serving on a Credit Derivatives Determinations Committee may base their votes on information that is not available to a Securityholder, and have no duty to research, investigate, supplement or verify the accuracy of information on which a determination is based. In addition, a Credit Derivatives Determinations Committee is not obligated to follow previous determinations or to apply principles of interpretation such as those that might guide a court in interpreting contractual provisions. Therefore, a Credit Derivatives Determinations Committee could reach a different determination on a similar set of facts.

In making any determination in its capacity as Determination Agent or Issuer, the Issuer may have regard to (and, in certain circumstances, is bound by) decisions made by a Credit Derivatives Determinations Committee. Where the Issuer is a member of such committee, it need not have regard to the interests of Securityholders when taking any action or casting any vote.

Condition 14 (*Risks associated with Securities linked to equity indices as Reference Asset(s)*) in the Credit Linked Annex sets out certain representations relating to the Credit Derivatives Determinations Committees which are deemed to be made by each Securityholder.

27.3 Exposure to Reference Entities, Obligations, Underlying Obligations, Underlying Obligors, Reference Obligations and Deliverable Obligations

Unless otherwise provided in the terms and conditions of your Securities, you (as an investor in Credit Linked Securities) are exposed to the credit risks and other risks associated with the Reference Entities and their Obligations, Underlying Obligations, Underlying Obligor, Reference Obligations, Deliverable Obligations and any relevant jurisdictional risks.

(a) **Credit Events**

You should note that not all Credit Events have easily ascertainable triggers and disputes can and have arisen as to whether a specific event did or did not constitute a Credit Event. However, under these Credit Linked Conditions and subject to any subsequent determinations made by a Credit Derivatives Determinations Committee, the Issuer's determination of a Credit Event will, in the absence of manifest error, be conclusive and binding on all persons (including, without limitation, the Securityholders), notwithstanding the disagreement of such persons or other financial institutions, rating agencies or commentators. Examples of Credit Events that might apply to individual Credit Linked Securities include Bankruptcy, Failure to Pay, Restructuring, Obligation Acceleration, Obligation Default and Repudiation/Moratorium. In addition, for certain Credit Linked Securities, Governmental Intervention may apply. You should carefully review the applicable Credit Events and their definitions under a Series of Credit Linked Securities and independently evaluate their appropriateness to your objective for purchasing such Series of Credit Linked Securities.

(b) **Portfolio Replacements, Successors and Substitute Reference Obligations**

If specified in the terms and conditions of your Securities, the Issuer or a third party (the "**Replacement Selector**") may be entitled to effect replacements of the entities, obligations and amounts comprising a reference portfolio for a Series of Credit Linked Securities. Unless otherwise specified in the terms and conditions of your Securities or any other agreement, the Replacement Selector may effect such replacements pursuant to any guidelines specified in the terms and conditions of your Securities without regard to their effect on the value, market price or liquidity of any Credit Linked Securities or of the interests of any person other than the Replacement Selector. If the terms and conditions of your Securities entitles the Replacement Selector to effect such replacements, unless otherwise specified, the Replacement Selector shall have no obligation to effect a replacement of a Reference Obligation as a result of any change in the credit of such Reference Obligation or related Reference Entity and no such inference may be drawn from such terms and conditions of your Securities.

The Reference Entity originally specified in the terms and conditions of your Securities may change or there may be additional Reference Entities following a determination of any Successor or Successors to the Reference Entity. Under these Credit Linked Conditions (unless otherwise specified in the terms and conditions of your Securities), the relevant period for the purposes of any Successor determination begins on the Successor Backstop Date, which may be prior to the Trade Date or Issue Date (as the case may be). You should be aware that it is therefore possible for a Series of Credit Linked Securities to be affected by a succession event that occurred prior to the Trade Date or Issue Date (as the case may be) specified in the terms and conditions of your Securities.

You should also note that if, on or after 1 January 2014, an entity assumes all of the obligations (including at least one relevant obligation) of a Reference Entity which is not a sovereign, in circumstances where the Reference Entity has ceased to exist, or is in the process of being dissolved and has not issued or incurred any borrowed money obligation at any time since the legally effective date of the assumption, then Successor Backstop Date shall not apply.

Upon a Successor being determined, one or more entities will (unless otherwise specified in the terms and conditions of your Securities) be deemed to be a Reference Entity in replacement of (or in addition to, as applicable) the Reference Entity originally specified in the terms and conditions of your Securities. Furthermore, upon a Reference Obligation ceasing to exist in the manner specified in the definition thereof, a Substitute Reference Obligation may be selected.

As a result of the circumstances discussed in the preceding two paragraphs, a Series of Credit Linked Securities may be linked to the credit of certain Reference Entities and its Obligations and Reference Obligations, notwithstanding that such Reference Entities, Obligations and Reference Obligations were not specified in the terms and conditions of your Securities upon issuance of such Series of Credit Linked Securities. The credit risks associated with such Successor could potentially be greater or lesser than the credit risk of the Reference Entity originally specified in the terms and conditions of your Securities, which could adversely impact the value of your Series of Credit Linked Securities (if the credit risk increases).

(c) **Redemption after Scheduled Redemption Date**

Redemption may occur irrespective of whether the Relevant Credit Event is continuing on or after a Relevant Event Determination Date. The Credit Event Redemption Date, the Final Delivery Date or the Physical Settlement Date may be later than the Scheduled Redemption Date. In certain circumstances, delivery of Deliverable Obligations contained in the Deliverable Obligations Portfolio may be delayed to a date beyond the Physical Settlement Date. If a Credit Event has occurred but a Credit Event Notice has not yet been served on or prior to the Scheduled Redemption Date, the Issuer may elect to extend the maturity of the Credit Linked Securities by service of an Extension Notice. During the Extension Period, the Issuer may deliver a Credit Event Notice.

(d) **Issuer Discretion**

The decision as to when and whether to deliver a Credit Event Notice and, if applicable, a Notice of Publicly Available Information, is at the discretion of the Issuer. Such notices are effective when delivered to the Issue and Paying Agent. The delivery of or failure to deliver such notices to Securityholders will not affect the effectiveness of such notices.

(e) **Risks relating to the CLS Settlement Method**

The CLS Settlement Method specified in the terms and conditions of your Securities will affect how the Credit Linked Securities are redeemed. You should assess whether the CLS Settlement Method is appropriate for them prior to investing in the Credit Linked Securities.

Where 'Issuer CLS Settlement Option' is applicable, the Issuer may elect the CLS Settlement Method after the occurrence of a Credit Event. You should be aware that this may result in a different CLS Settlement Method than the method originally anticipated by the Credit Linked Securities.

(f) **Standard Reference Obligation**

In respect of certain Credit Linked Securities where Standard Reference Obligation is specified as applicable, the reference obligation will be the obligation specified as the market standard reference obligation for the relevant Reference Entity for the relevant seniority level on a list to be published by ISDA (or any successor thereto). For these Reference Entities, a reference obligation will no longer have to be specified in the terms and conditions of your Securities relating to such Credit Linked Securities. The rules outlining the

selection and replacement of the Standard Reference Obligation are contained within the SRO Rules.

The Standard Reference Obligation will only be replaced by the Credit Derivatives Determinations Committee in certain circumstances (for example, if the Standard Reference Obligation matures, is redeemed, is no longer an obligation of the Reference Entity, or in the case of Financial Reference Entities where Mod R or Mod Mod R typically applies, if the Standard Reference Obligation has less than one year remaining maturity and a replacement Standard Reference Obligation is available in the first maturity bucket). After performing the necessary legal review, the Credit Derivatives Determinations Committee will select a replacement Standard Reference Obligation for the relevant Reference Entity and seniority level by a majority vote.

27.4 Physical Settlement

(a) Calculation of outstanding principal amount

In relation to a Physically Delivered CLS, the calculation of the outstanding principal balance of a deliverable obligation is determined in accordance with the following three-step process: (i) first, all principal payment obligations of the Reference Entity need to be identified; (ii) secondly, all or any portion of such principal payment obligations that are subject to a contingency (other than a permitted contingency) or prohibited action need to be disregarded, leaving an amount equal to the non-contingent amount; and (iii) finally, the amount of the claim that could be validly asserted against the Reference Entity in respect of such non-contingent amount if the obligation was redeemed or accelerated as of a particular day needs to be determined, and such amount will be the outstanding principal balance. If payments of principal are subject to a contingency, the Outstanding Principal Balance could be less than the principal balance (and depending upon the type of contingency, could be zero).

Permitted contingency means, with respect to an obligation, any reduction to the Reference Entity's payment obligations, (a) as a result of the application of: (i) any provisions allowing a transfer, pursuant to which another party may assume all of the payment obligations of the Reference Entity; (ii) provisions implementing the subordination of the obligation; (iii) provisions allowing for a transfer of a qualifying guarantee (or provisions allowing for the release of the Reference Entity from its payment obligations in the case of any other guarantees); (iv) any solvency capital provisions if 'Subordinated European Insurance Terms' is specified as applicable in respect of a Series of Credit Linked Securities; or (v) if 'Financial Reference Entity Terms' is specified as applicable to the Reference Entity in respect of a Series of Credit Linked Securities (such an entity, a "**Financial Reference Entity**"), provisions which permit the Financial Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a governmental intervention, or (b) which is within the control of the holders of the obligation or a third party acting on their behalf (such as an agent or trustee).

(b) Redemption Failure/Alternative Settlement

In relation to a Physically Delivered CLS, if a Redemption Failure Event occurs, the Security may be subject to alternative settlement and may, in certain circumstances, be redeemed without any payment or Delivery by the Issuer. If the minimum denomination of Deliverable Obligations is not a whole integral number of the amount of the Deliverable Obligations Portfolio, the Issuer may Deliver such whole integral amount of the Deliverable Obligations Portfolio and cash settle the fractional shortfall. If the Credit Event Redemption Amount in respect of such Security cannot be paid when due as a result of a Redemption Failure Event, the Securityholder, after providing a release and indemnity to the satisfaction of the Issuer, may request such payment to be made to an account or

person not affected by such Redemption Failure Event, provided that the Issuer shall have no obligation to comply with such request, and provided further that, if such Redemption Failure Event is continuing for 180 calendar days after the Scheduled Redemption Date, the Issuer's obligations in respect of such payment will be discharged.

See also risk factor 11.5 (*Settlement disruption risk*).

(c) Impossibility and Illegality

In relation to a Physically Delivered CLS, if as a result of the application of the provisions of Conditions 4.4 to 4.8 in the Credit Linked Annex it is impossible, impracticable (including if unduly burdensome) or illegal for the Issuer to Deliver (by reason of an impossibility, impracticability or illegality, non-receipt of requisite consents of Consent Required Loans or Assignable Loans included in the Deliverable Obligations Portfolio, the inclusion in the Deliverable Obligations Portfolio of Participations not effected by the Latest Permissible Physical Settlement Date or for any other reason specified in such Credit Linked Conditions), then Conditions 4.4 to 4.8 of the Credit Linked Annex relating to partial cash settlement may apply in respect of any undeliverable portion of the Deliverable Obligations Portfolio. If such partial cash settlement does not apply, then in respect of the portion of the Deliverable Obligations Portfolio for which it is not possible or legal to take Delivery on the Physical Settlement Date, such Delivery will take place as soon as practicable thereafter in accordance with the provisions of the Credit Linked Conditions and in any event on or before the Latest Permissible Physical Settlement Date. The Issuer's obligations will be deemed to be fully discharged with respect to such Security as at the date on which the Deliverable Obligations Portfolio (if any) has been fully Delivered or otherwise as at the date immediately following the Latest Permissible Physical Settlement Date.

27.5 Auction Settlement

If 'Auction Settlement' is specified as applicable in respect of any Security, then the amounts payable by and/or rights and obligations of the parties under such Security in respect of the relevant Reference Entity or Reference Obligation will be determined in accordance with the Auction Final Price (subject to a maximum of 100 per cent. and as defined in these Credit Linked Conditions). This may result in a lower recovery value than a Reference Entity or Reference Obligation would have if such Auction Final Price had not been used.

In its capacity as a Global Dealer Voting Member of each Credit Derivatives Determinations Committee, Barclays Bank PLC will be involved in deciding the terms relating to each Auction and is also required (subject to limited exceptions) to act as a participating bidder in each Auction. In such capacity, the Issuer is under no obligation to consider the interests of Securityholders when making any decision relating to an Auction or when acting as a participating bidder.

If 'Auction Settlement' is specified as applicable with respect to any Credit Linked Securities but the Credit Derivatives Determinations Committee does not decide to conduct an Auction with respect to obligations of the relevant Reference Entity satisfying the relevant characteristics as set out in the terms and conditions of your Securities, then the Fallback CLS Settlement Method shall apply. In such circumstances, either the Final Price will be determined pursuant to the Valuation Method or the Issuer will Deliver to Securityholders the Deliverable Obligations Portfolio.

You should note that you will not be able to deliver a Customer Physical Settlement Request (as defined in the Credit Derivatives Auction Settlement Terms) to the Issuer in respect of their holding of Credit Linked Securities.

27.6 Cash Settlement

If 'Cash Settlement' is specified as applicable with respect to any Credit Linked Securities, or deemed to apply pursuant to the Issuer CLS Settlement Method or the Fallback CLS Settlement Method, then the Determination Agent will value the Reference Obligation by asking for quotations from Dealers. The date, time and method of such auction, and the selection of the Reference Obligation, will impact the Final Price. The Dealers selected by the Determination Agent must be financial institutions, funds or other entities that purchase or deal in obligations similar to the Reference Obligation and may include the Issuer; however, the Dealers have no duty towards any Securityholder and may not be aware that the purpose of the auction is to determine a Final Price for purposes of the Credit Linked Securities or any other securities.

You should note that the Final Price determined pursuant to a dealer poll may be significantly different to the Auction Final Price.

27.7 "Cheapest-to-Deliver" risk

Since the Issuer, as buyer of protection in respect of the Credit Linked Securities has discretion to choose the portfolio of obligations and/or assets to be valued or delivered following a Credit Event in respect of a Reference Entity, it is likely that the portfolio of obligations and/or assets selected will be obligations of the Reference Entity and/or assets with the lowest market value that are permitted to be selected pursuant to the terms of the Credit Linked Securities. This could result in a lower recovery value and hence greater losses for investors in the Credit Linked Securities.

27.8 Asset Package Delivery

If Asset Package Delivery is specified as applicable in the terms and conditions of your Securities in respect of a Series of Credit Linked Securities, the asset package delivery provisions in these Credit Linked Conditions will apply to such Series of Credit Linked Securities following the occurrence of an Asset Package Credit Event unless such Asset Package Credit Event occurs prior to the Credit Event Backstop Date.

If the Asset Package is not capable of being transferred to Securityholders (excluding due to market conditions), or is not the type typically traded in, or suitable for being traded in, financial markets, the Asset shall be deemed to be an amount of cash equal to the market value thereof as determined by the Determinations Agent in accordance with these Credit Linked Conditions which is likely to be less than the Calculation Amount as at the Relevant Event Determination Date and may be zero.

You should note that if no Assets are received by a Relevant Holder, the Asset Package shall be deemed to have a value of zero.

27.9 Increased Cost of Hedging Due to market-wide change in standard CDS documentation

If the Determination Agent determines that, as of the relevant time on the relevant date, the majority of the first eight 'Eligible Global Dealers' on the 'Global Dealer Trading Volume List' as determined for the most recent 'List Review Date' (in each case, as defined in the DC Rules) as at the relevant time sign up to a credit default swap industry-wide protocol or similar agreement to document credit default swaps by way of documentation differing from the prevailing market standard credit default swap documentation existing as of the Trade Date in respect of a Series of Credit Linked Securities, as determined by the Determination Agent, the Issuer and/or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) and/or materially increased (as compared with circumstances existing on the Trade Date) costs related to that Series of Credit Linked Securities, including without limitation internal charges of the Issuer and/or any of its Affiliates in terms of

potentially increasing its risk asset weighting and/or worsening any other leverage ratio treatment or any other such capital measure to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the price risk of issuing and performing its obligations with respect to the relevant Series of Credit Linked Securities, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

You should note that if an Additional Disruption Event occurs at any time prior to the redemption of the Securities (including after the occurrence of a Relevant Event Determination Date), the Securities may be redeemed at the Early Cash Settlement Amount pursuant to Condition 5.5 (*Early Redemption following the occurrence of a Specified Early Redemption Event*) instead of at the Credit Event Redemption Amount pursuant to Credit Linked Condition 3 (*Redemption of Cash Settled CLSs*).

28. Risks associated with funds as Reference Asset(s)

28.1 There are risks associated with Funds

The valuation of a fund is generally controlled by the relevant fund manager or the investment adviser (as the case may be) and the fund administrator. Valuations are performed in accordance with the terms and conditions governing the fund and are subject to applicable laws and regulations. Such valuations may be based upon the unaudited financial records of the fund and any accounts pertaining thereto. Such valuations may be preliminary calculations of the net asset values of the fund and accounts. A fund may hold a significant number of investments which are illiquid or otherwise not actively traded and in respect of which reliable prices may be difficult to obtain. In consequence, the relevant fund manager or the investment adviser may vary certain quotations for such investments held by the fund in order to reflect its judgement as to the fair value thereof. Therefore, valuations may be subject to subsequent adjustments upward or downward. Uncertainties as to the valuation of the fund's underlying fund components and/or accounts may have an adverse effect on the net asset value of the fund where such judgements regarding valuations prove to be incorrect.

A fund, and any underlying fund components in which it may invest, may utilise (inter alia) strategies such as short selling, leverage, securities lending and borrowing, investment in sub-investment grade or non-readily realisable investments, uncovered options transactions, options and futures transactions and foreign exchange transactions and the use of concentrated portfolios, each of which could, in certain circumstances, magnify adverse market developments and losses. Funds, and any underlying fund components in which it may invest, may make investments in markets that are volatile and/or illiquid and it may be difficult or costly for positions therein to be opened or liquidated. No assurance can be given relating to the present or future performance of any fund and any underlying fund component in which it may invest. The performance of each fund and any underlying fund component in which it may invest is dependent on the performance of the fund manager in selecting underlying fund components and the management of the relevant underlying fund component. No assurance can be given that such managers will succeed in meeting the investment objectives of the fund, that any analytical model used thereby will prove to be correct or that any assessments of the short-term or long-term prospects, volatility and correlation of the types of investments in which a fund has or may invest will prove accurate.

28.2 There are risks associated with Funds as Reference Asset(s)

Funds may be subject not only to market price fluctuations, but also to numerous other factors that may trigger a Fund Event (as described below), the consequences of which will be set out in the terms and conditions of the Securities. In the event of certain occurrences in respect of a Fund, including, but not limited to, a change in the Fund Manager, investment guidelines, strategy, policy, asset allocation methodology or risk profile of a Fund, the insolvency of the Fund or its Fund Manager, a change in the dealing terms, valuation methodology and/or practice of publication of information

which impairs the Determination Agent's ability to determine the net asset value of the Fund, or (in relation to non-Belgian Securities only) any changes in law, regulation, taxation or accounting practice in relation to the Fund that adversely affects the Issuer's or its Affiliates hedging arrangement (each a "**Fund Event**"), the Determination Agent may replace the original fund (the "**Original Fund**") with an alternative investment fund (a "**Replacement Fund**"). Such substitution would change the profile and composition of the Fund Linked Securities.

Instead of substitution, the Determination Agent may determine to cause the adjustments to the terms and conditions of the Securities, the early redemption of the Securities or monetisation of the Securities. Where the Securities are early redeemed, you will receive an early cash settlement amount (the method of determination of which will be specified in the terms and conditions of the Securities) on a date prior to the scheduled redemption date of the securities and will not receive further payments originally provided for under the terms and conditions of the Securities. Where the Securities are monetised, all future and contingent payments under the Securities will be indefinitely suspended and you will instead receive on the scheduled redemption date the "monetised value" of the underlying Fund plus interest accrued on such monetised value from the date on which the Determination Agent determines that the Securities shall be monetised up to the scheduled redemption date. Early redemption or 'monetisation' of the Securities may cause you to receive a lesser return (if any) on the Securities than otherwise.

You should review the related Fund Documents, including the description of risk factors contained therein, prior to making an investment decision regarding any Fund Linked Securities. However, neither the Issuer nor any of its Affiliates takes any responsibility for the Fund Documents. Such Fund Documents will include more complete descriptions of the risks associated with investments that the relevant Fund intends to make. Any investment decision must be based solely on information in the Fund Documents, this Offering Circular, the terms and conditions of the Securities and such investigations as the investor deems necessary, and consultation with the investor's own legal, regulatory, tax, accounting and investment advisers in order to make an independent determination of the suitability and consequences of an investment in the Fund Linked Securities. Any information provided by the Issuer upon request shall not form the primary basis of any investment decision.

The following is a summary description of certain risks which you should consider:

- (a) Exposure to a Fund's underlying fund components. Your returns will depend on the performance of the Fund(s) to which the Fund Linked Securities are linked. There can be no assurance that the Fund will generate returns or revenues sufficient to ensure timely payment of all or any amounts due on such investments, if at all. You should, together with your professional advisers, carefully consider, in general, the risks related to investments in fund(s).
- (b) Trading limitations and frequency. Suspensions or limits for securities listed on a public exchange could render certain strategies followed by a Fund difficult to complete or continue. The frequency of a Fund's trading may result in portfolio turnover and brokerage commissions that are greater than other investment entities of similar size.
- (c) Fund leverage. Each Fund Manager may employ leverage separate and in addition to any leverage employed by an issuer of any product or security referred to herein. The leverage used by any Fund may include the use of borrowed funds, repurchase agreements, swaps and options, as well as other derivative transactions. While such strategies and techniques may increase the opportunity to achieve higher returns on the amounts invested, they may also increase the risk of loss.
- (d) Reliance on trading models. Some of the strategies and techniques used by the relevant Fund Manager may employ a high degree of reliance on statistical

- trading models developed from historical analysis of the performance or correlations of certain companies, securities, industries, countries, or markets. There can be no assurance that the historical performance that is used to determine such statistical trading models will be a good indication of future performance of the Fund(s). If future performance or such correlations vary significantly from the assumptions in such statistical models, then the relevant Fund Manager may not achieve its intended results or investment performance.
- (e) Diversification. Certain funds, and/or Securities may provide diversification through investments in a variety of funds. This is intended to reduce the exposure to adverse events associated with specific companies, securities, markets, countries or strategies. However, the number of investments held by each Fund may be limited. Furthermore, each of the Funds may hold similar investments or follow similar investment strategies.
 - (f) Illiquidity of fund investments. The net asset value of a fund will fluctuate with, among other changes, changes in market rates of interest, general economic conditions, economic conditions in particular industries, the condition of financial markets and the performance of a fund's underlying. Investments by a fund in certain underlying fund components will provide limited liquidity. Interests in fund(s) are generally not freely transferable and in many cases are not registered under the Securities Act, and, therefore, may not be sold or transferred unless they are subsequently registered under the Securities Act or an exemption from registration is available. Additionally, funds may be subject to certain transfer restrictions, including, without limitation, the requirement to obtain the Fund Manager's consent (which may be given or withheld in its discretion). Furthermore, the relevant Fund Documents typically provide that interests therein may be voluntarily redeemed only on specific dates of certain calendar months, quarters or years and only if an investor has given the requisite number of calendar days' prior notice to the Fund Manager. Many funds also reserve the right to suspend redemption rights or make in kind distributions in the event of market disruptions. A fund is likely to retain a portion of the redemption proceeds pending the completion of the annual audit of the financial statements of such fund, resulting in considerable delay before the full redemption proceeds are received. Such illiquidity may adversely affect the price and timing of any liquidation of a fund investment entered into by the Issuer for the purposes of hedging that is necessary to meet the requirements of any investment guidelines or tests that the Issuer may have requested. Also, limited liquidity increases the risk that the Issuer may be unable to meet its current obligations during periods of adverse general economic conditions, and insufficient liquidity during the final liquidation of assets of the fund may cause you (as an investor in Fund Linked Securities) to receive any final distribution after the relevant interest payment dates or redemption date.
 - (g) Fund underlying fund components and Fund managers. Except to the extent expressly agreed to in any Fund Documents, if at all, neither the Issuer nor any of its Affiliates will have any obligation to monitor the performance of a Fund or Fund Basket or the actions of any Fund Managers.
 - (h) Roles of Issuer. If the Issuer acts as a hedge counterparty or leverage provider to any Fund, it will have no obligation to consider the interests of any investor in that Fund nor any investor in Fund Linked Securities in connection with the actions that the Issuer may take in such capacities.
 - (i) Dependence on the expertise of key personnel. The performance of any Fund will depend greatly on the experience of the investment professionals associated with the relevant Fund Manager, none of whom may be under any contractual obligation to continue to be associated with such Fund or Fund Manager for any length of time. The loss of one or more of such individuals could have a material adverse effect on the performance of such Fund.

- (j) Fund Event. The occurrence of Fund Events may give rise to an adjustment, monetisation or early redemption of the Fund Linked Securities. Such Fund Event may result in you receiving less than the original investment amount or, if a substitution is provided for, may result in a change in the profile and composition of the Fund Linked Securities.
- (k) Correlation between Fund Linked Securities and Fund Shares. No assurance is or can be given that the value of the Fund Linked Securities will correlate with movements in the value of the Fund Shares. Prior to the interest payment dates or redemption date, it may not be possible to sell the Fund Linked Securities at a price which correlates with the value of Fund Shares.
- (l) Hedging Provider. The Issuer and its Affiliates may, but are not obliged to, hedge any Fund Linked Securities. The decision to hedge is in the sole discretion of the Issuer and its Affiliates and the Issuer may commence, or, once commenced, suspend or cease to hedge, at any time as it may solely determine. If the Issuer decides to hedge its position through a derivative with a counterparty (a "**Hedging Provider**") and such Hedging Provider holds any shares, interests or units of the Fund, the Issuer may exercise its rights with respect to such shares, interests or units (including, without limitation, any voting rights) without considering and, in certain circumstances, contrary to the interests of investors of any Securities linked to such Fund. You (as a Securityholder of a Fund Linked Security) do not have any rights or claims with respect to the Fund Shares. The Issuer, any Hedging Provider or their Affiliates may have banking or other commercial relationships with the Fund or a Fund Services Provider and may engage in proprietary trading in the Fund Shares or any securities or other assets underlying such Fund Shares or options, futures, derivatives or other instruments relating to the Fund Shares or the Reference Asset(s) and securities (as applicable). Such trading and relationships may adversely affect the price of the Fund Shares and, consequently, the amounts payable or deliverable under the Fund Linked Securities. Such trading may be effected at any time, including or near any Interest Valuation Date or Valuation Date.
- (m) Participation. If the participation is set below 100 per cent (as specified in the terms and conditions of the Securities), the notional exposure to the Fund(s) and the participation in the performance of the Fund Shares will be limited to such lower percentage, thereby reducing any gains (or where applicable, losses).

29. Risks associated with Barclays Indices as Reference Asset(s)

29.1 Index Disruption in relation to the Barclays Index

Where the Determination Agent has determined that a day on which a valuation or determination is to be made in respect of any Barclays Index is a Disputed Day or an Index Disrupted Day or a Market Disruption Event, an Index Adjustment Event, an FX Disruption Event, an Unavailable Price Event or a Commodity Market Disruption Event (as the case may be) has occurred, the relevant Index Sponsor has failed to publish the level of the Barclays Index or a Related Exchange has failed to open on an Observation Date, Averaging Date, or Valuation Date (as the case may be), any such determination may have an effect on the timing of valuation and, consequently, may adversely affect the value of the Barclays Index, the Final Cash Settlement Amount and the value of the Barclays Index Linked Securities. Prospective investors should review the Conditions of the Barclays Index Linked Securities to ascertain how such provisions apply to the Barclays Index Linked Securities.

29.2 Adjustments, Suspension and Termination of the Barclays Index

While the Index Sponsor currently employs the methodology ascribed to the Barclays Index (and application of such methodology shall be conclusive and binding), no assurance can be given that market, regulatory, juridical, financial, fiscal or other

circumstances (including, but not limited to, any changes to or any suspension or termination of or any other events affecting any constituent within the Barclays Index) will not arise that would, in the view of the Index Sponsor, necessitate an adjustment, modification or change of such methodology. The Index Sponsor may also, in its sole and absolute discretion, at any time and without notice, adjust, suspend or terminate the Barclays Index. The Index Sponsor is also under no obligation to continue the calculation, publication and dissemination of the Barclays Index. Any such adjustment, suspension, termination or non-publication may have a negative impact on the Barclays Index Linked Securities.

29.3 Certain Additional Risk Factors Associated with the Barclays Index

Fluctuations in the value of the Barclays Index (including the prices of any component of the Barclays Index) will affect the value of the Barclays Index Linked Securities.

The return on the Barclays Index Linked Securities is dependent upon the level of the Barclays Index as compared to a specified level of the Barclays Index at the Trade Date. Investors will not benefit from any increase in the value of the Barclays Index if such increase is not reflected in the value of the Barclays Index on the applicable Valuation Date.

Prospective investors in the Barclays Index Linked Securities should not take the past performance of the Barclays Index as an indication of the future performance of the Barclays Index during the term of the Barclays Index Linked Securities. The actual performance of the Barclays Index or any of its components over the term of the Barclays Index Linked Securities, as well as the amount payable upon redemption, may bear little relation to the historical values of the Barclays Index or the Components of it, which in most cases have been highly volatile.

An investment in the Barclays Index Linked Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the Barclays Index, and/or the composition and method of calculation of the Barclays Index, as the return of any such investment will be dependent upon such changes. More than one risk factor may have simultaneous effect with regard to the Barclays Index Linked Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Barclays Index Linked Securities.

29.4 A Credit Rating Reduction may Result in a Reduction in the Trading Value of the Barclays Index Linked Securities

The value of the Barclays Index Linked Securities may be expected to be affected, in part, by investors' general appraisal of the creditworthiness of the Issuer and/or the Bank Group. Such perceptions are generally influenced by the ratings accorded to the outstanding securities of the Issuer by standard statistical rating services, such as Moody's, Standard & Poor's and Fitch. A reduction in the rating, if any, accorded to outstanding debt securities of the Issuer by one of these or other rating agencies could result in a reduction in the trading value of the Barclays Index Linked Securities.

29.5 Limited Participation in the Performance of the Barclays Index.

If the participation is set below 100 per cent, the participation in the performance of the Barclays Index will be limited. Such participation is limited by a notional exposure to the Barclays Index of less than 100 per cent.

29.6 Issuer and Conflicts of Interest

The Index Sponsor in respect of a Barclays Index is Barclays Risk Analytics and Index Solutions Limited ("BRAIS"), a wholly owned subsidiary of the Issuer, or any successor thereto. Potential conflicts of interest may exist within Barclays Group in the

normal course of carrying out the activities of Index Sponsor and the operations of other divisions, teams, and/or entities within the Barclays Group and/or their affiliates. The Index Sponsor may administer, calculate and publish the level of the Index and make determinations in respect of the Index in its role of administering, calculating the level of, and publishing, the Index, while the Issuer and/or another affiliate of the Issuer may (i) submit information and price contributions to the Index Sponsor, (ii) issue, enter into, promote, offer or sell transactions or investments linked, in whole or in part, to the Index; and (iii) may have, or may have had, interests or positions, or may buy, sell or otherwise trade positions in or relating to the underlying constituents comprising the Index. Such activities may have an impact on the level of the Index. In view of these different roles, potential conflicts of interests exist within the Barclays Group.

The Index Sponsor and/or its Affiliates may have banking or other commercial relationships with third parties in relation to the Barclays Index, and may engage in proprietary trading in the Barclays Index or options, futures, derivatives or other instruments relating to the Barclays Index (including such trading as the Index Sponsor and/or its Affiliates deem appropriate in their sole and absolute discretion to hedge their market risk on any such other transactions that may relate to any Barclays Index between the Index Sponsor and/or its Affiliates and third parties), and such trading may adversely affect the level of such Barclays Index, which could in turn affect the return on and value of the Barclays Index Linked Securities. The role played by the Index Sponsor whereby it can exercise the kinds of discretion described above and its proprietary trading or other relationships described above could present it with a conflict of interest and such conflict may have an impact, positive or negative, on the value of the Barclays Index Linked Securities.

The Issuer, the Determination Agent and their respective subsidiaries or Affiliates may from time to time engage in purchase, sale or other transactions involving assets that are components of the Barclays Index for their proprietary accounts and/or for accounts under their management and/or clients. Such transactions may have a negative effect on the value of such assets and consequently on the value of the Barclays Index Linked Securities.

In addition, the Issuer, the Determination Agent and their respective subsidiaries or Affiliates may from time to time act in other capacities with regard to components of the Barclays Index (such as in an agency capacity and/or as the determination agent) and may issue other competing financial instruments in respect of the components and the introduction of such competing financial instruments may affect the value of the Barclays Index Linked Securities.

The Issuer, the Determination Agent and their subsidiaries or Affiliates may also (i) act as underwriter or financial adviser in connection with future offerings of shares or other securities of the issuers of any securities comprising the components, their respective subsidiaries or Affiliates and/or (ii) act in a commercial banking capacity for the issuer in relation to any other related security.

Certain Affiliates of the Issuer may from time to time, by virtue of their status as underwriter, adviser or otherwise, possess or have access to information relating to the Barclays Index Linked Securities, the Barclays Index and any derivative instruments referencing them. Such Affiliates will not be obliged to, and will not, disclose any such information to an investor in the Barclays Index Linked Securities.

Such activities could be conducted in circumstances where the interests of Securityholders may be in conflict with the interests of the Issuer, the Determination Agent or those of any of their subsidiaries or Affiliates and such transactions and activities may adversely affect the value of the Barclays Index Linked Securities. The Issuer, the Determination Agent and their respective subsidiaries and Affiliates owe no duty or responsibility to any Securityholder (or any other party) to avoid such conflicts.

The Issuer and any of its Affiliates may effect transactions for its own account or for the account of its customers. Such activity may or may not have an impact on the value

of the Barclays Index Linked Securities but all persons reading this document should be aware that a conflict of interest could arise where anyone is acting in more than one capacity, and such conflict may have an impact, positive or negative, on the value of the Barclays Index Linked Securities. Any hedge or Barclays Index positions the Issuer holds are the proprietary trading positions of the Issuer and shall not be accountable to the investors of the Barclays Index Linked Securities or any other party. The Issuer and its Affiliates have no duty to consider the circumstances of any person when participating in such transactions or to conduct themselves in a manner that is favourable to anyone with exposure to the Barclays Index Linked Securities. For reasons of client confidentiality and the management of its own business, the Issuer and its Affiliates will not disclose any such activities or information.

See also '*Risks associated with conflicts of interest*'.

29.7 Index Adjustments in relation to the Barclays Index

Where there is a material change in the formula or method for calculating the Barclays Index or the Barclays Index is permanently cancelled without a successor being determined or there is a failure to calculate and announce the Barclays Index the Determination Agent may determine a level of the Barclays Index for such day. Such a determination may be different to the level of the Barclays Index published by the Index Sponsor for such day.

Any such determination may have an effect on the Redemption Amount, Final Cash Settlement Amount or Exercise Cash Settlement Amount (as applicable) payable on the Securities and their market value or trading price (if any) prior to expiration.

Prospective investors may therefore receive an amount that is different from an amount that would have been received if levels of the Barclays Index published by the Index Sponsor were used for the purpose of the Securities. Prospective investors should review the Conditions and the Pricing Supplement to ascertain how such provisions apply to the Securities.

If the Determination Agent determines that it is unable to calculate the Barclays Index, it may deem such adjustment event to be an Additional Disruption Event, if applicable.

29.8 Index Adjustments in relation to the Components of the Barclays Index

Where there is a material change in the formula or method for calculating a Component of the Barclays Index or a Component of the Barclays Index is permanently cancelled without a successor being determined or there is a failure to calculate and announce a Component of the Barclays Index the Determination Agent may determine a level of such Component for such day.

Any such determination may have an effect on the Redemption Amount, Final Cash Settlement Amount or Exercise Cash Settlement Amount (as applicable) payable on the Securities and their market value or trading price (if any) prior to expiration.

Prospective investors may therefore receive an amount that is different from an amount that would have been received if levels of the Barclays Index published by the Index Sponsor were used for the purpose of the Securities. Prospective investors should review the Conditions and the Pricing Supplement to ascertain how such provisions apply to the Securities.

If the Determination Agent determines that it is unable to calculate the level of a Component of the Barclays Index, it may deem such adjustment event to be an Additional Disruption Event, if applicable.

29.9 Market Disruption Events in relation to the Components of the Barclays Index

Where the Determination Agent has determined that a day on which a valuation or determination is to be made in respect of any Barclays Index is an Index Disrupted

Day, the Determination Agent may determine a level of the Barclays Index for such day. Such a determination may be different to the level of the Barclays Index published by the Index Sponsor for such day and may be based on the level of the underlying Components, the valuation of which may have been postponed following the occurrence of an Index Disrupted Day.

Any such determination may have an effect on the timing of valuation and timing of settlement of the Securities and consequently may adversely affect the Redemption Amount, the Final Cash Settlement Amount or Exercise Cash Settlement Amount (if any) payable on the Securities and their market value or trading price (if any) prior to expiration.

Prospective investors may therefore receive an amount that is different from an amount that would have been received if levels of the Barclays Index published by the Index Sponsor were used for the purpose of the Securities. Prospective investors should review the Conditions to ascertain how such provisions apply to Securities.

29.10 Force Majeure Event

It should be noted that the Barclays Index may be subject to certain events or circumstances (including, without limitation, a systems failure, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstance) that are beyond the reasonable control of the Index Sponsor and that affect the Barclays Index and/or any Component thereof. As outlined above, the consequences of the occurrence of a Force Majeure Event may have a negative impact on the Barclays Index.

29.11 Risk Factors relating specifically to Barclays FX Index Linked Securities

Fluctuations in exchange rates of the relevant currency (or basket of currencies) which comprise the Index Components in respect of the relevant Index will affect the value of Barclays FX Index Linked Securities. Furthermore, investors who intend to convert gains or losses from the redemption, exercise or sale of Barclays FX Index Linked Securities into their home currency may be affected by fluctuations in exchange rates between their home currency and the relevant currency (or basket of currencies). Currency values may be affected by complex political and economic factors, including governmental action to fix or support the value of a currency (or basket of currencies), regardless of other market forces. Depending on their terms, investors in some Barclays FX Index Linked Securities may risk losing their entire investment if exchange rates of the relevant currency (or basket of currencies) move sufficiently in an unanticipated direction.

Where the Barclays FX Index Linked Securities are denominated in an emerging market currency or linked to one or more emerging market currencies, such emerging market currencies can be significantly more volatile than currencies of more developed markets. Emerging market currencies are highly exposed to the risk of a currency crisis happening in the future and this could trigger the need for the Determination Agent to make adjustments to the terms and conditions of the Securities. Governments have imposed from time to time, and may in the future impose, exchange controls that could also affect the availability of a relevant currency. Even if there are no actual exchange controls, it is possible that a relevant currency would not be available when payments on the relevant Barclays FX Index Linked Securities are due.

Pursuant to the Barclays FX Index Linked Conditions, the Determination Agent has particular discretion to make determinations in respect of the occurrence of a Disrupted Day and/or Index Adjustment Event and the consequences in respect thereof. Investors should read the Barclays FX Index Linked Conditions to understand the effect of any such exercise of discretion on the Barclays FX Index Linked Securities.

29.12 Risk Factors relating specifically to Barclays Emerging Market Index Linked Securities

An investment linked to a Barclays Emerging Markets Index provides exposure to one or more components of one or more emerging market economies, including, but not limited to, the following: exchange rates for local currency; rates of inflation; debt obligations, which may be issued by sovereign, government, quasi-government or corporate issuers; or interest rates.

An investment linked to a Barclays Emerging Markets Index present risks that may not be present in an investment providing exposure to one or more components of developed markets, including, but not limited to: economic, social, political, financial and military conditions in the emerging markets, including, in particular, political uncertainty and financial instability; the increased likelihood of restrictions on export or currency conversion in the emerging markets; the greater potential for an inflationary environment in the emerging markets; the possibility of nationalisation or confiscation of assets; the greater likelihood of regulation by the national, provincial and local governments of the emerging market countries, including the imposition of currency exchange laws and taxes; and less liquidity in emerging market currency markets as compared to the liquidity in developed markets.

The exchange rates for currencies of emerging markets may be more volatile than those of developed markets and may be affected by political and economic developments in different ways than developed markets. Moreover, the emerging market economies may differ favourably or unfavourably from developed market economies in a variety of ways, including growth of gross national product, rate of inflation, capital reinvestment, resources and self-sufficiency.

29.13 Risk Factors relating specifically to Barclays Commodity Index Linked Securities

The Barclays Commodity Indices can reference a single or a selection of Futures Contracts or Reference Indices, or any combination of such products.

A Commodity Index is composed of one or more futures contracts on physical commodities. Futures contracts on physical commodities and commodity indices are traded on regulated futures exchanges, and physical commodities and other derivatives on physical commodities and commodity indices are traded in the over-the-counter market and on various types of physical and electronic trading facilities and markets. An exchange-traded futures contract provides for the purchase and sale of a specified type and quantity of a commodity or financial instrument during a stated delivery month for a fixed price. A futures contract on an index of commodities provides for the payment and receipt of cash based on the level of the index at settlement or liquidation of the contract. A futures contract provides for a specified settlement month in which the cash settlement is made or in which the commodity or financial instrument is to be delivered by the seller (whose position is therefore described as 'short') and acquired by the purchaser (whose position is therefore described as 'long').

There is no purchase price paid or received on the purchase or sale of a futures contract. Instead, an amount of cash or cash equivalents must be deposited with the broker as 'initial margin'. This amount varies based on the requirements imposed by the exchange clearing houses, but may be lower than 5 per cent of the notional value of the contract. This margin deposit provides collateral for the obligations of the parties to the futures contract.

By depositing margin, which may vary in form depending on the exchange, with the clearing house or broker involved, a market participant may be able to earn interest on its margin funds, thereby increasing the total return that it may realise from an investment in futures contracts. The market participant normally makes to, and receives from, the broker subsequent daily payments as the price of the futures contract fluctuates. These payments are called 'variation margin' and are made as the existing

positions in the futures contract become more or less valuable, a process known as 'marking to the market'.

Futures contracts are traded on organised exchanges, known as 'designated contract markets' in the United States. At any time prior to the expiration of a futures contract, subject to the availability of a liquid secondary market, a trader may elect to close out its position by taking an opposite position on the exchange on which the trader obtained the position. This operates to terminate the position and fix the trader's profit or loss. Futures contracts are cleared through the facilities of a centralised clearing house and a brokerage firm, referred to as a 'futures commission merchant', which is a member of the clearing house. The clearing house guarantees the performance of each clearing member that is a party to a futures contract by, in effect, taking the opposite side of the transaction. Clearing houses do not guarantee the performance by clearing members of their obligations to their customers.

Unlike equity securities, futures contracts, by their terms, have stated expirations and, at a specified point in time prior to expiration, trading in a futures contract for the current delivery month will cease. As a result, a market participant wishing to maintain its exposure to a futures contract on a particular commodity with the nearest expiration must close out its position in the expiring contract and establish a new position in the contract for the next delivery month, a process referred to as 'rolling'. For example, a market participant with a long position in November crude oil futures that wishes to maintain a position in the nearest delivery month will, as the November contract nears expiration, sell November futures, which serves to close out the existing long position, and buy December futures. This will 'roll' the November position into a December position, and, when the November contract expires, the market participant will still have a long position in the nearest delivery month.

Futures exchanges and clearing houses in the United States are subject to regulation by the Commodities Futures Trading Commission. Exchanges may adopt rules and take other actions that may affect trading, including imposing speculative position limits, maximum price fluctuations and trading halts and suspensions and requiring liquidation of contracts in certain circumstances. Futures markets outside the United States are generally subject to regulation by comparable regulatory authorities. The structure and nature of trading on non-U.S. exchanges, however, may differ from this description.

30. Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements

There are certain events – relating to the Issuer, the Issuer's hedging arrangements, the Reference Asset(s), taxation, the relevant currency or other matters – the occurrence of which may give rise to discretionary powers of the Issuer or the Determination Agent depending on the particular terms and conditions of the relevant Securities. For example, see risk factor 9.3 (*Your Securities may redeem early or may be adjusted by the Determination Agent following an 'Additional Disruption Event', 'FX Disruption Event', or early redemption for unlawfulness or impracticability*).

In relation to the Reference Asset(s), a key investment objective of the Securities is to allow Securityholders to gain an economic exposure to the Reference Asset(s). If a Reference Asset is materially impacted by an unexpected event (for example, a company merges and the original stock that formed a Reference Asset is restructured or changed, or the rules of an index that is a Reference Asset are materially modified) or the relevant price, level or value can no longer be calculated, then it may not be possible to achieve the investment objective of the Securities based on their original terms. In that case, the Determination Agent may have discretionary powers under the terms and conditions of the Securities to (i) adjust the terms and conditions of the Securities to preserve the original economic terms and rationale, (ii) in certain cases, substitute the Reference Asset(s) for another, (iii) calculate the relevant price, level or value itself, (iv) postpone payment, (v) redeem the Securities early, or (vi) apply some combination thereof.

In relation to the Issuer's hedging arrangements, you should be aware that (i) in exercising its discretionary powers under the terms and conditions of the Securities, each of the Issuer and the Determination Agent may take into account such factors as it determines appropriate in each case, which may include, in particular, any circumstances or events which have or may have a material impact on the Issuer's hedging arrangements in respect of the Securities; and (ii) unless the terms and conditions of your Securities provide that certain hedge disruption events do not apply, certain events which affect the Issuer's hedging arrangements can give rise to discretionary powers on the part of the Issuer and the Determination Agent. For example, see risk factor 9.3 (*Your Securities may redeem early or may be adjusted by the Determination Agent following an 'Additional Disruption Event', 'FX Disruption Event', or early redemption for unlawfulness or impracticability*).

Hedging arrangements are the transactions (if any) entered into by the Issuer or one or more of its Affiliates to seek to cover the Issuer's exposure to the relevant cash amounts to be paid or assets to be delivered under the Securities as these fall due. This may involve investing directly in the Reference Asset(s) or entering into derivative contracts referencing the Reference Asset(s) or other techniques. The particular hedging arrangements (if any) undertaken by the Issuer, and their cost, will likely be a significant determinant of the issue price and/or economic terms of the Securities. Accordingly, if an event occurs which negatively impacts the Issuer's hedging arrangements, the Issuer or the Determination Agent on the Issuer's behalf may have options available to it under the terms and conditions of the Securities which it may select in its discretion in order to deal with the impact of the event on the Issuer's hedging arrangements. These options may include adjustment of the terms and conditions of the Securities or early redemption of the Securities. In the event of early redemption, the early redemption amount you may receive will, unless otherwise specified in any applicable Relevant Annex(es) or the Pricing Supplement, be equal to the fair market value of your Securities prior to redemption less costs associated with the Issuer's hedging arrangements. **This amount may be less than your original investment and, therefore, you could lose some or all of your money.** See risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*).

31. **Additional risks associated with Securities which are Warrants and Exercisable Certificates**

You should recognise that Warrants or Exercisable Certificates, other than any Warrants and Exercisable Certificates having a minimum expiration value, may expire worthless. You should be prepared to sustain a total loss of the Issue Price you paid for your Warrants or Exercisable Certificates, except, if so indicated in the terms and conditions of the Securities, to the extent of any minimum expiration value attributable to such Securities. See '*Certain factors affecting the settlement value and trading price of Warrants and Exercisable Certificates*' below. You should be experienced with respect to options and option transactions and should understand the risks of transactions involving the relevant Warrants or Exercisable Certificates.

The risk of the loss of some or all of the Issue Price paid for a Warrant or an Exercisable Certificate upon expiration means that, in order to recover and realise a return upon your investment, you (as an investor in a Warrant or an Exercisable Certificate) must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the relevant Reference Asset(s). Assuming all other factors are held constant, the more a Warrant or an Exercisable Certificate is 'out of the money' and the shorter its remaining term to expiration, the greater the risk that you will lose all or part of your investment. With respect to Securities that are European Style, the only means through which you can realise value from the Security prior to the relevant Exercise Date(s) in relation to such Security is to sell it at its then market price in an available secondary market. See risk factor 6 (*Risks associated with the liquidity of Securities and availability during a subscription period*).

The Issuer may issue several Series of Warrants or Exercisable Certificates relating to various reference securities, currencies, commodities, funds or other assets or bases of reference which may be specified in the terms and conditions of the Securities. At any given time, the number of Warrants or Exercisable Certificates outstanding may be substantial. Warrants and

Exercisable Certificates pose risks to you as a result of fluctuations in the value of the Reference Asset(s). In general, certain of the risks associated with the Warrants and Exercisable Certificates are similar to those generally applicable to other options or warrants of private corporate issuers. Options or warrants on equities or debt securities are priced primarily on the basis of the value of underlying securities while Currency and Commodity Linked Warrants and Exercisable Certificates are priced primarily on the basis of present and expected values of a basket of currencies or commodity (or basket of commodities).

31.1 Certain factors affecting the settlement value and trading price of Warrants and Exercisable Certificates

Before selling Securities or exercising any Securities in the form of Warrants or Exercisable Certificates, you should carefully consider, among other things, (a) the trading price of the relevant Securities, (b) the value and volatility of the Reference Asset(s), (c) the time remaining to exercise and/or expiration, (d) in the case of a Cash Settled Security, the probable range of Settlement Amounts, (e) any change(s) in interim interest rates and dividend yields if applicable, (f) any change(s) in currency exchange rates, (g) the depth of the market or liquidity of any applicable Reference Asset(s) and (h) any related transaction costs.

The trading price at any time will reflect, among other things, the 'time value' of the relevant Security. The 'time value' of the Securities will depend partly upon the length of the period remaining to expiration and expectations concerning the value of the Reference Asset(s). The interim value of the Warrants and Exercisable Certificates varies with the price level of the Reference Asset(s), as well as by a number of other interrelated factors, including those specified herein.

31.2 Minimum and maximum limitations on exercise

If specified in the terms and conditions of the Securities, the Issuer will have the option to impose a minimum number of Warrants or Exercisable Certificates which may be exercised on any Actual Exercise Date or Automatic Exercise Date and any exercise notice purporting to exercise Securities below such number will be void.

If specified in the terms and conditions of the Securities, the Issuer will have the option to impose a maximum number of Warrants or Certificates which may be exercised and may stagger the exercise of such Securities over a number of Exercise Business Days.

Depending on the circumstances, Securityholders may not therefore be able to exercise all the Securities they wish to exercise on any specific date (if a maximum limit applies) and may have to exercise more than they wish to on any specific date (if a minimum limit applies).

32. Risks associated with a time lag after redemption or exercise

Unless otherwise specified in the terms and conditions of the Securities, in the case of Securities which the Issuer is required to redeem or cancel prior to their scheduled Redemption Date or Expiration Date at the option of the Securityholder or in the case of any exercise of Warrants or Exercisable Certificates, there will be a time lag between the time a Securityholder gives the instruction to redeem, cancel or exercise and the determination by the Determination Agent of the relevant Settlement Amount or, in the case of a Physically Delivered Security, the relevant Entitlement due on the Physical Delivery Date, as the case may be. Such time lag could be long, particularly in the case of a delay in the redemption, cancellation or exercise of Securities due to there being a limit on the maximum number of Securities redeemable or exercisable on any one calendar day, the occurrence of a market disruption event or disrupted day or following the imposition of any exchange controls or similar regulations affecting the ability to obtain or exchange any relevant currency (or basket of currencies), or following a determination by the Determination Agent that a Settlement Disruption Event has occurred. The applicable Settlement Amount or Entitlement, as the case may be, may change significantly during any such period, and such movement or movements could decrease the Settlement Amount or Entitlement.

33. **The regulation and reform of certain published rates, indices and other values or "benchmarks" may adversely affect the value of and return on Securities linked to such values or benchmarks**

A number of major interest rates, other rates, indices and other published values or benchmarks are the subject of recent or forthcoming national and international regulatory reforms. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on the value of and return on Securities linked to any such value or benchmark.

33.1 **The Benchmark Regulation**

The EU Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**") is a key element of the ongoing regulatory reform in the EU and has applied, subject to certain transitional provisions, since 1 January 2018. In addition to so-called "critical benchmarks" such as the London Interbank Offered Rate ("**LIBOR**") and the Euro Interbank Offered Rate ("**EURIBOR**"), other interest rates, foreign exchange rates, and indices, including equity, commodity and "proprietary" indices or strategies, will in most cases be within scope of the Benchmark Regulation as "benchmarks" where they are used to determine the amount payable under, or the value of, certain financial instruments (including Securities listed on an EU regulated market or EU multilateral trading facility (MTF)), and in a number of other circumstances.

The Benchmark Regulation applies to the contribution of input data to a benchmark, the administration of a benchmark, and the use of a benchmark in the EU. Amongst other things, the Benchmark Regulation requires EU benchmark administrators to be authorised or registered as such and to comply with extensive requirements relating to benchmark administration. It also prohibits certain uses by EU supervised entities of (a) benchmarks provided by EU administrators which are not authorised or registered in accordance with the Benchmark Regulation and (b) benchmarks provided by non-EU administrators where (i) the administrator's regulatory regime has not been determined to be "equivalent" to that of the EU, (ii) the administrator has not been recognised in accordance with the Benchmark Regulation, and (iii) the benchmark has not been endorsed in accordance with the Benchmark Regulation.

The Benchmark Regulation could have a material impact on Securities linked to a benchmark. For example:

- a rate or index which is a "benchmark" may not be used in certain ways by an EU supervised entity if (subject to applicable transitional provisions) its administrator does not obtain authorisation or registration (or, if a non-EU entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision or is not "endorsed" by an EU supervised entity). If the benchmark administrator does not obtain or maintain (as applicable) such authorisation or registration (or, if a non-EU entity, "equivalence" is not available and it is not recognised or endorsed), then (unless a Pre-nominated Index has been specified in the Pricing Supplement to replace the relevant Reference Asset) an Additional Disruption Event will occur and the Securities may be redeemed prior to maturity; and
- the methodology or other terms of the benchmark could be changed in order to comply with the requirements of the Benchmark Regulation, and such changes could reduce or increase the rate or level or affect the volatility of the published rate or level, and (depending on the type of Reference Asset) could lead to adjustments to the terms of the Securities, including potentially determination by the Determination Agent of the rate or level in its discretion.

33.2 **Reform and replacement of Interbank Offered Rates**

Amongst other developments, relevant authorities are strongly encouraging the transition away from Interbank Offered Rates ("**IBORs**"), such as LIBOR and EURIBOR, and have identified "risk free rates" to eventually take the place of such IBORs as primary benchmarks. This includes (i) for sterling LIBOR, a reformed Sterling Overnight Index Average ("**SONIA**"), so that SONIA may be established as the primary sterling interest rate benchmark by the end of 2021, (ii) for EONIA and EURIBOR, a new Euro Short-Term Rate (ESTER) as the new euro risk-free rate, and (iii) for USD LIBOR, the Secured Overnight Financing Rate (SOFR) to be eventually established as the primary US dollar interest rate benchmark. The risk free rates have a different methodology and other important differences from the IBORs they will eventually replace and have little, if any, historical track record. It is not known whether certain IBORs Rates will continue long-term in their current form.

The reforms and eventual replacement of IBORs with risk free rates may cause the relevant IBOR to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. The replacement risk free rate may have little, if any, historical track record and may be subject to changes in its methodology. Any of these developments could have a material adverse effect on the value of and return on Securities linked to any such rates.

33.3 **The market continues to develop in relation to SONIA as a reference rate**

You should be aware that the market continues to develop in relation to SONIA as a reference rate in the capital markets and its adoption as an alternative to Sterling LIBOR. In particular, market participants and relevant working groups are exploring alternative reference rates based on SONIA, including term SONIA reference rates (which seek to measure the market's forward expectation of an average SONIA rate over a designated term). The market or a significant part thereof may adopt an application of SONIA that differs significantly from that set out in the Conditions and used in relation to Securities that reference a SONIA rate issued under this Offering Circular.

Interest on Securities which reference a SONIA rate is not determined until the end of the relevant interest calculation period. Therefore, investors may be unable to reliably estimate the amount of interest which will be payable on such Securities. Further, if the Securities become due and payable under General Condition 10 (*Events of Default*), the SONIA rate to be applied in determination of the Early Cash Settlement Amount shall be determined in respect of the date on which the Notes became due and payable and shall not be reset thereafter.

You should consider the above matters when making their investment decision with respect to any Securities that reference a SONIA rate.

34. **Risks associated with taxation**

34.1 **General**

You should be aware that duties and other taxes and/or expenses, including any applicable depositary charges, transaction charges, stamp duty and other charges, may be levied in accordance with the laws and practices in the countries where the Securities are transferred and that it is the obligation of an investor to pay all such taxes and/or expenses.

All payments made under the Securities shall be made free and clear of, and without withholding or deduction for, any present or future taxes imposed by the Issuer's country of incorporation (or any authority or political subdivision thereof or therein), unless such withholding or deduction is imposed or required by law. If any such withholding or deduction is imposed and required by law, the Issuer will, save in limited circumstances, be required to pay additional amounts to cover the amounts so withheld or deducted, and such event may result in the Securities being redeemed or cancelled early as this would be an Issuer Tax Event which is an Additional Disruption

Event. In no event will additional amounts be payable in respect of FATCA (as defined below) or any US withholding or other tax, including without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

34.2 **Change in tax law**

You should be aware that tax regulations and their application by the relevant taxation authorities are subject to change and differing interpretations, possibly with retrospective effect, and this could negatively affect the value of the Securities. Any such change may cause the tax treatment of the Securities to change from the tax position at the time of purchase and may cause the statements in this Offering Circular concerning the relevant tax law and practice to be inaccurate or insufficient to cover the material tax considerations in respect of the Securities. It is not possible to predict the precise tax treatment which will apply at any given time and changes in tax law may give the Issuer the right to amend the terms and conditions of the Securities, or redeem the Securities.

34.3 **US foreign account tax compliance withholding**

Under FATCA (as defined below) the Issuer (and any intermediary in the chain of payment) may require each holder of a Security to provide certifications and identifying information about itself and certain of its owners. The failure to provide such information, or the failure of certain non-US financial institutions to comply with FATCA, may compel the Issuer (or an intermediary) to withhold a 30 per cent tax on payments to such holders and neither the Issuer nor any other person will pay any additional amounts with respect to such withholding. FATCA withholding on "foreign passthru payments" would begin no earlier than two years after the date on which final U.S. Treasury regulations defining foreign passthru payments are published. US-source payments are currently subject to FATCA withholding. US-source payments generally should be limited to dividend equivalent payments and interests in 'US real property interests' (although there can be no assurance the IRS may not seek to treat other payments that reference US securities as US source income). "FATCA" means sections 1471 through 1474 of the US Internal Revenue Code of 1986, as amended (the "Code"), any final current or future regulations or official interpretations thereof, any agreement entered into pursuant to section 1471(b) of the Code, or any US or non-US fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code.

Investors should be aware that the effective date for withholding on "foreign passthru payments" above reflects recently proposed U.S. Treasury regulations ("**Proposed FATCA Regulations**") which delay the effective date for withholding on foreign passthru payments. The Proposed FATCA Regulations also eliminate FATCA withholding on gross proceeds from, or final payments, redemptions, or other principal payments made in respect of, the disposition of an instrument that may produce U.S. source interest or dividends. The discussion above assumes that the Proposed FATCA Regulations will be finalized in their current form.

The Issuer will not make any additional payments to holders of Securities to compensate them for any taxes withheld in respect of FATCA or any US withholding or other tax, including, without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

34.4 **You may be subject to withholding on dividend equivalent payments and US real property interests**

In the case of Securities that are linked to one or more assets characterised as 'US real property interests' (as such term is defined in section 897(c) of the Code), non-US holders of Securities may be subject to special rules governing the ownership and disposition of US real property interests. Prospective non-US holders of Securities

should consult their own tax advisers regarding the potential treatment of the Securities as US real property interests.

Under section 871(m) of the Code and regulations thereunder ("**Section 871(m)**"), actual or deemed payments on financial instruments that reference one or more US corporations may be treated as 'dividend equivalent' payments that are subject to US withholding tax at a rate of 30 per cent. Generally, a 'dividend equivalent' is a payment that is directly or indirectly contingent upon a US source dividend or is determined by reference to a US source dividend, including a payment that implicitly takes into account such a dividend. For financial instruments issued on or after 1 January 2017 but prior to 1 January 2021, regulations and guidance under Section 871(m) provide that dividend equivalent payments will be subject to withholding if the instrument has a 'delta' of one with respect to either an underlying US stock or a US stock component of an underlying index or basket. For financial instruments issued on or after 1 January 2021, regulations and guidance under Section 871(m) provide that dividend equivalent payments on (1) a 'simple' financial instrument that has a delta of 0.8 or greater with respect to an underlying US stock or a US stock component of an underlying index or basket and (2) a 'complex' financial instrument that meets the 'substantial equivalence' test with respect to an underlying US stock or a US stock component of an underlying index or basket, will be subject to withholding tax under Section 871(m). An issue of Securities that references an index or basket that is treated as a 'qualified index' will not be subject to withholding under Section 871(m), even if such Securities meet, as applicable, the delta or substantial equivalence test. In general, a qualified index is a diverse, passive, and widely used index that satisfies the technical requirements prescribed by regulations.

The delta of a financial instrument generally is defined as the ratio of the change in the fair market value of the instrument to a small change in the fair market value of the number of shares of the underlying US corporation, determined either as of the pricing or issue date of the instrument, in accordance with applicable regulations. A financial instrument generally will be treated as having a delta of one if it provides for 100 per cent participation in all of the appreciation and depreciation of one or more underlying US stocks. Very broadly, the substantial equivalence test analyses whether a financial instrument has a correlation to the applicable underlying US stock that is at least as great as that of a simple financial instrument with a delta of at least 0.8.

The Pricing Supplement will indicate if the Issuer has determined that the particular issue of Securities is expected to be subject to withholding under Section 871(m). Any determination by the Issuer on the application of Section 871(m) to a particular Security generally is binding on you, but is not binding on the US Internal Revenue Service ("**IRS**"). The Section 871(m) regulations require complex calculations to be made with respect to Securities referencing shares of US corporations and their application to a specific issue of Securities may be uncertain. Accordingly, even if the Issuer determines that a Security is not subject to Section 871(m), the IRS could assert that you are liable for Section 871(m) tax in respect of such Security, including where the IRS concludes that the delta or substantial equivalence with respect to the Security was determined more than 14 days prior to the Security's issue date.

In addition, a Security may be treated as reissued for purposes of Section 871(m) upon a significant modification of the terms of the Security. In certain circumstances, a rebalancing or adjustment to the components of an underlying index or basket may result in the deemed reissuance of the Security, in particular where the rebalancing or adjustment is made other than pursuant to certain defined rules, or involves the exercise of discretion. In that case, a Security that was not subject to withholding under Section 871(m) at issuance may become subject to withholding at the time of the deemed reissuance. In addition, a Security that in isolation is not subject to Section 871(m) may nonetheless be subject to Section 871(m) if you, the holder, have engaged, or engage, in other transactions in respect of an underlying US stock or component of an underlying index or basket. In such situations, you could be subject to Section 871(m) tax even if the Issuer does not withhold in respect of the Security. Further, you may be required, including by custodians and other withholding agents with respect to the

Security, to make representations regarding the nature of any other positions with respect to US stock directly or indirectly referenced (including components of any index or basket) by such Security. If you enter or have entered, into other transactions in respect of a US stock, component of an underlying index or basket, or the Securities you should consult your own tax adviser regarding the application of Section 871(m) to the Securities and such other transactions.

If an issue of Securities is determined to be subject to US withholding tax under Section 871(m), information regarding the amount of each dividend equivalent, the delta of the Securities, the amount of any tax withheld and deposited, the estimated dividend amount (if applicable), and any other information required under Section 871(m), will be provided, communicated, or made available to holders in a manner permitted by applicable regulations. Withholding on payments will be based on actual dividends on the underlying US stock or, if otherwise notified by the Issuer in accordance with applicable regulations, on estimated dividends used in pricing the Securities. Where an issue of Securities that references estimated dividend amounts also provides for any additional payments to reflect actual dividends on the underlying US stock, withholding tax will also apply to any additional payments.

If the Issuer determines that a Security is subject to withholding under Section 871(m), it will withhold tax in respect of the actual (or estimated, as described above) dividends that are paid on the underlying US stock. In addition, US tax may be withheld on any portion of a payment or deemed payment (including, if appropriate, the payment of the purchase price) that is a dividend equivalent. Such withholding may occur at the time a dividend is paid on the relevant US stock (or, in certain cases, at the close of the quarter upon which the dividend is paid). Upon remitting the taxes withheld to the IRS, any increase in value of the relevant asset, index or basket or distributions to you in respect of a dividend equivalent will reflect the amount of the dividend net of the withholding described above.

Other than in very limited circumstances described below, the rate of any withholding generally will not be reduced even if you are otherwise eligible for a reduction under an applicable treaty, although you may be able to claim a refund for any excess amounts withheld by filing a US tax return. However, you may not receive the necessary information to properly claim a refund for any withholding in excess of the applicable treaty-based amount. In addition, the IRS may not credit you with withholding taxes remitted in respect of your Security for purposes of claiming a refund. Finally, your resident tax jurisdiction may not permit you to take a credit for US withholding taxes related to the dividend equivalent amount. For certain issues of Securities that are subject to withholding under Section 871(m), if the Issuer determines in its sole discretion that it is able to make payments at a reduced rate of withholding under an applicable treaty and if you are eligible for treaty benefits, then you may be able to claim such a reduced rate. To claim a reduced treaty rate for withholding, you generally must provide a valid IRS Form W-8BEN, IRS Form W-8BEN-E, or an acceptable substitute form on which you certify, under penalty of perjury, your status as a non-US person and your entitlement to the lower treaty rate. However, there can be no assurances that the Issuer will be able to make payments on a Security at a reduced rate of withholding, even where you furnish the appropriate certification. Where the Issuer has determined that an issue of Securities is subject to withholding under Section 871(m), the Pricing Supplement will indicate whether the Issuer intends to withhold at the rate of 30 per cent without regard to any reduced rate that may apply under a treaty or if the rate of withholding tax may be subject to reduction under an applicable treaty. In any case where withholding applies, the Issuer will not pay any additional amounts with respect to amounts withheld. You should consult with your tax advisers regarding the application of Section 871(m) to your Securities.

In addition, the Issuer will not make any additional payments to you to compensate you for any taxes withheld in respect of FATCA or any US withholding or other tax, including without limitation, in respect of direct and indirect interests in US real property, dividends, or, as discussed above, dividend equivalent payments. If any

amount were to be deducted or withheld from payments on the Securities as a result of the above, the return on the Securities may be significantly less than expected.

34.5 **The proposed Financial Transactions Tax ("FTT")**

The European Commission has published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT which is being considered by Belgium, Germany, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**").

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Securities where at least one party is a financial institution and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, 'established' in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States and the scope and implementation of any such tax is uncertain. Additional EU Member States may decide to participate.

Prospective holders of the Securities are advised to seek their own professional advice in relation to the FTT.

35. **Risks associated with the ability to enforce under the Securities**

Following an event of default by the Issuer (such as a failure to pay interest or return capital, or, if the Issuer is subject to a winding-up order), including expiry of an applicable grace period, you may (i) determine to keep your Securities outstanding (in which case, the market value of those Securities may decline significantly) or (ii) by giving notice to the Issuer and (if not a CREST Security) the Issue and Paying Agent require immediate redemption of your Securities at the early cash settlement amount. **This amount may be less than your original investment and, therefore, you could lose some or all of your money.** See also risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*).

See also risk factor 11.9 (*There are risks where your Securities are Book-Entry Securities*).

36. **Risks associated with conflicts of interest**

36.1 **As Issuer or as Determination Agent, Barclays has certain discretionary powers under the terms and conditions of the Securities that it could exercise in a way which is contrary to the interests of Securityholders**

See risk factor 30 (*Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements*).

36.2 **Trading and other transactions by the Issuer or its Affiliates could affect the levels, values or prices of Reference Asset(s) and their components**

In connection with Barclays' normal business practices or in connection with hedging its obligations under the Securities, Barclays may from time to time buy or sell the Reference Asset(s) and its or their components, or similar instruments, or derivative instruments relating to the Reference Asset(s) or its or their components. These trading activities may present a conflict of interest between your interest in the Securities and

the interests which Barclays may have in its proprietary accounts, in facilitating transactions, including block trades, for Barclays' other customers and in accounts under management. These trading activities also could affect the levels, values or prices of the Reference Asset(s) in a manner that would decrease the market value of the Securities prior to maturity, or the amount you would receive at maturity or at the payment or settlement date. To the extent that Barclays has a hedge position in the Reference Asset(s) or its or their components, or in a derivative or synthetic instrument related to the Reference Asset(s) or its or their components, Barclays may increase or liquidate a portion of those holdings at any time before, during or after the term of the Securities. This activity may affect the amount payable at maturity, any amount of money or property payable or deliverable at the payment or settlement date, or the market value of the Securities in a manner that would be adverse to your investment in the Securities. Depending on, among other things, future market conditions, the aggregate amount and the composition of those hedge positions are likely to vary over time. In addition, Barclays may purchase or otherwise acquire a long or short position in the Securities. Barclays may hold or resell any such position in the Securities.

36.3 Research reports and other transactions may create conflicts of interest between you and Barclays

Barclays may have previously published, and may in the future publish, research reports relating to the Reference Asset(s) or its or their components. The views expressed in this research may be modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding the Securities. Any of these activities may affect the levels, values or prices of the Reference Asset(s) or its or their components and, therefore, the market value of the Securities. Moreover, other professionals who deal in these markets may at any time have views that differ significantly from Barclays. In connection with your purchase of the Securities, you should investigate the Reference Asset(s) and not rely on Barclays' views with respect to future movements in the Reference Asset(s) and its or their components.

Barclays also may issue, underwrite or assist unaffiliated entities in the issuance or underwriting of other securities or financial instruments with returns indexed to the Reference Asset(s). By introducing competing products into the marketplace in this manner, Barclays could adversely affect the market value of the Securities.

36.4 Barclays may have confidential information relating to the Reference Asset(s) or components

Barclays, at present or in the future, may engage in business relating to the person or organisation responsible for calculating, publishing or maintaining the Reference Asset(s), referred to as the 'sponsor' of the Reference Asset(s). In addition, Barclays may engage in business relating to any components of the Reference Asset(s), including making loans to, equity investments in, or providing investment banking, asset management or other advisory services to the respective sponsor or issuer. In connection with these activities, Barclays may receive information pertinent to the Reference Asset(s) or its or their components that Barclays will not divulge to you.

36.5 Distributor(s) and conflicts of interest

Potential conflicts of interest may arise in relation to Securities offered through distribution, as the appointed manager(s) and/or distributor(s) will act pursuant to a mandate granted by the Issuer and may (to the extent permitted by law) receive commissions and/or fees on the basis of the services performed and the outcome of the placement of the Securities.

FORWARD-LOOKING STATEMENTS

This Offering Circular and certain documents incorporated by reference herein contain certain forward-looking statements within the meaning of Section 21E of the US Securities Exchange Act of 1934, as amended, and Section 27A of the US Securities Act of 1933, as amended, with respect to the Bank Group. The Issuer cautions readers that no forward-looking statement is a guarantee of future performance and that actual results or other financial condition or performance measures could differ materially from those contained in the forward-looking statements. These forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward-looking statements sometimes use words such as 'may', 'will', 'seek', 'continue', 'aim', 'anticipate', 'target', 'projected', 'expect', 'estimate', 'intend', 'plan', 'goal', 'believe', 'achieve' or other words of similar meaning. Examples of forward-looking statements include, among others, statements or guidance regarding or relating to the Bank Group's future financial position, income growth, assets, impairment charges, provisions, business strategy, capital, leverage and other regulatory ratios, payment of dividends (including dividend pay-out ratios and expected payment strategies), projected levels of growth in the banking and financial markets, projected costs or savings, any commitments and targets, estimates of capital expenditures and plans and objectives for future operations, projected employee numbers, International Financial Reporting Standard 9 ("**IFRS 9**") impacts and other statements that are not historical fact."

"By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances. These may be affected by changes in legislation, the development of standards and interpretations under International Financial Reporting Standards including the continuing impact of IFRS 9 implementation, evolving practices with regard to the interpretation and application of accounting and regulatory standards, the outcome of current and future legal proceedings and regulatory investigations, future levels of conduct provisions, the policies and actions of governmental and regulatory authorities, geopolitical risks and the impact of competition. In addition, factors including (but not limited to) the following may have an effect: capital, leverage and other regulatory rules applicable to past, current and future periods; the United Kingdom ("**UK**"), the United States ("**US**"), Eurozone and global macroeconomic and business conditions; the effects of any volatility in credit markets; market related risks such as changes in interest rates and foreign exchange rates; effects of changes in valuation of credit market exposures; changes in valuation of issued securities; volatility in capital markets; changes in credit ratings of any entities within the Bank Group or any securities issued by such entities; the potential for one or more countries exiting the Eurozone; instability as a result of the exit by the UK from the EU and the disruption that may subsequently result in the UK and globally; and the success of future acquisitions, disposals and other strategic transactions. A number of these influences and factors are beyond the Group's control. As a result, the Bank Group's actual future results, dividend payments, and capital and leverage ratios may differ materially from the plans, goals, expectations and guidance set forth in the Bank Group's forward-looking statements. Additional risks and factors which may impact the Bank Group's future financial condition and performance are identified in Bank Group's filings with the SEC (including, without limitation, in the 2018 Form 20-F (as defined in the "Information Incorporated by Reference" section below)), which are available on the SEC's website at www.sec.gov.

Any forward-looking statements made herein speak only as of the date they are made and it should not be assumed that they have been revised or updated in the light of new information or future events. Except as required by the PRA, the FCA and the London Stock Exchange plc ("**LSE**") or applicable law, the Bank Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Bank Group's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. The reader should, however, consult any additional disclosures that the Bank Group has made or may make in documents it has published or may publish via the Regulatory News Service of the LSE and/or has filed or may file with the SEC.

Subject to the Bank Group's obligations under the applicable laws and regulations of the UK and the US in relation to disclosure and ongoing information, the Issuer undertakes no obligation to update publicly or revise any forward looking statements, whether as a result of new information, future events or otherwise.

REGULATORY REVIEW AND IMPORTANT INFORMATION FOR PROSPECTIVE INVESTORS:

THE OFFERING CIRCULAR HAS NOT BEEN SUBMITTED TO, REVIEWED BY OR APPROVED BY THE UNITED KINGDOM FINANCIAL CONDUCT AUTHORITY IN ITS CAPACITY AS COMPETENT AUTHORITY UNDER THE FINANCIAL SERVICES AND MARKETS ACT 2000 (THE "FSMA") OR ANY OTHER REGULATORY AUTHORITY IN ITS CAPACITY AS COMPETENT AUTHORITY IN THE EU OR THE LONDON STOCK EXCHANGE PLC OR ANY OTHER STOCK EXCHANGE WHICH CONSTITUTES A REGULATED MARKET FOR THE PURPOSES OF DIRECTIVE 2014/65/EU AND REGULATION (EU) NO 600/2014 (TOGETHER, AS MAY BE AMENDED FROM TIME TO TIME "MiFID II/MiFIR").

THIS MEANS THAT THE OFFERING CIRCULAR DOES NOT COMPRISE (I) A BASE PROSPECTUS FOR THE PURPOSES OF ARTICLE 5(4) OF DIRECTIVE 2003/71/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL AS AMENDED OR SUPERSEDED (THE "PROSPECTUS DIRECTIVE") OR ANY UK OR OTHER IMPLEMENTING LEGISLATION RELATED TO THE PROSPECTUS DIRECTIVE, OR (II) LISTING PARTICULARS FOR THE PURPOSES OF SECTION 79 OF THE FSMA OR ANY OTHER RULES OR REGULATIONS RELATED TO A LISTING ON ANY REGULATED MARKET OF ANY STOCK EXCHANGE.

As a result of the Offering Circular not having been approved by any regulatory authority in its capacity as a competent authority, you should be aware that:

- the Offering Circular may not include the type, level and detail of disclosure required by the Prospectus Directive or other UK or EU legislation concerning disclosure requirements; and
- if you acquire Securities to which the Offering Circular relates you will not have any recourse to the Issuer under any Prospectus Directive related liability regime, including but not limited to provisions for compensation arising under Section 90 of the FSMA.

The Offering Circular has been prepared on the basis that any offer of Securities in a member state of the European Economic Area which has implemented the Prospectus Directive will be made under an exemption in the Prospectus Directive from the requirement to publish a prospectus for offers of such Securities. Accordingly, if you are making or intending to make an offer of Securities to which the Offering Circular relates, as amended or supplemented by the Pricing Supplement in any relevant member state, you must only do so in circumstances where no obligation to publish a prospectus under Article 3 of the Prospectus Directive arises. The Issuer has not authorised and will not authorise any offer of Securities which would require the Issuer or any other entity to publish a prospectus in respect of such offer.

Securities issued pursuant to the Programme may be unlisted or an application may be made for Securities to be listed on any stock exchange other than any stock exchange or market which constitutes a regulated market for the purposes of MiFID II/MiFIR. Please refer to Part B 'Listing and Admission to Trading' for information on if this offer of Securities is unlisted or listed and details on this.

A. BASE CONDITIONS

The following are the Base Conditions that will apply to the Securities, subject to amendment and as supplemented or varied in accordance with the provisions of the Pricing Supplement and any applicable Relevant Annex(es) specified to be applicable in such Pricing Supplement. Where a Relevant Annex is specified in the Pricing Supplement for any Securities, these Base Conditions shall be subject to contrary provisions contained in such Relevant Annex and will not apply to the extent they are inconsistent with the provisions of such Relevant Annex (save for Condition 11.6 (Waiver of performance for the Determination Agent and Issuer for determinations or other actions not in compliance with the Benchmark Regulation) which shall prevail over any contrary provisions contained in these Base Conditions and each Relevant Annex). In all cases, these Base Conditions and the provisions of such Relevant Annex shall be subject to the Pricing Supplement, and will not apply to the extent they are inconsistent with the provisions of such Pricing Supplement. Words and expressions defined or used in the Pricing Supplement shall have the same meanings where used in these Base Conditions and any applicable Relevant Annex unless the context otherwise requires or unless otherwise stated. All capitalised terms that are not defined in Condition 25 (Definitions) or elsewhere in these Base Conditions will have the meanings given to them in the applicable Relevant Annex or applicable Pricing Supplement. Those definitions will be endorsed on Definitive Securities. References in these Base Conditions or any Relevant Annex to 'Securities' are to the Securities of one Series only, not to all Securities that may be issued pursuant to the Programme.

The Securities are issued as notes ("**Notes**"), certificates ("**Certificates**") or warrants ("**Warrants**"), by Barclays Bank PLC (or any New Bank Issuer substituted in accordance with Condition 17 (Substitution), the "**Issuer**"), and references to "Securities" shall be construed accordingly.

The Securities of any Series are subject to these Base Conditions, as modified and/or supplemented by the terms of any Relevant Annex(es) and the Pricing Supplement. Each Series may be issued in tranches (each a "**Tranche**") on the same or different issue dates. The specific terms of each Tranche (that will be supplemented, where necessary, with supplemental terms and conditions and, save in respect of the Issue Date, Issue Price, first payment of interest, if applicable, and aggregate nominal amount of the Tranche, will be substantially identical to the terms of other Tranches of the same Series) will be set out in the Pricing Supplement.

1. Master Agency Agreement

This condition sets out the legal documents that the Securities are issued under and the relevant parties.

Securities other than French Securities and Swiss Securities, are issued pursuant to the Master Agency Agreement and, other than CREST Securities and French Securities and Swiss Securities, with the benefit of a Deed of Covenant dated 12 June 2019, as further amended and/or supplemented and/or restated as at the relevant Issue Date (the "**Deed of Covenant**") executed by the Issuer.

These Base Conditions include summaries of, and are subject to, the provisions of the Master Agency Agreement. The Securityholders, holders of interest coupons (and, where applicable, talons for further coupons ("**Talons**")) (the "**Coupons**", which term shall be deemed to include Talons) relating to interest bearing Securities in bearer form and the holders of the receipts for the payment of instalments of principal (the "**Receipts**") relating to Securities in bearer form of which the principal is payable in instalments are entitled to the benefit of, and are deemed to have notice of and are bound by, the provisions of the Master Agency Agreement (insofar as they relate to the Securities and/or Coupons), any applicable Relevant Annex(es) and the Pricing Supplement, which are binding on them. Copies of the Master Agency Agreement and the Deed of Covenant are available for inspection at the registered office of the Issuer and the Issue and Paying Agent and from the specified offices of the Paying Agents, the Transfer Agents and the Registrar. The determination agent, the issue and paying agent, the registrar, the registration agent, the paying agents, the transfer agents and the CREST agent for the time being are referred to respectively as the "**Determination Agent**", the "**Issue and Paying Agent**", the "**Registrar**", the "**Registration Agent**", the "**Paying Agents**", the "**Transfer Agents**" and the "**CREST Agent**".

In respect of any issue of Securities that are not CREST Securities, "**Agents**" means the Determination Agent and the Issue and Paying Agent together with, in the case of such Securities in bearer form ("**Bearer Securities**"), the other Paying Agents and, in the case of such Securities in registered form ("**Registered Securities**"), the Registrar and the other Transfer Agents, and any other agent or agents appointed from time to time in respect of such Securities.

Unless otherwise specified in the Pricing Supplement, the initial Agents, in respect of Securities other than CREST Securities, shall be as follows:

- (a) the initial Determination Agent shall be Barclays Bank PLC, Barclays Capital Securities Limited or as set out in the Relevant Annex(es), as specified in the Pricing Supplement;
- (b) the initial Issue and Paying Agent shall be The Bank of New York Mellon (acting through its London branch);
- (c) the initial Registrar in respect of Registered Securities shall be The Bank of New York Mellon SA/NV, Luxembourg Branch (the "**Luxembourg Registrar**") in respect of Securities that are distributed outside the United States of America and shall be The Bank of New York Mellon (acting through its New York branch) in respect of Securities that are distributed within the United States of America (the "**NY Registrar**" and, together with the Luxembourg Registrar, the "**Registrars**" and each a "**Registrar**");
- (d) the initial Paying Agents in respect of Bearer Securities shall be the initial Issue and Paying Agent together with The Bank of New York Mellon SA/NV, Luxembourg Branch (the "**Luxembourg Agent**") in respect of Securities that are distributed outside the United States of America and The Bank of New York Mellon (acting through its New York branch) in respect of Securities that are distributed within the United States of America (the "**New York Agent**");
- (e) the initial Transfer Agents in respect of Registered Securities shall be the initial Issue and Paying Agent together with the Luxembourg Agent in respect of Securities that are distributed outside the United States of America and the New York Agent in respect of Securities that are distributed within the United States of America; and
- (f) the initial Exchange Agent shall be The Bank of New York Mellon (acting through its New York branch) in respect of Cleared Securities for which DTC is the Relevant Clearing System.

In respect of any issue of CREST Securities, "**Agents**" shall mean the agent providing certain issuing, registry and paying agency services to the Issuer (the "**CREST Agent**") together with any other agent or agents appointed from time to time in respect of the CREST Securities (or the then current Successor (whether direct or indirect) of any such Agent). The initial CREST Agent shall be Computershare Investor Services PLC.

For the purpose of CREST Securities, any reference in these Base Conditions, any applicable Relevant Annex(es) or the Pricing Supplement to a calculation or determination being made by the Determination Agent or the Issue and Paying Agent shall be deemed to be a reference to the Issuer making such calculation or determination. These Base Conditions and the provisions of any applicable Relevant Annex(es) and the Pricing Supplement shall be construed accordingly.

In connection with any issue of Securities, the Issuer may appoint agents other than, or additional to, the Agents specified above. Such other or additional Agents shall be specified in any applicable Relevant Annex(es) or the Pricing Supplement. References in these Base Conditions, any applicable Relevant Annex(es) or the Pricing Supplement to Agents shall be to the initial Agents specified above, as applicable, or as specified in the Pricing Supplement or Relevant Annex(es), or the then current Successor (whether direct or indirect) of such Agent appointed in accordance with these Base Conditions, any applicable Relevant

Annex(es), the Pricing Supplement and the Master Agency Agreement with respect to such Securities.

2. **Form, Title and Transfer**

This condition sets out the legal form in which Securities may be issued and how this may change during the life of the Securities, the amount in which Securities are issued and the way the legal title to Securities may be transferred.

2.1 **Form**

(a) **Form of Securities**

Securities will be issued in bearer form as Bearer Securities (with or without Coupons or, in the case of Instalment Notes, Receipts) or in registered form as Registered Securities or in dematerialised form as CREST Securities, in each case, as specified in the Pricing Supplement. Bearer Securities may not be exchanged for Registered Securities and vice versa. CREST Securities may not be exchanged for Bearer Securities or Registered Securities and Bearer Securities or Registered Securities may not be exchanged for CREST Securities.

Securities will initially be issued in global form (which in respect of Bearer Securities shall be represented by global bearer securities ("**Global Bearer Securities**")) and in respect of Registered Securities shall be represented by global registered securities ("**Global Registered Securities**"), Global Bearer Securities and Global Registered Securities being global securities ("**Global Securities**")), and may only be exchanged for Securities in definitive form (which in respect of Bearer Securities shall be issued as definitive bearer securities ("**Definitive Bearer Securities**"), and in respect of Registered Securities shall be represented by definitive registered securities ("**Definitive Registered Securities**"), Definitive Bearer Securities and Definitive Registered Securities being definitive securities ("**Definitive Securities**"), with the terms and conditions endorsed on such Definitive Securities) if specified in the Pricing Supplement, or an Exchange Event occurs and Global Securities are to be exchanged for Definitive Securities in accordance with the terms of the relevant Global Security. The Issuer will promptly give notice to Securityholders if an Exchange Event occurs. Definitive Securities will not be issued, either initially or in exchange, for any CREST Securities.

CREST Securities will be issued in dematerialised uncertificated registered form and will be held in uncertificated registered form in accordance with the Uncertificated Regulations. As such, CREST Securities will be dematerialised and not constituted by any physical document of title. CREST Securities will be cleared through CREST and will be participating securities for the purposes of the Uncertificated Regulations.

(b) **Initial Issue of Global Securities**

If 'NGN Form' is specified as applicable in the Pricing Supplement with respect to a Global Bearer Security or the Pricing Supplement specifies that a Global Registered Security is to be held under the New Safekeeping Structure ("**NSS**") ("**NGN Form**"), such Global Bearer Security or Global Registered Security will be delivered on or prior to the original issue date of the Tranche to a common safekeeper (a "**Common Safekeeper**").

Where Global Securities are to be issued in NGN Form, Euroclear and Clearstream will be informed whether or not such Global Securities are intended to be held as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem ("**Eurosystem eligible collateral**"). Depositing the Global Securities intended to be held as Eurosystem eligible collateral with a Common Safekeeper does not necessarily mean that the

Securities will be recognised as Eurosystem eligible collateral either upon issue, or at any or all times during their life. Such recognition will depend upon the European Central Bank being satisfied that the Eurosystem eligibility criteria have been met. In the case of Global Securities issued in NGN Form which are not intended to be held as Eurosystem eligible collateral as of their issue date, should the Eurosystem eligibility criteria be amended in the future so that such Global Securities are capable of meeting the eligibility criteria, such Global Securities may then be deposited with Euroclear or Clearstream as Common Safekeeper.

If 'CGN Form' is specified in the Pricing Supplement and the Global Security is not a Global Registered Security to be held under the NSS, the Global Security may be delivered on or prior to the original issue date of the Tranche to a common depositary (a "**Common Depositary**") for the Relevant Clearing System.

If the Global Security is in CGN Form and is not held under the NSS, upon the initial deposit of such Global Security with a Common Depositary or registration of Registered Securities in the name of any nominee for the Relevant Clearing System and delivery of the relevant Global Registered Security to the Common Depositary, the Relevant Clearing System will credit each subscriber with a nominal amount of Securities in the case of Notes or with a number of Securities in the case of Certificates or Warrants, equal to the nominal amount or number thereof for which it has subscribed and paid. If the Global Security is in NGN Form, the nominal amount of the Securities in the case of Notes and the number of Securities in the case of Certificates and Warrants shall be the relevant aggregate amount or number from time to time entered in the records of the Relevant Clearing System. For purposes of a Global Security in NGN Form, the records of the Relevant Clearing System shall be conclusive evidence of the nominal amount of Securities in the case of Notes, or number of Securities in the case of Certificates and Warrants, represented by such Global Security and a statement issued by the Relevant Clearing System at any time shall be conclusive evidence of the records of the Relevant Clearing System at that time.

(c) **Exchange of Global Securities**

Each Series of Bearer Securities issued in compliance with the D Rules will be initially issued in the form of a temporary global security in bearer form (a "**Temporary Global Security**") and will be exchangeable, free of charge to the holder, on and after its Exchange Date, in whole or in part, upon certification as to non-US beneficial ownership in the form set out in the Master Agency Agreement for interests in a permanent bearer global security (a "**Permanent Global Security**").

Each Series of Bearer Securities issued in compliance with the C Rules or in respect of which TEFRA does not apply will be initially issued in the form of a Permanent Global Security.

Each Permanent Global Security will be exchangeable, free of charge to the holder, on or after its Exchange Date, in whole but not in part, for Definitive Securities only upon the occurrence of an Exchange Event.

Temporary Global Securities will not be exchangeable for Definitive Securities.

If the Global Security is a CGN, on or after any due date for exchange, the holder of such Global Security may surrender it or, in the case of a partial exchange, present it for endorsement to or to the order of the Issue and Paying Agent. In exchange for any such Global Security, or the part thereof to be exchanged, the Issuer will (i) in the case of a Temporary Global Security exchangeable for a Permanent Global Security, deliver, or procure the delivery

of, a Permanent Global Security in an aggregate nominal amount or aggregate number, as applicable, equal to that of the whole or that part of the Temporary Global Security that is being exchanged or, in the case of a subsequent exchange, endorse, or procure the endorsement of, a Permanent Global Security to reflect such exchange or (ii) in the case of a Global Security exchangeable for Definitive Securities, deliver, or procure the delivery of, an equal aggregate nominal amount or aggregate number, as applicable, of duly executed and authenticated Definitive Securities or (iii) if the Global Security is a Global Bearer Security in NGN Form or a Global Registered Security that is held under the NSS, the Issuer will procure that details of such exchange be entered pro rata in the records of the Relevant Clearing System. On exchange in full of each Permanent Global Security, the Issuer will, if the holder so requests, procure that it is cancelled and returned to the holder together with the relevant Definitive Securities.

(d) **Registered Securities**

Registered Securities of each Series which are sold in an 'offshore transaction' within the meaning of Regulation S ("**Unrestricted Securities**") will be represented by interests in a Regulation S Global Security, without Coupons, deposited with, and registered in the name of, a Common Depositary or a Common Safekeeper on behalf of the Relevant Clearing System on its issue date.

Registered Securities of each Series resold pursuant to Rule 144A ("**Restricted Securities**") will be represented by a Rule 144A Global Security, without Coupons, deposited with either (i) a custodian for, and registered in the name of a nominee of, DTC or (ii) a Common Depositary or a Common Safekeeper on behalf of the Relevant Clearing System on its issue date.

2.2 **Denomination and number**

The Pricing Supplement in respect of Securities that are Notes will specify, among other things, the denomination or denominations (each a "**Specified Denomination**") in which such Securities are issued, the Aggregate Nominal Amount, the Issue Price per Security, the Settlement Currency, the Calculation Amount per Security as at the Issue Date and any Relevant Annex(es) that apply to the Securities. All Registered Securities of a Series that are Notes shall have the same Specified Denomination.

The Pricing Supplement in respect of Securities that are Certificates or Warrants will specify, among other things, the Settlement Currency of such Securities, the Issue Price per Security or Unit, the number of Securities being issued, the Calculation Amount per Security as at the Issue Date and, where applicable, the number of Warrants or Exercisable Certificates comprising a Unit, if the Securities are Put Securities or Call Securities and identify any Relevant Annex(es) that apply to the Securities. All Securities of a Series that are Certificates or Warrants shall have the same Calculation Amount as at the Issue Date.

All CREST Securities of a Series that are (a) Notes shall have the same Specified Denomination or (b) Certificates or Warrants shall have the same Calculation Amount as at the Issue Date.

If 'Provisions relating to redenomination' is specified as applicable in the Pricing Supplement and the Securities are Notes and the currency of the Notes is sterling and where the Issuer determines that a Redenomination Date will occur, the Notes shall, without requiring the consent of the Securityholders but upon the Issuer having given prior notice to the Issue and Paying Agent and the Relevant Clearing Systems and at least 30 days' prior notice to the Securityholders, be redenominated in euro with effect from the Redenomination Date specified in the notice.

The redenomination of the Notes into euro will have effect as follows:

- (a) the Notes shall be deemed to be redenominated in euro in the denomination of euro 0.01 with a nominal amount for each Note equal to the nominal amount of that Note in sterling, converted into euro at the Established Rate, provided that, if the Issuer determines, with the agreement of the Issue and Paying Agent, that the then market practice in respect of the redenomination in euro of internationally offered Notes is different from the provisions specified in this Condition 2.2, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Securityholders and the Paying Agents of such deemed amendments;
- (b) save to the extent that an Exchange Notice has been given in accordance with paragraph (d) below, the amount of interest due in respect of the Notes will be calculated by reference to the aggregate nominal amount of Notes presented (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest euro 0.01;
- (c) if definitive Notes are required to be issued after the Redenomination Date, they shall be issued at the expense of the Issuer in the denominations of euro 1.00, euro 1,000, euro 10,000, euro 100,000 and (but only to the extent of any remaining amounts less than euro 1.00 or such smaller denominations as the Issue and Paying Agent may approve) euro 0.01 and such other denominations as the Issue and Paying Agent shall determine and notify to the Securityholders;
- (d) if issued prior to the Redenomination Date, all unmatured Coupons denominated in pound sterling (whether or not attached to the Notes) will become void with effect from the date on which the Issuer gives notice (the "Exchange Notice") that replacement euro-denominated Notes and Coupons are available for exchange (provided that such Notes are so available) and no payments will be made in respect of them. The payment obligations contained in any Notes so issued will also become void on that date although those Notes will continue to constitute valid exchange obligations of the Issuer. New euro-denominated Notes and Coupons will be issued in exchange for Notes and Coupons denominated in sterling in such manner as the Issue and Paying Agent may specify and as shall be notified to the Securityholders in the Exchange Notice. No Exchange Notice may be given less than 15 days prior to any date for payment of principal or interest on the Notes;
- (e) after the Redenomination Date, all payments in respect of the Notes and the Coupons, other than payments of interest in respect of periods commencing before the Redenomination Date, will be made solely in euro as though references in the Notes to sterling were to euro. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque; and
- (f) if the Pricing Supplement specifies that the Notes will bear interest and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on an Interest Payment Date, it will be calculated in the manner specified in the Pricing Supplement or the Exchange Notice, as the case may be, provided (in the latter case) that the calculation complies with conventions then applicable to instruments denominated in euro.

2.3 Title

(a) General

Title to Bearer Securities and any Coupons or Receipts, as the case may be, passes by delivery and title to Registered Securities passes by registration in the Register that the Issuer shall procure is kept by the Registrar in accordance with the provisions of the Master Agency Agreement.

The Issuer and the relevant Agents shall (except as otherwise required by law or ordered by a court of competent jurisdiction) deem and treat the holder (as defined below) of any Bearer Security, Coupon, Receipt or Registered Security as its absolute owner for all purposes (whether or not such Security is overdue and regardless of any notice of ownership, trust or any interest in it, any writing on it (or on the Global Security representing it) or its theft or loss) and no person shall be liable for so treating the holder.

In these Base Conditions, except in respect of CREST Securities, "**Securityholder**" means the bearer of any Bearer Security or the person in whose name a Registered Security is registered, and "**holder**" means, in relation to a Bearer Security, Coupon or Receipt, the bearer of such Bearer Security, Coupon or Receipt and, in relation to a Registered Security, the person in whose name such Registered Security is registered. Any references to "**Noteholder**", "**Certificateholder**" or "**Warrantholder**" within the Conditions of Securities issued as Notes, Certificates or Warrants, respectively, shall mean a Securityholder for the purposes of such Securities.

(b) **CREST Securities**

Title to CREST Securities is recorded on the relevant Operator register of corporate securities. The CREST Agent on behalf of the Issuer shall maintain a record of uncertificated corporate securities (the "**Record**") in relation to CREST Securities and shall procure that the Record is regularly updated to reflect the Operator register of corporate securities in accordance with the rules of the Operator.

Subject to this requirement and to Condition 2.4(h) (*Minimum Tradable Amount*) and Condition 2.4(i) (*Transfer of CREST Securities*) each person who is for the time being shown in the Record as the holder of a particular nominal amount (in the case of Notes) or number (in the case of Certificates and Warrants) of CREST Securities shall be treated by the Issuer and the Agents as the holder of such nominal amount or number, as the case may be, of CREST Securities for all purposes (and the expressions "**Securityholder**" and "**holder of CREST Securities**" and related expressions shall be construed accordingly for the purpose of the Conditions) and (ii) none of the Issuer or any Agent shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Record which the CREST Agent maintains are in accordance with particulars entered in the Operator register of corporate securities relating to the CREST Securities.

No provision of these Base Conditions, as amended in accordance with any applicable Relevant Annex(es) and/or the Pricing Supplement, shall (notwithstanding anything to the contrary therein) apply or have effect to the extent that it is in any respect inconsistent with (I) the holding of title to CREST Securities in uncertificated form, (II) the transfer of title to CREST Securities by means of a relevant system or (III) the Uncertificated Regulations. Without prejudice to the generality of the preceding sentence and notwithstanding anything contained in the Conditions for a Series of CREST Securities, so long as the CREST Securities are participating securities, (A) the Operator register of corporate securities relating to the CREST Securities shall be maintained at all times in the United Kingdom, (B) the CREST Securities may be issued in uncertificated form in accordance with and subject as provided in the Uncertificated Regulations and (C) for the avoidance of doubt, the Conditions in relation to any CREST Securities shall remain applicable notwithstanding that they are not endorsed on any certificate or document of title for such CREST Securities.

As used in these Base Conditions, each of "**Operator**", "**Operator register of corporate securities**", "**participating security**", "**record of uncertificated corporate securities**" and "**relevant system**" is as defined in the Uncertificated

Regulations and the relevant Operator (as such term is defined and used in the Uncertificated Regulations) is Euroclear UK & Ireland Limited or any additional or alternative Operator from time to time and notified to the holders of CREST Securities.

(c) **CREST Depository Interests**

Where CDIs are specified in the Pricing Supplement for a Series, investors may hold CREST Depository Interests ("**CDIs**") constituted and issued by the CREST Depository and representing indirect interests in such Securities. CDIs will be issued and settled through CREST.

Neither the Securities nor any rights with respect thereto will be issued, held, transferred or settled within CREST otherwise than through the issue, holding, transfer and settlement of CDIs. Holders of CDIs will not be entitled to deal directly in the Securities to which such CDIs relate (the "**Underlying Securities**"). Accordingly, all dealings in Securities represented by a holding of CDIs will be effected through CREST.

CDIs will be constituted and governed by the terms of the CREST Deed Poll. Holders of CDIs will have no rights against the Issuer, any Manager or any Agent in respect of the Underlying Securities, interests therein or the CDIs representing them.

2.4 **Transfers**

(a) **Transfer of Bearer Securities**

Subject to Condition 2.4(c) (*Transfer of Cleared Securities*), Bearer Securities, Coupons and Receipts will be transferred by delivery.

(b) **Transfer of Registered Securities**

Subject to Condition 2.4(c) (*Transfer of Cleared Securities*), Registered Securities may be transferred upon the surrender (at the specified office of the Registrar or any Transfer Agent) of the relevant Definitive Registered Security or Global Registered Security (provided such Security is not a Cleared Security) representing such Registered Securities to be transferred, together with the form of transfer endorsed on such Definitive Registered Security or Global Registered Security (or another form of transfer substantially in the same form and containing the same representations and certifications (if any), unless otherwise agreed by the Issuer), duly completed and executed and any other evidence as the Registrar or Transfer Agent may reasonably require. In the case of a transfer of part only of a holding of Registered Securities represented by a single Definitive Registered Security or Global Registered Security (provided such Security is not a Cleared Security), a new Definitive Registered Security shall be issued to the transferee in respect of the part transferred and a further new Definitive Registered Security or Global Registered Security in respect of the balance of the holding not transferred shall be issued to the transferor. All transfers of Securities and entries on the Register will be made subject to the detailed regulations concerning transfers of Securities scheduled to the Master Agency Agreement. The regulations may be changed by the Issuer, with the prior written approval of the Registrar and each Securityholder. A copy of the current regulations will be made available by the Registrar to any Securityholder upon request. For the avoidance of doubt, if Registered Securities are Cleared Securities, then all (and not some only) of the Registered Securities of the same Series shall be Cleared Securities.

Investors in the Securities are referred to the Sections in the Offering Circular headed 'Purchase and Sale' and '*Clearance and Settlement*'.

(c) **Transfer of Cleared Securities**

Notwithstanding Conditions 2.4(a) (*Transfer of Bearer Securities*) and (b) (*Transfer of Registered Securities*), transfers of beneficial interests in Cleared Securities may only be effected in accordance with the Relevant Rules.

If the Pricing Supplement specifies that the Securities are to be represented by a Permanent Global Security on issue, the following will apply in respect of transfers of Cleared Securities. These provisions will not prevent the trading of interests in the Securities within the Relevant Clearing System while they are held on behalf of such Relevant Clearing System, but will limit the circumstances in which the Securities may be withdrawn from the Relevant Clearing System.

Transfers of the holding of Securities represented by any Global Security pursuant to Condition 2.4(b) (*Transfer of Registered Securities*) may only be made in part:

- (i) if an Exchange Event occurs; or
- (ii) with the consent of the Issuer,

provided that, in the case of the first transfer of part of a holding of Registered Securities pursuant to this Condition 2.4(c), the registered holder has given the Registrar not less than ten Business Days' notice at its specified office of the registered holder's intention to effect such transfer.

Investors in the Securities are referred to (i) the Sections in the Offering Circular headed '*Purchase and Sale*', '*Clearance and Settlement*' and '*Book-entry Procedures for Rule 144A Global Securities Deposited with DTC*' and (ii) any Relevant Annex(es) specified in the Pricing Supplement.

(d) **Exercise of Options or Partial Redemption in respect of Registered Securities**

In the case of an exercise of an Issuer's or Securityholder's option in respect of, or a partial redemption of, a holding of Registered Securities represented by a single Definitive Registered Security or Global Registered Security, as the case may be, a new Definitive Registered Security shall be issued to the holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed. In the case of a partial exercise of an option resulting in Registered Securities of the same holding having different terms, a separate Definitive Registered Security or Global Registered Security shall be issued in respect of those Registered Securities of that holding that have the same terms. New Definitive Registered Securities shall only be issued against surrender of the relevant existing Definitive Registered Security or Global Registered Security to the Registrar or any Transfer Agent. In the case of a transfer of Registered Securities to a person who is already a holder of Registered Securities, a new Definitive Registered Security representing the enlarged holding shall only be issued against surrender of the Definitive Registered Security or Global Registered Security representing the existing holding.

(e) **Delivery of new Registered Securities**

Each new Definitive Registered Security or Global Registered Security to be issued pursuant to Condition 2.4(b) (*Transfer of Registered Securities*) or (d) (*Exercise of Options or Partial Redemption in respect of Registered Securities*) shall be available for delivery within three business days of receipt of the form of transfer, the relevant Exercise Notice or notice of redemption and surrender of the Definitive Registered Security or Global Registered Security, as the case may be. Delivery of a new Definitive Registered Security or Global Registered Security shall be made at the specified office of the Transfer Agent or of the Registrar (as the case may be) to whom delivery of such form of transfer, the

relevant Exercise Notice or notice of redemption and surrender of such Definitive Registered Security or Global Registered Security shall have been made or, at the option of the holder making such delivery and surrender as aforesaid and as specified in the relevant form of transfer, the relevant Exercise Notice, notice of redemption or otherwise in writing shall be mailed by uninsured post at the risk of the holder entitled to the new Definitive Registered Security or Global Registered Security, to such address as may be so specified, unless such holder requests otherwise and pays in advance to the relevant Agent the costs of such other method of delivery and/or such insurance as it may specify. In this Condition 2.4(e), "**business day**" means a day, other than a Saturday or Sunday, on which banks are open for business in the place of the specified office of the relevant Transfer Agent or the Registrar.

(f) **Transfer free of charge**

Transfers of Registered Securities will be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment of any Taxes that may be imposed in relation to it (or the giving of such indemnity as the Issuer, the Registrar or the relevant Transfer Agent may require).

(g) **Registered Security Closed Periods**

No Securityholder may require the transfer of a Definitive Registered Security to be registered (i) during the period of 15 calendar days ending on the due date for redemption or exercise of that Security, (ii) on any day after the date of any Option Exercise Notice delivered by such Securityholder in respect of such Definitive Registered Security, (iii) on any day after the date of any Settlement Election Notice or Delivery Entitlement Instruction (if earlier) delivered by such Securityholder in respect of such Definitive Registered Security, (iv) during the period of 15 calendar days before any date on which Securities may be called for redemption by the Issuer at its option pursuant to Condition 5.3 (*Early redemption at the option of the Issuer or following the occurrence of a Nominal Call Event*) or 5.4 (*Early redemption and/or adjustment following the occurrence of an Additional Disruption Event*), (v) after any such Security has been called for redemption or has been exercised or (vi) during the period of seven calendar days ending on (and including) any Record Date, unless, in the case of (iv), 'Registered Security Closed Period' is specified to be not applicable in the Pricing Supplement.

(h) **Minimum Tradable Amount**

Global Securities may, if specified in the Pricing Supplement, be subject to a Minimum Tradable Amount, in which case such Securities will, for so long as they are Cleared Securities, be transferable only in a nominal amount in the case of Notes or in a number in the case of Certificates and Warrants, of not less than such Minimum Tradable Amount. Notwithstanding the foregoing, such Securities will only be transferable in accordance with the Relevant Rules.

(i) **Transfer of CREST Securities**

Title to CREST Securities will pass upon registration of the transfer in the Operator register of corporate securities. All transactions in relation to CREST Securities (including, without limitation, transfers of CREST Securities) in the open market or otherwise must be effected through an account with the Operator subject to and in accordance with the rules and procedures for the time being of the Operator. All transfers of CREST Securities shall be subject to and made in accordance with the Uncertificated Regulations and the rules, procedures and practices in effect of the Operator (the "**CREST Requirements**").

Transfers of CREST Securities will be effected without charge by or on behalf of the Issuer, the Operator or the CREST Agent, but upon payment of any Taxes

that may be imposed in relation to them (or the giving of such indemnity as the Issuer, the Operator or the CREST Agent may require).

CREST Securities may not be transferred in or into the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S) (I) unless the CREST Securities are registered under the Securities Act, or an exemption from the registration requirements of the Securities Act is available, or (II) in a manner that would require the Issuer of the Notes to register as an 'investment company' under the US Investment Company Act of 1940, as amended (the "**Investment Company Act**").

(j) **CREST Security Closed Periods**

If, for so long as the CREST Securities are held in CREST, the rules and procedures of the Operator include any closed period in which no Securityholder may require the transfer of a CREST Security to be registered in the Operator register of corporate securities, such closed periods shall apply to the CREST Securities. Details of any such closed period are available from the CREST Agent.

(k) **Minimum Tradable Amount for CREST Securities**

CREST Securities may, if specified in the Pricing Supplement, be subject to a Minimum Tradable Amount, in which case such Securities will, for so long as they are CREST Securities, be transferable only in a nominal amount in the case of Notes or in a number in the case of Certificates and Warrants, of not less than such Minimum Tradable Amount. Notwithstanding the foregoing, such Securities will only be transferable in accordance with the CREST Requirements.

(l) **Cessation of CREST Eligibility**

If at any time a Series of CREST Securities ceases to be held in uncertificated form and/or accepted for clearance through CREST, or notice is received by or on behalf of the Issuer that the CREST Securities will cease to be held in uncertificated form and cleared through CREST and/or CREST is closed for business for a continuous period of 14 calendar days (other than by reason of holidays, statute or otherwise) or announces an intention permanently to cease business or does in fact do so, then such event shall constitute an Additional Disruption Event for the purposes of such Securities and the Issuer shall (in the case of Securities that are Notes or Certificates other than Exercisable Certificates) redeem such Securities in accordance with Condition 5.4(b) (*Early redemption and/or adjustment following the occurrence of an Additional Disruption Event*) or (in the case of Securities that are Warrants or Exercisable Certificates) cancel such Securities in accordance with Condition 6.3(a)(ii) (*Cancellation and/or Adjustment following the occurrence of an Additional Disruption Event or Cancellation at the option of the Issuer or following the occurrence of a Nominal Call Event or Cancellation following the occurrence of a Specified Early Cancellation Event*).

3. **Status**

This condition sets out the legal characteristics of Securities and how Securities will rank against other debt obligations of the Issuer.

The Securities and any Coupons or Receipts relating to them constitute unsecured and unsubordinated obligations of the Issuer and rank equally among themselves. The payment obligations of the Issuer under the Securities and any related Coupons or Receipts will rank equally with all other present and future unsecured and unsubordinated obligations of the Issuer (except for such obligations as may be preferred by provisions of law that are both

mandatory and of general application). The Securities do not evidence deposits of the Issuer. The Securities are not insured or guaranteed by any government or government agency.

4. **Interest**

This condition sets out that the Securities may bear interest and the different types of interest that may be payable. This condition also provides details on how interest accrues and how it is calculated.

If the Pricing Supplement specifies that interest applies to any Securities, each Security of such Series will bear interest on the applicable Calculation Amount from and including the Interest Commencement Date at a rate or rates per annum (expressed as a percentage) (the "**Interest Rate**") specified in, or determined in accordance with, the Pricing Supplement. Interest will be payable in arrear on the date or dates specified in the Pricing Supplement (provided that, if the relevant Interest Determination Date is postponed pursuant to Condition 4.2(c)(ii)(B) (*Floating Rate Disruption*), such date shall be postponed by an equal number of Business Days) (the "**Interest Payment Dates**" and each an "**Interest Payment Date**"). Subject to Condition 8 (*Calculations and publication*), the Interest Amount payable per Calculation Amount in respect of any Security on any Interest Payment Date will be calculated by the Determination Agent in respect of the immediately preceding Interest Calculation Period and shall be equal to the product of the applicable Interest Rate, the applicable Calculation Amount (determined by reference to the Calculation Amount as at the first day of the relevant Interest Calculation Period unless otherwise specified in the Pricing Supplement) and the Day Count Fraction for the relevant Interest Calculation Period, unless an Interest Amount (or other formula for its calculation) is specified in respect of such Interest Calculation Period in the Pricing Supplement, in which case the amount of interest payable per Calculation Amount in respect of such Security for such period shall equal such Interest Amount (or be calculated in accordance with such formula). If the Pricing Supplement specifies Securities to be Zero Coupon Securities, the Securities of such Series will not bear interest except in respect of any overdue principal following the Redemption Date (or such other date as specified in the Pricing Supplement).

For the avoidance of doubt, notwithstanding the preceding paragraph, if any Interest Payment Date is adjusted to an earlier date in accordance with the applicable Business Day Convention but the Interest Period End Date of the corresponding Interest Calculation Period is not subject to the same adjustment, the interest amount payable on such Interest Payment Date shall include interest accrued up to (but excluding) such Interest Period End Date.

In the case of Partly Paid Securities (other than Partly Paid Securities which are Zero Coupon Securities), interest will accrue as aforesaid on the paid-up Nominal Amount or the appropriate portion of the Calculation Amount of such Securities and otherwise as specified in the Pricing Supplement and the Conditions of such Securities shall be construed accordingly.

On each occasion that the nominal amount of any Note is to be reduced in accordance with Condition 5.1(b) (*Redemption by Instalments*) below, then, for the purpose of this Condition 4 only, the Calculation Amount shall be deemed to be reduced pro rata to such nominal amount reduction with effect from the related Instalment Date, subject to the provisions set out in Condition 5.1(b) (*Redemption by Instalments*) and as may be provided in the Pricing Supplement.

Notwithstanding anything to the contrary in this Condition 4, the accrual and/or payment of interest may be contingent on, or calculated by reference to, the performance, price, value or level or other factor relating to one or more Reference Assets if so specified in any applicable Relevant Annex(es) and/or the Pricing Supplement. The interest payable per Calculation Amount, Interest Rate or any Interest Amount, in each case, for an Interest Calculation Period, may be calculated by reference to:

- (a) the number of calendar days in a specified period on which a specified rate and/or price, value or level of one or more Reference Assets has a particular value, is within a specified range or is above/below a specified value, price or level; and/or

- (b) the rate for the immediately preceding interest calculation period; and/or
- (c) a range accrual fraction, multiplier or other factor; and/or
- (d) any other method or formulae.

If any Interest Amount payable would be a negative number but for the application of this paragraph (either due to a negative Interest Rate (whether a Floating Rate, Contingent Rate or otherwise) or by operation of a negative Margin that is added to the Interest Rate), the Interest Amount payable shall be deemed to be zero.

Any amendments to this Condition 4 and/or any additional provisions relating to such Securities will be set out in the Pricing Supplement.

4.1 Interest on Fixed Rate Securities

If 'Fixed Rate' is specified as the Interest Rate in the Pricing Supplement, the Interest Rate for each Interest Calculation Period will be the rate specified in the Pricing Supplement.

4.2 Interest on Floating Rate Securities

Subject to Conditions 4.2(f) (*Margin*) and 4.2(g) (*Minimum Interest Rate and/or Maximum Interest Rate*), if 'Floating Rate' is specified as the Interest Rate in the Pricing Supplement, the Interest Rate for an Interest Calculation Period will be the rate determined by the Determination Agent in the manner specified in the Pricing Supplement pursuant to Condition 4.2(a) (*Floating Rate Determination for Floating Rate Securities*) or 4.2(b) (*CMS Rate Determination for Floating Rate Securities*) or as otherwise provided in the Pricing Supplement. In respect of any short or long Interest Calculation Period as specified in the Pricing Supplement, the Determination Agent will determine the Interest Rate using Linear Interpolation or such other formula or method (if any) as is specified in the Pricing Supplement.

(a) Floating Rate Determination for Floating Rate Securities

Where 'Floating Rate Determination' is specified to be applicable in the Pricing Supplement, the Interest Rate for each Interest Calculation Period ending on or about an Interest Payment Date will be as follows:

- (i) If the Reference Rate is a floating rate other than EONIA or SONIA, the relevant Interest Rate will, subject as provided below, be either:
 - (A) the offered quotation (where 'Offered Quotation' is specified as applicable in the Pricing Supplement); or
 - (B) the arithmetic mean of the offered quotations (where 'Arithmetic Mean' is specified as applicable in the Pricing Supplement),

in each case expressed as a percentage rate per annum, for the Reference Rate of the relevant Designated Maturity which appear(s) on the Relevant Screen Page as of the Relevant Time on the Interest Determination Date relating to such Interest Payment Date. In the case of (B) above only, if five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Determination Agent for the purpose of determining the arithmetic mean of such offered quotations.

- (ii) If the Reference Rate is specified in the Pricing Supplement to be 'EONIA', the relevant Interest Rate will be the rate of return of a daily compound interest investment with the arithmetic mean of the daily rates

of the day-to-day Eurozone interbank euro money market as reference rate and which will be calculated by the Determination Agent on the Interest Determination Date, as follows, and the resulting percentage will be rounded, if necessary, to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards ("**EONIA**"):

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{EONIA}_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

where

'**d_o**', for any Interest Calculation Period, is the number of TARGET Business Days in the relevant Interest Calculation Period;

'**i**' is a series of whole numbers from one to **d_o**, each representing the relevant TARGET Business Day in chronological order from, and including, the first TARGET Business Day, in the relevant Interest Calculation Period;

'**EONIA_i**', for any day '**i**' in the relevant Interest Calculation Period, is a reference rate equal to the overnight rate as calculated by the European Central Bank and appearing on the Relevant Screen Page in respect of that day;

'**n_i**' is the number of calendar days in the relevant Interest Calculation Period on which the rate is EONIA_i; and

'**d**' is the number of calendar days in the relevant Interest Calculation Period.

- (iii) If the Reference Rate is specified in the Pricing Supplement to be '**SONIA**', the relevant Interest Rate will be the rate of return of a daily compound interest investment (with the daily Sterling overnight reference rate as reference rate for the calculation of interest) and which will be calculated by the Determination Agent on the Interest Determination Date, as follows, and the resulting percentage will be rounded, if necessary, to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards ("**SONIA**"):

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{SONIA}_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where:

"**d_o**" means in respect of the relevant Interest Calculation Period, is the number of London Business Days in the relevant Interest Calculation Period;

"**i**" means in respect of the relevant Interest Calculation Period, a series of whole numbers from one to **d_o**, each representing a relevant London Business Day in chronological order from, and including, the first London Business Day in the relevant Interest Calculation Period to, and including, the last London Business Day in the relevant Interest Calculation Period;

"**n_i**" means in respect of any London Business Day "**i**", the number of calendar days from, and including, such London Business Day "**i**" to but excluding the earlier of (a) the next London Business Day and (b) the last day of the relevant Interest Calculation Period on which the SONIA reference rate is SONIA_{i-pLBD};

"p" means, in respect of the relevant Interest Calculation Period, the number of London Business Days specified in the Pricing Supplement, being the length of the look-back period immediately preceding a London Business Day "i" falling in such relevant Interest Calculation Period on which the SONIA reference rate is to be determined. For the avoidance of doubt, if "p" is specified in the Pricing Supplement to be zero, there shall be no look-back period in respect of any London Business Day "i".

"SONIA_{i-pLBD}" means, in respect of any London Business Day "i" falling in the relevant Interest Calculation Period, the SONIA reference rate in respect of the London Business Day falling "p" London Business Days prior to such London Business Day "i";

the "SONIA reference rate", in respect of any London Business Day, means a reference rate equal to the daily Sterling Overnight Index Average ("SONIA") rate for such London Business Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors, in each case on the London Business Day immediately following such London Business Day; and

"d" is the number of calendar days in the relevant Interest Calculation Period.

(b) **CMS Rate Determination for Floating Rate Securities**

Where 'CMS Rate Determination' is specified to be applicable in the Pricing Supplement, the Interest Rate for each Interest Calculation Period ending on or about an Interest Payment Date will be the relevant CMS Reference Rate for such Interest Calculation Period.

The CMS Reference Rate in respect of an Interest Calculation Period or any relevant day (as applicable) will be the Specified Swap Rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity (expressed as a percentage rate per annum) which appears on the Relevant Screen Page as of the Relevant Time on the Interest Determination Date in respect of such Interest Calculation Period or such relevant day.

(c) **Floating Rate Disruption**

Unless a Reference Rate Discontinuance (as defined below) has occurred, in which case Condition 4.2(d)(*Reference Rate Discontinuance*) shall apply, if, on any Interest Determination Date, the Relevant Screen Page for the Reference Rate (or EONIA_i or SONIA_i) is not available, or (in the case of Condition 4.2(a)(i)(A) (*Floating Rate Determination for Floating Rate Securities*) above) no such offered quotation appears on the Relevant Screen Page or (in the case of Condition 4.2(a)(i)(B) (*Floating Rate Determination for Floating Rate Securities*) above), fewer than three such offered quotations appear on the Relevant Screen Page, in each case as of the Relevant Time, or on any TARGET Business Day pursuant to Condition 4.2(a)(ii) (*Floating Rate Determination for Floating Rate Securities*) above EONIA_i is not available on the Relevant Screen Page or on any London Business Day pursuant to Condition 4.2(a)(iii) (*Floating Rate Determination for Floating Rate Securities*) above SONIA_{i-pLBD} is not available on the Relevant Screen Page (such Reference Rate, a "**Disrupted Reference Rate**" and each such event, a "**Floating Rate Disruption**"), the Determination Agent shall determine the Interest Rate in respect of such Interest Determination Date (or EONIA_i, in respect of the relevant TARGET Business Day, as applicable) in accordance with the following methodologies, as applicable depending on the Designated Maturity

of the relevant Reference Rate or whether the Disrupted Reference Rate is EONIA or SONIA, as the case may be:

- (i) If the Designated Maturity of the relevant Reference Rate is 12 months or less:
 - (A) the Determination Agent shall determine the Interest Rate in respect of such Interest Determination Date using Linear Interpolation;
 - (B) if the Determination Agent determines that one or both of the rates to be used for the purposes of Linear Interpolation in accordance with sub-paragraph (A) immediately above are unavailable, the Interest Rate in respect of such Interest Determination Date shall be the last published offered quotation(s) for the Reference Rate that appeared on the Relevant Screen Page, provided that the last published quotation(s) may not be earlier than the fifth Business Day prior to the Interest Determination Date;
 - (C) if the Determination Agent determines that no offered quotation was published (or in the case of Base Condition 4.2(a)(i)(B) (*Floating Rate Determination for Floating Rate Securities*) above, fewer than three such offered quotations were published) for the Reference Rate in accordance with and during the period provided in sub-paragraph (B) immediately above, the Interest Rate in respect of the relevant Interest Determination Date shall be determined using Linear Interpolation save that the Interest Determination Date for such purpose will be deemed to be the immediately preceding Business Day on which the rates to be used for Linear Interpolation are both available on the Relevant Screen Page, provided that the last published rate for such purpose may not be earlier than the fifth Business Day prior to the Interest Determination Date;
 - (D) if the Determination Agent determines that the rates to be used for the purposes of Linear Interpolation in accordance with and during the period provided in sub-paragraph (C) immediately above are unavailable, the Interest Rate for such Interest Payment Date shall be such other rate as determined by the Determination Agent.
- (ii) If the Designated Maturity of the relevant Reference Rate is more than 12 months:
 - (A) the Determination Agent shall request each of the Reference Banks to provide the Determination Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate of the relevant Designated Maturity as soon as practicable after the Relevant Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Determination Agent with such offered quotations, the Interest Rate in respect of such Interest Payment Date shall be the arithmetic mean of such offered quotations;
 - (B) if the Determination Agent determines that fewer than two Reference Banks are providing offered quotations in accordance with sub-paragraph (A) immediately above, the Interest Rate in respect of such Interest Determination Date shall be determined by postponing the relevant Interest Determination Date to the first succeeding Business Day on which the Floating Rate Disruption

ceases to exist, provided that for such purpose the Interest Determination Date shall not be postponed for more than two Business Days after the date on which the Interest Determination Date was originally scheduled to fall;

- (C) if the Determination Agent determines that it is unable to determine the Interest Rate in accordance with and during the period provided in sub-paragraph (B) immediately above, the Interest Rate in respect of such Interest Determination Date shall be such other rate as determined by the Determination Agent.

(iii) If the Disrupted Floating Rate is EONIA:

- (A) EONIA_i in respect of the relevant TARGET Business Day shall be determined as the last published offered quotation for EONIA_i that appeared on the Relevant Screen Page, provided that the last published quotation may not be earlier than the fifth Business Day prior to the relevant TARGET Business Day;
- (B) if the Determination Agent determines that no offered quotation was published for EONIA_i in accordance with and during the period provided in sub-paragraph (A) immediately above, EONIA_i in respect of the relevant TARGET Business Day shall be such other rate as determined by the Determination Agent.

(iv) If the Disrupted Reference Rate is SONIA:

- (A) SONIA_{i-pLBD} in respect of the relevant London Business Day "i" shall be determined by the Determination Agent as the (i) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing at the close of business on the "**Bank Rate London Business Day**" (being the London Business Day falling "p" London Business Days prior to the relevant London Business Day "i"); plus (ii) the mean of the spread of the SONIA reference rate to the Bank Rate over the five days prior to the Bank Rate London Business Day on which a SONIA reference rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate;
- (B) if the Determination Agent determines that it is unable to determine SONIA_{i-pLBD} in accordance with sub-paragraph (A) immediately above, SONIA_{i-pLBD} in respect of the relevant London Business Day shall be such other rate as determined by the Determination Agent.

(d) **Reference Rate Discontinuance**

If on (or prior to) any Interest Determination Date, the Determination Agent determines that the relevant Reference Rate (or EONIA_i or SONIA_{i-pLBD}) has been discontinued or has otherwise ceased to exist (such Reference Rate (or EONIA_i), a "**Discontinued Reference Rate**" and such event, a "**Reference Rate Discontinuance**"), the Determination Agent shall determine the Interest Rate for the relevant Interest Payment Date in accordance with the following methodologies, as applicable:

- (i) If a Pre-nominated Index has been specified in the Pricing Supplement in respect of the relevant Reference Rate (or EONIA_i or SONIA_{i-pLBD}), the relevant Reference Rate (or EONIA_i or SONIA_{i-pLBD}) shall be replaced by such Pre-nominated Index with effect from the date as determined by the

Determination Agent and the Pre-nominated Index will be deemed to be the Reference Rate (or EONIA_i or SONIA_{i-PLBD}) with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology);

(ii) Otherwise, if a Pre-nominated Index has not been specified in the Pricing Supplement and if the Discontinued Reference Rate is not EONIA or SONIA:

(A) the Determination Agent shall, in its discretion, select a substitute or successor rate of interest that it determines is comparable to the Discontinued Reference Rate to replace such Discontinued Reference Rate, and shall replace the Discontinued Reference Rate by such substitute or successor rate of interest with effect from the date as determined by the Determination Agent and such substitute or successor reference rate will be deemed to be the Reference Rate with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology);

(B) if the Determination Agent determines that no substitute or successor rate is available for the purpose of sub-paragraph (A) immediately above, then, with effect from and including the date on which the relevant Reference Rate has been discontinued or has otherwise ceased to exist, the Interest Rate in respect of such Interest Determination Date, and any subsequent Interest Determination Date, shall be determined using Linear Interpolation;

(C) if the Determination Agent determines that one or both of the rates to be used for the purpose of Linear Interpolation in accordance with (B) immediately above are unavailable or otherwise does not determine the Interest Rate in accordance with the foregoing, an Additional Disruption Event shall be deemed to have occurred for the purposes of these provisions and the Determination Agent shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*), as the case may be, in respect of the Securities.

- (iii) Otherwise, if a Pre-nominated Index has not been specified in the Pricing Supplement and if the Discontinued Reference Rate is EONIA_i or SONIA_{i-pLBD}:
 - (A) the Determination Agent shall, in its discretion, select a substitute or successor reference rate that it determines is comparable to the Discontinued Reference Rate to replace such Discontinued Reference Rate, and shall replace the Discontinued Reference Rate by such substitute or successor reference rate with effect from the date as determined by the Determination Agent and such substitute or successor reference rate will be deemed to be the Reference Rate with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology);
 - (B) if the Determination Agent determines that no substitute or successor reference rate is available for the purpose of subparagraph (A) immediately above or otherwise does not determine the Interest Rate in accordance with the foregoing, an Additional Disruption Event shall be deemed to have occurred for the purposes of these provisions and the Determination Agent shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*), as the case may be, in respect of the Securities.
- (e) **Corrections to Published and Displayed Rates**

For purposes of determining the relevant Reference Rate for an Interest Determination Date, the relevant Reference Rate will be subject to the corrections, if any, to the information subsequently displayed on the Relevant Screen Page within one hour of the time when such rate is first displayed on the Relevant Screen Page.
- (f) **Margin**

If any Margin is specified in the Pricing Supplement (either (i) generally, or (ii) in relation to one or more Interest Calculation Periods), an adjustment shall be made to all Interest Rates, in the case of (i), or the Interest Rate for the specified Interest Calculation Periods, in the case of (ii), calculated in accordance with Condition 4.2(a) (*Floating Rate Determination for Floating Rate Securities*) and 4.2(b) (*CMS Rate Determination for Floating Rate Securities*) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin, subject always to Condition 4.2(g) (*Minimum Interest Rate and/or Maximum Interest Rate*).
- (g) **Minimum Interest Rate and/or Maximum Interest Rate**

If any Minimum Interest Rate or Maximum Interest Rate is specified in the Pricing Supplement (either (i) generally, or (ii) in relation to one or more Interest Calculation Periods), then all Interest Rates, in the case of (i), or the Interest Rate for the specified Interest Calculation Periods, in the case of (ii), shall be subject to such Minimum Interest Rate or Maximum Interest Rate, as applicable.

(h) **Changes in Reference Rate**

If the methodology or formula for the rate comprising the Reference Rate (the "**Original Reference Rate**") in respect of any Securities or any other means of calculating the Reference Rate is changed (irrespective of the materiality of any such change or changes), then for the avoidance of doubt references to the Reference Rate in respect of such Securities shall remain as the Original Reference Rate notwithstanding such changes.

4.3 **Contingent Interest Securities**

If 'Contingent Rate' is specified as the Interest Rate in the Pricing Supplement, each Security bears interest at a rate or rates determined on the basis of the formula or method specified as the "**Contingent Rate**" for such purpose in the Pricing Supplement in accordance with Condition 8 (*Calculations and publication*).

Subject to Condition 8 (*Calculations and publication*) and unless specified otherwise in the Pricing Supplement, where the formula or method specified for calculating or determining the Contingent Rate references one or more floating rates, the provisions set out in Condition 4.2(c) (*Floating Rate Disruption*), Condition 4.2(d) (*Reference Rate Discontinuance*), Condition 4.2(e) (*Corrections to Published and Displayed Rates*) and Condition 4.2(h) (*Changes in Reference Rate*) shall apply with respect to each floating rate as if each such rate were a Reference Rate for the purposes thereof.

4.4 **Zero Coupon Securities**

If 'Zero Coupon' is specified as the Interest Rate in the Pricing Supplement, the Securities will not bear interest and references to interest and Coupons in these Base Conditions are not applicable, provided however that where any such Security is repayable prior to the Redemption Date (or such other date specified in the Pricing Supplement) and is not paid when due, the amount due and payable prior to the Redemption Date shall be the Early Cash Settlement Amount for such Security.

4.5 **Accrual of Interest**

Subject to Condition 9.5(c) (*Interest after Redemption*), interest shall cease to accrue on each interest bearing Security on the due date for redemption unless, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (both before and after judgement) at the Interest Rate in the manner provided in this Condition 4 to the Relevant Date as if such period was an Interest Calculation Period.

5. **Redemption of Securities that are Notes or Certificates**

This condition sets out that Securities may be redeemed at the end of the life of the Securities or prior to this if the Issuer exercises an option to redeem, if certain events occur or if the Securityholder exercises an option to redeem. This condition also provides details on the redemption, for example, timings, if and when notices need to be given, maximum and minimum redemption requirements, if an amount will be due on redemption and if this will be payable in instalments, if the Securities will be cash or physically settled, and how any amount payable is calculated.

This Condition 5 applies only to Securities that are Notes and Certificates (other than Exercisable Certificates). Any such Securities being redeemed pursuant to this Condition 5 shall, subject to Condition 7 (*Settlement*), be settled in accordance with the applicable

Settlement Method. Notwithstanding anything to the contrary herein, 'Cash Settlement' will always apply to CREST Securities.

5.1 Redemption and redemption by instalments

(a) Redemption

Unless previously redeemed in accordance with this Condition 5 or purchased and cancelled in accordance with Condition 23 (*Purchases and Cancellations*), each Security will, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*), be redeemed in whole:

- (i) if 'Cash Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.1 or is validly elected (or deemed to have been elected) by the Issuer or Securityholder pursuant to Condition 5.1(a)(iv) or (v), at the Final Cash Settlement Amount on the Redemption Date; or
- (ii) if 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.1 or is validly elected by the Issuer or Securityholder pursuant to Condition 5.1(a)(iv) or (v), by delivery of the Final Physical Redemption Entitlement on the applicable Final Physical Redemption Date; or
- (iii) if 'Cash or Physical Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.1, and (i) the conditions to cash settlement specified in the Pricing Supplement are satisfied, at the Final Cash Settlement Amount on the Redemption Date, or (ii) the conditions to physical settlement specified in the Pricing Supplement are satisfied, by delivery of the Final Physical Redemption Entitlement on the applicable Final Physical Redemption Date; or
- (iv) if 'Issuer Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.1, in accordance with Condition 5.1(a)(i) if the Issuer elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 5.1(a)(ii) if the Issuer elects for Physical Settlement to apply. Notice of the Issuer's election shall be given to Securityholders no later than ten Business Days prior to the Redemption Date. If notice of such election is not given, Cash Settlement shall be deemed to have been elected to apply to the Securities; or
- (v) if 'Securityholder Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.1, in accordance with Condition 5.1(a)(i) if the Securityholder elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 5.1(a)(ii) if the Securityholder elects for Physical Settlement to apply in accordance with Condition 7.1 (*Settlement at the option of Securityholder*).

(b) Redemption by Instalments

If 'Details relating to Instalment Notes' is specified to apply in the Pricing Supplement, unless previously redeemed or purchased and cancelled, as provided in Condition 23 (*Purchases and Cancellations*), each Note in respect of which the Pricing Supplement provides for Instalment Dates and Instalment Amounts, shall be partially redeemed on each Instalment Date at the related Instalment Amount ("**Instalment Notes**"). The outstanding nominal amount of each such Note shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Note, such proportion) with effect from the related Instalment

Date, unless payment of the Instalment Amount is withheld other than in accordance with applicable laws, regulations or orders of any court of competent jurisdiction or refused on presentation of the related Receipt, in which case such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.

If "Reduction of Nominal" is specified as the Instalment Methodology in the Pricing Supplement or if "Pool Factor" is not specified as the Instalment Methodology in the Pricing Supplement, then with effect from the related Instalment Date, unless payment of the Instalment Amount is withheld other than in accordance with applicable laws, regulations or orders of any court of competent jurisdiction or refused on presentation of the related Receipt, for purposes only of the determination of any amount of interest or other amount payable (other than the Instalment Amount) or asset deliverable in respect of the Notes, the Calculation Amount (and, if applicable, the Specified Denomination) shall be deemed to be reduced pro rata to such nominal amount reduction in respect of such Instalment Amount.

If "Pool Factor" is specified as the Instalment Methodology in the Pricing Supplement, then neither the Calculation Amount nor the Specified Denomination shall be deemed to be reduced pro rata upon payment of an Instalment Amount; instead, with effect from the related Instalment Date following payment of an Instalment Amount, for purposes only of the calculation of any amount of interest or other amount payable (other than the Instalment Amount) or asset deliverable in respect of the Notes, the Calculation Amount (and, if applicable, the Specified Denomination) shall be multiplied by a pool factor (the "**Pool Factor**") which is equal to (A) (1) the Calculation Amount (or, if applicable, the Specified Denomination) minus (2) the sum of all Instalment Amounts paid in respect of each Note from the Issue Date to, and including, the related Instalment Date, divided by (B) the Calculation Amount.

5.2 Early redemption at the option of Securityholders

If 'Put Option' is specified to apply in the Pricing Supplement, upon the holder of such Security giving not less than the Put Notice Period Number of Business Days' irrevocable notice to the Issuer (such notice, an "**Option Exercise Notice**") (such period the "**Put Notice Period**") on any Put Option Exercise Date within the Put Option Exercise Period, the Issuer shall, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) and the conditions to exercise set out below, redeem each Security to which such notice relates in whole (but not in part):

- (a) if 'Cash Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.2 or is validly elected (or deemed to have been elected) by the Issuer or Securityholder pursuant to Condition 5.2(c) or (d), at its Optional Cash Settlement Amount on the Optional Cash Redemption Date; or
- (b) if 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.2 or is validly elected by the Issuer or Securityholder pursuant to Condition 1.1(c) or (d), by delivery of the Optional Physical Settlement Entitlement on the Put Option Physical Settlement Date; or
- (c) if 'Issuer Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.2, in accordance with Condition 5.2(a) if the Issuer elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 5.2(b) if the Issuer elects for Physical Settlement to apply. Notice of the Issuer's election shall be given to Securityholders no later than the Put Notice Issuer Election Number of Business Days prior to the last day of the Put Notice Period, unless otherwise specified in

- the Pricing Supplement. If notice of such election is not given, Cash Settlement shall be deemed to have been elected to apply to the Securities; or
- (d) if 'Securityholder Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.2, in accordance with Condition 5.2(a) if the Securityholder elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 5.2(b) if the Securityholder elects for Physical Settlement to apply. The Securityholder must make its settlement election in the relevant Option Exercise Notice.
 - (e) Notwithstanding anything to the contrary herein, to exercise such option the Securityholder must deposit (in the case of Bearer Securities) the relevant Bearer Securities (together with all unmatured or unexchanged Coupons or Receipts) with any Paying Agent or (in the case of Registered Securities) the relevant Global Registered Security or Definitive Registered Security representing such Registered Securities with the Registrar or any Transfer Agent at its specified office together with the duly completed irrevocable option exercise notice (the "Option Exercise Notice") in the form obtainable from any Paying Agent, the Registrar or any Transfer Agent (as applicable). If the Securities are Cleared Securities, such option may be exercised by the relevant Securityholder giving an Option Exercise Notice to the Issue and Paying Agent through the Relevant Clearing Systems stating the nominal amount of Notes or number of Certificates in respect of which the Put Option is exercised and the relevant Common Depositary, Common Safekeeper, custodian or nominee shall deposit and surrender the relevant Securities in accordance with the Relevant Rules. No transfers of interests in Cleared Securities in respect of which an Option Exercise Notice has been delivered will be valid and an Option Exercise Notice in respect of Cleared Securities must be accompanied by a copy of instructions given to the Relevant Clearing System by the relevant accountholder that the accountholder's account be blocked for such purposes. No Securities so deposited and option exercised may be withdrawn (except as provided in the Master Agency Agreement) without the prior consent of the Issuer.
 - (f) With respect to Cleared Securities, if 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement (or is elected by the Issuer or Securityholder), the delivery of the duly completed Option Exercise Notice by the Securityholder to the Issue and Paying Agent through the Relevant Clearing Systems shall be deemed to satisfy the condition precedent to settlement of delivery of a Delivery Entitlement Instruction pursuant to Condition 7 (*Settlement*), provided that such Option Exercise Notice contains all information necessary for the Relevant Clearing System and the Issuer or its agent to effect physical delivery of the relevant Optional Physical Settlement Entitlement.
 - (g) Notwithstanding anything to the contrary herein, if the Securities are CREST Securities, such option may be exercised by the relevant Securityholder sending an Option Exercise Notice by way of a Dematerialised Instruction to the Operator (or procuring that such an instruction is sent) in the form obtainable from the Issuer or the CREST Agent. Such Option Exercise Notice must state the nominal amount of Notes or number of Certificates in respect of which the Put Option is exercised and irrevocably instruct the Operator to transfer from the Securityholder's account to the appropriate account of the Issuer in CREST the relevant nominal amount of Notes or number of Certificates to be redeemed, provided that the Option Exercise Notice shall not be effective until such transfer to the Issuer's account is complete.
 - (h) The right to require redemption of Notes or Certificates that are CREST Securities in accordance with this Condition 5.2 must be exercised in accordance with the CREST Requirements and if there is any inconsistency between the foregoing and the CREST Requirements, the latter shall prevail. No

CREST Securities in respect of which such option has been exercised may be withdrawn without the prior consent of the Issuer.

- (i) For the avoidance of doubt, if the last day of the relevant Put Notice Period is the same date as the Redemption Date, unless otherwise specified in the Pricing Supplement, the Securities shall be redeemed in accordance with this Condition 5.2.

5.3 **Early redemption at the option of the Issuer or following the occurrence of a Nominal Call Event**

If (i) 'Call Option' is specified to apply in the Pricing Supplement or (ii) 'Nominal Call Event' is specified to apply in the Pricing Supplement and a Nominal Call Event occurs, the Issuer may, on giving not less than the Issuer Notice Period Number of Business Days' irrevocable notice to Securityholders (such notice an "**Early Redemption Notice**") (such period the "**Issuer Notice Period**") and provided that if the notice relates to a Call Option such notice is delivered on the Issuer Option Exercise Date within the Issuer Option Exercise Period and subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*), redeem some or all of the Securities in whole (but not in part):

- (a) if 'Cash Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.3 or is validly elected (or deemed to have been elected) by the Issuer or Securityholder pursuant to Condition 5.3(c) or (d), at its Optional Cash Settlement Amount together with accrued interest on the Optional Cash Redemption Date; or
- (b) if 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.3 or is validly elected by the Issuer or Securityholder pursuant to Condition 5.3(c) or (d), by delivery of the Optional Physical Settlement Entitlement on the applicable Optional Physical Redemption Date; or
- (c) if 'Issuer Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.3, in accordance with Condition 5.3(a) if the Issuer elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 5.3(b) if the Issuer elects for Physical Settlement to apply. Unless otherwise specified in the Pricing Supplement, the Issuer's election will be specified in the Early Redemption Notice. If no election is made in the Early Redemption Notice, Cash Settlement shall be deemed to have been elected to apply to the Securities; or
- (d) if 'Securityholder Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.3, in accordance with Condition 5.3(a) if the Securityholder elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 5.3(b) if the Securityholder elects for Physical Settlement to apply in accordance with Condition 7.1 (*Settlement at the option of Securityholder*).

For the avoidance of doubt, if the last day of the Issuer Notice Period is the same date as the Redemption Date, unless otherwise specified in the Pricing Supplement, the Securities shall be redeemed in accordance with this Condition 5.3.

In the event that any option of the Issuer is exercised with respect to some but not all of the Securities of any Series and such Securities are Cleared Securities, the rights of accountholders with the Relevant Clearing System in respect of the Securities will be governed by the standard procedures and Relevant Rules (to be reflected in the records of the Relevant Clearing System as either a pool factor or a reduction in nominal amount or number, as applicable at their discretion).

5.4 Early redemption and/or adjustment following the occurrence of an Additional Disruption Event

If an Additional Disruption Event occurs:

- (a) the Issuer may request that the Determination Agent determines whether an appropriate adjustment can be made to the Conditions and/or any other provisions relating to the Securities to account for the economic effect of such Additional Disruption Event on the Securities which would produce a commercially reasonable result and preserve substantially the economic effect to the Securityholders of a holding of the relevant Security. If the Determination Agent determines that an appropriate adjustment or adjustments can be made, the Issuer shall determine the effective date of such adjustment(s), notify the Securityholders of any such adjustment and take the necessary steps to effect such adjustment(s). If the Determination Agent determines that no adjustment that could be made would produce a commercially reasonable result and preserve substantially the economic effect to the Securityholders of a holding of the relevant Security, it shall notify the Issuer of such determination and no adjustment shall be made; or
- (b) the Issuer may, on giving not less than ten Business Days' irrevocable notice to Securityholders (or such other notice period as may be specified in the Pricing Supplement) (such period the "**Early Redemption Notice Period**") (such notice an "**Additional Disruption Event Redemption Notice**"), redeem all of the Securities of the relevant Series on the Early Cash Redemption Date and pay to each Securityholder, in respect of each Security held by it, an amount equal to the Early Cash Settlement Amount on such date (provided that the Issuer may also, prior to such redemption of the Securities, make any adjustment(s) to the Conditions or any other provisions relating to the Securities as appropriate in order to (when considered together with the redemption of the Securities) account for the effect of such Additional Disruption Event on the Securities).

5.5 Early Redemption following the occurrence of a Specified Early Redemption Event

If a Specified Early Redemption Event occurs, the Issuer may, or shall if 'Automatic Early Redemption' is specified as applicable in the Pricing Supplement, on giving not less than 15 Business Days' irrevocable notice (a "**Specified Early Redemption Notice**") to Securityholders (or such other notice period as may be specified in the Pricing Supplement) (such period the "**Specified Early Redemption Notice Period**"), subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*), redeem each Security (in whole or in part):

- (a) if 'Cash Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.5 or is elected (or deemed to have been elected) by the Issuer or the Securityholder pursuant to Condition 5.5(c) or 5.5(d), at its Specified Early Cash Settlement Amount together with accrued interest on the Specified Early Cash Redemption Date; or
- (b) if 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.5 or is validly elected by the Issuer or the Securityholder pursuant to Condition 5.5(c) or 5.5(d) by delivery of the Specified Early Physical Redemption Entitlement on the applicable Specified Early Physical Redemption Date; or
- (c) if 'Issuer Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.5, in accordance with Condition 5.5(a) if the Issuer elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 5.5(b) if the Issuer elects for Physical Settlement to apply. Unless otherwise specified in the Pricing Supplement, the Issuer's election will be specified in the Specified Early Redemption Notice. If

no election is made in the Specified Early Redemption Notice, Cash Settlement shall be deemed to have been elected to apply to the Securities; or

- (d) if 'Securityholder Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 5.5, in accordance with Condition 5.5(a) if the Securityholder elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 5.5(b) if the Securityholder elects for Physical Settlement to apply in accordance with Condition 7.1 (*Settlement at the option of Securityholder*).

5.6 Maximum and Minimum Redemption Requirements

With respect to the Securities of any Series, additional requirements in respect of their redemption may be specified in the Pricing Supplement, including, but not limited to, the following:

(a) Restrictions on Securities Redeemable

If the Pricing Supplement specifies a Minimum Number or Minimum Nominal Amount, the number or nominal amount of Securities redeemable at the option of any Securityholder pursuant to Condition 5.2 (*Early redemption at the option of Securityholders*) on any particular Business Day must not be less than such Minimum Number or Minimum Nominal Amount and, if a number or nominal amount greater than such Minimum Number or Minimum Nominal Amount, must be an integral multiple of such Minimum Number or Minimum Nominal Amount.

Any Option Exercise Notice given pursuant to Condition 5.2 (*Early redemption at the option of Securityholders*) which purports to redeem Securities in breach of this Condition 5.6(a) shall be void and of no effect unless the Issuer (having been notified by the Issue and Paying Agent) agrees otherwise.

(b) Daily Maximum Amount

If the Issue and Paying Agent acting in good faith and in a commercially reasonable manner determines that any Option Exercise Notice(s) given pursuant to Condition 5.2 (*Early redemption at the option of Securityholders*) by one or more Securityholders on any Business Day are, in aggregate, in respect of more than the relevant Daily Maximum Amount or Daily Maximum Number (if any), then the Issue and Paying Agent shall, unless the Issuer otherwise directs:

- (i) deem such Option Exercise Notice(s) to apply on such Business Day in respect of the redemption of a nominal amount or number of Securities equal to the relevant Daily Maximum Amount or Daily Maximum Number of such Securities to which they relate (selected, in each case, by the Issue and Paying Agent on a pro rata basis, to the extent possible, failing which such selection to be at the Issue and Paying Agent's discretion such discretion exercised in good faith and in a commercially reasonable manner, and in accordance with the Relevant Rules if the Securities are Cleared Securities and, in each case, to ensure that such Securityholder or group of Securityholders submitting an Option Exercise Notice is, notwithstanding the provisions of this Condition 5.6(b)(i), complying with Condition 5.6(a) ; and
- (ii) thereafter, deem each successive Business Day to be one on which an Option Exercise Notice has been delivered for the purpose of Condition 5.2 (*Early redemption at the option of Securityholders*) in respect of the remaining Securities (not exceeding such Daily Maximum Amount or Daily Maximum Number on any Business Day) until all Securities to

which the original Option Exercise Notice(s) relate(s) have been redeemed,

provided that if on the final day of the Put Option Exercise Period there exists an outstanding nominal amount or number of Securities, in excess of the relevant Daily Maximum Amount or Daily Maximum Number, for which Option Exercise Notices have been given (or deemed to have been given) pursuant to Condition 5.2 (*Early redemption at the option of Securityholders*) on such day, the Issue and Paying Agent shall select on a pro rata basis (to the extent possible) a portion of such Securities to be redeemed such that the maximum nominal amount or number of Securities that may be redeemed without exceeding the relevant Daily Maximum Amount or Daily Maximum Number are redeemed on such day. Option Exercise Notices in respect of any remaining Securities that have not been so selected for redemption shall be void and of no effect and such Securities shall be redeemed on their Redemption Date, unless the Issuer (having been notified by the Issue and Paying Agent) agrees otherwise.

(c) **Minimum Instalment Amounts and/or Maximum Instalment Amounts**

If any Minimum or Maximum Instalment Amount is specified in the Pricing Supplement then any Instalment Amount shall be subject to such minimum or maximum, as applicable.

6. Exercise or cancellation of Securities that are Warrants or Exercisable Certificates

This condition sets out when and how Securities may expire or be exercised or cancelled at the option of the Securityholder or the Issuer, if certain events occur or automatically. This condition also provides details on the exercise and cancellation procedures, for example, timings, if and when notices need to be given, maximum and minimum exercise requirements and the settlement method.

This Condition 6 applies only to Securities that are Warrants and Certificates which are specified to be exercisable in accordance with this Condition 6 in the Pricing Supplement ("**Exercisable Certificates**"). Any such Securities being exercised or cancelled pursuant to this Condition 6 shall, subject to compliance with the procedures set out in this Condition 6, unless specified otherwise in the Pricing Supplement, be settled, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*), in accordance with the applicable Settlement Method. Notwithstanding anything to the contrary herein, 'Cash Settlement' will always apply to CREST Securities.

6.1 Exercise Period and Expiry

(a) **Exercise Period**

Securities that are Warrants or Exercisable Certificates may be specified in the Pricing Supplement to be American Style, Bermudan Style, European Style or Other Exercise Style. Unless previously cancelled in accordance with this Condition 6 or purchased and cancelled in accordance with Condition 23 (*Purchases and Cancellations*), if Securities are specified to be:

- (i) American Style, such Securities will be exercisable on any Exercise Business Day during the Exercise Period;
- (ii) Bermudan Style, such Securities will be exercisable only on the Potential Exercise Business Dates during the Exercise Period and on the Expiration Date;
- (iii) European Style, such Securities will be exercisable only on the Exercise Date being the Expiration Date; or

- (iv) Other Exercise Style, such Securities will be exercisable in accordance with the terms specified for such purpose in the Pricing Supplement,

and for the purpose of this Condition 6 each date on which a Security can be exercised is an "**Eligible Exercise Date**" in respect thereof.

(b) **Expiry**

Except where 'Automatic Exercise' is specified as applicable in the Pricing Supplement, any Security with respect to which no valid Security Exercise Notice has been delivered on or prior to (i) 10:00 a.m. London time, if the Securities are not Cleared Securities or (ii) 10:00 a.m. Luxembourg or Brussels time or such other time as determined as appropriate for the Relevant Clearing System, if the Securities are Cleared Securities or (iii) 10:00 a.m. London time or such other time as is determined by the Issuer, if the Securities are CREST Securities (the "**CREST Cut-off Time**"), in each case on the Expiration Date shall become void and no amounts shall be payable by the Issuer to the relevant Securityholders in respect of such void Securities.

6.2 Cancellation at the option of Securityholders

If 'Put Option' is specified to apply in the Pricing Supplement, upon the holder of such Security giving not less than the Put Notice Period Number of Business Days' irrevocable notice to the Issuer (such notice, an "Option Exercise Notice") (such period the "Put Notice Period") on any Put Option Exercise Date within the Put Option Exercise Period, the Issuer shall, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) and the conditions to exercise set out below, cancel each Security to which such notice relates in whole (but not in part):

- (a) if 'Cash Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.2 or is validly elected (or deemed to have been elected) by the Issuer or Securityholder pursuant to Condition 6.2(c) or (d), at its Optional Cash Settlement Amount on the Optional Cash Cancellation Date; or
- (b) if 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.2 or is validly elected by the Issuer or Securityholder pursuant to Condition 6.2(c) or (d), by delivery of the Optional Physical Settlement Entitlement on the Put Option Physical Settlement Date; or
- (c) if 'Issuer Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.2, in accordance with Condition 6.2(a) if the Issuer elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 6.2(b) if the Issuer elects for Physical Settlement to apply. Notice of the Issuer's election shall be given to Securityholders no later than the Put Notice Issuer Election Number of Business Days prior to the last day of the Put Notice Period, unless otherwise specified in the Pricing Supplement. If notice of such election is not given, Cash Settlement shall be deemed to have been elected to apply to the Securities; or
- (d) if 'Securityholder Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.2, in accordance with Condition 6.2(a) if the Securityholder elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 6.2(b) if the Securityholder elects for Physical Settlement to apply. The Securityholder must make its settlement election in the relevant Option Exercise Notice.

Notwithstanding anything to the contrary herein, to exercise such option the Securityholder must deposit (in the case of Bearer Securities) the relevant Bearer Securities (together with all unmatured or unexchanged Coupons or Receipts) with any

Paying Agent or (in the case of Registered Securities) the relevant Global Registered Security or Definitive Registered Security representing such Registered Securities with the Registrar or any Transfer Agent at its specified office together with the duly completed irrevocable option exercise notice (the "**Option Exercise Notice**") in the form obtainable from any Paying Agent, the Registrar or any Transfer Agent (as applicable). If the Securities are Cleared Securities, such option may be exercised by the relevant Securityholder giving an Option Exercise Notice to the Issue and Paying Agent through the Relevant Clearing Systems stating the number of Warrants or Exercisable Certificates (as applicable) in respect of which the Put Option is exercised and the relevant Common Depositary, Common Safekeeper, custodian or nominee shall deposit and surrender the relevant Securities in accordance with the Relevant Rules. No transfers of interests in Cleared Securities in respect of which an Option Exercise Notice has been delivered will be valid and an Option Exercise Notice in respect of Cleared Securities must be accompanied by a copy of instructions given to the Relevant Clearing System by the relevant accountholder that the accountholder's account be blocked for such purposes. No Securities so deposited and option exercised may be withdrawn (except as provided in the Master Agency Agreement) without the prior consent of the Issuer.

With respect to Cleared Securities, if 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement (or is elected by the Issuer or Securityholder), the delivery of the duly completed Option Exercise Notice by the Securityholder to the Issue and Paying Agent through the Relevant Clearing Systems shall be deemed to satisfy the condition precedent to settlement of delivery of a Delivery Entitlement Instruction pursuant to Condition 9 (*Payments and deliveries*), provided that such Option Exercise Notice contains all information necessary for the Relevant Clearing System and the Issuer or its agent to effect physical delivery of the relevant Optional Physical Settlement Entitlement.

Notwithstanding anything to the contrary herein, if the Securities are CREST Securities, such option may be exercised by the relevant Securityholder sending an Option Exercise Notice by way of a Dematerialised Instruction to the Operator (or procuring that such an instruction is sent) in the form obtainable from the Issuer or the CREST Agent. Such Option Exercise Notice must state the number of Warrants or Exercisable Certificates (as applicable) in respect of which the Put Option is exercised and irrevocably instruct the Operator to transfer from the Securityholder's account to the appropriate account of the Issuer in CREST the relevant number of Warrants or Exercisable Certificates (as applicable) to be redeemed, provided that the Option Exercise Notice shall not be effective until such transfer to the Issuer's account is complete.

The right to require cancellation of Warrants or Exercisable Certificates that are CREST Securities in accordance with this Condition 6.2 must be exercised in accordance with the CREST Requirements and if there is any inconsistency between the foregoing and the CREST Requirements, the latter shall prevail. No CREST Securities in respect of which such option has been exercised may be withdrawn without the prior consent of the Issuer.

For the avoidance of doubt, if the last day of the relevant Put Notice Period is the same date as the Expiration Date, unless otherwise specified in the Pricing Supplement, the Securities shall be cancelled in accordance with this Condition 6.2.

6.3 Cancellation and/or Adjustment following the occurrence of an Additional Disruption Event or Cancellation at the option of the Issuer or following the occurrence of a Nominal Call Event or Cancellation following the occurrence of a Specified Early Cancellation Event

- (a) If an Additional Disruption Event occurs:
 - (i) The Issuer may request that the Determination Agent determines whether an appropriate adjustment can be made to the Conditions and/or any

other provisions relating to the Securities to account for the economic effect of such Additional Disruption Event on the Securities which would produce a commercially reasonable result and preserve substantially the economic effect to the Securityholders of a holding of the relevant Security. If the Determination Agent determines that an appropriate adjustment or adjustments can be made, the Issuer shall determine the effective date of such adjustment(s), notify the Securityholders of any such adjustment and take the necessary steps to effect such adjustment(s). If the Determination Agent determines that no adjustment that could be made would produce a commercially reasonable result and preserve substantially the economic effect to the Securityholders of a holding of the relevant Security, it shall notify the Issuer of such determination and no adjustment shall be made; or

- (ii) the Issuer may, on giving not less than ten Business Days' irrevocable notice to Securityholders (or such other notice period as may be specified in the Pricing Supplement) (such period the "**Early Cancellation Notice Period**") (such notice an "**Additional Disruption Event Cancellation Notice**"), cancel all of the Securities of the relevant Series on the Early Cancellation Date and pay to each Securityholder, in respect of each Security held by it, an amount equal to the Early Cash Settlement Amount on such date (provided that the Issuer may also, prior to such cancellation of the Securities, make any adjustment(s) to the Conditions or any other provisions relating to the Securities as appropriate in order to (when considered together with the cancellation of the Securities) account for the effect of such Additional Disruption Event on the Securities).
- (b) If (i) 'Call Option' is specified to apply in the Pricing Supplement or (ii) 'Nominal Call Event' is specified to apply in the Pricing Supplement and a Nominal Call Event occurs, the Issuer may, on giving not less than the Issuer Notice Period Number of Business Days' irrevocable notice to Securityholders (such notice a "**Call Cancellation Notice**") (such period the "**Issuer Notice Period**"), provided that if the notice relates to a Call Option such notice is delivered on an Issuer Option Exercise Date within the Issuer Option Exercise Period and cancel all of the Securities of the relevant Series in whole but not in part, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*), as follows:
 - (i) if 'Cash Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.3(b) or is validly elected (or deemed to have been elected) by the Issuer or Securityholder pursuant to Condition 6.3(b)(iii) or (iv), at its Optional Cash Settlement Amount on the relevant Optional Cash Cancellation Date; or
 - (ii) if 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.3(b) or is validly elected by the Issuer or Securityholder pursuant to Condition 6.3(b)(iii) or (iv), by delivery of the Optional Physical Settlement Entitlement on the applicable Optional Physical Cancellation Date; or
 - (iii) if 'Issuer Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.3(b), in accordance with Condition 6.3(b)(i) if the Issuer elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 6.3(b)(ii) if the Issuer elects for Physical Settlement to apply. Unless otherwise specified in the Pricing Supplement, the Issuer's election will be specified in the Call Cancellation Notice. If no election is made in the Call Cancellation Notice, Cash Settlement shall be deemed to have been elected to apply to the Securities; or

- (iv) if 'Securityholder Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.3(b), in accordance with Condition 6.3(b)(i) if the Securityholder elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 6.3(b)(ii) if the Securityholder elects for Physical Settlement to apply in accordance with Condition 7.1 (*Settlement at the option of Securityholder*).

For the avoidance of doubt, if the last day of the Issuer Notice Period is the same date as the Expiration Date, unless otherwise specified in the Pricing Supplement, the Securities shall be cancelled in accordance with this Condition 6.3.

In the event that any option of the Issuer is exercised with respect to some but not all of the Securities of any Series and such Securities are Cleared Securities, the rights of accountholders with the Relevant Clearing System in respect of the Securities will be governed by the standard procedures and Relevant Rules (to be reflected in the records of the Relevant Clearing System as either a pool factor or a reduction in nominal amount or number, as applicable at their discretion).

- (c) If a Specified Early Cancellation Event occurs, the Issuer may, or shall if 'Automatic Early Cancellation' is specified as applicable in the Pricing Supplement, on giving not less than 15 Business Days' irrevocable notice (a "**Specified Early Cancellation Notice**") to Securityholders (or such other notice period as may be specified in the Pricing Supplement) (such period the "**Specified Early Cancellation Notice Period**"), subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*), cancel each Security (in whole or in part):
 - (i) if 'Cash Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.3(c) or is validly elected (or deemed to have been elected) by the Issuer or the Securityholder pursuant to Condition 6.3(c)(iii) or (iv), at its Specified Early Cash Settlement Amount together with accrued interest on the Specified Early Cash Cancellation Date; or
 - (ii) if 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.3(c) or is validly elected by the Issuer or the Securityholder pursuant to Condition 6.3(c)(iii) or (iv), by delivery of the Specified Early Physical Cancellation Entitlement on the Specified Early Physical Cancellation Date; or
 - (iii) if 'Issuer Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.3(c), in accordance with Condition 6.3(c)(i) if the Issuer elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 6.3(c)(ii) if the Issuer elects for Physical Settlement to apply. Unless otherwise specified in the Pricing Supplement, the Issuer's election will be specified in the Specified Early Cancellation Notice. If no election is made in the Specified Early Cancellation Notice, Cash Settlement shall be deemed to have been elected to apply to the Securities; or
 - (iv) if 'Securityholder Settlement Option' is specified as the Settlement Method in the Pricing Supplement for the purposes of this Condition 6.3(c), in accordance with Condition 6.3(c)(i) if the Securityholder elects (or is deemed to have elected) for Cash Settlement to apply or in accordance with Condition 6.3(c)(ii) if the Securityholder elects for

Physical Settlement to apply in accordance with Condition 7.1 (*Settlement at the option of Securityholder*).

6.4 **Exercise and cancellation procedure**

(a) **Exercise**

Unless otherwise specified in the Pricing Supplement or automatically exercised in accordance with Condition 6.5 (*Automatic Exercise*), a Securityholder wishing to exercise any of its Securities (other than CREST Securities) on an Eligible Exercise Date must, on or prior to (i) 10:00 a.m. London time, if the Securities are not Cleared Securities or (ii) 10:00 a.m., Luxembourg or Brussels time, if the Securities are Cleared Securities (as appropriate for the Relevant Clearing System), on such Eligible Exercise Date, deposit (in the case of Bearer Securities) the relevant Bearer Securities (together with all unmatured or unexchanged Coupons or Receipts, as the case may be) with any Paying Agent or (in the case of Registered Securities) the relevant Global Registered Security or Definitive Registered Security representing such Registered Securities with the Registrar or any Transfer Agent at its specified office, together with a duly completed irrevocable exercise notice (a "**Security Exercise Notice**") in the form obtainable from any Paying Agent, the Registrar or any Transfer Agent (as applicable). If Units are specified in the Pricing Supplement, the Securities may only be exercised in Units. Each Unit will consist of the number of Warrants or Exercisable Certificates specified in the Pricing Supplement.

If the Securities are Cleared Securities, a Warrant or Exercisable Certificate may be exercised by the relevant Securityholder giving a Security Exercise Notice to the Issue and Paying Agent through the Relevant Clearing Systems in accordance with the Relevant Rules stating the number of Securities or, if applicable, Units to be exercised. No transfers of interests in Cleared Securities in respect of which a Security Exercise Notice has been delivered will be valid and a Security Exercise Notice in respect of Cleared Securities must be accompanied by a copy of instructions given to the Relevant Clearing System by the relevant accountholder that the accountholder's account be blocked for such purposes.

If 'Securityholder Settlement Option' is specified as applicable in the Pricing Supplement, the Securityholder must specify its settlement election in the relevant Security Exercise Notice. If no settlement election is so specified in the relevant Security Exercise Notice, Cash Settlement shall be deemed to have been elected to apply to the Securities.

If 'Physical Settlement' is specified in the Pricing Supplement or elected by the Securityholder in the relevant Security Exercise Notice, settlement of the Securities shall be subject to Condition 7.2 (*Physical Settlement by delivery of the Entitlement*) and the delivery of a Delivery Entitlement Instruction. A separate Delivery Entitlement Instruction will not be required if the relevant Security Exercise Notice contains all information necessary for the Relevant Clearing System and the Issuer or its agent to effect physical delivery of the relevant Exercise Physical Settlement Entitlement.

If a Security Exercise Notice is delivered after 10:00 a.m., Luxembourg or Brussels time (as appropriate), on a given Eligible Exercise Date, it shall be deemed to have been delivered, as the case may be, on the next Eligible Exercise Date (and, if there is no such date, such Security Exercise Notice shall be of no effect).

If CREST Securities are not automatically exercised in accordance with Condition 6.5 (*Automatic Exercise*), such CREST Securities may be exercised by the relevant Securityholder sending a Security Exercise Notice on or prior to the CREST Cut-off Time on an Eligible Exercise Date by way of a

Dematerialised Instruction to the Operator (or procuring that such an instruction is sent) in the form obtainable from the Issuer or the CREST Agent. Such Security Exercise Notice must state the number of Securities or, if applicable, Units being exercised and irrevocably instruct the Operator to transfer from the Securityholder's account to the appropriate account of the Issuer in CREST the relevant Securities to be exercised, provided that the Security Exercise Notice shall not be effective until such transfer into the Issuer's account is complete.

If a Security Exercise Notice is delivered in respect of CREST Securities after the CREST Cut-off Time on a given Eligible Exercise Date, it shall be deemed to have been delivered, as the case may be, on the next Eligible Exercise Date (and, if there is no such date, such Security Exercise Notice shall be of no effect).

The right to exercise such Securities in accordance with this Condition 6.4 must be exercised in accordance with the CREST Requirements and if there is any inconsistency between the foregoing and the rules and procedures of CREST, the latter shall prevail. No CREST Securities in respect of which such option has been exercised may be withdrawn without the prior consent of the Issuer.

Delivery of a Security Exercise Notice on any Eligible Exercise Date shall constitute an irrevocable election by the relevant Securityholder to exercise the Securities specified therein and, thereafter, the exercising Securityholder may not transfer its Securities. In addition, the Securityholder must undertake to pay all Taxes, Settlement Expenses and any Exercise Price and any other applicable amounts, in relation to the Securities (or portion thereof) being exercised.

Any person exercising a Security (other than a Security sold within the United States pursuant to Rule 144A) will be required to represent, inter alia, that it is not a U.S. person, the Security is not being exercised within the United States or on behalf of a U.S. person and no cash, securities or other property have been or will be delivered within the United States or to, or for the account or benefit of, a U.S. person in connection with any exercise thereof.

(b) Relevant Settlement Method

The Pricing Supplement will specify whether the Warrants or Exercisable Certificates are Put Securities or Call Securities.

If an Actual Exercise Date or an Automatic Exercise Date occurs, each of the relevant Securities will, subject to this Condition 6 and Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*), be exercised as follows:

- (i) if 'Cash Settlement' is specified as the Settlement Method in the Pricing Supplement or is elected (or deemed to have been elected) by the Issuer or Securityholder pursuant to Condition 6.4(b)(iii) or (iv), at its Exercise Cash Settlement Amount on the relevant Exercise Cash Settlement Date; or
- (ii) if 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement or is elected by the Issuer or Securityholder pursuant to Condition 6.4(b)(iii) or (iv) by delivery of the Exercise Physical Settlement Entitlement on the applicable Exercise Physical Settlement Date; or
- (iii) if 'Issuer Settlement Option' is specified as the Settlement Method in the Pricing Supplement, in accordance with Condition 6.4(b)(i) if the Issuer elects for Cash Settlement to apply or in accordance with Condition 6.4(b)(ii) if the Issuer elects for Physical Settlement to apply. The Issuer's election will be notified to the relevant Securityholder no later than ten

Business Days prior to the last day of the Exercise Notice Period. If no election is made, Cash Settlement shall be deemed to have been elected to apply to the Securities; or

- (iv) if 'Securityholder Settlement Option' is specified as the Settlement Method in the Pricing Supplement, in accordance with Condition 6.4(b)(i) if the Securityholder elects (or is deemed to elect) for Cash Settlement to apply or in accordance with Condition 6.4(b)(ii) if the Securityholder elects for Physical Settlement to apply.

6.5 Automatic Exercise

This Condition 6.5 only applies to Securities for which 'Automatic Exercise' is specified as applying in the Pricing Supplement.

(a) Application of Automatic Exercise

If an Actual Exercise Date does not occur on or prior to the Expiration Date and the Securities are determined by the Determination Agent to be In-The-Money, then such Securities will be automatically exercised (subject to the Exercise Parameters, if any, specified in the Pricing Supplement) on the Expiration Date (in each case, an "Automatic Exercise Date").

(b) Conditions to Settlement following Automatic Exercise

If an Automatic Exercise Date occurs with respect to any Security, the Issuer will, as soon as reasonably practicable thereafter, notify Securityholders of the occurrence of such Automatic Exercise Date (such notice an "**Automatic Exercise Notice**").

For the avoidance of doubt, to receive any relevant Settlement Amount or Entitlement relating to an Automatic Exercise Date, the relevant Securityholder must satisfy all relevant conditions to settlement, including, without limitation, (i) depositing (in the case of Bearer Securities) the relevant Bearer Securities with any Paying Agent or (in the case of Registered Securities) the relevant Global Registered Security or Definitive Registered Security representing such Registered Securities with the Registrar or any Transfer Agent at its specified office, (ii) the condition to settlement in Condition 9.6 (*Taxes, Settlement Expenses and Exercise Price Conditions to Settlement*), and/or (iii) if 'Physical Settlement' is specified in the Pricing Supplement or elected, delivery of a valid and complete Delivery Entitlement Instruction.

If the Securities are Cleared Securities, this Condition 6.5 may be satisfied by the relevant Securityholder giving a Security Exercise Notice in accordance with the Relevant Rules to the Issue and Paying Agent through the Relevant Clearing Systems stating the number of Securities or, if applicable, Units in respect of which Automatic Exercise has occurred together with payment and delivery instructions, as applicable, for payment to the Issuer of the relevant Exercise Price, Taxes and any Settlement Expenses and/or delivery instructions for any Entitlement, as applicable.

Notwithstanding anything to the contrary herein, if the Securities are CREST Securities, the relevant conditions to settlement for the purpose of this Condition 6.5 may be satisfied by the relevant Securityholder sending a Security Exercise Notice by way of a Dematerialised Instruction to the Operator (or procuring that such an instruction is sent) stating the number of Securities or, if applicable, Units in respect of which Automatic Exercise has occurred together with payment instructions for payment to the Issuer of the relevant Exercise Price, Taxes and any Settlement Expenses.

For the avoidance of doubt, Condition 7.3 (*Conditions to settlement*) shall apply to Warrants and Exercisable Certificates in respect of which an Automatic

Exercise Date occurs but in relation to which all conditions to settlement to be satisfied by a Securityholder are not satisfied in full on or prior to the Security Settlement Cut-off Date.

6.6 **Maximum and Minimum Exercise Requirements**

With respect to the Securities of any Series, additional requirements in respect of their exercise may be specified in the Pricing Supplement, including, but not limited to, the following:

(a) **Restrictions on Securities Exercisable**

If the Pricing Supplement specifies a Minimum Number, the number of Securities exercisable by any Securityholder on any Actual Exercise Date or, where Automatic Exercise applies, the number of Securities held by any Securityholder on the Automatic Exercise Date (in each case, as determined by the Issue and Paying Agent in good faith and in a commercially reasonable manner) must not be less than such Minimum Number and, if a number greater than the Minimum Number, must be an integral multiple of such Minimum Number.

Any Security Exercise Notice which purports to exercise Securities in an amount that is less than such Minimum Number shall be void and of no effect and any Automatic Exercise Date which occurs shall not be deemed to have occurred with respect to Securities held by a Securityholder on the Automatic Exercise Date where the number of such Securities (in each case, as determined by the Issue and Paying Agent in good faith and in a commercially reasonable manner) is less than such Minimum Number, in each case unless the Issuer agrees otherwise.

(b) **Daily Maximum Number in respect of American Style Securities and Bermudan Style Securities**

If the Issue and Paying Agent determines acting in good faith and in a commercially reasonable manner that Security Exercise Notice(s) given (or deemed to be given) pursuant to Condition 6.4 (*Exercise and cancellation procedure*) or Condition 6.5 (*Automatic Exercise*) on any Eligible Exercise Date in respect of a Series of American Style Securities or Bermudan Style Securities are, in aggregate, in respect of more than the Maximum Daily Number (if any), then the Issue and Paying Agent shall, unless the Issuer otherwise directs:

- (i) deem such Security Exercise Notices to apply on such Exercise Business Day in respect of the exercise of a number of Securities equal to the Daily Maximum Number of such Securities to which they relate (selected, in each case, by the Issue and Paying Agent on a pro rata basis, to the extent possible, failing which such selection to be at the Issue and Paying Agent's discretion such discretion exercised in good faith and in a commercially reasonable manner, and in accordance with the Relevant Rules if the Securities are Cleared Securities and, in each case, to ensure that such Securityholder or group of Securityholders submitting a Security Exercise Notice is, notwithstanding the provisions of this Condition 6.6(b), complying with Condition 6.6(a); and
- (ii) thereafter, deem each successive Exercise Business Day to be one on which a Security Exercise Notice has been delivered for the purpose of this Condition 6.6 in respect of the remaining Securities (not exceeding such Daily Maximum Number on any Exercise Business Day) until all Securities to which the original Security Exercise Notices have been exercised, provided that where any deemed Actual Exercise Date would thereby fall after the Expiration Date, such Actual Exercise Date shall be deemed to be the new Expiration Date,

in any case where more than the Daily Maximum Number of American Style Securities or Bermudan Style Securities are exercised on the same day by Securityholder(s), the order of settlement in respect of such Securities shall be at the discretion of the Issue and Paying Agent such discretion exercised in good faith and in a commercially reasonable manner (in consultation with the Issuer).

6.7 Time

All references in this Condition 6 to 'Luxembourg or Brussels time' shall, where the Securities are Cleared Securities and the Relevant Clearing System is not Clearstream or Euroclear respectively, be deemed to refer as appropriate to the time in the city where the relevant clearing system is located.

7. Settlement

This condition sets out the procedure for cash and physical settlement, provides for what happens if there is a disruption or other event affecting delivery or payment, details the conditions that need to be satisfied before settlement will occur and how settlement may be postponed and any requirements as to documentation and timings.

7.1 Settlement at the option of Securityholder

If 'Securityholder Settlement Option' is specified as the Settlement Method in the Pricing Supplement, to exercise such settlement option each Securityholder must:

- (a) deposit and surrender (in the case of Bearer Securities) the relevant Bearer Securities (together with all unmatured or unexchanged Talons and Coupons or Receipts) with any Paying Agent or, with respect to Cleared Securities, the Issue and Paying Agent or (in the case of Registered Securities) the relevant Registered Securities with the Registrar or any Transfer Agent at its specified office, provided that if the Securities are Cleared Securities, the relevant Common Depositary, Common Safekeeper, custodian or nominee shall make such deposit and surrender through the Relevant Clearing System in accordance with the Relevant Rules; and
- (b) subject to Condition 7.1(c), deposit with any Paying Agent, Registrar or Transfer Agent, a duly completed settlement irrevocable option election notice (a "Settlement Election Notice") in the form obtainable from any Paying Agent, the Registrar or any Transfer Agent (as applicable) no later than ten Business Days prior to the Redemption Date, the last day of the Issuer Notice Period or Specified Early Redemption Notice Period; or
- (c) with respect to Conditions 5.2 (*Early redemption at the option of Securityholders*) and 6.3 (*Cancellation and/or Adjustment following the occurrence of an Additional Disruption Event or Cancellation at the option of the Issuer or following the occurrence of a Nominal Call Event or Cancellation following the occurrence of a Specified Early Cancellation Event*) only, make an irrevocable election with respect to settlement in the relevant Option Exercise Notice or Security Exercise Notice, as applicable and such notice shall be deemed to also be a Settlement Election Notice.

If no such settlement election is made in a Settlement Election Notice, Option Exercise Notice or Security Exercise Notice, the relevant Securityholder will be deemed to have elected for Cash Settlement to apply. No Security so deposited and surrendered and Settlement Election Notice, Option Exercise Notice or Security Exercise Notice so deposited may be withdrawn (except as provided in the Master Agency Agreement) without the prior consent of the Issuer.

7.2 Physical Settlement by delivery of the Entitlement

(a) Delivery of Entitlement

The following provisions apply to the delivery of all Entitlements in respect of Securities unless otherwise specified in the Pricing Supplement.

- (i) The Issuer shall, subject to the remaining provisions of this Condition 7 and Condition 8 (*Calculations and publication*) and Condition 9 (*Payments and deliveries*), on any relevant Physical Delivery Date, deliver (or procure delivery on its behalf) of the relevant Entitlement in respect of each Security or Unit to such account in the Relevant Clearing System notified by the relevant Securityholder to the Issuer in the relevant Delivery Entitlement Instruction or Exercise Notice, as applicable, at the risk and expense of the relevant Securityholder in accordance with the Relevant Rules. If a Securityholder does not provide the Issuer with sufficient instructions in a timely manner to enable the Issuer (directly or acting through such person (including any of its Affiliates) as it may procure) and/or the Relevant Clearing System, if applicable, to effect any required delivery of the Entitlement, the due date for such delivery shall be postponed accordingly. The Issuer and the Relevant Clearing System, if applicable, shall determine whether any instructions received by it are sufficient and whether they have been received in time to enable delivery on any given date. As used in this Condition 7.2, "**delivery**" means, in relation to any Entitlement, the carrying out of the steps required of the Issuer (or such person (including any of its Affiliates) as it may procure to make the relevant delivery on its behalf) in order to effect the transfer of the relevant Entitlement and "**deliver**", "**delivered**" and "**deliverable**" shall be construed accordingly. The Issuer (or such person (including any of its Affiliates) as it may procure to make the relevant delivery on its behalf) shall not be responsible for any delay or failure in the delivery of any Entitlement once such steps have been carried out, whether resulting from settlement periods of clearing systems, acts or omissions of registrars or otherwise and shall have no responsibility for the lawfulness of the acquisition or transfer of the Entitlement or any interest therein by any Securityholder or any other person.
- (ii) No delivery by (or on behalf of) the Issuer of a fraction of any component comprising the Entitlement shall be made. Securities (or, if Units are specified in the Pricing Supplement, Units, as the case may be) redeemed or exercised at the same time by the same Securityholder will be aggregated for the purpose of determining the aggregate Entitlement to be delivered, provided that the aggregate Entitlements in respect of the same Securityholder will be rounded down to the nearest whole unit of the relevant Reference Asset(s) or other component(s) of the Entitlement in such manner as the Determination Agent shall determine. Where the Entitlement would include a fraction of any component comprising the Entitlement, the relevant Securityholder will be entitled to receive an amount in cash in lieu of such fraction as determined by the Determination Agent.
- (iii) No Securityholder will be entitled to receive dividends declared or paid in respect of any component of the relevant Entitlement or to any other rights relating to or arising out of any such component of the Entitlement if the record date for the relevant dividend or relevant right in respect of such components and Entitlement falls before the relevant Physical Delivery Date.
- (iv) If any Exercise Price, Taxes, Settlement Expenses or any other amounts payable by the relevant Securityholder to the Issuer have not been

credited to the relevant Bank Account of the Issue and Paying Agent (in favour of the Issuer) prior to the relevant Physical Delivery Date, then the Issuer shall be under no obligation to deliver (or procure delivery on its behalf) the Entitlement or make any payment of any nature to the relevant Securityholder in respect of the Securities being redeemed or exercised, and the Security Exercise Notice and related Delivery Entitlement Instruction, as the case may be, delivered in respect of such Securities shall thereafter be null and void for all purposes.

- (v) The Issuer will endeavour to deliver (or procure delivery on its behalf) the relevant Entitlement to the Securityholder on the relevant Physical Delivery Date. In the event that a Securityholder requests that delivery of the Entitlement be made at a location or in a method that is different from that specified in the Pricing Supplement, the Issuer may (but is not obliged to), provided that no additional unreimbursed costs are incurred, seek to deliver (or procure delivery on its behalf) the Entitlement to such location and/or by such method. The Issuer shall, subject as provided below, on the relevant Physical Delivery Date, deliver (or procure delivery on its behalf) the Transfer Documentation relating to the Entitlement (or, in the case of a Reference Asset that is an equity unit, the Transfer Documentation in respect of such equity unit) to or to the order of the Securityholder or to such bank or broker as the Securityholder has specified in the relevant Delivery Entitlement Instruction.
 - (vi) All Entitlements will be delivered at the risk of the relevant Securityholder.
- (b) **Settlement Disruption Event**

If, in the opinion of the Determination Agent, delivery of an Entitlement or any portion thereof is (or is likely to become) impossible or impracticable by reason of a Settlement Disruption Event having occurred and continuing on the relevant Physical Delivery Date (the assets comprising such Entitlement or portions thereof (the "**Affected Assets**")), then such Physical Delivery Date shall be postponed to the first following Relevant Settlement Day in respect of which there is no such Settlement Disruption Event, provided that:

- (i) the Issuer shall attempt to deliver (or procure delivery on its behalf) any portion of the Entitlement which does not comprise Affected Assets, on the originally designated Physical Delivery Date;
- (ii) the Issuer may elect to satisfy its obligations in respect of the relevant Security by delivering (or procuring delivery on its behalf) some or all of the Affected Assets using such other commercially reasonable manner as it may select and in such event the relevant Physical Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner; and
- (iii) in respect of any Affected Assets, in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect to satisfy its obligations in respect of the relevant Security by payment by the Issuer (or any person (including any of its Affiliates) as it may procure to make the relevant payment on its behalf), to the relevant Securityholder of the Disruption Cash Settlement Price on the Disruption Cash Settlement Date.

The Determination Agent shall give notice as soon as practicable to the Securityholders that a Settlement Disruption Event has occurred and payment of the Disruption Cash Settlement Price will be made, subject to the remaining provisions of this Condition 7 and Condition 8 (*Calculations and publication*)

and Condition 9 (*Payments and deliveries*), in such manner as shall be notified. No Securityholder shall be entitled to any additional amount in the event of any delay in the delivery of the Entitlement or payment of the Disruption Cash Settlement Price due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer, any person (including any of its Affiliates) as it may procure to make the relevant delivery on its behalf, and/or the Determination Agent.

(c) **Entitlement Substitution**

Where 'Entitlement Substitution' is specified in the Pricing Supplement, if the Issuer determines that (i) all or part of the Entitlement comprises securities, instruments or obligations that are not freely transferable, and/or (ii) it is not able to (or reasonably expects not to be able to) acquire all or part of the Entitlement in the secondary market in time to deliver the Entitlement when due under the Securities as a result of illiquidity, and/or (iii) the price of all or part of the Entitlement has been materially affected as a result of illiquidity (each an "**Entitlement Substitution Event**"), (in each case, such components of the Entitlement constituting the "**Affected Entitlement Components**"), the Issuer may elect to either:

- (i) substitute for such Affected Entitlement Components, by delivering (or procuring delivery on its behalf) an equivalent value of such other securities, instruments or obligations which the Determination Agent determines are freely transferable and/or not affected by illiquidity, as applicable (the "**Substitute Asset**" or the "**Substitute Assets**", as the case may be); or
- (ii) not deliver (nor procure delivery on its behalf) the Affected Entitlement Components to the relevant Securityholders, but, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*), in lieu thereof to make payment of the Alternate Cash Amount to the relevant Securityholders on the Alternate Cash Amount Settlement Date.

Notification of the determination of an Entitlement Substitution Event and any such election and any relevant Substitute Asset(s), Alternate Cash Amount and Alternate Cash Amount Settlement Date will be given to Securityholders by the Issuer as soon as reasonably practicable.

(d) **Liability**

Redemption or exercise of the Securities, payments by the Issuer (or such person (including any of its Affiliates) as it may procure to make the relevant payments on its behalf) and any Agent and any delivery of an Entitlement, in whole or in part, by or on behalf of the Issuer and/or any Agent will be subject in all cases to all applicable fiscal and other laws, regulations and practices in force at such time (including, without limitation, any relevant exchange control laws or regulations and the Relevant Rules) and none of the Issuer, any of its Affiliates, the Relevant Clearing System or any Agent shall incur any liability whatsoever if it is unable to effect any payments or deliveries contemplated, after using all reasonable efforts, as a result of any such laws, regulations and practices. None of the Issuer, any of its Affiliates or any Agent shall under any circumstances be liable for any acts or defaults of the Relevant Clearing System in the performance of their respective duties in relation to the Securities or, in relation to the delivery of the Entitlement, the acts or defaults of any relevant Exchange.

7.3 **Conditions to settlement**

If the Issuer determines that any condition to settlement to be satisfied by a Securityholder has not been satisfied in respect of the Securities on or prior to the date on which settlement would otherwise have been scheduled to occur, payment or delivery of the relevant Settlement Amount or Entitlement shall not become due until the date on which all conditions to settlement have been satisfied in full (such Settlement Amount or Entitlement the "**Conditional Settlement Amount**"). No additional amounts shall be payable or deliverable as a result of any such delay or postponement.

The conditions to settlement to be satisfied by a Securityholder include, without limitation, (a) receipt of all instructions, certifications and information by the Issuer, the Issue and Paying Agent and the Relevant Clearing System, as applicable, required by the Issuer, the Issue and Paying Agent and/or the Relevant Clearing System to effect payment or delivery (including on behalf of the Issuer) of the relevant Settlement Amount or Entitlement to the Securityholder (or to its order) within the required time period, (b) the condition to settlement in Condition 9.6 (*Taxes, Settlement Expenses and Exercise Price Conditions to Settlement*), (c) the deposit of a duly completed Exercise Notice, Settlement Election Notice, Delivery Entitlement Instruction or any other applicable notice in accordance with the Conditions, as applicable, and (d) the deposit, presentation or surrender of the relevant Security, as applicable.

If the conditions to settlement to be satisfied by a Securityholder have not been satisfied by (i) 10:00 a.m., London time, if the Securities are not Cleared Securities or (ii) 10:00 a.m., Luxembourg or Brussels time, or such other time as determined by the Determination Agent as appropriate for the Relevant Clearing System, on the day that is the number of calendar days equal to the Settlement Number following the Redemption Date, the Final Physical Redemption Date, the Optional Cash Redemption Date, the Optional Physical Redemption Date, the Optional Cash Cancellation Date, the Early Cash Redemption Date, the Specified Early Cash Redemption Date, the Specified Early Physical Redemption Date, the Early Cancellation Date, the Early Physical Cancellation Date, the Actual Exercise Date, the Automatic Exercise Date or the Physical Delivery Date, as applicable (the "**Security Settlement Cut-off Date**") as determined by the Determination Agent, the relevant conditions to settlement will not be capable of being satisfied. With effect from the Security Settlement Cut-off Date, the relevant Securityholder shall have no right to receive any payment or delivery of the Conditional Settlement Amount and shall have no claim against the Issuer in relation thereto.

7.4 **Postponement of payments and settlement**

If the interest payable in respect of any Interest Calculation Period, any Settlement Amount or any Entitlement is determined by reference to the Valuation Date and/or Averaging Dates and such Valuation Date and/or Averaging Date(s) is affected by a market disruption, price disruption or other disruption as specified in any applicable Relevant Annex(es) or the Pricing Supplement, such Valuation Date and/or Averaging Date(s) may be postponed as specified in any applicable Relevant Annex(es) or the Pricing Supplement. In connection with the postponement of any Valuation Date and/or Averaging Date(s), the relevant Interest Payment Date, the Redemption Date, the Final Physical Redemption Date, the Optional Cash Redemption Date, the Optional Cash Cancellation Date, the Optional Physical Redemption Date, the Early Cash Redemption Date, the Specified Early Cash Redemption Date, the Specified Early Cash Cancellation Date, the Specified Early Physical Redemption Date, the Specified Early Physical Cancellation Date, the Early Cancellation Date, the Early Physical Cancellation Date, the Exercise Cash Settlement Date, the Exercise Physical Settlement Date or the Physical Delivery Date, as applicable, may be postponed as specified in any applicable Relevant Annex(es) or the Pricing Supplement. No additional amounts shall be payable or deliverable by the Issuer because of such postponement.

8. **Calculations and publication**

This condition sets out how numbers used in calculations will be rounded, when calculations of amounts to be paid or delivered, instalment amounts or rates will be determined and notified to Securityholders and other interested parties and what happens if the payment or delivery date is not a Business Day. This condition also provides what happens where the Calculation Amount is expressed to be per Security and if a Reference Asset is denominated in a currency other than the Settlement Currency.

8.1 Calculations

For the purposes of any calculations required pursuant to the Conditions (unless otherwise specified in any applicable Relevant Annex(es) or the Pricing Supplement), (a) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred thousandth of a percentage point (with 0.000005 of a percentage point being rounded up), (b) all figures shall be rounded to seven significant figures (provided that if the eighth significant figure is a 5 or greater, the seventh significant figure shall be rounded up) and (c) all currency amounts that fall due and payable shall be rounded to the nearest unit of such Currency (with half a unit being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes, "unit" means the lowest amount of such Currency that is available as legal tender in the country of such Currency.

8.2 Determination and publication of Interest Rates, Interest Amounts, Instalment Amounts and Amounts in respect of Settlement

As soon as practicable on such date as the Issue and Paying Agent or, as applicable, the Determination Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation in respect of or in connection with any Security, such Agent shall determine such rate and calculate the relevant interest in respect of the Securities for the relevant Interest Calculation Period and calculate any Settlement Amount, Entitlement, Instalment Amounts or any other relevant amount with respect to a Settlement Method, obtain any required quotation or make such determination or calculation, as the case may be, and cause the interest, Interest Rate and Interest Amount, as applicable, for each Interest Calculation Period and the relevant Interest Payment Date and, if required to be calculated, any Settlement Amount, Entitlement, Instalment Amounts or amount in lieu (in whole or in part) of such Entitlement to be notified to the Issuer, each of the Paying Agents, the Securityholders, any other Agent in respect of the Securities that is to make a payment, delivery or further calculation or determination upon receipt of such information and, if the Securities are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination.

Where any Interest Payment Date or Interest Period End Date is subject to adjustment pursuant to Condition 8.4 (*Business Day Convention*), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Calculation Period. If interest-bearing Securities become due and payable pursuant to Condition 10 (*Events of Default*), the accrued interest and the Interest Rate payable in respect of the Securities shall nevertheless continue to be calculated as previously in accordance with Condition 4 (*Interest*) but no publication of the Interest Rate or the Interest Amount so calculated need be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Issue and Paying Agent or, as applicable, the Determination Agent shall (in the absence of manifest error) be final and binding upon all parties.

Where Valuation Date(s) and/or Averaging Date(s) are specified as applicable to the Securities in any applicable Relevant Annex(es) and/or the Pricing Supplement, the interest, Settlement Amounts and/or Entitlements with respect to such Securities may be determined by reference to the level, price, value or performance of one or more Reference Assets and/or such factor as compared to a specified level, price, value,

barrier, threshold, trigger or other factor, as specified in any applicable Relevant Annex(es) and/or applicable Pricing Supplement on such Valuation Date(s) and/or Averaging Date(s).

8.3 Calculation Amount

(a) General

If the Settlement Amount or Entitlement relating to a Security is specified or is to be determined by reference to the Calculation Amount per Security specified in the Pricing Supplement, then, on each occasion on which such Security is redeemed or exercised in part, the corresponding Settlement Amount or Entitlement shall be deemed to have been reduced by an amount proportional to the nominal amount or portion of the Security so redeemed or exercised with effect from the date of such partial reduction or exercise.

(b) Notes and Calculation Amount per Security

Notwithstanding anything to the contrary in the Conditions or the Master Agency Agreement:

- (i) where the Securities are Notes in the form of Definitive Securities and the Pricing Supplement specifies a Calculation Amount per Security in addition to one or more Specified Denominations, then each calculation of an amount payable in respect of a Note hereunder shall be made on the basis of the relevant Calculation Amount per Security and the amount payable on any particular Note shall be equal to the product of (i) the amount produced by such calculation (after applying any applicable rounding in accordance with the Conditions) and (ii) the Calculation Amount Factor of that particular Note, where "**Calculation Amount Factor**" means the number equal to the Specified Denomination of the relevant Note divided by the relevant Calculation Amount per Security;
- (ii) where the Securities are in global form or uncertificated registered form, on any date each calculation of a cash amount payable in respect of a Security hereunder shall be based on the aggregate nominal amount or number of all such Securities outstanding on such date (or the relevant affected portion thereof), the resulting amount being rounded in accordance with the method provided in Condition 8.1 (*Calculations*) above and distributed in accordance with the applicable rules of the Relevant Clearing System or CREST, as applicable.

8.4 Business Day Convention

If (a) there is no numerically corresponding day of the calendar month in which an Interest Payment Date or an Interest Period End Date should occur or (b) if any date which is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then such date will be adjusted according to the Business Day Convention specified in the Pricing Supplement. If the Business Day Convention is specified to be:

- (i) the 'Following', such date shall be postponed to the next day that is a Business Day;
- (ii) the 'Modified Following', such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day;
- (iii) the 'Nearest', such date will be the first preceding day that is a Business Day if the relevant date otherwise falls on a day other than a Sunday or a

Monday and will be the first following day that is a Business Day if the relevant date otherwise falls on a Sunday or a Monday; or

- (iv) the 'Preceding', such date shall be brought forward to the immediately preceding Business Day.

For the avoidance of doubt, an Interest Payment Date and an Interest Period End Date may be adjusted in accordance with different Business Day Conventions. Where no business day convention is specified in respect of any Interest Payment Date, Condition 9.7 (*Payment and Securities*) shall apply.

8.5 **Currency**

Where the prices for one or more Reference Assets are quoted in a Currency other than the Settlement Currency, the Determination Agent shall use the Exchange Rate to convert such prices into the Settlement Currency, at such time or times and on such dates as the Determination Agent deems appropriate.

9. **Payments and deliveries**

This condition sets out the mechanics for payment and delivery of amounts due under the Securities and details of deductions for taxes, settlement expenses or any other amounts.

9.1 **Definitive Bearer Securities**

Payments of principal and interest and deliveries of any Entitlement in respect of Definitive Bearer Securities will, subject as mentioned below, be made against and subject to the condition to settlement, presentation and surrender (or, in the case of part payment or delivery of any sum or Entitlement due, endorsement) of the relevant Receipts (in the case of payments of Instalment Amounts other than on the due date for redemption and provided that the Receipt is presented for payment together with its relevant Note), the relevant Definitive Bearer Securities (in the case of payments of principal and, in the case of interest, as specified in Condition 9.5(c) (*Interest after Redemption*)) or Coupons (in the case of interest, save as specified in Condition 9.5(c) (*Interest after Redemption*)), as the case may be, at the specified office of any Paying Agent outside the United States (a) if a payment, by a cheque payable in the relevant currency drawn on, or, at the option of the holder, by transfer to an account (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) denominated in such currency with, an Account Bank, subject to certification of non-US beneficial ownership, as applicable or (b) if a delivery, in the manner notified to Securityholders.

Holders of Definitive Bearer Securities will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any such Security as a result of a transfer made in accordance with this Condition 9.1 arriving in such holder's account after the due date for payment.

A record of each payment and delivery made in respect of a Definitive Bearer Security of any Series will be made on the relevant Definitive Bearer Security by or on behalf of the Issue and Paying Agent, and such record shall be prima facie evidence that the payment or delivery in question has been made.

Notwithstanding the foregoing, if any Definitive Bearer Securities are denominated in US dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Definitive Bearer Securities in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer.

9.2 **Definitive Registered Securities**

Payments of principal (which for the purposes of this Condition 9.2 shall include final Instalment Amounts but not other Instalment Amounts) and deliveries of any Entitlement in respect of each Definitive Registered Security will be made against and subject to the condition to settlement, presentation and surrender of the relevant Definitive Registered Security at the specified office of the Registrar or any of the Transfer Agents and in the manner provided in the immediately following paragraph below.

Payments of interest (which for the purposes of this Condition 9.2 shall include all Instalment Amounts other than final Instalment Amounts) in respect of each Definitive Registered Security will be made on the relevant due date or next succeeding Business Day to the Securityholder (or the first named of joint Securityholders) of the Definitive Registered Security appearing in the Register at the close of business on the relevant Record Date. Payments of interest on each Definitive Registered Security will be made in the relevant currency by cheque drawn on an Account Bank and mailed to the holder (or to the first-named of joint holders) of such Definitive Registered Security at its address appearing in the Register. Upon application in writing by the holder in accordance with Condition 16.2 (*To the Issuer and the Agents*) to the specified office of the Registrar or any Transfer Agent before the Record Date, such payment of interest may be made by electronic transfer to an account in the relevant currency maintained by the payee with an Account Bank. Delivery of any Entitlement will be made in the manner notified to Securityholders.

9.3 **Global Securities**

(a) **Global Bearer Securities**

No payment or delivery falling due after the Exchange Date will be made on any Global Bearer Securities unless exchange for an interest in a Permanent Global Security or for Definitive Bearer Securities is improperly withheld or refused. Payments on any Temporary Global Security issued in compliance with the D Rules before the Exchange Date will only be made against presentation of certification as to non-US beneficial ownership in the form set out in the Master Agency Agreement.

(b) **CGNs**

All payments and deliveries in respect of Bearer Securities in CGN Form will be made against and subject to the condition to settlement, presentation for endorsement and, if no further payment or delivery falls to be made in respect of the Global Bearer Securities, surrender of that Global Bearer Security to or to the order of the Issue and Paying Agent or such other Paying Agent as shall have been notified to the Securityholders for such purpose. If the Global Bearer Security is in CGN Form, a record of each payment or delivery so made will be endorsed on each Global Bearer Security, which endorsement will be prima facie evidence that such payment or delivery has been made in respect of the Securities. Conditions 11.1 (*Appointment of Agents*) and 12(f) (*Taxation*) will apply to the Definitive Bearer Securities only.

(c) **NGNs and Global Securities held under NSS**

If a Global Bearer Security is a Cleared Security in NGN Form or a Global Registered Security is a Cleared Security held under the NSS, the Issuer shall procure that details of each such payment and delivery shall be entered pro rata in the records of the Relevant Clearing System and, in the case of payments of principal or the delivery of any Entitlement, the nominal amount of Securities in the case of Notes or the relevant portion or number of Securities in the case of Certificates and Warrants, recorded in the records of the Relevant Clearing System and represented by the Global Bearer Securities or Global Registered

Securities, will be reduced accordingly (if applicable). Payments and deliveries under the Securities in NGN Form will be made to its holder. Each payment and delivery so made will discharge the Issuer's obligations in respect thereof. Any failure to make the entries in the records of the Relevant Clearing System shall not affect such discharge.

(d) **Global Registered Securities that are Cleared Securities**

All payments and deliveries in respect of Cleared Securities that are represented by a Global Registered Security will be made to, or to the order of, the person whose name is entered on the Register at the close of business on the Clearing System Business Day immediately prior to the due date for payment or delivery, for this purpose the Record Date.

(e) **Relationship of Accountholders and Relevant Clearing Systems**

Each of the persons shown in the records of the Relevant Clearing System as the holder of Securities represented by a Global Security must look solely to the Relevant Clearing System for his share of each payment or delivery made by the Issuer to the bearer of such Global Bearer Security or the holder of the underlying Registered Securities, as the case may be, and in relation to all other rights arising under the Global Securities, subject to and in accordance with the Relevant Rules. Such persons shall have no claim directly against the Issuer in respect of payments or deliveries due on the Securities for so long as the Securities are represented by such Global Securities and such obligations of the Issuer will be discharged by payment or delivery to the holder of such Global Bearer Security or the underlying Registered Security, as the case may be, in respect of each amount so paid or delivered.

(f) **Payments through DTC**

Payments of principal and interest in respect of Global Registered Securities held by a custodian for, and registered in the name of a nominee of, DTC will, if such Global Registered Securities are denominated in US dollars, be made in accordance with the preceding paragraphs. Payments of principal and interest in respect of Global Registered Securities held by a custodian for, and registered in the name of a nominee of, DTC will, if such Global Registered Securities are denominated in a currency other than US dollars, be made or procured to be made by the Exchange Agent in the relevant currency in accordance with the following provisions. The amounts payable by the Exchange Agent or its agent to DTC with respect to such Global Registered Securities will be received in such currency, from the Issuer by the Exchange Agent. The Exchange Agent will make payments by wire transfer of same day funds to the designated bank account in such currency of those DTC participants entitled to receive the relevant payment who have made an irrevocable election to DTC, in the case of interest payments, on or prior to the third DTC business day after the Record Date for the relevant payment of interest and, in the case of payments of principal, at least 12 DTC business days prior to the relevant payment date of principal, to receive that payment in such currency, provided that the Registrar has received the related notification from DTC on or prior to the fifth DTC business day after the Record Date for the relevant payment of interest or at least ten DTC business days prior to the relevant payment date of principal, in respect of such payment, and the Registrar has accordingly notified the Exchange Agent in accordance with the Master Agency Agreement. If DTC does not so notify the Registrar, the relevant payment will be made in US dollars. The Exchange Agent, after conversion of amounts in such currency into US dollars, will deliver such US dollar amount in same day funds to DTC for payment through its settlement system to those DTC participants entitled to receive the relevant payment who did not elect to receive such payment in such currency. The Master Agency Agreement sets out the manner in which such

conversions are to be made. "DTC business day" means any day on which DTC is open for business.

(g) **Payments in CNY**

All payments in CNY in respect of a Security will be made solely by transfer to a bank account denominated in CNY and maintained in accordance with applicable laws and regulations in Hong Kong.

(h) **No Responsibility**

None of the Issuer or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments or deliveries made on account of, beneficial ownership interests in Global Securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests. None of the persons appearing from time to time in the records of the Relevant Clearing System or the Registrar as the holder of any portion of Global Securities shall have any claim directly against the Issuer in respect of any payment or deliveries due on the Global Securities, and the Issuer's obligations to make any such payment or delivery shall be discharged by payment or delivery of the requisite amount to the holder of the Global Bearer Security or the registered holder of the relevant Global Registered Security, as applicable.

9.4 **CREST Securities**

The Issuer shall procure that all payments in respect of CREST Securities are made to the relevant Securityholder's cash memorandum account (as shown in the Operator register of corporate securities as at the close of business on the CREST Business Day immediately prior to the date for payment) for value on the Relevant Date, such payment to be made in accordance with the CREST Requirements.

Each of the persons shown in the Operator register of corporate securities as the holder of a particular nominal amount or number of CREST Securities must look solely to the settlement bank or institution at which its cash memorandum account is held for its share of each such payment so made by or on behalf of the Issuer.

9.5 **Unmatured Coupons and receipts and unexchanged Talons**

(a) **Unmatured Coupons and unexchanged Talons Void**

Upon the due date for redemption of any Definitive Bearer Security, unexpired Coupons and unexchanged Talons relating to such Security (whether or not attached) shall become void and no payment shall be made in respect of them.

(b) **Requirement for Indemnity**

Where any Definitive Bearer Security is presented for redemption without all unexpired Coupons and any unexchanged Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require.

(c) **Interest after Redemption**

If the due date for redemption of any Definitive Bearer Security is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Definitive Bearer Security. Interest accrued on a Definitive Bearer Security which only bears interest after its date of redemption shall be payable on redemption of such Definitive Bearer Security against presentation thereof.

(d) **Unmatured Receipts Void**

Upon the due date for redemption of any Definitive Bearer Security that is redeemable in instalments, all Receipts relating to such Security having an Instalment Date falling on or after such due date (whether or not attached) shall become void and no payment shall be made in respect of them.

9.6 Taxes, Settlement Expenses and Exercise Price Conditions to Settlement

Payment of any Settlement Amount and delivery of any Entitlement in connection with the redemption, cancellation or exercise of the Securities shall be subject to deduction, or conditional upon payment by the relevant Securityholder(s), of any applicable Taxes and Settlement Expenses and any other amounts payable (including, without limitation, any Exercise Price payable by the Securityholder) as specified in these Base Conditions, any Relevant Annex(es) or the Pricing Supplement. The Issuer shall notify the Securityholder(s) of (a) such applicable Taxes, Settlement Expenses, Exercise Price and other amounts payable and (b) the manner in which such amounts shall be paid by the Securityholder(s).

9.7 Payment and Securities

If the date on which any amount is specified as being or is otherwise determined to be, payable in respect of any Security or Coupon is not (i) a Business Day and (ii) in the case of Definitive Securities only, a day other than a Saturday or Sunday on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign Currency deposits) in the relevant place of presentation, then payment will not be made until the next succeeding day which is (i) a Business Day and (ii) in the case of Definitive Securities only, also a day other than a Saturday or Sunday on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign Currency deposits) in the relevant place of presentation, and the holder thereof shall not be entitled to any further payment in respect of such delay.

9.8 Payment and deliveries subject to laws

All payments and deliveries in respect of the Securities are subject in all cases to any applicable laws, regulations and directives in any jurisdiction (whether by operation of law or agreement of the Issuer, and the Issuer will not be liable for any Taxes of whatsoever nature imposed by such laws, resolutions, directives or agreements, but without prejudice to the provisions of Condition 12 (*Taxation*)).

10. Events of Default

This condition sets out events that may, if the event continues and the holder of Securities sends a notice, trigger the early redemption or cancellation of the Securities and the amount payable in such circumstances.

If any of the following events occurs and is continuing (each an "**Event of Default**") and unless the Event of Default shall have been cured by the Issuer or waived by the Securityholders prior to receipt by the Issue and Paying Agent or the Issuer, as the case may be, of a notice from Securityholders as referred to below, a Securityholder may give notice to the Issuer and the Issue and Paying Agent (and, in respect of any Security that is not a CREST Security) or to the Issuer (in respect of any CREST Security) that such Security is, and in all cases such Security shall immediately become, due and payable at the Early Cash Settlement Amount (and, notwithstanding that 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement or elected for the purposes of Conditions 5 (*Redemption of Securities that are Notes or Certificates*), 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) or 7 (*Settlement*), Cash Settlement shall be deemed to be the Settlement Method):

- (a) the Issuer does not pay any Early Cash Settlement Amount, Final Cash Settlement Amount or other payment amount (excluding any interest or Instalment Amount), as

applicable, in respect of the Securities when the same is due and payable and such failure continues for 30 calendar days;

- (b) any interest or Instalment Amount, as the case may be, has not been paid within 14 calendar days of the due date for payment. The Issuer shall not, however, be in default if such sums were not paid in order to comply with a mandatory law, regulation or order of any court of competent jurisdiction. Where there is doubt as to the validity or applicability of any such law, regulation or order, the Issuer will not be in default if it acts on the advice given to it during such 14-calendar-day period by independent legal advisers;
- (c) the Issuer fails to deliver any Entitlement on the due date for delivery and such failure to deliver has not been remedied within 30 calendar days of notice of such failure having been given to the Issuer by any Securityholder, provided that an Event of Default shall not occur under this Condition 10(c) if (I) any of the conditions to settlement to be satisfied by the Securityholder have not been so satisfied as at the due date for delivery or (II) the Issuer has elected to pay the Disruption Cash Settlement Price or Alternate Cash Amount or to deliver Substitute Assets pursuant to Condition 7.2(b) (*Settlement Disruption Event*) or 7.2(c) (*Entitlement Substitution*) (unless the failure to deliver relates to such Substitute Assets) or (III) a notice is given to Securityholders; or
- (d) the Issuer breaches any other provision of such Securities in a way that is materially prejudicial to the interests of Securityholders and that breach has not been remedied within 30 calendar days of the Issuer having received notice thereof from Securityholders holding at least one quarter in outstanding nominal amount or number, as the case may be, of the relevant Series demanding remedy; or
- (e) an order is made or an effective resolution is passed for the winding-up of the Issuer (otherwise than in connection with a scheme of reconstruction, merger or amalgamation).

For the purposes of calculating an Early Cash Settlement Amount at any time following an Event of Default, the Determination Agent will ignore the effect of such Event of Default upon the market value of the Securities.

11. Agents

This condition sets out requirements of the Issuer in connection with the appointment of, and on-going relationship the Issuer has with, the agents it appoints to carry out certain roles in connection with the Securities and the document that governs this relationship. It also sets out the responsibilities of the Issuer and the agents and sets out the basis on which determinations may be made by the Issuer and the Issue and Paying Agent.

11.1 Appointment of Agents

The Issue and Paying Agent, the Paying Agents, the Registrar, the CREST Agent, the Transfer Agents and the Determination Agent act solely as agents of the Issuer and do not assume any obligation or relationship of agency or trust for or with any Securityholder or holder. None of the Issue and Paying Agent, the Paying Agents, the Registrar, the CREST Agent, the Transfer Agents, the Determination Agent or the Issuer is acting as fiduciary for or as an adviser to any Securityholder or holder in respect of its obligations and duties as the Issue and Paying Agent, the Paying Agents, the Registrar, the CREST Agent, the Transfer Agents, the Determination Agent or the Issuer. The Issuer reserves the right at any time to vary or terminate the appointment of the Issue and Paying Agent, any other Paying Agent, the Registrar, the CREST Agent, any Transfer Agent or the Determination Agent and to appoint additional or other Paying Agents or Transfer Agents or an additional or other CREST Agent, provided that the Issuer shall at all times maintain (a) an Issue and Paying Agent, (b) a Registrar in relation to Registered Securities, (c) a Transfer Agent in relation to Registered Securities, (d) one or more Determination Agent(s) where the Conditions so require, (e)

Paying Agents having specified offices in at least two major European cities, (f) such other agents as may be required by any other stock exchange on which the Securities may be listed and (g) a CREST Agent in relation to CREST Securities. Notice of any termination of appointment and of any changes to the specified office of any Agent will be given to Securityholders.

11.2 Modification of Master Agency Agreement

(a) Securities that are not CREST Securities

The Issuer shall only permit any modification of, or any waiver or authorisation of any breach or proposed breach of or any failure to comply with, the Master Agency Agreement relating to Securities other than CREST Securities if to do so would not in the opinion of the Issuer be expected to be materially prejudicial to the interests of the Securityholders or if such modification is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of any applicable law or to cure, correct or supplement any defective provision contained therein. Any such modification shall be binding on the Securityholders and shall be notified to the Securityholders as soon as practicable thereafter, provided that failure to give, or non-receipt of, such notice will not affect the validity or binding nature of such modification.

(b) CREST Securities

The Master Agency Agreement in respect of CREST Securities may be amended by the Issuer and the CREST Agent without the consent of the holders of CREST Securities (other than in the case of (v)) but subject, where reasonably practicable, to providing prior notice to holders of CREST Securities, for the purposes of (i) giving effect to any changes in any CREST Requirements, (ii) curing any ambiguity or reflecting any modification to the Conditions pursuant to Condition 21.1 (*Modifications to the Conditions*), (iii) curing, correcting or supplementing any defective provisions contained therein, (iv) effecting any amendment in any manner which the Issuer and the CREST Agent may mutually deem necessary or desirable that will not materially adversely affect the interests of the holders of CREST Securities or (v) effecting any other amendment with the prior consent of the requisite majority of Securityholders pursuant to Condition 21.2 (*Meetings of Securityholders*).

11.3 Responsibility of the Issuer and the Agents

Neither the Issuer nor any Agent shall be held responsible for any loss or damage, resulting from any legal enactment (domestic or foreign), the intervention of a public authority (domestic or foreign), an act of war, strike, blockade, boycott or lockout or any other similar event or circumstance. The reservation in respect of strikes, blockades, boycotts and lockouts shall also apply if any of such parties itself take such measures or becomes the subject of such measures. Where the Issuer or any of the Agents is prevented from effecting payment or delivery due to such event, payment or delivery may be postponed until the time the event or circumstance impeding payment has ceased, and shall have no obligation to pay or deliver any additional amounts in respect of such postponement.

11.4 Determinations by the Determination Agent

Unless otherwise specified, all determinations, considerations, decisions, elections and calculations in the Conditions shall be made by the Determination Agent (which will be Barclays Bank PLC, unless otherwise specified in the Pricing Supplement). In respect of each such determination, consideration, decision, election and calculation, this Condition 11.4 shall apply. In making such determinations, considerations, decisions, elections and calculations, the Determination Agent may take into account the impact on the Issuer's hedging arrangements. In all circumstances the Determination Agent

shall exercise its discretion and make such determinations and calculations in good faith and in a commercially reasonable manner, and (save in the case of manifest or proven error) such determinations and calculations shall be final and binding on the Issuer, the Agents and the Securityholders.

11.5 **Determinations by the Issuer**

The Issuer may be required to exercise its discretion and to make certain determinations, considerations, decisions, elections and calculations pursuant to the Conditions. In all circumstances the Issuer shall exercise its discretion and make such determinations and calculations in good faith and in a commercially reasonable manner, and (save in the case of manifest or proven error) such determinations and calculations shall be final and binding on the Agents and the Securityholders.

11.6 **Waiver of performance for the Determination Agent and Issuer for determinations or other actions not in compliance with the Benchmark Regulation**

Notwithstanding anything else in the Conditions (including, for the avoidance of doubt, the Relevant Annex(es)), if, in respect of the Securities, it (i) is or would be unlawful at any time under the Benchmark Regulation or (ii) would contravene any applicable licensing requirements, in each case, for the Determination Agent or Issuer (as applicable) to make a determination or carry out some other action which it would otherwise be obliged to do under the Conditions, then the Determination Agent and Issuer (as applicable) shall not be obliged to make such determination or carry out such other action and shall be excused performance thereof without incurring any liability whatsoever to Securityholders.

12. **Taxation**

This condition sets out the responsibility of the Securityholder to pay Taxes arising from or in connection with the Securities.

Except to the extent that the Issuer is required by law to withhold or deduct amounts for or on account of Tax or to the extent otherwise disclosed in the Conditions, a Securityholder must pay all Taxes arising from or payable in connection with the payment of interest, any Interest Amount or the ownership, transfer, sale, redemption, exercise or cancellation of any Security and/or the delivery or transfer of any Entitlement, or the payment of any Settlement Amount, and Instalment Amount and/or any other payment relating to the Securities, as applicable. The Issuer is not liable for, or otherwise obliged to pay amounts in respect of, any such Taxes borne by a Securityholder.

Except as otherwise specified in any Relevant Annex(es) or the Pricing Supplement, all payments in respect of the Securities shall be made free and clear of, and without withholding or deduction for, any present or future Taxes of whatever nature imposed, levied, collected, withheld or assessed by the Bank Jurisdiction (or any authority or political subdivision thereof or therein having power to tax (each, a "**Taxing Jurisdiction**")) unless such withholding or deduction is required by law. In the event a Taxing Jurisdiction requires the withholding or deduction of Taxes, the Issuer shall pay such additional amounts ("**Additional Amounts**") as may be necessary in order that the net amounts receivable by the relevant holder after such withholding or deduction shall equal the respective amounts that would have been receivable by such holder in the absence of such withholding or deduction. Notwithstanding the above, no Additional Amounts shall be payable with respect to any Security:

- (a) to, or to a third party on behalf of, a holder who is liable to such Taxes in respect of such Securities by reason of his having a connection with the Bank Jurisdiction other than the mere holding of the relevant Security or Coupon; or
- (b) to, or to a third party on behalf of, a holder who could lawfully avoid (but has not so avoided) such deduction or withholding by complying or procuring that any third party complies with any statutory requirements or by making or procuring that any third party makes a declaration of non-residence or other similar claim for exemption to any

tax authority in the place where the relevant Security, Coupon or Receipt is presented for payment; or

- (c) where such withholding or deduction is required by FATCA or the rules of the US Internal Revenue Code of 1986, as amended (the "**Code**"), including without limitation, in respect of dividends, dividend equivalent payments (including without limitation under section 871(m) of the Code), or amounts realised on the disposition of certain direct or indirect interests in US real property. For this purpose "**FATCA**" means sections 1471 through 1474 of the Code, any final current or future regulations or official interpretations thereof, any agreement entered into pursuant to section 1471(b) of the Code, or any US or non-US fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code; or
- (d) presented for payment more than 30 calendar days after the Relevant Date, except to the extent that the holder would have been entitled to an Additional Amount on presenting such Security for such payment on the last day of such 30-day period; or
- (e) (except in the case of Registered Securities or CREST Securities) presented for payment by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Security, Coupon or Receipt to another Paying Agent without such deduction or withholding; or
- (f) in relation to Definitive Bearer Securities, unless it is proved, to the satisfaction of the Issue and Paying Agent or the Paying Agent to whom the Security, Coupon or Receipt is presented or, in respect of CREST Securities, to the satisfaction of the Issuer, that the holder is unable to avoid such withholding or deduction by satisfying any applicable certification, identification or reporting requirements or by making a declaration of non-residence or other similar claim for exemptions to the relevant tax authorities.

References in the Conditions to (I) "**principal**" shall be deemed to include any premium payable in respect of the Securities, Settlement Amounts, Instalment Amounts and all other amounts in the nature of principal payable pursuant to Conditions 5 (*Redemption of Securities that are Notes or Certificates*) or 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*), (II) "**interest**" shall be deemed to include all Interest Amounts and all other amounts payable pursuant to Condition 5 (*Redemption of Securities that are Notes or Certificates*) or any amendment or supplement to it and (III) "**principal**" and/or "**interest**" shall be deemed to include any additional amounts that may be payable under this Condition 12.

13. **Prescription**

This condition sets out a time limit for bringing claims against the Issuer for payments due in respect of Securities.

Claims against the Issuer for payment in respect of any Security and/or Coupon and/or Receipt (which for this purpose shall not include Talons) shall be prescribed and become void unless made within ten years (in the case of principal) or five years (in the case of interest) of the appropriate Relevant Date in respect of them.

14. **Replacement of Securities**

This condition sets out the mechanics for replacement of a Security.

Should any Security, Coupon or Receipt in respect of any Series be lost, stolen, mutilated, defaced or destroyed, it may, subject to all applicable laws, regulations and any relevant stock exchange or any other relevant authority regulations requirements, be replaced at the specified office of the Issue and Paying Agent, in the case of Bearer Securities, or the Registrar, in the case of Registered Securities, or of such other Paying Agent or Transfer Agent, as may be designated from time to time by the Issuer for such purpose and notice of whose designation is given to Securityholders, in each case on payment by the claimant of the fees, expenses and Taxes incurred in connection therewith and on such terms as to evidence, security and

indemnity and otherwise as the Issuer may require. If any Security, Coupon or Receipt is mutilated or defaced, it must be surrendered before replacements will be issued. This Condition 14 shall not apply to CREST Securities.

15. **Unlawfulness and Impracticability**

This condition sets out provisions to allow the Issuer to redeem or cancel Securities where the Issuer's obligations under the Securities become illegal or impracticable.

If the Issuer determines, in good faith and in a reasonable manner, that the performance of any of its obligations under the Securities has become, or there is a substantial likelihood that it will become, unlawful or impracticable, in whole or in part, as a result of (i) any change in financial, political or economic conditions or currency exchange rates, or (ii) compliance in good faith by the Issuer or any relevant subsidiaries or Affiliates with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative or judicial authority or power or in interpretation thereof, the Issuer may, as its option, redeem or cancel the Securities by giving notice to Securityholders.

If the Issuer elects to redeem or cancel the Securities pursuant to this Condition 15, then each Security shall become due and payable at its Early Cash Settlement Amount. Payment will be subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) and will be made in such manner as shall be notified to the Securityholders.

16. **Notices**

This condition sets out details of how notices will be given to different people involved in the issue of Securities and provisions as to validity of the notices.

16.1 **To Securityholders**

All notices to Securityholders will be deemed to have been duly given and valid:

- (a) in the case of Bearer Securities, if published in a daily newspaper of general circulation in England (which is expected to be the Financial Times) and will be deemed to have been given on the date of first publication; and/or
- (b) if and so long as Securities are listed on a relevant stock exchange or are admitted to trading by a relevant authority if given in accordance with the rules and regulations of that stock exchange or other relevant authority and will be deemed to have been given on the first date of transmission or publication in accordance with such rules and regulations; and/or
- (c) in the case of Registered Securities, if mailed to the relevant holders of such Registered Securities at their respective designated addresses appearing in the Register and will be deemed delivered on the third weekday (being a day other than a Saturday or a Sunday) after the date of mailing; and/or
- (d) in the case of Cleared Securities, in substitution for publication or mailing as required above, notices to Securityholders may be given to the Relevant Clearing System provided that any publication or other requirements required pursuant to Condition 16.1(b) shall also be complied with if applicable. In such cases, notices will be deemed given on the first date of transmission to the Issue and Paying Agent for onward transmission to the applicable Relevant Clearing System (regardless of any subsequent publication or mailing); and/or
- (e) in the case of CREST Securities, if mailed to the relevant holders of such CREST Securities at their respective designated addresses appearing in the Record on the second CREST Business Day immediately prior to despatch of such notice and will be deemed delivered on the third weekday (being a day other than a Saturday or a Sunday) after the date of mailing or in substitution for mailing, if given to the Operator in which case it will be deemed delivered on

the first date of transmission to the Operator (regardless of any subsequent mailing).

If any publication required pursuant to Condition 16.1(a) or (b) is not practicable, notice shall be validly given if published in another leading English language daily newspaper with circulation in Europe on the date of first publication.

Holders of Coupons or Receipts shall be deemed for all purposes to have notice of the contents of any notice given to holders of Bearer Securities in accordance with this Condition 16.

16.2 To the Issuer and the Agents

In respect of any Series, all notices to the Issuer and/or the Agents must be sent to the address specified for each such entity in the Master Agency Agreement or to such other person or place as shall be specified by the Issuer and/or the Agent by notice given to Securityholders in accordance with this Condition 16.

16.3 Validity of Notices

Any determinations as to whether any notice is valid, effective and/or duly completed and in the proper form shall be made (a) in the case of Cleared Securities, by the Issuer and the Relevant Clearing System or (b) in the case of any notice in respect of CREST Securities that is given to the Operator, by the Issuer, the CREST Agent and the Operator or (c) in the case of any other Securities by the Issuer, in consultation with the Issue and Paying Agent and shall be conclusive and binding on the Issuer, the Agents and the relevant Securityholder(s).

Any notice determined not to be valid, effective, complete and/or in proper form shall be null and void unless each of the Issuer and the Relevant Clearing System, or (in respect of CREST Securities) the Issuer and the Operator, if applicable, agree otherwise. This provision shall not prejudice any right of the person delivering the notice to deliver a new or corrected notice.

The Issuer, Paying Agent, Registrar or Transfer Agent shall use all reasonable endeavours promptly to notify any Securityholder submitting a notice if it is determined that such notice is not valid, effective, complete and/or in the proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Relevant Clearing System, (in respect of CREST Securities) the Operator or any Agent, as the case may be, shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with any notification to a Securityholder or determination that a notice is not valid, effective, complete or in the proper form.

Notwithstanding anything else in these Base Conditions and subject to the applicable Relevant Annex(es), failure by the Issuer or the Determination Agent to give notice as required under the Conditions shall not affect the validity or binding nature of any action taken by the Issuer or Determination Agent under the Conditions, including adjustment of the Conditions or early redemption or cancellation of the Securities (as applicable).

17. Substitution

This condition sets out circumstances in which the Issuer may be substituted for another entity and the process for substitution.

The Issuer, acting in its capacity as Issuer of the Securities shall be entitled at any time, without the consent of the Securityholders, to substitute any other entity, the identity of which shall be in the absolute discretion of the Issuer in place of Barclays Bank PLC as Issuer (the "**New Bank Issuer**") to act as issuer in respect of Securities issued by it, provided that (a) the New Bank Issuer's long-term unsecured, unsubordinated and unguaranteed debt obligations are rated at least the same as Barclays Bank PLC's long-term rating at the date on which the substitution is to take effect or the New Bank Issuer has an equivalent long-term rating from

another internationally recognised rating agency, (b) in the case of Securities eligible for sale in the United States to 'qualified institutional buyers' as defined in and in reliance on Rule 144A, the New Bank Issuer would not be required to register as an 'investment company' under the US Investment Company Act and (d) no event of default as set out in Condition 10 (*Events of Default*) shall occur as a result thereof.

In the event of any such substitution, any reference in the Conditions to the Issuer shall be construed as a reference to the New Bank Issuer. Such substitution shall be promptly notified to the Securityholders of each Series then outstanding. In connection with such right of substitution, Barclays Bank PLC, in its capacity as Issuer, as the case may be, shall not be obliged to have regard to the consequences of the exercise of such right for individual Securityholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with or subject to the jurisdiction of, any particular territory, and no Securityholder shall be entitled to claim from Barclays Bank PLC or the New Bank Issuer any indemnification or payment in respect of any tax consequence of any such substitution upon such Securityholder.

18. Administrator/Benchmark Event

If an Administrator/Benchmark Event occurs in respect of the Securities, then:

- 18.1 If the Administrator/Benchmark Event has occurred in respect of a Reference Asset and a Pre-nominated Index has been specified in the Pricing Supplement in respect of such Reference Asset, the relevant Reference Asset shall be replaced by such Pre-nominated Index with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Reference Asset with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology); or
- 18.2 Otherwise than in the circumstances of 18.1 above, an Additional Disruption Event shall be deemed to have occurred for the purposes of these provisions and the Determination Agent shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*), as the case may be, in respect of the Securities.

19. Governing law and jurisdiction

This condition sets out the law that will govern the rights and obligations arising out of or in connection with the Securities and which courts will have jurisdiction to settle any disputes that arise.

19.1 Governing law

Subject as provided in any Relevant Annex(es), the Securities, Coupons, Receipts and the Master Agency Agreement and any non-contractual obligations arising out of or in connection with them are governed by and shall be construed in accordance with English law.

19.2 Jurisdiction

Subject as provided in any Relevant Annex(es), the Courts of England are to have exclusive jurisdiction to settle any disputes that may arise out of or in connection with any Securities, Coupons, Receipts and/or the Master Agency Agreement and

accordingly any legal action or proceedings arising out of or in connection with them shall be brought in such courts.

20. **Severability**

This condition sets out that if one or more of the conditions becomes invalid, such invalidity shall not affect the validity of the remaining conditions.

Should any one or more of the provisions contained in the terms and conditions of the Securities be or become invalid, the validity of the remaining provisions shall not be affected in any way.

21. **Modification and Meetings**

This condition sets out the circumstances in which modifications can be made to the conditions both with and without the consent of the Securityholders. In the event that consent is required, this condition sets out the mechanics for calling a meeting of Securityholders and conducting business at any such meeting.

21.1 **Modifications to the Conditions**

The Issuer may, without the consent of the Securityholders, make any modification to the Conditions of any Securities that in its sole opinion is not materially prejudicial to the interests of the Securityholder or that is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of the law of the Bank Jurisdiction, or to cure, correct or supplement any defective provision contained herein and/or therein. Any such modification shall be binding on the Securityholders and any such modification shall be notified to the Securityholders as soon as practicable thereafter. Failure to give, or non-receipt of, such notice will not affect the validity of such modification.

Notwithstanding anything to the contrary herein, the Issuer may make any modification to the Conditions of CREST Securities without the consent of the holders of such CREST Securities if such modification is to give effect to any changes in any of the CREST Requirements. Any modification of this type shall, where reasonably practicable, be subject to prior notice of the modification having been given to holders of CREST Securities.

21.2 **Meetings of Securityholders**

(a) **Definitive Securities in Bearer or Registered Form and CREST Securities**

The Master Agency Agreement contains provisions for convening meetings of the Securityholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Master Agency Agreement) of a modification of the Conditions or the Master Agency Agreement. At least 21 calendar days' notice (exclusive of the day on which the notice is given and of the day on which the meeting is to be held) specifying the date, time and place of the meeting shall be given to Securityholders.

Such a meeting may be convened by the Issuer or Securityholders holding not less than 10 per cent in nominal amount (in the case of Notes) or number (in the case of Warrants and Certificates) of the Securities for the time being outstanding. The quorum at a meeting of the Securityholders (except for the purpose of passing an Extraordinary Resolution (as defined below)) will be two or more persons holding or representing a clear majority in nominal amount or number of the Securities held or represented, unless the business of such meeting includes consideration of proposals, inter alia, (i) to amend the dates of maturity or redemption of the Securities, any Exercise Date or Expiration Date of the Securities or any date for payment of interest or Interest Amounts on the Securities, (ii) to reduce or cancel the nominal amount of, or any Instalment Amount of, or any premium payable on redemption or exercise of, the

Securities, (iii) to reduce the rate or rates of interest in respect of the Securities or to vary the method or basis of calculating the rate or rates or amount of interest or the basis for calculating any Interest Amount in respect of the Securities, (iv) if a Minimum and/or a Maximum Rate of Interest, or maximum and/or minimum Tradable Amount, Instalment Amount or Entitlement is specified in the Pricing Supplement, to reduce any such minimum and/or maximum, (v) to vary any method of, or basis for, calculating any Settlement Amount or Entitlement (other than as provided for in the Conditions), (vi) to vary the currency or currencies of payment or denomination of the Securities, (vii) to modify the provisions concerning the quorum required at any meeting of Securityholders or the majority required to pass the Extraordinary Resolution, in which case the quorum shall be two or more persons holding or representing not less than 75 per cent or at any adjourned meeting not less than 25 per cent in nominal amount (in the case of Notes) or number (in the case of Certificates and Warrants) for the time being outstanding. The Master Agency Agreement provides that a resolution in writing signed by or on behalf of the holders of not less than 90 per cent in nominal amount (in the case of Notes) or number (in the case of Warrants and Certificates) outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Securityholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Securityholders.

A resolution will be an Extraordinary Resolution when it has been passed at a duly convened meeting and held in accordance with the terms of the Master Agency Agreement by a majority of at least 75 per cent of the votes cast. Any Extraordinary Resolution duly passed shall be binding on all the Securityholders, regardless of whether they are present at the meeting, save for those Securities that have not been redeemed but in respect of which an Exercise Notice shall have been delivered as described in Condition 5.2 (*Early redemption at the option of Securityholders*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) prior to the date of the meeting. Securities that have not been redeemed but in respect of which an Option Exercise Notice has been delivered as described in Condition 5.2 (*Early redemption at the option of Securityholders*) and Securities that are Warrants or Exercisable Certificates that have not been exercised but in respect of which a Security Exercise Notice has been received as described in Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) will not confer the right to attend or vote at, or join in convening, or be counted in the quorum for, any meeting of the Securityholders.

These Conditions may be amended, modified or varied in relation to any Series by the terms of the Pricing Supplement in relation to such Series.

(b) Global Securities in Bearer or Registered Form

The holder of a Permanent Global Security shall (unless such Permanent Global Security represents only one Security) be treated as being two persons for the purposes of any quorum requirements of a meeting of Securityholders and, at any such meeting, the holder of a Permanent Global Security shall be treated as having one vote in respect of each integral currency unit of the Settlement Currency of the Security, in the case of Notes, or in respect of each integral currency unit of the applicable Calculation Amount, in the case of Certificates and Warrants.

22. Further Issues

This condition sets out the ability of the Issuer to issue further Securities with the same terms and conditions as Securities already in issue.

The Issuer shall be at liberty from time to time, without the consent of the Securityholders or holders of Coupons, if applicable, to create and issue further Securities of any Series having the same terms and conditions as the Securities (so that, for the avoidance of doubt, references to 'Issue Date' in these Base Conditions shall be to the first issue date of the Securities) and so that the same shall be consolidated and form a single Series with such Securities. References in the Conditions to 'Securities' shall be construed accordingly.

23. Purchases and Cancellations

This condition sets out mechanics for the Issuer or its subsidiaries to purchase Securities in the secondary market and cancel such Securities.

The Issuer and any of its subsidiaries may at any time purchase Securities (provided that all unmatured Coupons or Receipts, as the case may be, relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price.

All Securities so purchased by or on behalf of the Issuer or any of their subsidiaries may (but need not) be surrendered for cancellation, in the case of Bearer Securities, by surrendering each such Security together with all unmatured Coupons or Receipts, as the case may be, to the Issue and Paying Agent and, in the case of Registered Securities, by surrendering the Definitive Registered Securities or Global Registered Securities representing such Registered Securities to the Registrar and, in each case, if so surrendered, shall, together with all Securities redeemed by the Issuer, be cancelled forthwith (together with all unmatured Coupons or Receipts, as the case may be, attached thereto or surrendered therewith). Any Securities so surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Securities shall be discharged.

Notwithstanding anything to the contrary above, all CREST Securities so purchased by or on behalf of the Issuer or any of its subsidiaries may (but need not) be cancelled by agreement between the Issuer and the CREST Agent, provided that such cancellation shall be in accordance with the CREST Requirements in effect at the relevant time. Any CREST Securities so cancelled may not be reissued or resold and the obligations of the Issuer in respect of any such CREST Securities shall be discharged.

Cancellation of Securities represented by a Permanent Global Security (other than upon its redemption) will be effected by a reduction in the nominal amount of the relevant Permanent Global Security relating to Securities that are Notes or a reduction in the aggregate number of Certificates, Warrants or Units represented by the relevant Permanent Global Security.

24. Contracts (Rights of Third Parties) Act 1999

This condition provides for the exclusion of unintended rights of third parties.

For the avoidance of doubt, a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or where inclusion in any official register is withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of the Relevant Benchmark is permitted in respect of the Securities under the Benchmark Regulation during the period of such suspension or withdrawal.

PART B - ADDITIONAL TERMS AND CONDITIONS FOR BOND LINKED SECURITIES

*The terms and conditions applicable to Bond Linked Securities shall comprise the Base Conditions and the additional terms and conditions set out below (the "**Bond Linked Conditions**"), in each case subject to completion and/or amendment in the Pricing Supplement. In the event of any inconsistency between the Base Conditions and the Bond Linked Conditions set out below, the Bond Linked Conditions shall prevail. In the event of any inconsistency between (i) the Base Conditions and/or the Bond Linked Conditions and (ii) the Pricing Supplement, the Pricing Supplement shall prevail. This Bond Linked Annex is a Product Annex and a Relevant Annex for the purposes of the Base Conditions and applies to any Securities if specified to be Bond Linked Securities in the Pricing Supplement ("**Bond Linked Securities**"). Capitalised terms used herein but not otherwise defined shall have the meanings given to them in the Base Conditions or the Pricing Supplement.*

1. Interest

1.1 Interest Amount

- (a) If 'Bond Linked Securities – Pass Through Interest' is specified as the Interest Rate in the Pricing Supplement and:
 - (i) payments in respect of the Securities are specified to be paid in the Settlement Currency in the Pricing Supplement, the Issuer shall pay to each Securityholder on each Interest Payment Date an amount in the Settlement Currency per Calculation Amount equal to the amount (if any) actually received by way of interest in respect of the Reference Obligation Principal Amount of the relevant Reference Obligation by a holder of such Reference Obligation during the Interest Calculation Period ending on (but excluding) such Interest Payment Date divided by the Number of Securities Outstanding (in respect of such Interest Calculation Period) converted from the Reference Currency into the Settlement Currency by the Determination Agent at the FX Fixing on the Valuation Date immediately preceding such Interest Payment Date; or
 - (ii) payments in respect of the Securities are specified to be paid in the Reference Currency in the Pricing Supplement, the Issuer shall pay to each Securityholder on each Interest Payment Date an amount in the Reference Currency per Calculation Amount equal to the amount (if any) actually received by way of interest in respect of the Reference Obligation Principal Amount of the relevant Reference Obligation by a holder of such Reference Obligation during the Interest Calculation Period ending on (but excluding) such Interest Payment Date divided by the Number of Securities Outstanding.
- (b) If 'Bond Linked Securities – Fixed Coupon' is specified as the Interest Rate in the Pricing Supplement and:
 - (i) payments in respect of the Securities are specified to be paid in the Settlement Currency in the Pricing Supplement, the Interest Amount shall be paid in the Settlement Currency determined in accordance with Condition 5 (*Redemption of Securities that are Notes or Certificates*) of the Base Conditions and, if applicable, converted from the Reference Currency into the Settlement Currency by the Determination Agent at the FX Fixing on the relevant Valuation Date; or
 - (ii) payments in respect of the Securities are specified to be paid in the Reference Currency in the Pricing Supplement, the Interest Amount shall be paid in the Reference Currency determined in accordance with Condition 5 (*Redemption of Securities that are Notes or Certificates*) of the Base Conditions;

in each case less the sum of (a) all Applicable Taxes and (b) if Custody Charge Deduction is specified as applicable in the Pricing Supplement, a pro rata amount in respect of each Security of the Custody Charge applicable on such Interest Payment Date, all as calculated by the Determination Agent.

1.2 Interest Amount Adjustment

In the event that any amount paid in respect of a Reference Obligation in respect of an Interest Calculation Period, whether made in part or in full, is required by law or otherwise to be repaid or returned to the Reference Entity or any other person (including, without limitation, any bankruptcy trustee or paying agent for the Reference Entity), or if the Issuer pays an Interest Amount but fails (or would have failed had it been a holder of the Reference Obligation) to receive the corresponding amount of interest due in respect of the Reference Obligation in whole (the amount of such shortfall, a "**Coupon Amount Deduction**"), then (i) the Interest Amount due in respect of each Security on each following Interest Payment Date shall be reduced by a pro rata amount equal to the Coupon Amount Deduction, until the amount due to the Issuer in respect of the Coupon Amount Deduction has been discharged and (ii) in the event that the relevant Interest Amount has already been paid to any Securityholder, the amount of such reduction shall be repaid by such Securityholder to the Issuer within two Business Days of demand.

1.3 Interest Payment Dates

Notwithstanding anything to the contrary in Condition 5 (*Redemption of Securities that are Notes or Certificates*) of the Base Conditions, if 'Bond Linked Securities – Pass Through Interest' is specified as the Interest Rate in the Pricing Supplement, the Interest Payment Date in respect of such Security shall be the date which falls the number of Business Days specified in the Pricing Supplement after the corresponding Valuation Date; provided, however, that the final Interest Payment Date shall fall on the Redemption Date, subject to the Early Redemption Terms and Adjustment provisions set out in Bond Linked Condition 3.

2. Redemption

Notwithstanding anything to the contrary in Condition 5.1(a) (*Redemption*) of the Base Conditions, if 'Cash Settlement' is specified as the Settlement Method in the Pricing Supplement for the purposes of Condition 5.1 (*Redemption and redemption by instalments*) of the Base Conditions, subject to the Early Redemption Terms and Adjustment provisions set out in Bond Linked Condition 3 (unless previously redeemed in accordance with these Bond Linked Conditions or Condition 5 (*Redemption of Securities that are Notes or Certificates*) of the Base Conditions or purchased and cancelled in accordance with Condition 23 (*Purchases and Cancellations*) of the Base Conditions) on the Redemption Date, the Issuer shall, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, redeem each Security in whole but not in part by paying each Securityholder:

- (a) if the Pricing Supplement specifies that the Final Cash Settlement Amount shall be payable in the Settlement Currency, unless otherwise specified in the Pricing Supplement, an amount per Calculation Amount in the Settlement Currency equal to the amount actually received by way of principal in respect of the redemption of the Reference Obligation Principal Amount of each Reference Obligation by a holder of such Reference Obligation divided by the Number of Securities Outstanding less all Applicable Taxes, as calculated by the Determination Agent, and converted from the Reference Currency into the Settlement Currency by the Determination Agent at the FX Fixing on the final Valuation Date; or
- (b) if the Pricing Supplement specifies that the Final Cash Settlement Amount shall be payable in the Reference Currency, unless otherwise specified in the Pricing Supplement, an amount per Calculation Amount in the Reference Currency equal to the

amount actually received by way of principal in respect of the redemption of the Reference Obligation Principal Amount of each Reference Obligation by a holder of such Reference Obligation divided by the Number of Securities Outstanding less all Applicable Taxes, as calculated by the Determination Agent.

3. Early Redemption Terms and Adjustment Provisions

3.1 Adjustment Provisions

The following adjustment provisions shall apply in respect of the Securities:

(a) Adjustment to Interest Payment Date and/or Redemption Date

- (i) If 'Swap' is specified as not applicable in the Pricing Supplement (or is not stated therein to be applicable), then the following provisions shall apply in respect of the Securities:

If the Valuation Date in respect of an Interest Payment Date and/or the Redemption Date, as the case may be, is not the Scheduled Valuation Date in respect of such Interest Payment Date or Redemption Date, as the case may be, then such Interest Payment Date or Redemption Date, as the case may be, shall be as soon as practicable after the relevant Valuation Date, but in no event later than the day which is two Business Days after the relevant Valuation Date. No additional amounts shall be payable because of such adjustment.

- (ii) If 'Swap' is specified as applicable in the Pricing Supplement, then the following provisions shall apply in respect of the Securities:

If the Determination Agent determines that: (a) any "**Valuation Date**" (as such term is defined in the Confirmation) under the Swap which was scheduled to occur immediately prior to an Interest Payment Date or the Redemption Date would be adjusted in accordance with the terms of the Swap for any reason so that it would fall on a day after the relevant scheduled "**Valuation Date**" (as such term is defined in the Confirmation); and/or (b) the 'Spot Rate' (as such term is defined in the Confirmation) for the Swap scheduled to be determined on that scheduled 'Valuation Date' (as such term is defined in the Confirmation) falls to be determined on a later date under the terms of the Swap, then the Interest Payment Date or Redemption Date which the relevant scheduled 'Valuation Date' (as such term is defined in the Confirmation) was scheduled to immediately precede shall be adjusted so that it occurs on the day which is two Business Days after the later of: (i) such adjusted "**Valuation Date**" (as such term is defined in the Confirmation); (ii) such date of determination; and (iii) the day on which a holder of the Reference Obligation would have actually received (in full) the coupon payment scheduled to be made on the coupon payment date for the Reference Obligation scheduled to occur immediately prior to such Interest Payment Date or Redemption Date respectively. No additional amounts shall be payable because of such adjustment.

If any Interest Payment Date or Redemption Date is adjusted in accordance with the preceding paragraph then such adjustment (and the corresponding payment obligations to be made on such dates) shall not be made in respect of Interest Period End Dates for the purpose of determining the Interest Calculation Periods.

(b) Adjustment to Optional Early Redemption Date

If the Valuation Date occurring on the Optional Early Redemption Date is not the date originally specified as such by the Issuer pursuant to Bond Linked Condition 3.2 (*Early Redemption at the Option of the Issuer following the*

Occurrence of a Call Option Event), then the Optional Early Redemption Payment Date shall be as soon as practicable after such Valuation Date, but in no event later than the day which is two Business Days after such Valuation Date. No additional amounts shall be payable to any Securityholder because of such adjustment.

(c) **Adjustment Amount**

Upon the occurrence of an Adjustment Event, the Issuer has the right to determine whether the Securities will continue in full force and effect, or, if applicable, whether the Securities will be subject to early redemption. If the Issuer determines that the Securities will continue in full force and effect, all amounts payable or deliverable by the Issuer in connection with the Securities (including without limitation, any Interest Amount, the Final Cash Settlement Amount, the Early Cash Settlement Amount, any amount due under the Call Option Settlement Terms, the Reference Currency Market Value Amount and the Settlement Currency Market Value Amount) will be reduced by the pro rata portion of any loss suffered or costs or expenses incurred or expected to be incurred by the Issuer or its agents or Affiliates as a result of the occurrence of the Adjustment Event or which would have been suffered or incurred assuming the Issuer or its agents or Affiliates had held and/or delivered the relevant Reference Obligation(s), as applicable, pursuant to the terms of these Bond Linked Conditions (including the aggregate of all costs, charges, taxes, expenses and duties of whatever nature incurred or expected to be incurred by or on behalf of the Issuer or its agents or Affiliates). The total amount of such losses or costs or expenses and the amounts to be deducted from payments due under the Securities (the "**Adjustment Amount**") will be determined by the Determination Agent. Unless specified as not applicable as an Additional Disruption Event in the Pricing Supplement, the occurrence of an Adjustment Event shall be an Additional Disruption Event and, accordingly, the Issuer may redeem the Securities early in accordance with Condition 5.4 (*Early redemption and/or adjustment following the occurrence of an Additional Disruption Event*) of the Base Conditions.

3.2 **Early Redemption at the Option of the Issuer following the Occurrence of a Call Option Event**

If 'Call Option' is specified to apply in the Pricing Supplement, the Call Option provisions set out in the Base Conditions shall not apply, and Condition 5.3 (*Early redemption at the option of the Issuer or following the occurrence of a Nominal Call Event*) of the Base Conditions shall, to the extent necessary, be deemed amended by the following provisions and shall be construed accordingly.

The Issuer has the right to redeem each Security in whole or in part (subject to the following sentence) at any time following the occurrence of a Call Option Event, whether or not such occurrence is continuing. The Issuer shall determine whether a Call Option Event has occurred. The Issuer may determine to redeem each Security in part where the Securities are linked to more than one Reference Obligation and a Call Option Event occurs with respect to one or more but not all of the relevant Reference Obligations.

Upon the Issuer electing to redeem the Securities following the occurrence of a Call Option Event, the Issuer shall give notice to the Securityholders of its intention to redeem the Securities, whether in whole or in part, on a date specified by the Issuer therein (such date, the "**Optional Early Redemption Date**") which date (i) shall, notwithstanding any adjustment pursuant to this Bond Linked Condition 3.2, be deemed to be a Valuation Date and (ii) may be designated (A) as early as the first day such notice is effective, which shall be no less than five Business Days following delivery of the relevant notice in accordance with the Base Conditions or (B) as a date after the scheduled Redemption Date, and which is subject to adjustment in accordance with the Following Business Day Convention or following the occurrence of a

Settlement Disruption Event and/or an FX Disruption Event. Following the occurrence of a Settlement Disruption Event with respect to some but not all Securities (or portion thereof subject to early redemption), the Issuer shall have the right to designate a different Optional Early Redemption Date in respect of each Security (or portion thereof subject to early redemption).

Notwithstanding the foregoing, the notice of a Call Option Event is effective when delivered by the Issuer to the Issue and Paying Agent, which will deliver such notice to the Securityholders in accordance with the Base Conditions, provided that delivery of, or failure to deliver, such notice to the Securityholders will not affect the effectiveness of any such notices delivered by the Issuer to the Issue and Paying Agent.

If notice of a Call Option Event has been delivered by the Issuer or if a Call Option Event has occurred and is continuing on any Interest Payment Date or the Redemption Date, no further payments will be due by the Issuer with respect to the Securities (or portion thereof subject to early redemption), except as set out under the Call Option Settlement Terms in Bond Linked Condition 6 below. If the Issuer exercises its rights pursuant to the Call Option, the payment and/or delivery obligations of the parties shall be determined by the Determination Agent, if necessary, as set out under the Call Option Settlement Terms in Bond Linked Condition 6 below, no other payments and/or deliveries shall be due in respect of the Securities (or portion thereof subject to early redemption) and upon satisfaction of such terms, the Issuer will be released from its obligations under the Securities (or portion thereof subject to early redemption).

4. Reference Obligation adjustments

If a Reference Obligation is subdivided, consolidated, reclassified or altered, or any other similar event occurs, then the Determination Agent will make such adjustments to the Conditions of the Securities (including, without limitation, the Reference Obligation Principal Amount, the identity of the relevant Reference Obligation and the principal amount of the relevant Reference Obligation) as it determines appropriate to account for such event. If a Reference Obligation is converted into other securities in accordance with the terms of any voluntary or involuntary exchange or restructuring programme following the occurrence of a Credit Event, such securities shall become the Reference Obligation(s) (it being understood that any elections under the terms of any such exchange or restructuring shall be made by the Determination Agent).

If 'Substitute Reference Obligations' is specified as being applicable in the Pricing Supplement, at any time following the occurrence of a Credit Event, the Issuer or any of its agents or Affiliates may replace all or some of the Reference Obligation(s) with (a) Substitute Reference Obligation(s) selected by it. If a Substitute Reference Obligation has replaced, in whole or in part, a Reference Obligation, the principal amount of the Reference Obligation that comprises the Substitute Reference Obligation in respect of each Security shall be calculated by the Determination Agent as the equivalent of the number of Substitute Reference Obligations that could have been purchased with the proceeds from the sale of such Reference Obligation assuming that the Reference Obligation had been sold at its Final Price on the date of the substitution (determined as if such day was the Optional Early Redemption Date), and the Determination Agent will make such adjustments to the Conditions of the Securities (including, without limitation, the Reference Obligation Principal Amount and the principal amount of the relevant Reference Obligations) as it determines appropriate to account for such substitution.

5. Early Redemption following the occurrence of an Additional Disruption Event

In addition to the rights of the Issuer set out in Condition 5.4 (*Early redemption and/or adjustment following the occurrence of an Additional Disruption Event*) of the Base Conditions, upon the occurrence of an Additional Disruption Event, the Issuer has the right to redeem the Securities in whole or in part (subject to the following sentence) at any time, whether or not such occurrence is continuing in accordance with these Bond Linked Conditions as if such Additional Disruption Event constituted a Call Option Event. The Issuer may determine to redeem each Security in part where the Securities are linked to more than

one Reference Obligation, and an Additional Disruption Event occurs with respect to one or more but not all of the relevant Reference Obligations. If the Issuer elects to redeem the Securities (whether in whole or in part) as if the relevant Additional Disruption Event constituted a Call Option Event, the payment and/or delivery obligations of the parties shall be determined by the Determination Agent, if necessary, as set out under the Call Option Settlement Terms below. No other payments and/or deliveries shall be due in respect of the Securities (or portion thereof subject to early redemption) and, upon satisfaction of such terms, the Issuer will be released from its obligations under the Securities.

6. Call Option Settlement Terms

6.1 Inconvertibility Event Settlement

If the Issuer exercises its right to redeem the Securities (whether in whole or in part) by exercise of the Call Option following the occurrence of an Inconvertibility Event, the Issuer will, subject to the Securityholder Failure to Act provisions in Bond Linked Condition 7 below, Bond Linked Conditions 6.3 (*Settlement Disruption Event following a Credit Event or a Credit Event and an Inconvertibility Event*) and 6.4 (*Settlement Disruption Event in the case of an Inconvertibility Event*) and Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, in its discretion, elect to redeem the Securities (whether in whole or in part) in accordance with one of the following options on the Optional Early Redemption Date:

- (a) pay to each Securityholder an amount per Calculation Amount equal to the Settlement Currency Market Value Amount per Security (or portion thereof subject to early redemption) on the Optional Early Redemption Payment Date; or
- (b) pay to each Securityholder, to such Securityholder's account in the Reference Obligation Jurisdiction (relating to the affected Reference Obligation(s)), an amount per Calculation Amount determined on the Optional Early Redemption Date denominated in the Reference Currency equal to the Reference Currency Market Value Amount per Security (or portion thereof subject to early redemption) on the Optional Early Redemption Payment Date, subject to such conditions that the Issuer, in its discretion, shall determine necessary prior to any such payment.

Following such payment, the Issuer's obligations in respect of the Securities (or portion thereof subject to early redemption) shall irrevocably cease.

All such amounts to be paid hereunder shall be reduced by the Applicable Taxes.

6.2 Credit Event Settlement

If the Issuer exercises its right to redeem the Securities by exercise of the Call Option following the occurrence of a Credit Event or a Credit Event and an Inconvertibility Event, the Issuer will, subject to the Securityholder Failure to Act provisions in Bond Linked Condition 7 below, Bond Linked Conditions 6.3 (*Settlement Disruption Event following a Credit Event or a Credit Event and an Inconvertibility Event*) and 6.4 (*Settlement Disruption Event in the case of an Inconvertibility Event*) and Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, in its discretion, elect to redeem the Securities in whole or in part, as provided in Bond Linked Condition 3.2 (*Early Redemption at the Option of the Issuer following the Occurrence of a Call Option Event*), in accordance with one of the following options on the Optional Early Redemption Date:

- (a) deliver a principal amount of the affected Reference Obligation(s) in an amount in respect of the Calculation Amount equal to the relevant Reference Obligation Principal Amount (or portion thereof subject to early redemption) divided by the Number of Securities Outstanding to each Securityholder on the Optional Early

Redemption Payment Date, subject to such conditions that the Issuer, in its discretion, shall determine necessary prior to any such delivery;

- (b) pay to each Securityholder an amount per Calculation Amount equal to the Settlement Currency Market Value Amount per Security (or portion thereof subject to early redemption) on the Optional Early Redemption Payment Date; or
- (c) pay to each Securityholder, to such Securityholder's account in the relevant Reference Obligation Jurisdiction(s), an amount per Calculation Amount determined on the Optional Early Redemption Date denominated in the relevant Reference Currency equal to the Reference Currency Market Value Amount per Security (or portion thereof subject to early redemption), subject to such conditions that the Issuer, in its discretion, shall determine necessary prior to any such payment.

Following such payment or delivery, the Issuer's obligations in respect of the Securities (or portion thereof subject to early redemption) shall irrevocably cease.

All such amounts or Reference Obligations to be paid or delivered hereunder shall be reduced by the Applicable Taxes or, in the case of a delivery, an amount of the Reference Obligations equal in value to the Applicable Taxes (determined by the Determination Agent by reference to the Final Price).

6.3 **Settlement Disruption Event following a Credit Event or a Credit Event and an Inconvertibility Event**

If the Issuer exercises its right to redeem the Securities, whether in whole or in part, pursuant to the Call Option provisions due to the occurrence of a Credit Event or a Credit Event and an Inconvertibility Event and a Settlement Disruption Event has occurred and is continuing with respect to the Securities held by one or more Securityholders on the Optional Early Redemption Payment Date, the obligations of the Issuer in respect of the Securities of such Securityholder(s) (as used in this Bond Linked Condition 6.3, the "**Affected Securityholders**") will be suspended in respect of the Securities of such Securityholder(s) until the earliest to occur of:

- (a) where relevant, the Settlement Disruption Event is no longer continuing with respect to delivery of the relevant Reference Obligation(s) (or any part thereof) to the Affected Securityholders, in which case the Issuer will, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, redeem each Security held by the relevant Affected Securityholders by delivering the relevant Reference Obligation(s) in a principal amount per Calculation Amount equal to the Reference Obligation Principal Amount divided by the Number of Securities Outstanding, as soon as reasonably practicable following the cessation of the Settlement Disruption Event, subject to such conditions that the Issuer, in its discretion, shall determine necessary prior to any such delivery;
- (b) where relevant, if an Inconvertibility Event is continuing, but the Settlement Disruption Event is no longer continuing with respect to payment of any Reference Currency amount, in which case the Issuer will, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, redeem each Security, whether in whole or in part, held by the relevant Affected Securityholders by paying to each Affected Securityholder, to such Securityholder's account in the relevant Reference Obligation Jurisdiction, an amount per Calculation Amount determined on the Optional Early Redemption Date denominated in the Reference Currency equal to the Reference Currency Market Value Amount per Security (determined as at the adjusted Optional Early Redemption Date relating to the relevant Security) as soon as reasonably practicable following the cessation of the Settlement

Disruption Event, subject to such conditions that the Issuer, in its discretion, shall determine necessary prior to any such payment;

- (c) where relevant, the Inconvertibility Event is no longer continuing, in which case the Issuer will, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, redeem each Security (or portion thereof subject to early redemption) held by the relevant Affected Securityholders by paying to each Affected Securityholder an amount per Calculation Amount in the Settlement Currency equal to the Settlement Currency Market Value Amount per Security (determined as at the adjusted Optional Early Redemption Date relating to the relevant Security (or portion thereof subject to early redemption)) converted from the Reference Currency into the relevant Settlement Currency by the Determination Agent at the FX Fixing on the Valuation Date which is the Optional Early Redemption Date, on the third Business Day after the cessation of the Inconvertibility Event; or
- (d) the occurrence of the Final Cut-off Date, following such date, unless otherwise specified in the Pricing Supplement, the Issuer will have no payment or delivery obligations to the relevant Affected Securityholders hereunder in respect of the Securities (or portion thereof subject to early redemption) and its obligations in respect of the Securities (or portion thereof subject to early redemption) shall cease.

No Affected Securityholder shall be entitled to any additional amount in the event of any delay in payment or delivery owed to it in respect of any Security (or portion thereof subject to early redemption) resulting from a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer and/or the Determination Agent.

6.4 Settlement Disruption Event in the case of an Inconvertibility Event

If the Issuer exercises its right to redeem the Securities or portion thereof pursuant to the Call Option provisions due to the occurrence of an Inconvertibility Event and a Settlement Disruption Event has occurred and is continuing with respect to the Securities held by one or more Securityholders on the Optional Early Redemption Payment Date, the obligations of the Issuer in respect of the Securities of such Securityholder(s) (as used in this Bond Linked Condition 6.4, the "**Affected Securityholders**") will be suspended until the earliest to occur of:

- (a) the Settlement Disruption Event is no longer continuing with respect to the payment of any Reference Currency amount, in which case the Issuer will, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, elect to redeem the Securities (or portion thereof subject to early redemption) held by the relevant Affected Securityholders in accordance with one of the options set out under the Inconvertibility Event Settlement provisions in Bond Linked Condition 6.1(a) or (b); or
- (b) the Inconvertibility Event is no longer continuing, in which case the Issuer will, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, redeem each Security (or portion thereof subject to early redemption) held by the relevant Affected Securityholders by paying to each Affected Securityholder an amount per Calculation Amount in the Settlement Currency equal to the Settlement Currency Market Value Amount per Security (determined as at the adjusted Optional Early Redemption Date relating to the relevant Security) converted from the Reference Currency into the Settlement Currency by the Determination Agent at the FX Fixing on the Valuation Date which is the Optional Early Redemption Date, on the third Business Day after the cessation of the Inconvertibility Event; or

- (c) the occurrence of the Final Cut-off Date, following such date, unless otherwise specified in the Pricing Supplement, the Issuer will have no payment or delivery obligations to the relevant Affected Securityholders in respect of the Securities (or portion thereof subject to early redemption) hereunder and its obligations in respect of the Securities (or portion thereof subject to early redemption) shall cease.

No Affected Securityholder shall be entitled to any additional amount in the event of any delay in payment or delivery owed to it in respect of any Security (or portion thereof subject to early redemption) resulting from a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer and/or the Determination Agent.

6.5 Issuer Optional Early Redemption Event Settlement

If 'Issuer Optional Early Redemption Event' is stated to be applicable in the Pricing Supplement and the Issuer exercises its right to redeem the Securities by exercise of the Call Option following the occurrence of an Issuer Optional Early Redemption Event, the Issuer will, subject to the Securityholder Failure to Act provisions in Bond Linked Condition 7 (*Securityholder Failure to Act*), Bond Linked Conditions 6.3 (*Settlement Disruption Event following a Credit Event or a Credit Event and an Inconvertibility Event*) and 6.4 (*Settlement Disruption Event in the case of an Inconvertibility Event*) and Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, in its discretion, elect to redeem the Securities in whole or in part, as provided in Bond Linked Condition 3.2 (*Early Redemption at the Option of the Issuer following the Occurrence of a Call Option Event*), on the Optional Early Redemption Date by paying to each Securityholder an amount per Security equal to the Settlement Currency Market Value Amount per Security (or portion thereof subject to early redemption) on the Optional Early Redemption Payment Date.

Following such payment, the Issuer's obligations in respect of the Securities (or the portion thereof subject to early redemption) shall irrevocably cease. All such amounts to be paid under this Bond Linked Condition 6.5 shall be reduced by the Applicable Taxes.

7. Securityholder Failure to Act

Commodities and commodity indices are generally divided into four main classes: (i) energy, which includes crude oil, unleaded gasoline, heating oil and natural gas; (ii) agriculture, which includes corn, soybeans, soybean oil, wheat, sugar, cocoa, cotton and coffee; (iii) livestock, which includes live cattle and lean hogs; and (iv) metals, which can be subdivided into base metals such as aluminium, copper, nickel, lead, tin and zinc, and precious metals such as gold, silver, platinum and palladium.

- (a) 'Applicable', then no date will be a Pricing Date unless such date is a day on which all referenced Commodity Reference Prices (for which such date would otherwise be a Pricing Date) are scheduled to be published or announced; and
- (b) 'Not Applicable', then if the Determination Agent determines either that:
 - (i) a Commodity Market Disruption Event has occurred or exists on the Pricing Date in respect of any Relevant Commodity and/or Commodity Index in the basket (the "**Affected Commodity**"), the Relevant Commodity Price for the Affected Commodity shall be determined in accordance with the first applicable Disruption Fallback that provides a Relevant Commodity Price; or

- (ii) a Pricing Date for the Basket of Commodities, falls on a day on which not all referenced Commodity Reference Prices are scheduled to be published or announced (other than as a result of a Commodity Market Disruption Event), such date shall be separately adjusted with respect to such Commodity and/or Commodity Index for which no Relevant Commodity Price can be determined (each, an "**Unavailable Reference Asset(s)**") in accordance with the Commodity Business Day Convention,

provided that the Relevant Commodity Price of each Relevant Commodity and/or Commodity Index within the basket which is not an Affected Commodity or an Unavailable Reference Asset(s) shall be determined on the scheduled Pricing Date.

4. **Correction to published prices**

- 4.1 For the purposes of determining or calculating a Relevant Commodity Price, in respect of a Pricing Date and a Reference Asset, if at any time, but no later than two Commodity Business Days prior to the payment date corresponding to such Pricing Date, the Determination Agent determines that the price or level published or announced and used by the Determination Agent to determine the Relevant Commodity Price in respect of such Pricing Date and such Reference Asset is subsequently corrected and the correction is published or announced by the relevant Price Source, the Determination Agent shall use the latest corrected price or level to recalculate the Relevant Commodity Price for such Pricing Date and such Reference Asset and any amounts payable by the Issuer to the Securityholders on the corresponding payment date. The Determination Agent shall notify the Issuer of any such correction, revised Relevant Commodity Price and revised amount payable.
- 4.2 Notwithstanding the foregoing, where the Determination Agent determines that the price or level published or announced and used, or to be used, by it to determine a Relevant Commodity Price in respect of a Pricing Date and a Reference Asset is expected to be subsequently corrected (the "**Expected Corrected Price**"), then the Determination Agent may delay the determination or calculation of the Relevant Commodity Price in respect of such Pricing Date and such Reference Asset and instead notify the Issuer of the expected correction, provided that the Determination Agent shall make its determination or calculation of the Relevant Commodity Price no later than two Commodity Business Days prior to the payment date corresponding to such Pricing Date (the "Correction Price Cut-off Date"). If the Expected Corrected Price is not calculated or determined on or prior to the Correction Price Cut-off Date, the Determination Agent shall determine the Relevant Commodity Price using either (a) the price or level of the Relevant Commodity or Commodity Index that was published or announced on such Pricing Date, or (b) the price or level of the Relevant Commodity or Commodity Index determined by it.

5. **Adjustments to Relevant Commodity and Commodity Index**

- 5.1 With respect to a Relevant Commodity which is subject to a Commodity Market Disruption Event other than Trading Disruption, notwithstanding the provisions of Commodity Linked Condition 2 (*Commodity Market Disruption Events and Disruption Fallback*) above but subject to any other adjustment or terms specified in the Pricing Supplement, if the Determination Agent determines that it is unable, or can no longer continue, to determine the Relevant Commodity Price for such Relevant Commodity by applying the applicable Disruption Fallback, the Determination Agent shall deem such Commodity Market Disruption Event to constitute an Additional Disruption Event for the purposes of these provisions and shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 5 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, in respect of the Securities.
- 5.2 With respect to a Commodity Index:

- (a) if the Determination Agent determines that:
 - (i) the Commodity Index is permanently cancelled or the Commodity Reference Price is not calculated and announced by the sponsor of such Commodity Index or any of its Affiliates (together, the "**Commodity Index Sponsor**") but (A) is calculated and announced by a successor sponsor (the "**Successor Commodity Index Sponsor**") acceptable to the Determination Agent, or (B) is replaced by a successor index (the "**Successor Commodity Index**") using, in the determination of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Relevant Commodity Price, then the Relevant Commodity Price will be deemed to be the price so calculated and announced by that Successor Commodity Index Sponsor or that Successor Commodity Index, as the case may be; and
 - (ii) the official closing price of any index, calculated and announced by the Commodity Index Sponsor, and which is included as a component of the Commodity Index (each an "**Individual Commodity Index**"), is not calculated and announced by the Commodity Index Sponsor but (A) is calculated and announced by a successor sponsor (the "**Successor Individual Commodity Index Sponsor**") acceptable to the Determination Agent, or (B) is replaced by a successor commodity index (the "**Successor Individual Commodity Index**") using, in the determination of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the official closing price of that Individual Commodity Index, then the official closing price will be deemed to be the price calculated in accordance with the formula for and methodology of the official closing price of the Individual Commodity Index announced by that Successor Individual Commodity Index Sponsor or that Successor Individual Commodity Index, as the case may be.
- (b) if the Determination Agent determines that in relation to:
 - (i) a Relevant Commodity Price: (A) the Commodity Index Sponsor makes a material change in the formula for or the method of calculating the Relevant Commodity Price or in any other way materially modifies such Commodity Index (other than a modification prescribed in that formula or method to maintain the Relevant Commodity Price in the event of changes in constituent commodities and weightings and other routine events), or (B) the Commodity Index Sponsor permanently cancels the Commodity Index, or (C) the Commodity Index Sponsor fails to calculate and announce the Commodity Index for a continuous period of three Trading Days and the Determination Agent determines that there is no Successor Commodity Index Sponsor or Successor Commodity Index (such events (A), (B) and (C) to be collectively referred to as "**Index Adjustment Events**"), then the Determination Agent may at its option (in the case of (A)) and shall (in the case of (B) and (C)) calculate the Relevant Commodity Price using, in lieu of the published level for that Commodity Index (if any), the level for that Commodity Index as at the relevant determination date as determined in accordance with the formula for and method of calculating that Commodity Index last in effect prior to the relevant Index Adjustment Event, but using only those futures contracts that comprised that Commodity Index immediately prior to the relevant Index Adjustment Event (other than those futures contracts that have ceased to be listed on any relevant exchange), provided always that:
 - (1) in the case of (B) above, if a Pre-nominated Index has been specified in the Pricing Supplement in respect of the cancelled Commodity Index, the cancelled Commodity Index shall be

replaced by such Pre-nominated Index with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Commodity Index with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology); and

- (2) if the Determination Agent determines that it is unable, or can no longer continue, to calculate the Relevant Commodity Price (or, in the case of (B) above, the cancelled Commodity Index is not replaced with a Pre-nominated Index), the Determination Agent shall deem such Index Adjustment Event to constitute an Additional Disruption Event for the purposes of these provisions and shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, in respect of the Securities;
- (ii) an Individual Commodity Index: (A) the Commodity Index Sponsor makes a material change in the formula for or the method of calculating the official closing price of an Individual Commodity Index or in any other way materially modifies an Individual Commodity Index (other than a modification prescribed in that formula or method to maintain the official closing price for the Individual Commodity Index in the event of changes in constituent commodities and weightings and other routine events), or (B) the Commodity Index Sponsor permanently cancels an Individual Commodity Index, or (C) the Commodity Index Sponsor fails to calculate and announce the official closing price for an Individual Commodity Index for a continuous period of three Trading Days and the Determination Agent determines that there is no Successor Individual Commodity Index Sponsor or Successor Individual Commodity Index (such events (A), (B) and (C) to be collectively referred to as "Individual Commodity Index Adjustment Events"), then the Determination Agent may at its option (in the case of (A)) and shall (in the case of (B) and (C)) calculate the official closing price of such Individual Commodity Index using, in lieu of the published level for that Individual Commodity Index (if any), the level for that Individual Commodity Index as at the relevant determination date as determined in accordance with the formula for and method of calculating the official closing price of that Individual Commodity Index last in effect prior to the relevant Individual Commodity Index Adjustment Event, but using only those futures contracts that comprised that Individual Commodity Index immediately prior to the relevant Individual Commodity Index Adjustment Event (as the case may be) (other than those futures contracts that have ceased to be listed on any relevant exchange), provided always that:
 - (1) in the case of (B) above, if a Pre-nominated Index has been specified in the Pricing Supplement in respect of the cancelled Individual Commodity Index, the cancelled Individual Commodity Index shall be replaced by such Pre-nominated Index

with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Commodity Index with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology); and

- (2) if the Determination Agent determines that it is unable, or can no longer continue, to calculate the Individual Commodity Index (or, in the case of (B) above, the cancelled Individual Commodity Index is not replaced with a Pre-nominated Index), the Determination Agent shall deem such Index Adjustment Event to constitute an Additional Disruption Event for the purposes of these provisions and shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, in respect of the Securities; and

- (c) any other adjustment specified in the Pricing Supplement.

6. **Adjustments to Payment Dates, Exercise Dates and Settlement Dates**

Notwithstanding anything to the contrary in the Base Conditions, if, as a result of a delay or postponement pursuant to the occurrence of a Commodity Market Disruption Event or Index Adjustment Event, a Relevant Commodity Price used to determine (i) whether any right may be exercised or (ii) any amount payable or deliverable on any date specified in the Pricing Supplement is unavailable, such determination and/or date will, subject to the Pricing Supplement, be delayed or postponed to fall on the second Business Day following the determination of the Relevant Commodity Price under the Disruption Fallback provision or Adjustments to Commodity Index provision as determined by Determination Agent.

No additional amounts shall be payable or deliverable by the Issuer to any Securityholder as a result of any such delay or postponement.

7. **Commodity Business Day Convention**

If any date applicable to a Commodity Linked Security that is specified to be subject to adjustment in accordance with a Commodity Business Day Convention would otherwise fall on a day that is not a Commodity Business Day, such date will be adjusted according to the Commodity Business Day Convention specified in the Pricing Supplement.

If the Commodity Business Day Convention is:

- (a) 'Following', such date shall be postponed to the next day that is a Commodity Business Day;
- (b) 'Modified Following', such date shall be postponed to the next day that is a Commodity Business Day, unless it would thereby fall into the next calendar month, in which event

such date shall be brought forward to the immediately preceding Commodity Business Day;

- (c) 'Nearest', such date will be the first preceding day that is a Commodity Business Day if the relevant date otherwise falls on a day other than a Sunday or a Monday and will be the first following day that is a Commodity Business Day if the relevant date otherwise falls on a Sunday or a Monday; or
- (d) 'Preceding', such date shall be brought forward to the immediately preceding Commodity Business Day.

 - (ii) a material limitation, suspension or disruption of trading in (A) one or more of the futures contracts included, directly or indirectly, in the Commodity Reference Price or (B) any other contract which is customarily traded on the applicable exchange or other price source in order to hedge any futures contract or index included, directly or indirectly, as a component in the Commodity Reference Price; or
 - (iii) the settlement price for (A) any futures contract included, directly or indirectly, in the Commodity Reference Price or (B) any other contract which is customarily traded on the applicable exchange or other price source in order to hedge any futures contract or index included, directly or indirectly, as a component in the Commodity Reference Price, is a 'limit price', which means

that the closing price for such contract for a day has increased or decreased from the previous day's closing price by the maximum amount permitted under applicable exchange rules; or

- (iv) the scheduled or unscheduled closure, or unscheduled early closure, whether due to a public holiday or otherwise, of an exchange on which any futures contract included, directly or indirectly, as a component in the Commodity Reference Price is traded; or

"Delayed Publication or Announcement" means, in respect of a Disruption Fallback, that the Relevant Commodity Price for a Pricing Date will be determined based on the Specified Price in respect of the original day scheduled as such Pricing Date that is published or announced by the relevant Price Source retrospectively on the first succeeding Commodity Business Day on which the Commodity Market Disruption Event ceases to exist, unless that Commodity Market Disruption Event continues to exist (measured from and including the original day that would otherwise have been the Pricing Date), or the Relevant Commodity Price continues to be unavailable, for two consecutive Commodity Business Days.

"Determination Agent Determination" means, in respect of a Disruption Fallback, the Determination Agent will determine the Relevant Commodity Price (or a method for determining the Relevant Commodity Price), taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that it deems relevant.

A Disruption Fallback is applicable (in the order specified, if any) if it is specified in the Pricing Supplement or, if no Disruption Fallback is specified in the Pricing Supplement, the following Disruption Fallbacks shall be deemed to have been specified:

- (a) with respect to a Relevant Commodity (in the following order):
 - (i) Fallback Reference Price (if applicable);
 - (ii) Delayed Publication or Announcement and Postponement (each to operate concurrently with the other and each subject to a period of two consecutive Commodity Business Days of disruption (measured from and including the original day that would otherwise have been the Pricing Date); provided, however, that the price determined by Postponement shall be the Relevant Commodity Price only if Delayed Publication or Announcement does not yield a Relevant Commodity Price within that two consecutive Commodity Business Days period); and
 - (iii) Determination Agent Determination; and
- (b) with respect to a Commodity Index, the following fallback determination mechanism:

- (i) with respect to each futures contract or index included directly or indirectly as a component in the Commodity Reference Price which is not affected by the Commodity Market Disruption Event, the Relevant Commodity Price will be based on the settlement prices of each such contract or official closing price of such index on the applicable determination date;
- (ii) with respect to each futures contract or index included directly or indirectly as a component in the Commodity Reference Price which is affected by the Commodity Market Disruption Event, the Relevant Commodity Price will be based on the settlement prices of each such contract the official closing price of such or index on the first day following the applicable determination date on which no Commodity Market Disruption Event is occurring with respect to such contract or index (as the case may be);
- (iii) subject to (iv) below, the Determination Agent shall determine the Relevant Commodity Price by reference to the settlement prices or official closing prices determined in (i) and (ii) above using the then-current method for calculating the Relevant Commodity Price; and
- (iv) where a Commodity Market Disruption Event with respect to one or more futures contracts or indices included directly or indirectly as a component in the Commodity Reference Price continues to exist (measured from and including the first day following the applicable determination date) for five consecutive Trading Days, the Determination Agent shall determine the Relevant Commodity Price in a commercially reasonable manner.

"Postponement" means, in respect of a Disruption Fallback, that the Pricing Date will be deemed, for purposes of the application of this Disruption Fallback only, to be the first succeeding Commodity Business Day on which the Commodity Market Disruption Event ceases to exist, unless that Commodity Market Disruption Event continues to exist for two consecutive Commodity Business Days (measured from and including the original day that would otherwise have been the Pricing Date).

"Price Source Disruption" means, in respect of a Commodity Market Disruption Event, (a) the failure of the Price Source to announce or publish the Specified Price (or the information necessary for determining the Specified Price) for the relevant Commodity Reference Price; or (b) the temporary or permanent discontinuance or unavailability of the Price Source.

on the applicable exchange or whose price is published by another price source and is used in order to hedge any futures contract included as a component in the Relevant Commodity Price or in any additional futures contract, options contract or commodity on any Exchange as specified in the Pricing Supplement. For these purposes:

- (a) a suspension of the trading in the Futures Contract or the Relevant Commodity or any other contract which is customarily traded on the applicable exchange or other price source in order to hedge any futures contract included as a component in the Relevant Commodity Price on any Commodity Business Day shall be deemed to be material only if:

 - (ii) all trading in the Futures Contract or the Relevant Commodity is suspended subsequent to the opening of trading on the Pricing Date, trading does not recommence prior to the regularly scheduled close of trading in such Futures Contract or such Relevant Commodity on such Pricing Date and such suspension is announced less than one hour preceding its commencement; and
- (b) a limitation of trading in the Futures Contract or the Relevant Commodity or any other contract which is customarily traded on the applicable exchange or other price source in order to hedge any futures contract included as a component in the Relevant Commodity Price on any Commodity Business Day shall be deemed to be material only if the relevant Exchange establishes limits on the range within which the price of the Futures Contract or the Relevant Commodity may fluctuate and the closing or settlement price of the Futures Contract or the Relevant Commodity on such day is at the upper or lower limit of that range.

DESCRIPTION

1. Brief description of Credit Linked Securities

Credit Linked Securities are Securities in respect of which the payments of interest and/or repayment of principal and/or amount deliverable on redemption at maturity, or prior to maturity, will be calculated by reference to and/or contingent upon the occurrence of a Credit Event with respect to one or more Reference Entities and/or certain obligations of one or more Reference Entities ("**Credit Linked Securities**").

Prospective investors are referred to the factors set out in the section headed '*Risk Factors*' of this Offering Circular and in particular to the section entitled '*Risk Factors relating to Credit Linked Securities*' which begins on page 79.

PART B

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES

*The terms and conditions applicable to Credit Linked Securities shall comprise the Base Conditions and the additional terms and conditions set out below (the "**Credit Linked Conditions**"), in each case subject to completion and/or amendment in the Pricing Supplement. In the event of any inconsistency between the Base Conditions and the Credit Linked Conditions set out below, the Credit Linked Conditions shall prevail. In the event of any inconsistency between (i) the Base Conditions and/or the Credit Linked Conditions and (ii) the Pricing Supplement, the Pricing Supplement shall prevail. This Credit Linked Annex is a Product Annex and a Relevant Annex for the purposes of the Base Conditions and any Securities if specified to be Credit Linked Securities in the Pricing Supplement. Capitalised terms used herein but not otherwise defined shall have the meanings given to them in the Base Conditions or the Pricing Supplement.*

1. Types of Credit Linked Securities

Credit Linked Securities may be Single Name CLSs, Nth-to-Default CLSs or Portfolio CLSs, or such other type of Security as described in the Pricing Supplement.

2. Credit Event Determinations and consequences

2.1 Credit Event Determination

The Issuer may, at any point during the Notice Delivery Period (or if applicable, the Post Dismissal Additional Period), deliver a Credit Event Notice (provided that an Event Determination Date may only occur following the Scheduled Redemption Date where an Extension Notice has been delivered) in accordance with the provisions of these Credit Linked Conditions and the Pricing Supplement.

The Issuer's determination of a Credit Event will, in the absence of manifest error and subject to the 'Event Determination Date' definition, be conclusive and binding on all persons (including, without limitation, the Securityholders). Neither the Issuer nor the Issue and Paying Agent will have any liability whatsoever for the failure of the Issuer for any reason to determine that a Credit Event has occurred or with respect to the Issuer's timing as to when to deliver a Credit Event Notice, Notice of Publicly Available Information or Notice of Physical Settlement, nor will they have any duty or responsibility to investigate or check whether any Credit Event has, or may have, occurred or may be continuing.

2.2 Relevant Credit Events

If a Relevant Event Determination Date has occurred in respect of a Reference Entity on or prior to the Scheduled Redemption Date, or if applicable, the Securities Extension Date, and provided that the Securities have not previously been redeemed or cancelled in full then, notwithstanding anything to the contrary in Conditions 26 (*Contractual acknowledgement of bail-in in respect of Swiss Securities*), 27 (*Contractual acknowledgement of bail-in in respect of French Securities*), 4 (*Interest*), 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*)

or 7 (*Settlement*) of the Base Conditions, unless otherwise specified in the Pricing Supplement:

- (a) interest will cease to accrue as at the Interest Expiration Date; and
- (b) the Issuer may redeem each Cash Settled CLS at the Credit Event Redemption Amount on the Credit Event Redemption Date and each Physically Delivered CLS by Delivery of the Deliverable Obligations Portfolio on or before the Final Delivery Date, subject to and in accordance with, the provisions of these Credit Linked Conditions and the Pricing Supplement.

If the Issuer elects to redeem the Securities in accordance with (b) above, the Issuer shall deliver, or may cause the Issue and Paying Agent at the expense of the Issuer to deliver, a notice (a "**Credit Event Redemption Notice**") in accordance with Credit Linked Condition 7 (*Notices*) to the Securityholders, with a copy to the Determination Agent and the Issue and Paying Agent. The Credit Event Redemption Notice will:

- (i) identify the Series to which the Credit Event Redemption Notice relates;
- (ii) state the Issuer's intention to redeem the Securities pursuant to Credit Linked Condition 3 (*Redemption of Cash Settled CLSs*) or 4 (*Redemption of Physically Delivered Securities*), as applicable; and
- (iii) if 'Issuer CLS Settlement Option' is specified as applicable in the Pricing Supplement, state the CLS Settlement Method that shall apply to the Securities.

If a Credit Event Notice, Notice of Publicly Available Information or, if applicable, Notice of Physical Settlement specifies the information required to be specified in a Credit Event Redemption Notice, such notice will be deemed to be a Credit Event Redemption Notice.

2.3 Credit Event Notice after M(M)R Restructuring

Upon the occurrence of an M(M)R Restructuring:

- (a) the Issuer may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring, each such Credit Event Notice setting forth the portion of the Aggregate Nominal Amount (in the case of Notes) or the portion of the Security (by reference to its applicable Calculation Amount, determined on or about the date of the Credit Event Notice) (in the case of Certificates) with respect to each Security to which such Credit Event Notice applies (the aggregate of such amounts with respect to a Series being the "**Exercise Amount**");
- (b) if the Issuer has delivered a Credit Event Notice that specifies an Exercise Amount that is less than the Aggregate Nominal Amount (in the case of Notes) or the whole Security (or Calculation Amount thereof, determined on or about the date of the Credit Event Notice) (in the case of Certificates), as applicable, the rights and obligations of the Issuer shall, with effect from the date such Credit Event Notice is effective, be construed as if the Issuer had issued two Securities, one of which has an Aggregate Nominal Amount (in the case of Notes) or Calculation Amount (in the case of Certificates) equal to the Exercise Amount and will be settled (and, if applicable, redeemed) in accordance with the applicable CLS Settlement Method, and the other of which will have an Aggregate Nominal Amount (in the case of Notes) or Calculation Amount (in the case of Certificates) equal to the Aggregate Nominal Amount or Calculation Amount, as applicable, immediately prior to such Credit Event Notice minus such Security's pro rata share of the Exercise Amount, and will continue in effect with such modifications required as determined by the Determination Agent to preserve the economic effects of the two Securities considered in the aggregate; and

- (c) the Exercise Amount in connection with a Credit Event Notice describing an M(M)R Restructuring must be an amount that is at least 1,000,000 units of the Settlement Currency (or, if Japanese Yen, 100,000,000 units) or an integral multiple thereof or the entire then outstanding Aggregate Nominal Amount, if the Securities are Notes, or the aggregate Calculation Amount of the aggregate number of Certificates outstanding on or about the date of the relevant Credit Event Notice, as applicable. If no Exercise Amount is specified by the Issuer, the Exercise Amount shall be deemed to be the then outstanding Aggregate Nominal Amount or the aggregate Calculation Amount of the aggregate number of Certificates outstanding on or about the date of the relevant Credit Event Notice, as applicable.

Upon redemption of part of each such Credit Linked Security, the relevant Credit Linked Security, or, if the Credit Linked Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial redemption.

2.4 Redemption Date and Deferred Redemption Date

Reference in Condition 5.1 (*Redemption and redemption by instalments*) of the Base Conditions to the Redemption Date shall be to the Scheduled Redemption Date or, where an Extension Notice is given, the Deferred Redemption Date. Notwithstanding anything to the contrary in Conditions 26 (*Contractual acknowledgement of bail-in in respect of Swiss Securities*), 27 (*Contractual acknowledgement of bail-in in respect of French Securities*) and 4(a) (*Interest*) of the Base Conditions, in addition to amounts of interest (if any) accrued in accordance with the Credit Linked Conditions, in respect of the Extended Interest Period (if any), unless 'Extension Interest' is specified as not applicable in the Pricing Supplement and no Relevant Event Determination Date occurs on or prior to the Securities Extension Date, interest ("**Extension Interest**") on each interest-bearing Credit Linked Security will be payable in arrears on the Deferred Redemption Date in an amount determined by the Determination Agent equal to the sum for each day in the Extended Interest Period of the product of (i) the Calculation Amount on such day, (ii) the Barclays Bank PLC overnight deposit rate quoted by the Issuer (or any of its Affiliates) for deposits in the Settlement Currency for such day and (iii) 1/360. If 'Extension Interest' is specified as not applicable in the Pricing Supplement, no amount of Extension Interest or other interest shall accrue or be payable on each such Credit Linked Security in respect of any period on or following the Scheduled Redemption Date, notwithstanding that the Deferred Redemption Date occurs following such date.

If: (i) 'Grace Period Extension' is specified as applicable in the Pricing Supplement; (ii) a Potential Failure to Pay occurs on or prior to the Scheduled Redemption Date; and (iii) an Event Determination Date in respect of that Failure to Pay does not occur on or prior to the last day of the Notice Delivery Period (including prior to the Trade Date), the Credit Linked Securities will be redeemed on the Deferred Redemption Date.

3. Redemption of Cash Settled CLSs

3.1 Redemption at Credit Event Redemption Amount

Notwithstanding anything to the contrary in Condition 5 (*Redemption of Securities that are Notes or Certificates*) of the Base Conditions, following delivery of a Credit Event Redemption Notice in relation to a Cash Settled CLS, each Credit Linked Security will be redeemed at its Credit Event Redemption Amount on the Credit Event Redemption Date.

3.2 Redemption at Fixed Recovery

If 'Fixed Recovery' is specified as applicable in the Pricing Supplement (the "**Fixed Recovery CLS Provisions**") the following amendments shall be made to these Credit Linked Conditions. In the event of any inconsistency between this Credit Linked Condition 3.2 (*Redemption at Fixed Recovery*) and any other Credit Linked Condition this Credit Linked Condition 3.2 will govern.

- (a) If the Fixed Recovery CLS Provisions apply then for the purposes of the method of settlement, the following elections are deemed to have been made in the Pricing Supplement:

CLS Settlement Method: Cash Settlement

Fallback CLS Settlement Method: Not applicable

- (b) In Part C, section 1 (*Certain general definitions relating to Credit Linked Securities*), paragraph "Settlement Suspension and Effect of DC Resolutions", the first sub-paragraph shall be amended by deleting the words "Physical Settlement Date or, to the extent applicable, a CLS Valuation Date" and replacing them with the words "Credit Event Redemption Date".

- (c) In Part C, section 6 (*Terms relating to Cash Settlement*), the definition of 'Credit Event Redemption Date' shall be deleted and replaced as follows:

"Credit Event Redemption Date" means, subject to Paragraph "Settlement Suspension and Effect of DC Resolutions" in Part C, section 1 (*Certain general definitions relating to Credit Linked Securities*), either:

- (i) The date that is the number of Business Days specified in the related Pricing Supplement (or, if a number of Business Days is not so specified, five Business Days) following either:

- (1) if an Event Determination Date is determined, the third Business Day following such Event Determination Date; provided that no Credit Event Resolution Request Date occurs on or before such third Business Day;
- (2) subject to sub-paragraph (i)(1) above, if a DC Credit Event Question Dismissal occurs, the later of (A) the Event Determination Date and (B) the date of such DC Credit Event Question Dismissal;
- (3) subject to sub-paragraph (ii) below, if an Event Determination Date occurs and an Auction Cancellation Date occurs or one or more Parallel Auction Cancellation Dates occur, the last such Auction Cancellation Date or Parallel Auction Cancellation Date;
- (4) subject to sub-paragraph (i)(1) above, if the relevant Credit Event in respect of which the Event Determination Date occurred is not an M(M)R Restructuring and a No Auction Announcement Date described in clause (a) or (c) of the definition 'No Auction Announcement Date' in Part C, section 7 (*Terms relating to Auction Settlement*) occurs, such No Auction Announcement Date; or
- (5) subject to sub-paragraph (ii) below, if the relevant Credit Event in respect of which the Event Determination occurred is an M(M)R Restructuring and a No Auction Announcement Date described in clause (a) or (c) of the definition 'No Auction Announcement Date' in Part C, section 7 (*Terms relating to Auction Settlement*) occurs, the Exercise Cut-off Date; or

- (ii) if an Event Determination Date occurs and an Auction Settlement Date or a Parallel Auction Settlement Date (as defined in the Transaction Auction Settlement Terms) occurs, the first such Auction Settlement Date or Parallel Auction Settlement Date to occur.

- (d) The definition 'Final Price' in Part C, section 6 (*Terms relating to Cash Settlement*) shall be deleted and replaced as follows:

"Final Price" means the percentage specified as such in the Pricing Supplement.

- (e) The definition 'CLS Valuation Date' in Part C, section 6 (*Terms relating to Cash Settlement*) shall be deleted, and, for the avoidance of doubt, a CLS Valuation Date will not occur.
- (f) The definition 'Transaction Auction Settlement Terms' in Part C, section 7 (*Terms relating to Auction Settlement*) shall be amended by deleting the words "the relevant Reference Entity and Reference Obligation" replacing them with the words "Equivalent Auction-Settled Securities".
- (g) The definition 'Parallel Auction Settlement Terms' in Part C, section 7 (*Terms relating to Auction Settlement*) shall be amended by adding the words "and for which the Securities would be Equivalent Auction-Settled Transaction" before the full stop.
- (h) **"Equivalent Auction-Settled Securities"** means, the Fixed Recovery CLS Provisions apply, a hypothetical issuance of Securities (a) on the same terms as the Securities, except that the Fixed Recovery CLS Provisions shall be deemed to not have been specified in the Pricing Supplement, and (b) for which an Event Determination Date will be deemed to have occurred if an Event Determination Date had occurred for purposes of such Securities.

4. **Redemption of Physically Delivered Securities**

4.1 **Redemption of Physically Delivered CLSs**

Notwithstanding anything to the contrary in Condition 5 (*Redemption of Securities that are Notes or Certificates*) of the Base Conditions, following delivery of a Credit Event Redemption Notice in relation to a Physically Delivered CLS, each Credit Linked Security will be redeemed by Delivery of such Security's pro rata share (on a per Calculation Amount basis, determined on or about the date of the Credit Event Redemption Notice) of the Deliverable Obligations Portfolio, subject to and in accordance with this Credit Linked Condition 4.

4.2 **Delivery of Deliverable Obligations on shortfall**

Subject to Credit Linked Condition 4.4 (*Partial Cash Settlement due to Impossibility or Illegality*), and unless otherwise elected by the Issuer in accordance with the Issuer CLS Settlement Option, if all or any part of the Deliverable Obligations Portfolio to be Delivered to a Securityholder is not a whole integral multiple of the smallest unit of transfer for any such Deliverable Obligation at the relevant time of Delivery, the Issuer will Deliver and such Securityholder will only be entitled to receive the portion of the Deliverable Obligations Portfolio specified by the Determination Agent which is closest to but less than the full Deliverable Obligations Portfolio, after consideration of such smallest unit or units of transfer (such portion of the Deliverable Obligations Portfolio that is not so Delivered being a **"Delivery Shortfall"**), and the Issuer will pay to such Securityholder in the Settlement Currency at the same time as such Delivery an amount in cash equal to the value of such Delivery Shortfall.

4.3 **Delivery of Deliverable Obligations Portfolio**

Delivery of the Deliverable Obligations Portfolio shall be made in accordance with Condition 7.2 (*Physical Settlement by delivery of the Entitlement*) of the Base Conditions as if references to 'Entitlement' were to the relevant Securityholder's share of the Deliverable Obligations Portfolio and references to 'Physical Delivery Date' were to the relevant Delivery Date, subject to adjustment as provided in this Credit Linked Condition 4.

Subject to the rest of this Credit Linked Condition 4, the Issuer may Deliver only the Deliverable Obligations specified in the Notice of Physical Settlement and only in the amounts specified therein. The Issuer may continue to attempt to Deliver the whole of

the Deliverable Obligations specified in the Notice of Physical Settlement (i) in the case of Deliverable Obligations that are Bonds or Loans, or Assets forming part of an Asset Package after the Physical Settlement Date and (ii) in the case of Deliverable Obligations that are not Bonds or Loans, or Assets forming part of an Asset Package for an additional five Business Days after the Physical Settlement Date.

Until the date on which the Deliverable Obligations Portfolio has been fully Delivered (or, if applicable, the Latest Permissible Physical Settlement Date), the Issuer or any other person (whether or not on behalf of the Issuer) may continue to be the legal owner of the Deliverable Obligations comprising the Deliverable Obligations Portfolio which are not possible, practical or legal to deliver. None of the Issuer nor any such other person will: (a) be under any obligation to deliver or procure delivery to the relevant Securityholder or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by the Issuer or that person; (b) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such Deliverable Obligations comprising the Deliverable Obligations Portfolio until the date on which the Deliverable Obligations Portfolio has been fully Delivered (or, if applicable, the Latest Permissible Physical Settlement Date); (c) be under any liability to such Securityholder or any other person in respect of any loss or damage which such Securityholder or other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any person (whether or not on behalf of the Issuer) being the legal owner of such Deliverable Obligations comprising the Deliverable Obligations Portfolio until the date on which the Deliverable Obligations Portfolio has been fully Delivered (or, if applicable, the Latest Permissible Physical Settlement Date); or (d) have any liability whatsoever to such Securityholder or any other person if, as a result of a Redemption Failure Event or for any other reason whatsoever (including, without limitation, Credit Linked Conditions 4.4 (*Partial Cash Settlement due to Impossibility or Illegality*) to 4.8 (*Alternative Procedures Relating to Loans not Delivered*)), it is unable to effect Delivery of any Deliverable Obligations comprising the Deliverable Obligations Portfolio and its obligations hereunder are deemed to be fully discharged in accordance with the Credit Linked Conditions.

4.4 **Partial Cash Settlement due to Impossibility or Illegality**

Unless otherwise specified in the Pricing Supplement if, due to an event beyond the control of the Issuer, it is impossible, impracticable (including if unduly burdensome) or illegal for the Issuer to Deliver, or due to an event beyond the control of the Issuer it is impossible, impracticable (including if unduly burdensome) or illegal for any Securityholder (the "**Affected Securityholder**", which term shall apply to the relevant Securityholder in this Credit Linked Condition 4) to accept Delivery of, any of the Deliverable Obligations (other than a Prior Deliverable Obligation or any Package Observable Bond) specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable on the Physical Settlement Date (including, without limitation, failure of the relevant clearance system or due to any law, regulation or court order, but excluding market conditions or the failure to obtain any requisite consent with respect to the Delivery of Loans) (the "**Undeliverable Obligation**"), then on or before such date (i) the Issuer shall Deliver and the Affected Securityholder shall take Delivery of any of the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable for which it is possible and legal to take Delivery and (ii) the Issuer shall provide a description in reasonable detail of the facts giving rise to such impossibility, impracticability or illegality, and 'Cash Settlement' pursuant to the Partial Cash Settlement Terms in Credit Linked Condition 4.9 (*Partial Cash Settlement Terms*) shall apply to each Undeliverable Obligation.

4.5 **Partial Cash Settlement of Consent Required Loans**

Unless otherwise specified in the Pricing Supplement, if:

- (a) the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice include Consent Required Loans that, due to the non-receipt of any requisite consents, are not, on the Physical Settlement Date,

capable of being assigned or novated to the Affected Securityholder and such consents are not obtained or deemed given by the Latest Permissible Physical Settlement Date; and

- (b) 'Direct Loan Participation' is not specified as a Deliverable Obligation Characteristic in the Pricing Supplement or 'Direct Loan Participation' is specified as a Deliverable Obligation Characteristic in the Pricing Supplement and the relevant participation is not effected on or before the Latest Permissible Physical Settlement Date,

Cash Settlement pursuant to the Partial Cash Settlement Terms in Credit Linked Condition 4.9 (*Partial Cash Settlement Terms*) shall be deemed to apply to the Securities with respect to the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable that consist of Consent Required Loans for which consents are not obtained or deemed given (the "**Undeliverable Loan Obligations**").

4.6 **Partial Cash Settlement of Assignable Loans**

Unless otherwise specified in the Pricing Supplement, if:

- (a) the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, include Assignable Loans that, due to the non-receipt of any requisite consents, are not, on the Physical Settlement Date, capable of being assigned or novated to the Affected Securityholder and such consents are not obtained or deemed given by the Latest Permissible Physical Settlement Date; and
- (b) 'Direct Loan Participation' is not specified as a Deliverable Obligation Characteristic in the Pricing Supplement or 'Direct Loan Participation' is specified as a Deliverable Obligation Characteristic in the Pricing Supplement and the relevant participation is not effected on or before the Latest Permissible Physical Settlement Date,

Cash Settlement pursuant to the Partial Cash Settlement Terms in Credit Linked Condition 4.9 (*Partial Cash Settlement Terms*) shall be deemed to apply to the Securities with respect to the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable that consist of Assignable Loans for which consents are not obtained or deemed given (the "**Unassignable Obligations**").

4.7 **Partial Cash Settlement of Participations**

Unless otherwise specified in the Pricing Supplement, if the Deliverable Obligations include Direct Loan Participations and the relevant participation is not effected on or before the Latest Permissible Physical Settlement Date, cash settlement pursuant to the Partial Cash Settlement Terms shall be deemed to apply to the Credit Linked Securities with respect to the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable that consist of Direct Loan Participations in respect of which the relevant participation is not effected (the "**Undeliverable Participations**").

4.8 **Alternative Procedures Relating to Loans not Delivered**

If the Issuer has not Delivered any Deliverable Obligations specified in the Notice of Physical Settlement that are Loans (other than any Loan which is (i) a Prior Deliverable Obligation which the Issuer has notified Securityholders it intends to Deliver an Asset Package in lieu thereof or (ii) forms part of an Asset Package which the Issuer has notified Securityholders it intends to Deliver) on or prior to the date that is five Business Days after the Physical Settlement Date (the "**Loan Alternative Procedure Start Date**"), the following provisions shall apply unless (i) Reference Obligations Only has been specified as the Deliverable Obligation Category in the Pricing

Supplement, (ii) in the case of a Consent Required Loan, 'Partial Cash Settlement of Consent Required Loans Applicable' is specified in the Pricing Supplement (in which case Credit Linked Condition 4.5 (*Partial Cash Settlement of Consent Required Loans*) shall apply), (iii) in the case of an Assignable Loan, 'Partial Cash Settlement of Assignable Loans' is specified as applicable in the Pricing Supplement (in which case Credit Linked Condition 4.6 (*Partial Cash Settlement of Assignable Loans*) shall apply), (iv) in the case of a Direct Loan Participation, 'Partial Cash Settlement of Participations' is specified as applicable in the Pricing Supplement (in which case Credit Linked Condition 4.7 (*Partial Cash Settlement of Participations*) shall apply) or (v) in any case, such failure to Deliver is due to an event described in Credit Linked Condition 4.4 (*Partial Cash Settlement due to Impossibility or Illegality*) (in which case Credit Linked Condition 4.4 (*Partial Cash Settlement due to Impossibility or Illegality*) shall apply).

In the event that the Issuer has failed to obtain the requisite consents to Deliver a Loan specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, and has provided a certificate signed by a Managing Director (or other substantively equivalent title) of the Issuer, which certifies that Issuer has used reasonable efforts to obtain such consents, at any time following the Loan Alternative Procedure Start Date, the Issuer may Deliver, in lieu of all or part of such Loan, any Bond that is Transferable and Not Bearer or any Assignable Loan, in either case selected by the Issuer and having on both the Physical Settlement Date and the Delivery Date each of the Deliverable Obligation Characteristics (other than Consent Required Loan or Direct Loan Participation), if any, specified in the Pricing Supplement and otherwise satisfying the requirements to constitute a Deliverable Obligation (and such instrument shall be deemed specified in the NOPS Amendment Notice which will be effective notwithstanding the fact that it is deemed specified after the Physical Settlement Date).

4.9 Partial Cash Settlement Terms

Unless otherwise specified in the Pricing Supplement, the following terms are deemed to be defined as follows for the purposes of the Partial Cash Settlement Terms referred to in Credit Linked Conditions 4.4 (*Partial Cash Settlement due to Impossibility or Illegality*) to 4.8 (*Alternative Procedures Relating to Loans not Delivered*):

- (a) If 'Cash Settlement' is deemed to apply pursuant to Credit Linked Conditions 4.4 (*Partial Cash Settlement due to Impossibility or Illegality*) to 4.8 (*Alternative Procedures Relating to Loans not Delivered*), the portion of the Deliverable Obligations Portfolio corresponding to the applicable Undeliverable Obligation, Undeliverable Loan Obligation, Undeliverable Participation or Unassignable Obligation (each an "**Undeliverable Deliverable Obligation**") shall not consist of such Undeliverable Deliverable Obligation, but shall consist of an amount equal to the Outstanding Principal Balance or Due and Payable Amount (or the equivalent Currency Amount thereof) of such Undeliverable Deliverable Obligation multiplied by the Final Price with respect to such Undeliverable Deliverable Obligation. For the purposes of this Credit Linked Condition 4.9, "**Final Price**" shall mean the highest firm bid price (expressed as a percentage of par and excluding any accrued and unpaid interest) solicited by the Determination Agent from five or more Dealers at the CLS Valuation Time (as per Credit Linked Condition 4.9(e)) on the CLS Valuation Date (as per Credit Linked Condition 4.9(c)) for the purchase of the applicable Undeliverable Deliverable Obligation in a quantity equal to the applicable Outstanding Principal Balance or Due and Payable Amount which was not, or could not be, delivered, provided, if no such firm bids are provided in respect of any such Undeliverable Deliverable Obligation at such time on such date, the firm bid price will be zero. Any quotation provided by the Issuer or an Affiliate thereof shall be deemed to be a firm quotation;
- (b) "**Credit Event Redemption Date**" is deemed to be the date that is three Business Days after the calculation of the Final Price;

- (c) "**CLS Valuation Date**" is deemed to be the date that is two Business Days after the Latest Permissible Physical Settlement Date;
- (d) There shall be no 'Minimum Quotation Amount'; and
- (e) "**CLS Valuation Time**" is the time specified as such in the Pricing Supplement or, if no time is so specified, the time specified by the Determination Agent, which shall be as close as reasonably practicable to 11:00 a.m. in the relevant Determination Agent City, unless the Determination Agent determines that the principal market for transactions in the Undeliverable Deliverable Obligation would be closed at such time or such transactions are not being conducted in sufficient volume at such time, in which event the CLS Valuation Time shall be such other time as may be specified by the Determination Agent that such principal market is open.
- (f) "**Quantum of the Claim**" means the lowest amount of the claim which could be validly asserted against the Reference Entity in respect of the Non-Contingent Amount if the obligation had become redeemable, been accelerated, terminated or had otherwise become due and payable at the time of the relevant determination, provided that the Quantum of the Claim cannot exceed the Non-Contingent Amount.

4.10 Asset Package Delivery

General

- (a) (i) Asset Package Delivery will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event applicable to the Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event.
- (ii) The following shall apply if in the Pricing Supplement the specified Transaction Type is 'Standard Singapore Sovereign', 'Standard Asia Sovereign', 'Standard Sukuk Sovereign', 'Standard Latin America Sovereign' (save for where the Reference Entity is either Argentina or Ecuador) and 'Standard Emerging European & Middle Eastern Sovereign' (save for where the Reference Entity is Ukraine).

Notwithstanding Credit Linked Condition 4.10(a)(i), it shall be deemed that no Package Observable Bond exists with respect to a Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

- (b) "**Asset Package**" means, in respect of an Asset Package Credit Event, all of the Assets in the proportion received or retained by a Relevant Holder in connection with such relevant Asset Package Credit Event (which may include the Prior Deliverable Obligation or Package Observable Bond, as the case may be). If the Relevant Holder is offered a choice of Assets or a choice of combinations of Assets, the Asset Package will be the Largest Asset Package. If the Relevant Holder is offered, receives and retains nothing, the Asset Package shall be deemed to be zero.
- (c) "**Largest Asset Package**" means, in respect of a Prior Deliverable Obligation or a Package Observable Bond, as the case may be, the package of Assets for which the greatest amount of principal has been or will be exchanged or converted (including by way of amendment) by reference to Eligible Information. If, in the determination of the Determination Agent, this cannot be determined, the Largest Asset Package will be the package of Assets with the

highest immediately realisable value, determined by the Determination Agent in accordance with the methodology, if any, determined by the relevant Credit Derivatives Determinations Committee.

- (d) **"Asset"** means each obligation, equity, amount of cash, security, fee (including any 'early-bird' or other consent fee), right and/or other asset, whether tangible or otherwise and whether issued, incurred, paid or provided by the Reference Entity or a third party (or any value which was realised or capable of being realised in circumstances where the right and/or other asset no longer exists).
- (e) **"Asset Package Credit Event"** means:
 - (i) if 'Financial Reference Entity Terms' and 'Governmental Intervention' are specified as applicable in the Pricing Supplement:
 - (A) a Governmental Intervention; or
 - (B) a Restructuring in respect of the Reference Obligation, if 'Restructuring' is applicable and such Restructuring does not constitute a Governmental Intervention; and
 - (ii) if the Reference Entity is a Sovereign and 'Restructuring' is specified in the Pricing Supplement as being applicable, a Restructuring,

in each case, whether or not such event is specified as the applicable Credit Event in the Credit Event Notice or the DC Credit Event Announcement.

- (f) **"Relevant Holder"** means a holder of the Prior Deliverable Obligation or Package Observable Bond, as the case may be, with an Outstanding Principal Balance or Due and Payable Amount, as applicable, immediately prior to the relevant Asset Package Credit Event, equal to the Outstanding Amount specified in respect of such Prior Deliverable Obligation or Package Observable Bond in the Notice of Physical Settlement, or NOPS Amendment Notice, as applicable.

5. Redemption Failure Event

"Redemption Failure Event" means, in each case as determined by the Determination Agent: (i) that it is impossible or illegal for the Issuer to pay (due to an event beyond the control of the Issuer), or for a Securityholder to accept payment of (due to an event beyond the control of such Securityholder), any cash amount (including, without limitation, the Credit Event Redemption Amount in respect of each Credit Linked Security) required to be paid on the date scheduled for such payment; (ii) the failure of a Securityholder to surrender a Credit Linked Security for cancellation on or before the Scheduled Redemption Date, first Delivery Date in respect of the applicable Physical Settlement Date or Credit Event Redemption Date, as the case may be; or (iii) the failure of any relevant person to duly execute, deliver and/or accept a transfer certificate or other transfer document on or before any Delivery Date and/or specify a date for transfer of the relevant Deliverable Obligation that is on or before any Delivery Date, in each case in accordance with the terms of the relevant Deliverable Obligation. In circumstances where a Redemption Failure Event has occurred prior to the Scheduled Redemption Date, the obligation of the Issuer to pay any cash amount affected by such Redemption Failure Event shall, subject to the following paragraph, be postponed without further act or notice, and such payment will be made on a Business Day selected by the Determination Agent on which such Redemption Failure Event no longer exists.

If a Redemption Failure Event has occurred and exists on the Scheduled Redemption Date, the obligation of the Issuer to pay any cash amount or make any Delivery (including, without limitation, the obligation to pay the Credit Event Redemption Amount or to Deliver the Deliverable Obligations Portfolio or part thereof, as the case may be) on such date will be postponed (or will continue to be postponed, as the case may be) without further act or notice, and such payment or Delivery will be made on a Business Day selected by the Determination Agent on which such Redemption Failure Event no longer exists, provided that, if such Redemption Failure Event continues to exist on the tenth Business Day after the Scheduled

Redemption Date or other scheduled payment date or Delivery Date in respect of an amount required to be paid or Deliverable Obligations to be Delivered (as the case may be), the Securityholder may request the Issuer in writing to make payment of such amount or Delivery of such Deliverable Obligations to such account or to such other person as the Securityholder specifies (the "**Alternative Settlement Request**"), provided that the Issuer first receives an irrevocable and unconditional release and indemnity in respect of liabilities arising therefrom to its absolute satisfaction and provided further that the Issuer shall be entitled to refuse to comply with such Alternative Settlement Request in its absolute and sole discretion without any further explanation.

Notwithstanding anything to the contrary in the Base Conditions, if the Determination Agent determines that such Redemption Failure Event continues to exist on the 180th calendar day after the Scheduled Redemption Date or other scheduled payment date or Delivery Date in respect of an amount required to be paid or Deliverable Obligations to be Delivered (as the case may be), no such payment or Delivery will be made by the Issuer and the Issuer's obligations to the Securityholder hereunder will be deemed to be fully discharged as of that date.

Any postponement or deemed discharge of payment pursuant to this Credit Linked Condition 5 will not constitute a default hereunder (including for the purpose of Condition 10 (*Events of Default*) of the Base Conditions) and will not entitle the relevant Securityholder to any additional interest or other payment as a result thereof. For the avoidance of doubt, the provisions of this Credit Linked Condition 5 are in addition to any provisions of Credit Linked Condition 4 (*Redemption of Physically Delivered Securities*) regarding, inter alia, the failure to Deliver Deliverable Obligations.

Condition 7.3 (*Conditions to settlement*) shall not apply in circumstances where this Credit Linked Condition 5 applies.

6. **Determination Agent**

Except as otherwise set out in the Pricing Supplement, any determination, discretion or calculation of the Issuer as may be specified in these Credit Linked Conditions will be made by the Issuer, as applicable, and neither the Issuer nor the Determination Agent will assume any obligation to, or relationship of agency or trust with, any Securityholders or any other person. Furthermore, each Securityholder agrees that neither the Issuer nor the Determination Agent is acting as fiduciary for or as an adviser to such Securityholder in respect of its duties as Issuer or Determination Agent. In making any such determination or calculation or exercising any such discretion, neither the Issuer nor Determination Agent shall be required to take into account any person's interest other than its own.

The Determination Agent is responsible for, inter alia:

- (a) determining a Successor or Successors and making any other determinations required to be made under the Successor Provisions;
- (b) determining whether (i) the aggregate amounts due under any Reference Obligation have been materially reduced by redemption or otherwise (other than due to any scheduled redemption, amortisation or prepayments), (ii) any Reference Obligation is an Underlying Obligation with a Qualifying Guarantee of a Reference Entity and, other than due to the existence or occurrence of a Credit Event, the Qualifying Guarantee is no longer a valid and binding obligation of such Reference Entity enforceable in accordance with its terms or (iii) for any reason other than as described in (i) or (ii) above and other than due to the existence or occurrence of a Credit Event, any Reference Obligation is no longer an obligation of a Reference Entity;
- (c) identifying and determining a Substitute Reference Obligation;
- (d) in the event that multiple Credit Event Notices with respect to a Restructuring Credit Event are delivered pursuant to Credit Linked Condition 2.3 (*Credit Event Notice after*

M(M)R Restructuring), making any modifications required pursuant to that Credit Linked Condition;

- (e) obtaining Quotations (and, if necessary, determining whether such Quotations shall include or exclude accrued but unpaid interest) and determining the Final Price in accordance with the applicable Valuation Method;
- (f) converting the Quotation Amount into the relevant Obligation Currency;
- (g) determining the Dealers (where none have been specified in the Pricing Supplement) and substituting Dealers;
- (h) determining the Currency Rate;
- (i) determining the Representative Amount;
- (j) determining the number of Business Days in each Physical Settlement Period;
- (k) determining the Outstanding Principal Balance;
- (l) if 'Include Accrued Interest' is specified in the Pricing Supplement, determining accrued but unpaid interest; and
- (m) determining the Largest Asset Package.

Except as otherwise expressly set out herein or in the Pricing Supplement, whenever the Determination Agent is required to act or to exercise its judgement, it will do so in good faith and in a commercially reasonable manner pursuant to Condition 11.4 (*Determinations by the Determination Agent*). Each Securityholder in respect of the relevant Series of Credit Linked Securities acknowledges and agrees that the Determination Agent is not acting as a fiduciary for or an adviser to any person in respect of the Securities, and acts in all respects as an arm's length contractual counterparty.

If any of the matters set out in this Credit Linked Condition 6 are decided and/or determined by a Credit Derivatives Determinations Committee, the Determination Agent shall follow such decision or determination to the extent such decision and/or determination is applicable to any Series of Credit Linked Securities.

7. Notices

7.1 Notices required to be delivered

The Issuer shall give notice to Securityholders of the following, to the extent required to be delivered pursuant to a Series of Credit Linked Securities and unless otherwise specified in the Pricing Supplement:

of the Issuer to deliver a notice to the Securityholders pursuant to this Credit Linked Condition 7 shall not affect the effectiveness of any determinations by the Determination Agent in respect of such Successor (such determinations to be in accordance with these Credit Linked Conditions));

- (g) the selection of any Replacement Reference Entity;
- (h) if the terms of any Securities provide for the Reference Portfolio to be amended from time to time other due to the determination of a Successor, details of any amendments to the Reference Portfolio;

- (a) "**Successor**" means, subject to Credit Linked Condition 8.1(c) below, the entity or entities, if any, determined as follows:
 - (i) subject to paragraph (vii) below, if one entity succeeds, either directly or as a provider of a Relevant Guarantee, to 75 per cent or more of the Relevant Obligations of the Reference Entity, that entity will be the sole Successor in respect of the relevant Reference Entity;
 - (ii) if only one entity succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent (but less than 75 per cent) of the Relevant Obligations of the Reference Entity, and not more than 25 per cent of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than 25 per cent of the Relevant Obligations will be the sole Successor in respect of the relevant Reference Entity;
 - (iii) if more than one entity each succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent of the Relevant Obligations of the Reference Entity, and not more than 25 per cent of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than 25 per cent of the Relevant Obligations will each be a Successor (subject to Credit Linked Condition 8.2(a) (*Treatment of certain Successors*));
 - (iv) if one or more entities each succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent of the Relevant Obligations of the Reference Entity, and more than 25 per cent of the Relevant

Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor (subject to Credit Linked Condition 8.2(a) (*Treatment of certain Successors*));

- (v) if one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of such succession;
 - (vi) if one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor (subject to Credit Linked Condition 8.2(a) (*Treatment of certain Successors*)));
 - (vii) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and at the time of the determination either (A) the Reference Entity has ceased to exist, or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, such entity (the "**Universal Successor**") will be the sole Successor in respect of the relevant Reference Entity.
- (b) The Determination Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors; provided that the Determination Agent will not make such determination if, at the time of such determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations. The Determination Agent will make all calculations and determinations required to be made under this Credit Linked Condition 8 on the basis of Eligible Information and will notify the Issuer of any such calculation or determination as soon as practicable. In calculating the percentages used to determine whether an entity qualifies as a Successor, if there is a Steps Plan, the Determination Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.
- (c) An entity may only be a Successor if:

For purposes of this Credit Linked Condition 8, "**succeeded**" and "**succession**" shall be construed accordingly.
- (e) In the case of an exchange offer, the determination required pursuant to Credit Linked Condition 8.1(a) shall be made on the basis of the Outstanding Principal Balance of Relevant Obligations exchanged and not on the basis of the Outstanding Principal Balance of the Exchange Bonds or Loans.
- (f) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.
- (g) Where, pursuant to Credit Linked Conditions 8.1(a)(iii), 8.1(a)(iv), 8.1(a)(vi), 8.2(a)(iii) or 8.2(a)(iv), one or more Successors have been identified, the relevant Securities shall be divided, with effect from the Succession Date, into the same number of new Securities (the "**New Securities**") as there are Successors, with the following terms:
- (i) each Successor shall be the Reference Entity for the purposes of one of the New Securities;
 - (ii) in respect of each New Security, the Aggregate Nominal Amount or Calculation Amount (determined on or about the date of the applicable succession event (or, in relation to a Reference Entity that is a Sovereign, a Sovereign Successor Event)), as applicable, shall be the Aggregate Nominal Amount or Calculation Amount of the original Security (before the identification of the relevant Successor(s)) divided by the number of Successors;
 - (iii) all other terms and conditions of the original Securities shall be replicated in each of the New Securities, with such modifications as would be required, to preserve substantially the economic effect of the original Securities in the New Securities (considered in the aggregate);
 - (iv) each of the New Securities shall be deemed to constitute a separate and distinct issuance which shall be treated as a separate Series by the Issuer, and the Register shall be endorsed by the Registrar to reflect such separate Series of the New Securities, and, at the request of a Securityholder, the Definitive Security representing the original Security (before the identification of the relevant Successor(s)) will be replaced by Definitive Securities representing the New Securities in accordance with this Credit Linked Condition 8.1(g); and

- (v) the Determination Agent shall make such other conforming and consequential changes as it shall deem appropriate to give effect to this Credit Linked Condition 8, including, without limitation, the amendment of Credit Linked Conditions 2.1 (*Credit Event Determination*), 2.2 (*Relevant Credit Events*) and 2.3 (*Credit Event Notice after M(M)R Restructuring*) to allow, inter alia, for redemption of an Aggregate Nominal Amount of the Securities with the aggregate Calculation Amount (determined on or about the Succession Date) equal to the nominal amount of one (or more) New Security(ies) in respect of which a Relevant Event Determination Date has occurred, with the remainder of such Aggregate Nominal Amount of the Securities remaining outstanding and accruing interest on such reduced Aggregate Nominal Amount (until such time as a further Event Determination Date in respect of a different New Security may occur or a redemption of the remaining Aggregate Nominal Amount of the Securities may otherwise occur pursuant to the terms hereof).
- (h) **"Relevant Obligations"** means the Obligations of the Reference Entity which fall within the Obligation Category 'Bond or Loan' and which are outstanding immediately prior to the Succession Date (or, if there is a Steps Plan, immediately prior to the legally effective date of the first succession), provided that:
- (i) any Bonds or Loans outstanding between the Reference Entity and any of its Affiliates, or held by the Reference Entity, shall be excluded;
 - (ii) if there is a Steps Plan, the Determination Agent shall, for purposes of the determination required to be made under Credit Linked Condition 8.1(a)(i), make the appropriate adjustments required to take account of any Obligations of the Reference Entity which fall within the Obligation Category 'Bond or Loan' that are issued, incurred, redeemed, repurchased or cancelled from and including the legally effective date of the first succession to and including the Succession Date;
 - (iii) if 'Financial Reference Entity Terms' and 'Senior Security' are specified as applicable in the related Pricing Supplement, the Relevant Obligations shall only include the Senior Obligations of the Reference Entity which fall within the Obligation Category 'Bond or Loan'; and
 - (iv) if 'Financial Reference Entity Terms' and 'Subordinated Security' are specified as applicable in the related Pricing Supplement, Relevant Obligations shall exclude Senior Obligations and any Further Subordinated Obligations of the Reference Entity which fall within the Obligation Category 'Bond or Loan', provided that if no such Relevant Obligations exist, 'Relevant Obligations' shall have the same meaning as it would if 'Senior Security' were specified as applicable in the related Pricing Supplement.

the Determination Agent in accordance with the definition of 'Successor' would not be affected by any further related successions in respect of such Steps Plan, or (ii) the occurrence of an Event Determination Date in respect of the Reference Entity or any entity which would constitute a Successor.

- (l) **"Successor Backstop Date"** means, for purposes of any Successor determination determined by DC Resolution, the date that is 90 calendar days prior to the Successor Resolution Request Date, otherwise, the date that is 90 calendar days prior to the earlier of (i) the date on which the Successor Notice is effective and (ii) in circumstances where (A) a Successor Resolution Request Date has occurred, (B) the relevant Credit Derivatives Determinations Committee has Resolved not to make a Successor determination and (C) the Successor Notice is delivered by the Determination Agent not more than 14 calendar days after the day on which the DC Secretary publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to make a Successor determination, the Successor Resolution Request Date. If the Standard Reference Obligation is removed from the SRO List, such obligation shall cease to be the Reference Obligation (other than for purposes of the 'Not Subordinated' Obligation Characteristic or 'Not Subordinated' Deliverable Obligation Characteristic) and there shall be no Reference Obligation unless and until such obligation is subsequently replaced on the SRO List, in which case, the new Standard Reference Obligation in respect of the Reference Entity shall constitute the Reference Obligation.

8.2 Successor provisions specific to Nth-to-Default CLS

In respect of Nth-to-Default CLS, this Credit Linked Condition 8.2 shall apply in addition to Credit Linked Condition 8.1 (*Provisions for determining a Successor*). If there is any inconsistency between this Credit Linked Condition 8.2 and the rest of the Credit Linked Conditions (including Credit Linked Condition 8.1 (*Provisions for determining a Successor*)), then this Credit Linked Condition 8.2 shall prevail.

(a) Treatment of certain Successors

- (i) In the event that, pursuant to the application of Credit Linked Condition 8.1(a), a Reference Entity in relation to which no succession has occurred (the "**Surviving Reference Entity**") would be the only Successor to a Reference Entity (the "**Legacy Reference Entity**"):
 - (A) such Successor (that is a Surviving Reference Entity) shall not be a Successor to such Legacy Reference Entity; and
 - (B) the replacement Reference Entity (the "**Replacement Reference Entity**") selected by the Issuer in accordance with Credit Linked Condition 8.2(b) (*Selection of Replacement Reference Entity*) shall be the sole Successor to such Legacy Reference Entity.
- (ii) In the event that, pursuant to the application of Credit Linked Condition 8.1(a), there is only one Successor to a Legacy Reference Entity and such Successor is not a Surviving Reference Entity, such Successor shall be the sole Successor to such Legacy Reference Entity.
- (iii) In the event that, pursuant to the application of Credit Linked Conditions 8.1(a)(iii), 8.1(a)(iv) or 8.1(a)(vi) there are two or more Successors to a Legacy Reference Entity and none of such Successors is a Surviving Reference Entity:
 - (A) each of such Successors (that is not a Surviving Reference Entity) shall be a Reference Entity for the purposes of one of the New Securities determined in accordance with Credit Linked Condition 8.1(g); and
 - (B) each of the Surviving Reference Entity(ies) (that is not a Successor) shall continue to be a Reference Entity for each and every one of the New Securities determined in accordance with Credit Linked Condition 8.1(g).
- (iv) In the event that, pursuant to the application of Credit Linked Conditions 8.1(a)(iii), 8.1(a)(iv) or 8.1(a)(vi) there are two or more Successors to a Legacy Reference Entity and at least one of such Successors is a Surviving Reference Entity:
 - (A) each of such Successor(s) (that is a Surviving Reference Entity) shall not be a Successor to such Legacy Reference Entity, and shall be replaced by a Replacement Reference Entity selected in accordance with Credit Linked Condition 8.2(b) (*Selection of Replacement Reference Entity*);

- (B) each of such Replacement Reference Entity(ies) and any other Successor(s) not constituting a Surviving Reference Entity shall be a Reference Entity for the purposes of one of the New Securities determined in accordance with Credit Linked Condition 8.1(g); and
- (C) each of the Surviving Reference Entity(ies) (that is not a Successor) shall continue to be a Reference Entity for each and every one of the New Securities determined in accordance with Credit Linked Condition 8.1(g).

(b) **Selection of Replacement Reference Entity**

Upon a determination by the Determination Agent of the occurrence of a succession with respect to which a Surviving Reference Entity would be a Successor but for the operation of Credit Linked Condition 8.2(a), the Issuer shall select an Eligible Reference Entity as the Replacement Reference Entity and the Transaction Type applicable to such Eligible Reference Entity.

"Eligible Reference Entity" means an entity:

- (a) that is in the same Moody's or S&P industry group as the relevant Surviving Reference Entity;
- (b) that has a bid-side credit spread (at the time the Issuer delivers to the Issue and Paying Agent the notice specifying the Eligible Reference Entity that it has selected to be the Replacement Reference Entity) no greater than 110 per cent of the bid-side credit spread of the relevant Surviving Reference Entity at the same time (the **"Credit Spread Requirement"**), in each case based on a credit default swap:
 - (i) on market standard terms for the relevant entity as at the time of such determination;
 - (ii) in respect of a notional amount equal to at least 50 per cent, but not more than 100 per cent, of the Aggregate Nominal Amount; and

The bid-side credit spreads for the purpose of the Credit Spread Requirement shall be the unweighted arithmetic mean of the spread quotations obtained by the Issuer (on the basis of the terms set out above) from at least three Dealers, as determined by the Issuer in a commercially reasonable manner and notified by the Issuer to the Issue and Paying Agent:

(c) **Fallback Successor Process**

If Credit Linked Condition 8.2(a)(i) applies and the Issuer fails to specify a Replacement Reference Entity in accordance with Credit Linked Condition 8.2(b) (*Selection of Replacement Reference Entity*), then:

- (i) the Legacy Reference Entity shall cease to be a Reference Entity unless it is itself a Successor; and

- (b) If any of the events set out under Credit Linked Condition 8.4(a)(i) or 8.4(a)(iii) have occurred with respect to the Non-Standard Reference Obligation, the Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the 'Not Subordinated' Obligation Characteristic or 'Not Subordinated' Deliverable Obligation Characteristic and Credit Linked Condition 8.3(c)(ii) below). If the event set out in Credit Linked Condition 8.4(a)(ii) has occurred with respect to the Non-Standard Reference Obligation and no Substitute Reference Obligation is available, the Non-Standard Reference Obligation will continue to be the Reference Obligation until the Substitute Reference Obligation is identified or, if earlier, until any of the events set out under Credit Linked Condition 8.4(a)(i) or 8.4(a)(iii) occur with respect to such Non-Standard Reference Obligation.

 - (i) is a Borrowed Money obligation of the Reference Entity (either directly or as provider of a guarantee);
 - (ii) satisfies the Not Subordinated Deliverable Obligation Characteristic as of the date it was issued or incurred (without reflecting any change to the priority of payment after such date) and on the Substitution Date; and

 - (A) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available;

The Determination Agent will notify the Issuer of the Substitute Reference Obligation within a reasonable period after it has been identified in accordance with Credit Linked Condition 8.3(c) and the Substitute Reference Obligation shall replace the Non-Standard Reference Obligation immediately upon such notification.

- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Determination Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation, then, subject to Credit Linked Condition 8.3(a) and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with Credit Linked Condition 8.3(b), the Determination Agent shall continue to attempt to identify the Substitute Reference Obligation.

9. Additional Provisions relating to Deliverable Obligations

For the purposes of making a determination pursuant to Credit Linked Conditions 9.1 (*Mod R*) and 9.2 (*Mod Mod R*), final maturity date shall, subject to Credit Linked Condition 9.2 (*Mod Mod R*), be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

9.1 Mod R

- (a) For any Physically Delivered CLS, where 'Mod R' is specified in the Pricing Supplement and 'Restructuring' is the only Credit Event specified in a Credit Event Notice delivered by the Issuer, then unless the Deliverable Obligation is a Prior Obligation and Asset Package Delivery applies due to a Governmental

Intervention, a Deliverable Obligation may only be specified for any Credit Linked Security (or deemed specified pursuant to Credit Linked Condition 4.8 (*Alternative Procedures Relating to Loans not Delivered*)) in the Notice of Physical Settlement or specified in any NOPS Amendment Notice, as applicable, only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the Restructuring Maturity Limitation Date in each case, as both of the NOPS Effective Date and the Delivery Date.

- (b) **"Fully Transferable Obligation"** means a Deliverable Obligation that is either Transferable, in the case of Bonds, or capable of being assigned or novated to all Eligible Transferees without the consent of any person being required, in the case of any Deliverable Obligation other than Bonds, in each case, as of both the NOPS Effective Date and the Delivery Date. - (c) **"Restructuring Maturity Limitation Date"** means, with respect to a Deliverable Obligation, the Limitation Date occurring on or immediately following the Scheduled Redemption Date. Notwithstanding the foregoing, if the final maturity date of the Restructured Bond or Loan with the latest final maturity date of any Restructured Bond or Loan occurs prior to the 2.5-year Limitation Date (such Restructured Bond or Loan, a **"Latest Maturity Restructured Bond or Loan"**) and the Scheduled Redemption Date occurs prior to the final maturity date of such Latest Restructured Bond or Loan, then the Restructuring Maturity Limitation Date will be the final maturity date of such Latest Maturity Restructured Bond or Loan.

 - (1) any:
 - (i) bank or other financial institution;
 - (ii) insurance or reinsurance company;
 - (iii) mutual fund, unit trust or similar collective investment vehicle (other than an entity described in paragraph (3) of this definition); and

provided, however, in each case that such entity has total assets of at least US\$500,000,000;

- (2) an Affiliate of an entity specified in clause (1) of this definition;
- (3) each of a corporation, partnership, proprietorship, organisation, trust or other entity:

All references in this Credit Linked Condition 9.1 to 'US\$' include equivalent amounts in other currencies.

- (e) Where in the Pricing Supplement the following elections have been made:
 - (1) Cash Settlement as CLS Settlement Method or as Fallback CLS Settlement Method; and
 - (2) Mod R as Restructuring Credit Event,

then the following shall apply to Credit Linked Condition 9.1 (*Mod R*):

- (ii) Credit Linked Condition 9.1(a) shall be deleted in its entirety and be replaced with the following:

"For any Cash Settled CLS, where 'Mod R' is specified in the Pricing Supplement and 'Restructuring' is the only Credit Event specified in a Credit Event Notice delivered by the Issuer, then unless the Deliverable Obligation is a Prior Obligation and Asset Package Delivery applies due to a Governmental Intervention, an obligation may be specified as a Reference Obligation, only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the Restructuring Maturity Limitation Date, as of the date on which the relevant Deliverable Obligation is selected by the Issuer as a Reference Obligation."

- (iii) Credit Linked Condition 9.1(b) shall be deleted in its entirety and be replaced with the following:

"Fully Transferable Obligation" means a Deliverable Obligation that is either Transferable, in the case of Bonds, or capable of being assigned or novated to all Eligible Transferees without the consent of any person being required, in the case of any Deliverable Obligation other than Bonds, in each case, as of the date on which the relevant Deliverable Obligation is selected by the Issuer as a Reference Obligation. Any requirement that notification of novation, assignment or transfer of a Deliverable Obligation be provided to a trustee, fiscal agent, administrative agent, clearing agent or paying agent for a Deliverable Obligation shall not be considered to be a requirement for consent for purposes of this Credit Linked Condition 9.1."

9.2 Mod Mod R

- (a) For any Physically Delivered CLS where 'Mod Mod R' is specified in the Pricing Supplement and 'Restructuring' is the only Credit Event specified in a Credit Event Notice delivered by the Issuer, then unless the Deliverable Obligation is a Prior Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may only be specified (or deemed specified pursuant to Credit Linked Condition 4.8 (*Alternative Procedures Relating to Loans not Delivered*)) in the Notice of Physical Settlement or in any NOPS Amendment Notice, as applicable, if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of both the NOPS Effective Date and the Delivery Date. Any requirement that notification of novation, assignment or transfer of a Deliverable Obligation be provided to a trustee, fiscal agent, administrative agent, clearing agent or paying agent for a Deliverable Obligation shall not be considered to be a requirement for consent for purposes of this Credit Linked Condition 9.2.
- (c) If Credit Linked Condition 9.2 applies and the Deliverable Obligation specified in the Notice of Physical Settlement (or any NOPS Amendment Notice, as applicable) is a Conditionally Transferable Obligation with respect to which consent is required to novate, assign or transfer and the requisite consent is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason), or is not received by the Physical Settlement Date (in which case it shall be deemed to have been refused), the Issuer shall promptly notify the Securityholders of such refusal (or deemed refusal) and if the Securityholder does not designate a third party or the Securityholder does not take Delivery on or prior to the Loan Alternative Procedure Start Date, then Credit Linked Condition 4.8 (*Alternative Procedures Relating to Loans not Delivered*) shall apply.
- (d) "**Modified Restructuring Maturity Limitation Date**" means, with respect to a Deliverable Obligation, the Limitation Date occurring on or immediately following the Scheduled Redemption Date. "For any Cash Settled CLS where 'Mod Mod R' is specified in the Pricing Supplement and 'Restructuring' is the only Credit Event specified in a Credit Event Notice delivered by the Issuer, then unless the Deliverable Obligation is a Prior Obligation and Asset Package Delivery applies due to a Governmental Intervention, an obligation may be specified as a Reference Obligation, if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, as of the date on which the relevant Deliverable Obligation is selected by the Issuer as a Reference Obligation.

Notwithstanding the foregoing, for purposes of the above, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the ten-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring."

- (b) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (i) is subject to any Prohibited Action, or (ii) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (A) payment or (B) a Permitted Contingency) (the amount determined pursuant to sub-paragraph (a) above less any amounts subtracted in accordance with accordance with this sub-paragraph (b), the "**Non-Contingent Amount**"; and

If it is not possible or reasonably practicable to specify any Obligation as a Deliverable Obligation of the Reference Entity because there is or will be no Deliverable Obligation in existence at any time, the Issuer may, if applicable, designate by notice (which may be by telephone) to the Issue and Paying Agent one or more bonds, loans, instruments, certificates or other obligations (an **"Exchanged Obligation"**) which have been or will be issued in exchange, whether pursuant to a mandatory or voluntary exchange (an **"Obligation Exchange"**), for one or more bonds, loans, instruments, certificates or obligations of the Reference Entity that would have been capable of being specified as a Deliverable Obligation immediately prior to the occurrence of the Relevant Credit Event of the Reference Entity, provided that failure to deliver such notice shall not affect the effectiveness of such designation.

If: (a) either of the Deliverable Obligation Characteristics 'Listed', 'Not Domestic Issuance' or 'Not Bearer' is specified in the Pricing Supplement, such Pricing Supplement shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Bonds; (b) the Deliverable Obligation Characteristic 'Transferable' is specified in the Pricing Supplement, such Pricing Supplement shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Deliverable Obligations that are not Loans; or (c) any of the Deliverable Obligation Characteristics 'Assignable Loan', 'Consent Required Loan' or 'Direct Loan Participation' is specified in the

Pricing Supplement, such Pricing Supplement shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Loans.

Provisions relating to Relevant Guarantees

If an Obligation or a Deliverable Obligation is a Relevant Guarantee, the following will apply:

For purposes of the application of the Obligation Category or the Deliverable Obligation Category, the Relevant Guarantee shall be deemed to satisfy the same category or categories as those that describe the Underlying Obligation.

Further provisions relating to Obligation Characteristics and Deliverable Obligation Characteristics

For purposes of the application of the Deliverable Obligation Characteristic 'Maximum Maturity', remaining maturity shall be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the remaining maturity shall be zero.

If 'Financial Reference Entity Terms' and 'Governmental Intervention' are specified as applicable in the Pricing Supplement, if an obligation would otherwise satisfy a particular Obligation Characteristic or Deliverable Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic or Deliverable Obligation Characteristic.

For the purposes of determining the applicability of Deliverable Obligation Characteristics and the requirements specified in Credit Linked Condition 9.1 (*Mod R*) and Credit Linked Condition 9.2 (*Mod Mod R*) to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event.

- (b) an expropriation, transfer or other event which mandatorily changes the beneficial holder of the Obligation;
- (c) a mandatory cancellation, conversion or exchange; or
- (d) any event which has an analogous effect to any of the events specified in subparagraphs (a) to (c) above.

For purposes of the above, the term Obligation shall be deemed to include Underlying Obligations for which the Reference Entity is acting as provider of a Guarantee.

"Obligation Acceleration" means that one or more Obligations in an aggregate amount of not less than the Default Requirement have become due and payable before they would otherwise have been due and payable as a result of, or on the basis of, the occurrence of a default, event of default or other similar condition or event (howsoever described), other than a failure to make any required payment, in respect of the Reference Entity under one or more Obligations.

"Obligation Currency" means the currency or currencies in which an Obligation is denominated.

"Obligation Default" means that one or more Obligations in an aggregate amount of not less than the Default Requirement have become capable of being declared due and payable before they would otherwise have been due and payable as a result of, or on the basis of, the occurrence of a default, event of default or other similar condition or event (howsoever described), other than a failure to make any required payment, in respect of the Reference Entity under one or more Obligations.

If an occurrence that would constitute a Failure to Pay (a) is a result of a redenomination that occurs as a result of action taken by a Governmental Authority which is of general application in the jurisdiction of such Governmental Authority and (b) a freely available market rate of conversion existed at the time of the redenomination, then such occurrence will be deemed not to constitute a Failure to Pay unless the redenomination itself constituted a reduction in the rate or amount of interest, principal or premium payable (as determined by reference to such freely available market rate of conversion) at the time of such redenomination.

"Payment Requirement" means the amount specified as such in the Pricing Supplement or its equivalent in the relevant Obligation Currency (or, if no such amount is specified or if "As per the Credit Linked Annex" is specified in the Pricing Supplement, USD 1,000,000 or its equivalent in the relevant Obligation Currency), in either case as at the occurrence of the Relevant Credit Event.

"Repudiation/Moratorium" means the occurrence of both of the following events: (a) an authorised officer of the Reference Entity or a Governmental Authority (i) disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, one or more Obligations in an aggregate amount of not less than the Default Requirement or (ii) declares or imposes a moratorium, standstill, roll-over or deferral, whether de facto or de jure, with respect to one or more Obligations in an aggregate amount of not less than the Default Requirement; and (b) a Failure to Pay, determined without regard to the Payment Requirement, or a Restructuring, determined without regard to the Default Requirement, with respect to any such Obligation occurs on or prior to the Repudiation/Moratorium Evaluation Date. For the purposes of this definition:

- (a) **"Repudiation/Moratorium Evaluation Date"** means, if a Potential Repudiation/Moratorium occurs on or prior to the Scheduled Redemption Date, (a) if the Obligations to which such Potential Repudiation/Moratorium relates include Bonds, the date that is the later of (I) the date that is 60 days after the date of such Potential Repudiation/Moratorium and (II) the first payment date under any such Bond after the date of such Potential Repudiation/Moratorium (or, if later, the expiration date of any applicable Grace Period in respect of such payment date) and (b) if the Obligations to which such Potential Repudiation/Moratorium relates do not include Bonds, the date that is 60 days after the date of such Potential Repudiation/Moratorium; provided that, in either case, the Repudiation/Moratorium Evaluation Date shall occur no later than the Scheduled Redemption Date unless the Repudiation/Moratorium Extension Condition is satisfied.
- (b) **"Potential Repudiation/Moratorium"** means the occurrence of an event described in paragraph (a) of the definition of 'Repudiation/Moratorium'.
- (c) The **"Repudiation/Moratorium Extension Condition"** is satisfied (i) if the DC Secretary publicly announces, pursuant to a valid request that was delivered and effectively received on or prior to the date that is 14 calendar days after the Redemption Date, that the relevant Credit Derivatives Determinations Committee has

Resolved that an event that constitutes a Potential Repudiation/Moratorium has occurred with respect to an Obligation of the Reference Entity and that such event occurred on or prior to the Redemption Date, or (ii) otherwise, by the delivery by the Issuer of a Repudiation/Moratorium Extension Notice and, unless 'Notice of Publicly Available Information' is specified as not applicable in the related Pricing Supplement, a Notice of Publicly Available Information that are each effective on or prior to the date that is 14 calendar days after the Redemption Date. In all cases, the Repudiation/Moratorium Extension Condition will be deemed not to have been satisfied, or capable of being satisfied, if, or to the extent that, the DC Secretary publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved that either (A) an event does not constitute a Potential Repudiation/Moratorium with respect to an Obligation of the Reference Entity, or (B) an event that constitutes a Potential Repudiation/Moratorium for purposes of the relevant Series has occurred with respect to an Obligation of the Reference Entity but that such event occurred after the Redemption Date.

"Repudiation/Moratorium Extension Notice" means an irrevocable notice from the Issuer to the Issue and Paying Agent that describes a Potential Repudiation/Moratorium that occurred on or prior to the Redemption Date. A Repudiation/Moratorium Extension Notice must contain a description in reasonable detail of the facts relevant to the determination that a Potential Repudiation/Moratorium has occurred and indicate the date of the occurrence. The Potential Repudiation/Moratorium that is the subject of the Repudiation/Moratorium Extension Notice need not be continuing on the date the Repudiation/Moratorium Extension Notice is effective.

"Restructuring" means that, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, any one or more of the following events occurs in a form that binds all holders of such Obligation, is agreed between the Reference Entity or a Governmental Authority and a sufficient number of holders of such Obligation to bind all holders of the Obligation or is announced (or otherwise decreed) by the Reference Entity or a Governmental Authority in a form that binds all holders of such Obligation (including, in each case, in respect of Bonds only, by way of an exchange), and such event is not expressly provided for under the terms of such Obligation in effect as of the later of the Credit Event Backstop Date and the date as of which such Obligation is issued or incurred:

- (a) a reduction in the rate or amount of interest payable or the amount of scheduled interest accruals (including by way of redenomination);
- (b) a reduction in the amount of principal or premium payable at redemption (including by way of redenomination);
- (c) a postponement or other deferral of a date or dates for either (A) the payment or accrual of interest, or (B) the payment of principal or premium;
- (d) a change in the ranking in priority of payment of any Obligation, causing the Subordination of such Obligation to any other Obligation; or
- (e) any change in the currency of any payment of interest, principal or premium to any currency other than the lawful currency of Canada, Japan, Switzerland, the United Kingdom and the United States of America and the euro and any successor currency to any of the aforementioned currencies (which in the case of the euro, shall mean the currency which succeeds to and replaces the euro in whole).

Notwithstanding the above, none of the following shall constitute a Restructuring:

- (i) the payment in euros of interest, principal or premium in relation to an Obligation denominated in a currency of a member state of the European Union that adopts or has adopted the single currency in accordance with the Treaty establishing the European Community, as amended by the Treaty on European Union;

- (ii) the redenomination from euros into another currency, if (A) the redenomination occurs as a result of action taken by a Governmental Authority of a member state of the European Union which is of general application in the jurisdiction of such Governmental Authority and (B) a freely available market rate of conversion between euros and such other currency existed at the time of such redenomination and there is no reduction in the rate or amount of interest, principal or premium payable, as determined by reference to such freely available market rate of conversion;
- (iii) the occurrence of, agreement to or announcement of any of the events described in paragraphs (a) to (d) above due to an administrative adjustment, accounting adjustment or tax adjustment or other technical adjustment occurring in the ordinary course of business; or
- (iv) the occurrence of, agreement to or announcement of any of the events described in paragraphs (a) to (d) above in circumstances where such event does not directly or indirectly result from a deterioration in the creditworthiness or financial condition of the Reference Entity, provided that in respect of sub-paragraph (e) above only, no such deterioration in the creditworthiness or financial condition of the Reference Entity is required where the redenomination is from euros into another currency and occurs as a result of action taken by a Governmental Authority of a member state of the European Union which is of general application in the jurisdiction of such Governmental Authority.

For purposes of this definition and the definition of 'Multiple Holder Obligation', the term 'Obligation' shall be deemed to include Underlying Obligations for which the Reference Entity is acting as provider of a Guarantee. In the case of a Guarantee and an Underlying Obligation, references to the Reference Entity in this definition shall be deemed to refer to the Underlying Obligor and the reference to the Reference Entity in this definition shall continue to refer to the Reference Entity.

If an exchange has occurred, the determination as to whether one of the events described under paragraphs (a) to (e) above has occurred will be based on a comparison of the terms of the Bond immediately prior to such exchange and the terms of the resulting obligations immediately following such exchange.

Unless 'Multiple Holder Obligation' is expressed to be not applicable in the Pricing Supplement, then none of the events described above shall constitute a Restructuring unless the Obligation is a Multiple Holder Obligation, where "**Multiple Holder Obligation**" means an Obligation that (a) at the time of the event which constitutes a Restructuring Credit Event, is held by more than three holders that are not Affiliates of each other and (b) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to 66 and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event (provided that part (b) shall be deemed to be satisfied where the Obligation is a Bond).

If "**Auction Settlement**" is the applicable Settlement Method with respect to a Series as specified in the Pricing Supplement or elected pursuant to the Issuer CLS Settlement Option and a Relevant Event Determination Date occurs on or prior to the Auction Final Price Determination Date, the Auction Final Price shall be the Final Price with respect to the related Credit Event. For the avoidance of doubt, if Auction Settlement is specified with respect to a Series in the Pricing Supplement or is elected pursuant to the Issuer CLS Settlement Option and a Relevant Event Determination Date occurs on or prior to the Auction Final Price Determination Date, the Auction Final Price shall still be the Final Price with respect to the related Credit Event, notwithstanding that the Deliverable Obligation Category and/or Deliverable Obligation Characteristics are different to those set out in the Pricing Supplement, provided that if the Determination Agent determines in its reasonable discretion that the terms of the Deliverable Obligations in respect of the relevant Auction are not identical to the terms of the Deliverable Obligations in respect of the relevant Series of Credit Linked Securities,

Each of the Issuer and each Securityholder further agrees that compliance by it with the provisions of any such documentation shall be required for, and, without further action, constitute, Delivery for purposes of this definition (to the extent that such documentation contains provisions describing how Delivery should be effected) and neither the Issuer nor any Securityholder shall be permitted to request that the other take, nor shall it be required to take, any action under Credit Linked Condition 4.3

(*Delivery of Deliverable Obligations Portfolio*) unless otherwise contemplated by such documentation.

If Asset Package Delivery applies, (i) Delivery of a Prior Deliverable Obligation or a Package Observable Bond specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, may be satisfied by Delivery of the related Asset Package, and such Asset Package shall be treated as having the same currency, Outstanding Principal Balance or Due and Payable Amount, as applicable, as the Prior Deliverable Obligation or Package Observable Bond to which it corresponds had immediately prior to the Asset Package Credit Event, (ii) each Asset in the Asset Package shall be Delivered provided that if any such Asset is not a Bond, it shall be treated as if it were a Loan for these purposes, (iii) if the Asset Package is zero, the Outstanding Amount of the Prior Deliverable Obligation or Package Observable Bond shall be deemed to have been Delivered in full three Business Days following the date on which the Issuer has notified Securityholders and the Determination Agent of the detailed description of the Asset Package that it intends to Deliver in the Notice of Physical Settlement, (iv) the Issuer may satisfy its obligation to make Delivery of the Prior Deliverable Obligation or Package Observable Bond in part by Delivery of each Asset in the Asset Package in the correct proportion and (v) if the relevant Asset is a Non-Transferable Instrument or Non-Financial Instrument, the Asset shall be deemed to be an amount of cash equal to the Asset Market Value.

"Deliverable Obligations Portfolio" means, in respect of each Physically Delivered CLS, subject to Credit Linked Condition 8.1 (*Provisions for determining a Successor*) and unless otherwise elected by the Issuer in accordance with the Issuer CLS Settlement Option as set out in these Credit Linked Conditions, such Deliverable Obligations, or if Asset Package is applicable, such Asset Package, as may be selected by the Issuer with: (a) an Outstanding Principal Balance, in respect of Deliverable Obligations that are Borrowed Money obligations; or (b) a Due and Payable Amount, in respect of Deliverable Obligations that are not Borrowed Money obligations (or, in either case, the equivalent Currency Amount thereof), in an aggregate amount (excluding any accrued and unpaid interest) equal to (i) the Aggregate Nominal Amount of the Notes outstanding or the aggregate Calculation Amount of the Certificates outstanding, in respect of the Credit Linked Securities, as applicable, as at the relevant Event Determination Date less (ii) (if, at the option of the Issuer, Settlement Expenses and Swap Costs are to be deducted rather than separately paid by each such Securityholder) an outstanding principal balance or Due and Payable Amount, as the case may be, of such Deliverable Obligations with a market value as determined by the Determination Agent equal to the Settlement Expenses and Swap Costs. If the amount of the Deliverable Obligations Portfolio is less than zero, no Deliverable Obligations will be required to be Delivered and the amount of the Deliverable Obligations Portfolio will be deemed to be zero. If an obligation by its terms represents or contemplates an obligation to pay an amount greater than the Outstanding Principal Balance of such obligation as at the Delivery Date as a result of the occurrence or non-occurrence of an event or circumstance, the Outstanding Principal Balance of such obligation shall not include any additional amount that would be payable upon the occurrence or non-occurrence of such event or circumstance.

"Delivery Date" means, with respect to a Deliverable Obligation or an Asset Package, the date such Deliverable Obligation or Asset Package is Delivered (or deemed Delivered, as applicable) and, in circumstances where Credit Linked Condition 4.9 (*Partial Cash Settlement Terms*) applies in respect of the Securities, with respect to an amount of cash comprised in the Deliverable Obligations Portfolio, the date on which such cash is paid.

"Delivery Method" has the meaning specified in the Pricing Supplement, or, if no such meaning is specified, shall mean, unless otherwise agreed between a Securityholder and the Issuer, that delivery to such Securityholder shall be to a securities account designated by such Securityholder.

"Due and Payable Amount" means the amount that is due and payable by the Reference Entity under the obligation whether by reason of maturity, acceleration, termination or otherwise (excluding sums in respect of default interest, indemnities, tax gross-ups and other similar amounts) less all or any portion of such amount which, pursuant to the terms of the obligation (a) is subject to any Prohibited Action, or (b) may otherwise be reduced as a result

of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (i) payment or (ii) a Permitted Contingency), in each case, determined in accordance with the terms of the obligation in effect on either (A) the NOPS Effective Date (or if the terms of the obligation are amended after such date but on or prior to the Delivery Date, the Delivery Date) or (B) the CLS Valuation Date, as applicable.

"Final Delivery Date" means, in respect of a Physical Settlement Date, the final Delivery Date to occur with respect to Deliverable Obligations (or, where Credit Linked Condition 4.9 (*Partial Cash Settlement Terms*) applies in respect of the Securities, the amount of cash) comprised in the Deliverable Obligations Portfolio pertaining to such Physical Settlement Date.

"Latest Permissible Physical Settlement Date" means, in respect of Credit Linked Condition 4.3 (*Delivery of Deliverable Obligations Portfolio*), the date that is 30 calendar days after the Physical Settlement Date and, in respect of Credit Linked Conditions 4.5 (*Partial Cash Settlement of Consent Required Loans*), 4.6 (*Partial Cash Settlement of Assignable Loans*) and 4.7 (*Partial Cash Settlement of Participations*), the date that is 15 Business Days after the Physical Settlement Date (or, where 'Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation' applies, the Modified Restructuring Maturity Limitation Date).

"Notice of Physical Settlement" means a notice from the Issuer that (a) confirms that the Issuer will redeem the Securities (unless the Pricing Supplement provides for multiple Deliveries) and require performance in accordance with Physical Settlement as the CLS Settlement Method, (b) contains a detailed description of each Deliverable Obligation that the Issuer will, subject to Credit Linked Condition 4 (*Redemption of Physically Delivered Securities*), Deliver to Securityholders, including if available, the CUSIP or ISIN number (or, if such identifying number is not available, the rate and tenor) of each such Deliverable Obligation and (c) specifies the Outstanding Principal Balance or Due and Payable Amount, as applicable, or the equivalent amount in the Settlement Currency (in each case, the "Outstanding Amount") and, if different, the face amount, of each such Deliverable Obligation and the aggregate Outstanding Amount of all Deliverable Obligations specified in the Notice of Physical Settlement that the Issuer intends to Deliver to Securityholders (the **"Aggregate Outstanding Amount"**).

The Issuer may, from time to time, notify the Securityholders in the manner specified above (each such notification, a **"NOPS Amendment Notice"**) that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior NOPS Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such NOPS Amendment Notice is effective). A NOPS Amendment Notice shall contain a revised detailed description of each replacement Deliverable Obligation that the Issuer will, subject to Credit Linked Condition 4 (*Redemption of Physically Delivered Securities*), Deliver to Securityholders (each, a **"Replacement Deliverable Obligation"**) and shall also specify the Outstanding Amount of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior NOPS Amendment Notice, as applicable, that is being replaced (with respect to each such Deliverable Obligation, the **"Replaced Deliverable Obligation Outstanding Amount"**). The Outstanding Amount of each Replacement Deliverable Obligation identified in a NOPS Amendment Notice shall be determined by applying the Revised Currency Rate to the relevant Replaced Deliverable Obligation Outstanding Amount. The Outstanding Amount of the Replacement Deliverable Obligations specified in any NOPS Amendment Notice in aggregate with the Outstanding Amount of the Deliverable Obligations specified in the Notice of Physical Settlement or any earlier NOPS Amendment Notice which, in each case, are not being replaced must not be greater than the Aggregate Outstanding Amount. Each such NOPS Amendment Notice must be effective on or prior to the Physical Settlement Date (determined without reference to any change resulting from such NOPS Amendment Notice).

Notwithstanding the foregoing, (i) the Issuer may correct any errors or inconsistencies in the detailed description of each Deliverable Obligation contained in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, by notice to the Securityholders prior to the relevant Delivery Date and (ii) if Asset Package Delivery is applicable, the Issuer

shall on the NOPS Effective Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Securityholders of the detailed description of the Asset Package, if any, that it intends to, subject to Credit Linked Condition 4 (*Redemption of Physically Delivered Securities*), Deliver to the Securityholders in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, it being understood in each case that such notice shall not constitute a NOPS Amendment Notice.

"NOPS Cut-Off Date" means:

- (a) the later of:
 - (i) the thirtieth calendar day after the Event Determination Date; and
 - (ii) the tenth calendar day after either the date of the relevant DC Credit Event Announcement or of the relevant DC Credit Event Question Dismissal, if any (or, if the relevant Credit Event is an M(M)R Restructuring, the tenth calendar day after the Exercise Cut-off Date).
- (b) Notwithstanding the foregoing, if "Physical Settlement" is applicable as the Fallback CLS Settlement Method and:
 - (i) the relevant Credit Event is not an M(M)R Restructuring, the later of (A) the date determined pursuant to subparagraph (a)(i) above and (B) the thirtieth calendar day after the Auction Cancellation Date or the No Auction Announcement Date, as applicable; or
 - (ii) the relevant Credit Event is an M(M)R Restructuring, either:
 - (A) the later of (I) the date determined pursuant to subparagraph (a)(i) above and (II) the thirtieth calendar day after (x) a No Auction Announcement Date occurring, if any; or (y) a No Auction Announcement Date occurring, if any; or (z) the Auction Cancellation Date, if any, as applicable; or
 - (B) the later of the Parallel Notice of Physical Settlement Date (or, if more than one should occur, the last Parallel Notice of Physical Settlement Date), and Business Day immediately following the Parallel Auction Cancellation Date, if any (or, if more than one should occur, the last Parallel Auction Cancellation Date), as applicable, in circumstances where a No Auction Announcement Date occurs,

provided that in the case of subparagraphs (a)(ii) and (b) above, the relevant Credit Event Resolution Request Date, if any, occurred on or prior to the date described in subparagraph (a)(i).

"NOPS Effective Date" means the date on which an effective Notice of Physical Settlement or NOPS Amendment Notice, as the case may be, is delivered by the Issuer.

"Physical Settlement Date" means the last day of the longest Physical Settlement Period following the NOPS Cut-off Date, as the Determination Agent may designate in its reasonable discretion provided that if the Final Price has not been determined by the Business Day immediately preceding the Physical Settlement Date, the Physical Settlement Date shall be the first Business Day after the Final Price is determined. If all Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, are Delivered on or before the day so designated, the date that Delivery of such Deliverable Obligations is completed shall be deemed to be the Physical Settlement Date.

"Physical Settlement Period" means the number of Business Days specified as such in the Pricing Supplement or, if a number of Business Days is not so specified, with respect to a Deliverable Obligation specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, the longest number of Business Days for settlement in

accordance with then current market practice of such Deliverable Obligation, as the Determination Agent shall determine, provided, however, that, if the Issuer has notified the Issue and Paying Agent that it intends to Deliver an Asset Package in lieu of a Prior Deliverable Obligation or a Package Observable Bond, the Physical Settlement Period shall be thirty Business Days.

9. Terms relating to Currencies

"Currency Amount" means, with respect to (a) a Deliverable Obligation specified in a Notice of Physical Settlement that is denominated in a currency other than the Settlement Currency, an amount converted into the Settlement Currency using a conversion rate determined by reference to the Currency Rate and (b) a Replacement Deliverable Obligation specified in a NOPS Amendment Notice, an amount converted into the Settlement Currency (or, if applicable, back into the Settlement Currency) using a conversion rate determined by reference to the Currency Rate, if any, and each Revised Currency Rate used to convert each Replaced Deliverable Obligation Outstanding Amount specified in each NOPS Amendment Notice with respect to the relevant portion of the applicable Calculation Amount into the currency of denomination of the relevant Replacement Deliverable Obligation.

"Currency Rate" means, with respect to (a) a Deliverable Obligation specified in the Notice of Physical Settlement, the rate of conversion between the Settlement Currency and the currency in which the Outstanding Amount of such Deliverable Obligation is denominated that is either (i) determined by reference to the Currency Rate Source as at the Next Currency Fixing Time or (ii) if such rate is not available at such time, as the Determination Agent shall determine and (b) a Replacement Deliverable Obligation specified in a NOPS Amendment Notice, the Revised Currency Rate; provided, however, that:

- (a) if a Notice of Physical Settlement is delivered within five Business Days of an Auction Final Price Determination Date, the Issuer may elect to use the Auction Currency Rate (as defined in the Credit Derivatives Auction Settlement Terms) if such rate exists for the relevant currency pair; or
- (b) if 'Local Market Currency Rate' is specified with respect to a Series in the Pricing Supplement, then the Issuer may elect, instead of using the Currency Rate Source, to determine the Currency Rate by reference to quotes from four leading dealers at the Next Currency Fixing Time. The highest and lowest quotes shall be discarded and the Determination Agent shall take an average of the remaining two quotes. If it is not possible to obtain four quotes, then the Determination Agent shall determine the rate acting in a commercially reasonable manner.

"Currency Rate Source" means the mid-point rate of conversion published by WM/Reuters at 4:00 p.m. (London time), or any successor rate source approved by the relevant Credit Derivatives Determinations Committee.

"Next Currency Fixing Time" means 4:00 p.m. (London time) on the London Business Day immediately following the date on which the Notice of Physical Settlement or relevant NOPS Amendment Notice, as applicable, is effective.

"Revised Currency Rate" means, with respect to a Replacement Deliverable Obligation specified in a NOPS Amendment Notice, the rate of conversion between the currency in which the Replaced Deliverable Obligation Outstanding Amount is denominated and the currency in which the Outstanding Amount of such Replacement Deliverable Obligation is denominated that is determined either (a) by reference to the Currency Rate Source as at the Next Currency Fixing Time or (b) if such rate is not available at such time, as the Determination Agent shall determine in a commercially reasonable manner.

DESCRIPTION

1. Brief description of Equity Linked Securities

Equity Linked Securities are Securities where (i) in relation to Notes and Certificates (other than Exercisable Certificates), the payments of interest and/or repayment of principal and/or amount deliverable on redemption and/or the exercise of any Put Option or Call Option or (ii) in relation to Exercisable Certificates and Warrants, the exercise of the Securities or the amount payable or deliverable on exercise or (iii) any additional amounts payable or deliverable in respect of such Securities, as indicated in the Pricing Supplement, will be calculated by reference to and/or contingent upon the performance of a share, fund unit, depositary receipt, interest, equity interest or other equity unit, an equity index or a basket of shares, equity interests, equity units or equity indices over a period of time or on certain dates.

Prospective investors are referred to the factors set out in the section headed 'Risk Factors' of this Offering Circular and in particular to the sections headed (i) 'Risks associated with Securities linked to common shares, ADRs, GDRs and ETFs as Reference Asset(s)' which begins on page 59, (ii) 'Risks associated with Securities linked to equity indices as Reference Asset(s)' which begins on page 63, and (iii) 'Risks associated with Securities linked to dividends of shares comprised in an equity index that is a dividend index' which begins on page 64.

PART B

ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED SECURITIES

*The terms and conditions applicable to Equity Linked Securities shall comprise the Base Conditions, the additional terms and conditions set out below (the "**Equity Linked Conditions**") subject to completion and/or amendment in the Pricing Supplement. In the event of any inconsistency between the Base Conditions and the Equity Linked Conditions set out below, the Equity Linked Conditions shall prevail. In the event of any inconsistency between (i) the Base Conditions, the Equity Linked Conditions and (ii) the Pricing Supplement, the Pricing Supplement shall prevail. This Equity Linked Annex is a Product Annex and a Relevant Annex for the purposes of the Base Conditions and any Securities specified to be Equity Linked Securities in the Pricing Supplement. Capitalised terms used herein but not otherwise defined shall have the meanings given to them in the Base Conditions or the Pricing Supplement.*

1. **Index Modification, Cancellation, Disruption or Adjustment Event**

The following provisions will apply to all Index Linked Securities.

1.1 **Index Adjustment Events**

If:

- (a) on or prior to any Determination Date, in respect of Index Linked Securities, the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation and other routine events) (an "**Index Modification**") or permanently cancels the Index and no successor Index exists (an "**Index Cancellation**"); or
- (b) on any Determination Date in respect of Index Linked Securities the Index Sponsor fails to calculate and announce a relevant Index (an "**Index Disruption**" and, together with an Index Modification and an Index Cancellation, an "**Index Adjustment Event**"),

then the Determination Agent shall on each relevant Determination Date determine if such Index Adjustment Event has a material effect on the relevant Securities and, if so, shall calculate the level of that Index by using, in lieu of a published level for the relevant Index, the level for that Index as at that Determination Date as determined by the Determination Agent in accordance with the formula for and method of calculating that Index last in effect prior to that Index Adjustment Event, but using only those securities that constituted the relevant Index immediately prior to that Index Adjustment Event (other than those securities that have since ceased to be listed on any relevant Exchange), provided always that:

- (A) in the case of Index Cancellation, if a Pre-nominated Index has been specified in the Pricing Supplement in respect of the cancelled Index, the cancelled Index shall be replaced by such Pre-nominated Index with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Index with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology); and

- (B) if the Determination Agent determines that it is unable, or can no longer continue, to calculate the Index (or, in the case of Index Cancellation, the cancelled Index is not replaced with a Pre-nominated Index), the Determination Agent may deem such Index Adjustment Event to constitute an Additional Disruption Event for the purposes of these provisions and shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, in respect of the Securities.

1.2 Successor Index Sponsor or substitution of Index with substantially similar calculation

If an Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Index Sponsor**") acceptable to the Determination Agent or (ii) replaced by a successor index (the "**Successor Index**") using, in the determination of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then (1) the index as calculated and announced by the Successor Index Sponsor or (2) the Successor Index will be deemed to be the Index.

1.3 Correction of an Index

If the level of an Index published on any Determination Date and used or to be used by the Determination Agent to determine the relevant Index value is subsequently corrected and:

- (a) if 'Index Correction – Index-linked Interest' is not specified as applicable in the Pricing Supplement, the correction is published by the Index Sponsor or a Successor Index Sponsor prior to the second Exchange Business Day preceding the Redemption Date, any Optional Cash Redemption Date, any Optional Physical Redemption Date, any Early Cash Redemption Date, any Early Cancellation Date, any Early Physical Cancellation Date, any Specified Early Cash Redemption Date, the Specified Early Cash Cancellation Date, any Specified Early Physical Redemption Date, the Specified Early Physical Cancellation Date, any Exercise Date, the Expiration Date, any Exercise Cash Settlement Date or any Physical Delivery Date; or
- (b) if 'Index Correction – Index-linked Interest' is specified as applicable in the Pricing Supplement, the correction is published by the Index Sponsor or a Successor Index Sponsor no later than two Exchange Business Days prior to the next date upon which any payment referencing or derived from the Index value shall be made by the Issuer,

the Determination Agent shall recalculate the relevant Settlement Amount, Entitlement or other relevant amount, as the case may be, using such corrected level of the relevant Index and, to the extent necessary, will adjust any relevant terms of the Index Linked Securities to account for such correction. The Determination Agent shall notify the Issuer and the Issue and Paying Agent shall notify the Securityholders of (i) that correction and (ii) the amount, if any, that is payable or deliverable as a result of that correction and (iii) any adjustment being made.

1.4 Manifest error in Index Calculation

Notwithstanding anything to the contrary herein, if, on any Determination Date, there is, in the reasonable opinion of the Determination Agent, a manifest error in the calculation of an Index by the Index Sponsor (as manifested in the level of the Index published by the Index Sponsor), the Determination Agent may calculate the level of such Index for such date in lieu of using the level published on such date by the Index Sponsor. Such calculation will be determined in accordance with the methodology and formula for calculating the Index used by the Index Sponsor last in effect prior to the manifest error occurring. Where the Determination Agent calculates the level of the Index in accordance with this paragraph, it shall give notice in writing to the

Securityholder(s) in accordance with the Base Conditions of the Index level so calculated no later than ten Business Days after the relevant Determination Date.

If the Index Sponsor continues to calculate the Index with manifest error for more than three Scheduled Trading Days, then the Determination Agent may make adjustments to the terms of the Security, including, without limitation, selecting an alternative index to replace the Index and/or replicating the constituents of the relevant Index and/or continuing to calculate the Index in accordance with the methodology and formula for calculating the Index used by the Index Sponsor last in effect prior to the manifest error occurring and/or adjusting the constituents and weightings of the Index. Where the Determination Agent makes any adjustment(s) in accordance with this paragraph, it shall give notice in writing to the Securityholder(s) in accordance with the Base Conditions as soon as is reasonably practicable after making such adjustment(s).

For the avoidance of doubt, where a correction to the level of the Index is published by the Index Sponsor as described in Equity Linked Condition 1.3 (*Correction of an Index*) after the Determination Agent has calculated the level of the Index pursuant to this Equity Linked Condition 1.4, the Determination Agent may, notwithstanding any such calculation, recalculate the relevant Settlement Amount, Entitlement or other relevant amount, as the case may be, using such corrected level of the relevant Index. The Determination Agent shall give notice in writing to the Securityholder of such recalculation no later than ten Business Days after the correction to the level of the Index is published by the Index Sponsor.

Where such correction is published after the Determination Agent has adjusted the terms of the Security pursuant to this Equity Linked Condition 1.4, Equity Linked Condition 1.3 (*Correction of an Index*) shall not apply and the terms of the adjustment in accordance with this Equity Linked Condition 1.4 shall prevail.

1.5 Futures Price Valuation

If 'Futures Price Valuation' is specified as applicable in respect of an Index in the Pricing Supplement, then, notwithstanding any other provisions of these Equity Linked Conditions, the following provisions will apply to the valuation of that Index on the Valuation Date:

- (a) For the purposes of determining the level of the Index, on the Valuation Date:
 - (i) in respect of a Security linked to an Index, the level of the Index will be the Official Settlement Price on the Valuation Date; and
 - (ii) in respect of a Security linked to a basket of Indices, the level in respect of each Index for which Futures Price Valuation is stated to be applicable will be the Official Settlement Price (weighted or adjusted to that Index as provided for in the Pricing Supplement) on the Valuation Date,

where:

"Official Settlement Price" means, in respect of an Exchange-traded Contract and any day, the official settlement price (howsoever described under the rules of the relevant exchange or its clearing house) of any of the relevant Exchange-traded Contracts published by the exchange or its clearing house;

"Exchange-traded Contract" means, in relation to an Index, a contract specified as such for that Index in the related Pricing Supplement. For this purpose, the parties shall specify the futures or options contract by reference to (1) the Index to which it relates, (2) the delivery month of such contract and (3) the exchange on which it is traded; and

"Valuation Date" means, for the purposes of this Equity Linked Condition 1.5 (*Futures Price Valuation*) only, a day on which the Official Settlement Price is published and, in all cases, except for Equity Linked Condition 1.5 (c), irrespective of whether such day is a Disrupted Day.

(b) Adjustments of the Exchange-traded Contract

In the event that the terms of the Exchange-traded Contract are changed or modified by the relevant exchange or clearing house, the Determination Agent shall, if necessary, adjust the Settlement Amount or the Entitlement or any other term of the Security as the Determination Agent deems fit to preserve the economic equivalent of any payment or payments (assuming satisfaction of each applicable condition precedent) in respect of the Security that would have been required after the date of such change.

(c) Non-commencement or discontinuance of the Exchange-traded Contract

If there is no Official Settlement Price as a result of the fact that trading in the Exchange-traded Contract never commences or is permanently discontinued at any time on or prior to a Valuation Date, the Official Settlement Price for that Valuation Date shall be deemed to be the level of the relevant Index at the close of the regular trading session on the relevant Exchange on the Valuation Date. If this Equity Linked Condition 1.5 (c) applies, then the relevant Valuation Date shall mean the date that, but for the non-commencement or discontinuance of the Exchange-traded Contract, would have been the date of publishing the Official Settlement Price unless such day is a Disrupted Day, in which case the provisions of Equity Linked Condition 3 (*Consequences of Disrupted Days*) shall apply.

(d) Corrections of the Official Settlement Price

If the Official Settlement Price for any Valuation Date is corrected and the correction is published by the relevant exchange or clearing house within one settlement cycle for the related Exchange-traded Contract after the original publication, the Determination Agent will determine the amount that is payable as a result of that correction and, to the extent necessary, will adjust the terms of the Index Linked Security to account for such correction.

2. Share Adjustments or Disruptions

The following conditions will apply to all Share Linked Securities, provided that Equity Linked Condition 2.1 (*Potential Adjustment Events*) shall be subject to Equity Linked Condition 14 (*Depository Receipt Provisions*), if applicable.

2.1 Potential Adjustment Events

The Issuer may at any time determine that a Potential Adjustment Event has occurred. Following such determination by the Issuer of any Potential Adjustment Event, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares and, if so, will (i) make the corresponding adjustment(s), relevant to the exercise, settlement, payment or other terms of the Securities as the Determination Agent determines appropriate to account for the diluting or concentrative effect of such Potential Adjustment Event (the "**Adjustment(s)**") and (ii) determine the effective date(s) of the Adjustment(s). The Determination Agent may (but need not) determine the appropriate Adjustment(s) by reference to the Adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Shares traded on that options exchange.

Any adjustment to the terms of the Securities following a Potential Adjustment Event shall take into account the economic cost of any taxes, duties, levies, fees or registration payable by or on behalf of the Issuer or any of its relevant Affiliates or a foreign investor charged on subscription, acquisition or receipt of any Shares or other securities received as a result of the Potential Adjustment Event, such calculations to be determined and carried out by the Determination Agent in good faith.

Notwithstanding the above, the Issuer may, alternatively, on giving notice to the Securityholders, elect, in lieu of the Determination Agent making an Adjustment in respect of a Potential Adjustment Event, to deliver to each Securityholder one or more

additional Securities (the "**Adjustment Event Securities**") and/or pay to each Securityholder a cash amount (the "**Adjustment Event Amount**") to account for the diluting or concentrative effect of such Potential Adjustment Event. Where the Issuer elects to deliver Adjustment Event Securities, such Adjustment Event Securities will be issued on the same (or substantially the same) terms as the relevant Securities as the Determination Agent may determine. In such notice the Issuer will set out the amount of Securities to be delivered and/or cash to be paid and the manner in which such delivery and/or payment is to be made.

For the avoidance of doubt, if the Issuer determines and declares that a certain event constitutes a Potential Adjustment Event, then Equity Linked Condition 7 (*Dividends and Rights Issue Provisions for Market Access Products*) shall not apply in respect of such event.

2.2 **Merger Events**

Following the occurrence of any Merger Event, the Issuer shall, in its discretion, deem such Merger Event to constitute an Additional Disruption Event for the purposes of these provisions and shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, in respect of the Securities.

2.3 **Nationalisation, Insolvency and Delisting**

Following the occurrence of any Nationalisation, Insolvency or Delisting, the Issuer shall, in its discretion, deem such Nationalisation, Insolvency or Delisting, as the case may be, to constitute an Additional Disruption Event for the purposes of these provisions and shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, in respect of the Securities.

2.4 **Tender Offers**

Following the occurrence of any Tender Offer, the Issuer shall, in its discretion, deem such Tender Offer to constitute an Additional Disruption Event for the purposes of these provisions and shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, in respect of the Securities.

2.5 **Substitution of Shares**

- (a) If 'Substitution of Shares – Standard' is specified as applicable in the Pricing Supplement, if any Share shall be affected by a Merger Event, Tender Offer, Nationalisation, Insolvency Filing, Insolvency, Delisting or that the Share is otherwise cancelled or an announcement has been made for it to be cancelled for whatever reason, as the case may be, (the "**Affected Shares**"), then without prejudice to the rights that the Issuer has under the Securities (as described above), the Issuer or the Determination Agent on its behalf shall have the option to substitute the Affected Shares with substitute shares (the "**Substitute Shares**") as selected by the Determination Agent for inclusion in the Basket of Shares as at the Announcement Date or the Tender Offer Date, as the case may be, or such other date as the Determination Agent may deem appropriate.

The Substitute Shares shall have such criteria as the Determination Agent deems appropriate, including, but not limited to, the following:

- (i) the Substitute Shares shall be of the same broad economic sector as the Share Company of the Affected Shares;
- (ii) the issuer of the Substitute Shares shall be of a similar international standing and creditworthiness as the Share Company of the Affected Shares; and
- (iii) the Substitute Shares shall not be a Share already in the Basket of Shares. The Initial Price of the Substitute Shares shall be determined in accordance with the following:

Initial Price = Substitute Price \times (Affected Share(k)/Affected Share(j)),

where:

"**Substitute Price**" means the official closing price per Share of the relevant Substitute Shares as at the Valuation Time on the dates on which the Affected Share(j) is determined or, if such date is not a Scheduled Trading Day on the relevant Exchange in respect of the Substitute Shares, the following Scheduled Trading Day of the Substitute Shares;

"**Affected Share(k)**" means the 'Initial Price' per Share of the relevant Affected Shares as specified in the Pricing Supplement; and

"**Affected Share(j)**" means the last closing price per Share of the Affected Shares on or prior to the Announcement Date or the Tender Offer Date (as the case may be).

The Determination Agent shall notify the Securityholders as soon as practicable after the selection of the Substitute Shares; the failure by the Determination Agent to give such notice shall not, however, prejudice or invalidate the Substitute Shares being included as at the time and date specified above.

If 'Physical Settlement' is specified as the Settlement Method in the Pricing Supplement or is elected by the Issuer or Securityholder pursuant to Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions (as the case may be), Entitlement Substitution shall be deemed to be applicable with respect to a series of Share Linked Securities which reference the relevant Affected Shares.

- (b) If 'Substitution of Shares – ETF underlying' is specified as applicable in the Pricing Supplement, on the occurrence of a Merger Event, Tender Offer, Nationalisation, Insolvency Filing, Insolvency, Delisting, Fund Disruption Event (if specified as applicable as an Additional Disruption Event in the Pricing Supplement) or the Share is otherwise cancelled or an announcement has been made for it to be cancelled for whatever reason, as the case may be, then without prejudice to the rights that the Issuer has under the Securities, the Issuer or the Determination Agent on its behalf shall have the discretion to substitute the Share with shares, units or other interests of an exchange-traded fund or other financial security, index or instrument (each a "**Replacement Security**") that the Determination Agent determines is comparable to the discontinued Share (or discontinued Replacement Security). If a Replacement Security is selected, that Replacement Security will be substituted for the discontinued Share (or discontinued Replacement Security) at such time and on such date as the Determination Agent determines and be deemed to be the Share for all purposes of the Securities after the substitution.

Upon the substitution by the Determination Agent of a Replacement Security, the Determination Agent may adjust any variable in the terms of the Securities (including, without limitation, any variable relating to the price of the shares, units or other interests in the Share, the number of such shares, units or other

interests outstanding, created or redeemed or any dividend or other distribution made in respect of such shares, units or other interests) as, in the good faith judgement of the Determination Agent, may be, and for such time as may be, necessary to render the Replacement Security comparable to the shares or other interests of the discontinued Share (or discontinued Replacement Security) for purposes of the Securities.

Upon any substitution by the Determination Agent of a Replacement Security, the Determination Agent shall notify the Securityholders as soon as practicable after the selection of the Replacement Security; the failure to give such notice by the Determination Agent shall not, however, invalidate the Replacement Security being selected and substituted as at the time and date as specified above.

3. Consequences of Disrupted Days

3.1 If, in the opinion of the Determination Agent, any Valuation Date is a Disrupted Day, then:

- (a) in the case of a Share Linked Security referencing a Share, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day, in which case that eighth Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that it is a Disrupted Day, and the Determination Agent shall determine in a commercially reasonable manner the relevant Exchange-traded or quoted price (the "**Traded Price**") for such Share that would have prevailed on that eighth Scheduled Trading Day but for that Disrupted Day; or
- (b) in the case of an Index Linked Security referencing an Index, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day. In that case (i) the eighth Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day and (ii) the Determination Agent shall determine the level of the Index in the manner set out in the Pricing Supplement or, if not set out or not practicable, shall determine the level of the Index as at the Valuation Time on the eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Traded Price as at the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its determination made in a commercially reasonable manner of the Traded Price for the relevant security as at the Valuation Time on that eighth Scheduled Trading Day); or
- (c) in the case of a Security referencing a Basket or Baskets of Indices and/or Shares, the Valuation Date for each Index or Share, as the case may be, not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and the Valuation Date for each Index or Share affected by the occurrence of a Disrupted Day (each an "**Affected Index**" or an "**Affected Share**", as the case may be) shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the Affected Index or Affected Share, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day relating to that Affected Index or Affected Share. In that case (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date for that Affected Index or Affected Share, notwithstanding the fact that such day is a Disrupted Day and (ii) in relation to (A) the Affected Share, the Determination Agent shall determine the relevant Traded Price for such Share that would have prevailed on that eighth Scheduled Trading Day but

for the Disrupted Day and (B) the Affected Index, the Determination Agent shall determine the level for such Index in the manner set out in the Pricing Supplement or, if not set out or if not practicable, shall determine the level for that Index as at the Valuation Time on the eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Affected Index last in effect prior to the occurrence of the first Disrupted Day using the Traded Price as at the Valuation Time on that eighth Scheduled Trading Day of each security comprised in that Affected Index or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its determination made in a commercially reasonable manner of the Traded Price for the relevant security as at the Valuation Time on that eighth Scheduled Trading Day.

4. **Adjustments**

If the Issuer requests that the Determination Agent determine whether an appropriate adjustment can be made in accordance with Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, the Issuer shall not be obliged to make any adjustment that it does not think is appropriate and none of the Determination Agent, the Issuer or any other party shall be liable for the Issuer making or failing to make any such adjustment.

In particular, notwithstanding that an adjustment is required to be made by the provisions set out in these Equity Linked Conditions in respect of any event affecting a Share Company or its Shares, or an Index or its Index Sponsor, the Issuer reserves the right not to make that adjustment if, at the time the adjustment is to be made pursuant thereto, an option or future on the relevant Share or Index is traded on any Futures or Options Exchange and no adjustment is made by that Futures or Options Exchange to the entitlement under that traded option or future in respect of that event.

The Issuer will give, or procure that there is given, notice as soon as practicable of any adjustment and of the date from which such adjustment is effective.

5. **FX Disruption Event**

5.1 If 'FX Disruption Event' is specified as applying in the Pricing Supplement, upon the occurrence of an FX Disruption Event, the Issuer may, in its discretion, take any one or more of the actions described below:

- (a) make payment of the relevant Settlement Amount and/or any other amount payable by the Issuer pursuant to the Conditions in the Specified Currency instead of the Settlement Currency, the amount payable in the Specified Currency being determined by the Determination Agent;
- (b) deduct an amount calculated by the Determination Agent as representing the applicable charge, cost, loss, expense or deduction arising in connection with the FX Disruption Event from the relevant Settlement Amount and/or any other amount payable by the Issuer pursuant to the Conditions;
- (c) postpone the relevant Redemption Date, Optional Cash Redemption Date, Early Cash Redemption Date, Early Cancellation Date, Exercise Cash Settlement Date, payment of the Disruption Cash Settlement Price and/or payment of any other amount payable by the Issuer pursuant to the Conditions until, in the determination of the Determination Agent, an FX Disruption Event is no longer subsisting;
- (d) determine the currency exchange rate required to convert the Specified Currency into the Settlement Currency; and/or
- (e) on giving not less than ten Business Days' irrevocable notice to Securityholders (or such other notice period as may be specified in the Pricing Supplement)

(such period the "**Early Redemption Notice Period**"), redeem all of the Securities of the relevant Series in whole, subject to Conditions 7, 8 and 9 of the Base Conditions, at their Early Cash Settlement Amount on the Early Cash Redemption Date.

- 5.2 Upon the occurrence of an FX Disruption Event, the Issuer shall give notice as soon as practicable to the Securityholders stating the occurrence of the FX Disruption Event, giving details thereof and the action proposed to be taken in relation thereto. Where FX Disruption Event applies, and an event is both a Currency Disruption Event and an FX Disruption Event, such event shall be deemed to be an FX Disruption Event.

6. **FX Inbound Valuation Disruption Event**

- 6.1 If 'FX Inbound Valuation Disruption Event' is specified as applying in the Pricing Supplement, upon the occurrence of an FX Inbound Valuation Disruption Event, the Issuer may, in its discretion, take any one or more of the actions described below:
- (a)
 - (i) postpone the relevant Valuation Date, Averaging Date or any other relevant date of determination until, in the determination of the Determination Agent, an FX Inbound Valuation Disruption Event is no longer subsisting; and
 - (ii) request that the Determination Agent determines whether an appropriate adjustment can be made to the Conditions and any other provisions relating to the Securities to account for such postponement. If the Determination Agent determines that such adjustment(s) can be made, the Issuer shall determine the effective date of such adjustment(s) and take the necessary steps to effect such adjustment(s). The Issuer shall notify Securityholders of any such adjustment(s) of the Base Conditions as soon as reasonably practicable after the nature and effective date of the adjustments are determined. If the Determination Agent determines that no adjustment that could be made would produce a commercially reasonable result, it shall notify the Issuer of such determination and no adjustment(s) shall be made. None of the Determination Agent, the Issuer or any other party shall be liable to any holder, Securityholder or any other person for any determination and/or adjustment made by the Determination Agent and/or the Issuer pursuant to this Equity Linked Condition 6.1(a)(ii); and
 - (iii) the date for payment of the payment obligations to which the FX Inbound Valuation Disruption Event relates (including a Redemption Date, Optional Cash Redemption Date, Early Cash Redemption Date, Early Cancellation Date, Exercise Cash Settlement Date, date of payment of the Disruption Cash Settlement Price and/or date of payment of any other amount payable by the Issuer pursuant to the Conditions) will be postponed accordingly; or
 - (b) on giving not less than ten Business Days' irrevocable notice to Securityholders (or such other notice period as may be specified in the Pricing Supplement) (such period the "**Early Redemption Notice Period**"), redeem all of the Securities of the relevant Series in whole, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, at their Early Cash Settlement Amount on the Early Cash Redemption Date.
- 6.2 Upon the occurrence of an FX Inbound Valuation Disruption Event, the Issuer shall give notice as soon as practicable to the Securityholders stating the occurrence of the FX Inbound Valuation Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

7. **Dividends and Rights Issue Provisions for Market Access Products**

In the case of Share Linked Securities which are Cash Settled Securities referencing a Share, the following provisions shall apply to such Securities if 'Market Access Dividend and Rights Issue Provisions' is specified as applicable in the Pricing Supplement. For the avoidance of doubt, if the Issuer determines that an event which might otherwise be subject to this Equity Linked Condition 7 constitutes a Potential Adjustment Event, then this Equity Linked Condition 7 shall not apply in respect of such event.

7.1 Cash Dividends

- (a) In the event that on or after the Issue Date a Cash Dividend is declared by the Share Company, notwithstanding any provisions in these Equity Linked Conditions to the contrary, the Determination Agent shall (i) calculate the relevant expected Distributed Amount, (ii) the relevant Dividend Entitlement Date and (iii) determine the relevant Expected Dividend Date.
- (b) The Issuer shall give notice to Securityholders of the Cash Dividend and the Expected Dividend Date.
- (c) Subject as provided below, the Issuer shall pay to each Securityholder on the Cash Dividend Payment Date an amount equal to the Cash Dividend Amount in respect of each Security held by such Securityholder on the Dividend Entitlement Date, provided that if the relevant Dividend Date has not occurred prior to the earlier of (i) the date that falls six months after the Expected Dividend Date or (ii) the Redemption Date, Optional Cash Redemption Date, Optional Physical Redemption Date, Early Cash Redemption Date, Specified Early Cash Redemption Date, Specified Early Physical Redemption Date, Early Cancellation Date, Early Physical Cancellation Date, Exercise Cash Settlement Date or Physical Delivery Date (as applicable) the Issuer shall not be obliged to pay the relevant Cash Dividend Amount and the Issuer shall have no further obligation in respect thereof.
- (d) In order to receive the Cash Dividend Amount, in relation to Securities represented by a Global Bearer Security, a Regulation S Global Security or a Rule 144A Global Security held by a Common Depositary, Common Safekeeper, custodian or nominee on behalf of a Relevant Clearing System (other than DTC), a Securityholder must deliver to the Relevant Clearing System, with a copy to the Issue and Paying Agent, a duly completed notice (a "**Cash Dividend Notice**") in the applicable form set out in Schedule 9 to the Master Agency Agreement (as amended from time to time) on or prior to the Cash Dividend Notice Cut-off Date. Subject thereto, the Relevant Clearing System will (subject to its rules and procedures) confirm to the Issue and Paying Agent the Series number and number of Securities the subject of such notice, the relevant account details and

the details for the payment of the Cash Dividend Amount of each Security that is the subject of such notice. Upon receipt of such confirmation, the Issue and Paying Agent will inform the Issuer thereof and the Issuer shall pay the relevant Cash Dividend Amount to the relevant Securityholder's account at the Relevant Clearing System specified by such Securityholder in the Cash Dividend Notice.

- (h) In the event that a Securityholder fails to deliver a duly completed Cash Dividend Notice on or prior to the Cash Dividend Notice Cut-off Date as provided above, such Securityholder's right to receive the Cash Dividend Amount in respect of its Securities shall lapse and the Issuer shall have no further liability in respect thereof.
- (i) A Cash Dividend Notice may not be withdrawn after receipt thereof by the Relevant Clearing System or the New York Agent, as the case may be, and after delivery of a Cash Dividend Notice the relevant Securityholder may not transfer the Securities which are the subject of such Cash Dividend Notice until after the payment of the relevant Cash Dividend Amounts in respect of the relevant Securities.

Securityholders should note that, in the event that a duly completed Cash Dividend Notice is duly delivered as provided above, the Issuer's only obligation in respect thereof is to pay the relevant Cash Dividend Amount(s) to the account (in the case of Securities represented by a Permanent Global Security, Regulation S Global Security or Rule 144A Global Security, with the Relevant Clearing System, as applicable) specified in such Cash Dividend Notice and to no other person or account.

- (i) In the event that a Securityholder fails to deliver a duly completed Rights Notice and pay the relevant Rights Amount prior to the Rights Subscription Notice Cut-off Date as provided above, such Securityholder's rights to receive the Rights Security Amount or the Rights Cash Amount, as the case may be, in respect of its Securities shall lapse and the Issuer shall have no further liability in respect thereof.
- (j) A Rights Notice may not be withdrawn after receipt thereof by the Relevant Clearing System or the New York Agent and, after delivery of a Rights Notice, the relevant Securityholder may not transfer the Securities which are the subject of such Rights Notice until after the delivery of the Rights Security Amounts or payment of the Rights Cash Amounts, as the case may be, in respect of the relevant Securities.

- (k) Delivery of the Rights Security Amount in respect of each Security is subject to compliance with all applicable securities laws and, in the event that any such delivery of the Rights Security Amount would result in non-compliance with any applicable securities laws, in lieu of such delivery, the Issuer shall pay to the relevant Securityholder the Rights Cash Amount.

7.4 General

- (a) Any determination as to whether a Cash Dividend Notice, a Stock Dividend Notice or a Rights Notice is duly completed and in proper form shall be made, in the case of Securities represented by a Global Bearer Security, a Regulation S Global Security or a Rule 144A Global Security held by a Common Depositary, Common Safekeeper, custodian or nominee on behalf of a Relevant Clearing System (other than DTC) or, in the case of Securities represented by a Rule 144A Global Security held by a custodian on behalf of DTC, by the New York Agent, in each case, in consultation with the Issue and Paying Agent, and shall be conclusive and binding on the Issuer, the Agents and the relevant Securityholder. Subject as set out below, any Cash Dividend Notice, Stock Dividend Notice or Rights Notice so determined to be incomplete or not in proper form, or which is not copied to the Issue and Paying Agent immediately after being delivered or sent to the Relevant Clearing System or the New York Agent, as the case may be, as provided above, shall be null and void.
- (b) If a Cash Dividend Notice, a Stock Dividend Notice or a Rights Notice is subsequently corrected to the satisfaction of the Relevant Clearing System or the New York Agent, as the case may be, in consultation with the Issue and Paying Agent, it shall be deemed to be a new Cash Dividend Notice, Stock Dividend Notice or Rights Notice, as the case may be, submitted at the time such correction was delivered to the Relevant Clearing System or the New York Agent, as the case may be, with a copy to the Issue and Paying Agent.

In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Issue and Paying Agent, the Relevant Clearing System or the New York Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.
- (d) Copies of the Cash Dividend Notice, Stock Dividend Notice and Rights Notice may be obtained during normal business hours from the specified offices of the Agents.

- (b) If the Determination Agent determines that:
- (i) an event under (i) to (vii) (inclusive) of the definition of 'Potential Adjustment Event' has occurred in respect of any Underlying Share, the Determination Agent will determine whether such Potential Adjustment

Event has a diluting or concentrative effect on the theoretical value of the relevant Shares; or

- (ii) an event under (viii) of the definition of 'Potential Adjustment Event' has occurred, the Determination Agent will determine whether such Potential Adjustment Event has an economic effect on the Securities;

and, in each case, the Determination Agent will make the corresponding adjustment(s), if any, to one or more of any variable relevant to the exercise, settlement, payment or other terms of the Securities as the Determination Agent determines appropriate to account for (x) in respect of an event under (i) to (vii) (inclusive) of the definition of 'Potential Adjustment Event', that diluting or concentrative effect, and (y) in respect of an event under (viii) of the definition of 'Potential Adjustment Event', such economic effect on the Securities, as the case may be (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) following the Potential Adjustment Event. The Determination Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.

Any adjustment to the terms of the Securities following a Potential Adjustment Event shall take into account the economic cost of any taxes, duties, levies, fees or registration payable by or on behalf of the Issuer or any of its relevant Affiliates or a foreign investor charged on subscription, acquisition or receipt of any Shares or other securities received as a result of the Potential Adjustment Event, such calculations to be determined and carried out by the Determination Agent in good faith.

Notwithstanding the above, the Issuer may, alternatively, on giving notice to the Securityholders, elect, in lieu of the Determination Agent making an Adjustment in respect of a Potential Adjustment Event, to deliver to each Securityholder one or more additional Securities (the "**Adjustment Event Securities**") and/or pay to each Securityholder a cash amount (the "**Adjustment Event Amount**") to account for the diluting or concentrative effect of such Potential Adjustment Event. Where the Issuer elects to deliver Adjustment Event Securities, such Adjustment Event Securities will be issued on the same (or substantially the same) terms as the relevant Securities as the Determination Agent may determine. In such notice the Issuer will set out the amount of Securities to be delivered and/or cash to be paid and the manner in which such delivery and/or payment is to be made.

For the avoidance of doubt, if the Determination Agent determines and declares that a certain event constitutes a Potential Adjustment Event, then Equity Linked Condition 7 (Dividends and Rights Issue Provisions for Market Access Products) shall not apply in respect of such event.

For the purpose of this Equity Linked Condition 14, Equity Linked Condition 2.1 (*Potential Adjustment Events*) will not apply.

If the Determination Agent determines that no adjustment that it could make will produce a commercially reasonable result, it shall notify the Issuer (where applicable) and the Securityholders that the relevant consequence shall be the early redemption of the Securities, in which case, on such date as selected by the Determination Agent in its reasonable commercial discretion, the Issuer shall redeem the Securities upon prior notice made to the Securityholders, and the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Early Cash Settlement Amount (as defined in Condition 25 (*Definitions*)).

If the Determination Agent determines that a Merger Event or Tender Offer has occurred in respect of an Underlying Share, then where the Determination Agent makes an adjustment to the Securities in connection with a Merger Event or Tender Offer, the Determination Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.

- (d) The definitions of 'Nationalisation', 'Insolvency' and 'Delisting' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If any of 'Nationalisation', 'Insolvency' or 'Delisting' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such events shall be interpreted consistently.

Notwithstanding anything to the contrary in the definition of 'Delisting', a Delisting shall not occur in respect of the Underlying Share if the Underlying Share is immediately re-listed, re-traded or re-quoted on an exchange or quotation system regardless of the location of such exchange or quotation system.

- (e) The definition of 'Insolvency Filing' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If 'Insolvency Filing' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such event shall be interpreted consistently.

- (f) The definition of 'Announcement Date' to add at the end thereof the following:

"(c) in the case of a termination of the Deposit Agreement, the date of the first public announcement by the Depository that the Deposit Agreement is (or will be) terminated."

Where the Pricing Supplement specifies 'Full Lookthrough Depository Receipt Provisions' to be applicable to a Share, then the provisions set out below shall apply, and, in relation to such Share, the other Equity Linked Conditions shall be deemed to be amended and modified as set out in this Equity Linked Condition 14.

- (a) The definition of "**Potential Adjustment Event**" shall be amended so that it reads as follows:

"**Potential Adjustment Event**" means any of the following or a declaration by the Share Company of the terms of any of the following:

- (i) a subdivision, consolidation or reclassification of the relevant Shares and/or Underlying Share (unless resulting in a Merger Event), or a free distribution or dividend of any such Shares and/or Underlying Share to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of the relevant Shares and/or Underlying Share of (i) additional Shares and/or Underlying Share, or (ii) other share capital or securities granting the right to

payment of dividends and/or the proceeds of dissolution, liquidation or termination of the Shares Company or Underlying Share Company, as appropriate, equally or proportionately with such payments to holders of such Shares and/or Underlying Share, or (iii) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Share Company or Underlying Share Company, as appropriate, as a result of a spin-off or other similar transaction, or (iv) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Determination Agent;

- (iii) in respect of a Share and/or Underlying Share, an amount per Share and/or Underlying Share which the Determination Agent determines should be characterised as an extraordinary dividend;
 - (iv) a call by the Share Company or Underlying Share Company, as appropriate, in respect of the relevant Shares and/or Underlying Share that is not fully paid;
 - (v) a repurchase by the Share Company or Underlying Share Company, as appropriate, or any of its subsidiaries of the relevant Shares and/or Underlying Share whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
 - (vi) in respect of the Share Company or Underlying Share Company, as appropriate, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Share Company or Underlying Share Company, as appropriate, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights;
 - (vii) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares and/or Underlying Share; or
 - (viii) the making of any amendment or supplement to the terms of the Deposit Agreement, provided that an event under (i) to (vii) (inclusive) above in respect of the Underlying Share shall not constitute a Potential Adjustment Event unless, in the opinion of the Determination Agent, such event has a diluting or concentrative effect on the theoretical value of the Shares."
- (b) If the Determination Agent determines that:
- (i) an event under (i) to (vii) (inclusive) of the definition of 'Potential Adjustment Event' has occurred in respect of any Underlying Share, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares; or
 - (ii) an event under (viii) of the definition of 'Potential Adjustment Event' has occurred, the Determination Agent will determine whether such Potential Adjustment Event has an economic effect on the Securities;

and, in each case, the Determination Agent will make the corresponding adjustment(s), if any, to one or more of any variable relevant to the exercise, settlement, payment or other terms of the Securities as the Determination Agent determines appropriate to account for (x) in respect of an event under (i) to (vii)

(inclusive) of the definition of 'Potential Adjustment Event', that diluting or concentrative effect, and (y) in respect of an event under (viii) of the definition of 'Potential Adjustment Event', such economic effect on the Securities, as the case may be (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) following the Potential Adjustment Event. The Determination Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.

Any adjustment to the terms of the Securities following a Potential Adjustment Event shall take into account the economic cost of any taxes, duties, levies, fees or registration payable by or on behalf of the Issuer or any of its relevant Affiliates or a foreign investor charged on subscription, acquisition or receipt of any Shares or other securities received as a result of the Potential Adjustment Event, such calculations to be determined and carried out by the Determination Agent in good faith.

Notwithstanding the above, the Issuer may, alternatively, on giving notice to the Securityholders, elect, in lieu of the Determination Agent making an Adjustment in respect of a Potential Adjustment Event, to deliver to each Securityholder one or more additional Securities (the "**Adjustment Event Securities**") and/or pay to each Securityholder a cash amount (the "**Adjustment Event Amount**") to account for the diluting or concentrative effect of such Potential Adjustment Event. Where the Issuer elects to deliver Adjustment Event Securities, such Adjustment Event Securities will be issued on the same (or substantially the same) terms as the relevant Securities as the Determination Agent may determine. In such notice the Issuer will set out the amount of Securities to be delivered and/or cash to be paid and the manner in which such delivery and/or payment is to be made.

For the avoidance of doubt, if the Determination Agent determines and declares that a certain event constitutes a Potential Adjustment Event, then Equity Linked Condition 7 (Dividends and Rights Issue Provisions for Market Access Products) shall not apply in respect of such event.

For the purpose of this Base Condition 14, Equity Linked Condition 2.1 (*Potential Adjustment Events*) will not apply.

If the Determination Agent determines that no adjustment that it could make will produce a commercially reasonable result, it shall notify the Issuer (where applicable) and the Securityholders that the relevant consequence shall be the early redemption of the Securities, in which case, on such date as selected by the Determination Agent in its reasonable commercial discretion, the Issuer shall redeem the Securities upon prior notice made to the Securityholders, and the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Early Cash Settlement Amount (as defined in Condition 25 (*Definitions*)).

- (c) The definitions of 'Merger Event' and 'Tender Offer' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'. If the Determination Agent determines that a Merger Event or Tender Offer has occurred in respect of an Underlying Share, then where the Determination Agent makes an adjustment to the Securities in connection with a Merger Event or Tender Offer, the Determination Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.
- (d) The definitions of 'Nationalisation', 'Insolvency' and 'Delisting' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words

'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If any of 'Nationalisation', 'Insolvency' or 'Delisting' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such events shall be interpreted consistently.

- (e) The definition of 'Insolvency Filing' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If 'Insolvency Filing' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such event shall be interpreted consistently.

- (f) The definition of 'Announcement Date' to add at the end thereof the following:

"(c) in the case of a termination of the Deposit Agreement, the date of the first public announcement by the Depository that the Deposit Agreement is (or will be) terminated."

- (g) For the purpose of determining whether a Market Disruption Event has occurred in respect of the Share, the following amendments shall be deemed to be made to the Equity Linked Conditions:

- (i) each reference in the definition of 'Exchange Business Day', 'Scheduled Closing Time', 'Scheduled Trading Day', 'Trading Disruption', 'Exchange Disruption', 'Early Closure' and 'Disrupted Day', to the 'Exchange' shall be deemed to include a reference to the primary exchange or quotation system on which the Underlying Share are traded; and

- (ii) the definition of 'Market Disruption Event', 'Trading Disruption' and 'Exchange Disruption' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'. If the event described in such provisions occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such event shall be interpreted consistently.

"Averaging Date" means, in respect of a Valuation Date or Actual Exercise Date (as the case may be), each date specified as an Averaging Date in the Pricing Supplement or, if any such date is not a Scheduled Trading Day, the immediately following Scheduled Trading Day unless, in the opinion of the Determination Agent, any such day is a Disrupted Day. If any such day is a Disrupted Day, then:

- (a) if 'Omission' is specified as applying in the Pricing Supplement, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant level, price or amount, provided that, if, through the operation of this provision no Averaging Date would occur in respect of such Valuation Date or Actual Exercise Date, then the provisions of the definition of 'Valuation Date' and Equity Linked Condition 3 (*Consequences of Disrupted Days*) (as applicable) will apply for the purposes of determining the relevant level, price or amount on the final Averaging Date with respect to that Valuation Date or Actual Exercise Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or
- (b) if 'Postponement' is specified as applying in the Pricing Supplement, then the provisions of the definition of 'Valuation Date' and Equity Linked Condition 3 (*Consequences of Disrupted Days*) (as applicable) will apply for the purposes of determining the relevant level, price or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or

 - (i) where the Securities reference a single Reference Asset, the Averaging Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred as at the Valuation Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of such Valuation Date or Actual Exercise Date, then (A) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (B) the Determination Agent shall determine the relevant level or price for that Averaging Date in accordance with paragraph (a) of the definition of 'Valuation Date' and Equity Linked Condition 3 (*Consequences of Disrupted Days*) (as applicable); and
 - (ii) where the Securities reference a basket or portfolio of Reference Assets, the Averaging Date for each Reference Asset not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (the **"Scheduled Averaging Date"**) and the Averaging Date for a Reference Asset affected by the occurrence of a Disrupted Day shall be the first succeeding Valid

Date in relation to such Reference Asset. If the first succeeding Valid Date in relation to such Reference Asset has not occurred as at the Valuation Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of such Valuation Date or Actual Exercise Date, then (A) that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of such Reference Asset and (B) the Determination Agent shall determine the relevant level, price or amount for that Averaging Date in accordance with paragraph (b) of the definition of 'Valuation Date' and Equity Linked Condition 3 (*Consequences of Disrupted Days*) (as applicable).

If an event or factual circumstance is capable of constituting any of a Fund Event, a Potential Adjustment of Payment Event or an Additional Disruption Event, the Determination Agent will determine whether such event or circumstance shall constitute a Fund Event, a Potential Adjustment of Payment Event or an Additional Disruption Event.

2. Consequences of a Fund Event

- 2.1 Following the occurrence of any Fund Event applicable to the Fund Linked Securities, the Determination Agent shall notify the Issuer and the Securityholders of the occurrence of such Fund Event and the Issuer shall, as specified in the Pricing Supplement:
 - (a) redeem the Fund Linked Securities in whole but not in part at their Early Cash Settlement Amount, determined by the Determination Agent and taking into account any fees, premiums and charges as may be specified in the Pricing Supplement; or
 - (b) substitute the Fund Shares of the relevant Fund(s) (the "**Original Fund(s)**") for the shares of another Fund(s), which, in the reasonable opinion of the Determination Agent, has a similar risk profile, strategy, dealing and valuation terms, geographical focus to, and close correlation with, the Original Fund the Fund Shares of which are the subject of substitution; or
 - (c) "monetise" the Fund Linked Securities, meaning that (i) the Issuer shall be excused from any future and/or contingent obligations under the Conditions to pay any amounts and/or deliver Fund Shares under the Conditions which the Issuer would otherwise have been obliged to performed under the Conditions at any time subsequent to the Determination Agent's notification but for the occurrence of such Fund Event, and instead (ii) the Issuer shall discharge its obligations under the Securities and redeem the Securities in full by paying to the Holder of each outstanding Fund Linked Security its Monetisation Amount on the scheduled Redemption Date; or
 - (d) take such other action as is specified in the Pricing Supplement; or
 - (e) treat the relevant Fund Event (unless specified as not applicable as an Additional Disruption Event in the Pricing Supplement) as if an Additional Disruption Event had occurred in respect of the Fund Linked Security for the purposes of exercising any applicable rights under the Base Conditions (including, without limitation, exercising the cancellation or adjustment rights in Conditions 5.4 (*Early redemption and/or adjustment following the occurrence of an Additional Disruption Event*) or 6.2 (*Cancellation at the option of Securityholders*) of the Base Conditions.
- 2.2 Upon determining the occurrence of a Fund Event, the Issuer shall give notice as soon as practicable to the Securityholders, giving details of the Fund Event and the action to be taken in respect thereof.

3. **Potential Adjustment of Payment Events**

The occurrence of any one or more of the events listed below (unless specified not to be applicable in the Pricing Supplement) or any applicable Additional Adjustment Event in respect of any Fund (and, in the case of a Basket of Funds, in respect of one or more Funds), at any time after the Trade Date, shall constitute a "**Potential Adjustment of Payment Event**":

- (a) the Determination Agent determines that the realisable value actually paid or received by a Hypothetical Investor seeking to either (i) subscribe in Fund Shares (such subscription targeted to be effected on the Strike Date (or, in the case of a Fund Basket, the First Dealing Date in respect of a Fund comprised in the Fund Basket), Averaging-in Dates or Lookback-in Dates, or (ii) redeem any holding of Fund Shares (such redemption targeted to be effected on the Final Redemption Dealing Date (or, in the case of a Fund Basket, the Final Fund Redemption Dealing Date in respect of a Fund comprised in the Fund Basket), Averaging-out Dates, Lookback-out Dates, Interest Valuation Dates, or as soon as practicable following the Early Redemption Notice Date, as the case may be), differs from the Net Asset Value in respect of, in the case of (i), the Strike Date (or, in the case of a Fund Basket, the First Dealing Date in respect of a Fund comprised in the Fund Basket), Averaging-in Dates or Lookback-in Dates, or, in the case of (ii), the Final Redemption Dealing Date (or, in the case of a Fund Basket, the Final Fund Redemption Dealing Date in respect of a Fund comprised in the Fund Basket), Averaging-out Dates, Lookback-out Dates, Interest Valuation Dates or the first Dealing Date on which a Hypothetical Investor is able to redeem any holding of Fund Shares in respect of a redemption order sent as soon as practicable following the Early Redemption Notice Date, as the case may be; or
- (b) at any time following the Trade Date, there is a change to the terms of any arrangements relating to rebates receivable by the Issuer in respect of any physical or synthetic holdings of Fund Shares held (or to which a synthetic exposure has been obtained) in connection with the Securities.

The determination as to the occurrence of a Potential Adjustment of Payment Event shall be made by the Determination Agent. If an event or factual circumstance is capable of constituting any of a Fund Event, a Potential Adjustment of Payment Event or an Additional Disruption Event, the Determination Agent will determine whether such event or circumstance shall constitute a Fund Event, a Potential Adjustment of Payment Event or an Additional Disruption Event.

4. **Consequences of a Potential Adjustment of Payment Event**

Following the occurrence of a Potential Adjustment of Payment Event, the Determination Agent may make such adjustment to the Settlement Amount, the Interest Amount or other parameters (including, without limitation, the NAV, the adjustment factor and/or the participation) as it considers appropriate to preserve the risk profile of the Issuer in respect of the Securities hedging arrangements (if any) entered into by the Issuer in respect of the Securities. Any such adjustment to the Settlement Amount, Interest Amount, Net Asset Value, or other parameter shall be determined on any Basket Calculation Date or Calculation Date (as the case may be) by the Determination Agent to reflect the economic impact of such event on the Securities. The Determination Agent has no obligation to actively monitor whether or not any of the Potential Adjustment of Payment Events has occurred or is likely to occur and accepts no liability therefor.

In respect of any adjustment to the Settlement Amount made by the Determination Agent pursuant to this Fund Linked Condition, any portion of the proceeds arising from the full redemption of the relevant Fund Shares targeted to be effected on the Final Redemption Dealing Date (or, in the case of a Fund Basket, the Final Fund Redemption Dealing Date in respect of each Fund comprised in the Fund Basket), the Averaging-out Dates, the Lookback-out Dates or as soon as practicable following the Early Redemption Notice Date (as the case may be) which the Determination Agent determines that a Hypothetical Investor would not have received by the Receipt Deadline shall be regarded as having a zero value.

In respect of any adjustment to any Interest Amount made by the Determination Agent pursuant to this Fund Linked Condition, any portion of the proceeds arising from the full redemption of the relevant Fund Shares targeted to be effected on the relevant Interest Valuation Date which the Determination Agent determines that a Hypothetical Investor would not have received by the relevant Interest Receipt Deadline shall be regarded as having a zero value.

5. Consequences of an FX Disruption Event

If 'FX Disruption Event' is specified as applying in the Pricing Supplement, upon the occurrence of an FX Disruption Event, the Issuer may, in its discretion, take any one or more of the actions described below:

- (a) make payment of the relevant Settlement Amount and/or any other amount payable by the Issuer pursuant to the Conditions in the Specified Currency instead of the Settlement Currency the amount payable in the Specified Currency being determined by the Determination Agent; or
- (b) deduct an amount calculated by the Determination Agent as representing the applicable charge or deduction arising in connection with the FX Disruption Event from the relevant Settlement Amount and/or any other amount payable by the Issuer pursuant to the relevant terms and Conditions; or
- (c) postpone the relevant Redemption Date, Interest Payment Date, or any other relevant date, as the case may be, and/or payment of any amount payable by the Issuer pursuant to the Conditions until, in the determination of the Determination Agent, an FX Disruption Event is no longer subsisting.

6. Physical Settlement

Unless otherwise specified in the Pricing Supplement, the Securities will be redeemed in cash and the Securityholder will have no right to receive delivery of the Fund Shares. Where it is specified in the Pricing Supplement that Physical Settlement shall apply to the Fund Linked Securities, the provisions relating to Physical Settlement of the Fund Linked Securities shall be as set out in the Pricing Supplement.

7. Additional Disruption Events

Hedging Disruption shall constitute an Additional Disruption Event with respect to each Series of Fund Linked Securities.

3.3 Corrections to published and displayed Rates and changes to Rates

For purposes of determining an FX Rate for any Rate Calculation Date:

- (a) In any case where the FX Rate is based on information obtained from the Thomson Reuters Services, the FX Rate will be subject to the corrections, if any, to that information subsequently displayed by that source within one hour of the time when such rate is first displayed by such source.
- (b) Notwithstanding paragraph (a) above, in any case where the FX Rate for a Rate Calculation Date is based on information published or announced by any Governmental Authority in the relevant country, the FX Rate will be subject to the corrections, if any, to that information subsequently published or announced by that source within five days of the Rate Calculation Date.
- (c) In the event that the Determination Agent identifies any correction referred to in paragraph (a) or (b) above no later than five days after the expiration of the period referred to in such sub-section, if applicable an appropriate amount will be payable by the Issuer or the Securityholder (as appropriate) as a result of such correction (whether such correction is made or such notice is given before or after the relevant Redemption Date, Early Cash Redemption Date, Optional Cash Redemption Date, Specified Early Cash Redemption Date, Specified Early Cash Cancellation Date, Early Cancellation Date, Exercise Date or Exercise Cash Settlement Date, (as applicable), of the Security), together with interest on that amount at a rate per annum equal to the cost to the Issuer or the Securityholder (as applicable) of funding that amount for the period from, and including, the day on which, based on such correction, a payment in the incorrect amount was first made to, but excluding, the day of payment of the refund or payment resulting from such correction.

- (d) If the methodology or formula for determining the foreign exchange rate(s) comprising the FX Rate (the "**Original FX Rate**") in respect of any Securities or any other means of calculating the FX Rate, is changed (irrespective of the materiality of any such change or changes), then for the avoidance of doubt references to the FX Rate in respect of such Securities shall remain as the Original FX Rate notwithstanding such changes.

4. **Averaging**

If 'Averaging Dates' are specified in the Pricing Supplement, then, for the purposes of determining the FX Rate in relation to a Valuation Date, the FX Rate will be the arithmetic mean of the FX Rates on each specified Averaging Date (or, if different, the day on which rates for each Averaging Date would, in the ordinary course, be published or announced by the relevant price source).

5. **FX Index Adjustment Events and disruption**

The following provisions will apply to all FX Linked Securities that reference an Index.

5.1 **Disrupted Day**

If, in the opinion of the Determination Agent, a Rate Calculation Date is a Disrupted Day, then that Rate Calculation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the five Scheduled Trading Days immediately following the original date is a Disrupted Day. In that case (a) the fifth Scheduled Trading Day shall be deemed to be the Rate Calculation Date, notwithstanding the fact that such day is a Disrupted Day, and (b) the Determination Agent shall determine the level of the Index on the fifth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day.

5.2 **Successor Index Sponsor or substitution of Index with substantially similar calculation**

If an Index is (a) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Determination Agent (the "**Successor Sponsor**"), or (b) replaced by a successor index using, in the opinion of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index (the "**Successor Index**"), then, in each case, that index will be deemed to be the Index. The Determination Agent shall inform the Issuer and the Securityholders as soon as reasonably practicable after it becomes aware of a Successor Sponsor and/or a Successor Index.

5.3 **Index Adjustment Events**

If, on or prior to any date on which the Index Level is to be calculated, including, without limitation, any Averaging Date or Rate Calculation Date (a "**Determination Date**"), the Determination Agent determines that the Index Sponsor:

- (a) makes, or announces that it will make, a material change to the formula for or the method of calculating the Index or in any other way materially modifies the Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes to the Index constituent and weightings and other routine events) (an "**Index Modification**");
- (b) permanently cancels the Index and the Determination Agent determines that no Successor Index has been designated (an "**Index Cancellation**"); or
- (c) fails to calculate and announce the Index and the Determination Agent determines that there is no Successor Sponsor or Successor Index (an "**Index Disruption**"),

(Index Disruption, Index Modification and Index Cancellation together, the "**Index Adjustment Events**"), then the Determination Agent shall determine if such Index Adjustment Event has a material effect on the relevant Securities and, if so, calculate the level of the Index to use in lieu of the published level for the Index (if any). Such level shall be calculated by the Determination Agent in accordance with the formula for and method of calculating the Index last in effect prior to that Index Adjustment Event, but using only those Index constituents that comprised the relevant Index immediately prior to that Index Adjustment Event, provided always that:

- (A) in the case of an Index Cancellation, if a Pre-nominated Index has been specified in the Pricing Supplement in respect of the cancelled Index, the cancelled Index shall be replaced by such Pre-nominated Index with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Index with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology); and
- (B) if the Determination Agent determines that it is unable, or can no longer continue, to calculate such Index (or, in the case of an Index Cancellation, the cancelled Index is not replaced with a Pre-nominated Index), the Determination Agent may deem such Index Adjustment Event to constitute an Additional Disruption Event for the purposes of these provisions and shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, in respect of the Securities. The Determination Agent shall notify the Issuer and Securityholders.

5.4 Error in Index calculation

Notwithstanding anything to the contrary in these FX Linked Conditions, if, on any Determination Date, there is, in the reasonable opinion of the Determination Agent, a manifest error in the calculation of the level of the Index as published by the Index Sponsor, the Determination Agent may calculate the level of such Index to use in lieu of the level published on such date by the Index Sponsor. Such calculation will be determined in accordance with the methodology and formula for calculating the level of the Index used by the Index Sponsor.

In the event that the Determination Agent determines that it can no longer continue to calculate such Index, the Determination Agent may deem such manifest error to constitute an Additional Disruption Event for the purposes of these provisions and shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, in respect of the Securities. The Determination Agent shall notify the Issuer and Securityholders.

5.5 Correction to published prices

If the level of an Index published on any given day and used or to be used by the Determination Agent in respect of that day is subsequently corrected and the correction is published by the Index Sponsor or a Successor Index Sponsor no later than the second Business Day prior to the next date upon which any payment shall be made by the Issuer, the Determination Agent shall recalculate the amount that is payable, using such corrected level of the relevant Index and, to the extent necessary, will adjust any relevant terms of the Securities to account for such correction. The Determination Agent shall notify the Securityholders of (a) that correction (b) the amount, if any, that is payable as a result of that correction and (c) any adjustment being made.

Notwithstanding the foregoing, where the Determination Agent determines that the level of the Index published or announced on a given day and used or to be used by it to determine any amounts in respect of that day is expected to be subsequently corrected, then the Determination Agent may delay the determination or calculation of such amounts in respect of such day and instead notify the parties of the expected correction, provided that the Determination Agent shall make its determination or calculation of the level of the Index no later than two Business Days prior to the next date upon which any payment shall be made by the Issuer. No additional amounts shall be payable or deliverable as a result of any such delay.

5.6 Adjustment to payment dates

If, as a result of a delay or postponement pursuant to the occurrence of a Disrupted Day or Index Adjustment Event, the level of the Index used to determine any amount payable on any Interest Payment Date or any other date when payment is due is unavailable, such Interest Payment Date or any other date when payment is due will be delayed or postponed to fall on the fifth Business Day following the determination of the level of the Index under the Disrupted Day or Index Adjustment provisions. No additional amounts shall be payable by the payer as a result of any such delay or postponement.

PART B

ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED SECURITIES

The terms and conditions applicable to Inflation Linked Securities shall comprise the Base Conditions and the additional terms and conditions set out below (the "Inflation Linked Conditions"), in each case subject to completion and/or amendment in the Pricing Supplement. In the event of any inconsistency between the Base Conditions and the Inflation Linked Conditions set out below, the Inflation Linked Conditions shall prevail. In the event of any inconsistency between (i) the Base Conditions and/or the Inflation Linked Conditions and (ii) the Pricing Supplement, the Pricing Supplement shall prevail. The Inflation Linked Conditions is a Product Annex and a Relevant Annex for the purposes of the Base Conditions and any Securities specified to be Inflation Linked Securities in the Pricing Supplement. Capitalised terms used herein but not otherwise defined shall have the meanings given to them in the Base Conditions or the Pricing Supplement.

1. Index delay and disruption event provisions

1.1 Delay of publication

If the Determination Agent determines that any Index Level for a Reference Month which is relevant to the calculation of a payment under the Securities and/or the determination of any exercise right or redemption or cancellation of the Securities (a "**Relevant Level**") has not been published or announced by the Cut-off Date, the Determination Agent shall determine an index level in place of such Relevant Level (a "**Substitute Index Level**") by using the following methodology:

- (a) if 'Related Bond' is specified as applicable in the Pricing Supplement, the Determination Agent shall take the same action to determine the Substitute Index Level for the Affected Payment Date as that taken pursuant to the terms and conditions of the Related Bond;
- (b) if (i) 'Related Bond' is specified as not applicable in the Pricing Supplement, or (ii) the Determination Agent is not able to determine a Substitute Index Level for the Affected Payment Date pursuant to paragraph (a) above for any reason, then the Determination Agent shall determine the Substitute Index Level by reference to the following formula:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level}/\text{Reference Level})$$

where:

"**Base Level**" is the Index Level (excluding any 'flash' estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month for which the Substitute Index Level is being determined;

"**Latest Level**" is the latest Index Level (excluding any 'flash' estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Index Level is being determined; and

"**Reference Level**" is the Index Level (excluding any 'flash' estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in 'Latest Level' above.

If a Relevant Level is published or announced at any time on or after the Cut-off Date, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this Inflation Linked Condition 1.1 will be the definitive level for that Reference Month.

1.2 Cessation of publication

If the Determination Agent determines that the Index Level has not been published or announced by the Index Sponsor for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Index then the Determination Agent shall determine an Index in lieu of any previously applicable Index (a "**Successor Index**") for the purposes of the Securities by using the following methodology:

- (a) if a Pre-nominated Index has been specified in the Pricing Supplement in respect of the Index, the Index shall be replaced by such Pre-nominated Index with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Index with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology); or
- (b) if the Index is not replaced with a Pre-nominated Index pursuant to Index Linked Condition 1.2(a) above and if 'Related Bond' is specified as applicable in the Pricing Supplement, the Determination Agent shall determine a Successor Index by reference to the corresponding successor index determined under the terms and conditions of the Related Bond; or
- (c) if (i) the Index is not replaced with a Pre-nominated Index pursuant to Index Linked Condition 1.2(a) above and (ii)(A) 'Related Bond' is specified as not applicable in the Pricing Supplement or (B) no Successor Index has been determined under Inflation Linked Condition 1.2(b) above and the Index Sponsor announces that it will no longer publish or announce the Index but that it will be superseded by a replacement index specified by the Index Sponsor, and the Determination Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be deemed the Successor Index for the purposes of the Securities from the date that such replacement index comes into effect; or
- (d) if no replacement Index has been determined under Index Linked Condition 1.2(a) and no Successor Index has been determined under Inflation Linked Condition 1.2(a) above or Inflation Linked Condition 1.2(c) above, the Determination Agent shall ask five leading independent dealers to state what the replacement index for the Index should be. If between four and five responses are received, and, of those four or five responses, three or more leading independent dealers state the same index, this index will be deemed the Successor Index. If three responses are received, and two or more leading independent dealers state the same index, this index will be deemed the Successor Index. If fewer than three responses are received by the Cut-off Date, the Determination Agent will determine an alternative index for such Affected Payment Date, and such index will be deemed a Successor Index; or
- (e) if the Determination Agent determines that there is no appropriate alternative index, there will be deemed to be no Successor Index and an Index Cancellation will be deemed to have occurred.

The Determination Agent shall determine the date on which the Successor Index shall be deemed to replace the Index for the purposes of the Securities. Notice of the

determination of a Successor Index, the effective date of the Successor Index or the occurrence of an Index Cancellation shall be given to Securityholders by the Issuer.

1.3 Adjustments

(a) Successor Index

If a Successor Index is determined in accordance with Inflation Linked Condition 1.2 (*Cessation of publication*), the Determination Agent may make any adjustment or adjustments (without limitation) to any amount payable under the Securities and/or any other relevant term of the Securities as the Determination Agent deems necessary. The Issuer shall give notice to the Securityholders of any such adjustment.

(b) Substitute Index Level

If the Determination Agent determines a Substitute Index Level in accordance with Inflation Linked Condition 1.1 (*Delay of publication*), the Issuer may make any adjustment or adjustments (without limitation) to (i) the Substitute Index Level determined in accordance with Inflation Linked Condition 1.1 (*Delay of publication*) and/or (ii) any amount payable under the Securities and/or any other relevant term of the Securities as the Determination Agent deems necessary. The Issuer shall give notice to the Securityholders of any such adjustment.

(c) Index Level adjustment correction

- (i) The first publication or announcement of the Relevant Level (disregarding estimates) by the Index Sponsor for any Reference Month shall be final and conclusive and, subject to Inflation Linked Condition 1.3(e)(ii) below, later revisions to the level for such Reference Month will not be used in any calculations, save that, in respect of the EUR-All Items-Revised Consumer Price Index, the ESP National-Revised Consumer Price Index ("CPI"), the ESP-Harmonised-Revised Consumer Price Index HCPI and the EUR-Excluding Tobacco-Revised Consumer Price Index, revisions to the Relevant Level which are published or announced up to and including the day that is two Business Days prior to any relevant Payment Date will be valid and the revised Relevant Level for the relevant Reference Month will be deemed to be the final and conclusive Relevant Level for such Reference Month. The Issuer shall give notice to the Securityholders of any valid revision.
- (ii) If, within 30 days of publication or at any time prior to a Payment Date in respect of which a Relevant Level will be used in any calculation or determination in respect of such Payment Date, the Determination Agent determines that the Index Sponsor has corrected the Relevant Level to correct a manifest error, the Determination Agent may make any adjustment to any amount payable under the Securities and/or any other relevant term of the Securities as the Determination Agent deems appropriate as a result of that correction. The Issuer shall give notice to the Securityholders of any such adjustment and/or amount.

(d) Rebasing

If the Determination Agent determines that the Index has been or will be rebased at any time, the Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the Index Level from the date of such rebasing (the "**Rebased Index Level**") unless 'Use of Re-based Index' is specified as not applicable in the Pricing Supplement in which case no adjustments shall be made to the Index and/or the terms of the Securities solely as a result of such rebasing. If the rebased index is to be used, notwithstanding the foregoing, the

Determination Agent may make (i) if 'Related Bond' is specified as applicable in the Pricing Supplement, any adjustments as are made pursuant to the terms and conditions of the Related Bond, if any, to the Rebased Index Levels so that the Rebased Index Levels reflect the same rate of inflation as the Index before the rebasing and/or (ii) if 'Related Bond' is specified as not applicable in the Pricing Supplement or a Related Bond Redemption Event has occurred, the Determination Agent may make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased and, in each case, the Issuer may make any adjustments to any amount payable under the Securities and/or any other term of the Securities as the Determination Agent may deem necessary.

(e) **Index Modification**

- (i) If, on or prior to the Cut-off Date in respect of any Payment Date, the Determination Agent determines that an Index Modification has occurred the Determination Agent may (aa) if 'Related Bond' is specified as applicable in the Pricing Supplement, make any adjustments to the Index, any Relevant Level and/or any other relevant term of the Securities (including, without limitation, any amount payable under the Securities), consistent with any adjustments made to the Related Bond as the Determination Agent deems necessary, or (bb) if 'Related Bond' is specified as not applicable in the Pricing Supplement or a Related Bond Redemption Event has occurred, make only those adjustments to the relevant Index, any Relevant Level and/or any other term of the Securities (including, without limitation, any amount payable under the Securities) as the Determination Agent deems necessary for the modified Index to continue as the Index and to account for the economic effect of the Index Modification.
- (ii) If the Determination Agent determines that an Index Modification has occurred at any time after the Cut-off Date in respect of any Payment Date, the Determination Agent may determine either to ignore such Index Modification for the purposes of any calculation or determination made by the Determination Agent with respect to such Payment Date, in which case the relevant Index Modification will be deemed to have occurred with respect to the immediately succeeding Payment Date such that the provisions of paragraph 1.3(e)(i) above will apply, or, notwithstanding that the Index Modification has occurred following the Cut-off Date, to make any adjustments as the Determination Agent deems fit in accordance with paragraph 1.3(e)(i) above.

(f) **Index Cancellation**

If the Determination Agent determines that an Index Cancellation has occurred, the Issuer may redeem or cancel each Security (as applicable) on the date notified by the Issuer to Securityholders at the Early Cash Settlement Amount. Notice of any redemption of the Security shall be given to Securityholders.

(g) **Rounding**

For purposes of any calculations by the Determination Agent in connection with the Index, all percentages resulting from such calculations will be rounded, if necessary, either:

- (i) if 'Related Bond' is specified as applicable in the Pricing Supplement, in accordance with the rounding conventions of the documentation governing the Related Bond; or
- (ii) if 'Related Bond' is specified as not applicable in the Pricing Supplement or if no rounding conventions are specified in the documentation

governing the Related Bond, (aa) in respect of percentages determined through the use of interpolation by reference to two Index Levels, in accordance with the method set out in paragraph (bb) below, but to the same degree of accuracy as the two rates used to make the calculation (except that such percentages will not be rounded to a lower degree of accuracy than the nearest one-thousandth of a percentage point (0.001 per cent)), (bb) in all other cases, to the nearest one hundred-thousandth of a percentage point (e.g. 9.876541 per cent (or .09876541) being rounded down to 9.87654 per cent (or .0987654) and 9.876545 per cent (or .09876545) being rounded up to 9.87655 per cent (or .0987655)),

and, if paragraph (ii) above is applicable, all currency amounts used in or resulting from any calculations by the Determination Agent in connection with the Index will be rounded in the manner indicated for each of the currencies set out below, and to the nearest two decimal places in the relevant currency (with .005 being rounded upwards (e.g. 674 being rounded down to .67 and .675 being rounded up to .68)) if the currency is other than those currencies set out below:

- (A) Chilean Peso: round to the nearest whole Chilean Peso (with one-half Chilean Peso being rounded up);
- (B) Hungarian Forint: round to the nearest whole Hungarian Forint (with one-half Hungarian Forint being rounded up);
- (C) Japanese Yen: round down to the next lower whole Japanese Yen; and
- (D) Korean Won: round down to the next lower whole Korean Won.

"Cut-off Date" means, in respect of a Payment Date, five Business Days prior to such Payment Date, unless otherwise stated in the Pricing Supplement.

"Fallback Bond" means a bond selected by the Determination Agent and issued by the government of the country to whose level of inflation the Index relates and which pays a coupon or redemption amount which is calculated by reference to the Index, with a maturity date which falls on (i) the same day as the Redemption Date or Expiration Date (as applicable) (ii) the next date after the Redemption Date, if there is no such bond maturing on the Redemption Date, or (iii) the next shortest maturity before the Redemption Date or Expiration Date (as applicable) if no bond defined in (i) or (ii) is selected by the Determination Agent. If the Index relates to the level of inflation across the European Monetary Union, the Determination Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Determination Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Determination Agent from those bonds. If the Fallback Bond redeems the Determination Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

Part A

General information relating to the Barclays Commodity Indices

1. General information relating to the Barclays Commodity Indices

Certain definitions and concepts apply to the Barclays Commodity Indices (as defined below), as follows.

The Barclays Commodity Indices

The Barclays Commodity Indices can reference a single or a selection of (i) Futures Contracts or (ii) Reference Indices, each as defined below, or any combination of such products.

Index Sponsor

Each of the Barclays Commodity Indices are sponsored by Barclays Risk Analytics and Index Solutions Limited ('BRAIS'), a wholly-owned subsidiary of Barclays, or any successor thereto (the "**Index Sponsor**").

Index Owner

Barclays Bank PLC, as owner of the intellectual property and licensing rights relating to the Index.

Index Value

For each of the Barclays Commodity Indices, a daily level (the "**Index Value**") will be calculated by the Index Sponsor. The Index Value will be published by the Index Sponsor as soon as reasonably practicable on each business day (which is a day on which the level of that Index is calculated).

Excess Return and Total Return

Each of the Barclays Commodity Indices is available in Excess Return and Total Return versions.

"**Excess Return**" indices measure the return accrued from holding and Rolling commodity Futures Contracts. Each Excess Return index comprises the sum of the price return of the Futures Contract and the accumulation of the Roll Yield.

"**Total Return**" indices measure the collateralised return accrued from holding and Rolling commodity Futures Contracts. Each Total Return index comprises the sum of the corresponding Excess Return index and the collateral return (where "**collateral return**" is the

interest earned on the value of the index and is based on the return of three-month US Treasury Bills). In each Total Return index, the collateral return is reinvested in the current Futures Contract on a daily basis, thus incrementally increasing the index's exposure to the equivalent number of underlying Futures Contracts.

Futures Contracts

A commodity "Futures Contract" is an exchange traded derivative instrument through which the holder of the Futures Contract takes exposure to the price of an underlying commodity for future delivery (the "**Delivery Date**"). The seller of the contract is described as being short the Futures Contract (the "**Short Futures Position**") and the buyer of the Futures Contract is described as being long the Futures Contract (the "**Long Futures Position**").

Reference Indices

The commodity "**Reference Indices**" (each, a "**Reference Index**") can be single, sector and/or broad-based commodity indices based on (i) the Dow Jones-UBS Commodity IndexSM, (ii) the S&P GSCI[®] Index, or (iii) the Barclays Single Commodity Indices.

The composition of Futures Contracts in the Reference Indices may be amended from time to time. Save as set out below, where a Barclays Commodity Index is based on a Reference Index, that Barclays Commodity Index will have the same composition of Futures Contracts as the Reference Index.

The Reference Indices generally provide exposure to the front part of the Futures Curve. The "**Futures Curve**" represents how, given current market conditions, the prices of Futures Contracts vary with the time to expiry/delivery of such contracts. The Reference Indices are de facto considered to be benchmarks for commodity market performance. However, return from the Reference Indices may not always be representative of all the factors that drive value in the commodities futures markets, such as: (i) short-term supply and demand factors that typically affect front-month contracts disproportionately; and (ii) longer-term views that drive the longer tenors of the Futures Curve are not always captured.

The **Dow Jones-UBS Commodity Index**SM is designed to be a highly liquid and diversified commodity index, providing a broad-based exposure to commodities as an asset class. Dow Jones-UBS Commodity IndexSM currently includes 19 commodities in 5 Sectors, namely WTI Crude Oil, Natural Gas, Heating Oil and RBOB Gasoline in the Energy Sector; Aluminium, Copper, Nickel and Zinc in the Industrial Metals Sector; Gold and Silver in the Precious Metals Sector; Wheat, Corn, Cotton, Soybeans, Coffee, Soybean Oil and Sugar in the Agriculture Sector; and Live Cattle and Lean Hogs in the Livestock Sector. The composition of the index is rebalanced on an annual basis.

The **S&P GSCI[®] Index** is designed to be a liquid and tradable commodity index that measures the general commodity price movements and inflation in the world economy. Its composition is determined on a world production weighted basis which is intended to reflect the relative significance of each of the constituent commodities in the world economy. S&P GSCI[®] Index currently includes 24 commodities in 5 Sectors, namely WTI Crude Oil, Brent Crude Oil, Natural Gas, Heating Oil, RBOB Gasoline and Gas Oil in the Energy Sector; Aluminium, Copper, Nickel, Lead and Zinc in the Industrial Metals Sector; Gold and Silver in the Precious Metals Sector; Wheat, Red Wheat, Corn, Cotton, Soybeans, Coffee, Cocoa and Sugar in the Agriculture Sector; and Live Cattle, Lean Hogs and Feeder Cattle in the Livestock Sector. The composition of the index is rebalanced on an annual basis.

The **Barclays Single Commodity Indices** have been constructed to offer investors investable indices that track the performance of a strategy of buying, holding and subsequently Rolling (as defined below) the specified Futures Contracts of the commodity referenced by that index. The Index Sponsor can construct a number of specialised versions of the Barclays Single Commodity Indices which employ a modification to the standard index methodology or futures schedule. The indices can also be calculated by the Index Sponsor as deferred indices which defer allocation along the Futures Curve and Roll (as defined below) into that position.

For each such modified version of the index, the Index Sponsor may also modify the Roll Period (as defined below).

Rolling a Futures Contract and the Roll Period

In respect of an individual investor in a commodity Futures Contract, if they wish to maintain a Long Futures Position in a commodity past the expiry date of the Futures Contract they hold, then they must sell it prior to its expiry date and purchase a Futures Contract with a Delivery Date further in the future. This process is known as "**Rolling**" a futures position.

In respect of an index, the "**Roll**", or the process of "**Rolling**" each futures position, is generally undertaken every month in accordance with the rules of that index. Each index will have a defined futures schedule that sets out the Futures Contracts that it references at any time. Assuming the price and shape of the Futures Curve remain constant, Rolling Futures Contracts will yield (i) a positive return if the Futures Curve is in backwardation (applies where, as a Futures Contract approaches expiration, the Futures Contract trades at a higher price compared to when the Futures Contract was further away from expiration), or (ii) a negative return if the Futures Curve is in contango (the opposite of backwardation).

The Rolling of each Futures Contract underlying an index is implemented over a pre-defined period (the "**Roll Period**") which is specified for each index. During the Roll Period, the Index Sponsor shifts the weighting of the 'current' Futures Contract (the "**Current Futures Contract**") to the 'new' Futures Contract (the "**New Futures Contract**").

The price of the New Futures Contract will typically be different from that of the Current Futures Contract and therefore the equivalent number of Futures Contracts which the index represents will change over each Roll Period. For any Index Business Day which falls outside of the Roll Period, the index will only track the performance of the Current Futures Contract. By way of illustration, if the Roll Period is a five (5) Index Business Day period (where an "Index Business Day" is a day on which the level of that index is calculated) and the Roll Period starts on the fifth Index Business Day of each calendar month and ends on the ninth Index Business Day of such month, then during the Roll Period, the weight of each New Futures Contract will be increased on each Index Business Day as follows: (i) from 0 per cent to 20 per cent on day one, (ii) from 20 per cent to 40 per cent on day two, (iii) from 40 per cent to 60 per cent on day three, (iv) from 60 per cent to 80 per cent on day four, and finally (v) from 80 per cent to 100 per cent on day five (5). The weight of each Current Futures Contract will be correspondingly reduced on each successive Index Business Day during the Roll Period. During each Index Business Day in the Roll Period, the index will track the performance of both the New Futures Contract and the Current Futures Contract with these varying weights.

Roll Yield

Usually the price of a commodity Futures Contract will not be the same as the current market price of the physical commodity (the spot price). However, over time, as the Delivery Date approaches, the price of that Futures Contract will converge to the spot price such that on the Delivery Date the Futures Contract price will equal the spot price. Thus an investor will experience either a profit or a loss due to Rolling, even if the spot price of the commodity has remained unchanged. The return generated by Rolling is known as the "**Roll Yield**".

Adjustment of the Roll Period

The Roll Period may be adjusted. An adjustment of the Roll Period will occur where a Commodity Market Disruption Event takes place during the Roll Period (such as (i) a temporary or permanent failure by the applicable exchange or other price source to announce or publish (A) the final settlement price for the index or (B) the closing price for any Futures Contract or index included, directly or indirectly, in the index, or (ii) a material limitation, suspension or disruption of trading in (A) one or more of the Futures Contracts included, directly or indirectly, in the index or (B) any other contract which is customarily traded on the applicable exchange or other price source in order to hedge any Futures Contract or index included, directly or indirectly, as a component in the index).

Methodologies

Further information on the calculation of the Barclays Commodity Indices, the effect of certain market disruption events, and details regarding the calculation, timing and publication of the index level, will be contained in the relevant methodology and/or index rules which apply to the particular index.

SECTION 3

ADDITIONAL PROVISIONS FOR BARCLAYS EQUITY INDEX LINKED SECURITIES

Where 'Barclays Equity Index Linked Securities ' is specified as applicable in the Pricing Supplement for any Barclays Equity Index Linked Securities, paragraphs 1 and 2 of Section 1 of the Barclays Index Annex shall together with this Section 3 apply to such Barclays Equity Index Linked Securities in accordance with the provisions herein. Accordingly, paragraphs 1 and 2 of Section 1 of the Barclays Index Annex should be read in conjunction with this Section 3.

Part A

General information relating to Barclays Equity Indices

Index construction

Equity indices can be formed of three major types:

- (a) 'Price Return Type', where the index tracks movements in price of the constituents of the index. When exposed to a Price Return Type index, Securityholders lose the benefit of any dividends paid by the constituents of the index and hence would underperform a position where they invested directly in the constituents of the index and received the dividends or where they invested in a Total Return Type version of the index.
- (b) 'Total Return Type', where the index tracks movements in price of the constituents of the indices and reinvests any dividends that would be earned by investing directly in the constituents of the index.
- (c) 'Excess Return Type', where the index tracks the Total Return Type less a cash return. Each day, the Total Return Type index is reduced by a cash rate determined based on the currency of the index and an applicable rate for the cost to borrow cash in that currency of the index. In the event of high interest rates, these types of indices may substantially underperform both Total Return Type and Price Return Type versions of the same index.

In general, there are a number of differently constructed indices:

- (i) Long only, where the index tracks the relevant return on a basket of stocks.
- (ii) Long-short, where the index tracks the long return of a portfolio less the short return of another portfolio. This would naturally give an Excess Return Type, so a cash return would be added in order to make the index Total Return Type.
- (iii) Rolling futures indices, where the investment is one or a collection of futures with a rolling mechanism. This would naturally give an Excess Return Type, so a cash return would be added in order to make the index Total Return Type.
- (iv) Option related indices, where the investment is an option position for instance the index being short a variance swap constructed from listed option prices. This would naturally give an Excess Return Type, so a cash return would be added in order to make the index Total Return Type.

Furthermore, a volatility control mechanism may be added as an additional feature whereby the exposure to the index may be substantially decreased in the event of volatile index performance and increased in the event of less volatile index performance ("**Volatility Control**"). A version of an index with a Volatility Control may substantially underperform the non-Volatility Control version particularly in the case of volatile and rising markets where the lower exposure of the Volatility Control version of the index may lead to less participation in any upside.

Some indices may be calculated net of applicable costs and fees. Please contact the Issuer for further details.

If Interest is specified as applicable in the Pricing Supplement, and provided that no event that may lead to the early redemption or termination of the Barclays FX Index Linked Securities has previously occurred as determined by the Determination Agent, the Interest Amount payable in respect of a Barclays FX Index Linked Security on each Interest Payment Date will be calculated according to the methodology set out in the Pricing Supplement and the Base Conditions, and may be calculated by reference to the performance of one or more Barclays FX Indices and/or Condition 4 (*Interest*) of the Base Conditions, as further described in the Pricing Supplement.

2. Redemption

The Final Cash Settlement Amount payable in respect of a Barclays FX Index Linked Security on the Redemption Date, provided that no event that may lead to the early redemption or termination of the Barclays FX Index Linked Securities has previously occurred as determined by the Determination Agent, will be calculated according to the methodology set out in the Pricing Supplement and the Base Conditions, and may be calculated by reference to the performance of one or more Barclays FX Indices, as further described in the Pricing Supplement.

2.1 Settlement Method

With respect to Condition 5 (*Redemption of Securities that are Notes or Certificates*) of the Base Conditions, the Settlement Method for Barclays FX Index Linked Securities shall always be 'Cash Settlement'.

2.2 Early Redemption

Where the Determination Agent determines that an Additional Disruption Event has occurred with respect to a Barclays FX Index Linked Security and determines that it shall cancel or redeem such Barclays FX Index Linked Security pursuant to Condition 5.4 (*Early redemption and/or adjustment following the occurrence of an Additional Disruption Event*) of the Base Conditions, the Issuer shall give notice of such determination to the Securityholders in accordance with Condition 16 (*Notices*) of the Base Conditions and the Issuer may, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, redeem each Barclays FX Index Linked Security (in whole or in part) at its Early Cash Settlement Amount on the Early Cash Redemption Date.

2.3 Averaging

If 'Averaging' is specified as applicable in the Pricing Supplement, and provided that no event that may lead to the early redemption or termination of the Barclays FX Index Linked Securities has previously occurred as determined by the Determination Agent, the Interest Amount and/or Final Cash Settlement Amount payable in respect of a Barclays FX Index Linked Security on each Interest Payment Date and/or the Redemption Date will be calculated according to the methodology set out in the Pricing Supplement and the Base Conditions by reference to the performance of one or more

Barclays FX Indices on the applicable Averaging Dates, as further described in the Pricing Supplement.

3. Barclays FX Index Adjustment Events and Disruption

3.1 Disrupted Day

If, in the opinion of the Determination Agent, a Rate Calculation Date is a Disrupted Day and subject to the determination by the Determination Agent of the occurrence of an Index Adjustment Event, then the Rate Calculation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the five Scheduled Trading Days immediately following the original date is a Disrupted Day. In that case (a) the fifth Scheduled Trading Day shall be deemed to be the Rate Calculation Date, notwithstanding the fact that such day is a Disrupted Day, and (b) the Determination Agent shall determine the level of the Barclays FX Index on the fifth Scheduled Trading Day in accordance with the formula for and method of calculating the Barclays FX Index last in effect prior to the occurrence of the first Disrupted Day, subject to the determination by the Determination Agent of the occurrence of an Index Adjustment Event.

3.2 Successor Index Sponsor or Substitution of Barclays FX Index with substantially similar calculation

If a Barclays FX Index is:

- (a) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Determination Agent (the "**Successor Index Sponsor**"), then that Successor Index Sponsor shall be deemed to be the Index Sponsor; or
- (b) replaced by a successor index using, in the opinion of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Barclays FX Index (the "**Successor Index**"), then that Successor Index will be deemed to be the Barclays FX Index.

The Determination Agent shall notify the Issuer and the Securityholders in accordance with Condition 16 (*Notices*) of the Base Conditions as soon as reasonably practicable after it becomes aware of a Successor Index Sponsor and/or a Successor Index.

3.3 Index Adjustment Events

If, on or prior to any date on which the Index Level is to be calculated, including without limitation any Averaging Date or Rate Calculation Date (a "**Determination Date**"), the Determination Agent determines that the Index Sponsor:

- (a) makes, or announces that it will make, a material change to the rules, formula for or the method of calculating the Barclays FX Index (howsoever described) or in any other way materially modifies the Barclays FX Index (other than a modification prescribed in that formula or method to maintain that Barclays FX Index in the event of changes to the Barclays FX Index constituent and/or their weightings and other routine events) (an "**Index Modification**");
- (b) permanently cancels the Barclays FX Index and the Determination Agent determines that no Successor Index has been designated (an "**Index Cancellation**") or designates a Successor Index which, in the opinion of the Determination Agent is not calculated using the same or a substantially similar methodology as was used in respect of the Barclays Interest Rate Index (a 'Successor Index Variation'); or
- (c) fails to calculate and announce the Barclays FX Index and the Determination Agent determines that there is no Successor Index Sponsor or Successor Index (an "**Index Disruption**"),

(Index Disruption, Index Modification, Successor Index Variation and Index Cancellation together, "**Index Adjustment Events**"), then the Determination Agent shall determine if such Index Adjustment Event has a material effect on the relevant Barclays FX Index Linked Securities and, if so:

- (i) in the case of Index Cancellation, if a Pre-nominated Index has been specified in the Pricing Supplement in respect of the cancelled Barclays FX Index, the cancelled Barclays FX Index shall be replaced by such Pre-nominated Index with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Barclays FX Index with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology); and
- (ii) in the case of (A) an Index Cancellation, if the cancelled Barclays FX Index is not replaced with a Pre-nominated Index) or (B) an Index Modification or Index Disruption, the Determination Agent may deem such Index Adjustment Event to constitute an Additional Disruption Event for the purposes of these provisions and shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, in respect of the Securities. The Determination Agent shall notify the Issuer and Securityholders in accordance with Condition 16 (*Notices*) of the Base Conditions.

3.4 Error in Index Calculation

Notwithstanding anything to the contrary in these FX Linked Conditions, if, on any Determination Date, there is, in the reasonable opinion of the Determination Agent, a manifest error in the calculation of the level of the Barclays FX Index as published by the Index Sponsor, the Determination Agent may calculate the level of such Barclays FX Index to use in lieu of the level published on such date by the Index Sponsor. Such calculation will be determined in accordance with the methodology and formula for calculating the level of the Barclays FX Index used by the Index Sponsor.

3.5 Correction to Published Prices

If the Index Level published on any given day and used or to be used by the Determination Agent in respect of that day is subsequently corrected and the correction is published by the Index Sponsor or a Successor Sponsor no later than the second Business Day prior to the next date upon which any payment shall be made by the Issuer, the Determination Agent shall recalculate the amount that is payable, using such corrected level of the relevant Index and, to the extent necessary, will adjust any relevant terms of the Securities to account for such correction. The Determination Agent shall notify the Securityholders of (a) that correction (b) the amount, if any, that is payable as a result of that correction and (c) any adjustment being made.

Notwithstanding the foregoing, where the Determination Agent determines that the Index Level published or announced on a Valuation Date or an Averaging Date and used or to be used by it to determine any amounts in respect of such Valuation Date or

Averaging Date is expected to be subsequently corrected, then the Determination Agent may delay the determination or calculation of such amounts in respect of such Valuation Date or Averaging Date and instead notify the parties of the expected correction, provided that the Determination Agent shall make its determination or calculation of the Index Level no later than two Business Days prior to the next date upon which any payment shall be made by the Issuer. No additional amounts shall be payable as a result of any such delay.

3.6 **Adjustment to Payment Dates**

If, as a result of a delay or postponement pursuant to the occurrence of a Disrupted Day or Index Adjustment Event, the level of the Barclays FX Index used to determine any amount payable on any Payment Date is unavailable, such Payment Date(s) will be delayed or postponed to fall on the fifth Business Day following the determination of the level of the Barclays FX Index under the Disrupted Day or Index Adjustment provisions. No additional amounts shall be payable as a result of any such delay or postponement.

3.7 **Consequences of the occurrence of FX Disruption Events**

If FX Disruption Events are specified as applicable in the Pricing Supplement and an FX Disruption Event occurs at any time, the Issuer may take any one or more of the following actions:

- (a) deduct from any payments to be made in respect of the Securities an amount calculated by the Determination Agent as representing a cost, expense, charge and/or deduction arising in connection with such FX Disruption Event(s) or under any other adjustment with respect thereto; and/or
- (b) adjust any Valuation Date, Interest Payment Date, Redemption Date, Optional Early Redemption Payment Date, and/or any other date for payment of the relevant amount and/or or calculation thereof; and/or
- (c) (in the case of a Price Source Disruption) specify and adopt:
 - (i) an appropriate alternate fallback or alternative price or rate source or method of determination selected by the Determination Agent (which may (or may not) be by reference to dealer poll or such other publication page or service as may replace the relevant page or service for the purpose of displaying a currency exchange rate comparable or equivalent); or
 - (ii) a replacement of any one or more relevant currencies, as the case may be; and/or
- (d) treat the relevant FX Disruption Event(s), if specified as an Additional Disruption Event in the Pricing Supplement, as if an Additional Disruption Event had occurred in respect of the Securities for the purposes of exercising any applicable rights under the Base Conditions (including, without limitation, exercising the cancellation or adjustment rights in Condition 5.4 (*Early redemption and/or adjustment following the occurrence of an Additional Disruption Event*) or 6.2 (*Cancellation at the option of Securityholders*) of the Base Conditions).

Accordingly, paragraphs 1 and 2 of Section 1 of the Barclays Index Annex should be read in conjunction with this Section 5.

Part A

Additional Terms and Conditions for Barclays Interest Rate Index Linked Securities

The terms and conditions applicable to Barclays Interest Rate Index Linked Securities shall comprise the Base Conditions and the additional terms and conditions set out below (the "**Barclays Interest Rate Index Linked Conditions**"), in each case subject to completion and/or amendment in the Pricing Supplement. In the event of any inconsistency between the Base Conditions and the Barclays Interest Rate Index Linked Conditions set out below, the Barclays Interest Rate Index Linked Conditions shall prevail. Capitalised terms used herein but not otherwise defined shall have the meanings given to them in the Base Conditions.

1. Interest

If Interest is specified as applicable in the Pricing Supplement and, provided that no event that may lead to the early redemption or termination of the Securities has previously occurred as determined by the Determination Agent, the Interest Amount (if any) payable in respect of a Barclays Interest Rate Index Linked Security on each Interest Payment Date will be calculated according to the methodology set out in the Pricing Supplement and the Base Conditions, and may be calculated by reference to the performance of one or more Barclays Interest Rate Indices and/or Condition 4 (*Interest*) of the Base Conditions, as further described in the Pricing Supplement.

2. Redemption

The Final Cash Settlement Amount payable in respect of a Barclays Interest Rate Index Linked Security on the Redemption Date, provided that no event that may lead to the early redemption or termination of the Securities has previously occurred as determined by the Determination Agent, will be calculated according to the methodology set out in the Pricing Supplement and the Base Conditions, and may be calculated by reference to the performance of one or more Barclays Interest Rate Indices, as further described in the Pricing Supplement.

2.1 Settlement Method

With respect to Condition 5 (*Redemption of Securities that are Notes or Certificates*) of the Base Conditions, the Settlement Method for Barclays Interest Rate Index Linked Securities shall always be 'Cash Settlement'.

2.2 Early Redemption

Where the Determination Agent determines that an Additional Disruption Event has occurred with respect to a Barclays Interest Rate Index Linked Security and determines that it shall cancel or redeem such Barclays Interest Rate Index Linked Security pursuant to Condition 5.4 (*Early redemption and/or adjustment following the occurrence of an Additional Disruption Event*) of the Base Conditions, the Issuer shall notify the Securityholders in accordance with Condition 16 (*Notices*) of the Base Conditions and, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the Base Conditions, redeem each Barclays Interest Rate Index Linked Security at its Early Cash Settlement Amount on the Early Cash Redemption Date.

3. Barclays Interest Rate Index Adjustment Events

3.1 Successor Index or Successor Index Sponsor

If, on or prior to any Index Fixing Date, the Barclays Interest Rate Index is:

- (a) replaced by a successor index using, in the determination of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Barclays Interest Rate Index (a 'Successor Index'), then that Successor Index shall be deemed to be the Barclays Interest Rate Index; or
- (b) not calculated and announced by the Index Sponsor, but is calculated and announced by a successor sponsor acceptable to the Determination Agent (a "Successor Index Sponsor"), then that Successor Index Sponsor shall be deemed to be the Index Sponsor.

The Determination Agent shall notify the Issuer and Securityholders in accordance with Condition 16 (*Notices*) of the Base Conditions as soon as reasonably practicable of such designation of a Successor Index as the Barclays Interest Rate Index and/or Successor Index Sponsor as the Index Sponsor.

3.2 Index Disruption Events

If, on or prior to any Index Fixing Date, the Index Sponsor:

- (a) announces any change whatsoever to the rules, formula or method of calculation (howsoever described) of the Barclays Interest Rate Index which, in the opinion of the Determination Agent is material (a "**Material Index Modification**");
- (b) announces that it shall cease to publish the Index Level on or prior to such date and no Successor Index exists (an "**Index Cancellation**"); or
- (c) fails to publish the Index Level for any Index Business Day (an "**Index Publication Disruption**") and such Index Publication Disruption in respect of such Index Business Day continues for ten consecutive Index Business Days (a "**Persistent Index Disruption**"),

(such Material Index Modification or Index Cancellation or Persistent Index Disruption each an "**Index Disruption Event**"), then:

- (i) in the case of Index Cancellation, if a Pre-nominated Index has been specified in the Pricing Supplement in respect of the cancelled Barclays Interest Rate Index, the cancelled Barclays Interest Rate Index shall be replaced by such Pre-nominated Index with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Barclays Interest Rate Index with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology); and

The Determination Agent shall notify the Issuer and Securityholders of such Additional Disruption Event in accordance with Condition 16 (*Notices*) of the Base Conditions.

For the avoidance of doubt, if, in the opinion of the Determination Agent, an Index Publication Disruption occurs in respect of an Index Fixing Date, then the Index Level for that Index Fixing Date will be the Index Level that is subsequently published by the Index Sponsor in respect of that original scheduled Index Fixing Date.

3.3 Index Disruption Payment Adjustment

If, as a result of a delay pursuant to the occurrence of an Index Publication Disruption or an Index Disruption Event, the Index Level required to determine a payment in respect of (a) an Interest Payment Date or (b) the Redemption Date is not calculated by the Index Sponsor or observable on the Index Fixing Page at least two Business Days prior to (i) such Interest Payment Date or (j) the Redemption Date, then (A) such Interest Payment Date or (B) the Redemption Date shall be adjusted to occur on the second Business Day following the determination of any amounts payable pursuant to the Barclays Interest Rate Index Linked Condition 3.2 (*Index Disruption Events*) above.

If, within 30 days of publication, and at least two Business Days prior to the Redemption Date, the Index Sponsor announces a correction to an Index Level to remedy an error in its original publication, then the Determination Agent shall determine the amount, if any, which is payable or deductible by the Issuer as a result of that correction. If the Determination Agent determines that any such amount is payable or deductible, then the Determination Agent shall notify the Issuer and Securityholders, as soon as reasonably practicable, of (a) that correction and (b) that amount, and take such other action as it may deem necessary to give effect to such correction.

*The terms and conditions applicable to Barclays Emerging Index Linked Securities (the "**Barclays Emerging Market Index Linked Securities**") shall comprise the Base Conditions and the additional terms and conditions set out below (the "**Barclays Emerging Market Index Linked Conditions**"), in each case subject to completion and/or amendment in the Pricing Supplement. In the event of any inconsistency between the Base Conditions and the Barclays Emerging Market Index Linked Conditions set out below, the Barclays Emerging Market Index Linked Conditions shall prevail. Capitalised terms used herein but not otherwise defined shall have the meanings given to them in the Base Conditions.*

1. Interest

If Interest is specified as applicable in the Pricing Supplement, and provided that no event that may lead to the early redemption or termination of the Barclays Emerging Market Index Linked Securities has previously occurred as determined by the Determination Agent, the Interest Amount payable in respect of a Barclays Emerging Market Index Linked Security on each Interest Payment Date will be calculated according to the methodology set out in the Pricing Supplement and the Base Conditions, and may be calculated by reference to the performance of one or more Barclays Emerging Market Indices and/or Condition 4 (*Interest*) of the Base Conditions, as further described in the Pricing Supplement.

2. Redemption

The Final Cash Settlement Amount payable in respect of a Barclays Emerging Market Index Linked Security on the Redemption Date, provided that no event that may lead to the early redemption or termination of the Barclays Emerging Market Index Linked Securities has previously occurred as determined by the Determination Agent, will be calculated according to the methodology set out in the Pricing Supplement and the Base Conditions, and may be calculated by reference to the performance of one or more Barclays Emerging Market Indices, as further described in the Pricing Supplement.

2.2 Adjustment of Final Cash Settlement Amount

The Determination Agent has the right to adjust the Final Cash Settlement Amount and/or any payments due from the Issuer following the occurrence of an Adjustment Event at any time during the period from (and including) the Trade Date up to (and including) the Redemption Date (such period, the "**Risk Period**") so that that the Final Cash Settlement Amount (or the amount of any other such payments) is reduced by any loss suffered, or costs or expenses incurred, by the Issuer (or its agents or Affiliates) in connection with the Barclays Emerging Market Index Linked Securities as a result of the occurrence of the Adjustment Event. Such losses, costs and expenses shall be determined by the Determination Agent.

2.3 Early Redemption

Where the Determination Agent determines that an Additional Disruption Event has occurred with respect to a Barclays Emerging Market Index Linked Security and determines that it shall cancel or redeem such Barclays Emerging Market Index Linked Security pursuant to Condition 5.4 (*Early redemption and/or adjustment following the occurrence of an Additional Disruption Event*) of the Base Conditions, the Issuer shall give notice of such determination to the Securityholders in accordance with Condition 16 (*Notices*) of the Base Conditions and the Issuer may, subject to Conditions 7 (*Settlement*), 8 (*Calculations and publication*) and 9 (*Payments and deliveries*) of the

3. Barclays Emerging Market Index Adjustment Events and Disruption

3.1 Index Adjustment Events

If the Barclays Emerging Market Index is (a) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Determination Agent (the "**Successor Sponsor**"), then such Successor Sponsor shall be deemed to be the Index Sponsor or (b) replaced by a successor index using, in the determination of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index, then that index (the "**Successor Index**") will be deemed to be the successor Barclays Emerging Market Index.

If (a) on or prior to a Valuation Date or an Averaging Date, the Index Sponsor replaces the Barclays Emerging Market Index with a successor index that is not (in the opinion of the Determination Agent) a Successor Index or makes, or announces that it will make, a material change in the formula for or the method of calculating the Barclays Emerging Market Index or in any other way materially modifies the Barclays Emerging Market Index (other than a modification prescribed in that formula or method to maintain the Barclays Emerging Market Index) (an "**Index Modification**") or permanently cancels the Barclays Emerging Market Index and no Successor Index exists (an "**Index Cancellation**") or (b) on a Valuation Date or an Averaging Date, the Index Sponsor fails to calculate and announce the Index Level for reasons other than the occurrence of a Market Disruption Event (as defined below) (an "**Index Disruption**"), the Determination Agent shall determine if such Index Adjustment Event has a material effect on the relevant Barclays Emerging Market Index Linked

Securities, and the Determination Agent may deem such Index Adjustment Event, and if so:

- (i) in the case of Index Cancellation, if a Pre-nominated Index has been specified in the Pricing Supplement in respect of the cancelled Barclays Interest Rate Index, the cancelled Barclays Emerging Market Index shall be replaced by such Pre-nominated Index with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Barclays Emerging Market Index with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology); and
- (ii) in the case of (A) an Index Cancellation, if the cancelled Barclays Emerging Market Index is not replaced with a Pre-nominated Index) or (B) an Index Modification or Index Disruption, the Determination Agent may deem such Index Adjustment Event to constitute an Additional Disruption Event for the purposes of these provisions and shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of Condition 5 (*Redemption of Securities that are Notes or Certificates*) or 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions, as the case may be, in respect of the Securities. The Determination Agent shall notify the Issuer and Securityholders of such Additional Disruption Event in accordance with Condition 16 (*Notices*) of the Base Conditions.

3.2 Correction to Published Prices

If the Index Level published on any given day and used or to be used by the Determination Agent in respect of that day is subsequently corrected and the correction is published by the Index Sponsor or a Successor Sponsor no later than the second Business Day prior to the next date upon which any payment shall be made by the Issuer, the Determination Agent shall recalculate the amount that is payable, using such corrected level of the relevant Index and, to the extent necessary, will adjust any relevant terms of the Securities to account for such correction. The Determination Agent shall notify the Securityholders of (a) that correction (b) the amount, if any, that is payable as a result of that correction and (c) any adjustment being made.

Notwithstanding the foregoing, where the Determination Agent determines that the Index Level published or announced on a Valuation Date or an Averaging Date and used or to be used by it to determine any amounts in respect of such Valuation Date or Averaging Date is expected to be subsequently corrected, then the Determination Agent may delay the determination or calculation of such amounts in respect of such Valuation Date or Averaging Date and instead notify the parties of the expected correction, provided that the Determination Agent shall make its determination or calculation of the Index Level no later than two Business Days prior to the next date upon which any payment shall be made by the Issuer. Part B

Definitions applicable to Barclays Emerging Market Index Linked Securities

"**Adjustment Event**" means the occurrence of any one or more of the following events specified in the Pricing Supplement:

- (a) Market Disruption Event;
- (b) Residual Risk Event;
- (c) Custodial Event;
- (d) Tax Event; or
- (e) Inconvertibility Event.

"**Averaging Date**" means, in respect of a Valuation Date or Actual Exercise Date (as the case may be), each date specified as an Averaging Date in the Pricing Supplement or, if any such date is not a Scheduled Trading Day, the immediately following Scheduled Trading Day unless, in the opinion of the Determination Agent, any such day is a Disrupted Day. If any such day is a Disrupted Day, then:

- (a) if 'Omission' is specified as applying in the Pricing Supplement, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant level or amount, provided that, if, through the operation of this provision no Averaging Date would occur in respect of such Valuation Date or Actual Exercise Date, then the provisions of the definition of 'Valuation Date' and Barclays Emerging Market Index Linked Condition 3.2 (*Correction to Published Prices*) (as applicable) will apply for the purposes of determining the relevant level or amount on the final Averaging Date with respect to that Valuation Date or Actual Exercise Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or
- (b) if 'Postponement' is specified as applying in the Pricing Supplement, then the provisions of the definition of 'Valuation Date' and Barclays Emerging Market Index Linked Condition 3.2 (*Correction to Published Prices*) (as applicable) will apply for the purposes of determining the relevant level or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
- (c) if 'Modified Postponement' is specified as applying in the Pricing Supplement then:
 - (i) where the Securities reference a single Barclays Emerging Market Index, the Averaging Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred as at the Valuation Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of such Valuation Date or Actual Exercise Date, then (A) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (B) the Determination Agent shall determine the relevant level for that Averaging Date in accordance with paragraph (i) of the definition of 'Valuation Date' and Barclays Emerging Market Index Linked Condition 3.2 (*Correction to Published Prices*) (as applicable); and
 - (ii) where the Securities reference a basket or portfolio of Barclays Emerging Market Indices, the Averaging Date for each Barclays Emerging Market Index not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (the "**Scheduled Averaging Date**") and the Averaging Date for a Barclays Emerging Market Index affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Barclays Emerging Market Index. If the first succeeding Valid Date in relation to such Barclays Emerging Market Index has not occurred as at the Valuation Time on the eighth Scheduled Trading Day immediately

following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of such Valuation Date or Actual Exercise Date, then (A) that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of such Barclays Emerging Market Index and (B) the Determination Agent shall determine the relevant level or amount for that Averaging Date in accordance with paragraph (ii) of the definition of 'Valuation Date' and Barclays Emerging Market Index Linked Condition 3.2 (*Correction to Published Prices*) (as applicable).

- (iii) No Securityholder will be entitled to receive dividends declared or paid in respect of any component of the relevant Entitlement or to any other rights relating to or arising out of any such component of the Entitlement if the record date for the relevant dividend or relevant right in respect of such components and Entitlement falls before the relevant Physical Delivery Date.

PART A

DESCRIPTION

1. Brief description of Swiss Securities

Securities governed by Swiss law ("**Swiss Securities**") may be issued either in bearer form or in the form of uncertificated securities (*Wertrechte*). If Swiss Securities are issued in bearer form, they will be represented by a permanent global certificate (*Globalurkunde*) in bearer form in terms of article 973b of the Swiss Federal Code of Obligations ("**SCO**") ("**Global Securities**"). Swiss Securities which are to be issued in the form of uncertificated securities are created in accordance with article 973c of SCO ("**Uncertificated Securities**") and have the same function as physical securities (*Wertpapiere*). The debtor runs a register of Uncertificated Securities (*Wertrechtbuch*) that specifies number and denomination of the Uncertificated Securities and their first holders. Uncertificated Securities are created by registration in such a register and transferred by means of a written assignment.

By registering Uncertificated Securities in the main register (*Hauptregister*) of, or depositing Global Securities with, SIX SIS Ltd, Olten, Switzerland ("**SIS**") and crediting them to a securities account (*Effektenkonto*), intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") pursuant to the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*) ("**FISA**") are created. The holder and legal owner of the Intermediated Securities is the person holding the Intermediated Securities in a securities account in its own name and for its own account with a depositary (*Verwahrungsstelle*) in terms of the FISA. In accordance with the provisions of the FISA, Intermediated Securities are transferred and otherwise disposed of by instruction of the account holder to his depositary to transfer and credit the Intermediated Securities to the account of the transferee's depositary.

If Swiss Securities are issued as Uncertificated Securities, unless otherwise stated in the Pricing Supplement, the Securityholders shall at no time have the right to demand the conversion of Uncertificated Securities into, or the delivery of, a permanent global certificate or physical securities. By contrast, the Issuer shall have the right to effect the conversion of the Uncertificated Securities into a permanent global certificate or physical securities and vice versa.

PART B

ADDITIONAL TERMS AND CONDITIONS FOR SWISS SECURITIES

The terms and conditions applicable to Swiss Securities shall comprise the Base Conditions and the additional terms and conditions set out below (the "Swiss Securities Conditions"), in each case subject to completion and/or amendment in the Pricing Supplement. In the event of any inconsistency between the Base Conditions and the Swiss Securities Conditions set out below, the Swiss Securities Conditions shall prevail. In the event of any inconsistency between (i) the Base Conditions and/or the Swiss Securities Conditions and (ii) the Pricing Supplement, the Pricing Supplement shall prevail. This Swiss Securities Annex is a Foreign Law Annex and a Relevant Annex for the purposes of the Base Conditions and any Securities specified to be Swiss Securities in the Pricing Supplement. Capitalised terms used herein but not otherwise defined shall have the meanings given to them in the Base Conditions or the Pricing Supplement.

The Pricing Supplement for Swiss Securities that are offered in or from Switzerland shall comply with any applicable Swiss legal and regulatory requirements, as amended from time to time.

1. Amendment to Condition 2.1 of the Base Conditions

Condition 2.1(a) of the Base Conditions (*Form of Securities*) shall be amended by addition of the following paragraph at the end of such Condition in case of Swiss Securities:

If Swiss Securities are to be issued in the form of uncertificated securities, they are created in accordance with article 973c of SCO by registration in the register of uncertificated securities (*Wertrechtbuch*) of the Issuer ("**Uncertificated Securities**"). According to article 973c of SCO, Uncertificated Securities have the same function as physical securities (*Wertpapiere*). By registering the Uncertificated Securities in the main register (*Hauptregister*) of, or depositing the Global Securities with SIX SIS Ltd, Olten, Switzerland ("**SIS**") and crediting them to a securities account (*Effektenkonto*) in terms of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*) ("**FISA**"), intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the FISA are created.'

For Swiss Securities which are issued in the form of Uncertificated Securities, the register of uncertificated securities of the Issuer specifies number and denomination of the Uncertificated Securities and the first holders. Uncertificated Securities exist in accordance with such register. In the case of Swiss Securities which constitute Intermediate Securities, the holder and legal owner of such Swiss Securities will be the person holding them in a securities account in its own name and for its own account with its depositary (*Verwahrungsstelle*) in accordance with the terms of the FISA. The records of such depositary determine the number of Swiss Securities held by such securities account holder. The respective disclosure document (*Ausweis*) does not constitute a security.'

- 2.2 Upon determining the occurrence of a Fund Event, the Issuer shall give notice as soon as practicable to the Securityholders, giving details of the Fund Event and the action to be taken in respect thereof.

- (a) the Determination Agent determines that the realisable value actually paid or received by any investor seeking to either (i) subscribe in Fund Shares (such subscription targeted to be effected on the Strike Date (or, in the case of a Fund Basket, the First

Dealing Date in respect of a Fund comprised in the Fund Basket), Averaging-in Dates or Lookback-in Dates, or (ii) redeem any holding of Fund Shares (such redemption targeted to be effected on the Final Redemption Dealing Date (or, in the case of a Fund Basket, the Final Fund Redemption Dealing Date in respect of a Fund comprised in the Fund Basket), Averaging-out Dates, Lookback-out Dates, Interest Valuation Dates, or as soon as practicable following an Issuer's notice of early redemption, as the case may be), differs from the Net Asset Value in respect of, in the case of (i), the Strike Date (or, in the case of a Fund Basket, the First Dealing Date in respect of a Fund comprised in the Fund Basket), Averaging-in Dates or Lookback-in Dates, or, in the case of (ii), the Final Redemption Dealing Date (or, in the case of a Fund Basket, the Final Fund Redemption Dealing Date in respect of a Fund comprised in the Fund Basket), Averaging-out Dates, Lookback-out Dates, Interest Valuation Dates or the first Dealing Date on which any investor is able to redeem any holding of Fund Shares in respect of a redemption order sent as soon as practicable following an Issuer's notice of early redemption, as the case may be.

Any such adjustment to the Settlement Amount, Interest Amount, Net Asset Value, or other parameter shall be determined on any Basket Calculation Date or Calculation Date (as the case may be) by the Determination Agent to reflect the economic impact of such event on the Securities. The Determination Agent has no obligation to actively monitor whether or not any of the Potential Adjustment of Payment Events has occurred or is likely to occur and accepts no liability therefor.

In respect of any adjustment to the Settlement Amount made by the Determination Agent pursuant to this Fund Linked Condition, any portion of the proceeds arising from the full redemption of the relevant Fund Shares targeted to be effected on the Final Redemption Dealing Date (or, in the case of a Fund Basket, the Final Fund Redemption Dealing Date in respect of each Fund comprised in the Fund Basket), the Averaging-out Dates, the Lookback-out Dates or as soon as practicable following an Issuer's notice of early redemption (as the case may be) which the Determination Agent determines that an investor in the Fund Shares would not have received by the Receipt Deadline shall be regarded as having a zero value.

In respect of any adjustment to any Interest Amount made by the Determination Agent pursuant to this Fund Linked Condition, any portion of the proceeds arising from the full redemption of the relevant Fund Shares targeted to be effected on the relevant Interest Valuation Date which the Determination Agent determines that an investor in the Fund Shares would not have received by the relevant Interest Receipt Deadline shall be regarded as having a zero value.

The Securityholders will not be charged any costs (such as settlement costs) by or on behalf of the Issuer to change the terms and conditions of the Securities.

5. **Consequences of an FX Disruption Event**

If 'FX Disruption Event' is specified as applying in the Pricing Supplement, upon the occurrence of an FX Disruption Event, the Issuer may, in its discretion, take any one or more of the actions described below:

- (a) make payment of the relevant Settlement Amount and/or any other amount payable by the Issuer pursuant to the Conditions in the Specified Currency instead of the Settlement Currency the amount payable in the Specified Currency being determined by the Determination Agent; or
- (b) postpone the relevant Redemption Date, Interest Payment Date, or any other relevant date, as the case may be, and/or payment of any amount payable by the Issuer pursuant to the Conditions until, in the determination of the Determination Agent, an FX Disruption Event is no longer subsisting.

6. **Physical Settlement**

Unless otherwise specified in the Pricing Supplement, the Securities will be redeemed in cash and the Securityholder will have no right to receive delivery of the Fund Shares. Where it is specified in the Pricing Supplement that Physical Settlement shall apply to the Fund Linked Securities, the provisions relating to Physical Settlement of the Fund Linked Securities shall be as set out in the Pricing Supplement.

BOOK-ENTRY PROCEDURES FOR RULE 144A GLOBAL SECURITIES DEPOSITED WITH DTC

The Rule 144A Global Securities will be issued in the form of Global Registered Securities, without Coupons or Talons. Upon issuance, one or more Global Securities will be deposited with either (i) a custodian for DTC and registered in the name of Cede & Co., as nominee of DTC, or (ii) a common depositary on behalf of Euroclear and Clearstream.

Ownership of beneficial interests in a Global Security deposited with DTC will be limited to persons who have accounts with DTC ("**DTC Participants**") or persons who hold interests through DTC Participants. The Issuer expects that, under procedures established by DTC:

- upon deposit of a Global Security with DTC's custodian, DTC will credit portions of the nominal amount, calculation amount or number of Securities (as applicable) represented by the Global Security to the accounts of the DTC Participants designated by the Manager; and
- ownership of beneficial interests in a Global Security will be shown on, and transfer of ownership of those interests will be effected only through, records maintained by DTC (with respect to interests of DTC Participants) and the records of DTC Participants (with respect to other owners of beneficial interests in the Global Security).

Beneficial interests in a Global Security may not be exchanged for Definitive Securities except in the limited circumstances described below.

Any Global Security and beneficial interests in the Global Security will be subject to restrictions on transfer as described under '*Clearance and Settlement – Transfer Restrictions for Registered Securities*'.

Book-entry procedures for Global Securities

All interests in Global Securities will be subject to the operations and procedures of DTC. The following summary of those operations and procedures is provided solely for the convenience of investors. The operations and procedures of DTC are controlled by DTC and may be changed at any time. Neither the Issuer nor the Manager is responsible for those operations or procedures.

DTC has advised the Issuer that it is:

- a limited purpose trust company organised under the New York Banking Law;
- a 'banking organisation' within the meaning of the New York Banking Law;
- a member of the Federal Reserve System;
- a 'clearing corporation' within the meaning of the New York Uniform Commercial Code; and
- a 'clearing agency' registered pursuant to the provisions of section 17A of the US Securities Exchange Act of 1934, as amended (the "**Exchange Act**").

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions between its participants through electronic book-entry changes to the accounts of its participants, thereby eliminating the need for physical transfer and delivery of certificates. DTC's Participants include securities brokers and dealers, including the initial purchasers; banks and trust companies; and clearing corporations and other organisations. Indirect access to DTC's system is also available to other such banks, brokers, dealers and trust companies; these indirect participants clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly. Investors who are not DTC Participants may beneficially own securities held by or on behalf of DTC only through DTC Participants or indirect participants in DTC.

So long as DTC's nominee is the registered owner of a Registered Global Security, that nominee will be considered the sole owner or holder of the Securities represented by that Registered Global Security for all purposes under the Master Agency Agreement (as amended from time to time). Except as provided below, owners of beneficial interests in a Registered Global Security:

- will not be entitled to have Securities represented by a Registered Global Security registered in their names;
- will not receive or be entitled to receive Definitive Securities; and
- will not be considered the owners or holders of the Securities under the Master Agency Agreement (as amended from time to time) for any purpose, including with respect to the giving of any direction, instruction or approval to the Agent under the Master Agency Agreement (as amended from time to time).

As a result, each investor who owns a beneficial interest in a Registered Global Security must rely on the procedures of DTC to exercise any rights of a holder of Securities under the Master Agency Agreement (as amended from time to time) (and, if the investor is not a participant or an indirect participant in DTC, on the procedures of the DTC Participant through which the investor owns its interest).

Payments of principal, premium (if any), additional amounts (if any) and interest (if any) with respect to the Securities represented by a Registered Global Security will be made by the New York Agent to DTC's nominee as the registered holder of the Registered Global Securities. Neither the Issuer nor the New York Agent will have any responsibility or liability for the payment of amounts to owners of beneficial interests in a Global Security, for any aspect of the records relating to or payments made on account of those interests by DTC, or for maintaining, supervising or reviewing any records of DTC relating to those interests.

Payments by DTC Participants and indirect participants in DTC to the owners of beneficial interests in a Registered Global Security will be governed by standing instructions and customary industry practice and will be the responsibility of those DTC Participants or indirect participants and DTC.

Transfers between DTC Participants will be effected under DTC's procedures and will be settled in same-day funds.

Registered Definitive Securities

Registered Definitive Securities will be issued and delivered to each person that DTC identifies as a beneficial owner of the related Securities only on the occurrence of one of the following events:

- DTC notifies the Issuer at any time that it is unwilling or unable to continue as depository for the Registered Global Securities and a successor depository is not appointed within 90 days;
- DTC ceases to be registered as a clearing agency under the Exchange Act and a successor depository is not appointed within 90 days; or
- the Issuer, at its option, notifies the New York Agent that it elects to cause the issuance of Registered Definitive Securities.

The laws of some countries and some states in the US require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Registered Global Security to such persons may be limited to that extent. Because DTC can act only on behalf of DTC Participants, the ability of a person having beneficial interests in a Registered Global Security deposited with DTC to pledge such interests to persons or entities that do not participate in the relevant clearing system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

CLEARANCE AND SETTLEMENT

Book-entry ownership

Bearer Securities

The Issuer may make applications to Euroclear and/or Clearstream for acceptance in their respective book-entry systems in respect of any Series of Bearer Securities. In respect of Bearer Securities, a Temporary Global Security and/or a Permanent Global Security in bearer form without Coupons may be deposited with a common depositary for Euroclear and/or Clearstream or an alternative clearing system as agreed between the Issuer and the Managers. Transfers of interests in such Temporary Global Securities or Permanent Global Securities will be made in accordance with the normal Euromarket debt securities operating procedures of Euroclear and Clearstream or, if appropriate, the alternative clearing system.

Registered Securities

The Issuer may make applications to Euroclear and/or Clearstream for acceptance in their respective book-entry systems in respect of the Securities to be represented by a Regulation S Global Security. Each Regulation S Global Security deposited with a common depositary for, and registered in the name of, a nominee of Euroclear and/or Clearstream will have an ISIN and a Common Code.

The Issuer, and the NY Registrar appointed for such purpose that is an eligible DTC participant, may make application to DTC for acceptance in its book-entry settlement system of the Registered Securities represented by a Rule 144A Global Security. Each such Rule 144A Global Security will have a CUSIP number. Each Rule 144A Global Security will be subject to restrictions on transfer contained in a legend appearing on the front of such Rule 144A Global Security, as set out under '*Transfer Restrictions for Registered Securities*'. In certain circumstances, as described below in '*Transfer Restrictions for Registered Securities*', transfers of interests in a Rule 144A Global Security may be made as a result of which such legend may no longer be required.

In the case of a Tranche of Registered Securities to be cleared through the facilities of DTC, the Custodian, with whom the Rule 144A Global Securities are deposited, and DTC, will electronically record the aggregate nominal amount or number of Securities (as applicable) represented by the Rule 144A Global Securities held within the DTC system. Investors may hold their beneficial interests in a Rule 144A Global Security directly through DTC if they are participants in the DTC system, or indirectly through organisations which are participants in such system.

Payments of the principal of, and interest on, each Rule 144A Global Security registered in the name of DTC's nominee will be to, or to the order of, its nominee as the registered owner of such Rule 144A Global Security. The Issuer expects that the nominee, upon receipt of any such payment, will immediately credit DTC participants' accounts with payments in amounts proportionate to their respective beneficial interests in the nominal amount, calculation amount or number of the Securities (as applicable) represented by the relevant Rule 144A Global Security as shown on the records of DTC or the nominee. The Issuer also expects that payments by DTC participants to owners of beneficial interests in such Rule 144A Global Security held through such DTC participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such DTC participants. None of the Issuer, the Issue and Paying Agent, any Paying Agent or any Transfer Agent will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, ownership interests in any Rule 144A Global Security or for maintaining, supervising or reviewing any records relating to such ownership interests.

All Registered Securities will initially be in the form of Regulation S Global Securities and/or Rule 144A Global Securities. Definitive Securities will only be available, in the case of Securities in the form of Notes or Exercisable Certificates initially represented by a Regulation S Global Security, in amounts or numbers specified in the Pricing Supplement, and, in the case of Securities initially represented by a Rule 144A Global Security, in minimum amounts of US\$100,000 (or its equivalent rounded upwards as agreed between the Issuer and the relevant Manager(s)), or higher integral multiples of US\$1,000, in certain limited circumstances described below.

Payments through DTC

Payments in US dollars of principal and interest in respect of a Rule 144A Global Security registered in the name of a nominee of DTC will be made to the order of such nominee as the registered holder of such Security. Payments of principal and interest in a currency other than US dollars in respect of Securities evidenced by a Rule 144A Global Security registered in the name of a nominee of DTC will be made or procured to be made by the Paying Agent in such currency in accordance with the following provisions. The amounts in such currency payable by the Paying Agent or its agent to DTC with respect to Notes held by DTC or its nominee will be received from the Company by the Paying Agent who will make payments in such currency by wire transfer of same day funds to the designated bank account in such currency of those DTC participants entitled to receive the relevant payment who have made an irrevocable election to DTC, in the case of payments of interest, on or prior to the third business day in New York City after the Record Date for the relevant payment of interest and, in the case of payments of principal, at least 12 business days in New York City prior to the relevant payment date, to receive that payment in such currency. The Paying Agent will convert amounts in such currency into US dollars and deliver such US dollar amount in same day funds to DTC for payment through its settlement system to those DTC participants entitled to receive the relevant payment who did not elect to receive such payment in such currency. The Master Agency Agreement (as amended from time to time) sets out the manner in which such conversions are to be made.

Transfers of Registered Securities

Transfers of interests in Global Securities within Euroclear, Clearstream and DTC will be in accordance with the usual rules and operating procedures of the relevant clearing system. The laws of some states in the United States require that certain persons take physical delivery in definitive form of securities. Consequently, the ability to transfer interests in a Rule 144A Global Security to such persons may be limited. Because DTC can only act on behalf of participants, who in turn act on behalf of indirect participants, the ability of a person having an interest in a Rule 144A Global Security to pledge such interest to persons or entities that do not participate in DTC, or otherwise take actions in respect of such interest, may be affected by the lack of a physical certificate in respect of such interest.

Beneficial interests in a Regulation S Global Security may only be held through Euroclear or Clearstream. In the case of Registered Securities to be cleared through Euroclear, Clearstream and/or DTC, transfers may be made at any time by a holder of an interest in a Regulation S Global Security to a transferee who wishes to take delivery of such interest through a Rule 144A Global Security for the same Series, provided that any such transfer made on or prior to the expiration of the Distribution Compliance Period relating to the Securities represented by such Regulation S Global Security will only be made upon receipt by the Registrar or any Transfer Agent of a written certificate from Euroclear or Clearstream, as the case may be (based on a written certificate from the transferor of such interest), to the effect that such transfer is being made to a person whom the transferor, and any person acting on its behalf, reasonably believes is a QIB within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A and in accordance with any applicable securities laws of any state of the United States. Any such transfer made thereafter of the Securities represented by such Regulation S Global Security will only be made upon request through Euroclear or Clearstream by the holder of an interest in the Regulation S Global Security to the Issue and Paying Agent of details of that account at DTC to be credited with the relevant interest in the Rule 144A Global Security. Transfers at any time by a holder of any interest in the Rule 144A Global Security to a transferee who takes delivery of such interest through a Regulation S Global Security will only be made upon delivery to any Registrar or Transfer Agent of a certificate setting forth compliance with the provisions of Regulation S and giving details of the account at Euroclear or Clearstream, as the case may be, and DTC to be credited and debited, respectively, with an interest in each relevant Global Security.

Subject to compliance with the transfer restrictions applicable to the Registered Securities described below and under '*Transfer Restrictions for Registered Securities*', cross-market transfers between DTC, on the one hand, and directly or indirectly through Euroclear or Clearstream accountholders, on the other hand, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Custodian, the Registrar and the Issue and Paying Agent.

On or after the Issue Date for any Series, transfers of Securities of such Series between accountholders in Euroclear and/or Clearstream and transfers of Securities of such Series between participants in DTC

will settle on a date determined in accordance with the Relevant Rules. The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Euroclear or Clearstream and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Euroclear and Clearstream, on the other hand, transfers of interests in the relevant Global Securities will be effected through the Issue and Paying Agent, the custodian, the relevant Registrar and any applicable Transfer Agent receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. Transfers will be effected on the later of (i) three business days after the trade date for the disposal of the interest in the relevant Global Security resulting in such transfer and (ii) two business days after receipt by the Issue and Paying Agent or the Registrar, as the case may be, of the necessary certification or information to effect such transfer and in accordance with the Relevant Rules. In the case of cross-market transfers, settlement between Euroclear or Clearstream accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

For a further description of restrictions on transfer of Registered Securities, see '*Transfer Restrictions for Registered Securities*'.

DTC has advised the Issuer that it will take any action permitted to be taken by a holder of Registered Securities (including, without limitation, the presentation of Rule 144A Global Securities for exchange as described above) only at the direction of one or more participants in whose account with DTC interests in Rule 144A Global Securities are credited and only in respect of such portion of the aggregate nominal amount or aggregate number of Securities (as applicable) represented by the relevant Rule 144A Global Securities as to which such participant or participants has or have given such direction. However, in the circumstances described above, DTC will surrender the relevant Rule 144A Global Securities in exchange for Definitive Securities (which will, in the case of Restricted Securities, bear the legend applicable to transfers pursuant to Rule 144A).

DTC has advised the Issuer as follows: DTC is a limited purpose trust company organised under the laws of the State of New York, a 'banking organisation' under the laws of the State of New York, a member of the US Federal Reserve System, a 'clearing corporation' within the meaning of the New York Uniform Commercial Code and a 'clearing agency' registered pursuant to the provisions of section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic computerised book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. Indirect access to DTC is available to others, such as banks, securities brokers, dealers and trust companies, that clear through or maintain a custodial relationship with a DTC direct participant, either directly or indirectly.

Although Euroclear, Clearstream and DTC have agreed to the foregoing procedures in order to facilitate transfers of beneficial interests in the Global Securities among participants and accountholders of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. Neither the Issuer, nor any Paying Agent nor any Transfer Agent will have any responsibility for the performance by Euroclear, Clearstream or DTC or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

While a Rule 144A Global Security is lodged with DTC or the Custodian, Restricted Securities represented by Definitive Securities will not be eligible for clearing or settlement through Euroclear, Clearstream or DTC.

Definitive Securities

Registration of title to Registered Securities in a name other than a depository or its nominee for Clearstream and Euroclear or for DTC will be permitted only in the circumstances set out in Condition 1 (*Master Agency Agreement*) of the Base Conditions. In such circumstances, the Issuer will cause sufficient individual Securities to be executed and delivered to the Registrar for completion,

authentication and despatch to the relevant Securityholder(s). A person having an interest in a Global Security must provide the Registrar with:

- (i) a written order containing instructions and such other information as the Issuer and the Registrar may require to complete, execute and deliver such Definitive Securities; and
- (ii) in the case of a Rule 144A Global Security only, a fully completed, signed certification substantially to the effect that the exchanging holder is not transferring its interest at the time of such exchange, or, in the case of a simultaneous resale pursuant to Rule 144A, a certification that the transfer is being made in compliance with the provisions of Rule 144A. Definitive Securities issued pursuant to this paragraph (ii) shall bear the legends applicable to transfers pursuant to Rule 144A.

Pre-issue trades settlement

It is expected that delivery of Securities will be made against payment therefor on the relevant Issue Date, which could be more than two business days following the date of pricing. Under Rule 15c6-1 of the Exchange Act, trades in the US secondary market generally are required to settle within two business days ("T+2"), unless the parties to any such trade expressly agree otherwise. Accordingly, in the event that an Issue Date is more than two business days following the relevant date of pricing, purchasers who wish to trade Registered Securities in the United States between the date of pricing and the date that is two business days prior to the relevant Issue Date will be required, by virtue of the fact that such Securities initially will settle beyond T+2, to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement. Settlement procedures in other countries will vary. Purchasers of Securities may be affected by such local settlement practices and, in the event that an Issue Date is more than two business days following the relevant date of pricing, purchasers of Securities who wish to trade Securities between the date of pricing and the date that is two business days prior to the relevant Issue Date should consult their own adviser.

NO REPRESENTATION CAN BE MADE AS TO THE AVAILABILITY OF THE EXEMPTION PROVIDED BY RULE 144 FOR REALES OF THE SECURITIES.

A Rule 144A Global Security held by a Custodian on behalf of DTC shall also bear the following legend:

- (4) The Issuer, the Registrar, the Luxembourg Registrar, the Manager and their Affiliates and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements. - (5) It understands that the Restricted Securities will be represented by a Rule 144A Global Security. Before any interest in a Rule 144A Global Security may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in the Regulation S Global Security or, as the case may be, Global Security, it will be required to provide a Transfer Agent with a written certification (in the form provided in the Master Agency Agreement, as amended from time to time) as to compliance with applicable securities laws.

For as long as any Restricted Securities are outstanding and are 'restricted securities' within the meaning of Rule 144 under the Securities Act, the Issuer has agreed that any holder of such Securities or prospective purchaser designated by such holder of Securities will have the right to obtain from the Issuer during any period in which the Issuer is neither subject to section 13 or 15(d) of the Exchange

Act, nor exempt from reporting pursuant to Rule 12g3-2(b) thereunder, upon request, the information required by Rule 144A(d)(4) under the Securities Act.

Prospective purchasers are hereby notified that sellers of Registered Securities may be relying on the exemption from the provisions of section 5 of the Securities Act provided by Rule 144A.

GENERAL INFORMATION APPLICABLE TO CREST SECURITIES AND CDIS

CREST Securities

CREST Securities may be issued and held in uncertificated registered form in accordance with the Uncertificated Regulations and, as such, are dematerialised and not constituted by any physical document of title. Securities which are CREST Securities shall be specified as such in the Pricing Supplement.

CREST Securities issued pursuant to the Programme will be cleared through CREST and are participating securities for the purposes of the Uncertificated Regulations. The Operator is in charge of maintaining the Operator register of corporate securities. Title to the CREST Securities is recorded and will pass on registration in the Operator register of corporate securities. As at the date of this supplement, the relevant Operator for the purposes of the Uncertificated Regulations is Euroclear UK & Ireland Limited.

The address of Euroclear UK & Ireland Limited is 33 Cannon Street, London EC4M 5SB, United Kingdom.

CDI Securities

Investors may hold indirect interests in Cleared Securities issued pursuant to the Programme by holding CDIs through CREST. CDIs represent indirect interests in the Underlying Securities to which they relate and holders of CDIs will not be the legal owners of the Underlying Securities. Securities which are expected to constitute Underlying Securities for the purpose of CDIs shall be specified as such in the Pricing Supplement.

CDIs may be issued by the CREST Depository and held through CREST in dematerialised uncertificated form in accordance with the CREST Deed Poll. CDIs in respect of Underlying Securities will be constituted and issued to investors pursuant to the terms of the CREST Deed Poll.

Following their delivery into Euroclear (directly or through another clearing system using bridging arrangements with Euroclear), interests in Underlying Securities may be delivered, held and settled in CREST by means of the creation of dematerialised CDIs representing the interests in the relevant Underlying Securities. Interests in the Underlying Securities will be credited to the CREST nominee's account with Euroclear and the CREST nominee will hold such interests as nominee for the CREST Depository which will issue CDIs to the relevant CREST participants.

Each CDI will be treated as one Underlying Security for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to holders of CDIs any interest or other amounts received by it as holder of the Underlying Securities on trust for such CDI holder. CDI holders will also be able to receive from the CREST Depository notices of meetings of holders of Underlying Securities and other relevant notices issued by the Issuer.

Transfers of interests in Underlying Securities by a CREST participant to a participant of Euroclear or another Relevant Clearing System will be effected by cancellation of the CDIs and transfer of an interest in such Securities underlying the CDIs to the account of the relevant participant with Euroclear or such other Relevant Clearing System. The CDIs will have the same securities identification number as the ISIN of the Underlying Securities and will not require a separate listing.

The rights of the holders of CDIs will be governed by the arrangements between CREST, the Relevant Clearing System and the Issuer, including the CREST Deed Poll (in the form contained in Chapter 3 of the CREST International Manual (which forms part of the CREST Manual)) executed by the CREST Depository. These rights may be different from those of holders of Securities which are not represented by CDIs.

The attention of prospective investors in CDIs is drawn to the terms of the CREST Deed Poll, the CREST Manual and the CREST Rules, copies of which are available from Euroclear UK & Ireland Limited at 33 Cannon Street, London EC4M 5SB or by calling +442078490000 or from the Euroclear UK & Ireland Limited website at www.euroclear.com/site/public/EUI.

TAXATION

General taxation information

The information provided below does not purport to be a complete summary of tax law and practice currently applicable to the Securities. Transactions involving Securities (including purchases, transfers, and/or redemptions), the accrual or receipt of any interest or premium payable on the Securities, the delivery of any Entitlement and the death of a holder of any Security may have tax consequences for investors which may depend, amongst other things, upon the tax residence and/or status of the prospective investor. Investors are therefore advised to consult their own tax advisers as to the tax consequences of transactions involving Securities and the effect of any tax laws in any jurisdiction in which they may be tax resident or otherwise liable to tax. In particular, no representation is made as to the manner in which payments under the Securities would be characterised by any relevant taxing authority.

The following summaries do not consider the tax treatment of payments or deliveries in respect of Reference Assets. The taxation provisions applicable to such items may be different (and in some cases significantly different) from those described in the summary below.

Purchasers and/or sellers of Securities may be required to pay stamp taxes and other charges in addition to the issue price or purchase price (if different) of the Securities and in connection with the transfer or delivery of any Reference Asset(s).

Prospective investors are referred to Condition 6 (*Exercise or cancellation of Securities that are Warrants or Exercisable Certificates*) of the Base Conditions.

Terms defined in the sections below are defined for the purpose of the relevant section only.

United Kingdom taxation

The comments below are of a general nature based on current United Kingdom tax law and HM Revenue & Customs ("HMRC") published practice and are a summary of the understanding of the Issuer of current law and practice in the United Kingdom relating only to certain aspects of United Kingdom taxation. They are not intended to be exhaustive. They relate only to persons who are the beneficial owners of Securities and do not apply to certain classes of taxpayers (such as persons carrying on a trade of dealing in Securities, certain professional investors and persons connected with the Issuer) to whom special rules may apply.

Investors who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

1. Withholding Tax

(a) *Payments of interest by the Issuer only*

The Issuer, provided that it continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 (the "Act"), and provided that the interest on Securities is paid in the ordinary course of its business within the meaning of section 878 of the Act, will be entitled to make payments of interest without withholding or deduction for or on account of United Kingdom tax.

(b) *Payments of interest in respect of Securities which are quoted Eurobonds*

Payments of interest under Securities may be made without withholding or deduction for or on account of United Kingdom tax if they constitute 'quoted Eurobonds'. Securities will constitute quoted Eurobonds provided that such Securities carry a right to interest, and are and remain either:

- (i) listed on a 'recognised stock exchange' (designated as such by HMRC), as defined in section 1005 of the Act. Securities will satisfy this requirement if they are admitted to trading on the relevant recognised stock exchange, and are (in the case of the United Kingdom) included in the Official List or (in a country

outside the United Kingdom where there is a recognised stock exchange) are officially listed in accordance with provisions corresponding to those generally applicable in EEA states; or

- (ii) admitted to trading on a multilateral trading facility (as defined by Article 4.1.22 of Directive 2014/65/EU) operated by an EEA-regulated recognised stock exchange. A recognised stock exchange (designated as such by HMRC) regulated in an EEA state will be an 'EEA-regulated recognised stock exchange'.

HMRC may designate certain exchanges as recognised stock exchanges. The Irish Stock Exchange trading as Euronext Dublin is a recognised stock exchange, and securities listed on the Global Exchange Market meet the definition of 'listed'. The Luxembourg Stock Exchange is a recognised stock exchange, and securities listed and admitted to trading on the Euro MTF meet the definition of 'listed'. The SIX Swiss Exchange is a recognised stock exchange, and securities listed and maintained on it in accordance with the International Reporting Standard or Swiss Reporting Standard meet the definition of 'listed'.

Provided, therefore, that Securities are and remain so listed, interest on such Securities will be payable without withholding or deduction for or on account of United Kingdom tax whether or not the Issuer carries on a banking business in the United Kingdom and whether or not the interest is paid in the ordinary course of its business.

(c) ***Payments of interest to certain Securityholders***

Interest on Securities may also be paid without withholding or deduction for or on account of United Kingdom tax where, at the time the payment is made, the Issuer reasonably believes that either:

- (i) the person beneficially entitled to the interest payable on such Securities is within the charge to United Kingdom corporation tax as regards the payment of such interest; or
- (ii) the payment is made to one of the classes of exempt bodies or persons set out in section 936 of the Act,

provided that HMRC has not given a direction (in circumstances where it has reasonable grounds to believe that such payment of interest will not be an 'excepted payment' at the time the payment is made) that the interest should be paid under deduction of tax.

(d) ***Securities with a maturity of less than 365 calendar days***

Interest on Securities having a maturity of less than one year from the date of issue and which are not issued under arrangements, the effect of which is to render such Securities part of a borrowing with a total term of a year or more, may also be paid without deduction for or on account of United Kingdom income tax.

(e) ***Payments of interest on derivatives***

Interest on Securities that fall within the derivative contract rules in Part 7 of CTA 2009 may also be paid without withholding or deduction for or on account of United Kingdom Income Tax.

(f) ***Qualifying private placement***

Additionally, certain holders of unlisted Securities might be able to benefit (assuming all the relevant conditions have been met) from the United Kingdom's qualifying private placement regime to ensure that there is no United Kingdom tax withheld on payments of interest on such unlisted Securities.

(g) Other withholdings

In other cases, an amount may have to be withheld from payments of interest on Securities for or on account of United Kingdom income tax at the basic rate, subject to the availability of other exemptions (which will differ from those set out above) or reliefs or to any direction to the contrary from HMRC in respect of such relief as may be available under an applicable double taxation treaty.

In addition, an amount for or on account of United Kingdom income tax at the basic rate may have to be withheld on payments on Securities where such payments do not constitute interest for United Kingdom tax purposes but instead constitute either annual payments or, in the case of Securities which are capable of physical settlement, manufactured payments for United Kingdom tax purposes, in each case subject to the availability of exemptions or reliefs or subject to any direction to the contrary from HMRC in respect of such relief as may be available under an applicable double taxation treaty.

(h) Interpretation

The references to 'interest' above mean 'interest' as understood in United Kingdom tax law and in particular any premium element of the redemption amount of any Securities redeemable at a premium may constitute a payment of interest subject to the withholding tax provisions discussed above. In certain cases, the same could be true for amounts of discount where Securities are issued at a discount. The statements above do not take any account of any different definitions of 'interest' or 'principal' which may prevail under any other law or which may be created by the terms and conditions of the Securities or any related documentation.

2. United Kingdom Stamp Duty and Stamp Duty Reserve Tax ("SDRT")**2.1 Issue**

No UK stamp duty or SDRT should generally be payable on the issue of Securities save that SDRT at 1.5 per cent may be payable on an issue of Securities to a depositary receipts system or a clearance service (or their nominees) where all three of the conditions in (a), (b) and (c) below are met:

- (a) the Securities do not constitute exempt loan capital (see below);
- (b) the Securities are not covered by Article 5(2) of the Capital Duties Directive (Council Directive 2008/7/EC); and
- (c) there is a provision for physical settlement.

Additionally, stamp duty at up to 1.5 per cent may be payable on an issue of Securities outside of a depositary receipts system or a clearance service (or their nominees).

Securities will constitute 'exempt loan capital' if the Securities constitute 'loan capital' (as defined in section 78 Finance Act 1986) and do not carry (and in the case of (ii)-(iv) below have never carried) any one of the following four rights:

- (i) a right for the holder of the securities to opt for conversion into shares or other securities or to acquire shares or other securities, including loan capital of the same description;
- (ii) a right to interest the amount of which exceeds a reasonable commercial return on the nominal amount of the capital;
- (iii) a right to interest the amount of which falls or has fallen to be determined to any extent by reference to the results of, or of any part of, a business or to the value of any property; or

- (iv) a right on repayment to an amount which exceeds the nominal amount of the capital and is not reasonably comparable with what is generally repayable (in respect of a similar nominal amount of capital) under the terms of issue of loan capital listed in the Official List of the London Stock Exchange.

2.2 Transfer of Securities

Transfers of interests in Securities held through a clearance service do not attract UK stamp duty or SDRT provided that no section 97A election has been made.

Where Securities do not comprise exempt loan capital and are not held through a clearance service, then:

- (a) agreements to transfer such Securities may attract SDRT at 0.5 per cent of the chargeable consideration; and
- (b) stamp duty at 0.5 per cent may arise in respect of any document transferring any such Securities.

However, where a liability to stamp duty is paid within six years of a liability to SDRT arising the liability to SDRT will be cancelled or repaid as appropriate.

2.3 Redemption or Settlement of Securities

If the Securities are capable of physical settlement then stamp duty or SDRT at 0.5 per cent may arise on physical settlement of Securities in certain cases. Where such stamp duty or SDRT is payable, it may be charged at the higher rate of 1.5 per cent if settlement is by the transfer of the relevant property to a depositary receipts system or clearance service.

2.4 Clearance services

For these purposes, the clearing systems run by Euroclear Bank and Clearstream Luxembourg constitute a 'clearance service' however the CREST system run by Euroclear UK & Ireland does not.

United States taxation of non-US holders

The following is a summary of certain of the material US federal income tax consequences of the acquisition, ownership and disposition of Securities by a non-US holder that has no connection with the United States other than owning Securities. For purposes of this section, a "**non-US holder**" is a beneficial owner of Securities that is: (i) a non-resident alien individual for US federal income tax purposes; (ii) a foreign corporation for US federal income tax purposes; or (iii) an estate or trust the income of which is not subject to US federal income tax on a net income basis. If you are an investor that is not a non-US holder, you should consult your tax adviser with regard to the US federal income tax treatment of an investment in Securities. In addition, this section does not apply to Securities that have a term of 30 years or more or that have no term.

This summary is based on interpretations of the Internal Revenue Code of 1986, as amended (the "**Code**"), Treasury regulations issued thereunder, and rulings and decisions currently in effect (or in some cases proposed), all of which are subject to change. Any of those changes may be applied retroactively and may adversely affect the US federal income tax consequences described herein. Persons considering the purchase of Securities should consult their own tax advisers concerning the application of US federal income tax laws to their particular situations as well as any consequences of the purchase, beneficial ownership and disposition of Securities arising under the laws of any other taxing jurisdiction.

PROSPECTIVE PURCHASERS OF SECURITIES SHOULD CONSULT THEIR TAX ADVISERS AS TO THE US FEDERAL, STATE, LOCAL, AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF SECURITIES.

US federal tax treatment of non-US holders

In general and subject to the discussion in the following paragraphs, payments on the Securities to a non-US holder that has no connection with the United States other than holding Securities and gain realised on the sale, exchange, redemption or other disposition of the Securities by a non-US holder generally will not be subject to US federal income or withholding tax, provided the non-US holder complies with any applicable tax identification and certification requirements.

It is possible that Securities that do not guarantee a return of principal ("**Non-Principal-Protected Securities**") could be treated as forward or derivative contracts for US federal income tax purposes. The IRS released a notice in 2007 that may affect the taxation of non-US holders of Non-Principal-Protected Securities. According to the notice, the IRS and the Treasury Department are actively considering whether, among other issues, the holder of instruments such as Non-Principal-Protected Securities should be required to accrue ordinary income on a current basis. It is not possible to determine what guidance they will ultimately issue, if any. It is possible, however, that under such guidance, non-US holders of such Securities will ultimately be required to accrue income currently and that non-US holders of such Securities could be subject to withholding tax on deemed income accruals and/or other payments made in respect of such Securities. In addition, alternative treatments of Non-Principal-Protected Securities are possible under US federal income tax law. Under one such alternative characterisation, it is possible that an investor could be treated as owning the Reference Asset(s) of such Securities.

In the case of Securities that are linked to one or more assets characterised as 'US real property interests' (as such term is defined in section 897(c) of the Code), non-US holders of Securities may be subject to special rules governing the ownership and disposition of US real property interests. Prospective non-US holders of Securities should consult their own tax advisers regarding the possible alternative treatments of the Securities.

Under section 871(m) of the Code and regulations thereunder ("**Section 871(m)**"), actual or deemed payments on financial instruments that reference one or more US corporations may be treated as 'dividend equivalent' payments that are subject to US withholding tax at a rate of 30 per cent. Generally, a 'dividend equivalent' is a payment that is directly or indirectly contingent upon a US source dividend or is determined by reference to a US source dividend, including a payment that implicitly takes into account such a dividend. For financial instruments issued on or after 1 January 2017 but prior to 1 January 2021, regulations and guidance under Section 871(m) provide that dividend equivalent payments will be subject to withholding if the instrument has a 'delta' of one with respect to either an underlying US stock or a US stock component of an underlying index or basket. For financial instruments issued on or after 1 January 2021, regulations and guidance under Section 871(m) provide that dividend equivalent payments on (1) a 'simple' financial instrument that has a delta of 0.8 or greater with respect to an underlying US stock or a US stock component of an underlying index or basket and (2) a 'complex' financial instrument that meets the 'substantial equivalence' test with respect to an underlying US stock or a US stock component of an underlying index or basket, will be subject to withholding tax under Section 871(m). An issue of Securities that references an index or basket that is treated as a 'qualified index' will not be subject to withholding under Section 871(m), even if such Securities meet, as applicable, the delta or substantial equivalence test. In general, a qualified index is a diverse, passive, and widely used index that satisfies the technical requirements prescribed by regulations.

The delta of a financial instrument generally is defined as the ratio of the change in the fair market value of the instrument to a small change in the fair market value of the number of shares of the underlying US corporation, determined either as of the pricing or issue date of the instrument, in accordance with applicable regulations. A financial instrument generally will be treated as having a delta of one if it provides for 100 per cent participation in all of the appreciation and depreciation of one or more underlying US stocks. Very broadly, the substantial equivalence test analyses whether a financial instrument has a correlation to the applicable underlying US stock that is at least as great as that of a simple financial instrument with a delta of at least 0.8.

The Pricing Supplement will indicate if the Issuer has determined that the particular issue of Securities is expected to be subject to withholding under Section 871(m). Any determination by the Issuer on the application of Section 871(m) to a particular Security generally is binding on non-US holders, but is not binding on the IRS. The Section 871(m) regulations require complex calculations to be made with

respect to Securities referencing shares of US corporations and their application to a specific issue of Securities may be uncertain. Accordingly, even if the Issuer determines that a Security is not subject to Section 871(m), the IRS could assert that the non-US holder is liable for Section 871(m) tax in respect of such Security, including where the IRS concludes that the delta or substantial equivalence with respect to the Security was determined more than 14 days prior to the Security's issue date.

In addition, a Security may be treated as reissued for purposes of Section 871(m) upon a significant modification of the terms of the Security. In certain circumstances, a rebalancing or adjustment to the components of an underlying index or basket may result in the deemed reissuance of the Security, in particular where the rebalancing or adjustment is made other than pursuant to certain defined rules, or involves the exercise of discretion. In that case, a Security that was not subject to withholding under Section 871(m) at issuance may become subject to withholding at the time of the deemed reissuance. In addition, a Security that in isolation is not subject to Section 871(m) may nonetheless be subject to Section 871(m) if the non-US holder has engaged, or engages, in other transactions in respect of an underlying US stock or component of an underlying index or basket. In such situations, such non-US holders could be subject to Section 871(m) tax even if the Issuer does not withhold in respect of the Security. Further, a non-US holder may be required, including by custodians and other withholding agents with respect to the Security, to make representations regarding the nature of any other positions with respect to US stock directly or indirectly referenced (including components of any index or basket) by such Security. A non-US holder that enters, or has entered, into other transactions in respect of a US stock, component of an underlying index or basket, or the Securities should consult its own tax adviser regarding the application of Section 871(m) to the Securities and such other transactions.

If an issue of Securities is determined to be subject to US withholding tax under Section 871(m), information regarding the amount of each dividend equivalent, the delta of the Securities, the amount of any tax withheld and deposited, the estimated dividend amount (if applicable), and any other information required under Section 871(m), will be provided, communicated, or made available to non-US holders in a manner permitted by applicable regulations. Withholding on payments will be based on actual dividends on the underlying US stock or, if otherwise notified by the Issuer in accordance with applicable regulations, on estimated dividends used in pricing the Securities. Where an issue of Securities that references estimated dividend amounts also provides for any additional payments to reflect actual dividends on the underlying US stock, withholding tax will also apply to any additional payments.

If the Issuer determines that a Security is subject to withholding under Section 871(m), it will withhold tax in respect of the actual (or estimated, as described above) dividends that are paid on the underlying US stock. In addition, US tax may be withheld on any portion of a payment or deemed payment (including, if appropriate, the payment of the purchase price) that is a dividend equivalent. Such withholding may occur at the time a dividend is paid on the relevant US stock (or, in certain cases, at the close of the quarter upon which the dividend is paid). Upon remitting the taxes withheld to the IRS, any increase in value of the relevant asset, index or basket or distributions to a Securityholder in respect of a dividend equivalent will reflect the amount of the dividend net of the withholding described above.

Other than in very limited circumstances described below, the rate of any withholding generally will not be reduced even if the non-US holder is otherwise eligible for a reduction under an applicable treaty, although the non-US holder may be able to claim a refund for any excess amounts withheld by filing a US tax return. However, non-US holders may not receive the necessary information to properly claim a refund for any withholding in excess of the applicable treaty-based amount. In addition, the IRS may not credit a non-US holder with withholding taxes remitted in respect of its Security for purposes of claiming a refund. Finally, a non-US holder's resident tax jurisdiction may not permit the holder to take a credit for US withholding taxes related to the dividend equivalent amount. For certain issues of Securities that are subject to withholding under Section 871(m), if the Issuer determines in its sole discretion that it is able to make payments at a reduced rate of withholding under an applicable treaty, a non-US holder eligible for treaty benefits may be able to claim such a reduced rate. To claim a reduced treaty rate for withholding, a non-US holder generally must provide a valid IRS Form W-8BEN, IRS Form W-8BEN-E, or an acceptable substitute form on which the non-US holder certifies, under penalty of perjury, its status as a non-US person and its entitlement to the lower treaty rate. However, there can be no assurances that the Issuer will be able to make payments on a Security at a reduced rate of withholding, even where a non-US holder furnishes the appropriate certification. Where the Issuer has determined that an issue of Securities is subject to withholding under Section 871(m), the

Pricing Supplement will indicate whether the Issuer intends to withhold at the rate of 30 per cent without regard to any reduced rate that may apply under a treaty or if the rate of withholding tax may be subject to reduction under an applicable treaty. In any case where withholding applies, the Issuer will not pay any additional amounts with respect to amounts withheld. Non-US holders should consult with their tax advisers regarding the application of Section 871(m) to their Securities.

Foreign Account Tax Compliance Withholding

Under FATCA (as defined below) the Issuer (and any intermediary in the chain of payment) may require each holder of a Security to provide certifications and identifying information about itself and certain of its owners. The failure to provide such information, or the failure of certain non-US financial institutions to comply with FATCA, may compel the Issuer (or an intermediary) to withhold a 30 per cent tax on payments to such holders and neither the Issuer nor any other person will pay any additional amounts with respect to such withholding. FATCA withholding on "foreign passthru payments" would begin no earlier than the date that is two years after the date on which final U.S. Treasury regulations defining "foreign passthru payments" are published. US-source payments are currently subject to FATCA withholding. US-source payments generally should be limited to dividend equivalent payments and interests in 'US real property interests' (although there can be no assurance the IRS may not seek to treat other payments that reference US securities as US source income). "FATCA" means sections 1471 through 1474 of the Code, any final current or future regulations or official interpretations thereof, any agreement entered into pursuant to section 1471(b) of the Code, or any US or non-US fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code.

Investors should be aware that the effective date for withholding on "foreign passthru payments" above reflects recently proposed U.S. Treasury regulations ("**Proposed FATCA Regulations**") which delay the effective date for withholding on foreign passthru payments. The Proposed FATCA Regulations also eliminate FATCA withholding on gross proceeds from, or final payments, redemptions, or other principal payments made in respect of, the disposition of an instrument that may produce U.S. source interest or dividends. The discussion above assumes that the Proposed FATCA Regulations will be finalized in their current form.

No Gross Up

The Issuer will not make any additional payments to holders of Securities to compensate them for any taxes withheld in respect of FATCA or any US withholding or other tax, including, without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

French taxation

This overview is based on tax laws and taxation practice, as in effect and applied as at May 2019, and is intended to provide general information only. Tax laws, taxation practices and their interpretation are subject to constant change, and such changes may sometimes have a retroactive effect and may change the conclusions set out in this overview.

Transfer Tax and other taxes

The following may be relevant in connection with Securities which are settled or redeemed by way of physical delivery of French shares (or certain assimilated securities):

- (a) the disposal of French shares for consideration is, in principle, subject to a 0.1 per cent transfer tax (the "**Transfer Tax**"), provided, in the case of shares listed on a recognised stock exchange, that the transfer is evidenced by a written deed or agreement;
- (b) a financial transaction tax (the "**French Financial Transaction Tax**") is imposed, subject to certain exceptions, on certain acquisitions of French shares (or certain assimilated securities) which are listed on a recognised stock exchange, where the relevant issuer's stock market capitalisation exceeds EUR 1 billion (on 1 December of the previous calendar year). The French Financial Transaction Tax rate is 0.3 per cent of the acquisition price of the transaction; and

- (c) if the French Financial Transaction Tax applies to a transaction, an exemption in respect of the Transfer Tax is applicable.

Income tax and withholding tax

Investors in Securities who are French residents for tax purposes or who would hold such Securities through a permanent establishment or fixed base in France should be aware that transactions involving the Securities, including any purchase or disposal of, or other dealings in, the Securities, may have French tax consequences. The tax consequences regarding interest, premium on redemption and capital gains in particular may depend, amongst other things, upon the status of the investor (i.e. legal entities or individuals). Investors in Securities should consult their own advisers about the tax implications of holding Securities and of any transactions involving Securities.

Pursuant to Article 125 A of the French tax code, as amended by the provisions of article 28 of the Finance Bill for 2018, subject to certain limited exceptions, interest and other income received by French resident holders of such Securities treated as debt instruments for French tax purposes, who are individuals and who do not hold their Securities in connection with a business they carry on, is subject to a 30 per cent flat tax, composed of social contributions (CSG, CRDS and other related contributions) at a rate of 17.2 per cent and individual income tax at a rate of 12.8 per cent applicable to interest and other income paid to such holders. If the relevant Paying Agent is established in France, it would generally be up to such Paying Agent to withhold and report such payments (exceptions to the withholding obligation may however apply depending on level of income of the taxpayer) at the latest on the 15th of the month following payment. If the relevant Paying Agent is established outside France, such Paying Agent is in principle not involved in this withholding obligation, unless it is established in an EU or EEA member state and has been expressly appointed by the French taxpayer to do so.

The interest or other income paid must be reported by the individual in his annual tax return to be filed during the following year for final computation of the income tax. If the French taxpayer expressly and irrevocably elects to the progressive individual income tax regime on his whole revenues, the above-mentioned 30 per cent flat tax withheld by the Paying Agent would be regarded as a prepayment and further offset against the individual income tax due by the tax payer, in which case 6.8 per cent of the social contributions will be deductible from the taxable income of the year of their payment.

Italian taxation

Notes

The following is a summary of current Italian law and practice relating to the taxation of Securities that take the form of Notes. The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Offering Circular and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Investors in the Notes are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Notes.

This summary does not describe the tax consequences for an investor with respect to Notes that will be redeemed by physical delivery. This summary does not describe the tax consequences for an investor with respect to Notes that provide payouts linked to the profits of the Issuer, profits of another company in the group or profits of the investment in relation to which they are issued. Investors are advised to consult their own tax advisers concerning the overall tax consequences under Italian tax law, under the tax laws of the country in which they are resident for tax purposes and of any other potentially relevant jurisdiction of acquiring, holding and disposing of Notes and receiving payments of yield, principal and/or other amounts under the Notes, including in particular the effect of any state, regional or local tax laws.

Tax treatment of Notes qualifying as debentures similar to bonds

Legislative Decree No. 239 of 1 April 1996, as subsequently amended ("**Decree 239**"), provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from Notes falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, inter alia, by non-Italian resident issuers.

For these purposes, debentures similar to bonds are defined as debt instruments that incorporate an unconditional obligation to pay, at maturity, an amount not less than their nominal value (whether or not providing for any other periodic payment) and that do not give any right to directly or indirectly participate in the management of the issuer or of the business in relation to which they are issued nor any type of control over the management.

Italian resident investor

Where an Italian resident investor is (i) an individual not engaged in an entrepreneurial activity to which the Notes are connected (unless he has opted for the application of the '*risparmio gestito*' regime where applicable– see 'Capital Gains Tax' below), (ii) a non-commercial partnership pursuant to Article 5 of the Italian Income Consolidated Code ("**TUIR**") (with the exception of general partnership, limited partnership and similar entities), (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation (a "**Non-commercial Resident Investor**") interest, premium and other income relating to the Notes, accrued during the relevant holding period, are subject to a substitute tax, referred to as '*imposta sostitutiva*', levied at the rate of 26 per cent. In the event that the investor described under (i) and (iii) above is engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax and may be deducted from the final income tax due by the relevant investor.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity may be exempt from any income taxation, including the *imposta sostitutiva*, on interest, premium and other income relating to the Securities if the Securities are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements set forth in Article 1, paragraph 100-114 of Law No. 232 of 11 December 2016, as amended ("**Law No. 232**").

Where an Italian resident investor is a company or similar commercial entity pursuant to Article 73 of TUIR or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant investor's income tax return and are therefore subject to general Italian corporate taxation ("**IRES**", generally levied at the rate of 24 per cent) and, in certain circumstances, depending on the 'status' of the investor, also to the regional tax on productive activities ("**IRAP**", generally levied at the rate of 3.90 per cent, but regional surcharges may apply).

If the investor is resident in Italy and is an open-ended or closed-ended investment fund (subject to the regime provided for by Law No. 77 of 23 March 1983, a "**Fund**") or a SICAV, and the Notes are held by an authorised intermediary, interest, premium and other income accrued during the holding period on the Notes will not be subject to *imposta sostitutiva* but must be included in the management result of the Fund or the SICAV. The Fund or SICAV will not be subject to taxation on such result, but a withholding tax at the rate of 26 per cent will be levied on proceeds distributed by the Funds or the SICAV to certain categories of unitholders upon redemption or disposal of the units. The same tax regime applies to payments of interest made to an Italian resident SICAF not mainly investing in real estate assets and governed by Legislative Decree No. 44 of 4 March 2014.

Where an Italian resident investor is a pension fund (subject to the regime provided for by Article 17 of Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent substitute tax applicable to Italian pension funds.

Italian real estate funds created under Article 37 of Italian Legislative Decree No. 58 of 24 February 1998 and Article 14 *bis* of Law No. 86 of 25 January 1994 are not subject to any substitute tax at the

fund level nor to any other income tax in the hands of the fund. A withholding tax may apply in certain circumstances at the rate of 26 per cent on distributions made by real estate investment funds. The same tax regime applies to payments of interest made to an Italian resident SICAF mainly investing in real estate assets and governed by Legislative Decree No. 44 of 4 March 2014.

Pursuant to Decree No. 239, *imposta sostitutiva* is applied by banks, *Società di intermediazione mobiliare* ("**SIMs**"), fiduciary companies, *Società di gestione del risparmio* ("**SGRs**"), stockbrokers and other entities identified by a decree of the Ministry of Economics and Finance (each, an "**Intermediary**").

For the Intermediary to be entitled to apply the *imposta sostitutiva*, it must (i) be (a) resident in Italy or (b) resident outside Italy, with a permanent establishment in Italy or (c) an entity or a company not resident in Italy, acting through a system of centralised administration of securities and directly connected with the Department of Revenue of the Italian Ministry of Finance having appointed an Italian representative for the purposes of Decree 239; and (ii) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to an investor. If interest and other proceeds on the Notes are not collected through an Intermediary or any entity paying interest and as such no *imposta sostitutiva* is levied, the Italian resident beneficial owners listed above under (i) to (iv) will be required to include interest and other proceeds in their yearly income tax return and subject them to a final substitute tax at a rate of 26 per cent.

Non-Italian resident investor

No Italian *imposta sostitutiva* is applied on payments to a non-Italian resident investor of interest or premium relating to the Notes provided that, if the Notes are held in Italy, the non-Italian resident investor declares itself to be a non-Italian resident according to Italian tax regulations.

Capital gains tax

Italian resident investor

Where the Italian resident investor is a Non-commercial Resident Investor, capital gains accrued under the sale or the redemption of the Notes are subject to a 26 per cent substitute tax (*imposta sostitutiva*).

The Italian resident individuals not engaged in an entrepreneurial activity to which the Notes are connected ("**Non-entrepreneurial Investors**") may opt for three different taxation criteria.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for taxation of capital gains realised by Non-entrepreneurial Investors, the *imposta sostitutiva* on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains, net of any offsettable capital loss, realised by Non-entrepreneurial Investors pursuant to all sales or redemptions of the Notes carried out during any given tax year. Non-entrepreneurial Investors must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years. Under Law Decree No. 66/2014 capital losses can be carried forward against capital gains realised as of 1 July 2014 (i) for 48.08 per cent of their amount, if the losses were realised until 31 December 2011; or (ii) for 76.92 per cent of their amount, if the losses were realised between 1 January 2012 and 30 June 2014.

As an alternative to the tax declaration regime, Non-entrepreneurial Investors may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes (the '*risparmio amministrato*' regime provided for by Article 6 of Legislative Decree No. 461 of 21 November 1997 ("**Decree No. 461**"). Such separate taxation of capital gains is allowed subject to (i) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries and (ii) an express valid election for the *risparmio amministrato* regime being punctually made in writing by the relevant investor. The depository is responsible for accounting for *imposta sostitutiva* in respect

of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the investor or using funds provided by the investor for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of the Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under Law Decree No. 66/2014 capital losses can be carried forward against capital gains realised as of 1 July 2014 (i) for 48.08 per cent of their amount, if the losses were realised until 31 December 2011; or (ii) for 76.92 per cent of their amount, if the losses were realised between 1 January 2012 and 30 June 2014. Under the *risparmio amministrato* regime, the investor is not required to declare the capital gains in the annual tax return.

Any capital gains realised or accrued by Non-entrepreneurial Investors who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have validly opted for the so-called *risparmio gestito* regime (regime provided for by Article 7 of Decree No. 461) will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent substitute tax, to be paid by the managing authorised intermediary. Under this *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under Law Decree No. 66/2014, depreciation of the managed assets accrued as of 30 June 2014 and not yet compensated can be carried forward against increase in value of the managed assets accrued as of 1 July 2014 (i) for 48.08 per cent of its amount, if accrued until 31 December 2011; or (ii) for 76.92 per cent of its amount, if the registered between 1 January 2012 and 30 June 2014. Under the *risparmio gestito* regime, the investor is not required to declare the capital gains realised in the annual tax return.

Subject to certain limitations and requirements (including a minimum holding period), capital gains in respect of Securities realised upon sale, transfer or redemption by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant Article 1, paragraph 100 – 114, of Law No. 232.

Where an Italian resident investor is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the Notes are effectively connected, capital gains arising from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant investor's income tax return and are therefore subject to Italian corporate tax and, in certain circumstances, depending on the 'status' of the investor, also form part of the net value of production for IRAP purposes.

Any capital gains realised by an investor which is a Fund or a SICAV will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio. Such result will not be taxed with the Fund or SICAV, but a withholding tax up at the rate of 26 per cent will be levied on proceeds distributed by the Funds or the SICAV to certain categories of unitholders upon redemption or disposal of the units. The same tax regime applies to capital gains realised by an Italian resident SICAF not mainly investing in real estate assets and governed by Legislative Decree No. 44 of 4 March 2014.

Any capital gains realised by an investor which is an Italian pension fund (subject to the regime provided by Article 17 of Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent substitute tax applicable to Italian pension funds.

Any capital gains realised by an Italian real estate fund created under Article 37 of Italian Legislative Decree No. 58 of 24 February 1998 and Article 14 *bis* of Law No. 86 of 25 January 1994 shall not be subject to any substitute tax at the fund level nor to any other income tax in the hands of the fund. A withholding tax may apply in certain circumstances at the rate of 26 per cent on distributions made by real estate investment funds. The same tax regime applies to capital gains realised by an Italian resident SICAF mainly investing in real estate assets and governed by Legislative Decree No. 44 of 4 March 2014.

Non-Italian resident investor

Capital gains realised by a non-Italian resident beneficial owner are not subject to Italian taxation provided that the Notes (i) are transferred on regulated markets, or (ii) if not transferred on regulated markets, are held outside Italy. Moreover, even if the Notes are held in Italy, no imposta sostitutiva applies if the non-Italian resident investor is resident for tax purposes in a country which recognises the Italian tax authorities' right to an adequate exchange of information or in a country which entered into a double taxation treaty with Italy allowing for the taxation of such capital gains only in the residence country of the recipient investor, provided that the relevant procedures and conditions are met.

Tax treatment of Notes qualifying as atypical securities

Notes that cannot be qualified as securitised derivatives or instruments similar to bonds under TUIR could be considered 'atypical' securities pursuant to Article 8 of Law Decree No. 512 of 30 September 1983 as implemented by Law No. 649 of 25 November 1983. In this event, payments relating to Notes may be subject to an Italian withholding tax, levied at the rate of 26 per cent.

The 26 per cent withholding tax mentioned above does not apply to payments made to a non-Italian resident holder of the Notes and to an Italian resident holder of the Notes which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (ii) a commercial partnership, or (iii) a commercial private or public institution.

If the Notes are placed (*collocati*) in Italy, the withholding is levied by the Italian intermediary, appointed by the Issuer, intervening in the collection of the relevant income or in the negotiation or repurchasing of the Notes. If the Notes are not placed (*collocati*) in Italy or in any case where payments on the Notes are not received through an entrusted Italian resident bank or financial intermediary (that is involved in the collection of payments on the Notes, in the repurchase or in the negotiation thereof) and no withholding tax is levied, the individual beneficial owners will be required to declare the payments in their income tax return and subject them to a final substitute tax at a rate of 26 per cent. The Italian individual noteholder may elect instead to pay ordinary personal income tax at the progressive rates applicable to them in respect of the payments; if so, the noteholder should generally benefit from a tax credit for withholding taxes applied outside Italy, if any.

Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent on the value of the inheritance or the gift exceeding EUR 1,000,000;
- (b) transfers in favour of relatives to the fourth degree and relatives-in-law to the third degree are subject to an inheritance and gift tax applied at a rate of 6 per cent on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent inheritance and gift tax on the value of the inheritance or the gift exceeding EUR 100,000; and
- (c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax applies on that part of value that exceeds Euro 1,500,000.

Moreover, an anti-avoidance rule is provided in case of gift of assets, such as the Notes, whose sale for consideration would give rise to capital gains to be subject to the imposta sostitutiva provided for by Decree No. 461, as subsequently amended. In particular, if the donee sells the Notes for consideration within five years from their receipt as a gift, the latter is required to pay the relevant imposta sostitutiva as if the gift had never taken place.

Subject to certain limitations and requirements, transfers of Securities as a result of death (but not as a result of an *inter vivos* gift or other transfers for no consideration) of Italian resident individuals

holding the Securities not in connection with an entrepreneurial activity may be exempt from Italian inheritance tax if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant Article 1, paragraph 100 – 114, of Law No. 232.

Transfer tax

Contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarised deeds are subject to fixed registration tax at a rate of EUR 200; and (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

Stamp duty

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 ("**Decree 201**"), a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries to their clients for the securities deposited therewith. The stamp duty applies at a rate of 0.20 per cent and, for taxpayers other than individuals, cannot exceed EUR14,000. This stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the securities held. In case of reporting periods of less than 12 months, the stamp duty is pro-rated.

It may be understood that the stamp duty applies both to Italian resident and non-Italian resident investors, to the extent that the Notes are held with an Italian-based financial intermediary.

Wealth tax on securities deposited abroad

Pursuant to Article 19(18) of Decree 201, Italian resident individuals holding the securities outside the Italian territory are required to pay an additional tax at a rate of 0.20 per cent for each year.

This tax is calculated on the market value of the Notes at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the state where the financial assets are held (up to an amount equal to the Italian wealth tax due).

Italian Financial Transaction Tax

Law No. 228 of 24 December 2012 (the "**Stability Law**") introduced a fixed levy Italian Financial Transaction Tax ("**Italian FTT**") that applies to all transactions involving equity derivatives which have Italian shares, Italian equity-like instruments or Italian equity-related instruments as their reference asset(s). An equity derivative is subject to the Italian FTT if the underlying or reference value constitutes more than 50 per cent of the market value of Italian shares, Italian equity-like instruments or Italian equity-related instruments. The Italian FTT applies even if the transfer takes place outside Italy and/or any of the parties to the transaction are not resident in Italy. The Italian FTT on derivative trades also applies to transactions in bonds and debt securities which allow the acquisition or the transfer of the financial instruments referred to above and which do not entail an unconditional obligation to pay, at maturity, an amount not lower than their nominal value. The amount of tax due depends on the type of derivative instrument and on the contract's value, but is subject to a maximum of EUR 200. This Italian FTT is reduced to one-fifth of the relevant amount if the transfer takes place on a regulated market or multilateral trading system.

Notes could be included in the scope of application of the FTT if they meet the requirements set out above. On the other hand, Notes falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) are not included in the scope of the FTT.

The Italian FTT on derivatives instruments is due from each party involved in the relevant transaction. The Italian FTT must be paid and accounted for to the Italian tax authorities by any intermediary intervening in any way in the execution of such transactions, e.g. banks, fiduciary companies or investment firms licensed to provide investment services on a professional basis to the public in accordance with Article 18 of Italian Legislative Decree No. 58 of 24 February 1998, including non-Italian resident intermediaries. However, an intermediary is permitted to refrain from executing the relevant transaction until it has received from the relevant person referred to above the amount of Italian FTT due on the transaction. In terms of compliance with the Italian FTT, non-Italian resident

intermediaries may: (i) fulfil all the relevant obligations through their Italian permanent establishment, if any; (ii) appoint an Italian withholding agent as a tax representative; or (iii) identify themselves by filing a request with the Italian Tax Administration for an Italian tax code. In the event that several financial intermediaries are involved, the obligation to make payment of the Italian FTT to the Italian tax authorities falls on the party that directly receives the transaction order from the parties. If no intermediary is involved in a transaction, the relevant parties referred to above must pay the Italian FTT due directly to the Italian tax authorities.

If a derivative is equity-settled, the consequent share transaction is ordinarily subject to the Italian FTT on equity transactions (i.e. a stamp duty-like Italian FTT of 0.2 per cent on the transfer of shares and other equity-like instruments issued by Italian resident entities).

Some exemptions and exclusions may apply.

Tax monitoring obligations

Italian resident individuals (and certain other entities) are required to report in their yearly income tax return, according to Law Decree No. 167 of 28 June 1990, converted into law by Law No. 227 of 4 August 1990, for tax monitoring purposes; the amount of Notes held abroad (or beneficially owned abroad under Italian anti-money laundering provisions). This also applies in the case that at the end of the tax year, Notes are no longer held by the above Italian resident individuals and entities.

However, the above reporting obligation is not required with respect to Notes deposited for management with qualified Italian financial intermediaries and with respect to contracts entered into through their intervention, provided that the same intermediaries apply a withholding tax or imposta sostitutiva on any income derived from the Notes.

Certificates and Warrants

The following is a summary of current Italian law and practice relating to the taxation of Securities that take the form of Certificates or Warrants. The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Offering Circular and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of Certificates or Warrants and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Investors in the Certificates and Warrants are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of Certificates or Warrants.

This summary does not describe the tax consequences for an investor with respect to Certificates and Warrants that will be redeemed by physical delivery. This summary does not describe the tax consequences for an investor with respect to Certificates and Warrants that provide payouts linked to the profits of the Issuer, profits of another company in the group or profits of the investment in relation to which they are issued. Investors are advised to consult their own tax advisers concerning the overall tax consequences under Italian tax law, under the tax laws of the country in which they are resident for tax purposes and of any other potentially relevant jurisdiction of acquiring, holding and disposing of Certificates and Warrants and receiving payments of yield, principal and/or other amounts under Certificates and Warrants, including in particular the effect of any state, regional or local tax laws.

Securitised derivatives

Pursuant to the generally followed interpretation, if the Certificates or Warrants qualify as securitised derivatives, where the Italian resident investor is (i) an individual not engaged in an entrepreneurial activity to which the Certificates or Warrants are connected, (ii) a non-commercial partnership, pursuant to Article 5 of TUIR (with the exception of general partnership, limited partnership and similar entities) (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation (a "**Non-commercial Resident Investor**"), capital gains realised under the sale or the exercise of Certificates or Warrants are subject to a 26 per cent substitute tax

(imposta sostitutiva) (Article 67 of Presidential Decree No. 917 of 22 December 1986 (the "**TUIR**") and Legislative Decree No. 461 of 21 November 1997 ("**Decree No. 461**")).

The Italian resident individuals not engaged in an entrepreneurial activity to which the Certificates or Warrants are connected ("**Non-entrepreneurial Investors**") may opt for three different taxation criteria.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for taxation of capital gains realised by Non-entrepreneurial Investors, the imposta sostitutiva on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains, net of any offsettable capital loss, realised by Non-entrepreneurial Investors pursuant to all sales or redemptions of Certificates or Warrants carried out during any given tax year. Non-entrepreneurial Investors must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years. Under Law Decree No. 66/2014 capital losses can be carried forward against capital gains realised as of 1 July 2014 (i) for 48.08 per cent of their amount, if the losses were realised until 31 December 2011; or (ii) for 76.92 per cent of their amount, if the losses were realised between 1 January 2012 and 30 June 2014.

As an alternative to the tax declaration regime, Non-entrepreneurial Investors may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of Certificates or Warrants (the '*risparmio amministrato*' regime provided for by Article 6 of Decree No. 461). Such separate taxation of capital gains is allowed subject to (i) the Certificates or Warrants being deposited with Italian banks, SIMs or certain authorised financial intermediaries and (ii) an express valid election for the *risparmio amministrato* regime being punctually made in writing by the relevant investor. The depository is responsible for accounting for imposta sostitutiva in respect of capital gains realised on each sale or redemption of Certificates or Warrants (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the investor or using funds provided by the investor for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of Certificates or Warrants results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under Law Decree No. 66/2014 capital losses can be carried forward against capital gains realised as of 1 July 2014 (i) for 48.08 per cent of their amount, if the losses were realised until 31 December 2011; or (ii) for 76.92 per cent of their amount, if the losses were realised between 1 January 2012 and 30 June 2014. Under the *risparmio amministrato* regime, the investor is not required to declare the capital gains in the annual tax return.

Any capital gains realised or accrued by Non-entrepreneurial Investors who have entrusted the management of their financial assets, including the Certificates or Warrants, to an authorised intermediary and have validly opted for the so-called '*risparmio gestito*' regime (regime provided for by Article 7 of Decree No. 461) will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent substitute tax, to be paid by the managing authorised intermediary. Under this *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under Law Decree No. 66/2014, depreciation of the managed assets accrued as of 30 June 2014 and not yet compensated can be carried forward against increase in value of the managed assets accrued as of 1 July 2014 (i) for 48.08 per cent of its amount, if accrued until 31 December 2011; or (ii) for 76.92 per cent of its amount, if the registered between 1 January 2012 and 30 June 2014. Under the *risparmio gestito* regime, the investor is not required to declare the capital gains realised in the annual tax return.

Subject to certain limitations and requirements (including a minimum holding period), capital gains in respect of Securities realised upon sale, transfer or redemption by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant Article 1, paragraph 100 – 114, of Law No. 232.

Where an Italian resident investor is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the Certificates or Warrants are effectively connected, capital gains arising from Certificates or Warrants will not be subject to *imposta sostitutiva*, but must be included in the relevant investor's income tax return and are therefore subject to Italian corporate tax and, in certain circumstances, depending on the 'status' of the investor, also form part of the net value of production for IRAP purposes.

Any capital gains realised by an investor which is an open-ended or close-ended investment fund (subject to the tax regime provided by Law No. 77 of 23 March 1983, a "**Fund**") or a SICAV will be included in the result of the relevant portfolio accrued and will not be subject to substitutive tax nor to any other income tax in the hands of the Fund or the SICAV, but a withholding tax at the rate of 26 per cent will be levied on proceeds distributed by the Funds or the SICAV to certain categories of unitholders upon redemption or disposal of the units. The same tax regime applies to capital gains realised by an Italian resident SICAF not mainly investing in real estate assets and governed by Legislative Decree No. 44 of 4 March 2014.

Any capital gains realised by an investor which is an Italian pension fund (subject to the regime provided by Article 17 of Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent substitute tax applicable to Italian pension funds.

Any capital gains realised by an Italian real estate fund created under Article 37 of Italian Legislative Decree No. 58 of 24 February 1998 and Article 14 bis of Law No. 86 of 25 January 1994, shall not be subject to any substitute tax at the fund level nor to any other income tax in the hands of the fund. A withholding tax may apply in certain circumstances at the rate of 26 per cent on distributions made by real estate investment funds. The same tax regime applies to capital gains realised by an Italian resident SICAF mainly investing in real estate assets and governed by Legislative Decree No. 44 of 4 March 2014.

Capital gains realised by a non-Italian resident beneficial owner are not subject to Italian taxation provided that Certificates or Warrants (i) are transferred on regulated markets, or (ii) if not transferred on regulated markets, are held outside of Italy. Moreover, even if the Certificates or Warrants are held in Italy, no *imposta sostitutiva* applies if the non-Italian resident investor is resident for tax purposes in a country which recognises the Italian tax authorities' right to an adequate exchange of information or in a country which entered into a double taxation treaty with Italy allowing for the taxation of such capital gains only in the residence country of the recipient investor, provided that the relevant procedures and conditions are met.

In accordance with a different interpretation of current tax law, it is possible that Certificates and Warrants would be considered as '*atypical securities*' pursuant to Article 8 of Law Decree No. 512 of 30 September 1983 as implemented by Law No. 649 of 25 November 1983. In this event, payments relating to Certificates or Warrants may be subject to the tax treatment applicable to the '*atypical securities*' as indicated below.

Atypical securities

Payments relating to atypical securities may be subject to an Italian withholding tax levied at the rate of 26 per cent.

The 26 per cent withholding tax mentioned above does not apply to payments made to a non-Italian resident holder of the Certificates or Warrants and to an Italian resident holder of the Certificates or Warrants which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (ii) a commercial partnership, or (iii) a commercial private or public institution.

If the Securities are placed (*collocati*) in Italy, the withholding is levied by the Italian intermediary, appointed by the Issuer, intervening in the collection of the relevant income or in the negotiation or repurchasing of the Certificates or Warrants. If the Securities are not placed (*collocati*) in Italy or in any case where payments on the Securities are not received through an entrusted Italian resident bank or financial intermediary (that is involved in the collection of payments on the Notes, in the repurchase or in the negotiation thereof) and no withholding tax is levied, the individual beneficial owners will be

required to declare the payments in their income tax return and subject them to a final substitute tax at a rate of 26 per cent. The Italian individual noteholder may elect instead to pay ordinary personal income tax at the progressive rates applicable to them in respect of the payments; if so, the noteholder should generally benefit from a tax credit for withholding taxes applied outside Italy, if any.

Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent on the value of the inheritance or the gift exceeding EUR 1,000,000;
- (b) transfers in favour of relatives to the fourth degree and relatives-in-law to the third degree are subject to an inheritance and gift tax applied at a rate of 6 per cent on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent inheritance and gift tax on the value of the inheritance or the gift exceeding EUR 100,000; and
- (c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax applies on that part of value that exceeds Euro 1,500,000.

Moreover, an anti-avoidance rule is provided in case of gift of assets, such as the Securities, whose sale for consideration would give rise to capital gains to be subject to the *imposta sostitutiva* provided for by Decree No. 461, as subsequently amended. In particular, if the donee sells the Notes for consideration within five years from their receipt as a gift, the latter is required to pay the relevant *imposta sostitutiva* as if the gift had never taken place.

Subject to certain limitations and requirements, transfers of Securities as a result of death (but not as a result of an *inter vivos* gift or other transfers for no consideration) of Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may be exempt from Italian inheritance tax if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant Article 1, paragraph 100 – 114, of Law No. 232.

Transfer tax

Contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarised deeds are subject to fixed registration tax at rate of EUR 200; and (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

Stamp duty

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 ("**Decree 201**"), a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries to their clients for the securities deposited therewith. The stamp duty applies at a rate of 0.20 per cent and, for taxpayers other than an individual, it cannot exceed EUR14,000. This stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the securities held. In case of reporting periods of less than 12 months, the stamp duty is pro-rated.

It may be understood that the stamp duty applies both to Italian resident and non-Italian resident investors, to the extent that the Notes are held with an Italian-based financial intermediary.

Wealth tax on securities deposited abroad

Pursuant to Article 19(18) of Decree 201, Italian resident individuals holding the securities outside the Italian territory are required to pay an additional tax at a rate of 0.20 per cent for each year.

This tax is calculated on the market value of the Certificates or Warrants at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the state where the financial assets are held (up to an amount equal to the Italian wealth tax due).

Italian financial transaction tax depending on the features of the Certificates and Warrants

Pursuant to Article 1(491 and followings) of Law No. 228 of 24 December 2012, Italian FTT applies to (i) transfers of property rights on shares and other participating securities issued by Italian resident companies; (ii) transfer of property rights on financial instruments representing these shares and/or participating securities, whether issued by Italian resident issuers or not (together the "**Relevant Instruments**"); and (iii) transactions on derivatives on the Relevant Instruments (i.e. having an underlying mainly represented by one or more of the Relevant Instruments or whose value is mainly linked to the Relevant Instruments) whether issued by Italian resident issuers or not.

Securities could be included in the scope of application of the FTT if they meet the requirements set out above. On the other hand, Securities falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) are not included in the scope of the FTT.

With specific reference to the transactions on securitised derivatives on the Relevant Instruments (e.g. warrants, covered warrants and certificates), the Italian FTT is due, regardless of the tax residence of the parties and/or where the transaction is executed. The Italian FTT is levied at a fixed amount that varies depending on the features of the instruments and the notional value of the transaction in the range of EUR 0.01875 and EUR 200 per transaction. In the case of physical settlement, the Italian FTT is also due upon transfer of ownership rights on the underlying Relevant Instruments. A reduced Italian FTT (one-fifth of the standard rate) is provided for transactions executed on regulated markets or multilateral trading facilities.

The Italian FTT on derivatives is due by each of the parties to the transactions. The Italian FTT is not applied where one of the parties to the transaction is the European Union, the BCE, central banks of the EU member states, foreign Central Banks or entities which manage the official reserves of a foreign state, or international bodies or entities set up in accordance with international agreements which have entered into force in Italy. Further specific exemptions exist, inter alia, for: (i) subjects who carry on market-making activities; (ii) mandatory social security entities and pension funds set up according to Legislative Decree No. 252 of 5 December 2005; and (iii) entities merely interposed in the execution of a transaction.

The Italian FTT shall be levied, and subsequently paid, to the Italian Revenue by the subject (generally a financial intermediary) that is involved, in any way, in the execution of the transaction. If more than one subject is involved in the execution of the transaction, the Italian FTT is payable by the subject who receives the order of execution by the purchaser of the Relevant Instruments or by the ultimate counterparty. Subjects not resident in Italy can appoint an Italian representative for the purposes of the Italian FTT. If no other subject is involved in the execution of the transaction, the Italian FTT must be paid by each relevant party to the transaction.

Tax monitoring obligations

Italian resident individuals (and certain other entities) are required to report in their yearly income tax return, according to Law Decree No. 167 of 28 June 1990, converted into law by Law No. 227 of 4 August 1990, for tax monitoring purposes, the amount of Securities held abroad (or beneficially owned abroad under Italian anti-money laundering provisions). This also applies in the case that at the end of the tax year, Securities are no longer held by the above Italian resident individuals and entities.

However, the above reporting obligation is not required with respect to Securities deposited for management with qualified Italian financial intermediaries and with respect to contracts entered into through their intervention, provided that the same intermediaries apply a withholding tax or imposta sostitutiva on any income derived from the Securities.

Swiss taxation

The following is an overview only of the Issuer's understanding of current law and practice in Switzerland relating to the taxation of the Securities issued pursuant to the Programme. Because this overview does not address all tax considerations under Swiss law and as the specific tax situation of an investor cannot be considered in this context, investors are recommended to consult their personal tax advisers as to the tax consequences of the purchase, ownership, sale or redemption of and the income derived from the Securities issued pursuant to the Programme including, in particular, the effect of tax laws of any other jurisdiction.

The Swiss Federal Tax Administration has issued on 7 February 2007 a Circular Letter No. 15 regarding Certificates and Derivative Financial Instruments subject to Direct Federal Tax, Withholding Tax and Stamp Duty ("**Circular Letter No. 15**"). The Notes issued pursuant to the Programme will be taxed in accordance with Circular Letter No. 15 and its appendices. Depending on the qualification of the relevant Security by the competent Swiss tax authorities the taxation of each Security may be different.

Income tax

Securities are held as private assets (Privatvermögen) by investors resident in Switzerland

Pursuant to the principles of Swiss income taxation, capital gains are in principle Swiss personal income tax exempt for (i) federal direct tax purposes if realised upon a disposal or exchange of movable and immovable private assets and for (ii) cantonal/municipal direct tax purposes if realised upon a disposal or exchange of movable private assets whereas investment income (such as, but not limited to, interest, dividends, etc.) deriving from private assets is subject to Swiss personal income tax. However, any capital losses sustained in relation to private assets are not tax deductible. Hence, (i) capital gains realised upon a sale or redemption of the Securities or (ii) income derived from the Securities stemming from capital gains are in principle Swiss personal income tax exempt for an investor resident in Switzerland holding the Securities as private assets whereas investment income deriving from the Securities is in principle subject to Swiss personal income tax.

Securities are held as business assets (Geschäftsvermögen) by investors resident in Switzerland

Pursuant to the principles of Swiss income taxation, capital gains realised upon disposal, exchange or re-evaluation of business assets are in general subject to either (i) Swiss personal income tax with respect to individuals or (ii) Swiss corporate income tax with respect to corporations in the same manner as any other commercial or investment income. This applies to both movable and immovable assets. However, as capital gains in relation to business assets are in principle fully taxable, it follows that capital loss in relation to business assets is tax deductible. Hence, (i) capital gains realised upon a sale, exchange, redemption or re-evaluation of the Securities or (ii) income derived from the Securities, irrespective of whether such income stems from investment income or capital gains, are in principle subject to either Swiss personal income tax with respect to an individual investor resident in Switzerland holding the Securities as business assets or to Swiss corporate income tax with respect to a corporate investor resident in Switzerland.

Withholding tax

The Swiss federal withholding tax is in principle levied on income (such as, but not limited to, interest, pensions, profit distributions, etc.) from, amongst others, bonds and other similar negotiable debt instruments issued by a Swiss tax resident ('Inländer'), distributions from Swiss tax resident corporations, interest on deposits with Swiss banks as well as distributions of or in connection with Swiss tax resident collective investment schemes. For Swiss federal withholding tax purposes, an individual or corporation qualifies as a Swiss tax resident (Inländer) being subject to withholding taxation if it (i) is resident in Switzerland, (ii) has its permanent abode in Switzerland, (iii) is a company incorporated under Swiss law having its statutory seat in Switzerland, (iv) is a company incorporated under foreign law but with a registered office in Switzerland, or (v) is a company incorporated under foreign law but is managed and conducts business activities in Switzerland. Hence, as long as the Securities are not issued by an issuer qualifying as a Swiss tax resident for the purposes of the Swiss withholding tax, income derived from the Notes is in principle not subject to Swiss withholding tax.

Securities transfer tax

Swiss securities transfer tax is levied on the transfer of ownership against consideration of certain taxable securities (including, but not limited to, bonds) if a Swiss securities dealer is involved in the transaction. Hence, secondary market transactions in the Securities are subject to Swiss securities transfer tax, calculated on the purchase price or sales proceed, if the Securities are qualified as taxable securities, provided that a Swiss securities dealer is involved in the transaction and no exemption applies.

Automatic Exchange of Information in Tax Matters

On 19 November 2014, Switzerland signed the Multilateral Competent Authority Agreement (the "MCAA"). The MCAA is based on article 6 of the OECD/Council of Europe administrative assistance convention and is intended to ensure the uniform implementation of Automatic Exchange of Information (the "AEOI"). The Federal Act on the International Automatic Exchange of Information in Tax Matters (the "AEOI Act") entered into force on 1 January 2017. The AEOI Act is the legal basis for the implementation of the AEOI standard in Switzerland.

The AEOI is being introduced in Switzerland through bilateral agreements or multilateral agreements. The agreements have, and will be, concluded on the basis of guaranteed reciprocity, compliance with the principle of speciality (i.e. the information exchanged may only be used to assess and levy taxes (and for criminal tax proceedings)) and adequate data protection.

Switzerland has concluded a multilateral AEOI agreement with the EU (replacing the EU Savings Tax Directive) and has concluded bilateral AEOI agreements with several non-EU countries.

Based on such multilateral agreements and bilateral agreements and the implementing laws of Switzerland, Switzerland has begun or will begin to collect data in respect of financial assets, including, as the case may be, Securities, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in a EU member state or in a treaty state from, depending on the effectiveness date of the agreement, 2017 or 2018, as the case may be, and has begun or will begin to exchange it from 2018 or 2019.

During its meeting on 7 December 2018, the Federal Council initiated the consultation on the introduction of the AEOI with 18 further states and territories. The implementation of the AEOI is planned for 1 January 2020, and the first exchange of data should take place in 2021.

Securities issued in bearer form for US tax purposes ("**Bearer Instruments**") may not be offered, sold or delivered within the United States or its possessions or to a United States person except as permitted under US Treasury Regulation section 1.163-5(c)(2)(i)(D) (the "**D Rules**").

Each of the Issuer and the Manager has represented and agreed (and each additional Manager named in a set of Pricing Supplement will be required to represent and agree) that in addition to the relevant US Securities Selling Restrictions set out below:

- (a) except to the extent permitted under the D Rules, (x) it has not offered or sold, and during the restricted period it will not offer or sell, Bearer Instruments to a person who is within the United States or its possessions or to a United States person and (y) such Manager has not

delivered and agrees that it will not deliver within the United States or its possessions definitive Bearer Instruments that will be sold during the restricted period;

- (b) it has and agrees that throughout the restricted period it will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Bearer Instruments are aware that Bearer Instruments may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person (except to the extent permitted under the D Rules);
- (c) if it is a United States person, it is acquiring the Bearer Instruments for purposes of resale in connection with their original issuance, and, if it retains Bearer Instruments for its own account, it will do so in accordance with the requirements of the D Rules;
- (d) with respect to each Affiliate or distributor that acquires Bearer Instruments from a Manager for the purpose of offering or selling such Bearer Instruments during the restricted period, the Manager either repeats and confirms the representations and agreements contained in sub-clauses (a), (b) and (c) above on such Affiliate's or distributor's behalf or agrees that it will obtain from such Affiliate or distributor for the benefit of each Issuer and Manager the representations and agreements contained in such sub-clauses; and
- (e) it has not entered into and agrees that it will not enter into any written contract (other than confirmation or other notice of the transaction) pursuant to which any other party to the contract (other than one of its Affiliates or another Manager) has offered or sold, or during the restricted period will offer or sell, any Bearer Instruments except where pursuant to the contract the relevant Manager has obtained or will obtain from that party, for the benefit of each Issuer and Manager, the representations contained in, and that party's agreement to comply with, the provisions of sub-clauses (a), (b), (c) and (d).

In addition, to the extent that the Pricing Supplement relating to Bearer Instruments specifies that the Securities are subject to US Treasury Regulation section 1.163-5(c)(2)(i)(C) (the "**C Rules**"), the Bearer Instruments are subject to US tax law requirements and may not be offered, sold or delivered within the United States or its possessions. Each Manager has represented and agreed (and each additional Manager named in a set of Pricing Supplement will be required to represent and agree) that it will not offer, sell or deliver any Bearer Instruments within the United States.

Terms used in this section shall have the meanings given to them by the Code and the regulations thereunder, including the D Rules.

U.S. persons

The Issuer makes no representation regarding the characterisation of the Securities for US federal income tax purposes. The Securities may not be a suitable investment for U.S. persons and other persons subject to net income taxation in the United States.

US Securities selling restrictions

Notes and Certificates

The Notes, the Certificates and, as applicable, the Entitlements have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons, except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. Trading in the Securities has not been approved by the US Commodities Futures Trading Commission under the Commodity Exchange Act and the rules and regulations promulgated thereunder. Terms used in this section (US Securities selling restrictions) shall, unless the context otherwise requires, have the meanings given to them by Regulation S.

Each Manager has represented and agreed (and each further Manager named in the Pricing Supplements will be required to represent and agree) that it has not and will not offer or sell Notes or Certificates (or Entitlements, if applicable) (i) as part of their distribution at any time or (ii) otherwise until 40 calendar days after the completion of the distribution of an identifiable tranche of which such Notes or Certificates (or Entitlements, if applicable) are part, as determined and certified to the Agent

by such Manager (in the case of a non-syndicated issue) or the relevant lead Manager (in the case of a syndicated issue), within the United States or to, or for the account or benefit of, U.S. persons, except, in certain cases, to QIBs in reliance on Rule 144A, and it will have sent to each Manager to which it sells Notes or Certificates (or Entitlements, if applicable) during the Distribution Compliance Period (other than in resales to QIBs pursuant to Rule 144A) a confirmation or other notice setting out the restrictions on offers and sales of the Notes or Certificates (or Entitlements, if applicable) within the United States or to, or for the account or benefit of, U.S. persons. Terms used in the preceding sentence have the meanings given to them by Regulation S. None of such Manager, its Affiliates, or any persons acting on its or their behalf, engaged or will engage in any directed selling efforts (as defined in Regulation S) with respect to the Notes or Certificates (or Entitlements, if applicable), and such Manager, its Affiliates and all persons acting on its or their behalf have complied and will comply with any applicable offering restrictions requirement of Regulation S.

The Notes and Certificates are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S. The Master Subscription Agreement provides that a Manager may directly or through its US broker-dealer Affiliates arrange for the offer and resale of Registered Securities within the United States to QIBs only in reliance on Rule 144A.

In addition, until 40 calendar days after the completion of the distribution of any identifiable tranche of which such Notes or Certificates (or Entitlements, if applicable) are part, any offer or sale of such Notes or Certificates (or Entitlements, if applicable) within the United States by any dealer (whether or not participating in the offering of such tranche of Notes or Certificates (or Entitlements, if applicable)) may violate the registration requirements of the Securities Act.

The Offering Circular has been prepared by the Issuer for use in connection with the offer and sale of Securities outside the United States and for the resale of the Registered Securities in the United States. The Issuer and the Managers reserve the right to reject any offer to purchase the Securities, in whole or in part, for any reason. The Offering Circular does not constitute an offer to any person in the United States other than any QIB to whom an offer has been made directly by a Manager or its US broker-dealer Affiliate or to any U.S. person other than such QIB. Distribution of the Offering Circular by any non-U.S. person outside the United States or by any QIB in the United States to any U.S. person or to any other person within the United States, other than any QIB and those persons, if any, retained to advise such non-U.S. person or QIB with respect thereto, is unauthorised, and any disclosure without the prior written consent of the Issuer of any of its contents to any U.S. person or other person within the United States, other than any QIB and those persons, if any, retained to advise such non-U.S. person or QIB, is prohibited.

Each issue of Notes or Certificates (or Entitlements, if applicable) shall be subject to such additional US selling restrictions as the Issuer and the relevant Manager may agree as a term of the issue and purchase of such Notes or Certificates, which additional selling restrictions shall be set out in the Pricing Supplement.

Warrants and Exercisable Certificates (other than Warrants or Exercisable Certificates to be sold within the United States pursuant to Rule 144A)

No Warrants or Exercisable Certificates of any Series have been or will be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States and trading in the Securities has not been approved by the US Commodity Futures Trading Commission under the US Commodity Exchange Act of 1936, as amended (the "**Commodity Exchange Act**"). The Warrants and/or Exercisable Certificates are only being offered and sold pursuant to Regulation S. The Warrants or Exercisable Certificates of any Series, or interests therein, may not at any time be offered, sold, resold, traded, pledged, exercised, redeemed, transferred or delivered, directly or indirectly, in or into the United States to, or for the account or benefit of, any U.S. person. Terms used in the preceding sentence have the meanings given to them by Regulation S. Consequently, any offer, sale, resale, trade, pledge, exercise, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. person will not be recognised.

Each Manager has represented and agreed (and each further Manager named in the Pricing Supplements will be required to represent and agree) that it has not and will not offer or sell Warrants or Exercisable Certificates (i) as part of their distribution at any time or (ii) otherwise until 40 calendar

days after the completion of the distribution of an identifiable tranche of which such Warrants or Exercisable Certificates are part, as determined and certified to the Agent by such Manager (in the case of a non-syndicated issue) or the relevant lead Manager (in the case of a syndicated issue), within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each Manager to which it sells Warrants or Exercisable Certificates during the Distribution Compliance Period a confirmation or other notice setting out the restrictions on offers and sales of the Warrants and Exercisable Certificates within the United States or to, or for the account or benefit of, U.S. persons. Terms used in the preceding sentence have the meanings given to them by Regulation S. None of such Manager, its affiliates, or any persons acting on its or their behalf, has engaged or will engage in any directed selling efforts (as defined in Regulation S) with respect to the Warrants and Exercisable Certificates, and such Manager, its affiliates and all persons acting on its or their behalf have complied and will comply with any applicable offering restrictions requirement of Regulation S.

Uruguay

The sale of the Securities qualifies as a private placement pursuant to section 2 of Uruguayan law 18.627. Each distributor of the Securities represents and agrees that it has not offered or sold, and will not offer or sell, any Securities to the public in Uruguay, except in circumstances which do not constitute a public offering or distribution under Uruguayan laws and regulations. The Securities are not and will not be registered with the Central Bank of Uruguay to be publicly offered in Uruguay.

In the case of funds: The Securities correspond to investment funds that are not investment funds regulated by Uruguayan law 16,774 dated 27 September 1996, as amended.

Venezuela

Pursuant to the Venezuelan Securities Market Act, no public offering of securities can be made in the country without the prior authorisation from, and registration with, the National Securities Superintendency (*Superintendencia Nacional de Valores*). There is no such authorisation or registration with regards to this document and there is no intention to make a public offering of securities in Venezuela.

General

These selling restrictions may be modified by the agreement of the Issuer and the relevant Manager, including following a change in a relevant law, regulation or directive. Any such modification will be set out in the Pricing Supplement issued in respect of the issue of Securities to which it relates, in an applicable Relevant Annex(es) or in a supplement to this Offering Circular.

No action has been taken in any jurisdiction that would permit a public offering of any of the Securities, or possession or distribution of the Offering Circular or any other offering material or any Pricing Supplement, in any country or jurisdiction where action for that purpose is required.

Each Manager has agreed that it will comply with all relevant laws, regulations and directives, and obtain all relevant consents, approvals or permissions, in each jurisdiction in which it purchases, offers, sells or delivers Securities or has in its possession or distributes the Offering Circular, any other offering material or any Pricing Supplement, and neither the Issuer nor any Manager shall have responsibility therefor.

Benefit plan investor selling restrictions

Unless the Issuer provides otherwise in the Pricing Supplement, the Securities and any beneficial interest therein may not be sold or transferred to (i) any employee benefit plan, as defined in Section 3(3) of the US Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), that is subject to Part 4 of Subtitle B of Title I of ERISA, (ii) any plan, as defined in Section 4975(e)(1) of the Code, that is subject to Section 4975 of the Code, (iii) any governmental plan (as defined in Section 3(32) of ERISA), church plan (as defined in Section 3(33) of ERISA) or non-U.S. plan (as described in Section 4(b)(4) of ERISA) that is subject to any law, rule or regulation that is substantially similar to Part 4 of Subtitle B of Title I of ERISA or Section 4975 of the Code ("**Similar Law**"), or (iv) any entity the underlying assets of which are treated as assets of a plan described in (i), (ii) or (iii) for purposes of Part 4 of Subtitle B of Title I of ERISA, Section 4975 of the Code or any Similar Law (each of (i), (ii) (iii) and (iv) a "**Benefit Plan Investor**"), or to any person acting on behalf of or

investing the assets of a Benefit Plan Investor. Each person that acquires Securities or any beneficial interest therein shall, by its acquisition thereof, be deemed to have continuously represented, warranted and covenanted throughout the period it holds the Securities or beneficial interest that it is not, and is not acting on behalf of or investing the assets of, a Benefit Plan Investor.

If, in respect of any particular issue of Securities, there is a particular identified use of proceeds, this will be stated in the Pricing Supplement.

Offering Circular

This Offering Circular has been prepared on the basis that any offer of Securities in a Relevant Member State will be made pursuant to an exemption under the Prospectus Directive, as implemented in the Relevant Member State, from the requirement to publish a prospectus for offers of the relevant securities.

Accordingly, any person making or intending to make an offer in that Relevant Member State of Securities which are the subject of an offering contemplated in this Offering Circular as completed by the Pricing Supplement in relation to the offer of those Securities may only do so in circumstances in which no obligation arises to publish a prospectus pursuant to Article 3 of the Prospectus Directive. Barclays Bank PLC has not authorised and will not authorise the making of any offer of Securities in circumstances in which an obligation arises for Barclays Bank PLC to publish a prospectus in respect of such offer.
