The Issuer has undertaken with the Dealers to supplement this Prospectus in accordance with Article 13 of the Luxembourg Act or publish a new Prospectus in the event of any significant new factor, material mistake or inaccuracy relating to the information included in this Prospectus in respect of Notes issued on the basis of this Prospectus which is capable of affecting the assessment of the Notes and which arises or is noted between the time when this Prospectus has been approved and the closing of any tranche of Notes offered to the public or, as the case may be, when trading of any tranche of Notes on a regulated market begins in respect of Notes issued on the basis of this Prospectus.

No person has been authorised to give any information which is not contained in or not consistent with this Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuer or any other information in the public domain and, if given or made, such information must not be relied upon as having been authorised by the Issuer, the Dealers or any of them.

Neither any Arranger nor any Dealer nor the Fiscal Agent nor any Paying Agent nor any other person mentioned in this Prospectus, excluding the Issuer, is responsible for the information contained in this Prospectus or any supplement hereto, or any Final Terms or any document incorporated herein by reference, and accordingly, and to the extent permitted by the laws of any relevant jurisdiction, none of these persons accepts any responsibility for the accuracy and completeness of the information contained in any of these documents.

The distribution of this Prospectus, any supplement thereto and any Final Terms and the offering, sale and delivery of Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Prospectus or any Final Terms come are required to inform themselves about and observe any such restrictions. For a description of the restrictions applicable in the United States of America, the United Kingdom and Japan; see "*Selling Restrictions*". In particular, the Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), and include Notes in bearer form that are subject to tax law requirements of the United States of America; subject to certain exceptions, Notes may not be offered, sold or delivered within the United States of America or to United States persons.

The language of this Prospectus and the Terms and Conditions is English.

This Prospectus may only be used for the purpose for which it has been published.

This Prospectus and any Final Terms may not be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.

This Prospectus, any supplement thereto and any Final Terms do not constitute an offer or an invitation to subscribe for or purchase any Notes.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms in respect of any Notes will include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**Distributor**") should take into consideration the target market assessment; however, a Distributor subject to the Markets in Financial Instruments Directive 2014/65/EU, as amended ("**MiFID II**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

PRIIPs / IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms in respect of any Notes include a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2016/97/EU as amended (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently, no key information document required by Regulation (EU) No 1286/2014 as amended or superseded (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

BENCHMARK REGULATION - STATEMENT IN RELATION TO ADMINISTRATOR'S REGISTRATION – Interest amounts payable under the floating rate Notes may be calculated by reference to EURIBOR, which is currently provided by European Money Markets Institute ("**EMMI**"). As at the date of this Prospectus, EMMI does not appear on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority pursuant to article 36 of Regulation (EU) 2016/1011 (the "**Benchmark Regulation**"). As far as the Issuer is aware, the transitional provisions of Article 51 of the Benchmark Regulation apply, such that EMMI is not currently required to obtain authorisations or registration (or if located outside the European Union, recognition, endorsement or equivalence).

IN CONNECTION WITH THE ISSUE OF ANY TRANCHE OF NOTES, THE DEALER OR DEALERS (IF ANY) NAMED AS STABILISATION MANAGER(S) IN THE APPLICABLE FINAL TERMS (OR PERSONS ACTING ON BEHALF OF ANY STABILISATION MANAGER(S)) MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A HIGHER LEVEL THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, STABILISATION MAY NOT NECESSARILY OCCUR. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE RELEVANT TRANCHE OF NOTES IS MADE AND, IF BEGUN, MAY CEASE AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE RELEVANT TRANCHE OF NOTES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE RELEVANT TRANCHE OF NOTES. ANY STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE RELEVANT STABILISATION MANAGER(S) (OR PERSON(S) ACTING ON BEHALF OF ANY STABILISATION MANAGER(S)) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

ANY U.S. PERSON WHO HOLDS AN OBLIGATION UNDER THIS PROGRAMME THAT IS TREATED AS IN BEARER FORM FOR U.S. FEDERAL INCOME TAX PURPOSES WILL BE SUBJECT TO LIMITATIONS UNDER THE U.S. INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN CLAUSES 165(J) AND 1287(A) OF THE U.S. INTERNAL REVENUE CODE OF 1986, AS AMENDED.

In this Prospectus, all references to "€", "EUR" or "Euro" are to the currency introduced at the start of the third stage of the European economic and monetary union, and defined in Article 2 of Council Regulation (EC) No 974/98 of 3 May 1998 on the introduction of the Euro, as amended.

Tranches of Notes may be rated or unrated. Where a tranche of Notes is rated, such rating and the respective rating agency will be specified in the relevant Final Terms. A rating is not a recommendation to buy, sell or hold Notes and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

FORWARD-LOOKING STATEMENTS

This Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "anticipate", "believe", "could", "estimate", "expect", "intend", "may", "plan", "predict", "project", "will" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in this Prospectus containing information on future earning capacity, plans and expectations regarding Vier Gas' business and management, its growth and profitability, and general economic and regulatory conditions and other factors that affect them.

Forward-looking statements in this Prospectus are based on current estimates and assumptions that the Issuer makes to the best of their present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including the Issuer's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. The Issuer's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Prospectus to become inaccurate. Accordingly, investors are strongly advised to read the following sections of this Prospectus: "*Risk Factors*" and "*Business Description of the Issuer*". These sections include more detailed descriptions of factors that might have an impact on the Issuer's business and the markets in which the Issuer operates.

In light of these risks, uncertainties and assumptions, future events described in this Prospectus may not occur. In addition, neither the Issuer nor the Dealers assume any obligation, except as required by law, to update any forward-looking statement or to conform these forward-looking statements to actual events or developments.

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes issued under the Programme. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

Factors which the Issuer believes may be material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme. The Issuer may be unable to pay interest, principal or other amounts on or in connection with Notes issued under the Programme for other reasons. Prospective investors should also read the detailed information set out elsewhere in this Prospectus (including any documents incorporated by reference herein) and reach their own views prior to making any investment decision. Additional risks and uncertainties, including those currently unknown, or deemed immaterial, could have the effects set forth above.

Factors that may affect the Issuer's ability to fulfil their obligations under or in connection with Notes issued under the Programme

The Issuer is a holding company with no material operations and relies on its subsidiaries to provide itself with funds necessary to meet its financial obligations

The Issuer is a holding company with no material, direct operations. The Issuer's principal asset is the equity interest it holds in Open Grid Europe GmbH ("**OGE**"). As a result, the Issuer's ability to pay interest on and repay principal of the Notes and its other indebtedness is dependent upon the operations of its direct and indirect subsidiaries and the distributions, transfers and advances or other payments of funds the Issuer receives. The Issuer cannot provide any assurance that it will receive sufficient funds to make payments on the Notes when due. The Issuer's subsidiaries are separate and distinct legal entities and they will have no direct obligation, contingent or otherwise, to pay amounts due under the Notes. Accordingly, all risk factors that have an impact on OGE (described in more detail below) have an impact on the Issuer.

Factors which are material for the purposes of assessing the regulatory, environmental and legal risks associated with Notes issued under the Programme

Risks relating to the regulatory framework in Germany concerning the unbundling of gas transmission system operators ("TSOs") and certification as a gas transmission system operator ("TSO")

Amendments to the Energy Industry Act (*Energiewirtschaftsgesetz* - "**EnWG**") adopted in 2011 and as amended from time to time to implement the third energy law package of the European Union (*Europäische Union* - "**EU**") introduced stricter rules on unbundling for TSOs belonging to a vertically integrated energy undertaking to achieve an effective separation of transmission system operation and energy production and/or supply. Pursuant to the EnWG, the same person or persons are not entitled either directly or indirectly to exercise control over an undertaking performing any of the functions of generation or supply, of gas or electricity, and at the same time directly or indirectly exercise control or exercise any right over a gas or electricity TSO or over a transmission system, and vice versa.

The less intrusive options for compliance with the amendments to the EnWG, such as, in particular, the independent transmission operator ("**ITO**") structure, may only be implemented where the transmission system belonged to a vertically integrated energy undertaking on 3 September 2009. Where the ITO option is available, the TSO remains part of the vertically integrated energy undertaking, but has to abide by strict rules to ensure that the generation/supply and transmission network operations are conducted strictly independently. The gas TSO needs to be equipped with all physical, human, financial and technical resources necessary for fulfilling the gas TSO's statutory obligations.

Only TSOs complying with the necessary legal requirements shall be certified and designated as a TSO by the Federal Network Agency (*Bundesnetzagentur* - "**BNetzA**") which is required under the EnWG for the operation of the transmission network. Since 2 December 2013, BNetzA granted OGE the certification as ITO by a resolution. Thus, OGE has successfully proven that it is organised in accordance with the requirements under Sections 10 seqs. EnWG.

With press release from 19 July 2018, it became public that the European Commission initiated infringement proceedings according to Article 258 TFEU (*Vertrag über die Arbeitsweise der Europäischen Union* – Treaty on the Functioning of the European Union, "TFEU") against Germany with the European Court of Justice (the "ECJ"). Subject of these infringement proceedings now initiated is Germany's putative failure to fully comply with the Third Energy Law Package, in order to ensure a correct implementation of the Directive 2009/72/EC (the "**Electricity Directive**") and of the Directive 2009/73/EC (the "**Gas Directive**"). Therefore, the European Commission accuses Germany that the BNetzA as national regulatory authority lacks the required independence and power with respect to the setting of network tariffs and other terms and conditions for access to networks and balancing services. The European Commission argues that many factors regarding the setting of network tariffs are laid down in detailed regulations adopted by the Federal government and therefore are not dominated by the BNetzA. Moreover, according to the European Commission, several requirements concerning the ITO unbundling model have been transformed incorrectly into national German law.

The initiation of infringement proceedings against Germany by the European Commission with the ECJ has no direct legal consequences regarding the status of already certified ITOs – such as OGE – as long as the ECJ has not yet pronounced a verdict in this matter. As the European Commission's writs, accusing Germany to violate the mentioned provisions of the Third Energy Package are not – yet – published, it cannot be fully assessed at this point, what verdict in this matter could be rendered by the ECJ.

The regulatory framework in Germany governing the tariffs of OGE includes certain factors which may negatively impact the Issuer's ability to meet its debt service obligations

The tariffs charged as well as the total revenue generated by transport services by OGE as a TSO are subject to a revenue cap regulation by the BNetzA.

Decisions made and actions taken by the BNetzA under the current regulatory framework may have a negative impact on OGE. In particular, such decisions or actions may be based on false assumptions, defective research or unreasonable efficiency goals and may fail to approve costs which OGE cannot avoid incurring.

The primary source of revenue for OGE is network tariffs for access to its network. The revenue is capped largely based on a cost assessment of the business in the calendar year three years prior to the start of the relevant regulatory period (the "**Base Year**"), which is used in the calculation of an annual revenue cap for each year of the regulatory period. The current regulatory period lasts from 2018 to 2022 (the "**Third Regulatory Period**") and its revenue cap is based on the costs of the Base Year 2015.

The total costs approved by BNetzA in a Base Year as the starting point for the revenue cap are either classified as permanently non-influenceable costs or as influenceable costs. As a second step, an individual efficiency factor is determined by the BNetzA for each TSO based on an efficiency benchmarking (currently of 16 German gas TSOs) in which the TSOs are compared to each other based on their individual ratio between influenceable costs (input parameters) and structural parameters of the individual grids (output parameters). The efficiency factor may range from 60 to 100 per cent., and describes the share of costs that is determined as inefficient compared to the most efficient TSO (100 per cent., displays the full efficiency).

In 2017, OGE completed the cost approval procedure of the BNetzA, determining the cost base level of the Base Year 2015 upon which the stipulation of the revenue cap is based. This cost base level (including volatile costs such as fuel energy costs and the costs of flow commitments) formed the basis for the subsequent efficiency benchmarking process which was finalised in Q1 2018, resulting in a 100 per cent. efficiency factor for OGE.

Furthermore, BNetzA determined two key parameters to be applied for the revenue cap of the Third Regulatory Period:

- On 12 October 2016, the return on imputed equity (the "**RoE**")¹ was set at 6.91 per cent., (nominal) by BNetzA. This decision was appealed by OGE amongst other network operators. In March 2018, the Higher Regional Court of Düsseldorf decided that BNetzA used a methodically incorrect procedure to determine the rates for the return on equity for the Third Regulatory Period. The court held the opinion that the determined rates do not reflect the market risks correctly and are

¹ According to Section 7 GasNEV the applicable return on imputed equity ("**RoE**") for OGE's revenue cap 2018-2022 is determined by BNetzA and calculated before corporate tax and after trade tax.

determined at a level which is not sufficient. BNetzA has appealed the decision of the Higher Regional Court of Düsseldorf at the Federal Court of Justice, which means that the abovementioned decision of BNetzA is still enforceable and, thus, applicable, until the Federal Court of Justice delivers its judgement. After a public hearing on 9 April 2019 in a similar case, the Higher Federal court announced a decision to be declared on 9 July 2019.

- The sectoral productivity factor ("**Xgen**") for the Third Regulatory Period has been settled by BNetzA at a level of 0.49 per cent. *per annum*. This factor displays an additional efficiency target that obliges network operators to reduce their revenue cap by the respective percentage value during the course of the regulatory period. Although the current stipulation is below the historic values of 1.25 per cent. and 1.5 per cent. for the first and second regulatory period many operators including OGE appealed the current decision as BNetzA calculations are not perceived as robust and valid. A first public hearing was held on 20 March 2019, a decision of the Higher Regional Court of Düsseldorf is outstanding and is expected in 2019.

OGE received the final decision regarding the revenue cap for the years 2018-2022 on 15 June 2018. As OGE refrained from appealing against the decision, it has become legally binding on 16 July 2018. However, the determination contains an adjustment clause regarding the RoE and the Xgen as a result of the pending legal disputes as mentioned in the business description (the "**Regulatory Proceedings**"). BNetzA decided to approve the balance of the regulatory account from previous years in a separate procedure. This applies to the regulatory account of the years 2012-2017. BNetzA sent a draft decision for the regulatory account 2012-2016 on 2 April 2019 that is currently reviewed by OGE. A final decision is expected earliest in May 2019. This decision also incorporates the regulatory account 2012-2016 for jordgas Transport GmbH ("**Jordgas GmbH**").

Furthermore, OGE is allowed to adjust the annual revenue cap based on the approved costs of so called Investment Measures ("**IMA**") pursuant to Section 23 of the Ordinance on Incentive Regulation (*Anreizregulierungsverordnung* – the "**ARegV**"). This provision implies that the operator can reimburse costs caused by significant investment projects that are not yet fully reflected in the last Base Year on an annual basis in the course of the regulatory period. As a consequence, the costs are included in the revenue cap based on planned costs without time lag. Deviations between planned and actual costs are balanced via the regulatory account mechanism. The IMA reimbursement requires a project-specific application in which the operator has to prove that the project fulfils the criteria of being either a grid enhancement project or a significant grid restructuring. The project-specific approval potentially incorporates a deduction for a replacement share in case the investment partially or fully replaces existing grid assets. The approval practice of BNetzA has been published in a self-binding guideline that covers all relevant aspects and criteria (e.g. approval requirements, duration, calculation principles). Thus, BNetzA has generally the right to change the approval criteria. Following the project approval by BNetzA the operator is allowed to reimburse costs of capital (*inter alia* depreciation, financing costs incl. RoE) as well as a lump sum for operating expenditure ("**OPEX**") of the specific project. Generally, the BNetzA has the legal force to determine and adjust the OPEX lump sum factor for specific assets. Potential changes to the IMA approval practice as well as OPEX lump sum adjustments may have a negative impact on OGE's IMA reimbursement.

In October 2018, the Federal Ministry for Economic Affairs and Energy started a legislative procedure that affects the ARegV among other electricity-specific stipulations. The amendments of the legal framework mainly intend to govern the remuneration of offshore electricity connections but also the general remuneration of IMA according to Section 23 of the ARegV.

The objective of the legislator is the general limitation of the approval period for only one regulatory period and the split of the OPEX lump sum into a lump sum granted prior to the commissioning of the relevant asset and a lump sum granted after commissioning of the asset.

In February 2019, the Federal Council (Bundesrat) approved the amendments of the ARegV revision. The amended ordinance stipulates that the differentiation of OPEX remunerations for assets prior and after commissioning shall apply to IMA applied for after 31 December 2018. The changes came into force on 21 March 2019.

As a consequence of the amendment, BNetzA started the procedure for the determination of the OPEX remuneration in the pre-commissioning phase at 11 April 2019.

In 2011, the BNetzA determined a specific OPEX remuneration for specific asset classes (compressor stations and gas metering and pressure regulation stations).

As of the date of this Prospectus, it remains unclear, if BNetzA intends to amend this procedure in light of the latest legislative changes. A reduction of these specific OPEX remuneration levels could lead to a reduced growth of OGE's revenue cap for future periods with high investments into these asset classes.

Future changes to the regulatory framework may have a negative impact on OGE

The regulatory framework governing the activities of OGE is subject to extensive European and national legislation. New EU-directives and -regulations or the amendment of existing legislation, the transposition into German law of such legislation and the interpretation by the German regulatory authorities might have a negative impact on several aspects of the regulatory framework and hence the profitability of OGE. Furthermore, amendments of national acts and ordinances might affect the business, results of operations and the financial condition of OGE.

Since 1 January 2010, OGE has been subject to the incentive regulation regime and several legislative processes have been initiated to adjust the Ordinance on Gas Network Tariffs (*Gasnetzentgeltverordnung* – the "GasNEV") and the ARegV.

Consequently, the revenues and financial conditions of OGE are sensitive to the regulatory framework, regulatory system changes as well as decisions and determinations by BNetzA.

In 2016, significant amendments of ARegV were implemented mainly for distribution grid operators ("DSOs").

The regular procedure for the evaluation of the ARegV regime is scheduled for the end of the Third Regulatory Period. In this context, BNetzA is obliged to provide an evaluation report in December 2023 to the legislator. Besides the aforementioned legislation update regarding IMA, the Issuer is not aware of any specific legal procedures for ARegV amendments. As being noticeable in the past, BNetzA permanently analyses potential changes of the regulatory framework that might trigger legislative changes. Nevertheless, it is unlikely that such changes come into force within the ongoing regulatory period.

An amendment of the Gasnetzzugangsverordnung (the "GasNZV") from August 2017 obliges all German TSOs commonly to work for a higher liquidity of the gas market. Therefore, the two German market areas GASPOOL and NetConnect Germany have to be merged until 1 April 2022.

In 2017, the network code on capacity allocation mechanisms in gas transmission systems and repealing Regulation (EU) No 984/2013 (Commission Regulation (EU) 2017/459 – "NC CAM") and the network code on harmonised transmission tariff structures for gas (Commission Regulation (EU) 2017/460 – the "NC TAR") entered into force. As Regulations under European law these network codes are directly applicable and contain detailed rules on capacity allocation and tariff calculation.

BNetzA has published decisions regarding the implementation of the NC TAR into the tariff system of German TSOs from 2020 onwards. REGENT (reference no. BK9-18/610-NCG for the Net Connect Germany market area ("NCG market area") and BK9-18/611-GP for the GASPOOL market area), MAGRIT (reference no. BK9-18/612) BEATE 2.0 (reference no. BK9-18/608) and AMELIE (reference no. BK9-18/607), aim for the implementation of NC TAR. REGENT introduces the so-called postage-stamp methodology as binding reference price method from 1 January 2020. The crucial principle of the postage stamp methodology is that the same network tariff will be charged on the network user irrespective of which network and which entry or exit was used for the gas transmission.

The AMELIE decision requires the TSOs within one market are to introduce an inter-TSO-compensation mechanism. Most likely, the individually calculated network tariff will not reflect the individual costs. Therefore, compensation will be necessary amongst the TSOs. According to AMELIE, these compensation payments have to be calculated upfront the tariff period and payed in 12 equal payments throughout the tariff period. OGE is facing a risk in the event of non-payment, since it is not clear, whether a contract will be concluded in due time.

MAGRIT is especially relevant regarding grid interconnection points between gas TSOs and will govern the period between 1 January 2020 and 31 December 2020. BEATE 2.0 will replace BEATE 1.0 and will govern the conversion of prices for annual capacities into prices for capacity rights during the year.

AMELIE will establish an inter-TSO compensation mechanism by introducing compensation payments between the TSOs, which will be necessary due to the postage stamp methodology.

Dependence on licences and authorisations

OGE, its subsidiaries, its joint companies (refers to joint operations and joint ventures) and its associates (for the exact classification of the individual companies described in this prospectus, refer to pp of the 2018 short-form audit report pp. 3; 4; 26 and 45) are dependent on licences, authorisations, exemptions and/or dispensations in order to operate their business. These licences, authorisations, exemptions and/or dispensations may be subject to amendments and/or additional conditions being imposed on OGE, its subsidiaries, its joint companies and its associates. The imposing of additional conditions and/or revoking of licences, etc. may cause operational problems and delays in ongoing projects and operations which could, in turn, have a material adverse effect on the business operations, the results and the financial position of OGE.

OGE may incur significant costs to manage potential environmental and public health risks and to accommodate city planning constraints

OGE's operations and assets are subject to European, national and regional regulations dealing with, *inter alia*, environmental matters, city planning and zoning, building and environmental permits and rights of way. These regulations are often complex and subject to continual changes (resulting in a potentially stricter regulatory framework or enforcement policy). OGE's operations may be potentially hazardous and subject to the risk of liability arising from environmental damage or pollution. The most significant environmental issues faced by OGE are those related to the environmental impact of pipeline construction, the storage and management of certain hazardous materials required for the pipeline operations and plant maintenance, the management of hazardous waste and the reduction of natural gas and other emissions released into the atmosphere as a result of daily operations. Compliance with such regulations may impose significant additional costs on OGE, including expenses related to the implementation of preventative or remedial measures or the adoption of additional preventative measures to comply with the future changes in laws or regulations. Additional costs may also be incurred by OGE in respect of, *inter alia*, compensation for the impact of the infrastructure on the environment, actual or potential liability claims, and the defence of OGE in legal or administrative procedures or settlement of third party claims. Opposition to actions or programmes in connection with environmental, city planning or zoning matter may require OGE to incur additional costs for enquiries or publicity measures. The handling of existing remediation projects might also lead to additional costs for OGE due, for example, to possible obligations to carry out extensive research measures. Such risks may have a material adverse effect on the business operations, the results and the financial position of OGE.

Possible retroactive changes to, or different interpretations of, applicable laws, additional tax assessments, anticorruption laws and antitrust laws, may have a negative impact on OGE

The Issuer and OGE consistently strive to adhere to all laws, regulations and official decisions. However, in some circumstances, especially where a law or regulation is subject to different interpretations, the Issuer and OGE may inadvertently violate their obligations and may be liable for substantial administrative fines. In particular, tax laws and their interpretation by the tax authorities and courts are subject to changes, potentially with retroactive effect. Such changes may have a negative impact on the Issuer and OGE. Furthermore, the Issuer's and the OGE's interpretation may not correspond with that of the relevant authorities at the time of potential controls. Tax audits may result in a higher taxable income or in a lower amount of carried forward tax losses being available to the Issuer and OGE.

Factors which are material for the purpose of assessing business operational risks associated with the Issuer and OGE

A reduction in gas consumption may have a negative impact on OGE

An economic slowdown or a shift from gas to other sources of energy such as renewables may lead to a decline in demand for gas and gas transmission. A slowing economy would mean that industries faced lower demand and would therefore lower their production resulting in a reduced need for gas and gas transport as an input in their production process. As OGE's network tariffs in any given year are based on a revenue cap and a forecast of marketed gas transportation capacities, should actual marketed transportation capacities be lower than forecast, OGE's revenues would be negatively impacted in that year as the variance will only

be recovered in future years according to the regulatory account mechanism. Provided the revenue cap will not be modified, a lower demand of transportation capacities may lead to an increase of transport tariffs. As a consequence, transport customers affected by such an increase in transport tariffs would have an extraordinary termination right which could have at least a temporary adverse effect on OGE's reimbursement of actual transport revenues, which could in turn affect the Issuer's ability to meet its obligations under the Notes.

Political and governmental instability and/or international political conflicts could create an uncertain operating environment or have a material adverse effect on demand for OGE's network capacity

Any future political and governmental instability and/or international political conflicts (or political interactions to international cooperations e.g. "sanctions clause") in gas producing or transporting countries could result in changes to such countries' gas export policies and potential restrictions on the export of gas therefrom. In 2009, for example, gas disputes between a Ukrainian oil and gas company and a Russian gas supplier regarding natural gas supplies, prices and debts resulted in supply disruptions in many European countries. A significant reduction in gas exports from the gas producing countries could have a material adverse effect on demand for OGE's network capacity. In addition, political and governmental instability in the gas producing countries would create an uncertain operating environment for OGE with a potentially negative impact on its long-term business operations, results and financial position.

Risks related to maintenance and expansion investments of the network

As a TSO, OGE is obliged to maintain and develop its network in order to continuously ensure the capability of the network to satisfy demand for the transmission of gas, and, in particular, to contribute to supply security by having appropriate transmission capacity. The customers of OGE expect to have access to a reliable level of capacity to dispatch gas at all times. Any inability of OGE to make the necessary investments to maintain sufficient capacity on the network may lead to financial penalties being payable by OGE due to, *inter alia*, damage claims by customers. In order to meet these obligations, OGE expects that network expansion will require substantial capital expenditure in the next few years (see "*Re-)financing risks*" below). One of the main risks related to such large infrastructural projects is the long and often laborious procedures to obtain the necessary licenses and permits. This could lead to delays of projects. Another substantial risk related to capital expenditure is that prices of procured goods and services may increase, as these depend to some extent on external factors, such as overall market supply and demand. Furthermore, despite regular state-of-the-art maintenance, premature ageing of assets or changing local conditions (such as erosion, landslides etc.) may require unplanned investments.

Such risks may have a material adverse effect on the business operations, the results and the financial position of OGE.

(Re-)financing risks

The transaction by which the Issuer acquired OGE and its subsidiaries included substantial financial leverage to finance the transaction. In addition, due to OGE's ongoing and future investment programmes pursuant to the network development plans ("**NDP**"), an increase in OGE's indebtedness is likely (see "*Risks related to maintenance and expansion investments of the network*"). Moreover, in the event that the pipeline companies in which OGE has participations are unable to refinance the external facilities required to fund their investment projects in a timely manner or at reasonable costs, OGE may be required to provide such pipeline companies with bridging loans jointly with its co-shareholders or on a stand-alone basis. OGE is also a partner of NetConnect Germany GmbH & Co KG ("**NCG KG**") which, pursuant to the EnWG, is legally obliged to procure balancing energy for NCG Market Area. NCG KG may, under certain circumstances, face customer insolvencies, resulting in non-fulfilment of payment claims, or fail to generate sufficient revenues with its customers necessary to procure the required balancing energy. If, in that case, NCG KG was not able to obtain bank loans to cover its financial requirements, its partners, including OGE, have agreed and are contractually obliged to provide financial support to NCG KG. Volatility in and temporary closing of the capital markets or a reduction in the credit ratings assigned to the Issuer may hinder the Issuer and/or OGE in securing timely financing of major projects, refinancing existing debt at reasonable costs or providing funding to the pipeline companies and/or NCG KG. The amendment of the GasNZV per August 2017, which established the legal requirement to merge the existing two market areas, i.e. NCG market area and GASPOOL, into one single market area by 2022, and requires therefore the creation of one single market area manager. As of today, most aspects of the operational setup of such future

single market area manager remain uncertain. Therefore, it may be the case that the above mentioned risks would also apply to the future single market area manager and its shareholders.

Dependence on key customers

A small number of key customers are responsible for a significant part of OGE's revenues. In 2018, OGE's top 5 customers were responsible for approximately 48 per cent. of OGE's transport revenues. As a regulated entity, OGE's revenues are primarily determined by its cost base, regulated asset value and efficiency factor determined by BNetzA. However, changes to the booking behaviour of one or more of OGE's key customers away from long-term bulk capacity bookings to short-term bookings through auctions, the termination of transport capacity bookings by one or more of such customers or the insolvency of one or more of such customers would have at least a temporary adverse effect on OGE's transport revenues, which could in turn affect the Issuer's ability to meet its obligations under the Notes.

In the event of transmission disruptions, breakdown of the network, or non-implementation of emergency measures as prescribed by law, OGE may be held liable for damages by its customers and/or third parties or incur additional costs

To ensure fault-free operation of the transport business, OGE employs high quality standards and sophisticated quality assurance concepts. Nevertheless, errors and resultant claims for compensation by customers cannot be entirely excluded. Transmission disruptions or system breakdowns that affect OGE's network may result in a failure of OGE to maintain a sufficient and reliable network capacity and to transport gas to customers and may expose OGE to liability claims and litigation. Such events may be caused by operational hazards or unforeseen events including but not limited to, accidents, breakdowns or failure of equipment or processes resulting from unexpected material defects or fatigue, major system or network imbalances, human errors, IT systems and processes failures, performance below expected levels of capacity and efficiency, natural events such as heavy storms, thunderstorms, earthquakes or landslides and other unforeseen events. OGE may also be liable if emergency measures have not been carried out dutifully. The probability of one or more of the aforementioned events may increase if OGE is unable to make necessary investments in the network, which can be the result of a number of factors, including liquidity, contractor or material constraints, or if competent authorities or other third parties hinder the approval of the necessary operational procedures and/or investments proposed in OGE's development plans. Such risks may have a material adverse effect on the business operations, the results and the financial position of OGE.

A failure of OGE's information technology systems and processes or a breach of their security measures may have a negative impact on OGE

OGE uses complex information technology ("IT") systems and processes to operate and control its pipeline network. The reliability and continuity of these are essential for an efficient and reliable operation of the network. Although OGE continuously takes measures to improve its IT systems and processes, there is no guarantee that important system hardware and software failures, viruses, accidents or security breaches will not occur and these could impair OGE's ability to provide all or part of the services it is required to provide by law or under the contracts to which it is a party which could, in turn, could have a material adverse effect on the business operations, the results and the financial position of OGE.

Acts of terrorism, sabotage or crime may adversely affect the operations of OGE

OGE's gas network and assets are widely spread geographically and potentially exposed to acts of terrorism, sabotage or crime. Such events could negatively affect OGE's networks or operations and may cause network failures or system breakdowns. Network failures or system breakdowns could, in turn, have a material adverse effect on OGE's financial condition and results of operation through the reduction of revenues and the incurrence of costs for damages due to the unavailability of some or all of the network, particularly if the destruction caused by acts of terrorism, sabotage or crime are of major importance.

Accidents at OGE's facilities and involving OGE's assets may have serious consequences

Accidents that may occur at OGE's facilities or in connection with the use of certain of OGE's assets may result in the harm and death of humans, and other serious consequences. As such, OGE may be exposed to potential claims resulting in significant liabilities, use of financial and management resources and possible harm to its reputation.

Any decisions made or actions taken within companies in which OGE holds a minority participation (and thus no control) may result in higher costs, lower revenues or a lower profit margin concerning such companies

In the course of its business, OGE engages in economic activities with other companies through collaborations or joint companies. As OGE does not hold a controlling interest in such joint companies or collaborations, OGE cannot ensure that all decisions taken within such joint companies or collaborations are approved by OGE or in its interests. In such cases, the decisions made or actions taken may result in higher costs, lower revenues or a lower profit margin concerning OGE's joint companies or collaborations. Such risks could have an adverse effect on the business operations, the results and the financial position of OGE which could, in turn, affect the Issuer's ability to meet its obligations under the Notes.

A lack of or loss of highly qualified staff may result in insufficient experience and knowhow to meet OGE's strategic objectives

OGE pursues an active human resources policy that aims at maintaining an adequate level of expertise and knowhow in a tight labour market in view of the highly specialised nature of its business. OGE may, however, experience difficulties in attracting and retaining highly qualified staff required to support its obligations, implement its investment programme and develop new business fields. Such a lack or loss of highly qualified staff may result in insufficient expertise and knowhow, in unsatisfactory quality levels and in the ability to maintain or operate the network or complete infrastructure projects on time or meet strategic objectives. Such risks could have an adverse effect on the business operations, the results and the financial position of OGE which could, in turn, affect the Issuer's ability to meet its obligations under the Notes.

OGE may not have adequate insurance coverage

OGE has put in place insurance contracts necessary to operate its business in line with current industry standards. OGE cannot provide an assurance that such insurance will prove to be sufficient and, therefore, adequate insurance may not be available for certain risks whether due to faults, natural disasters, other causes such as damage to the network, third party losses, damages or disruptions claims in excess of insurance coverage, or losses as a result of terrorism, sabotage, crime, etc. Any uninsured financial losses or claims could have a material impact on the business operations, the results and the financial position of OGE.

Legal proceedings may result in increased financial liabilities for OGE

In the ordinary course of business, various legal claims and proceedings are pending or threatened against OGE and its subsidiaries and participations. The amounts claimed may be substantial and OGE is unable to predict with certainty the ultimate outcome of such claims and proceedings. In most instances OGE has established provisions for pending litigation, which management believes are adequate to meet such legal claims and proceedings. After counsel advice, it is not expected that the ultimate outcome of any matter currently threatened or pending against OGE or any of its subsidiaries and participations will have a material effect on the financial position of OGE.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

Notes may not be a suitable investment for all investors

Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;

- have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of the financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Currency Risk

A holder of Notes (the "**Holder**") denominated in a foreign currency (i.e. a currency other than the Euro) is particularly exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks and governments.

A change in the value of any foreign currency against the Euro, for example, will result in a corresponding change in the Euro value of Notes denominated in a currency other than the Euro and a corresponding change in the Euro value of interest and principal payments made in a currency other than the Euro in accordance with the terms of such Notes. If the underlying exchange rate falls and the value of the Euro correspondingly rises, the price of the Notes and the value of interest and principal payments made thereunder expressed in Euro falls.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Liquidity Risk

Application has been made to the Luxembourg Stock Exchange for Notes issued under this Programme to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange. In addition, the Programme provides that Notes may be listed on other or further stock exchanges or may not be listed at all. Regardless of whether the Notes are listed or not, there is a risk that no liquid secondary market for the Notes will develop or, if it does develop, that it will not continue. For instance, after the Notes have been listed, the relevant stock exchange may decide, under certain circumstances, to suspend or cease trading of the Notes. Accordingly, there is no assurance as to the development or liquidity of any trading market for the Notes. If Notes are not listed on any stock exchange, the trading is suspended or any other liquidity shortfall occurs, pricing information for such Notes may be more difficult to obtain, which may further affect the liquidity of the Notes adversely. In an illiquid market, an investor is subject to the risk that he will not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country-specific reasons.

Market Price Risk

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policies of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Note. The Holders of Notes are therefore exposed to the risk of an unfavourable development of market prices of their Notes which may materialise if the Holders sell the Notes prior to the final maturity of such Notes. If a Holder of Notes decides to hold the Notes until final maturity, the Notes will be redeemed at the amount set out in the relevant Final Terms.

Risk of Early Redemption

The applicable Final Terms will indicate if the Issuer has the right to call the Notes prior to maturity (optional call right) at any time against payment of a Call Redemption Amount (as defined and further set out in the Terms and Conditions), on one or several dates or during one or several periods specified in the applicable Final Terms, or by reason of minimal outstanding amount. In addition, the Issuer will always have the right to redeem the Notes if the Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Terms and Conditions. If the Issuer redeems the Notes

prior to maturity, a Holder of such Notes is exposed to the risk that due to such early redemption his investment will have a lower than expected yield. In addition, there is a risk that the market price of the Notes may be negatively affected in case the Issuer has or is perceived to have a right to early redeem the Notes. The Issuer can be expected to exercise its call right if the yield on comparable notes in the capital market has fallen which means that the investor may only be able to reinvest the redemption proceeds in comparable notes with a lower yield. On the other hand, the Issuer can be expected not to exercise its call right if the yield on comparable notes in the capital market has increased. In this event an investor will not be able to reinvest the redemption proceeds in comparable notes with a higher yield. It should be noted, however, that the Issuer may exercise any call right irrespective of market interest rates on a call date.

Fixed Rate Notes

A Holder of a Fixed Rate Note is exposed to the risk that the price of such Note falls as a result of changes in the current interest rate on the capital market (the "**Market Interest Rate**"). While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Note, the Market Interest Rate typically changes on a daily basis. As the Market Interest Rate changes, the price of a Fixed Rate Note also changes, but in the opposite direction. If the Market Interest Rate increases, the price of a Fixed Rate Note typically falls, until the yield of such Note is approximately equal to the Market Interest Rate. If the Market Interest Rate falls, the price of a Fixed Rate Note typically increases, until the yield of such Note is approximately equal to the Market Interest Rate. If the Holder of a Fixed Rate Note holds such Note until maturity, changes in the Market Interest Rate are without relevance to such Holder as the Note will be redeemed at a specified redemption amount, usually the principal amount of such Note.

Floating Rate Notes

A Holder of a Floating Rate Note is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the yield of Floating Rate Notes in advance.

Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

The Euro Interbank Offered Rate ("**EURIBOR**") and other interest rates or other types of rates and indices which are deemed Benchmarks have become the subject of regulatory scrutiny and recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such Benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to such a Benchmark.

International proposals for reform of Benchmarks include the European Council's regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (Benchmark Regulation) which is fully applicable since 1 January 2018.

The Benchmark Regulation could have a material impact on Notes linked to a Benchmark, including in any of the following circumstances:

- a rate or index which is a Benchmark may only be used if its administrator obtains authorisation or is registered and in case of an administrator which is based in a non-EU jurisdiction, if the administrator's legal benchmark system is considered equivalent (Article 30 Benchmark Regulation), the administrator is recognised (Article 32 Benchmark Regulation) or the Benchmarks is endorsed (Article 33 Benchmark Regulation) (subject to applicable transitional provisions). If this is not the case, Notes linked to such Benchmarks could be adversely impacted; and
- the methodology or other terms of the Benchmark could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could have an impact on the Notes, including Calculation Agent determination of the rate.

Amounts payable under Floating Rate Notes issued under the Programme are calculated by reference to EURIBOR which is provided by EMMI. As at the date of this Prospectus, EMMI does not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmarks Regulation. As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmark Regulation apply, such that EMMI is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

In addition to the aforementioned Benchmark Regulation, there are numerous other proposals, initiatives and investigations which may impact Benchmarks.

Following the implementation of any such potential reforms, the manner of administration of Benchmarks may change, with the result that they may perform differently than in the past, or Benchmarks could be eliminated entirely, or there could be other consequences which cannot be predicted. For example, on 27 July 2017, the UK Financial Conduct Authority announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the "**FCA Announcement**"). The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021.

If a Benchmark were to be discontinued or otherwise unavailable, the rate of interest for Floating Rate Notes, which are linked to such Benchmark will be determined for the relevant period by the fall-back provisions applicable to such Notes, which in the end could result in the same rate being applied until maturity of the Floating Rate Notes, effectively turning the floating rate of interest into a fixed rate of interest.

Any changes to a Benchmark as a result of the Benchmark Regulation or other initiatives, could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Although it is uncertain whether or to what extent any of the above-mentioned changes and/or any further changes in the administration or method of determining a Benchmark could have an effect on the value of any Notes linked to the relevant Benchmark, investors should be aware that any changes to a relevant Benchmark may have a material adverse effect on the value of any Notes linked to such Benchmark.

Zero Coupon Notes

Zero Coupon Notes do not pay current interest but are typically issued at a discount from their nominal value. Instead of periodical interest payments, the difference between the redemption price and the issue price constitutes interest income until maturity and reflects the Market Interest Rate. A Holder of a Zero Coupon Note is exposed to the risk that the price of such Note falls as a result of changes in the Market Interest Rate. Prices of Zero Coupon Notes are more volatile than prices of Fixed Rate Notes and are likely to respond to a greater degree to Market Interest Rate changes than interest bearing notes with a similar maturity.

Resolutions of Holders

Since the Terms and Conditions of Notes issued under the Programme provide for meetings of Holders of a series of Notes or the taking of votes without a meeting, the Terms and Conditions of such Notes may be amended (as proposed or agreed by the Issuer) by majority resolution of the Holders of such Notes and any such majority resolution will be binding on all Holders. Any Holder is therefore subject to the risk that its rights against the Issuer under the Terms and Conditions of the relevant series of Notes are amended, reduced or even cancelled by a majority resolution of the Holders. As stated by the German Federal Court of Justice, any such majority resolution will even be binding on Holders who have declared their claims arising from the Notes due and payable based on the occurrence of an event of default but who have not received payment from the Issuer prior to the amendment taking effect. According to the German Act on Debt Securities of 2009 (*Schuldverschreibungsgesetz* – "**SchVG**"), the relevant majority for Holders' resolutions is generally based on votes cast, rather than on the aggregate principal amount of the relevant Notes outstanding. Therefore, any such resolution may effectively be passed with the consent of less than a majority of the aggregate principal amount of the relevant Notes outstanding.

Holders' Representative

If the Notes provide that the Holders of a series of Notes are entitled to appoint a Holders' representative (the "**Holders' Representative**") by a majority resolution of such Holders or if a Holders' Representative has been appointed in the Terms and Conditions of a series of Notes it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holders' Representative who is then exclusively responsible to claim and enforce the rights of all the Holders of the relevant series of Notes.

If no Holders' Representative is initially appointed, any appointment of a Holders' Representative post issuance of Notes will require a majority resolution of the Holders of the Notes. If the appointment of a Holders' Representative is delayed, this will make it more difficult for Holders to take collective action to enforce their rights under the Notes.

Quorum requirement and SchVG risks in case of certain events of default

The Terms and Conditions provide that, in case of certain events of default, any notice declaring the Notes due and payable shall become effective only when the Fiscal Agent has received such default notices from Holders representing at least 25 per cent. of the aggregate principal amount of Notes then outstanding. Under the SchVG, even if a default notice is given by a sufficient number of Holders of Notes, this could be rescinded by majority resolution within three months. A simple majority of votes would be sufficient for a resolution on the rescission of such acceleration but, in any case, more Holders would have to consent to a rescission than have delivered default notices.

Holders should be aware that, as a result, they may not be able to accelerate their Notes upon the occurrence of certain events of default, unless the required quorum of Holders delivers default notices and such acceleration is not rescinded by majority resolution of the Holders.

Credit ratings

The Final Terms may indicate that a credit rating has been or will be assigned to one or several tranches of Notes. Such rating, as well as the credit rating assigned to the Issuer, may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed herein and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal by the rating agency at any time. No assurance can be given that a credit rating will remain constant for any given period of time or that a credit rating will not be reduced or withdrawn entirely by the credit rating agency if, in its judgment, circumstances so warrant. Any actual or anticipated suspension, reduction or withdrawal of the credit rating assigned to the Issuer or any Notes by one or more of the credit rating agencies may adversely affect the cost and terms and conditions of the Issuer's financings and could adversely affect the value and trading of the Notes.

Taxation

All payment of principal or interest in respect of the Notes will be subject to applicable taxation in any relevant jurisdiction. Payment of principal and interest in respect of the Notes will be made net of any withholding tax or deductions for or on account of any tax applicable to the Notes in any relevant state or jurisdiction and, the Issuer is not under any obligation to pay any additional amounts as a consequence of any such withholding or deduction.

For the avoidance of doubt, to the extent that the Issuer becomes liable for any increased liability to corporation tax (or similar tax) as a consequence of the interest payable under a Note being treated as non-deductible by the Issuer because of a Hybrid Mismatch (as defined in the provisions of the Council Directive (EU) 2016/1164 of 12 July 2016 laying down rules against tax avoidance practices that directly affect the functioning of the internal market, amended by the Council Directive (EU) 2017/952 of 29 May 2017, as implemented from time to time the relevant jurisdictions), this increased liability to corporation tax (or similar tax) will be (i) treated as being allocated to the holder(s) of Notes because of which such Hybrid Mismatch (whether directly or indirectly) arose and (ii) deducted from any payments to be made to such holder(s) of Notes.

Financial Transaction Tax

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a directive for a common financial transaction tax ("**FTT**") in Belgium, Germany, Greece, Spain, France, Italy, Austria, Portugal, Slovenia, Slovakia (the "**Participating Member States**") and Estonia. However, Estonia has since stated that it will not participate.

The Commission's Proposal has a very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. This may, in turn, adversely affect the liquidity of the Notes. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal, the FTT could apply in certain circumstances to persons both within and outside of the Participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a Participating Member State. A financial institution may be, or be deemed to be, "established" in a Participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a Participating Member State.

However, Commission's Proposal remains subject to negotiation between Participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate and/or Participating Member States may decide to discard the Commission's Proposal. In Germany, the grand coalition restated in the coalition agreement the aim towards the introduction of a substantial FTT within the EU.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

U.S. Foreign Account Tax Compliance Withholding

Pursuant to Sections 1471 through 1474 of the Internal Revenue Code of 1986, as amended ("**FATCA**"), the Issuer and other non-U.S. financial institutions through which payments on the Notes are made may be required to withhold U.S. tax at a rate of 30 per cent. on all, or a portion of, payments made after 31 December 2018 in respect of certain payments ("foreign passthru payments") to persons that fail to meet certain certification, reporting, or related requirements.

A number of jurisdictions, including the Netherlands, Germany and Austria, have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to 1 January 2019 and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay Additional Amounts as a result of the FATCA withholding.

Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes.

Business Overview

Introduction

OGE is Germany's leading natural gas carrier with a gas transmission network of approximately 12,000 kilometres in length. With its modern and efficient pipeline network and a comprehensive range of services, OGE offers and arranges future-oriented gas transmission solutions.

History

OGE was initially incorporated by Ruhrgas Aktiengesellschaft ("**Ruhrgas**") as Ruhrgas Transport Management GmbH ("**RGT GmbH**") on 4 December 2003. Following several organisational restructuring activities, including the integration of the business unit "Technical Services for Regulated Gas Transport and Gas Storage" and the rebranding to Open Grid Europe GmbH in 2010, OGE was acquired from the E.ON group by the Issuer on 23 July 2012.

Core Business

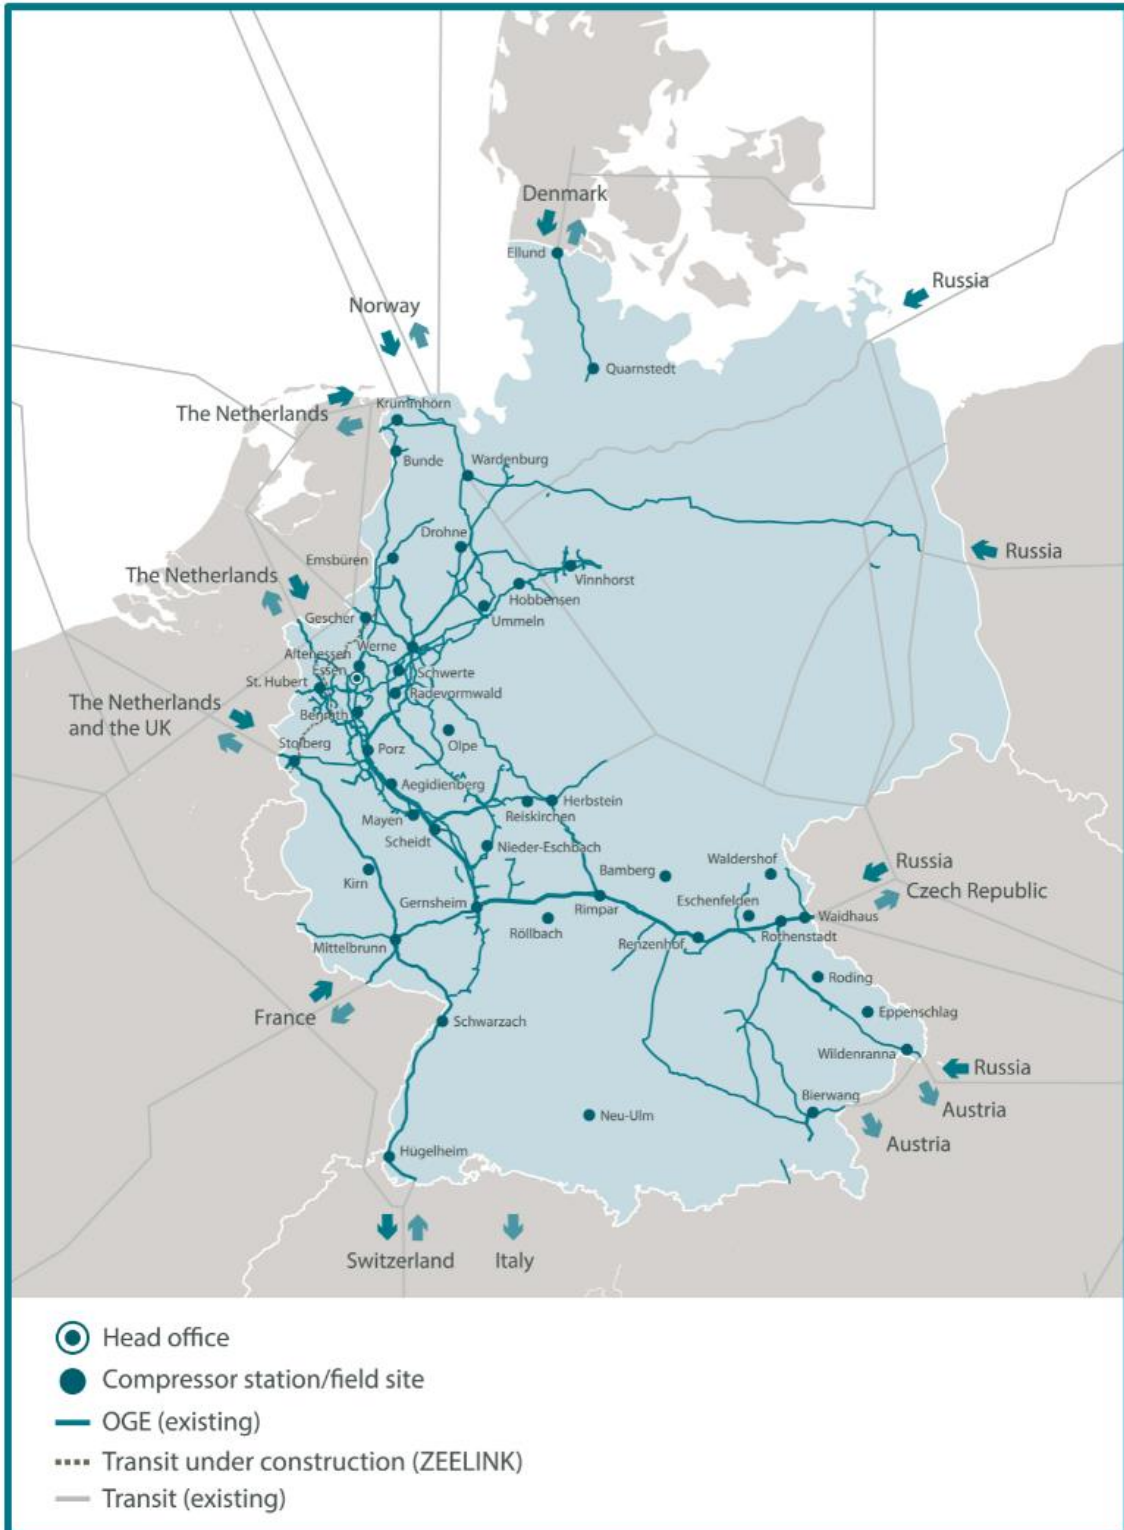

OGE is a regulated gas transmission operator whose core business encompasses the design and construction of pipelines beginning with conceptual design, project management and engineering on to implementation, operation of the pipeline system, including maintenance and repair as well as control and monitoring of the network, capacity management, from capacity assessment to the development of new gas industry standards, marketing of the capacities and support of customers and monitoring and billing of gas transmission capacities.

OGE transports natural gas through its own transmission systems and through cooperation with other TSOs, mostly in the form of joint operations or pipeline co-ownerships. Located in central Europe, OGE's transmission network is an essential part of the European pipeline system which spans from the North Sea and Baltic Sea to the Mediterranean region, and from the Atlantic to Eastern Europe.

The total length of the European pipeline system is approximately 200,000 kilometres. The total energy volume transported by OGE in 2018 amounts to approximately 650TWh p.a., representing approx. 70 per cent. of the total German natural gas consumption.

OGE and certain of its participations are also active in the area of auxiliary services related to the gas transmission business and, through a joint company with other TSOs, OGE participates in the NCG Market Area, one of two market area cooperations in Germany. Since the acquisition of 50 per cent. of the capital of Jordgas GmbH in 2016, OGE has also been active in the market area of GASPOOL Balancing Services GmbH ("**GASPOOL GmbH**") to a limited extent.

The following map provides an overview of the gas transmission network operated by OGE group:

² EBITDA is a financial measure presented in this Prospectus which is not a recognised financial measure under IFRS (the "**Non-GAAP Financial Measures**") and may therefore not be considered as an alternative to the financial measures defined in the accounting standards in accordance with generally accepted accounting principles (the "**GAAP Financial Measures**"). The Issuer has provided this Non-GAAP Financial Measures and other information in this Prospectus because it believes it provides investors with additional information to assess the economic situation of the VGT groups' business activities. The definition of the Non-GAAP Financial Measures may vary from the definition of identically named Non-GAAP financial measures used by other companies. The Non-GAAP Financial Measures used by the Issuer should not be considered as an alternative to net income/loss after income taxes, revenues or any other measures derived in accordance with IFRS as measures of operating performance.

This Non-GAAP Financial Measure has limitations as an analytical tool and should not be considered in isolation or as a substitute for analysis of results as reported under IFRS.

EBITDA is determined as earnings before interest, tax, depreciation and amortization – but including income from equity investments and income from companies accounted for using the equity method – and is reconcilable to the consolidated income statement. The Issuer presents EBITDA as an additional indicator to assess its operating performance.

Strategy

OGE is committed to the guiding principles of openness and transparency for access to its gas pipeline network within the European pipeline system where the network of OGE represents the majority of one of two German market areas. OGE's strategic focus is influenced by the regulated environment in which it operates and involves (i) maintaining high quality operations, security of supply and network expansion in the European context; (ii) optimisation of profit within the regulatory framework; (iii) maintaining a high level of cost efficiency; (iv) market integration; (v) promoting the future importance of gas as an energy source; and (vi) retaining competent employees with strong commitment.

Given the increased focus on the reduction of Green House Gases (the "**GHG**") in energy policy since the Paris Accord of 2015, focus area (v) has become increasingly important to secure the long-term value of OGE's assets and to develop new investment opportunities. In summary, the principal strategic focus of OGE is as follows:

Optimisation of profit within the regulatory framework: Under the incentive regulatory mechanism set up by the Federal Network Agency (*Bundesnetzagentur*, the "**BNetzA**"), the annual revenue cap for each regulatory period is based on a cost assessment in a base year. OGE continually seeks to optimise its regulated profit and eliminate any regulatory gaps through constant optimisation of the costs structure. OGE also engages in measures aimed at improving the regulatory framework itself through an ongoing dialogue with the BNetzA and the Federal Ministry of Economics (*Bundeswirtschaftsministerium*) regarding various elements of the current regulatory mechanism.

Maintaining a high level of cost efficiency: A core strategic focus of OGE is the operation, maintenance and development of its network. OGE seeks to improve continuously the cost efficiency and effectiveness of its network, while keeping quality and reliability at the current high level, within the framework of its regulated tariff system and an integrated structure, composed of transmission activities, network and system services and engineering activities.

Maintaining high quality operations, security of supply and network expansion in the European context: OGE focuses on the development of appropriate network capacity in order to meet the short term, mid-term and long term needs of its customers and on maintaining high quality operations, high availability of the network and high level of security of supply. In particular, as laid down in the NDP, the focus is on offering higher capacities between the Northern and Southern parts of the OGE network as well as increasing capacities with neighbouring networks as this is a prerequisite for the further improvement of the European gas market. To ensure security of supply, OGE works with other European TSOs on a bilateral and/or multilateral basis.

Market integration: As a market facilitator, OGE expects to continue to improve the functionality of the national and international gas markets which are connected to OGE's network and, which are of major importance to the German market.

Promoting the future importance of gas as an energy source in a decarbonized energy system: OGE increasingly promotes the role of gas and the potential of gas infrastructure within the German and the European energy policy. With targeted reductions of CO₂ up to 95 per cent. by 2050, natural gas will struggle to be sustainable as a fossil energy source long-term (at least not without Carbon Capture and Storage; the "CCS" or Carbon Capture and Utilization; the "CCU"). However, gas infrastructure can carry also large amounts of carbon-free or carbon neutral gas, such as bio methane, hydrogen (produced from steam reforming and CCS or from electrolysis) and synthetic methane. Numerous studies have shown recently that a decarbonized energy system integrating existing gas infrastructure long-term will allow reaching climate targets faster, cheaper and more reliably. To facilitate this development has become a key strategic objective for OGE. This includes the participation in discussions about gas transition technology and the long term supplementation of gas to carbon-free or carbon neutral gaseous energy sources (the "**Green Gas**"). OGE is in the process of analysing the H₂-capabilities of its network and is actively developing tangible Green Gas projects. Intensive lobbying activities to change the regulatory framework in order to provide leeway for infrastructure companies to enter into the field of Green Gases and to create investment opportunities are also ongoing.

Retaining competent employees with strong commitment: OGE continuously seeks to maintain and improve the high level of competence, productivity and cost effectiveness of its human resources by establishing a challenging and motivating work environment that strengthens operational excellence. The strategy includes hiring, developing and continuously training qualified personnel according to business needs, implementing a retention management system to support employee's strong commitment to business goals, enforcing an active cost awareness orientated human resources policy and optimising human resources costs within the regulatory framework.

The goal of PRISMA is to facilitate the European internal market for energy through the operation of an electronic platform for the allocation of capacities (primary capacity platform) as well as an electronic platform for the trading of capacities (secondary capacity platform) in gas transmission networks and services related to capacity allocation mechanisms and congestion management procedures.

Kommanditgesellschaft ("**GasLINE KG**") and its general partner GasLINE Telekommunikationsnetzgesellschaft deutscher Gasversorgungsunternehmen mbH ("**GasLINE GmbH**"). GasLINE KG is an associated company of ten companies active in the gas trading and transmission business, which operates an integrated fibre optics network with an overall length of approximately 25,000 kilometres throughout Germany.

Dormant companies

In addition, OGE holds 100 per cent. of the registered share capital of Open Grid Regional GmbH ("**OGR**") and NEL Beteiligungs GmbH ("**NEL**"), which are currently dormant.

Existing profit and loss transfer agreements.

OGE as controlling party has entered into domination and profit and loss transfer agreements with METG, NEL, OGR, OGS, PLE doc and Line WORX as controlled parties.

Material Agreements

Beneficial Use Agreements

A significant part of OGE group's pipeline network is not directly owned by OGE itself but owned by the Pipeline Companies or third parties and used by the OGE group on the basis of contractual rights of use under beneficial use agreements (*Gebrauchs- und Nutzungsüberlassungsverträge*). OGE has entered into beneficial use agreements with all Pipeline Companies covering the largest part of the pipeline network not owned or co-owned by OGE.

Service Agreements

OGE has entered into various service agreements regarding parts of the gas transmission network co-owned by OGE together with other TSOs or owned by the Pipeline Companies. Most of these agreements concern the provision of dispatching services, maintenance and other technical services, commercial services or property-related administration. In several cases, the co-owners or joint company partners have split the corresponding tasks for different segments of the pipelines, while on other occasions, OGE has assumed responsibility for the entire pipeline concerned. The agreements are generally entered into for periods of several consecutive years and usually provide for automatic renewals unless terminated by either party.

In addition to the service agreements in relation to co-owned pipelines or pipelines owned by the Pipeline Companies, a few other service agreements relate to assets which are either solely owned by OGE or another TSO and in which case the parties have reciprocally agreed to provide their services for the parts of the gas transmission network owned by the other TSO. OGE also offers a wide range of services to third parties.

Procurement of Flow Commitments and Fuel Energy

In order to overcome physical bottlenecks in its transmission network and to meet the statutory requirement to offer free allocable capacities which allow transport customers to book entry and exit capacities without specifying a particular physical transportation path, OGE has entered into a number of flow commitments. Under these agreements, a transport customer guarantees certain flows at specific entry or exit points. Such flow commitments are generally agreed on the basis of general terms and conditions in the form of standardised tender forms containing the details of the flow commitment, such as, a definition of the relevant entry or exit points, the capacity of the flow commitment, the commitment period and the price. On 15 May 2014, BNetzA issued its final determination "Regulation laying down the costs for load flow commitments as volatile cost shares within the meaning of Section 11 para 5 ARegV (KOLA)" and decided that costs of flow commitments are regarded as volatile costs of TSOs. In addition, BNetzA defined the terms the TSOs must comply with when contracting flow commitments.

OGE requires so-called fuel gas to drive the compressor units in the gas transmission system which it operates. As an operator of an energy supply system, OGE is responsible for procuring the fuel gas in accordance with the stipulations laid down in the Energy Industry Act (EnWG). In the analogous application of Section 22, para. 1, the EnWG requires that fuel gas be procured in a transparent, non-discriminatory and market-oriented manner. As well as flow commitments, fuel gas for compressor units is defined as volatile cost items according to ARegV.

From a regulatory perspective, the largest part of OGE's energy costs is regarded as volatile cost item and recovered immediately through OGE's yearly Revenue Cap.

Market Area Cooperations

Network operators have established two market areas, namely the GASPOOL market area with its operating company GASPOOL Balancing Services GmbH ("**GASPOOL**") and the NetConnect Germany market area with its operating company NetConnect Germany GmbH & Co. KG ("**NetConnect Germany**") in which transmission networks and downstream networks are combined to allow for the organisation of booked capacities in such a way that the Two Contract Model (as defined below) can be implemented market area-wide.

Bayernets GmbH ("**Bayernets**"), Fluxys TENP GmbH, GRTgaz Deutschland GmbH, terranets bw GmbH Thyssengas GmbH and OGE formed the NCG market area integrating low calorific gas (the "**L-gas**") and high calorific gas (the "**H-gas**"). The high-pressure pipeline system in Germany's largest market area connects more than 500 downstream networks. Aforementioned TSOs hold NetConnect Germany as subsidiary which operates the NCG market area.

The market area GASPOOL is a subsidiary formed by GASCADE Gastransport GmbH, Gastransport Nord GmbH, Gasunie Deutschland Transport Services GmbH (GUD), Nowega GmbH and ONTRAS Gastransport GmbH. GASPOOL market area incorporates approx. 350 downstream natural gas transport networks. Respective operating company is a subsidiary of aforementioned TSOs and is based in Berlin. The company's objective is to operate the GASPOOL market area in Germany. Through its participation in Jordgas GmbH, OGE is also involved in this market area cooperation, but only as associated cooperation partner after having taken over Jordgas GmbH's functions as TSO.

In their role as market area manager, NetConnect Germany and GASPOOL handle the operational management of the market area cooperation. They are responsible for the management of balancing groups and system balancing activities, the provision and operation of the market area's Virtual Trading Point, and the provision of data, for example settlement and balancing information.

Under German legislation, the two German market areas GASPOOL and NetConnect Germany have to be merged until 1 April 2022. To fulfil this obligation, the aforementioned shareholders of the two existing market area managers started a common project. In accordance with the BNetzA, the corresponding plan to start the unified market area was announced on 1 October 2021.

Gas Network Contracts

The operators of gas transmission networks and of gas distribution networks are required to cooperate in order to enable deliveries of gas to end customers. Such deliveries typically involve transport over several networks which are physically linked but often operated by different companies. The principles of network operator's cooperation are laid down in an overarching cooperation agreement (*Kooperationsvereinbarung zwischen den Betreibern von in Deutschland gelegenen Gasversorgungsnetzen – KoV*).

On a bilateral basis, interconnection agreements have been entered into between OGE and adjacent network operators whose gas networks are linked to OGE's gas network. These interconnection agreements contain, in particular, details of operational cooperation, on technical rules and regulations between adjacent network operators at interconnection points.

Capacity bookings between gas transmission and gas distribution network operators are then made via so-called internal annual orders for capacity in order to provide the gas distribution network operators with sufficient firm capacity to satisfy the expected demand for off-take from their network. OGE has also entered into a number of agreements with other network operators concerning the bundling of transport capacities at network interconnection points in order to meet statutory requirements to allow for an auctioning of bundled entry and exit capacities by way of a transparent and non-discriminatory auction process.

Network operators are under a statutory obligation to connect customers which want to off-take gas from the network to their network on terms which are adequate, non-discriminatory and transparent. To this effect, such customers need to enter into network connection agreements with exit-network operators. Similarly, operators of gas storages enter into storage connection agreements with network operators on the connection of their storages to the gas network at storage connection points which link the transmission network and the storage facilities.

Under the **"Two Contract Model"**, only two separate, tradable contracts with the relevant network operators for the feed-in (entry contract) and the off-take (exit contract) of the gas are required for the transportation of the gas to the customers which want to off-take gas from the network. These contracts are generally entered into by transport customers on the basis of standardised terms and conditions in a European wide standardised auction process via the web-based capacity trading platform PRISMA. Capacities are auctioned on PRISMA as annual, quarterly, monthly, day-ahead and within-day products. These capacity products are also offered at end consumers points (Industrial and Commercial customers) but the capacity allocation follows the "first committed first serve" mechanism instead of the auction process.

However, before a transport customer can ask for the execution of entry and exit contracts, the customer (or a designated third party willing to enter into such contract on its behalf) in its role as balancing group manager is required by law to enter into a balancing group contract with the market area coordinator. This contract establishes a balancing group, comprising a number of entry and exit points within the market area (including the virtual trading point at which gas volumes can be traded), and requires the balancing group manager to generally settle in cash any deviations between its actual feed-in and its actual off-take of gas at those entry and exit points. In the case of the common NCG Market Area, in which OGE is participating, balancing group contracts are entered into by NCG KG in its role as the market area coordinator and not by OGE as TSO.

TSOs are required by European regulation to establish so-called virtual interconnection points ("**VIP**") at the border between two gas market areas as of 1 November 2018. The establishment of such VIP is meant to facilitate cross-border gas trade and hence lead to more integrated European gas markets. Customers would only have to participate in auctions at one point per border to acquire transport capacities. According to the implementation model agreed by the German TSOs one of the TSOs active at each border is responsible for marketing all these transmission capacities at the respective border. However, if capacities at the potential VIP are lower than the sum of the capacities of each interconnection point, no VIP has to be implemented. Currently, with the approval of the German regulator VIPs have to be implemented not at every border of the market areas of GASPOOL and NCG KG. Depending on the progress of the respective agreement between the relevant TSOs at each border, the implementation for the VIPs needs sufficient lead time which differs from VIP to VIP. At the borders to the Czech Republic, Austria and France, the VIPs have started on 1 March 2019 whereby VIPs at the border to Belgium and Switzerland will start on 1 July 2019 and the VIPs on the border to the Netherlands (L-Gas & H-Gas) will be implemented in the first quarter of 2020.

Network Expansion Projects

The expansion of the German gas network is of central importance to the German Federal Government's energy policy. Both EU and national regulations oblige German TSOs to produce plans containing a forecast of future network expansion requirements. The EnWG specifies that German gas TSOs shall jointly submit a ten-year NDP every second year.

The 2018 NDP, which models gas flows in the German gas network for the next ten years in order to establish the development and/or potential investment requirements from 2018 to 2028, was initially submitted to the BNetzA on 29 March 2018. The 2018 NDP foresees total investments for all TSOs of approximately EUR 7 billion until 2028. As a result of its size and role in the German gas transmission market, the 2018 NDP includes substantial investment obligations for OGE of approximately EUR 2.3 billion. Compared with the direct predecessor, the approved NDP 2016, the total investments over the ten-year period have increased substantially, due to the inclusion of the EUGAL pipeline system, while the investments attributable to OGE have remained stable at approx. EUR 2.3 billion.

Legal and Arbitration Proceedings

Whilst certain legal claims and proceedings are from time to time pending or threatened against OGE and its subsidiaries and participations, in most instances OGE has established provisions for pending litigation, which management believes are adequate to meet such legal claims and proceedings. According to relevant counsel's advice, it is not expected that the ultimate outcome of any matter currently threatened or pending against OGE or any of its subsidiaries and participations will have a material effect on the financial position of OGE.

Regulatory Framework

General Regulatory Framework

As a German TSO, OGE is subject to a comprehensive regulatory framework, both on a European and national level. The key law applicable to OGE is the EnWG, which defines the overall legal framework for the gas and electricity supply companies in Germany. The provisions of the EnWG were substantiated by several ordinances, in the gas sector in particular, by the Ordinance on Access to the Gas Networks (*Gasnetzzugangsverordnung* – the "**GasNZV**"), GasNEV and ARegV and by determinations of the BNetzA. BNetzA is, in accordance with the EnWG, the federal energy market regulator and has the tasks of, inter alia, (i) ensuring non-discriminatory grid access, (ii) controlling the network access tariffs, (iii) safeguarding against anti-competitive practices by grid operators and (iv) monitoring of the implementation of the regulatory regime.

The material regulatory duties of OGE are outlined in the following sections.

Unbundling

Amendments to the EnWG adopted in 2011 to implement the third energy law package of the EU introduced stricter rules on unbundling for gas TSOs belonging to a vertically integrated energy undertaking in order to achieve an effective separation of transmission system operation and energy production and/or supply. According to the rules, the same person or persons are not entitled either directly or indirectly to exercise control or exercise any right over a gas or electricity TSO or over a transmission system, and at the same time directly or indirectly exercise control over an undertaking performing any of the functions of generation or supply of gas or electricity, and vice versa. Therefore, many undertakings in the sector had to undergo structural changes in order to comply with the new legislation with regard to the separation of control and performance functions for which three different unbundling models are available in Germany. The less intrusive options, such as, in particular, the ITO structure, may only be implemented where the transmission system belonged to a vertically integrated energy undertaking on 3 September 2009. Where the ITO option is available, the TSO remains part of the vertically integrated energy undertaking, but has to abide by strict rules to ensure that the generation/supply business and transmission network operations are conducted strictly independently (the "**ITO-model**"). The gas TSO needs to be equipped with all physical, human, financial and technical resources necessary for fulfilling the gas TSO's statutory obligations.

Only TSOs complying with the necessary legal requirements will be certified and designated as a TSO by BNetzA, such certification being required under the EnWG for the operation of the transmission network. By resolution dated 2 December 2013, BNetzA granted OGE the certification as ITO. Thus, OGE has successfully proven that it is organised in accordance with the requirements under Sections 10 seqs. EnWG.

Maintenance and development of the gas transmission network

OGE as a TSO is obliged to maintain, develop and optimise the network, meeting demands for the transmission of gas (*bedarfsgerechter Ausbau*) and contributing to supply security by having appropriate transmission capacity to the extent this is economically reasonable.

The network connection of storage facilities, liquefied natural gas and production facilities, gas-fired power plants and biogas facilities may require the expansion of the network. Following such expansion, respective connection requests must be considered for the calculation of the available capacity, which TSOs have to conduct pursuant to the GasNZV.

The binding obligation for network extensions arises from the national NDP to be issued by the TSOs to BNetzA every two years, considering the next ten-year period and including specific measures which have to be taken within the next three years. On a transnational level, expansion requirements are set out in the European Ten Year NDP and regional NDPs, such as the North-West Gas Regional Investment Plan and the South Gas Regional Investment Plan. These plans do not immediately result in binding expansion requirements, but provide guidance for the national NDPs of European TSOs.

In addition, TSOs are under the obligation, pursuant to European Regulation 994/2010 regarding security of supply, to implement permanent bi-directional capacity on all cross-border interconnections between Member States. Nevertheless, it is possible to apply for an exemption, to be granted by the BNetzA. The BNetzA will in turn cooperate with the EU Commission and the relevant regulatory bodies of the Member

States when considering the grant of such exemption, and it shall only be granted if reverse flow capacity would not significantly enhance the security of supply of any Member State or region or if the investment costs would significantly outweigh the prospective benefits for security of supply. OGE applied for exemptions for seven interconnection points (Bocholtz, Elten, Tegelen, Vreden, Medelsheim, Remich and Waidhaus) in February 2012 for all of which BNetzA granted exemptions in March 2013.

Third party access according Commission Regulation (EU) 2017/459

Common Platform PRISMA European Capacity Platform GmbH

European TSOs are obliged by NC CAM to offer transmission capacity by means of one or a limited number of joint web-based booking platforms. TSOs are entitled to operate these platforms via a third party. Further rules are described within this regulation. Therefore, a number of European TSOs have founded PRISMA as a European capacity booking platform. OGE sells all transmission capacity via the PRISMA platform. OGE holds 1.33 per cent. of total shares of PRISMA.

Security of Supply

About one quarter of all the energy used in the EU is natural gas, and Germany imports nearly all supplies. To help prevent potential supply disruptions and respond to them if they happen, EU Regulation set standards and indicators to measure serious threats and define how much gas EU countries need to be able to supply to households. In 2017 a new Security of Gas Supply Regulation was introduced, which:

- requires the European Network for Transmission System Operators for Gas (ENTSO-G) to perform an EU-wide gas supply and infrastructure disruption simulation in order to provide a high level overview of the major supply risks for the EU
- requires EU countries to cooperate with each other in regional groups to assess common supply risks together (common Risk Assessments) and to develop and agree on joint preventive and emergency measures (to be reflected in their Preventive Action Plans and Emergency Plans)
- introduces the solidarity principle: EU countries must help each other to always guarantee gas supply to the most vulnerable consumers even in severe gas crisis situations. TSOs will assist respective Member States in terms of operational terms.
- TSOs must enable permanent bi-directional capacity on all cross-border interconnections between EU countries unless an exemption is granted.

L-H gas Conversion

Up to 25 per cent. of the German gas consumption is supplied with low calorific gas (L-gas), which is exclusively sourced from German and Dutch reserves.

Due to a gradual decrease of L-gas coming from the Netherlands, L-gas capacities towards Germany will decrease after 2020 as is detailed in Gasunie Transport Services B.V.'s NDP 2017. As a result the German market is foreseen to be gradually converted to H-gas until 2030. Conversion of the markets will take several years since all appliances have to be checked and adapted to a different gas quality range. Furthermore, an expansion of the network infrastructure is also required. To plan for the required market conversion, the German NDP takes into account a reduction of L-gas import capacities from the Netherlands, with 10 per cent. per year starting in 2020. OGE is investing in new infrastructure, connecting H-Gas sources with today's L-Gas consumption areas. The largest investment project in this context is the construction of the ZEELINK pipeline with an expected commissioning in 2021.

Tariffs for Network Use according to Commission Regulation 2017/460

After the introduction of the concept of the entry-exit system by Commission regulation (EC) 715/2009, transmission costs are no longer associated to a specific transportation route. In order to achieve a reasonable cost reflectivity transmission tariffs need to be based on a specific price methodology using specific cost drivers. Today, each TSO may choose an own single price methodology. According to Commission Regulation (EU) 2017/460, from 2020 onwards BNetzA will decide on the price methodology. Therefore, in March 2019, BNetzA decided that TSOs have to introduce a common network tariffication

system that charges all transmission capacity equally. The systems includes an inter-TSO compensation mechanism, which ensures that all TSOs earn the specific allowed revenues in such a system.

Regulation of Network Tariffs

Incentive Regulation

As of 1 January 2010, OGE is subject to the regime of incentive regulation (*Anreizregulierung*), which is set out in the EnWG and, in more detail, in the ARegV. Incentive regulation adds dynamic efficiencies by setting incentives for efficient operation of the network, deviating from the static cost-oriented calculation.

For each network operator, BNetzA defines for each year of a regulatory period an *ex ante* revenue cap (*Erlösobergrenze*). Regulatory periods generally last for five years, but in the case of the gas TSOs the first regulatory period (2010-2012) (the "**First Regulatory Period**") was curtailed to three years and expired on 31 December 2012. The second regulatory period covers the calendar years 2013 to, and including, 2017 (the "**Second Regulatory Period**"), whereas the third regulatory period covers the years from 2018 to, and including 2022 (the "**Third Regulatory Period**").

The capacity-based network tariffs chargeable to customers are calculated on the basis of this revenue cap and expected capacity bookings. Since the actual capacity bookings can vary from the expected capacity volume assumed for the tariff calculation, the total revenues actually realised can also (positively or negatively) differ from the revenue cap defined by BNetzA *ex ante*. These positive or negative differences are accumulated on the regulatory account (according to Section 5 ARegV), and considered for the calculation of the revenue caps of the subsequent three years following the year after the difference has occurred. This compensation mechanism ensures that network operators cannot sustainably exceed or underachieve their respective annual revenue caps by compensating for the differences in the future.

The revenue cap is calculated on the cost base of the Base Year, which is the third calendar year prior to the beginning of the regulatory period, with some costs classified as either (i) permanently non-determinable costs; (ii) temporary non-determinable costs; or (iii) determinable costs. Inter alia, the cost base includes imputed depreciation, operational costs and interest costs for debt as well as a specified return on equity based on the network operator's regulated asset base. The cost base in the Base Year is converted into fixed annual revenue caps reflecting both the determinable and non-determinable costs of operating the network as well as the consideration of an individual efficiency factor, the general sectoral productivity factor ("**Xgen**") and the consumer price index (VPI). The individual efficiency factor is determined by the BNetzA for each TSO based on an efficiency benchmarking, currently of 16 German gas TSOs. This efficiency factor may range from 60 per cent. to 100 per cent. and describes the share of costs that is determined as efficient compared to the most efficient TSO (100 per cent. means full efficiency).

During the regulatory period it is possible for network operators to achieve economic benefits through efficiency improvement, where the actual costs of network operation are lower than the costs considered for the admissible network tariffs actually charged to the customers. Nevertheless, the benefits must be passed on to the customers during the next regulatory period by means of reduction in the revenue cap if and to the extent that the efficiency improvements reduce the cost base in the next Base Year.

With respect to the Third Regulatory Period, the BNetzA evaluated OGE's costs of the Base Year 2015, as reported to the BNetzA by OGE on 30 June 2016, and on 10 July 2017 submitted the preliminary approvable cost base level that provides the basis for the efficiency benchmark in order to determine the individual efficiency factor.

The applicable return on imputed equity (the "**ROE**")² (for equity within the capped imputed equity ratio of 40 per cent) shall be, as of 1 January 2018, 6.91 per cent. (before corporate tax and after trade tax) for assets recorded for the first time on or after 1 January 2006, and 5.12 per cent. for assets capitalised before 1 January 2006. Both interest rates are calculated based on the same risk assumptions, the only difference being the inflation rate which is only included in the 6.91 per cent. rate. Accordingly, assets capitalised before 1 January 2006 are partially considered with their replacement values to cover inflation. These interest rates have been settled by BNetzA equally for gas and electricity network operators in a

² According to § 7 GasNEV the applicable return on imputed equity ("**RoE**") for OGE's revenue cap 2018-2022 is determined by BNetzA and calculated before corporate tax and after trade tax.

determination from 5 October 2016 that has been appealed by OGE amongst many other network operators. The Higher Regional Court in Duesseldorf revoked the BNetzA determination on 22 March 2018 considering the interest rates as being too low under current financial market circumstances. BNetzA appealed this decision to the Higher Federal Court for clarification. The Higher Federal Court is expected to decide the BNetzA complaint on 9 July 2019.

The efficiency benchmarking process has been finalised by BNetzA on 22 December 2017 notifying OGEs individual efficiency factor of 100 per cent. equally to the efficiency factors in the First and Second Regulatory Period.

The determination of the revenue cap includes the Xgen, applicable to the cost base level that generally reduced the annual revenue cap by 1.25 per cent. per annum in the First Regulatory Period and 1.5 per cent. per annum in the Second Regulatory Period. For the Third Regulatory Period BNetzA is obliged to determine the Xgen based on scientifically accepted methods and therefore published on 21 February 2018 a value of 0.49 per cent. *per annum* to be applied to gas network operators over the Third Regulatory Period. This decision has also been appealed by OGE amongst many other operators. On 20 March 2019, Düsseldorf Higher Regional Court heard a case concerning the Xgen for the Third Regulatory period. This was the first time a court has dealt with the matter. Due to its complexity, the legal proceedings are expected to continue in the course of 2019.

On the basis of the approved cost base 2015, an individual efficiency factor of 100 per cent. and the Xgen of 0.49 per cent., BNetzA started the consultation of OGE's revenue cap for the Third Regulatory Period on 28 March 2018. The revenue cap will be applied retroactively as of 1 January 2018. OGE received the final decision regarding the revenue cap for the years 2018-2022 on 15 June 2018. As OGE refrained from filing a formal objection with the regulator, the decision has become legally binding on 16 July 2018. However, the determination contains an adjustment clause regarding return on imputed equity and Xgen as a result of currently pending legal disputes as mentioned in the business description ("**Regulatory Proceedings**"). BNetzA decided to approve the balance of the regulatory account from previous years in a separate procedure. This applies to the regulatory account of the years 2012-2017. BNetzA sent a draft decision for the Regulatory Account 2012-2016 on 2 April 2019 that is currently being reviewed by OGE. A final decision is expected earliest in May 2019. This decision also incorporates the Regulatory Account 2012-2016 for Jordgas GmbH.

Under the regime of incentive regulation, investments required for the expansion or restructuring of the transmission network can be approved by BNetzA as investment measures (*Investitionsmaßnahmen*) according to Section 23 ARegV. As a result, capital costs and additional operating costs (the latter as a OPEX lump sum related to historic asset values) of these investments increase the annual revenue cap in the course of the regulatory periods covered by the approval. Costs associated with these investment measures are deemed permanently non-determinable costs and are reflected in the revenue cap for the time of their approval. Thereafter, the respective assets will form part of the regulatory asset base. Since 2012 corresponding capital and operating costs of approved investment measures are directly reflected in the revenue cap without time lag on the basis of planned cost with subsequent settlement between planned and actual cost ("t-0" approach). However, the revenues earned by an investment measure in the last three years of the approval period have to be accumulated and given back to the market over 20 years by reducing the respective future annual revenue caps ("**Clawback**").

In October 2018, the Federal Ministry for Economic Affairs and Energy started a legislative procedure that affects the ARegV among other electricity-specific stipulations. The amendments of the legal framework mainly intend to govern the remuneration of offshore electricity connections but also the general remuneration of IMA according to Section 23 of the ARegV.

The objective of the legislator is the general limitation of the approval period for only one regulatory period and the split of the OPEX lump sum into a lump sum granted prior to the commissioning of the relevant asset and a lump sum granted after commissioning of the asset.

In February 2019, the Federal Council (*Bundesrat*) approved the amendments of the ARegV revision. The amended ordinance stipulates that the differentiation of OPEX remunerations for assets prior and after commissioning shall apply to Investment Measures applied for after 31 December 2018. The changes came into force on 21 March 2019.

Since 2009, OGE has applied for approval of many investment measures according to Section 23 ARegV. Most of these measures are mandatory projects derived from the binding national NDPs. Most of the investment measure applications have already been approved by BNetzA, some approvals for newer projects are outstanding as BNetzA expects the NDP, which is reviewed and extended if necessary every other year, to be finally confirmed before approving investment measure applications.

On 14 March 2019, the Federal Ministry of Economy (*Bundeswirtschaftsministerium*) published an additional draft for the amendment of ARegV and GasNZV with stipulations for the connection of Liquefied Natural Gas terminals. It is foreseen that the connecting network operator has to bear 90 per cent. of the investment for the connection pipeline to be reimbursed via the investment measure mechanism according to Section 23 ARegV. The changes are expected to come into force in 2019.

Furthermore, the current regulatory framework provides for the use of a "quality factor" for TSOs and DSOs. Once such quality factor is established the BNetzA may apply premiums or deductions to the revenue cap if an operator performance with regard to grid reliability or grid performance deviates from key figure requirements (the quality element). The criteria for the quality factor and its implementation mechanism have yet not being prescribed by the BNetzA for the gas sector.

Regulatory Proceedings

The following complaint proceedings which may have an impact on OGE's revenue cap for the current regulatory period (for the years 2018-2022) are currently pending:

- a complaint against the decision of the BNetzA in 2016 on the Return on Equity determination for the Third Regulatory Period; this complaint has already been decided by the Higher Regional Court in Duesseldorf by revoking the BNetzA determination; BNetzA appealed for clarification to the Higher Federal Court. After a public hearing on 9 April 2019 in a similar case, the Higher Federal court announced a decision to be declared on 9 July 2019.
- a complaint of OGE against BNetzA decisions in 2018 in respect of the determination of Xgen with a value of 0.49 per cent. *per annum* for the Third Regulatory Period; a decision of the Higher Regional Court can be expected for late 2019. OGE's appeal has been preliminarily put on hold until the current test suit (*Musterverfahren*) of another Gas TSO will have been decided by the Higher Regional Court. A first public hearing was held on 20 March 2019, the legal proceedings are expected to continue in the course of 2019.

Since such complaint proceedings are challenging decisions which have or would have an effect on OGE, such proceedings are not considered to pose a risk to OGE but rather present a potential upside.

GENERAL DESCRIPTION OF THE PROGRAMME

Under this EUR 5,000,000,000 Debt Issuance Programme, the Issuer may from time to time issue Notes to one or more of the Dealers (as defined herein). The maximum aggregate principal amount of the Notes from time to time outstanding under the Programme will not exceed EUR 5,000,000,000 (or the equivalent in other currencies at the time of the issue). The Issuer may increase the amount of the Programme in accordance with the terms of the Dealer Agreement from time to time.

Notes will be issued on a continuous basis in Tranches of Notes, each Tranche consisting of Notes which are identical in all respects. One or more Tranches, which are expressed to be consolidated and forming a single series and are identical in all respects, but which may have different issue dates, interest commencement dates, issue prices and dates for first interest payments may form a series of Notes ("**Series**"). Further Notes may be issued as part of existing Series. The specific terms of each Tranche will be set forth in the applicable Final Terms. The Final Terms of Notes listed on the official list of the Luxembourg Stock Exchange will be displayed on the website of the Luxembourg Stock Exchange (www.bourse.lu). In the case of Notes listed on any other stock exchange, the Final Terms will be displayed on the website of the Issuer (www.viergas.de).

The Notes are freely transferable. Notes may be issued at an issue price which is at par or at a discount to, or premium over, par, as stated in the applicable Final Terms. The yield for Fixed Rate Notes will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

The Final Terms in respect of any Notes will include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (Distributor) should take into consideration the target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

If the Final Terms in respect of any Notes include a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently, no key information document required by the PRIIPs Regulation for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Issue Procedures

The Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each particular Tranche of Notes (the "**Conditions**"). The Conditions will be constituted by the relevant set of Terms and Conditions of the Notes set forth below (the "**Terms and Conditions**") as further specified by the provisions of the Final Terms as set out below.

Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the Issuer to choose among the following Options:

Option I – Terms and Conditions for Notes with fixed interest rates (Fixed Rate Notes);

Option II – Terms and Conditions for Notes with floating interest rates (Floating Rate Notes); and

Option III – Terms and Conditions for Notes without interest coupon (Zero Coupon Notes).

Documentation of the Conditions

The Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of Option I, Option II or Option III, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche.
- Alternatively, the Final Terms shall determine which of Option I, Option II or Option III and of the respective further options contained in each of Option I, Option II or Option III are applicable to the individual issue by only referring to the specific sections of the relevant set of Terms and Conditions as set out in the Prospectus. The Final Terms will specify that the provisions of the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus attached.

Determination of Options/ Completion of Placeholders

The Final Terms shall determine which of Option I, Option II or Option III shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I, Option II or Option III also contains certain further options (characterised by indicating the optional provision through instructions and explanatory notes set out either on the left of or in the square brackets within the text of the relevant set of Terms and Conditions as set out in the Prospectus) as well as placeholders (characterised by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

Determination of Options

The Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the sections of the relevant set of Terms and Conditions as set out in the Prospectus. If the Final Terms do not replicate or refer to an alternative or optional provision it shall be deemed to be deleted from the Conditions.

Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions. In that case, all instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

TERMS AND CONDITIONS OF THE NOTES

The Terms and Conditions of the Notes (the "**Terms and Conditions**") are set forth below for three options:

Option I comprises the set of Terms and Conditions that apply to Tranches of Notes with fixed interest rates (Fixed Rate Notes);

Option II comprises the set of Terms and Conditions that apply to Tranches of Notes with floating interest rates (Floating Rate Notes); and

Option III comprises the set of Terms and Conditions that apply to Tranches of Notes without interest coupons (Zero Coupon Notes).

The set of Terms and Conditions for each of these Options contains certain further options, which are characterised accordingly by indicating the respective optional provision through instructions and explanatory notes set out in square brackets within the set of Terms and Conditions.

In the Final Terms the Issuer will determine, which of Option I, Option II or Option III including certain further options contained therein, respectively, shall apply with respect to an individual issue of Notes, either by replicating the relevant provisions or by referring to the relevant options.

To the extent that upon the approval of the Prospectus the Issuer had no knowledge of certain items which are applicable to an individual issue of Notes, this Prospectus contains placeholders set out in square brackets which include the relevant items that will be completed by the Final Terms.

Terms and Conditions

This Series of Notes is issued pursuant to a Fiscal Agency Agreement dated on or about 7 May 2019 (the "**Agency Agreement**") between Vier Gas Transport GmbH and the Fiscal Agent and the other parties named therein.

The provisions of these Terms and Conditions apply to the Notes as completed by the terms of the final terms attached hereto (the "**Final Terms**"). The blanks in the provisions of these Terms and Conditions which are applicable to the Notes shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the blanks of such provisions; alternative or optional provisions of these Terms and Conditions as to which the corresponding provisions of the Final Terms are not completed or are deleted shall be deemed to be deleted from these Terms and Conditions; and all provisions of these Terms and Conditions which are inapplicable to the Notes (including instructions, explanatory notes and text set out in square brackets) shall be deemed to be deleted from these Terms and Conditions, as required to give effect to the terms of the Final Terms. Copies of the Final Terms may be obtained free of charge at the specified office of the Fiscal Agent and at the specified office of any Paying Agent and at the principal office of the Issuer **provided that**, in the case of Notes which are not listed on any stock exchange, copies of the relevant Final Terms will only be available to Holders of such Notes.

§ 10 (SUBSTITUTION)

- (1) **Substitution.** The Issuer (reference to which shall always include any previous Substitute Debtor (as defined below)) may, at any time, if no payment of principal of or interest on any of the Notes is in default, without the consent of the Holders, substitute for the Issuer any Affiliate (as defined below) of the Issuer as the principal debtor in respect of all obligations arising from or in connection with the Notes (any such company, the "**Substitute Debtor**"), **provided that:**
 - (a) the Substitute Debtor assumes all obligations of the Issuer in respect of the Notes and is in a position to fulfil all payment obligations arising from or in connection with the Notes in the Specified Currency without, subject to subparagraph (1)(e) below, the necessity of any taxes or duties levied by the country or jurisdiction in which the Substitute Debtor is domiciled (other than taxes which would also be levied in the absence of such substitution) to be withheld or deducted at source and to transfer all amounts which are required therefore to the Paying Agent without any restrictions, and that in particular all necessary authorizations to this effect by any competent authority have been obtained, and, to the extent service of process must be effected to the Substitute Debtor outside of Germany, a service of process agent in Germany is appointed;
 - (b) the Issuer irrevocably and unconditionally guarantees in favour of each Holder the payment of all sums payable by the Substitute Debtor in respect of the Notes on market standard terms for debt issuance programmes of investment grade rated guarantors and taking into account the Terms and Conditions (the "**Substitution Guarantee**");
 - (c) the Substitute Debtor and the Issuer have obtained all necessary governmental and regulatory approvals and consents for such substitution and for providing of the Substitution Guarantee by the Issuer in respect of the obligations of the Substitute Debtor, that the Substitute Debtor has obtained all necessary governmental and regulatory approvals and consents for the performance by the Substitute Debtor of its obligations under the Notes, and that all such approvals and consents are in full force and effect and that the obligations assumed by the Substitute Debtor and the Substitution Guarantee provided by the Issuer are each valid and binding in accordance with their respective terms and enforceable by each Holder;
 - (d) § 9 shall be deemed to be amended so that it shall also be an event of default under such provision if the Substitution Guarantee shall cease to be valid or binding on or enforceable against the Issuer;
 - (e) the Substitute Debtor undertakes to reimburse any Holder for such taxes, fees or duties which may be imposed upon such Holder in connection with any payments on the Notes

(including taxes or duties being deducted or withheld at source), upon conversion or otherwise, as a consequence of the assumption of the Issuer's obligations by the Substitute Debtor, **provided that** such undertaking shall be limited to amounts that would not have been imposed upon the Holder had such substitution not occurred; and

Furthermore, in the event of such substitution the following shall apply:

- (b) in § 9(1)(c) to (g) an alternative reference to the Issuer in its capacity as guarantor shall be deemed to have been included in addition to the reference to the Substitute Debtor.

Any such substitution, together with the notice referred to in subparagraph (3) below, shall, in the case of the substitution of any other company as principal debtor, operate to release the Issuer as issuer from all of its obligations as principal debtor in respect of the Notes.

- (3) **Notification to Holders.** Not later than 15 Payment Business Days after effecting the substitution, the Substitute Debtor shall give notice thereof to the Holders and, if any Notes are listed on any stock exchange, to such stock exchange in accordance with § 13 and to any other person or authority as required by applicable laws or regulations.

§ 10
(SUBSTITUTION)

- (1) **Substitution.** The Issuer (reference to which shall always include any previous Substitute Debtor (as defined below)) may, at any time, if no payment of principal of or interest on any of the Notes is in default, without the consent of the Holders, substitute for the Issuer any Affiliate (as defined below) of the Issuer as the principal debtor in respect of all obligations arising from or in connection with the Notes (any such company, the "**Substitute Debtor**"), **provided that:**
- (a) the Substitute Debtor assumes all obligations of the Issuer in respect of the Notes and is in a position to fulfil all payment obligations arising from or in connection with the Notes in the Specified Currency without, subject to para. (e) below, the necessity of any taxes or duties levied by the country or jurisdiction in which the Substitute Debtor is domiciled (other than taxes which would also be levied in the absence of such substitution) to be withheld or deducted at source and to transfer all amounts which are required therefore to the Paying Agent without any restrictions, and that in particular all necessary authorizations to this effect by any competent authority have been obtained, and, to the extent service of process must be effected to the Substitute Debtor outside of Germany, a service of process agent in Germany is appointed;
 - (b) the Issuer irrevocably and unconditionally guarantees in favour of each Holder the payment of all sums payable by the Substitute Debtor in respect of the Notes on market standard terms for debt issuance programmes of investment grade rated guarantors and taking into account the Terms and Conditions (the "**Substitution Guarantee**");
 - (c) the Substitute Debtor and the Issuer have obtained all necessary governmental and regulatory approvals and consents for such substitution and for providing of the Substitution Guarantee by the Issuer in respect of the obligations of the Substitute Debtor, that the Substitute Debtor has obtained all necessary governmental and regulatory approvals and consents for the performance by the Substitute Debtor of its obligations under the Notes, and that all such approvals and consents are in full force and effect and that the obligations assumed by the Substitute Debtor and the Substitution Guarantee provided by the Issuer are each valid and binding in accordance with their respective terms and enforceable by each Holder;
 - (d) § 9 shall be deemed to be amended so that it shall also be an event of default under such provision if the Substitution Guarantee shall cease to be valid or binding on or enforceable against the Issuer;

- (2) **Discharge from Obligations. Furthermore, in the event of such substitution the following shall apply:

- (3) **Notification to Holders.** Not later than 15 Payment Business Days after effecting the substitution, the Substitute Debtor shall give notice thereof to the Holders and, if any Notes are listed on any stock exchange, to such stock exchange in accordance with § 13 and to any other person or authority as required by applicable laws or regulations.

- (1) **Substitution.** The Issuer (reference to which shall always include any previous Substitute Debtor (as defined below)) may, at any time, if no payment of principal of or interest on any of the Notes is in default, without the consent of the Holders, substitute for the Issuer any Affiliate (as defined below) of the Issuer as the principal debtor in respect of all obligations arising from or in connection with the Notes (any such company, the "**Substitute Debtor**"), **provided that:**
- (a) the Substitute Debtor assumes all obligations of the Issuer in respect of the Notes and is in a position to fulfil all payment obligations arising from or in connection with the Notes in the Specified Currency without, subject to para. (e) below, the necessity of any taxes or duties levied by the country or jurisdiction in which the Substitute Debtor is domiciled (other than taxes which would also be levied in the absence of such substitution) to be withheld or deducted at source and to transfer all amounts which are required therefore to the Paying Agent without any restrictions, and that in particular all necessary authorizations to this effect by any competent authority have been obtained, and, to the extent service of process must be effected to the Substitute Debtor outside of Germany, a service of process agent in Germany is appointed;

- (b) the Issuer irrevocably and unconditionally guarantees in favour of each Holder the payment of all sums payable by the Substitute Debtor in respect of the Notes on market standard terms for debt issuance programmes of investment grade rated guarantors and taking into account the Terms and Conditions (the "**Substitution Guarantee**");
- (c) the Substitute Debtor and the Issuer have obtained all necessary governmental and regulatory approvals and consents for such substitution and for providing of the Substitution Guarantee by the Issuer in respect of the obligations of the Substitute Debtor, that the Substitute Debtor has obtained all necessary governmental and regulatory approvals and consents for the performance by the Substitute Debtor of its obligations under the Notes, and that all such approvals and consents are in full force and effect and that the obligations assumed by the Substitute Debtor and the Substitution Guarantee provided by the Issuer are each valid and binding in accordance with their respective terms and enforceable by each Holder;
- (d) § 9 shall be deemed to be amended so that it shall also be an event of default under such provision if the Substitution Guarantee shall cease to be valid or binding on or enforceable against the Issuer;
- (e) the Substitute Debtor undertakes to reimburse any Holder for such taxes, fees or duties which may be imposed upon such Holder in connection with any payments on the Notes (including taxes or duties being deducted or withheld at source), upon conversion or otherwise, as a consequence of the assumption of the Issuer's obligations by the Substitute Debtor, **provided that** such undertaking shall be limited to amounts that would not have been imposed upon the Holder had such substitution not occurred; and
- (f) there shall have been delivered to the Fiscal Agent one opinion for each jurisdiction affected of lawyers of recognised standing to the effect that subparagraphs (a) through (e) above have been satisfied.

For purposes of this § 10, "**Affiliate**" shall mean any affiliated company (*verbundenes Unternehmen*) within the meaning of Sections 15 *et seq.* of the German Stock Corporation Act (*Aktiengesetz*) held by the Issuer.

- (2) **Discharge from Obligations. References.** Upon a substitution in accordance with this § 10, the Substitute Debtor shall be deemed to be named in the Notes as the principal debtor in place of the Issuer as issuer and the Notes shall thereupon be deemed to be amended to give effect to the substitution including that the relevant jurisdiction in relation to the Issuer in § 7 shall be the Substitute Debtor's country of domicile for tax purposes. Furthermore, in the event of such substitution the following shall apply:
 - (a) in § 7 and § 5(2) an alternative reference to the Federal Republic of Germany shall be deemed to have been included in addition to the reference according to the preceding sentence to the country of domicile or residence for taxation purposes of the Substitute Debtor;
 - (b) in § 9(1)(c) to (g) an alternative reference to the Issuer in its capacity as guarantor shall be deemed to have been included in addition to the reference to the Substitute Debtor.

Any such substitution, together with the notice referred to in subparagraph (3) below, shall, in the case of the substitution of any other company as principal debtor, operate to release the Issuer as issuer from all of its obligations as principal debtor in respect of the Notes.

- (3) **Notification to Holders.** Not later than 15 Payment Business Days after effecting the substitution, the Substitute Debtor shall give notice thereof to the Holders and, if any Notes are listed on any stock exchange, to such stock exchange in accordance with § 13 and to any other person or authority as required by applicable laws or regulations.

§ 11
(FURTHER ISSUES, PURCHASES AND CANCELLATION)

- (1) **Further Issues.** The Issuer may from time to time, without the consent of the Holders, issue further Notes having the same terms and conditions as the Notes in all respects (or in all respects except for the settlement date, interest commencement date and/or issue price) so as to form a single Series with the Notes.
- (2) **Purchases.** The Issuer may at any time purchase Notes in the open market or otherwise and at any price. Notes purchased by the Issuer may, at the option of the Issuer, be held, resold or surrendered to the Fiscal Agent for cancellation. If purchases are made by tender, tenders for such Notes must be made available to all Holders of such Notes alike.
- (3) **Cancellation.** All Notes redeemed in full shall be cancelled forthwith and may not be reissued or resold.

§ 12
**(AMENDMENTS OF THE TERMS AND CONDITIONS BY RESOLUTIONS OF HOLDERS,
JOINT REPRESENTATIVE)**

- (1) **Resolutions of Holders.** The Holders may with consent of the Issuer (if required) by a majority resolution pursuant to Section 5 *et seq.* of the German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*) (the "**SchVG**"), as amended from time to time, agree to amendments of the Terms and Conditions or resolve any other matters provided for by the SchVG. In particular, the Holders may consent to amendments which materially change the substance of the Terms and Conditions, including such measures as provided for under Section 5 paragraph 3 SchVG by resolutions passed by such majority of the votes of the Holders as stated under § 12(2) below. A duly passed majority resolution shall be binding upon all Holders.
- (2) **Majority.** Except as provided by the following sentence and **provided that** the quorum requirements are being met, the Holders may pass resolutions by simple majority of the voting rights participating in the vote. Resolutions which materially change the substance of the Terms and Conditions, in particular in the cases of Section 5 paragraph 3 numbers 1 through 9 SchVG, or relating to material other matters may only be passed by a majority of at least 75 per cent. of the voting rights participating in the vote (a "**Qualified Majority**").
- (3) **Passing of resolutions.** The Holders can pass resolutions in a meeting (*Gläubigerversammlung*) in accordance with Section 5 *et seq.* of the SchVG or by means of a vote without a meeting (*Abstimmung ohne Versammlung*) in accordance with Section 18 and Section 5 *et seq.* of the SchVG.
- (4) **Holders' meeting.** If resolutions of the Holders shall be made by means of a meeting the convening notice will provide for further details relating to the resolutions and the voting procedure. The subject matter of the vote as well as the proposed resolutions shall be notified to the Holders together with the convening notice. Attendance at the meeting and exercise of voting rights is subject to the Holders' registration. The registration must be received at the address stated in the convening notice no later than the third day preceding the meeting. As part of the registration, Holders must demonstrate their eligibility to participate in the vote by means of a special confirmation of the Custodian (as defined in § 14 (3)) in accordance with § 14(3)(i)(a) and (b) hereof in text form and by submission of a blocking instruction by the Custodian stating that the relevant Notes are not transferable from and including the day such registration has been sent until and including the stated end of the meeting.
- (5) **Vote without a meeting.** Together with casting their votes, Holders must demonstrate their eligibility to participate in the vote by means of a special confirmation of the Custodian in accordance with § 14(3)(i)(a) and (b) hereof in text form and by submission of a blocking instruction by the Custodian stating that the relevant Notes are not transferable from and including the day such votes have been cast until and including the day the voting period ends.
- (6) **Second meeting.** If it is ascertained that no quorum exists for the meeting pursuant to § 12(4) or the vote without a meeting pursuant to § 12(4), in case of a meeting the chairman may convene a

second meeting in accordance with Section 15 paragraph 3 sentence 2 of the SchVG or in case of a vote without a meeting the scrutineer may convene a second meeting within the meaning of Section 15 paragraph 3 sentence 3 of the SchVG. Attendance at the second meeting and exercise of voting rights is subject to the Holders' registration. The provisions set out in § 12(4) shall apply *mutatis mutandis* to the Holders' registration for a second meeting.

- (7) **Holders' representative. [If no Holders' Representative is designated in the Terms and Conditions of the Notes the following applies:** The Holders may by majority resolution appoint a common representative to exercise the Holders' rights on behalf of each Holder (the " **Holders' Representative**").

The Holders' Representative shall have the duties and powers provided by law or granted by majority resolution of the Holders. The Holders' Representative shall comply with the instructions of the Holders. To the extent that the Holders' Representative has been authorised to assert certain rights of the Holders, the Holders shall not be entitled to assert such rights themselves, unless explicitly provided for in the relevant majority resolution. The Holders' Representative shall provide reports to the Holders on its activities. The regulations of the SchVG apply with regard to the recall and the other rights and obligations of the Holders' Representative.]

[If the Holders' Representative is appointed in the Terms and Conditions of the Notes, the following applies: The joint representative (the " **Holders' Representative**") shall be [name and address]. The Holders' Representative shall have the duties and responsibilities and powers provided for by law. The liability of the Holders' Representative shall be limited to ten times of the amount of its annual remuneration, unless the Holders' Representative has acted wilfully or with gross negligence. The provisions of the SchVG apply with respect to the dismissal of the Holders' Representative and the other rights and obligations of the Holders' Representative.]

- (8) **Publication.** Any notices concerning this § 12 shall be made exclusively pursuant to the provisions of the SchVG.
- (9) **Amendments of guarantees.** The provisions set out above applicable to the Notes shall apply *mutatis mutandis* to any guarantee provided in relation to the Notes.

- (3) **Enforcement.** Any Holder of Notes may in any proceedings against the Issuer or to which such Holder and the Issuer are parties, protect and enforce in his own name his rights arising under such Notes on the basis of (i) a statement issued by the Custodian with whom such Holder maintains a securities account in respect of the Notes (a) stating the full name and address of the Holder, (b) specifying the aggregate principal amount of Notes credited to such securities account on the date of such statement and (c) confirming that the Custodian has given written notice to the Clearing System containing the information pursuant to (a) and (b) which has been confirmed by the Clearing System; (ii) a copy of the Note in global form certified as being a true copy by a duly authorised officer of the Clearing System or a depositary of the Clearing System, without the need for production in such proceedings of the actual records or the global note representing the Notes or (iii) any other means of proof permitted in legal proceedings in the country of enforcement. For purposes of the foregoing, "**Custodian**" means any bank or other financial institution of recognised standing authorised to engage in securities custody business with which the Holder maintains a securities account in respect of the Notes and which maintains an account with the Clearing System, and includes the Clearing System. Each Holder may, without prejudice to the foregoing, protect and enforce his rights under these Notes also in any other way which is admitted in the country of the Proceedings.

USE OF PROCEEDS

Except as disclosed in the relevant Final Terms, as applicable, the net proceeds of the issue of each Tranche of Notes will be used by the Issuer for general corporate purposes. If in respect of any particular issue there is a particular identified use of proceeds, this will be stated in the applicable Final Terms.

TAXATION

The following is a general discussion of certain tax consequences under the tax laws of the Federal Republic of Germany and the Grand Duchy of Luxembourg of the acquisition and ownership of Notes. This discussion does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes. As each Tranche of Notes may be subject to a different tax treatment due to the specific terms of such Tranche of Notes as set out in the respective Final Terms, the following section only provides some very general information on the possible tax treatment. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. This overview is based on the laws of the Federal Republic of Germany and the Grand Duchy of Luxembourg currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS APPLICABLE IN THE FEDERAL REPUBLIC OF GERMANY, THE GRAND DUCHY OF LUXEMBOURG AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS.

I. Germany

1. Income Taxation – Tax Residents

Persons (individuals and corporate entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to income taxation (income tax or corporate income tax, as the case may be, plus solidarity surcharge thereon plus church tax and/or trade tax, if applicable) on their worldwide income, regardless of its source, including interest from debt of any kind (such as the Notes) and, in general, capital gains.

a. Taxation if the Notes are held as private assets (*Privatvermögen*)

In the case of German tax-resident individual investors (*unbeschränkt Steuerpflichtige*) holding the Notes as private assets (*Privatvermögen*), the following applies:

i. Income

The Notes qualify as other capital receivables (*sonstige Kapitalforderungen*) in terms of Section 20 para 1 no 7 German Income Tax Act ("**ITA**" – *Einkommensteuergesetz*).

Accordingly, payments of interest on the Notes qualify as taxable savings income (*Einkünfte aus Kapitalvermögen*) pursuant to Section 20 para 1 no 7 ITA.

Capital gains / capital losses realised upon sale of the Notes, computed as the difference between the acquisition costs and the sales proceeds reduced by expenses directly and factually related to the sale, qualify as positive or negative savings income in terms of Section 20 para 2 sentence 1 no 7 ITA. If similar Notes kept or administered in the same custodial account have been acquired at different points in time, the Notes first acquired will be deemed to have been sold first for the purposes of determining the capital gains. Where the Notes are acquired and/or sold in a currency other than Euro, the acquisition costs will be converted into Euro at the time of acquisition, the sales proceeds will be converted into Euro at the time of sale and the difference will then be computed in Euro. If interest claims are disposed of separately (i.e. without the Notes), the proceeds from the sale are subject to taxation. The same applies to proceeds from the payment of interest claims if the Notes have been disposed of separately. If the Notes are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in eine Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale. Losses from the sale of Notes can only be offset against other savings income and, if there is not sufficient other positive savings income, carried forward to subsequent assessment periods.

Pursuant to a tax decree issued by the Federal Ministry of Finance dated 18 January 2016, as amended from time to time, a sale shall be disregarded where the transaction costs exceed the sales proceeds, which means that losses suffered from such "sale" shall not be tax-deductible. Similarly, a bad debt loss (*Forderungsausfall*), i.e. should the Issuer become insolvent, and a waiver of a receivable

(*Forderungsverzicht*), to the extent the waiver does not qualify as a hidden contribution, shall not be treated like a sale. Accordingly, losses suffered upon such bad debt loss or waiver shall not be tax-deductible. The same shall apply where, based on an agreement with the depositary institution, the transaction costs are calculated on the basis of the sale proceeds taking into account a deductible amount. With respect to transaction costs exceeding the sales proceeds and a bad debt loss, the German Federal Fiscal Court (*Bundesfinanzhof*) has recently objected the view expressed by the Federal Ministry of Finance. However, the Federal Ministry of Finance has not yet updated the aforementioned tax decree in this respect. Further, the Issuer takes the view that losses suffered for other reasons (e.g. because the Notes are linked to a reference value and such reference value decreases in value) should be tax-deductible, subject to the ring-fencing rules described above. Investors should note that such view of the Issuer must not be understood as a guarantee that the tax authorities and/or courts will follow such view.

If the Issuer exercises the right to substitute the debtor of the Notes, the substitution might, for German tax purposes, be treated as an exchange of the Notes for new notes issued by the new debtor. Such a substitution could result in the recognition of a taxable gain or loss for the respective investors.

ii. German withholding tax (*Kapitalertragsteuer*)

With regard to savings earnings (*Kapitalerträge*), e.g. interest or capital gains, German withholding tax (*Kapitalertragsteuer*) will be levied if the Notes are kept or administered in a custodial account which the investor maintains with a German branch of a German or non-German credit or financial services institution or with a German securities trading business or a German securities trading bank (a "**German Disbursing Agent**") and such German Disbursing Agent credits or pays out the earnings.

The tax base is, in principle, equal to the taxable gross income as set out in i. above (i.e. prior to withholding). However, in the case of capital gains, if the custodial account has changed since the time of acquisition of the Notes (e.g. if the Notes had been transferred from a non-EU custodial account prior to the sale) and the acquisition costs of the Notes are not proven to the German Disbursing Agent in the form required by law, withholding tax is applied to 30 per cent. of the proceeds from the redemption or sale of the Notes. When computing the tax base for withholding tax purposes, the German Disbursing Agent has to deduct any negative savings income (*negative Kapitalerträge*) or paid accrued interest (*Stückzinsen*) in the same calendar year or unused negative savings income of previous calendar years.

German withholding tax will be levied by a German Disbursing Agent at a flat withholding tax rate of 26.375 per cent. (including solidarity surcharge) plus, if applicable, church tax. Church tax, if applicable, will be collected by the German Disbursing Agent by way of withholding unless the investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*). In the latter case, the investor has to include the savings income in the tax return and will then be assessed to church tax.

No German withholding tax will be levied if the investor has filed a withholding tax exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the savings income does not exceed the exemption amount shown on the withholding tax exemption certificate. Currently, the maximum exemption amount is EUR 801 (EUR 1,602 in the case of jointly assessed spouses or registered life partners). Similarly, no withholding tax will be levied if the investor has submitted a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office to the German Disbursing Agent.

The Issuer is, as a rule, not obliged to levy German withholding tax in respect of payments on the Notes.

iii. Tax assessment

The taxation of savings income shall take place mainly by way of levying withholding tax (please see above). If and to the extent German withholding tax has been levied, such withholding tax shall, in principle, become definitive and replace the investor's income taxation. If no withholding tax has been levied other than by virtue of a withholding tax exemption certificate (*Freistellungsauftrag*) and in certain other cases, the investor is nevertheless obliged to file a tax return, and the savings income will then be taxed within the assessment procedure. If the investor is subject to church tax and has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*), the investor is also obliged to include the savings income in the tax return for church tax purposes.

However, also in the assessment procedure, savings income is principally taxed at a separate tax rate for savings income (*gesonderter Steuertarif für Einkünfte aus Kapitalvermögen*) being identical to the withholding tax rate (26.375 per cent. - including solidarity surcharge (*Solidaritätszuschlag*) plus, if applicable, church tax). In certain cases, the investor may apply to be assessed on the basis of its personal tax rate if such rate is lower than the above tax rate. Such application can only be filed consistently for all savings income within the assessment period. In case of jointly assessed spouses or registered life partners the application can only be filed for savings income of both spouses / life partners.

When computing the savings income, the saver's lump sum amount (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 in the case of jointly assessed spouses or registered life partners) will be deducted. The deduction of the actual income related expenses, if any, is excluded. That holds true even if the investor applies to be assessed on the basis of its personal tax rate.

b. Taxation if the Notes are held as business assets (*Betriebsvermögen*)

In the case of German tax-resident corporations or individual investors (*unbeschränkt Steuerpflichtige*) holding the Notes as business assets (*Betriebsvermögen*), interest payments and capital gains will be subject to corporate income tax at a rate of 15 per cent. or income tax at a rate of up to 45 per cent., as the case may be, (in each case plus 5.5 per cent. solidarity surcharge thereon). In addition, trade tax may be levied, the rate of which depends on the municipality where the business is located. Further, in the case of individuals, church tax may be levied. Business expenses that are connected with the Notes are deductible.

The provisions regarding German withholding tax (*Kapitalertragsteuer*) apply, in principle, as set out in section a. iii. above. However, investors holding the Notes as business assets cannot file a withholding tax exemption certificate with the German Disbursing Agent. Instead, no withholding tax will be levied on capital gains from the redemption, sale or assignment of the Notes if, for example, (a) the Notes are held by a corporation or (b) the proceeds from the Notes qualify as income of a domestic business and the investor notifies this to the German Disbursing Agent by use of the officially required form.

Any withholding tax levied is credited as prepayment against the German (corporate) income tax amount. If the tax withheld exceeds the respective (corporate) income tax amount, the difference will be refunded within the tax assessment procedure.

2. Potential change in law

Please note that – pursuant to the coalition agreement of CDU, CSU and SPD – the flat tax regime shall be abolished for certain investment income, which might also affect the taxation of income from the Notes. For example, interest income might become taxed at the progressive tax rate of up to 45 per cent. (excluding solidarity surcharge). Further, the solidarity surcharge shall be abolished provided that certain thresholds are not exceeded. However, there is no draft law available yet, i.e. any details and, in particular, timing remain unclear.

3. Income Taxation – Non-residents

Persons who are not tax resident in Germany are not subject to tax with regard to income from the Notes unless (i) the Notes are held as business assets (*Betriebsvermögen*) of a German permanent establishment (including a permanent representative) which is maintained by the investor or (ii) the income from the Notes qualifies for other reasons as taxable German source income. If a non-resident person is subject to tax with its income from the Notes, in principle, similar rules apply as set out above with regard to German tax resident persons (please see 1. above).

If the income is subject to German tax as set out in the preceding paragraph, German withholding tax will be applied like in the case of a German tax resident person.

4. Inheritance and Gift Tax

Inheritance or gift taxes with respect to any Note will, in principle, arise under German law if, in the case of inheritance tax, either the decedent or the beneficiary or, in the case of gift tax, either the donor or the donee is a resident of Germany or if such Note is attributable to a German trade or business for which a permanent establishment is maintained or a permanent representative has been appointed.

The few existing double taxation treaties regarding inheritance and gift tax may lead to different results. Special rules apply to certain German citizens that are living in a foreign country and German expatriates.

4. Other Taxes

No stamp, issue, registration or similar taxes or duties are payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany. It is intended to introduce a financial transaction tax (FTT). However, it is unclear if and in what form such tax will be actually introduced (please see VI. below).

II. Grand Duchy of Luxembourg

The following is a general description of certain Luxembourg withholding tax considerations relating to the Notes. It specifically contains information on taxes on the income from the Notes withheld at source and provides an indication as to whether the Issuer assumes responsibility for the withholding of taxes at the source. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in Luxembourg or elsewhere. Prospective purchasers of the Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of the Notes, payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of Luxembourg. This summary is based upon the law as in effect on the date of this Prospectus. The information contained within this section is limited to withholding taxation issues, and prospective investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Notes.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature refers to Luxembourg tax law and/or concepts only.

A holder of Notes may not become resident, or deemed to be resident, in Luxembourg by reason only of the holding of the Notes, or the execution, performance, delivery and/or enforcement of the Notes.

1. Non-resident holders of Notes

Under Luxembourg general tax laws currently in force there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of Notes, provided that the interest on the Notes does not depend on the profit of the Issuer.

2. Resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the "**Relibi Law**") and mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident holders of Notes, provided that the interest on the Notes does not depend on the profit of the Issuer.

However, under the Relibi Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 20 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Relibi Law would be subject to a withholding tax of 20 per cent.

Further, Luxembourg resident individuals acting in the course of the management of their private wealth, who are the beneficial owners of interest or similar income made or ascribed by a paying agent established outside Luxembourg in a Member State of either the European Union or the European Economic Area may also opt for a final 20 per cent. levy, providing full discharge of Luxembourg income tax. In such case, the 20 per cent. levy is calculated on the same amounts as the 20 per cent. withholding tax for payments made

by Luxembourg resident paying agents. The option for the 20 per cent. final levy must cover all interest payments made by the paying agents to the Luxembourg resident beneficial owner during the entire civil year. Responsibility for the declaration and the payment of the 20 per cent. final levy is assumed by the individual resident beneficial owner of the interest or similar income.

III. FATCA

Sections 1471 through 1474 of the Internal Revenue Code of 1986, as amended, commonly referred to as FATCA, generally impose a new reporting and withholding regime with respect to certain payments made by entities that are classified as financial institutions under FATCA after the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register, and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the Issuer). The United States has entered into intergovernmental agreements with a number of jurisdictions (including the Netherlands, Germany, Luxembourg and Austria) to implement FATCA (the "IGAs"). Under the IGAs, as currently drafted, the Issuer does not expect payments made on or with respect to the Notes to be subject to withholding under FATCA. However, significant aspects of whether or how FATCA will apply remain unclear, and no assurance can be given that withholding under FATCA will not become relevant with respect to payments made on or with respect to the Notes in the future. Prospective investors should consult their own tax advisors regarding the potential impact of FATCA.

SUBSCRIPTION AND SALE

Underwriting

The Notes may be issued on a continuing basis to one or more of the Dealers specified herein and any additional Dealer appointed under the Programme from time to time by the Issuer, which appointment may be for a specific issue ("**Dealer of the Day**") or on an ongoing basis (together, the "**Dealers**"). The Notes will be distributed on a syndicated or non-syndicated basis. The method of distribution of each Tranche will be stated in the relevant Final Terms.

Notes may be sold from time to time by the Issuer to any one or more of the Dealers specified herein and any additional Dealer appointed under the Programme from time to time by the Issuer. The arrangements under which Notes may from time to time be agreed to be sold by the Issuer to, and purchased by, Dealers are set out in a Dealer Agreement dated on or about 7 May 2019 (the "**Dealer Agreement**") and made between the Issuer and the Dealers specified herein. Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes. A subscription agreement prepared in connection with a particular Tranche of Notes, if any, will typically be dated on or about the respective date of the Final Terms applicable to such Tranche of Notes.

Selling Restrictions

General

Each Dealer has represented, warranted and undertaken that it has complied and will comply with all applicable laws and regulations in each country or jurisdiction in or from which it purchases, offers, sells or delivers Notes or possesses, distributes or publishes the Prospectus or any Final Terms or any related offering material and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer, nor any other Dealer shall have any responsibility therefor.

With regard to each Tranche, the relevant Dealer will be required to comply with such other additional restrictions as the Issuer and the relevant Dealer shall agree and as shall be set out in the applicable Final Terms.

European Economic Area

Unless the relevant Final Terms in respect of any Notes specify "*Prohibition of Sales to European Economic Area Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision:

- (a) the expression retail investor means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of MiFiD II; or
 - (ii) a customer within the meaning of Directive 2016/97/EU of the European Parliament and of the Council of 20 January 2016 on insurance distribution, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFiD II; or
 - (iii) not a qualified investor as defined in the Prospectus Directive; and
- (b) the expression offer includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the relevant Final Terms in respect of any Notes specify "*Prohibition of Sales to European Economic Area Retail Investors*" as "*Not Applicable*", in relation to each Member State of the EEA which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (ii) to (iv) above shall require the relevant Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression "**Prospectus Directive**" means Directive 2003/71/EC, as amended or superseded.

United States of America (the "United States")

- (a) With regard to each Tranche, each Dealer has acknowledged that the Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Each Dealer has represented, warranted and undertaken that, except in accordance with Rule 903 of Regulation S under the Securities Act, it has not offered or sold, and will not offer or sell, any Note within the United States or to, or for the benefit of U.S. persons (i) as part of its distribution at any time, or (ii) otherwise until 40 days after the later of the commencement of the offering or the closing date, and it will have sent to each Dealer to which it sells Notes during the 40- day restricted period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S.

Accordingly, each Dealer has further represented, warranted and undertaken that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to any Note.

Each Dealer has represented, warranted and undertaken that neither it, its affiliates nor any persons acting on its or their behalf have offered or sold or will offer and sell the Notes by means of any form of general solicitation or general advertising (as those terms are used in Rule 502(c) under the Securities Act) in the United States. Each Dealer has further represented, warranted and undertaken that neither it, its affiliates nor any persons acting on its or their behalf have made or caused to be made or will make or cause to be made a public offer of the Notes in the United States.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code and regulations thereunder.

The Notes may not be purchased by or transferred to any employee benefit plan subject to Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended, any plan or arrangement subject to Section 4975 of the U.S. Internal Revenue Code of 1986, as amended, or any entity whose underlying assets include the assets of any such employee benefit plans, plans or arrangements.

- (b) Each Dealer (i) acknowledges that the Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act; (ii) represents, warrants and undertakes that it has not offered, sold or delivered any Notes, and will not offer, sell or deliver any Notes, (x) as part of its distribution at any time or (y) otherwise until 40 days after the later of the commencement of the offering and closing date, except in accordance with Rule 903 of Regulation S under the Securities Act; and accordingly, (iii) further represents, warrants and undertakes that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to any Note, and it and they have complied and will comply with the offering restrictions requirements of Regulation S; and (iv) also agrees that, at or prior to confirmation of any sale of Notes, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The Notes covered hereby have not been registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons by any person referred to in Rule 903(b)(2)(iii) of Regulation S under the Securities Act (i) as part of their distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the closing date, except in either case in accordance with Regulation S under the Securities Act. Terms used above have the meanings given to them by Regulation S under the Securities Act."

- (c) Each Dealer who has purchased Notes of a Tranche hereunder (or in the case of a sale of a Tranche of Notes issued to or through more than one Dealer, each of such Dealers as to the Notes of such Tranche purchased by or through it or, in the case of a syndicated issue, the relevant Lead Manager) shall determine and notify to the Fiscal Agent and the Issuer the completion of the distribution of the Notes of such Tranche.
- (d) With regard to each Tranche, each Dealer represents, warrants and undertakes that it has not entered and will not enter into any contractual arrangement with respect to the distribution or delivery of Notes, except with its affiliates or with the prior written consent of the Issuer.
- (e) Notes will be issued (i) in accordance with the provisions of U.S. Treas. Reg. § 1.163-5(c)(2)(i)(C) (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code of 1986, as amended) (the "**C Rules**"), or (ii) in accordance with the provisions of U.S. Treas. Reg. § 1.163-5(c)(2)(i)(D) (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code of 1986, as amended) (the "**D Rules**"), as specified in the Final Terms.

In addition, where the C Rules are specified in the Final Terms as being applicable to any Tranche of Notes, Notes must be issued and delivered outside the United States and its possessions in connection with their original issuance. Each Dealer has represented, warranted and undertaken that it, in connection with the original issuance of Notes has not offered sold or delivered and will not offer, sell or deliver, directly or indirectly, Notes within the United States or its possessions in connection with their original issuance. Further, each Dealer has represented, warranted and undertaken in connection with the original issuance of Notes, that it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if either such Dealer or such purchaser is within the United States or its possessions and will not otherwise involve its U.S. office in the offer or sale of Notes. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder, including the C Rules.

In addition, in respect of Notes issued in accordance with the D Rules, each Dealer has represented, warranted and undertaken that:

- (i) except to the extent permitted under the D Rules, (x) it has not offered or sold, and during the restricted period will not offer or sell, Notes to a person who is within the United States or its possessions or to a United States person, and (y) such Dealer has not delivered and will not deliver within the United States or its possessions definitive Notes that are sold during the restricted period;
- (ii) it has, and throughout the restricted period will have, in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
- (iii) if such Dealer is a United States person, it has represented that it is acquiring the Notes for purposes of resale, in connection with their original issuance and if such Dealer retains Notes for its own account, it will only do so in accordance with the requirements of U.S. Treas. Reg. § 1.163-5(c)(2)(i)(D)(6) (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code of 1986, as amended); and
- (iv) with respect to each affiliate that acquires from such Dealer notes for the purposes of offering or selling such Notes during the restricted period, such Dealer either (x) has repeated and confirmed the representations and agreements contained in sub-clauses (i), (ii) and (iii) above on such affiliate's behalf or (y) has agreed that it will obtain from such affiliate for the benefit of the purchaser of the Notes and the Issuer the representations and agreements contained in sub-clauses (i), (ii) and (iii) above.

Terms used in this paragraph (e) have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder, including the D Rules.

United Kingdom

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) *Financial Promotion*: it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 ("FSMA")) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21 (1) of the FSMA does not apply to the Issuer; and
- (b) *General Compliance*: it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) and, accordingly, each Dealer has undertaken that it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any Japanese Person or to others for re-offering or resale, directly or indirectly, in Japan or to a Japanese Person except under circumstances which will result in compliance with all applicable laws, regulations and guidelines promulgated by the relevant Japanese governmental and regulatory authorities and in effect at the relevant time. For the purposes of this paragraph, "**Japanese Person**" shall mean any person resident in Japan, including any corporation or other entity organised under the laws of Japan.

GENERAL INFORMATION

Responsibility Statement

The Issuer is solely responsible for the information given in this Prospectus. The Issuer hereby declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Prospectus for which it is responsible is, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import.

Interests of Natural and Legal Persons involved in the Issue/Offer

Certain of the Dealers and their affiliates may be customers of, borrowers from or creditors of the Issuer and its affiliates. In addition, certain Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with and may perform services for Vier Gas and its affiliates in the ordinary course of business. Furthermore, certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

Moreover, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Authorisation

The establishment of the Programme was duly authorised by the Managing Board of the Issuer on 22 August 2018. Going forward, the annual update of the Programme will be duly authorised by the Managing Board of the Issuer, as provided for in the existing resolution of the shareholders of the Issuer relating to the Programme of 22 August 2018.

The Issuer has obtained or will obtain from time to time all necessary consents, approvals and authorisations in connection with the issue and performance of its obligations under the Notes.

Listing and Admission to Trading

Application has been made to the Luxembourg Stock Exchange for Notes issued under this Programme to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange.

The Programme provides that Notes may be listed on other or further stock exchanges, as may be agreed between the Issuer and the relevant Dealer(s) in relation to each issue. Notes may further be issued under the Programme which will not be listed on any stock exchange.
