as Issuer
(incorporated in Luxembourg)

Debt Instruments Issuance Programme

For guidance on using this Base Prospectus and navigating between the different sections hereof, please refer to the "Base Prospectus - User Guide" section of this Base Prospectus (which is intended to assist investors in review of this Base Prospectus but which should nevertheless be read in conjunction with the other sections of this Base Prospectus).

Under the Debt Instruments Issuance Programme (the **Programme**), each of Societe Generale and SG Issuer (each an **Issuer** and together the **Issuers**) may from time to time issue Notes (the Notes) denominated in any currency agreed by the Issuer of such Notes (the **relevant Issuer**) and the relevant purchaser(s).

This Base Prospectus has been approved by the Luxembourg *Commission de Surveillance du Secteur Financier* (the **CSSF**) which is the Luxembourg competent authority for the purposes of Regulation (EU) 2017/1129, as amended (the **Prospectus Regulation**). The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation and such approval shall not be considered as an endorsement of the Issuers, the Guarantor and of the quality of the securities that are the subject of this Base Prospectus. The CSSF gives no undertaking as to the economic and financial soundness of the Notes issued under the Programme or the quality or solvency of the Issuers, in accordance with the provisions of Article 6(4) of the Luxembourg act on prospectuses for securities dated 16 July 2019, as amended. Such approval does not extend to money market instruments (as defined in the Prospectus Regulation) having a maturity of less than one year or to Notes (which are not publicly offered) to be admitted to trading on the Euro MTF (as defined below).

Application has also been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to trading on (i) the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange and (ii) the multilateral trading facility Euro MTF of the Luxembourg Stock Exchange (the **Euro MTF**). The regulated market of the Luxembourg Stock Exchange is a regulated market for the purposes of the Markets in Financial Instruments Directive 2014/65/EU of 15 May 2014 (as amended, **MiFID II**) (a **Regulated Market**).

The Euro MTF is not a Regulated Market and accordingly the CSSF is not the competent authority for the approval of this Base Prospectus in connection with Notes issued under the Programme which are admitted to trading on the Euro MTF, but the Euro MTF is subject to the supervision of the CSSF. The CSSF has neither reviewed nor approved any information in this Base Prospectus pertaining to Notes admitted to trading on the Euro MTF. The CSSF therefore assumes no responsibility in relation to the issues of Notes admitted to trading on the Euro MTF.

Notes issued under the Programme may also be unlisted or listed and admitted to trading on any other market, including any other Regulated Market in any Member State of the EEA and/or offered to the public in any Member State of the EEA. The applicable Final Terms in respect of the issue of any Notes will specify whether or not such Notes will be listed and admitted to trading on any market and/or offered to the public in any Member State of the EEA and, if so, the relevant market.

This Base Prospectus has been approved on 1 June 2022 and is valid until 1 June 2023 and must during such period and in accordance with Article 23 of Regulation (EU) 2017/1129, as amended, be completed by a supplement to the Base Prospectus in the event of any new significant facts or material errors or inaccuracies. The obligation to supplement the Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when the Base Prospectus is no longer valid.

This Base Prospectus will be filed with SIX Exchange Regulation Ltd (prospectus office) as competent review body under the Swiss Financial Services Act (the **FinSA**) for automatic acceptance of this Base Prospectus as an issuance prospectus in accordance with article 54(2) of the FinSA. The CSSF has neither reviewed nor approved any information in this Base Prospectus pertaining to Notes listed on SIX Swiss Exchange.

The Notes and any guarantee thereof have not been and will not be registered under the United States Securities Act of 1933, as amended (the **Securities Act**) or under the securities law of any state or political sub-division of the United States, and trading in the Notes has not been approved by the Commodity Futures Trading Commission (the **CFTC**) under the United States Commodity Exchange Act of 1936, as amended (the **CEA**). No person has registered and no person will register as a "commodity pool operator"

of any Issuer under the CEA and the rules thereunder (the **CFTC Rules**) of the CFTC, and no Issuer has been and no Issuer will be registered as an investment company under the United States Investment Company Act of 1940, as amended, and the rules and regulations thereunder (the **Investment Company Act**). Other than with respect to certain U.S. Exempt Securities (as defined herein), the Notes are being offered and sold in reliance on an exemption from the registration requirements of the Securities Act pursuant to Regulation S thereunder (**Regulation S**).

Accordingly, except for U.S. Exempt Securities (as defined herein), the Notes may only be offered, sold, pledged or otherwise transferred in an "offshore transaction" (as defined under Regulation S) to or for the account or benefit of a person who (a) is not (i) a U.S. person as defined in Regulation S (Regulation S U.S. Person) unless the applicable Final Terms specify that a U.S. person as defined in paragraph 7701(a)(30) of the Internal Revenue Code of 1986 (IRS U.S. Person) is also applicable, or (ii) if in the case of SGI Index Linked Notes, Advised SGI Index is applicable or if in the case of Portfolio Linked Notes, Dynamic Portfolio is applicable, a person who is either a Regulation S U.S. Person or an IRS U.S. Person unless the applicable Final Terms specify that only a Regulation S U.S. Person is applicable; (b) is not a person who comes within any definition of U.S. person for the purposes of the CEA or any CFTC Rule, guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a "Non-United States person" defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not "Non-United States persons", shall be considered a U.S. person), and (c) is not a "U.S. person" for purposes of the final rules implementing the credit risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended (the **U.S. Risk Retention Rules**) (a **Risk Retention U.S. Person**) (such a person or account as described herein, a **Permitted Transferee**).

With the exception of U.S. Exempt Securities, the Notes are available only to Permitted Transferees. Certain issues of English Law Notes of Societe Generale (**U.S. Exempt Securities**), as specified in the applicable Offering Circular (as defined below), may be offered and sold only (a) in offshore transactions to non-U.S. persons in reliance upon Regulation S under the Securities Act, and/or (b) to qualified institutional buyers (**QIBs**) acting for their own account or for the account of one or more QIBs, in each case, in reliance upon Rule 144A under the Securities Act. No issues of Notes issued by SG Issuer will be U.S. Exempt Securities. Information specific to any issue of U.S. Exempt Securities (including information on the form of the Notes and applicable selling and transfer restrictions) shall be set out in an offering circular supplementing this Base Prospectus (**Offering Circular**) in connection with the offer and sale of such U.S. Exempt Securities.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, and the issue price of Notes which are applicable to each issuance (as defined in the General Terms and Conditions of the Notes) of Notes will be set out in a final terms document (the **Final Terms**) which (except in the case of Exempted Swiss Public Offer Note or Exempt Offer Note) (all as defined in the sections entitled "General Terms and Conditions of the English Law Notes" and "General Terms and Conditions of the French Law Notes") will be filed with the CSSF.

In case of any issue of U.S. Exempt Securities, all references herein to "Final Terms" shall include, or be interpreted to mean, the applicable Offering Circular.

THE NOTES OFFERED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED WITH, OR APPROVED BY, ANY UNITED STATES FEDERAL OR STATE SECURITIES OR COMMODITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT PASSED UPON OR ENDORSED THE MERITS OF THIS OFFERING OR THE ACCURACY OR ADEQUACY OF THIS BASE PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

U.S. Treasury regulations issued under Section 871(m) of the U.S. Internal Revenue Code of 1986 (the **Section 871(m) Regulations**) generally impose a 30% withholding tax on dividend equivalents paid or deemed paid (within the meaning of the relevant Section 871(m) Regulations) to a non-United States holder (a **Non-U.S. Holder**) with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities (**U.S. Underlying Equities**). Specifically, and subject to special rules from 2017 through 2022 set out in Notice 2020-2 (the **Notice**), the Section 871(m) Regulations will generally apply to Notes issued on or after 1 January 2017 that substantially replicate the economic performance of one or more U.S. Underlying Equities as determined by the Issuers on the date for such Notes as of which the expected delta of the product is determined by the Issuers based on tests in accordance with the applicable Section 871(m) Regulations (for the purposes of the Notice, such Notes are deemed "delta-one" instruments) (the **Specified Notes**). A Note linked to U.S. Underlying Equities which the Issuer has determined not to be a Specified Note will not be subject to withholding tax under Section 871(m) Regulations. Investors are advised that the Issuer's determination is binding on all Non-U.S. Holders of the Notes, but it is not binding on the United States Internal Revenue Service (the **IRS**) and the IRS may therefore disagree with the Issuer's determination.

The applicable Final Terms will specify if the Notes are Specified Notes, and, if so, whether the relevant Issuer or its withholding agent will withhold tax under Section 871(m) Regulations and the rate of the withholding tax. Investors should note that if the Issuer or any withholding agent determines that withholding is required, neither the relevant Issuer nor the withholding agent will be required to gross up any amounts withheld in connection with a Specified Note. Investors should consult their tax adviser regarding the potential application of Section 871(m) Regulations to their investment in the Notes.

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction in which the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for financial instruments such as the Notes. Potential investors are advised to consult their own tax adviser on the tax impacts of the acquisition, holding, disposal and redemption of the Notes. The requirement to pay such taxes may reduce the effective yield on the Notes and may also have an adverse impact on their value.

IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms in respect of any Notes state "*Prohibition of Sales to EEA Retail Investors*" as Applicable, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU (as amended or superseded, the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129, as amended (the **Prospectus Regulation**). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If the Final Terms in respect of any Notes state "*Prohibition of Sales to UK Retail Investors*", as Applicable, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (**UK**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**); or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II product governance/target market – the Final Terms in respect of any Notes will include a legend entitled "MiFID II product governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated 2017/593 (the **MiFID Product Governance Rules**), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger or the Dealer nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR product governance / target market – the Final Terms in respect of any Notes may include a legend entitled "UK MiFIR Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Notification under Section 309B(1)(c) of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the SFA) – Unless otherwise stated in the Final Terms in respect of any Notes, in connection with Section 309B of the SFA and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the **CMP Regulations 2018**), the relevant Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309(A)(1) of the SFA), that the Notes are capital markets products other than prescribed capital markets products (as defined in the **CMP Regulations 2018**) and Specified Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

6. REDEMPTION

The applicable Final Terms for Notes other than Eligible Notes, will indicate either that the Notes cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or for taxation reasons, regulatory reasons, an administrator/benchmark event, a force majeure event or following an Event of Default or in the event of an optional outstanding Notes trigger call or, in relation to Secured Notes only, following the occurrence of a Collateral Disruption Event) or that such Notes (if Physical Delivery Notes) may be settled at maturity or otherwise by receipt by the holder(s) of a cash amount and/or by delivery of the relevant Deliverable Assets or that such Notes will be redeemable at the option of the relevant Issuer and/or the Noteholders upon giving not less than thirty nor more than forty five days' irrevocable notice (or such other notice period (if any) as indicated in the applicable Final Terms) to the Noteholders or the relevant Issuer, as the case may be, on a date or dates specified prior to such stated maturity and at a price or prices and on such terms as may be agreed between the Issuer and purchaser(s) as indicated in the applicable Final Terms.

The applicable Final Terms may provide that Notes may be redeemable in two or more instalments of such amounts and on such dates as indicated in the applicable Final Terms.

Eligible Non Structured Notes which are issued by Societe Generale only, may only be early redeemed upon the occurrence of a Tax Event or Special Tax Event or a MREL or TLAC Disqualification Event, or at the option of the Issuer, as specified in the applicable Final Terms. Eligible Structured Notes which are issued by Societe Generale only, may also be redeemed for a Tax Event or Special Tax Event and in addition for regulatory reasons, an Administrator/Benchmark Event, a force majeure event, a MREL Disqualification Event, a forced redemption or transfer event of Registered Notes or in the event that the outstanding aggregate nominal amount of the Notes falls below or equals 10% of the initial aggregate nominal amount.

Any maturity as indicated in the applicable Final Terms subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Issuer or the relevant Specified Currency.

8. REDENOMINATION / CONVERSION OF CURRENCY AND/OR CONSOLIDATION

The applicable Final Terms may provide that certain Notes may be redenominated in/converted into euro. The relevant provisions applicable to any such redenomination/conversion are contained in the General Terms and Conditions of the English Law Notes and the General Terms and Conditions of the French Law Notes.

Notes denominated in a currency that may be redenominated/converted into euro may be subject to consolidation with other Notes denominated in euro.

9. STATUS OF THE NOTES

Notes issued by Societe Generale will constitute direct, unconditional, unsecured and unsubordinated obligations of Societe Generale ranking as Senior Preferred Obligations (the "**Senior Preferred Notes**").

Senior Preferred Notes, including where applicable any related Coupons, will constitute direct, unconditional, unsecured and senior obligations of the Issuer ranking at all times as senior preferred obligations (as provided for in Article L. 613-30-3-I-3° of the French *Code monétaire et financier* (the **Code**)):

(i) *pari passu* with:

(a) all direct, unconditional, unsecured and senior obligations of Societe Generale outstanding as of the date of entry into force of the Law on 11 December 2016; and

(b) all present or future senior preferred obligations (as provided for in Article L. 613-30-3-I-3° of the Code) of Societe Generale issued after the date of entry into force of the Law on 11 December 2016;

(ii) junior to all present or future claims of Societe Generale benefiting from statutorily preferred exceptions; and

(iii) senior to all present or future:

(a) senior non-preferred obligations (as provided for in Article L. 613-30-3-I-4° of the Code) of Societe Generale;

(b) subordinated obligations and deeply subordinated obligations of Societe Generale.

In the event any judgment is rendered by any competent court declaring the judicial liquidation of Societe Generale or Societe Generale is liquidated for any other reason:

- the rights of payment of the holders of Senior Preferred Notes and, where applicable, any related Coupons shall be subordinated to the payment in full of all present or future holders of, or creditors in respect of, claims benefiting from statutory preferred exceptions (**Preferred Creditors**); and

- subject to such payment in full, the holders of Senior Preferred Notes and, where applicable, any related Coupons shall be paid in priority to any present or future holders of, or creditors in respect of, obligations referred to in (iii) above; and

- in the event of incomplete payment of Preferred Creditors, the obligations of Societe Generale in connection with the Senior Preferred Notes and, where applicable, any related Coupons will be terminated.

The holders of Senior Preferred Notes and, where applicable, any related Coupons shall be responsible for taking all necessary steps for the orderly accomplishment of any such liquidation of Societe Generale in relation to any claims they may have against Societe Generale.

Notes issued by SG Issuer (other than Secured Notes) will constitute direct, unconditional, unsecured and unsubordinated obligations of SG Issuer.

Secured Notes will be issued by SG Issuer only.

The provisions relating to Secured Notes are more fully described in the section "*Additional Terms and Conditions relating to Secured Notes*".

10. EVENTS OF DEFAULT

For Eligible Notes that are issued by Societe Generale only, the Noteholders will not be able to accelerate the maturity of such Notes upon the occurrence of an Event of Default.

11. CERTAIN RESTRICTIONS

Each issue of Notes denominated in a currency in respect of which particular laws, guidelines, regulations, restrictions or reporting requirements apply will only be issued in circumstances which comply with such laws, guidelines, regulations, restrictions or reporting requirements in full force (see "*Subscription, Sale and Transfer Restrictions*") including the following restrictions applicable at the date of this Base Prospectus.

Notes having a maturity of less than one year

Notes issued by SG Issuer having a maturity of less than one year will, if the proceeds of the issue are accepted in the United Kingdom, constitute deposits for the purposes of the prohibition on accepting deposits contained in Section 19 of the Financial Services and Markets Act 2000 unless they are issued to a limited class of professional investors and have a denomination of at least £100,000 or its equivalent, see "*Subscription, Sale and Transfer Restrictions*".

Under the Luxembourg act dated 16 July 2019 on prospectuses for securities (the **Luxembourg Prospectus Act**), which implements the Prospectus Regulation, prospectuses relating to money market instruments having a maturity at issue of less than twelve months and complying with the definition of securities (as defined in the Prospectus Regulation) do not constitute a prospectus for the purposes of the Prospectus Regulation.

12. TYPE OF NOTES

No debt securities that are exchangeable or convertible into shares (under Article 19 of Commission Delegated Regulation (EU) 2019/980) will be issued under this Base Prospectus.

Any benchmark to which a Note refers will be provided by an administrator included in the register referred to in Article 36 of Regulation (EU) 2016/1011 (the **EU Benchmarks Regulation**) or the FCA's register of administrators in accordance with Article 36 of Regulation (EU) 2016/1011 as it forms part of domestic law by virtue of the EUWA (the **UK Benchmarks Regulation**).

Fixed Rate Notes

Fixed rate interest will be payable on such date(s) as indicated in the applicable Final Terms and on redemption and will be calculated on the basis of such Day Count Fraction as may be agreed between the relevant Issuer and the relevant Dealer(s) as indicated in the applicable Final Terms.

Partly Paid Notes

The Issue Price of Partly Paid Notes will be payable in more than one instalment.

While any part payments of the subscription moneys due from the holder of Partly Paid Notes are overdue, no interest in a Temporary or Permanent Global Note representing such Notes may be exchanged for Definitive Bearer Notes.

If any Noteholder fails to pay any part payment due on any Partly Paid Notes within the time specified, the relevant Issuer may have a right to redeem such Notes if so specified, and on the terms set out, in the applicable Final Terms.

Floating Rate Notes

Floating Rate Notes will bear interest at a rate determined (i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement evidenced by a confirmation incorporating the 2021 ISDA Definitions (as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series) or (ii) on the basis of a reference rate appearing on an agreed screen page of a commercial quotation service.

The margin (if any) relating to such floating rate will be agreed between the relevant Issuer and the relevant Dealer(s) for each issue of Floating Rate Notes and specified in the applicable Final Terms.

Floating Rate Notes may also have either a minimum interest rate or a maximum interest rate or both.

Interest will be calculated on the basis of such Day Count Fraction as may be agreed between the relevant Issuer and the relevant Dealer(s) as indicated in the applicable Final Terms.

Physical Delivery Notes

Zero Coupon Notes

Zero Coupon Notes will not bear interest other than in the case of late payment.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the relevant Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the relevant Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing.

Dual Currency Notes

Payments in respect of Dual Currency Notes (whether in respect of principal and/or interest and whether at maturity or otherwise) will be made in such currency or currencies, and based on such rate or rates of exchange, as the relevant Issuer and the relevant purchaser(s) may agree (as indicated in the applicable Final Terms).

Other provisions in relation to Floating Rate Notes and Structured Notes

Floating Rate Notes and Structured Notes may also have a maximum interest rate, a minimum interest rate or both, or be subject to a rate multiplier, in each case as set forth in the applicable Final Terms.

Use of proceeds

RISK FACTORS

The discussion below is of a general nature and is intended to describe various risk factors associated with an investment in the Notes. You should carefully consider the following discussion of risks, and any risk factors included in the documents incorporated by reference herein.

The Issuers and the Guarantor believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the failure of the relevant Issuer or the Guarantor to pay interest (if any), principal or other amounts on or in connection with any Notes may occur or arise for other reasons which may not be considered significant risks by the Issuers or the Guarantor based on information currently available to them or which they may not currently be able to anticipate.

Words and expressions defined elsewhere in this Base Prospectus shall have the same meanings when used in this section.

To the best of each Issuer's knowledge, in each category of Risk Factors, the risk factor identified by the Issuers as the most important appears first. For the rest of the risk factors, the order of appearance is not an indication of the importance or the likelihood of their occurrence.

1.1 Risks related to the macroeconomic, geopolitical, market and regulatory environments

These risks are detailed on pages 148 to 153 of the 2022 Universal Registration Document and pages 30 to 31 of the First Amendment to the 2022 Universal Registration Document incorporated by reference (see Section "Documents Incorporated by Reference").

1.2 Credit and counterparty credit risks

These risks are detailed on pages 154 to 155 of the 2022 Universal Registration Document incorporated by reference (see Section "Documents Incorporated by Reference").

1.3 Market and structural risks

These risks are detailed on pages 155 to 156 of the 2022 Universal Registration Document incorporated by reference (see Section "Documents Incorporated by Reference").

1.4 Operational risks (including risk of inappropriate conduct) and model risks

These risks are detailed on pages 156 to 159 of the 2022 Universal Registration Document and page 32 of the First Amendment to the 2022 Universal Registration Document incorporated by reference (see Section "Documents Incorporated by Reference").

1.5 Liquidity and funding risks

These risks are detailed on pages 159 to 160 of the 2022 Universal Registration Document incorporated by reference (see Section "Documents Incorporated by Reference").

1.6 Risks related to insurance activities

These risks are detailed on page 160 of the 2022 Universal Registration Document incorporated by reference (see Section "Documents Incorporated by Reference").

2. RISKS RELATING TO THE ISSUERS AND THE GUARANTOR

2.1 Factors that may affect Societe Generale's ability, as Issuer or Guarantor, to fulfil its obligations under the Notes

In case of Notes issued by Societe Generale, if Societe Generale defaults or goes bankrupt, the Noteholders may suffer a partial or total loss of the amount invested. If Societe Generale is subject to measures in respect of the regulations relating to the statutory bail-in mechanism (bail-in), their debt may be reduced to zero, converted into equity (shares) or debt securities or undergo a maturity postponement. Their investment is not covered by any guarantee or compensation system. Societe Generale's credit ratings are an assessment of its ability to honour its commitments. Consequently, any actual or anticipated downgrading of Societe Generale's credit ratings may affect the market value of the Notes.

Societe Generale unconditionally and irrevocably guarantees the payment of all amounts due under the Notes by SG Issuer and as a result the Noteholders are exposed to the credit risk of Societe Generale as Guarantor. Societe Generale's credit ratings are an assessment of its ability to honour its commitments. Consequently, any actual or anticipated downgrades of Societe Generale's credit ratings may affect the market value of the Notes.

Even though Senior Preferred Notes that are issued only by Societe Generale are senior to the Senior Non-Preferred Obligations of Societe Generale, they may still be exposed to potential losses as a result of the resolution of Societe Generale in accordance with the applicable resolution law (Senior Preferred Notes and Senior Non Preferred Obligations are defined in Condition 2 of the English Law Notes and of the French Law Notes).

2.2 Factors that may affect SG Issuer's ability, as Issuer, to fulfil its obligations under the Notes

In case of Notes issued by SG Issuer, SG Issuer's activity consists *inter alia* in issuing debt securities and the funds collected are systematically deposited with Societe Generale in the form of either term loans or swap contracts and pursuant to which SG Issuer will receive from Societe Generale the amounts due under the Notes. SG Issuer's ability to make payments under the Notes will therefore depend primarily on the performance of its obligations by Societe Generale under such hedging transactions entered into between SG Issuer and Societe Generale.

If SG Issuer defaults or goes bankrupt, as a result of the limited recourse clause on SG Issuer, included in the terms and conditions of the Notes, the Noteholders have no recourse against SG Issuer and any amount due and unpaid by SG Issuer must be claimed against Societe Generale as Guarantor.

If the resolution authorities take structural bail-in measures in accordance with the regulations relating to the recovery and resolution of credit institutions and investment firms, against securities issued by Societe Generale or SG Issuer (statutory bail-in) or against structured securities of Societe Generale (contractual bail-in) then the investment of the Noteholders may be reduced to zero, converted into equity (shares) or debt securities or be subject to a maturity postponement and in such case the obligations of Societe Generale as Guarantor shall be adjusted to such reduction, conversion or postponement. Their investment is not covered by any guarantee or indemnity system.

2.3 Information in relation with the lack of independence of each Issuer and, as the case may be, the Guarantor - Conflict of interest

Societe Generale will act as issuer under the Programme, as the Guarantor of the Notes issued by SG Issuer, as Calculation Agent and also as provider of hedging instruments to each Issuer. As a result, investors will be exposed not only to the credit risk of Societe Generale but also to operational risks arising from the lack of independence of Societe Generale, in assuming its duties and obligations as the Guarantor, Calculation Agent and provider of the hedging instruments. Whilst compliance procedures require effective segregation of duties and responsibilities between the relevant divisions within the Guarantor, the possibility of conflicts of interest arising cannot be wholly eliminated.

The Group provides a full array of capital market products and advisory services worldwide including the issuance of "structured securities" where the amounts due under the Notes are linked to the performance of underlying assets, and may possess or acquire material and/or confidential information about the underlying assets and/or the reference entities which is not public knowledge and which are or could be important to the Notes.

Such business activities and such material and/or confidential information may cause consequences adverse to the Noteholders. The Issuers, the Guarantor and any other member of the Group have no obligation to disclose such information about such underlying assets or the obligors to which they relate or the reference entities.

The Calculation Agent, the Arranger, the Dealers, the Paying Agents, the Registrar, the Transfer Agent and the Exchange Agent may be all part of the Group. A deterioration of Societe Generale's credit risk would have a negative impact on the obligations of each of the entities listed above in relation to the Notes. If one of these entities does not respect its obligations towards the relevant Issuer and/or the Guarantor, this could have a negative impact on the value of the Notes and the Noteholders may therefore lose part or all of their investment in the Notes.

2.4 Risk relating to the Restructuring Directive

Société Générale is a société anonyme with its corporate seat in France. In the event that Société Générale becomes insolvent, insolvency proceedings will be generally governed by the insolvency laws of France to the extent that, where applicable, the "centre of main interests" (as construed under Regulation (EU) 2015/848, as amended) of Société Générale is located in France. The Directive (EU) 2019/1023 on preventive restructuring frameworks, on discharge of debt and disqualifications, and on measures to increase the efficiency of procedures concerning restructuring, insolvency and discharge of debt, and amending Directive (EU) 2017/1132 has been transposed into French law by the Ordonnance 2021-1193 dated 15 September 2021. Such ordonnance, applicable as from 1st October 2021, amends French insolvency laws notably with regard to the process of adoption of restructuring plans under insolvency proceedings. According to this ordonnance, "affected parties" (including notably creditors, and therefore the Noteholders) shall be treated in separate classes which reflect certain class formation criteria for the purpose of adopting a restructuring plan. Classes shall be formed in such a way that each class comprises claims or interests with rights that reflect a sufficient commonality of interest based on verifiable criteria. Noteholders will no longer deliberate on the proposed restructuring plan in a separate assembly, meaning that they will no longer benefit from a specific veto power on this plan. Instead, as any other affected parties, the Noteholders will be grouped into one or several classes (with potentially other types of creditors) and their dissenting vote may possibly be overridden by a cross-class cram down.

Both the scopes of the Directive (EU) 2019/1023 and the ordonnance do not cover financial institutions, unless the competent authority chooses to make them applicable. In such a case, the application of French insolvency law to a credit institution as Société Générale is also subject to the prior permission of the Autorité de contrôle prudentiel et de résolution before the opening of any safeguard, judicial reorganisation or liquidation procedures. This limitation will affect the ability of the Noteholders to recover their investments in the Notes.

Should such proceedings be opened, the commencement of insolvency proceedings against Société Générale would have a material adverse effect on the market value of Notes issued by Société Générale. As a consequence, any decisions taken by a class of affected

parties could negatively and significantly impact the Noteholders and cause them to lose all or part of their investment, should they not be able to recover all or part of the amounts due to them from the Issuer.

2.5 Risk relating to the Issuer substitution

Societe Generale or SG Issuer may be replaced by each other or (with respect to English Law Notes only) by any subsidiary or any other third party as principal obligor in respect of the Notes without the consent of the relevant Noteholders; provided certain conditions are satisfied (*inter alia* no withholding tax triggered by the substitution, guarantee by Societe Generale to be maintained as the case may be). Any such substitution may impact the value of the Notes and consequently the Noteholders may lose part or all of their investment in the Notes.

3. RISKS RELATED TO THE NOTES

3.1 Risks related to the characteristics of the Notes

3.1.1. Risks linked to Notes including a risk of capital loss

For Notes which include a risk of capital loss, the redemption value of such Notes may be less than the amount initially invested. In a worst case scenario, investors may lose their entire investment. Moreover, regardless of the level of the capital protection, the investor may lose part or all of the initially invested amount, if the Notes are sold by the investor before the maturity date.

3.1.2 Risks linked to Notes offering a full capital protection at maturity date

For Notes which offer a full capital protection (100%) of the Specified Denomination at maturity date, the investor may, however, lose part or all of the initially invested amount if the Notes are sold by the investor before the maturity date (since the value of the Notes during their lifetime may be lower than the amount of the capital protection due to market fluctuations).

3.1.3 Notes issued by Societe Generale that are Eligible Notes

The qualification of Notes issued by Societe Generale as Eligible Notes is subject to uncertainty

The Notes issued by Societe Generale specified in the applicable Final Terms as Eligible Notes are intended to be eligible liabilities available to meet the MREL or TLAC Requirements or MREL Requirements as the case may be (all as defined in Condition 2 of the English Law Notes and of the French Law Notes) (the “**Eligible Notes**”). If they are not Eligible Notes (or if they initially are Eligible Notes and subsequently become ineligible due to a change in the criteria required from eligible liabilities available to meet the MREL or TLAC Requirements or MREL Requirements as the case may be), then a MREL or TLAC Disqualification Event or a MREL Disqualification Event as the case may be will occur and the Notes may be subject to early redemption subject to the Relevant Resolution Authority's written permission and as a result, investors may lose part of or their entire investment.

Risks linked to the absence of events of default with respect to Eligible Notes issued by Societe Generale

For Eligible Notes, the Noteholders will not be able to accelerate the maturity of such Notes. Accordingly, if Societe Generale fails to meet any obligations under such Notes, investors will not have the right of acceleration of principal and accrued interests. Upon a payment default, the sole remedy available to Noteholders and, where applicable, Couponholders for recovery of amounts due in respect of any payment of principal or interest on such Notes will be the institution of judicial proceedings to enforce such payment. Notwithstanding the foregoing, the Issuer will not, by virtue of the institution of any such proceedings, be obliged to pay any sum or sums sooner than the initially scheduled due date but with a potential further deterioration of its financial situation until then. Therefore, the liquidity and market value of the Notes may be adversely affected and investors who sell Notes on the secondary market could lose all or part of their investment.

There is a significant degree of regulatory uncertainty regarding the potential occurrence of a MREL or TLAC Disqualification Event or a MREL Disqualification Event affecting Eligible Notes

A MREL or TLAC Disqualification Event could apply in respect of Eligible Non Structured Notes or a MREL Disqualification Event will apply in respect of Eligible Structured Notes, as further described in Condition 2 and Condition 6.2.5 of the English Law Notes and of the French Law Notes).

The Capital Requirements Regulation II and the BRRD II (as defined below) give effect to the total loss-absorbing capacity (**TLAC**) Term Sheet published by Financial Stability Board (**FSB**) and modify the minimum requirements for own funds and eligible liabilities (MREL) and TLAC eligibility. Whilst there are a number of similarities between the MREL requirements and the FSB's final principles regarding TLAC, there are certain differences. Societe Generale is currently unable to predict whether all or part of the Eligible Notes may cease to comply with the minimum requirements for own funds and eligible liabilities and/or total loss absorbing capacity requirements applicable to Société Générale and/or the Societe Generale Group and thus be excluded fully or partially from the MREL or TLAC Requirements .

A change in the classification of the Notes under the MREL or TLAC Requirements, that was not reasonably foreseeable by Société Générale at the Issue Date of the Notes, and that would be likely to result in or has resulted in the Notes being fully or partially excluded from the eligible liabilities available to meet the MREL or TLAC Requirements could result in a MREL or TLAC Disqualification Event (for Eligible Non Structured Notes) or a MREL Disqualification Event (for Eligible Structured Notes). The

occurrence of such MREL or TLAC Disqualification Event or MREL Disqualification Event may have a material adverse effect on the value of the Eligible Notes and Noteholders may receive less than the full amount due under such Notes.

3.1.4 Notes subject to optional redemption by the Issuer

The Final Terms may specify that Notes can be subject to an early redemption which can be triggered at the Issuer's sole discretion either on certain predefined dates or at any time during the life of the Notes. The possibility of an early redemption of the Notes at the Issuer's discretion may limit the market value of such Note. Before or during each period during which the Issuer may elect to redeem the Notes, their market value will not rise substantially above their redemption price for Notes and the Noteholders will not benefit from the subsequent performance of the underlying(s).

Notwithstanding the above, for Eligible Notes, the redemption, purchase or cancellation prior their Maturity Date will be subject to the prior permission of the Relevant Resolution Authority.

3.1.5 Notes subject to automatic redemption

The Final Terms may specify that the Notes can be subject to an automatic redemption for Notes if the level of the underlying(s) becomes higher than, equal to or below one or more predefined level(s) on either predefined dates or at any time during the life of the Notes. As a result, for those Notes when the level of the underlying(s) reaches the predefined level(s), the Noteholders will not benefit from the performance of the underlying(s) subsequent to such event.

3.1.6 Early redemption at the option of the Issuer following a Tax Event, Special Tax Event, Regulatory Event, an Administrator/Benchmark Event or Force Majeure Event or for a decrease in issuance size, a MREL Disqualification Event or a MREL or TLAC Disqualification Event

The applicable Final Terms of Notes other than Eligible Notes, will indicate either that the Notes cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or for taxation reasons, regulatory reasons, an administrator/benchmark event, a force majeure event or following an Event of Default or in the event of an optional outstanding Notes trigger call or, in relation to Secured Notes only, following the occurrence of a Collateral Disruption Event) or that such Notes will be redeemable at the option of the relevant Issuer and/or the Noteholders upon giving not less than thirty nor more than forty five days' irrevocable notice (or such other notice period (if any) as indicated in the applicable Final Terms) to the Noteholders or the relevant Issuer, as the case may be, on a date or dates specified prior to such stated maturity and at a price or prices and on such terms as may be agreed between the Issuer and purchaser(s) as indicated in the applicable Final Terms.

Eligible Non Structured Notes which are issued by Societe Generale only, may only be early redeemed upon the occurrence of a Tax Event, Special Tax Event or a MREL or TLAC Disqualification Event, or at the option of the Issuer, as specified in the applicable Final Terms. Eligible Structured Notes which are issued by Societe Generale only, may also be redeemed for a Tax Event, a Special Tax Event and in addition, for regulatory reasons, an Administrator/Benchmark Event, a Force Majeure Event, a MREL Disqualification Event, upon a forced redemption or transfer event of Registered Notes or, if specified in the event that the outstanding aggregate nominal amount of the Notes falls below or equals 10% of the initial aggregate nominal amount.

This could result in Noteholders receiving an early redemption amount which may be lower than the amount initially invested (regardless of the level of capital protection at maturity, if any) and being redeemed earlier than they had anticipated and the Noteholders will not benefit from the performance of the underlying asset(s) subsequently to such event.

The early redemption of Eligible Notes may not occur if the Relevant Resolution Authority refuses to give its permission, and if so, the market value of the relevant Eligible Notes may be affected negatively, and investors may incur losses in respect of their investments in such Notes.

3.1.7 Risks related to adjustment, substitution or cancellation of the Notes

The Terms and Conditions of the Notes give the Calculation Agent a certain discretion to determine whether any event(s) affecting the Notes or the underlying(s) has occurred in accordance with such Terms and Conditions. The Calculation Agent also has certain discretion in order to determine the consequences thereof for the Notes, the underlying(s) or the hedging transactions, including determination of the price of the underlying(s) and the choice between (a) mechanisms to adjust or substitute the underlying(s), (b) the deduction of the increase in the cost of hedging of any amount due, (c) the monetisation and, consequently, the de-indexation of the formula of the Notes for all or part of the amounts due under the Notes on the underlying(s) and/or (d) the early redemption of the Notes by the Issuer, without any obligation to take into account the interest of the Noteholders. In the absence of manifest or proven error, these adjustments, substitutions or cancellation decisions will be binding upon the relevant Issuer, the Guarantor, the Agent and the Noteholders. Each of these measures imposed on the Notes may result in the total or partial loss of the amount invested (regardless of the level of capital protection of the Notes, if any).

3.1.8 Trading in the Notes and/or Underlyings may be suspended, interrupted or terminated

If the Notes are listed on one (or more) regulated or unregulated markets, the trading of such Notes may – depending on the rules applicable to such markets – be suspended or interrupted by the respective stock exchange or a competent regulatory authority upon the occurrence of a number of reasons, including violation of price limits, breach of statutory provisions, occurrence of operational problems of the stock exchange or generally if deemed required in order to secure a functioning market or to safeguard the interests of investors. Furthermore, trading in the Notes may be terminated, either upon decision of the stock exchange or a regulatory authority.

Where trading in an Underlying of the Notes is suspended, interrupted or terminated, trading in the respective Notes will usually also be suspended, interrupted or terminated and existing orders for the sale or purchase of such Notes will usually be cancelled. Investors should note that the Issuer has no influence on trading suspension or interruptions and that investors in any event must bear the risks connected therewith. In particular, investors may not be able to sell their Notes where trading is suspended, interrupted or terminated, and the stock exchange quotations of such Notes may not adequately reflect the price of such Notes. All these risks would, if they materialise, have a material adverse effect on the value of the Notes and investors may therefore lose part or all of their investment in the Notes.

3.1.9 Risk of leveraged exposure

The redemption formula of certain Notes may embed a leverage factor increasing the exposure to the relevant underlying and will amplify both return and losses. While the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the applicable underlying moves in the anticipated direction, it will conversely magnify losses when such underlying moves against expectations of investors. Prospective investors should note that Notes will involve a higher level of risk, and that whenever there are losses such losses may be higher than those of a similar security which is not leveraged. Investors should therefore only invest in such Notes if they fully understand the effects of the leverage that may be embedded in such Notes whose market value may be significantly more volatile than the market value of Notes that do not have this feature.

3.1.10 Risks relating to the Paying Agent

Any payments to Noteholders will be made by the Paying Agent on behalf of the Issuers. The Issuers shall transfer to the Paying Agent such amount as may be due under the Notes on or before each date on which such payment in respect of the Notes becomes due.

If the Paying Agent, while holding funds for payment to the Noteholders, is declared insolvent, the Noteholders may not receive all (or any part) of amounts due to them from the Paying Agent in which case the Noteholders will have to claim any payment directly from the Issuer.

3.1.11 Hedging and trading activity by the Issuers, the Guarantor and other members of the Group could potentially affect the value of the Notes

In the ordinary course of their business, whether or not they will engage in any secondary market making activities, the Issuers, the Guarantor and/or any other members of the Group may effect transactions for their own account or for the account of their customers and hold long or short positions in any underlying or reference asset(s), reference entities or obligors or related derivatives.

These transactions may affect the Issuers' hedging positions which could in turn impact the market value of the Notes and consequently investors may lose part or all of their investment in the Notes.

3.1.12 Exchange rate risks and exchange controls

The relevant Issuer will pay principal and interest amounts on the Notes in the Relevant Currency. This presents certain risks relating to currency conversions if Noteholders' financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Relevant Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Relevant Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Relevant Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

The Issuer may issue Dual Currency Notes where the amount of principal and/or interest payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Notes are denominated. Accordingly, an investment in Dual Currency Notes may bear similar market risks to a direct foreign exchange investment and prospective investors should take advice accordingly.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, Noteholders may receive less interest or principal than expected, or no interest or principal.

3.1.13 Partly-Paid Notes

The relevant Issuer may issue Notes where the issue price is payable in more than one part payment by the investor. Failure by the investor to pay any subsequent part payment could result in an investor losing some or all of his investment. In the event that investors purchase Partly-paid Notes on the secondary market prior to all the part payments being made and these Notes being fully paid up, such investors incur the risk to be required to pay such remaining part payments in addition to the price they paid to purchase these Notes.

3.1.14 Fixed/Floating Rate Notes

Fixed/Floating Rate Notes are Notes which bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the market value of such Notes as the change of interest basis may result in a lower interest return for Noteholders. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the floating rate may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the

rates on other Notes. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on those Notes and could affect the market value of an investment in the relevant Notes.

3.1.15 Notes issued at a substantial discount or premium

The market values of Notes issued at a substantial discount to or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. The longer the remaining term of such Notes, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

3.1.16 Risks relating to Physical Delivery Notes

In the case of Notes which are redeemable by delivery of assets, if a Settlement Disruption Event occurs or exists on the due date for redemption of the Notes and prevents delivery of the asset, the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the fair market value of the number of Underlying(s) (the **Fair Market Value**) to be delivered converted into the Specified Currency at the current exchange rate, if applicable. The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Delivery Period.

3.1.17 Risks relating to Notes referencing a benchmark

In accordance with the provisions of Condition 4 of the Terms and Condition of the Notes, the Rate of Interest in respect of the Floating Rate Notes may be determined by reference to Reference Rates that constitute "benchmarks" for the purposes of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable.

Interest rates and indices which are deemed to be "benchmarks" are the subject of national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, to be subject to revised calculation methods, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a "benchmark".

The EU Benchmarks Regulation, among other things, applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EEA.

The UK Benchmarks Regulation, among other things, applies to the provision of benchmarks and the use of a benchmark within the UK. Notwithstanding the provisions of Condition 4.2.3.5 of the Terms and Conditions of the Notes, which seek to mitigate any adverse effects for the Noteholders, the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable could have a material impact on any Notes linked to or referencing a "benchmark", in particular:

- an index that is a "benchmark" may not be permitted to be used by a supervised entity (including the Issuer) in certain ways if its administrator does not obtain authorisation or registration or, if based in a non-EU jurisdiction, the administrator is not recognised as equivalent or recognised or endorsed and the transitional provisions do not apply; and
- if the methodology or other terms of the "benchmark" could be changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing or increasing the rate or level or otherwise affecting the volatility of the published rate or level of the "benchmark" and as a consequence,

Noteholders could lose part of their investment or receive less income than would have been the case without such change.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements.

Such factors may have the following effects on certain "benchmarks": (i) discourage market participants from continuing to administer or contribute to the "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark" or (iii) lead to the disappearance of the "benchmark".

Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to or referencing a "benchmark".

Investors should be aware that, if a benchmark were discontinued or otherwise unavailable, the rate of interest on Notes which are linked to or which reference such benchmark will be determined for the relevant period by the fall-back provisions applicable to such Notes – please refer to the risk factor entitled "The occurrence of an Index Event could have a material adverse effect on the value of and return on any such Notes linked to or referencing such "benchmarks" below). Depending on the manner in which a benchmark rate is to be determined under the Terms and Conditions, this may in certain circumstances (i) result in the application of a backward-looking, risk-free overnight rate, whereas the benchmark rate is expressed on the basis of a forward-looking term and includes a risk-element based on inter-bank lending or (ii) if Screen Rate Determination applies, result in the effective application of a fixed rate based on the rate which applied in the previous period when the benchmark was available. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any Notes linked to or referencing a "benchmark".

Regulation (EU) 2019/2089 of the European Parliament and of the Council of 27 November 2019 has amended the existing provisions of the EU Benchmarks Regulation by extending the transitional provisions applicable to material benchmarks and third-country benchmarks until the end of 2021. The existing provisions of the EU Benchmarks Regulation were further amended by Regulation (EU) 2021/168 of the European Parliament and of the Council of 10 February 2021 published in the Official Journal of the European Union on 12 February 2021 (the **Amending Regulation**).

The Amending Regulation introduces a harmonised approach to deal with the cessation or wind-down of certain benchmarks by conferring the power to designate a statutory replacement for certain benchmarks on the European Commission, such replacement being limited to contracts and financial instruments. In addition, the transitional provisions applicable to third country benchmarks are extended until the end of 2023. The European Commission is empowered to further extend this period until the end of 2025, if necessary. The Amending Regulation applies as of 13 February 2021.

The FCA confirmed on 5 March 2021 that all LIBOR settings will either cease to be provided by any administrator or no longer be representative:

- from 31 December 2021, in the case of all sterling, euro, Swiss franc and Japanese yen settings, and the 1-week and 2-month US dollar settings; and
- immediately after 30 June 2023, in the case of the remaining US dollar settings.

Regulatory authorities and central banks are strongly encouraging the transition away from IBORs, such as LIBOR and EURIBOR, and have identified 'risk free rates' to replace such IBORs as primary benchmarks. This includes (amongst others) (i) for GBP LIBOR, the Sterling Overnight Index Average (**SONIA**), so that SONIA may be established as the primary sterling interest rate benchmark by the end of 2021, (ii) for USD LIBOR, the Secured Overnight Financing Rate (**SOFR**) to be eventually established as the primary US dollar interest rate benchmark, and (iii) for EONIA and EURIBOR, a new Euro Short-Term Rate (**€STR** or **EuroSTR**) as the new euro risk-free rate. Similar initiatives are currently underway in respect of each of the LIBOR rates in other currencies — i.e. Japanese Yen (IBOR), Hong Kong Dollar (HIBOR), Swiss franc (CHF LIBOR), Australian dollar (BBSW) and Canadian dollar (CDOR) — to transition over to identified alternative risk free rates.

In case of occurrence of an Index Event the applicable floating rate of interest could have a material adverse effect on the value of and return on any such Notes linked to or referencing such "benchmarks" without any requirement that the consent of Noteholders be obtained

Pursuant to the terms and conditions of the Notes, occurrence of certain events affecting the benchmarks (each an Index Event) such as loss of any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Reference Rate or the administrator or sponsor of the Reference Rate, the permanent cessation of the Reference Rate or the loss of representativeness of the Reference Rate will trigger the application of certain fallbacks arrangements including if an inter-bank offered rate (such as EURIBOR) or other relevant reference rate (which could include, without limitation, any mid-swap rate) becomes unavailable, or if the Issuer, the Calculation Agent, any Paying Agent or any other party responsible for the calculation of the Rate of Interest (as specified in the applicable Final Terms) are no longer permitted lawfully to calculate interest on any Notes by reference to such benchmark under the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable or otherwise.

Such fallback arrangements include the possibility that the rate of interest could be set by reference to a Replacement Rate with or without the application of an Adjustment Spread (which, if applied, could be positive or negative, and would be applied with a view to reducing or eliminating, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of the relevant benchmark) (both as defined in Condition 4.2.3.7 of the General Terms and Conditions of the Notes), and may include amendments to the Terms and Conditions of the Notes to ensure the proper operation of the successor or replacement benchmark, all as determined by the Rate Determination Agent or the Calculation Agent.

No consent or approval of the Noteholders shall be required in connection with effecting any successor rate or alternative rate (as applicable) or with any other related adjustments and/or amendments to the Terms and Conditions of the Notes (or any other document) which are made in order to effect any successor rate or alternative rate (as applicable).

Investors should note that, the Rate Determination Agent or the Calculation Agent will have a certain discretion to determine the Replacement Rate and as the case may be the Adjustment Spread in the circumstances described above. Any such adjustment could have unexpected commercial consequences and, due to the particular circumstances of each Noteholder, any such adjustment may not be favourable to such Noteholder.

The reform and eventual replacement of IBORs with risk-free rates may cause the relevant IBOR to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. These risk-free rates have a different methodology and other important differences from the IBORs they will eventually replace. Any of these developments could have a material adverse effect on the value of and return on Notes linked to any such rates. Noteholders may therefore lose part or all of their investment in the Notes.

The market continues to develop in relation to risk free rates as reference rates for Floating Rate Notes.

The Terms and Conditions of the Notes allow Notes referencing *inter alia* SONIA, SOFR, the Euro short term rate (€STR), SARON, TONA to be issued. The market continues to develop in relation to risk free rates, as reference rates in the capital markets, and their adoption as alternative to the relevant interbank offered rates. The market or a significant part thereof may adopt an application of

risk free rates that differs significantly from that set out in the Terms and Conditions and used in relation to Floating Rate Notes that reference a risk free rate issued under this Base Prospectus.

The nascent development of the use of these risk free rates as interest reference rate for bond markets, as well as continued development of risk free rates-based rates for such markets and of the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of the Notes. Interest on Notes which reference a risk free rate is only capable of being determined shortly prior to the relevant Interest Payment Date.

In addition, the Issuer or Calculation Agent has no control over the determination, calculation or publication of these risk-free rates. There can be no guarantee that they will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of Noteholders.

The mismatch between the adoption of such reference rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Notes.

These risk-free rates may fail to gain market acceptance and any market of the Notes indexed on these rates may be illiquid and unpredictable. Investors should not rely on indicative or historical data concerning these risk free rates. The investors are exposed to some discretion of the Calculation Agent to determine the interest rate that will replace the benchmarks that will cease to be published or used and to calculate the amount of interest needed to calculate the amounts due under the Notes on the basis of the risk-free rates.

Investors will not know in advance the interest amount payable on Notes which is calculated by reference to the risk free rates

The Rate of Interest or Rate in respect of the Notes may be calculated by reference to risk free rates such as SONIA, SOFR, €STR, SARON or TONA overnight funding rates with Interest Periods longer than overnight and will be calculated on the basis of (a) the arithmetic mean of such rate over the relevant Interest Period, where such rate is fixed for a certain number of days prior to the end of such Interest Period or (b) a compounded risk free rate (i) in respect of the Interest Period, provided that the risk free rate used as the basis for calculation is that which was observed a specified number of days prior or (ii) in respect of a period that starts a specified number of days prior to the relevant Interest Period and ends the same specified number of days prior to the end of such Interest Period or (c) calculated by reference to the level of the risk free rate published by its Administrator or authorised distributors. As a consequence of these calculation methods, the amount of interest payable on each interest payment date will only be known a short period of time prior to the relevant interest payment date. Investors therefore will not know in advance the interest amount which will be payable on such Notes and there is a possibility that such amount could be lower than expected.

3.1.18 Risks relating to legal, tax and regulatory changes

The Terms and Conditions of the Notes (including any non-contractual obligations arising therefrom or connected therewith) are based on relevant laws in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to such laws, or the official application or interpretation of such laws or administrative practices after the date of this Base Prospectus.

Legal, tax and regulatory changes could occur during the term of the Notes that may adversely affect the Notes, the underlying, related derivatives or the collateral assets in the case of Secured Notes. The regulatory environment is evolving, and changes in the regulation of any entities may adversely affect their value. Regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The regulation of securities and derivatives transactions is an evolving area of law and is subject to modification by government and judicial action. The effect of any future regulatory change on the underlying, related derivatives or on the collateral assets could be material, including clearing and margin requirements for derivatives and consequently may adversely affect the value of the Notes. Investors may therefore lose part or all of their investment in the Notes.

3.1.19 Limited recourse against SG Issuer

Each holder of Notes issued by SG Issuer is deemed to have acknowledged and undertaken, on its acquisition of such Notes, that, in the event of a payment default by SG Issuer of any amount due in respect of any Notes (such payment defaults, **Defaulted Payments**), such holder shall not institute any proceeding, judicial or otherwise, or otherwise assert a claim against SG Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against SG Issuer.

Nevertheless, Noteholders will continue to be able to claim against the Guarantor in respect of any unpaid amount.

As a consequence, prospective investors in Notes issued by SG Issuer should note that in the case of Defaulted Payments the entitlement of the Noteholders will be limited to the sums obtained by making a claim under the Guarantee, and the relevant provisions of the Guarantee.

3.1.20 Waiver of set-off

Pursuant to the General Terms and Conditions of the Notes, the Noteholders waive any right of or claims of set-off, netting, compensation, retention and counterclaim (and, for the avoidance of doubt, including all such rights, claims and liabilities arising under or in relation to any and all agreements or other instruments of any sort or any non-contractual obligations, in each case whether or

not relating to the Notes) in relation to the Notes, to the extent permitted by applicable law. As a result, the Noteholders will not at any time be entitled to set-off the Issuer's obligations under the Notes against obligations owed by them to the Issuer.

3.1.21 Risks relating to Notes denominated in Renminbi (RMB)

RMB foreign exchange control risk

RMB is not completely freely convertible at present, and the conversion of RMB into other currencies is subject to exchange controls imposed by the PRC government. New PRC regulations may be promulgated or any existing RMB clearing and settlement arrangements may be terminated or amended in the future which may have the effect of restricting availability of RMB outside the PRC. The limited availability of RMB outside the PRC may affect the liquidity of Notes denominated in RMB.

The current size of RMB denominated financial assets outside the PRC is limited. The control of currency conversion and movements in RMB exchange rates may adversely affect RMB denominated assets which may in turn affect notes linked to such assets.

RMB currency risk

All payments of RMB under the Notes to the Noteholders will be made solely by transfer to a RMB bank account maintained in Hong Kong or a financial centre outside the PRC in which a bank clears and settles Renminbi (**RMB Settlement Centre**) in accordance with the prevailing rules and regulations and in accordance with the Terms and Conditions of the Notes. The Issuer cannot be required to make payment in relation to Notes denominated in RMB by any other means (including in any other currency or by transfer to a bank account in the PRC), unless a Renminbi Currency Event (i.e. if RMB becomes illiquid, or if any amount can no longer be converted into RMB or from RMB into another currency or if it becomes impossible to transfer amounts in RMB between accounts in Hong Kong or from within Hong Kong to accounts outside Hong Kong) is specified as being applicable in the applicable Final Terms.

In addition, there can be no assurance that the access to RMB for the purposes of making payments under the Notes or generally may remain or will not become restricted. If it becomes impossible to convert RMB from/to another freely convertible currency, or transfer RMB between accounts in Hong Kong (or any other RMB Settlement Centre), or to remit RMB into or out of the PRC, or the general RMB exchange market becomes illiquid, any payment of RMB under the Notes may be delayed or the Issuer may make such payments in another currency selected by the Issuer using an exchange rate determined by the Calculation Agent, or the Issuer may redeem the Notes by making payment in another currency.

RMB exchange rate risk

The value of RMB against other currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. As a result, the value of any payments of RMB (in any applicable foreign currencies) may vary with the prevailing exchange rates in the marketplace. If the value of RMB depreciates against other currencies, the value of an investor's investment in such other currencies will decline.

RMB interest rate risk

Where applicable, the value of payments of RMB under the Notes may be susceptible to interest rate fluctuations, including Chinese RMB Repo Rates and/or the Shanghai Interbank Offered Rate (**SHIBOR**). The PRC government has gradually liberalised the regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. Furthermore, due to the foreign exchange control imposed by the applicable PRC laws and regulations and the prevailing market conditions, the RMB interest rate in the markets outside the PRC may significantly deviate from the RMB interest rate in the PRC.

Payments with respect to Notes denominated in RMB may be made only in the manner designated in such Notes

Noteholders may be required to provide certification and other information (including RMB account information) in order to be allowed to receive payments in RMB in accordance with the RMB clearing and settlement system for participating banks in Hong Kong. All payments to investors in respect of Notes denominated in RMB will be made solely (i) for so long as Notes denominated in RMB are represented by Global Notes or Registered Global Notes held with the Common Depository or Common Safekeeper, as the case may be, for Clearstream Banking S.A. and Euroclear Bank SA/NV or any alternative clearing system, by transfer to a RMB bank account maintained in Hong Kong or (ii) for so long as Notes denominated in RMB are in definitive form, by transfer to a RMB bank account maintained in Hong Kong in accordance with prevailing rules and regulations. Other than described in the Terms and Conditions of the Notes, the Issuer cannot be required to make payment by any other means (including in any other currency or in bank notes, by cheque or draft or by transfer to a bank account in the PRC).

3.1.22 Meetings of Noteholders

The General Terms and Conditions of the Notes contain provisions for calling meetings (including by way of conference call or by use of a video conference platform) of Noteholders to consider matters affecting their interests generally (see Condition 16 (*Meetings of Noteholders*), of the English Law Notes and of the French Law Notes). These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting, Noteholders who did not consent to the Written Resolutions and Noteholders who voted in a manner contrary to the majority. General meetings or written consultations may deliberate on any proposal relating to the modification of the conditions of the Notes subject, in the case of French Law Notes, to the limitations provided by French law. Only holders of French Law Notes will, in certain circumstances, be grouped for the defence of their common interests in a separate legal entity called "Masse" (as defined in Condition 16 (*Meeting of Noteholders*)). If the applicable Final Terms specify "No Masse", Noteholders will not be grouped in a masse having legal personality governed by the provisions of

the French *Code de commerce* and will not be represented by a representative of the masse. While it is not possible to assess the likelihood that the Conditions will need to be amended during the term of the Notes by a meeting of the Noteholders, if a decision is adopted by a majority of Noteholders and such modifications impair or limit the rights of Noteholders, this may negatively affect the market value of the Notes and Noteholders may therefore lose part or all of their investment in the Notes, although the probability of such a decision being taken by Noteholders is considered to be low. In case of Eligible Notes (issued by Societe Generale only), the prior written permission of the relevant Resolution Authority will be needed to effect any modification decided by Noteholders.

3.2 Risks relating to the market of the Notes

3.2.1. Market value of the Notes

The trading market for the Notes may be volatile and may be adversely impacted by many events

The market for debt securities is influenced by the economic and market conditions, interest rates, currency exchange rates and inflation rates in Europe and other industrialised countries and areas. There can be no assurance that events in France, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or that economic and market conditions will not have any other adverse effect.

Such factors may mean that the trading price of the Notes is below the Final Redemption Amount, and accordingly Noteholders, may receive an amount or an asset with a value significantly lower than the amount that they invested to purchase the Notes.

3.2.2 Risks relating to the secondary market of the Notes

If the Notes are subject to market making agreements, the aim is to ensure the liquidity of the Notes on the markets where they are traded, assuming normal market conditions and normally functioning IT systems. Certain exceptional market circumstances may adversely affect the liquidity of the Notes. Noteholders may not be able to sell their Notes easily or may have to sell them at a price that significantly affects the amount they earn. This may result in a partial or total loss of the amount invested.

Certain Notes have materially relevant liquidity risk. Certain exceptional market circumstances may adversely affect the liquidity of the Notes. Noteholders may not be able to sell their Notes easily or may have to sell them at a price that significantly affects the amount they earn. This may result in a partial or total loss of the amount invested.

There may be no market on which Notes may be traded, which may have a material adverse effect on the price at which such Notes can be resold and may result in the total or partial loss of the amount invested. The Notes may be completely illiquid and may not be able to be resold.

3.2.3 Reinvestment risks

The Notes may be redeemed or be subject to cancellation at a time when an investor generally would not be able to reinvest the proceeds at an expected yield as high as the return on the Notes being early redeemed or cancelled, as the case may be, and may only be able to do so at a significantly lower yield. Prospective investors should consider reinvestment risk in light of other investments available at that time.

3.2.4 The use of proceeds of the Notes identified as Positive Impact Notes in the Final Terms may not be suitable for the investment criteria of an investor

The Final Terms of the Notes (the **Positive Impact Notes**) may provide that the Issuer intends to apply an amount equivalent to the net proceeds of the issue to finance or refinance (via direct expenditures, via direct investments or via loans), in part or in full, eligible activities (such activities the **Eligible Activities**), which serves to deliver a positive contribution to one or more of the three pillars of sustainable development (economic, environmental and social), once any potential negative impacts and mitigation actions have been duly identified as defined in the sustainable and positive impact bond framework, as amended and supplemented from time to time (the **Framework**) which is available on the website of Societe Generale: (https://www.societegenerale.com/sites/default/files/documents/2021-11/20211104_Societe-Generale-Sustainable-and-Positive-Impact-Bond-Framework.pdf) and as specified in the Final Terms.

At the date of this Base Prospectus, the Framework *inter alia* (i) complies with the Green Bond Principles, Social Bond Principles and Sustainability Bond Guidelines published by the International Capital Markets Association, and (ii) aligns with the Principles for Positive Impact Finance published by the United Nations Environment Programme - Finance Initiative. It being specified that (i) such definition and guidelines may evolve from time to time and/or (ii) the Issuer may decide to depart from such definition and guidelines, in which cases such information will be specified in the Framework.

The definition (legal, regulatory or otherwise) of, and market consensus as to what constitutes or may be classified as, a “green” or equivalently-labelled project or a loan that may finance such activity, and the requirements of any such label are currently under development. On 18 June 2020, Regulation (EU) No. 2020/852 on the establishment of a framework to facilitate sustainable investment was adopted by the Council and the European Parliament (the **Taxonomy Regulation**). The Taxonomy Regulation establishes a single EU-wide classification system, or “taxonomy”, which provides companies and investors with a common language for determining which economic activities can be considered environmentally sustainable. A delegated act containing the screening technical standards has been adopted on 6 July 2021. Further development of the EU taxonomy will take place via a new Platform on Sustainable Finance, which is expected to be operating in the next months.

There is currently no market consensus on what precise attributes are required for a particular project to be defined as “sustainable”.

While it is the intention of the Issuer to apply an amount equivalent to the net proceeds of any Positive Impact Notes in, or substantially in, the manner described in the Final Terms and the Framework, the relevant Eligible Activity or the application of the net proceeds of the Positive Impact Notes in connection therewith (as described in section “*Reasons for the Offer and Use of Proceeds*” of the relevant Final Terms), might not be implemented in or substantially in such manner and/or in accordance with any timing schedule and that accordingly such net proceeds will be totally or partially disbursed for such Eligible Activity. Nor can it be certain that such Eligible Activity will be completed within any specified period or at all or with the results or outcome (whether or not related to the “sustainable and positive impact” aspect) originally expected or anticipated by the Issuer. Any such event or failure by the Issuer to apply the net proceeds to any issue of Positive Impact Notes for any Eligible Activity or to obtain and publish any reports, assessments, second party opinions and certifications or the fact that the maturity of an Eligible Activity may not match the minimum duration of any Positive Impact Notes will not (i) constitute an Event of Default or (ii) give a right to the Noteholders to request the early redemption, acceleration of the Positive Impact Notes held by it or give rise to any other claim or right or (iii) lead to an obligation of the Issuer to redeem the Positive Impact Notes or be a relevant factor for the Issuer in determining whether or not to exercise any optional redemption rights in respect of any Notes and (iv) will not have any impact on the regulatory classification of the Notes under the Relevant Rules and/or MREL or TLAC Requirements. For the avoidance of doubt, payments of principal and interest (as the case may be) on the relevant Positive Impact Notes shall not depend on the performance of the relevant project nor have any preferred right against such assets.

Any such event or failure to apply all or part of the net proceeds of any issue of Positive Impact Notes for any Eligible Activity as aforesaid and/or withdrawal of any second party opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such second party opinion or certification is opining or certifying on may have an adverse effect on the value of such Positive Impact Notes and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose and as a result, would have to dispose of the Positive Impact Notes at their prevailing market value which may be less than the investors’ initial investment in the Positive Impact Notes. Investors may therefore lose part or all of their investment. For the avoidance of doubt, it is however specified that payments of principal and interest (as the case may be) on the Positive Impact Notes shall not depend on the performance of the relevant Eligible Activities.

Notes identified as Positive Impact Notes in the Final Terms remain subject to bail-in and other regulatory requirements

Positive Impact Notes will be subject to the Bail-in Tool and to write down and conversion powers, and in general to the powers that may be exercised by the Relevant Resolution Authority, to the same extent as any other Note having the same ranking which is not a Positive Impact Note. Eligible Notes under MREL or TLAC Requirements may also be Positive Impact Notes.

Likewise, Eligible Notes that are Positive Impact Notes will be fully subject to the application of MREL or TLAC Requirements and, as such, proceeds from Positive Impact Notes qualifying as Eligible Notes should cover all losses in the balance sheet of Societe Generale regardless of their “green”, “social” or “sustainable” label. Additionally, their labelling as Green Positive Impact Notes, Social Positive Impact Notes or Sustainability Positive Impact Notes (i) will not affect, as the case may be, the regulatory treatment of such Notes as Eligible Notes for the purposes of MREL or TLAC Requirements, and (ii) will not have any impact on their status as indicated in the Terms and Conditions of the Notes.

Any:

- (i) failure to hold in its books an amount in Positive Impact Finance assets equivalent to 100% of the outstanding nominal amount of the Notes or to apply an amount equivalent to the outstanding aggregate nominal amount of the Notes to finance and/or refinance, in part or in full, Eligible Activities;
- (ii) withdrawal of any opinion or certification or any opinion or certification being superseded by an opinion or certification stating that Societe Generale has not complied, in whole or in part, with any matters on which the original opinion or certification had opined or certified; and/or
- (iii) lack of Eligible Activities in which Societe Generale may invest; and/or
- (iv) event or circumstances resulting in the *Positive Impact Notes* no longer being listed or admitted to trading on any stock exchange or securities market,

will not constitute an event of default, does not affect the regulatory treatment of the Positive Impact Notes and may have a material adverse effect on the value of Positive Impact Notes and the value of any other securities which are intended to finance Eligible Activities and could also result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose. As a result, these investors may have to dispose of the Positive Impact Notes at their prevailing market value which may be less than the investors’ initial investment in the Positive Impact Notes. Investors may therefore lose part or all of their investment.

4. RISK FACTORS RELATING TO STRUCTURED NOTES

4.1 Common risks relating to all Structured Notes

Risks relating to the Underlying(s) - gap risk

The amounts due under the Structured Notes are calculated by reference to the prices of the Underlying(s) depending on the indexing formula for these amounts, it being specified that the past performance of an Underlying does not in any way prejudice its future performance. Potential investors are exposed to the risk of losing all or a substantial part of the amount invested. The issuers or

owners of assets underlying the Notes do not participate in the offer of the Notes and have no obligation to take into account the interests of the Noteholders, when they take decisions likely to affect the value of these assets.

The relevant level, value or price of one or more Underlying(s) may change suddenly and significantly during the trading day or at the opening of the market. Such change may be positive or negative and is known as the "Gap Risk". If the price of the Notes includes a premium, this will be calculated to take account of the cost to the Issuer or its Affiliates of unwinding its hedging positions in relation to the Notes on early redemption of the Notes and the Gap Risk associated with the relevant level, value or price of the Underlying(s). Noteholders will not receive a refund of this premium if an Automatic Early Redemption Event occurs, which could significantly reduce the return a Noteholder stands to receive on its investment.

Potential limitation in the benefit of the performance of the price of the Underlying(s)

If the applicable Final Terms provide that the exposure of the Notes to one or more Underlyings is limited or capped at a certain level or amount, the relevant Notes will not benefit from any upside in the value of any such Underlying(s) beyond such limit or cap. In this case, Noteholders will not receive as much from their investment as they would have done if they had invested directly in the Underlying(s) or in alternative Notes without such features. The likelihood of this occurring is dependent on the likelihood of the Underlying(s) performing such that the limit or cap affects the Notes.

Absence of rights in respect of the Underlying(s)

The Notes do not represent a claim against any Underlying (or any issuer, sponsor, manager or other connected person in respect of an Underlying) and Noteholders will not have any right of recourse under the Notes to any such Underlying (or any issuer, sponsor, manager or other connected person in respect of an Underlying). The Notes are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of an Underlying and such entities have no obligation to take into account the consequences of their actions on any Noteholders and such consequences may have a negative impact on the value of the Notes. Noteholders may therefore lose part or all of their investment in the Notes. Investors in Physical Delivery Notes should also refer to "Risks relating to Physical Delivery Notes" above. In addition, Societe Generale, SG Issuer and/or any entity of the Societe Generale's group may take any action in respect of the Underlying(s) and the Noteholders will have no right or claim against Societe Generale, SG Issuer and/or any entity of the Societe Generale's group in respect of any amount that may be recovered by Societe Generale, SG Issuer and/or any entity of the Societe Generale's group in respect of such Underlying.

4.2 Risks relating to Structured Notes linked to an Index

The policies of the sponsor of an index as regards additions, deletions and substitutions of the assets underlying the index and the manner in which the index sponsor takes account of certain changes affecting such underlying assets may affect the value of the index.

The policies of an index sponsor with respect to the calculation of an index could also affect the value of the index. An index sponsor may discontinue or suspend calculation or dissemination of information relating to its index. Any such actions could affect the value of the Notes and Noteholders may therefore lose part or all of their investment in the Notes.

An index sponsor may at any time during the life of the Notes discontinue or suspend calculation or dissemination of information relating to its index. As a consequence investors in Index Linked Notes are exposed to the risk of discontinuance of the operational capacity and expertise of the Index Sponsor to ensure the calculation and maintenance of the index according to the methodology in force throughout the life of the Notes.

4.2.1 Risks relating to Structured Notes linked to an SGI Index

The composition of certain indices to which the Notes are linked, and the methodologies used in relation to these indices, can be determined and selected by Societe Generale or one of its related companies. In the choice of these methodologies, it can be expected that Societe Generale or the relevant related company of Societe Generale will take into account its own objectives and interests and / or those of the Group, and no guarantee can be given that the methodologies chosen will not be less favorable for the interests of investors than the methodologies used by other index sponsors in comparable circumstances.

If the hedging activities of Societe Generale or one of its related companies are disrupted in relation to a particular index, Societe Generale or the related company concerned may decide to end the calculations of this index, sooner than would another index sponsor in comparable circumstances. This could cause adjustments, de-indexation, substitution of the Index or the early redemption of the Notes.

4.2.2 Conflicts of interest in connection with proprietary indices

Societe Generale acts as sponsor of proprietary indices (SGI Indices). These indices are calculated by an external calculation agent in accordance with rules, which describe the methodology for determining the composition and calculation of these proprietary indices (the Rules).

(i) With regard to proprietary indices composed in a discretionary basis by Societe Generale or an affiliate of Societe Generale to which Notes are linked, Societe Generale may face a conflict of interest between its obligations as issuer of these Notes and as a composer of these indices, given that the determination of the composition of these indices may have an impact on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

(ii) With regard to proprietary indices composed by a third party to which the Notes are linked, Societe Generale may face a conflict of interest between its obligations as issuer of these Notes and as a sponsor of these indices, insofar as it can modify or supplement the Rules, in accordance with the Rules, which may have an impact on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

(iii) With regard to proprietary indices composed by the application of a mathematical formula in a non-discretionary manner by Societe Generale or any third party, Societe Generale may face a conflict of interest between its obligations as issuer of these Notes and as a sponsor of these indices, insofar as it may modify, in accordance with the Rules, certain parameters (such as the funding spread) or provide the assessment of certain components, which may have an impact on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

4.3 Risks relating to Structured Notes linked to a Fund

4.3.1 Risks relating to underlying Funds

Some Funds may have little or no oversight and regulation, which can increase the likelihood of fraud and negligence on the part of Fund managers and / or investment advisers, their brokerage firm or the banks.

The Funds may include complex tax structures and deferrals in the distribution of important tax information.

The Funds on which Structured Notes may be indexed may not publish information on their transactions and portfolios.

The members of the Group may from time to time obtain information on specific Funds, which may not be available to the general public in the ordinary course of their business, and not in relation to the offer of Notes (including as funds which are managed by managers part of Societe Generale group). As part of the ordinary course of their business, Group members may recommend, or decide not to recommend, certain specific Funds to their customers, which may appear, currently or in the future, among the underlying funds used in the redemption formula of Structured Notes. All the positions that may be taken by the members of the Group in respect of the expected future performance of one or more funds (including in respect of funds which are managed by managers part of Societe Generale group) do not constitute an indication of the future performance of this/these funds.

4.3.2 Fund managers' investment strategies

The fund managers (including a manager that is part of Societe Generale group) do not participate in the offer of the Notes in any way and have no obligation to take into account the interest of the Noteholders in taking measures which could have an impact on the value of the shares or units of the underlying funds and therefore on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

The manager and / or investment advisor of the Underlying Fund who implements the investment strategy of the Fund may decide to invest in financial assets or instruments which themselves carry risk with a view to maximizing profits, including by borrowing amounts that may represent more than 100% of the Fund's asset value. The manager and / or investment adviser may be all the more encouraged when his remuneration is indexed to the performance of the Fund. These elements can have a significant negative impact on the share / share of the Underlying Fund and therefore on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

4.3.3 Fund managers and/or investment advisors of the underlying fund(s)

The performance of underlying Fund(s) will depend to a considerable extent on the performance of the fund's managers and/or investment advisors of the Fund(s). Investors in Fund Linked Notes are therefore exposed to the risk of fraud and misrepresentation by unaffiliated fund managers or investment advisers. In addition, the fund managers and/or the investment advisors may be removed or replaced, the allocation of assets may vary from time to time and the various positions of the investments of the underlying Fund(s) may be economically offsetting, all of which may affect the performance of the underlying Fund(s).

The fund managers and/or the investment advisors may manage or advise other funds and/or accounts and may have financial and other incentives to favour such other funds and/or accounts over the underlying Fund(s). Also, the fund managers and/or the investment advisors may manage or advise for their own accounts and the accounts of their clients and may make recommendations or take positions similar or dissimilar to those of the underlying Fund(s) or which may compete with the underlying Fund(s).

4.3.4 Fees, deductions and charges will reduce any amounts due by the Issuer under the Notes

Fund fees and expenses will be deducted from the net asset value of the fund that may offset the Fund's trading profits, and hence reduce the value of the Fund units.

Accordingly, to the extent that any amount due by the Issuer under the Notes is linked to the net asset value of a fund, such amount payable to Noteholders will be less than it would have been absent these fees, deductions and charges.

4.3.5 The illiquidity of the underlying Fund's investments or the occurrence of certain extraordinary events may cause the determination of any amounts due by the relevant Issuer under the Notes to be reduced or delayed.

The intermediary amounts or final redemption amounts and other relevant amounts due to investors in Fund Linked Notes depend on the redemption proceeds of the units / shares of the Fund which will be paid by the underlying under a valid redemption order

given by a hypothetical investor with effect as of the relevant valuation date. Substantial redemption orders on units/shares of an underlying Fund on a particular day (including by Societe Generale in liquidating the hedge relating to Structured Notes) could require such funds to liquidate positions more rapidly than would be otherwise desirable and have a negative impact on the market value of the Notes. Many funds have provisions whereby redemption requests are scaled back if the aggregate amount of such requests reaches a predetermined limit or where redemption orders can be delayed or suspended discretionarily.

Investments of the underlying Fund may also not be readily saleable on or shortly after a redemption order if they are illiquid.

If the proceeds from the redemption of the units or shares have not been paid by the underlying Fund on the initially Scheduled Maturity Date or on any early redemption date, the payment of any amount due by the relevant Issuer may be postponed after the maturity date up to a maximum period of two years or as specified in the Final Terms. If at the expiry of this period, the underlying Fund has not paid in full the redemption proceeds or the units or shares, the amount due under the Notes shall be determined by the Calculation Agent on the basis of what has actually been paid by the underlying Fund. The amount received by the investors in the Notes may be as low as zero.

4.3.6 Risks relating to master-feeder structure

The underlying Fund(s) may invest as a “feeder” fund of a “master” fund, alongside present and future additional investors or feeder funds. A “feeder” fund usually refers to a fund which pools the investment capital raised from investors and invests (or “feeds”) such capital in an overarching umbrella fund (usually known as a “master” fund), which will be responsible for the investments in its portfolio.

The underlying Fund(s) may be materially affected by the actions of such other investors and feeder funds investing in the master fund, particularly if they have large investments in the master fund. If such other investors or feeder funds with a large investment in the master fund redeem from the master fund, illiquidity in certain securities or markets could make it difficult for the master fund to liquidate positions on favourable terms to effect such redemption, which could result in losses or a decrease in the net asset value of the unit/share of the master fund and hence in the market value of the Notes. In addition, to satisfy such redemptions, the sub-manager may need to liquidate the master fund's most liquid investments; leaving remaining investors (including the underlying Fund(s)) invested in more illiquid instruments. Such withdrawals may also leave the master fund with a less diversified pool of investments. This may increase the overall portfolio risk of the master fund, and, ultimately, the Notes. Conversely, the sub-manager of the master-fund may refuse a redemption request if it believes that such request, if fulfilled, would have a material adverse impact on the remaining investors of the master fund. This may negatively impact the liquidity of the master fund and, therefore, the performance of the underlying Fund(s) and the value of the Notes. Consequently, depending on the performance of the underlying Fund(s), Noteholders may lose part or all of their investment in the Notes.

4.4 Risks relating to Structured Notes linked to Credit

Noteholders are exposed, from a date specified in the applicable Final Terms, which may be earlier than the date of their decision to invest in the Notes or the Issue Date, to events related to the creditworthiness of the Reference Entities. Upon the occurrence of such events, the amount paid or the value of the underlying assets received at maturity of the Notes (after deduction of the costs, break funding charges, loss of funding, tax and duties) determined by reference to the value of the debt of the Reference Entity may be less than the invested amount. In addition, interest-bearing Credit Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstances.

In certain circumstances the period between the date on which the existence of a Credit Event is established and valuation may be as long as 180 days. Therefore, settlement, or as the case may be, notice that no amount is due under the Credit Linked Notes, may occur several months after the relevant Credit Event on a date which may be much later than the Scheduled Maturity Date of the Notes.

4.4.1 Risk in respect of Tranche Notes

Tranche Notes are Notes which are exposed to the credit risk of a list of Reference Entities, starting from an attachment point and ending on a detachment point (both expressed in percentages by reference to such list of Reference Entities). The principal and interest payable to the Noteholder will start to be impacted when the sum of losses incurred on the list of Reference Entities will have reached the attachment point, and 100% of the principal and interest payable to the Noteholder will be fully lost when the sum of losses will have reached the detachment point. The sum of such losses is expressed in percentages by reference to the list of Reference Entities.

Compared to an investment in a basket of the same list of Reference Entities, investment in Tranche Notes creates a leverage effect on the credit risk exposure of the Reference Entities. When the trigger threshold for a credit event is reached, the principal and interest payable to the Noteholder will be impacted more strongly the closer the detachment point is and the faster the detachment point is reached. The leverage effect comes from the impact of each affected Reference Entity in Tranche Notes once the attachment point has been reached. The leverage effect depends on the width of the tranche (detachment point minus attachment point) and is much higher compared to the impact the same Reference Entity has in a basket of Reference Entities which are not Tranche Notes.

4.4.2 Risk in respect of Basket Notes

In respect of Basket Notes, the greater the number of Reference Entities subject to a Credit Event, the lower the amount due under the Notes will be. Conversely, the fewer the Reference Entities, the greater the impact of a Credit Event affecting one of them will be on the Final Redemption Amount.

4.4.3 Risk in respect of Credit Linked on bespoke Basket Notes

In respect of bespoke Basket Notes, the greater the number of Reference Entities subject to a Credit Event, the lower the Final Redemption Amount will be. Conversely, the fewer the Reference Entities, the greater the impact of a Credit Event affecting one of them will be on the Final Redemption Amount.

The concentration of the Reference Entities in any one industry or geographic region would subject the Notes to a greater degree of risk with respect to economic downturns relating to such industry or geographic region.

4.4.4 Increased risk in respect of First-to-Default Notes

First-to-Default Notes are Notes where the credit risk to the Noteholder is materialised on the occurrence of the first credit event of any Reference Entity in a basket of Reference Entities. Given that the credit risk to the Noteholder can materialise on the occurrence of the first credit event of any Reference Entity in the basket, the Noteholder can lose a significant part or all of its investment in the Notes as soon as one single Reference Entity in the basket becomes subject to a credit event. In addition, the more Reference Entities there are in the basket of Reference Entities, the more likely it is that a credit event can occur, and the greater the degree of risk that the Noteholder may lose its entire principal invested in the Notes.

4.4.5 Valuation and settlement in case of Credit Event

Under the terms of the Notes, where Societe Generale acts as Calculation Agent, it may, for the purposes of determining the amount due under the Credit Linked Notes under the Quotation Dealers Method or the Physical Delivery Amount (each as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes) following one or more Credit Event(s), select obligations with the lowest price of any obligations which meet the relevant criteria. This may affect the value of the Notes and Noteholders may therefore lose part or all of their initial investment in the Notes.

4.4.6 Floating recovery

Where Floating Recovery is specified in the related Final Terms, the terms of the Credit Linked Notes provide that the Calculation Agent will, depending on the election mentioned in the related Final Terms, determine the Final Value either by obtaining quotations from Quotation Dealers in respect of Selected Obligation(s) or by reference to Transaction Auction Settlement Terms (as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes). In this regard, investors should note that: (A) the Final Value as determined by reference to Transaction Auction Settlement Terms may be lower than the Final Value determined otherwise and will typically reduce the amount due under the Notes; and (B) (i) if Transaction Auction Settlement Terms are not published or (ii) a Fallback Settlement Event (as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes) occurs within a certain period and if it is not possible to obtain quotations from Quotation Dealers for the Selected Obligations (as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes) within a further period, the Final Value of the Selected Obligations will be deemed to be zero and therefore the amount due under the Notes will be equal to zero.

4.4.7 Fixed Recovery

Where Fixed Recovery is specified in the applicable Final Terms (which can be zero), the terms of Credit Linked Notes provide that the Final Value of a Reference Entity in respect of which a Credit Event Determination Date has occurred will be equal to the fixed percentage of the Specified Denomination specified in the applicable Final Terms (which can be zero).

This percentage may be lower than the recovery value, which would have been determined by reference to prices quoted by market participants or by using an auction valuation method in respect of such Reference Entity, or even be equal to zero.

4.4.8 Deferral of valuation and/or payments

In certain circumstances the period between the date on which the existence of a Credit Event is established and valuation may be as long as 180 days therefore, settlement, or as the case may be, notice that no amount is due under the Credit Linked Notes, may occur several months after the relevant Credit Event on a date which may be much later than the Scheduled Maturity Date of the Notes. If this occurs, this could adversely affect the value of the Notes and Noteholders may therefore lose part or all of their initial investment in the Notes. Also it is possible that no payment on the Notes may be due to the Noteholders on the Scheduled Maturity Date.

4.5 Risks relating to Structured Notes linked to a Bond

Noteholders are exposed as from a date specified in the Final Terms (which may be earlier than the date of their decision to invest in the Notes or the Issue Date) to events (specified in the Final Terms) relating to the creditworthiness of the relevant Bond Issuer. In the event of the occurrence of one of these events, the amount paid or the value of the Bond received, at maturity of the Notes (after deduction of costs, breakage cost funding charges, loss of funding, taxes and duties) determined by reference to the value of the Bond(s) may be less than the amount invested. In addition, interest-bearing Bond Linked Notes may cease to bear interest on or prior to the date of occurrence of such events. Investors' attention is drawn to the fact that no, or a reduced amount of, Cash Redemption Amount may be due under the Bond Linked Notes and settlement (whether American Settlement or European Settlement is specified in the applicable Final Terms) may occur several months or years after the relevant Bond Event and on a date which may be later than the Scheduled Maturity Date of the Notes.

4.5.1 Ranking of the Bonds

Depending on the ranking, the obligations of the Bond Issuer and/or as the case may be the Bond Guarantor, may rank junior in priority of payment to unsubordinated creditors, to holders of subordinated obligations expressed by their terms to rank in priority to the Bonds and/or to creditors preferred by mandatory and/or overriding provisions of law. In the event of incomplete payment to creditors that rank senior to the ranking of the Bonds, the obligations of the Bond Issuer and/or the Bond Guarantor, as the case may be, in connection with the Bonds may be terminated. The ranking of the Bonds may accordingly increase the credit risk on the Bond Issuer and/or the Bond Guarantor as the case may be and as a result may increase the likelihood of the occurrence of a Bond Event(s). If a Bond Event(s) occurs, this could have an adverse effect on the value of and return on the Notes. Consequently, Noteholders may lose part or all of their investment in the Notes.

4.5.2 Risk in respect of Basket Bond Linked Notes

In respect of Basket Bond Linked Notes, the greater the number of Bonds in the basket subject to a Bond Event, the lower the amount due under the Notes will be. Conversely, the fewer the Bonds in the basket, the greater the impact of a Bond Event affecting one of them will be on the Final Redemption Amount. The concentration of the Bond Issuers in any one industry or geographic region would subject the Notes to a greater degree of risk with respect to economic downturns relating to such industry or geographic region.

4.5.3 Floating recovery

Where Floating Recovery is specified in the related Final Terms, the Calculation Agent will determine the Bond Final Value by obtaining quotations from Quotation Dealers in respect of the Bonds. In this regard, investors should note that: (i) the Bond Final Value as determined by the Calculation Agent may be lower than the Bonds' market value determined otherwise and will typically reduce the amount due under the Notes and (ii) such Bond Final Value cannot exceed 100% (unless otherwise specified in the applicable Final Terms) of the Bond Notional Amount irrespective of the Bonds market value determined otherwise.

4.5.4 Fixed Recovery

Where Fixed Recovery is specified in the related Final Terms, the Additional Terms and Conditions for Bond Linked Notes provide that the Bond Final Value of a Bond in respect of which a Bond Event Determination Date has occurred will be equal to the fixed percentage of the Specified Denomination specified in the related Final Terms.

This percentage may be lower than the recovery value, which would have been determined by reference to prices quoted by market participants or by using an auction valuation method in respect of such Bond or may even be equal to zero.

4.5.5 Exposure to a hypothetical transaction and Breakage Cost Amount

The Notes may include reference in the applicable Final Terms to:

(i) a hypothetical transaction deemed entered into between Societe Generale and a hypothetical counterparty, in order to hedge amounts (whether principal, interest or any other amounts) that would have been paid (x) on the Bond, in accordance with its original terms as at the Issue Date of the Notes, from (and including) the Issue Date of the Notes to (and including) the maturity date of the Bond (such amounts being deemed payable by Societe Generale or any of its affiliates to the hypothetical counterparty) and (y) on the Notes from (and including) the Issue Date of the Notes to (and including) the Scheduled Maturity Date (as defined in the applicable Final Terms) of the Notes (such amounts being deemed payable by the hypothetical counterparty to Societe Generale or any of its affiliates) (the "**Reference Transaction**"); and/or

(ii) a breakage cost amount, being an amount determined by the Calculation Agent equal to the fees, costs and expenses arising directly or indirectly, in connection with (i) terminating, unwinding, realizing or enforcing any repurchase transaction (if any) with the Bond as underlying asset, the purpose of which is to refinance the relevant Bond and (ii) entering into, trading or increasing any repurchase transaction (or any transaction with similar purposes) with the Collateral Assets (if any) as underlying asset, the purpose of which is to refinance the Collateral Assets (if any) (the "**Breakage Cost Amount**").

If a Bond Event Determination Date occurs in respect of a Bond, the amount payable to Noteholders (the "**Cash Redemption Amount**"), may be reduced, potentially down to zero, by the Reference Transaction Price (being the amount, as determined by the Calculation Agent, due in terminating, liquidating or re-establishing the Reference Transaction) and/or the Breakage Cost Amount. Noteholders may therefore lose all or part of their investment in the Bond Linked Notes.

4.5.6 Market Trigger Event

If Market Trigger Event is specified as applicable in the related Final Terms and the Calculation Agent determines that the secondary mid price of the Notes has fallen below a certain level for a certain period, the Notes may be early redeemed at an amount equal to the Market Trigger Event Bond Market Value (which may be as low as zero) minus the Market Trigger Event Reference Transaction Price (which may be a positive or negative amount) resulting in a redemption amount payable on the Notes as low as zero, this amount being subject to a floor value equal to zero. As a consequence, the investor may lose all or part of the invested amount.

4.6 Risks relating to Structured Notes linked to a Foreign Exchange Rate

The performance of Foreign Exchange Rates, currency units or units of account are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors,

fiscal and monetary policy, government debt, currency convertibility and safety of making financial investments in the currency concerned, speculation and intervening measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates as well as the availability of a specified currency. Any such measures could have a negative impact on the performance of a Foreign Exchange Rate and consequently the value of the Notes.

Currency exchange risks can be expected to heighten in periods of financial turmoil. In periods of financial turmoil, capital can move quickly out of regions that are perceived to be more vulnerable to the effects of a crisis with sudden and severely adverse consequences to the currencies of those regions as a result. In addition, governments around the world have recently made, and may be expected to continue to make, very significant interventions in their economies, and sometimes directly in their currencies. It is not possible to predict the effect of any future legal or regulatory action relating to a currency. Further interventions, other government actions or suspensions of actions, as well as other changes in government economic policy or other financial or economic events affecting the currency markets – including the replacement of entire currencies with new currencies - may cause Foreign Exchange Rates to fluctuate sharply in the future, which could have a negative impact on the value of the Notes.

4.7 Risks relating to Structured Notes linked to Preference Shares or Warrants

The market value of the Preference Shares or Warrants to which Notes may be linked will fluctuate up or down depending on the performance of the relevant underlying(s) or basis of reference to which the Preference Shares or Warrants are linked (the Preference Share Underlying or Warrant Underlying) such as equity, debt or derivative securities, indices, investments, funds, exchange traded funds, commodities, credit, baskets of securities or indices, currencies and portfolios. The composition of the relevant Preference Share Underlying(s)/Warrant Underlying(s) may be designed to change over time as a result of performance or other factors.

As a result, if the performance of the Preference Share Underlying/Warrant Underlying is negative, the value of the Preference Share Linked Notes/Warrant Linked Notes will be adversely affected. Purchasers of Preference Share Linked Notes/Warrant Linked Notes risk losing all or a part of their investment if the value of the Preference Shares/Warrants falls.

The basis and rate of taxation in respect of Preference Share Linked Notes/Warrant Linked Notes and reliefs depend on each investor's individual circumstances and could change at any time. This could have a negative impact on the return of the Preference Share Linked Notes/Warrant Linked Notes. In the event that the Preference Share Linked Notes/Warrant Linked Notes pay a coupon other than on redemption (such term including early or final redemption), prospective investors should be aware that such coupon will likely be subject to income tax.

4.8 Risks relating to Structured Notes linked to Inflation

The level of an Inflation Index may lag or otherwise not track the actual level of inflation in the relevant jurisdiction.

Inflation Indices may not correlate with other indices and may not correlate perfectly with the rate of inflation observed by purchasers of the Inflation Linked Notes in such jurisdiction. The value of the Inflation Linked Notes which are linked to an Inflation Index may be based on a calculation made by reference to such Inflation Index for a month which is several months prior to the date of payment on the Inflation Linked Notes and therefore could be substantially different from the level of inflation at the time of the payment on the Inflation Linked Notes.

Upon the occurrence of certain events in relation to an Inflation Index, e.g., the Inflation Index level has not been published or is discontinued or is corrected or such Inflation Index is rebased or materially modified, then depending on the particular event, the Issuer may determine the level, substitute the original Inflation Index, adjust the terms and conditions of the Inflation Linked Notes or redeem the Inflation Linked Notes. Any such event and its consequences may have an adverse effect on the value of the Inflation Linked Notes.

4.9 Risks relating to Structured Notes linked to exchange traded product (ETP) and to exchange traded fund (ETF)

4.9.1 Exchange traded products and Exchange traded funds are subject to market trading risks

An ETP or an ETF faces numerous market trading risks, including but not limited to the potential lack of an active market, losses from trading in secondary markets, periods of high volatility, limited liquidity and disruption in the creation or redemption process of such ETP or such ETF. If any of these risks materialises, this may lead to the ETP or ETF shares trading at a premium or discount to its fair market value.

4.9.2 Action or non-performance by the ETP issuer, the sponsor of the ETP or the Calculation Agent or by the management company, fund administrator or sponsor of an ETF that may adversely affect the Notes

In case of an ETP Linked Notes, the ETP issuer and/or the sponsor of the ETP and in case of an ETF Linked Notes, the management company, fund administrator or sponsor of an ETF will have no involvement in the offer and sale of the Notes and will have no obligation to any purchaser of such Notes. In its day-to-day operations and its investment strategy, an ETP will rely on the ETP issuer, the sponsor of the ETP and the Calculation Agent and an ETF will rely on the fund advisor, the investment advisor, the management company and/or on third parties providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments used by such ETF to employ its investment strategy. The insolvency or non-performance of services of any such persons or institutions may expose an ETP or an ETF to lose value. Failure of procedures or systems, as well as human error or external

events associated with, in case of an ETP, an ETP's issuer, sponsor or Calculation Agent and in case of an ETF, an ETF's management and/or administration, may reduce the value of the ETP or the ETF and affect the market value of the Notes.

4.9.3 Credit risk of the issuer of the ETP or the ETF

The value of the ETP Linked Notes or the ETF Linked Notes is dependent on the value of the ETPs or the ETFs, which will depend in part on the creditworthiness of the issuer of the ETPs or of the ETFs, which may vary over the term of the relevant Notes. A change in the creditworthiness of the issuer of the ETPs or of the ETFs may therefore affect the performance of the ETPs or ETFs respectively, and the value of Notes linked to ETPs or ETFs (as the case may be). Consequently, depending on the performance of such ETPs or ETFs, Noteholders may lose part or all of their investment in the ETP Linked Notes or the ETF Linked Notes.

4.9.4 Exposure to the ETP Underlying

ETPs usually aim to track the performance of an underlying financial instrument or basket thereof, which may include, without limitation, listed equities, commodities, interest rates, foreign exchange rates, debt instruments, derivatives or any index thereof (the **ETP Underlying**). In addition, when compared to exchange traded funds, exposure to ETPs may involve a higher level of leverage and/or short exposures and/or more concentrated exposures.

Prospective investors should also consider the risk factors in respect of the risks involved in investing in ETPs including, without limitation, risks relating to the ETP Underlying and to the underlying economics of the ETPs. Consequently, prospective investors should review the ETP Conditions and consult with their own professional advisers if they consider it necessary.

4.9.5 Risk that the ETP does not accurately track its underlyings' performance

Where the Notes are linked to an ETP, Noteholders are exposed to the performance of such ETP and not necessarily the performance of the ETP Underlying. Accordingly, investors who purchase Notes that are linked to an ETP may receive a different return than if such investors had directly invested into the ETP units or the ETP Underlyings.

4.9.6 Where the underlying asset is an exchange traded fund, there is a risk that such Exchange Traded Fund will not accurately track its underlying share or index

Where the Notes are linked to an exchange traded fund (an ETF) and the investment objective of such ETF is to track the performance of a share or an index, the investors of such Notes are exposed to the performance of such ETF rather than the underlying share or index such ETF tracks. For certain reasons, including to comply with certain tax and regulatory constraints, an ETF may not be able to track or replicate the constituent securities of the underlying share or index, which could give rise to a difference between the performance of the underlying share or index and such ETF. Accordingly, investors who purchase Notes that are linked to an ETF may receive a lower return than if such investors had invested in the share or the index underlying of such ETF directly.

4.9.7 Exchange traded funds not actively managed

If the investment objective of an ETF is to track the performance of an index or other asset, such ETF will invest in instruments included in, or that are representative of, the index or other asset it is tracking regardless of their investment merits. The performance of such ETF may be affected by general movements in market segments related to the index or other asset it is tracking, and such general movements in market segments may therefore affect the value of Notes linked to such ETF. Consequently, depending on the performance of such ETF, Noteholders may lose part or all of their investment in the ETF Linked Notes.

4.9.8 Exchange traded funds may engage in securities lending

Securities lending involves the risk that the ETF may lose money because the borrower of the ETF's loaned securities fails to return the securities in a timely manner or at all or that insufficient collateral has been posted in respect of such securities lending transaction. Securities lending carried out by the ETF may therefore affect its performance and the value of Notes linked to such ETF. Consequently, depending on the performance of such ETF, Noteholders may lose part or all of their investment in the ETF Linked Notes.

4.10 Risks relating to Structured Notes linked to a Reference Rate

The performance of the Reference Rates is dependent on economic factors, including inflation rates in the relevant countries, economic forecasts, international political factors, monetary and fiscal policy, government debt, speculation and actions taken by governments and central banks. Such factors could have a negative impact on the performance of the Reference Rate and consequently on the value of the Notes. These factors can be expected to intensify in periods of financial turmoil.

4.11 Risks relating to Future Linked Notes

An investment in Future Linked Notes may bear similar market risks as a direct investment in the relevant future contract(s). The value of the future contract(s) underlying the Notes may vary over time and may increase or decrease by reference to a variety of factors which include the factors affecting the Future Underlier, as defined in the Additional Terms and Conditions for Future Linked Notes.

Futures contracts have a predetermined Expiry Date as defined in the Additional Terms and Conditions for Future Linked Notes. If the applicable Final Terms specify that Roll Adjustment applies, the Notes are valued by reference to futures contracts that have an

Expiry Date that does not correspond to the term of the Notes, consequently the Calculation Agent will roll the Future Contracts (the **Roll Adjustment**) which means that the future contracts that is the closest to expiration (the **Active Future Contract**) will be replaced before it expires by a future contract that has an Expiry Date later in the future (the **Next Active Future Contract**).

On each Roll Date, the price of the Active Future Contract may be lower than (respectively higher than) the price of the Next Active Future Contract if the future curve is in contango (respectively in backwardation). The Roll Adjustment may as a consequence have either a positive or negative impact on the value of the Notes. This may result in a partial or total loss of the investment in the Notes.

In addition to the effects of contango and backwardation, each "roll" may generate costs that will be taken by the Calculation Agent. These costs correspond to the expenses incurred in replacing the futures contract (transaction costs) and may have an adverse effect on the return of the Notes.

Prospective purchasers of Notes should be aware that in respect of Notes on futures contract that are rolled, the potential negative impact on the value of the Notes induced by the roll may lead to a performance of the Notes lower than the performance that would have been generated by Notes on the Future Underlier itself.

4.12 Risks relating to Portfolio Linked Notes

The market value of Portfolio Linked Notes will fluctuate up or down depending on the performance of the relevant components of the Portfolio such as equity, debt or derivative securities, indices, investments, funds, exchange traded funds, commodities, credit, baskets of securities or indices, currencies and portfolios. Such performance may be affected by changes in the value of the different components in the Portfolio to which the relevant issue of Portfolio Linked Notes relates. This value may be affected by (i) the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any component comprising the Portfolio may be traded, (ii) risks highlighted in section "Risk Factors" (Risk factors relating to Structured Notes) relating to individual types of underlyings which are included in the relevant Portfolio and (iii) other factors set out elsewhere in "Risk Factors". The composition of the Portfolio may be designed to change over time as a result of performance or other factors.

As a result, if the performance of the Portfolio is negative, the value of the Portfolio Linked Notes reference will be adversely affected. Purchasers of Portfolio Linked Notes risk losing all or a part of their investment if the value of the Portfolio falls.

Consequently, prospective investors, when considering investing in Portfolio Linked Notes, should also consider the risk factors linked to the Portfolio Components.

In addition, there may be correlation between price movements of one component and the price movements of another component of the Portfolio that may have a negative impact on the value of the Portfolio. As such, the value of Portfolio Linked Notes can therefore be volatile and this may result in Noteholders losing all, or a substantial part, of their investment.

In addition, Portfolio Linked Notes may be subject to a number of costs which would negatively impact the value of the Portfolio Linked Notes.

4.13 Risks relating to actively managed Portfolio Linked Notes

- Exposure to the Dynamic Portfolio

Holders of Notes linked to a Dynamic Portfolio are exposed to the risk of changes in the market value of such Notes resulting from both changes in the prices of the assets comprising the Dynamic Portfolio and recommendations for replacement or weighting of the assets comprising the Weighting Adviser's Portfolio. Consequently, depending on the performance of such Dynamic Portfolio and the market value of Notes linked to such Dynamic Portfolio, Noteholders may lose part or all of their investment in such Notes.

- Risks relating to the Weighting Advisor

Investors in actively managed Portfolio Linked Notes are exposed to the risk of the operational capacity and expertise of the Weighting Advisor to provide recommendations for replacement or weighting of the assets comprising the Portfolio throughout the life of the Notes.

Even though the Issuer and the Calculation Agent have designated the Weighting Advisor, the Weighting Advisor shall act in the exclusive interest of the Noteholders. Consequently, the Weighting Advisor is exclusively responsible to the Noteholders for any recommendations for replacement or weighting of the assets comprising the Portfolio or for any fraud, negligence or misrepresentation.

In addition, in the event of termination of the Weighting Advisory Agreement, investors are exposed to the risk of de-indexation to the Dynamic Portfolio and a monetary return, replacement of the Weighting Advisor or early redemption of the Notes. The occurrence of any of these events may impact on the market value of the Notes and may result in the total or partial loss of the amount invested in the Notes.

Noteholders should refer to the Weighting Advisory Agreement for more information.

- Risk of conflict of interests between the Issuers, the Guarantor, the Calculation Agent and the Weighting Advisor and the Noteholders

The Issuers, the Guarantor, the Calculation Agent or the Weighting Advisor, may engage in trading and other business activities relating to the Portfolio Components without regard to the Notes and that are not for the Noteholders' accounts or on behalf of the

Noteholders. Such trading and other business activities could create conflicts between the interests of the Issuers, the Guarantor, the Calculation Agent and the Weighting Advisor on the one hand, and the interests of the Noteholders on the other hand, which could have an adverse impact on the value of and return on the Notes. Consequently, investors may lose part or all of their investment in the Notes.

4.14 Risks relating to Structured Notes linked to a Dividend

Prospective investors in Dividend Linked Notes should be aware that, depending on the specific terms and conditions of the relevant Dividend Linked Notes, (i) they might only receive a limited amount of interest or no interest at all, (ii) payment of principal or interest could occur at a time other than that stipulated, (iii) they could lose all or a substantial part of their investment. In addition, dividend levels can be subject to significant fluctuations which bear no relation to fluctuations in interest rates, currencies or other indices, and the timing of such variations can impact the real yield realised by investors, even in cases where the average level is in accordance with expectations.

In general, the earlier the change in the dividend amount or the amount resulting from a formula occurs, the greater the impact on yield. The market price of such Notes can be volatile and might depend on the length of the residual maturity and the volatility of the dividend amounts.

5. ADDITIONAL RISKS ASSOCIATED WITH SECURED NOTES (ISSUED BY SG ISSUER ONLY)

5.1 Risks relating to the Collateral Assets

- There is no guarantee that the Collateral Assets will be sufficient to ensure that, following enforcement of a Pledge Agreement, the amounts available for distribution or the value of the Collateral Assets available to be delivered will be sufficient to pay all amounts due to Noteholders in respect of the relevant Secured Notes. In addition, Collateral Percentage may be lower than 100%. In that case the Noteholders will still have a claim against the Guarantor for any unpaid amounts.

- The value of the assets used as collateral value can be 3 per cent lower than the required collateral value. This tolerance threshold amplifies most of the risks associated with Secured Notes described herein and in particular the risk that following enforcement of a Pledge Agreement, the amounts available for distribution or the value of the Collateral Assets available to be delivered by the Security Trustee or the Security Agent will not be sufficient to pay all amounts due to Noteholders in respect of the relevant Secured Notes. In that case, the Noteholders will still have a claim against the Guarantor for any unpaid amounts.

- **Lack of diversification of the Collateral Assets**

In case of low diversification of the Collateral Assets in a Collateral Pool pursuant to the Eligibility Criteria and the Collateral Rules, any depreciation in the value of such assets in the period between the most recent Collateral Test Date and the realisation of the Collateral Assets will have a proportionally larger impact on any shortfall as the amount recovered in respect of the Collateral Assets on their sale will be dependent on the then current market value of a smaller range of Collateral Assets.

- **"Haircut" applied to Collateral Assets**

A "Haircut" (if specified in the applicable Final Terms) means the percentage amount by which the value of each type of Collateral Asset contained in a Collateral Pool is discounted. One Haircut value may be specified in the applicable Final Terms per type or class of Collateral Asset. The level(s) of Haircut specified in the applicable Final Terms is intended to reflect the risk of a depreciation in the value of Collateral Assets in the period between the most recent Collateral Test Date and the date on which such Collateral Assets may be realised. Investors should note that the value of a Collateral Asset may change over time and the Haircut applied to the Collateral Assets may become outdated and may not provide suitable protection against a potential depreciation in value of the relevant Collateral Asset.

- **Illiquid Collateral Assets**

Certain of the Collateral Assets may be illiquid and not easily or not at all realisable in certain market circumstances or can only be sold at a discounted value. In that case, investors may receive the delivery of the Collateral Assets as if Physical Delivery of Collateral Assets were applicable in relation thereto.

5.2 Secured Note Acceleration Event and Enforcement of the security

A Noteholder (or, in the case of French Law Notes only, the Representative of the Masse) is only entitled to send a Collateral Enforcement Notice if neither SG Issuer nor the Guarantor has paid all amounts due to such Noteholder within a period of 3 Collateral Business Days following the occurrence of the relevant Secured Note Acceleration Event.

During the 3 Collateral Business Days period there may be a depreciation in the value of the relevant Collateral Assets, thus reducing the amount available to satisfy the claims of Noteholders upon realisation of the Collateral Assets. In addition, the Collateral Assets may suffer a fall in value between the time at which the Collateral Enforcement Notice is sent by a Noteholder (or, in the case of French Law Notes only, the Representative of the Masse) and the time at which the Collateral Assets are realised in full or, where Physical Delivery of Collateral Assets is applicable, delivered.

5.3 Frequency of Collateral Test Dates

The lower the frequency of the periodic Collateral Test Dates specified in the applicable Final Terms and hence the greater the period of time between each such periodic Collateral Test Date (or even in the absence of any Collateral Test Date) the more likely it is that upon enforcement of the relevant Pledge Agreement, the proceeds of enforcement that a Noteholder will receive or, where Physical

Delivery of Collateral Assets is applicable, the value of the Collateral Assets delivered, will be less than the amounts due to Noteholders in respect of the relevant Secured Notes. This could have an adverse effect on the value of and return on the Notes. Consequently, Noteholders may lose part or all of their investment in the Notes.

5.4 Correlation between the value of the Collateral Assets and the creditworthiness of SG Issuer and the Guarantor

In the event that there is a positive correlation between the value of the Collateral Assets and the creditworthiness of SG Issuer and the Guarantor, the value of the Collateral Assets may vary in the same way as the creditworthiness of SG Issuer and the Guarantor.

A default by SG Issuer and/or the Guarantor in relation to their obligations under the Secured Notes may be associated with a fall in the value of Collateral Assets securing such Secured Notes.

The value of Collateral Assets required to be posted in the Collateral Pool will be based on the Secured Note Market Value which takes into account SG Issuer's and the Guarantor's creditworthiness whereas, following an Event of Default, the Market Value determined by the Calculation Agent (which determines the claim that a holder of Non-Waived Notes has on SG Issuer and/or the Guarantor), will not take into account SG Issuer's or the Guarantor's creditworthiness and will not decrease following such Event of Default. As a result, the claim of the Noteholders against the Issuer/Guarantor may be significantly higher than the value of the Collateral Assets.

5.5 Specific risk due to the difference between the aggregate nominal value of the Non-Waived Notes and Market Value of the Notes following an Event of Default for the Nominal Value Type of Collateralisation

When pursuant to the applicable Final Terms the value of the Collateral Assets required to be posted in the Collateral Pool is based on the aggregate nominal value of the Secured Notes, the value of such Collateral Assets will not track the Market Value of the Secured Notes, consequently following the occurrence of an Event of Default, the value of Collateral Assets may be significantly lower than the claim of the Noteholders on SG Issuer and/or the Guarantor. Consequently, Noteholders may lose part or all of their investment in the Notes.

5.6 Subordination of Noteholders to payment of expenses and other payments

Following the enforcement of security, the rights of holders of Non-Waived Notes to be paid amounts from the proceeds of such enforcement and the realisation of the related Collateral Assets or, where Physical Delivery of Collateral Assets is applicable, to be delivered Collateral Assets, will be subordinated to and therefore rank behind claims relating to any amounts payable to Secured Parties ranking prior to the holders of Non-Waived Notes in accordance with the relevant order of priority and any rights of preference existing by operation of law.

5.7 Risk of a delay in the realisation of the Collateral Assets in the event of the insolvency of the Issuer, the Security Trustee, the Security Agent and/or the Collateral Custodian

In the event of the insolvency of SG Issuer, the Security Trustee, the Security Agent or the Collateral Custodian, the realisation of the Collateral Assets may be delayed either by the appointment of an insolvency administrator or other insolvency official in relation to SG Issuer, the Security Trustee, the Security Agent or the Collateral Custodian or by measures ordered by a competent court. Such delay could adversely affect the position of the Noteholders in the event of a depreciation in the value of the Collateral Assets during such period. Consequently, Noteholders may lose part or all of their investment in the Notes.

The Collateral Custodian, the Disposal Agent, the Substitute Paying Agent, the Security Trustee and the Security Agent are (unless otherwise specified in the applicable Final Terms) part of the same group and in the event of the insolvency of one entity it is possible that another entity may also be insolvent. Such circumstances may lead to a delay in the realisation of the Collateral Assets. However, the agreements in which such entities are nominated will contain provisions permitting their replacement.

Important Information

Each prospective investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each prospective investor may wish to consider, either on its own or with the help of its financial and other professional advisers whether it:

(i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained in, or incorporated by reference into, this Base Prospectus or any applicable Supplement and in the applicable Final Terms;

(ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;

(iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest in respect of which amounts are payable in one or more currencies, or where the currency for principal or interest payments is different from the prospective investor's currency;

(iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of any relevant underlying and financial markets; and

(v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

INDEPENDENT REVIEW AND ADVICE

Each prospective investor in the Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules. Prospective investors should also conduct such independent investigation and analysis regarding the Issuer, the Guarantor, the Notes and all other relevant market and economic factors as they deem appropriate to evaluate the merits and risks of an investment in Notes.

A prospective investor may not rely on the Issuers, the Guarantor, the Arranger or the Dealer(s) or any other member of the Group in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

ASSESSMENT OF INVESTMENT SUITABILITY

Each prospective investor in the Notes must determine the suitability of that investment in light of its own financial circumstances and investment objectives, and only after careful consideration with its financial, legal, tax and other advisers. In particular, each prospective investor should:

(i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable Supplement;

(ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;

(iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes;

(iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and

(v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. A prospective investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes

will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the prospective investor's overall investment portfolio. Some Notes which are complex financial instruments may be redeemable at an amount below par in which case investors may lose the value of part or their entire investment.

NO LEGAL AND TAX ADVICE

Neither the Issuer nor the Guarantor are giving legal or tax advices to the investors. Each prospective investor should consult its own advisers as to legal, tax and related aspects relating to an investment in the Notes. A Noteholder's effective yield on the Notes may be diminished by the tax on that Noteholder of its investment in the Notes.

LEGALITY OF PURCHASE

None of the Issuer, the Agents or any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective purchaser of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective purchaser with any law, regulation or regulatory policy applicable to it.

TAXATION

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available in relation to the tax treatment of financial instruments such as the Notes. **The tax legislation of the investor's Member State and of the Issuer's country of incorporation may have an impact on the income received from the securities.** Prospective investors are advised to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, disposal and redemption in respect of Notes. Only such adviser is in a position to duly consider the specific situation of the prospective investor.

NO GROSS-UP RISK

If a withholding or deduction is required by the Tax Jurisdiction and if the applicable Final Terms specify that the Gross-up provision is not applicable, the Issuer will not be required to pay such additional amounts. In this case, neither the Issuer nor any paying agent nor any other person will be required to pay additional amounts to cover the amounts so withheld or deducted. Consequently, investors will receive such payments net of such withholding tax. In such case, investors should note that they will take the risk of any applicable withholding tax and each Noteholder shall be responsible for supplying or filing (as applicable) in a timely manner any documentary evidence or forms as the investor may be entitled to and as may be required in order to obtain relief or reduction of taxes imposed by way of withholding or deduction on payments under the Notes.

In addition, neither the Issuer nor any paying agent nor any other person will be required to pay additional amounts to cover any amounts withheld or deducted on account of any United States withholding taxes, including taxes under FATCA and Section 871(m) as discussed below. Consequently, investors will receive payments net of any applicable United States withholding taxes.

WITHHOLDING TAX IN FRANCE

The statements herein regarding withholding tax considerations in France are based on the laws in force in France as of the date of this Base Prospectus and are subject to any changes in law.

The following information is of a general nature only, is not intended to be, nor should it be construed to be, legal or tax advice, and does not purport to be a comprehensive description of all the French tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes. The information contained herein is limited to French withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including French tax law, to which they may be subject and as to their tax position, as a result of the purchase, ownership and disposal of the Notes.

Payments made by Societe Generale as Issuer

The following may be relevant to holders of the Notes who do not concurrently hold shares in Societe Generale.

Payments of interest and other income made by Societe Generale with respect to the Notes will not be subject to the withholding tax provided by Article 125 A III of the French tax code (**FTC**) unless such payments are made outside France in a non-certain non-cooperative State or territory within the meaning of Article 238-0 A of the FTC (a **Non-Cooperative State**) other than those mentioned in 2° of 2 *bis* of the same Article 238-0 A. If such payments under the Notes are made outside France in a Non-Cooperative State other than those mentioned in 2° of 2 *bis* of the same Article 238-0 A, a 75 per cent. withholding tax will be applicable (subject to certain exceptions and to the more favourable provisions of an applicable double tax treaty) by virtue of Article 125 A III of the FTC. The list of Non-Cooperative States is published by a ministerial executive order and is updated on annual basis.

Furthermore, according to Article 238 A of the FTC, interest and other income on such Notes will not be deductible from Societe Generale's taxable income if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid to an account held with a financial institution established in such a Non-Cooperative State (the **Deductibility Exclusion**). Under certain conditions, any such non-deductible interest and other income may be recharacterised as constructive dividends pursuant to Articles 109 *et seq.* of the FTC, in which case such non-deductible interest and other income may be subject to the withholding tax provided by Article 119 *bis* 2 of the FTC (i) at a rate of 12.8 per cent. for payments benefiting individuals who are not French tax residents, (ii) the standard corporate income tax rate set forth in the second paragraph of Article 219-I of the FTC (i.e. 25 per cent. for fiscal years beginning as from 1 January 2022) for payments benefiting legal persons who are not French tax residents or (iii) a rate of 75 per cent. for payments made outside France in a Non-Cooperative State other than those mentioned in 2° of 2 *bis* of the same Article 238-0 A (subject to certain exceptions and to the more favourable provisions of an applicable double tax treaty).

Notwithstanding the foregoing, neither the 75 per cent. withholding tax provided by Article 125 A III of the FTC nor the Deductibility Exclusion will apply in respect of an issue of Notes if Societe Generale can prove that the main purpose and effect of such issue of Notes was not that of allowing the payments of interest and other income to be made in a Non-Cooperative State (the **Exception**). Pursuant to the *Bulletin Officiel des Finances Publiques-Impôts* BOI-INT-DG-20-50-30, no. 150 and BOI-INT-DG-20-50-20, no. 290, an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes, if such Notes are:

- (i) offered by means of a public offer within the meaning of Article L. 411-1 of the French monetary and financial code for which the publication of a prospectus is mandatory or pursuant to an equivalent offer in a State other than a Non-Cooperative State. For this purpose, an "equivalent offer" means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; and/or
- (ii) admitted to trading on a French or foreign regulated market or multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider or any other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (iii) admitted, at the time of their issue, to the operations of a central depository or of a securities delivery and payment systems operator within the meaning of Article L. 561-2 of the French monetary and financial code, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

Payments made to individuals fiscally domiciled in France

Pursuant to Article 125 A I of the FTC, where the paying agent (*établissement payeur*) is established in France and subject to certain exceptions, interest and other assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 12.8 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in

which the payment has been made. Social contributions (CSG, CRDS and solidarity levy) are also levied by way of withholding at a global rate of 17.2 per cent. on such interest and other assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France, subject to certain exceptions.

WITHHOLDING TAX IN LUXEMBOURG

The statements herein regarding withholding tax considerations in Luxembourg are based on the laws in force in the Grand Duchy of Luxembourg as of the date of this Base Prospectus and are subject to any changes in law.

The following information is of a general nature only, is not intended to be, nor should it be construed to be, legal or tax advice, and does not purport to be a comprehensive description of all the Luxembourg tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes. The information contained herein is limited to Luxembourg withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject and as to their tax position, as a result of the purchase, ownership and disposal of the Notes.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present herein to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Non-resident holders of Notes issued by SG Issuer

Under Luxembourg general tax laws currently in force, there is no Luxembourg withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of the Notes.

Resident holders of Notes issued by SG Issuer

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the "**Relibi Law**"), there is no Luxembourg withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by Luxembourg resident holders of the Notes.

Under the Relibi Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 20 %. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent.

SERVICE OF PROCESS AND ENFORCEMENT OF CIVIL LIABILITIES

The Issuers are corporations organised under the laws of Luxembourg and France, respectively (each a **Relevant Jurisdiction**). All of the officers and directors named herein reside outside the United States and all or a substantial portion of the assets of the relevant Issuer and of such officers and directors are located outside the United States. As a result, it may not be possible for investors to effect service of process in connection with a cause of action under the laws of a jurisdiction other than England and Wales outside the Relevant Jurisdiction upon the relevant Issuer or such persons, or to enforce judgments against them obtained in courts outside the Relevant Jurisdiction predicated upon civil liabilities of the relevant Issuer or such directors and officers under laws other than those of the Relevant Jurisdiction, including any judgment predicated upon United States federal securities laws.

IMPORTANT – EEA RETAIL INVESTORS

If the Final Terms in respect of any Notes states "Prohibition of Sales to EEA Retail Investors" as Applicable, the Notes, are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU (as amended or superseded, the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **EU PRIIPs Regulation**) for offering or selling those Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling those Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS

If the Final Terms in respect of any Notes states "Prohibition of Sales to UK Retail Investors" as Applicable, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a "retail investor" means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation

(EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

PRESENTATION OF FINANCIAL AND OTHER INFORMATION

Each Issuer maintains its financial books and records and prepares its financial statements in accordance with financial reporting standards which differ in certain important respects from generally accepted accounting principles in the United States (**U.S. GAAP**).

OTHER INFORMATION

Credit ratings

The Issuer may ask one or more independent credit rating agencies (established in the EU and registered under the Regulation (EC) No 1060/2009 of the European Parliament and of the Council dated 16 September 2009, as amended (the **CRA Regulation**) and such registration has not been withdrawn or suspended) to assign credit ratings to a Series of Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors should only base their investment decision on credit ratings assigned by credit rating agencies that are on the list of registered and certified rating agencies published by the European Securities and Markets Authority (**ESMA**) on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

Structured Notes Linked to SGI Indices

The roles of the various teams involved within Societe Generale in the design, maintenance and replication of indices have been strictly defined. The replication of any index is carried out in the same way by a single team within Societe Generale, whether for hedging of a product held by external investors or for positions held by Societe Generale acting as co-investors alongside external investors.

Eurosystem eligibility for New Global Notes and Registered Global Notes

New Global Notes and Registered Global Notes issued under the new safekeeping structure (NSS) may be issued with the intention that such Notes be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem, either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria as specified by the European Central Bank. However, there is no guarantee that such Notes will be recognised as eligible collateral, or that, even if recognised, the eligibility will continue during the life of the Notes. Any other Notes are not intended to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem.

Notes where denominations involve integral multiples: Definitive Bearer Notes

In relation to any issue of English Law Bearer Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Bearer Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a Definitive Bearer Note in respect of such holding (should Definitive Bearer Notes be printed) and would need to purchase a principal amount of Bearer Notes such that its holding amounts to a Specified Denomination.

If Definitive Bearer Notes are issued, holders should be aware that Definitive Bearer Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Notes containing limited events of default

The Notes of a Series will only become immediately due and repayable following the occurrence of a limited number of events of default (in compliance with Condition "Events of Default" of the General Terms and Conditions).

Use of Proceeds related to Positive Impact Notes

The Final Terms of the Notes may provide that the Issuer intends to apply an amount equivalent to the net proceeds of the issue to finance or refinance, in part or in full, eligible activities (such activities the **Eligible Activities**), which serve to deliver a positive contribution to one or more of the three pillars of sustainable development (economic, environmental and social), once any potential negative impacts and mitigation actions have been duly identified as defined in the sustainable and positive impact bond framework, as amended and supplemented from time to time (the **Framework**) which is available on the website of Societe Generale (https://www.societegenerale.com/sites/default/files/documents/2021-11/20211104_Societe-Generale-Sustainable-and-Positive-Impact-Bond-Framework.pdf) and as specified in the Final Terms (the **Positive Impact Notes**).

Positive Impact Notes can be either green (the **Green Positive Impact Notes**), social (the **Social Positive Impact Notes**) or sustainability (the **Sustainability Positive Impact Notes**) if an amount equivalent to the net proceeds will be applied to finance or refinance Eligible Activities in the green categories, social categories or in both categories (in case of Sustainability Positive Impact Notes) pursuant to the Framework.

Important Information

Prospective investors should have regard to the information set out in the Final Terms and the Framework regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Positive Impact Notes together with any other investigation such investor deems necessary.

The definition (legal, regulatory or otherwise) of, and market consensus as to what constitutes or may be classified as, a sustainable, green or equivalently-labelled project or a loan that may finance such activity, and the requirements of any such label are currently under development. There can be no assurance by the Issuer, the Arranger or the Dealers that the use of proceeds of the Positive Impact Notes identified in the Final Terms will satisfy, whether in whole or in part, any future legislative or regulatory requirements, or any present or future investor expectations or requirements with respect to investment criteria or guidelines with which any investor or its investments are required to comply whether by any present or future applicable law or regulation or under its own by-laws or other governing rules or investment portfolio mandates.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any second party opinion or certification of any other third party (whether or not solicited by the Issuer) that may be made available in connection with the issue of any Positive Impact Notes and in particular with any activity to fulfill any environmental, social and/or other criteria.

Currently, the providers of such second party opinion which is available on the website of Societe Generale (https://www.societegenerale.com/sites/default/files/documents/2021-11/20211104_Societe-Generale-SPO-update-ISS.pdf) and as specified in the Final Terms and certifications are not subject to any specific regulatory or other regime or oversight. Any such second party opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Positive Impact Notes.

The Arranger or the Dealers do not make any representation as to the suitability of the Positive Impact Notes to fulfil "positive impact" criteria required by prospective investors. The Arranger or the Dealers have not undertaken, nor are responsible for, any assessment of the eligibility criteria, any verification of whether the Positive Impact Notes meet the eligibility criteria, or the monitoring of the use of proceeds. Investors should refer to Societe Generale's website (<https://www.societegenerale.com/en/measuring-our-performance/investors/debt-investors>) or any third party opinion.

RESPONSIBILITY STATEMENT

Each of the Issuers and the Guarantor (the **Responsible Persons**) accept responsibility for the information contained in, or incorporated by reference into, this Base Prospectus and for the information contained in the applicable Final Terms for each **Tranche of Notes** issued under the Programme. To the best of the knowledge and belief of each Issuer and the Guarantor (each having taken all reasonable care to ensure that such is the case) the information contained in, or incorporated by reference into, this Base Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

REGULATORY INFORMATION

French and Luxembourg law and European legislation regarding the resolution of financial institutions may require the write-down or conversion to equity of the Notes or other resolution measures if the Issuers are deemed to meet the conditions for resolution

Directive 2014/59/EU of the European Parliament and of the Council of the European Union dated 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (the **BRRD**) entered into force on 2 July 2014. The BRRD has been implemented into Luxembourg law by, among others, the Luxembourg act dated 18 December 2015 on the failure of credit institutions and certain investment firms, as amended (the **BRR Act 2015**). Under the BRR Act 2015, the competent authority is the Luxembourg financial sector supervisory authority (*Commission de surveillance du secteur financier*, the CSSF) and the resolution authority is the CSSF acting as resolution council (*conseil de résolution*).

Moreover, Regulation (EU) No. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism (**SRM**) and a Single Fund Framework (the **SRM Regulation**) has established a centralised power of resolution entrusted to a Single Resolution Board (the **SRB**) in cooperation with the national resolution authorities.

Since November 2014, the European Central Bank (**ECB**) has taken over the prudential supervision of significant credit institutions in the member states of the Eurozone under the Single Supervisory Mechanism (**SSM**). In addition, the SRM has been put in place to ensure that the resolution of credit institutions and certain investment firms across the Eurozone is harmonised. As mentioned above, the SRM is managed by the SRB. Under Article 5(1) of the SRM Regulation, the SRM has been granted those responsibilities and powers granted to the EU Member States' resolution authorities under the BRRD for those credit institutions and certain investment firms subject to direct supervision by the ECB. The ability of the SRB to exercise these powers came into force at the beginning of 2016.

Societe Generale has been, and continues to be, designated as a significant supervised entity for the purposes of Article 49(1) of Regulation (EU) No 468/2014 of the ECB of 16 April 2014 establishing the framework for cooperation within the SSM between the ECB and national competent authorities and with national designated authorities (the **SSM Regulation**) and is consequently subject to the direct supervision of the ECB in the context of the SSM. This means that Societe Generale and SG Issuer (being covered by the consolidated prudential supervision of Societe Generale) are also subject to the SRM which came into force in 2015. The SRM Regulation mirrors the BRRD and, to a large part, refers to the BRRD so that the SRB is able to apply the same powers that would otherwise be available to the relevant national resolution authority.

The stated aim of the BRRD and the SRM Regulation is to provide for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and certain investment firms. The regime provided for by the BRRD is, among other things, stated to be needed to provide the resolution authority designated by each EU Member State (the **Resolution Authority**) with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions while minimising the impact of an institution's failure on the economy and financial system (including taxpayers' exposure to losses).

In accordance with the provisions of the SRM Regulation, when applicable, the SRB, has replaced the national resolution authorities designated under the BRRD with respect to all aspects relating to the decision-making process and the national resolution authorities designated under the BRRD continue to carry out activities relating to the implementation of resolution schemes adopted by the SRB. The provisions relating to the cooperation between the SRB and the national resolution authorities for the preparation of the institutions' resolution plans have applied since 1 January 2015 and the SRM has been fully operational since 1 January 2016.

The SRB is the Resolution Authority for the Issuers (Societe Generale and SG Issuer).

The powers provided to the Resolution Authority in the BRRD and the SRM Regulation include write-down/conversion powers to ensure that capital instruments (including subordinated debt instruments and/or Unsecured Notes (issued by SG Issuer)) and eligible liabilities (including senior debt instruments, such as the Senior Notes, if junior instruments prove insufficient to absorb all losses) absorb losses of the issuing institution that is subject to resolution in accordance with a set order of priority (the **Bail-in Power**). The conditions for resolution under the SRM Regulation are deemed to be met when: (i) the Resolution Authority determines that the institution is failing or is likely to fail, (ii) there is no reasonable prospect that any measure other than a resolution measure would prevent the failure within a reasonable timeframe, and (iii) a resolution measure is necessary for the achievement of the resolution objectives (in particular, ensuring the continuity of critical functions, avoiding a significant adverse effect on the financial system, protecting public funds by minimizing reliance on extraordinary public financial support, and protecting client funds and assets) and winding up of the institution under normal insolvency proceedings would not meet those resolution objectives to the same extent.

The Resolution Authority could also, independently of a resolution measure or in combination with a resolution measure, fully or partially write-down or convert capital instruments (including subordinated debt instruments such as the Unsecured Notes (issued by SG Issuer)) into equity when it determines that the institution or its group will no longer be viable unless such write-down or conversion power is exercised or when the institution requires extraordinary public financial support (except when extraordinary public financial support is provided in Article 10 of the SRM Regulation). The terms and conditions of the Notes contain provisions giving effect to the Bail-in Power in the context of resolution and write-down or conversion of capital instruments at the point of non-viability.

The Bail-in Power could result in the full (i.e., to zero) or partial write-down or conversion of the Notes into ordinary shares or other instruments of ownership, or the variation of the terms of the Notes (for example, the maturity and/or interest payable may be altered

and/or a temporary suspension of payments may be ordered). Extraordinary public financial support should only be used as a last resort after having assessed and applied, to the maximum extent practicable, the resolution measures. No support will be available until a minimum amount of contribution to loss absorption and recapitalization of 8% of total liabilities including own funds has been made by shareholders, holders of capital instruments and other eligible liabilities through write-down, conversion or otherwise.

In addition to the Bail-in Power, the BRRD provides the Resolution Authority with broader powers to implement other resolution measures with respect to institutions that meet the conditions for resolution, which may include (without limitation) the sale of the institution's business, the creation of a bridge institution, the separation of assets, the replacement or substitution of the institution as obligor in respect of debt instruments, modifications to the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments), removing management, appointing an interim administrator, and discontinuing the listing and admission to trading of financial instruments.

Before taking a resolution measure, including implementing the Bail-in Power, or exercising the power to write down or convert relevant capital instruments, the Resolution Authority must ensure that a fair, prudent and realistic valuation of the assets and liabilities of the institution is carried out by a person independent from any public authority.

The BRRD, the BRR Act 2015 and the SRM Regulation however also state that, under exceptional circumstances, if the bail-in instrument is applied, the SRB, in cooperation with the CSSF, may completely or partially exclude certain liabilities from the application of the impairment or conversion powers under certain conditions.

Since 1 January 2016, EU credit institutions (such as Societe Generale) and certain investment firms have to meet, at all times, a minimum requirement for own funds and eligible liabilities (**MREL**) pursuant to Article 12 of the SRM Regulation. The MREL, which is expressed as a percentage of the total liabilities and own funds of the institution, aims at preventing institutions from structuring their liabilities in a manner that impedes the effectiveness of the Bail-in Power in order to facilitate resolution.

The regime has evolved as a result of the changes adopted by the EU legislators. On 7 June 2019, as part of the contemplated amendments to the so-called EU Banking Package, the following legislative texts were published in the Official Journal of the EU 14 May 2019:

- Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms (**BRRD II**) and
- Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending the SRM Regulation as regards the loss-absorbing and recapitalisation capacity (**TLAC**) of credit institutions and investment firms (the **SRM II Regulation** and, together with the BRRD II, the **EU Banking Package Reforms**).

The EU Banking Package Reforms introduced, among other things, the TLAC standard as implemented by the Financial Stability Board's TLAC Term Sheet (**FSB TLAC Term Sheet**), by adapting, among other things, the existing regime relating to the specific MREL with aim of reducing risks in the banking sector and further reinforcing institutions' ability to withstand potential shocks will strengthen the banking union and reduce risks in the financial system.

The TLAC has been implemented in accordance with the FSB TLAC Term Sheet, which impose a level of Minimum TLAC that will be determined individually for each global systemically important bank (**G-SIB**), such as Societe Generale, in an amount at least equal to (i) 16%, plus applicable buffers, of risk weight assets since January 1, 2022 and 18%, plus applicable buffers, thereafter and (ii) 6% of the Basel III leverage ratio denominator since January 1, 2022 and 6.75% thereafter (each of which could be extended by additional firm-specific requirements).

Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the **CRR**), as amended by Regulation (EU) 2019/876 as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements (the **CRR II**), EU G-SIBs, such as Societe Generale, have to comply with TLAC requirements, on top of the MREL requirements, since the entry into force of the CRR II. As such, G-SIBs, such as Societe Generale have to comply with both the TLAC and MREL requirements.

Consequently, the criteria for MREL-eligible liabilities have been closely aligned with the criteria for TLAC-eligible liabilities under CRR II, but subject to the complementary adjustments and requirements introduced in the BRRD II. In particular, certain debt instruments with an embedded derivative component, such as certain structured notes, will be eligible, subject to certain conditions, to meet MREL requirements to the extent that they have a fixed or increasing principal amount repayable at maturity that is known in advance with only an additional return permitted to be linked to that derivative component and dependent on the performance of a reference asset.

The level of capital and eligible liabilities required under MREL is set by the SRB for Societe Generale on an individual and/or consolidated basis based on certain criteria including systemic importance and may also be set for SG Issuer. Eligible liabilities may be senior or subordinated, provided, among other requirements, that they have a remaining term of at least one year and, they recognise contractually the Resolution Authority's power to write down or convert the liabilities governed by non-EU law.

The scope of liabilities used to meet MREL includes, in principle, all liabilities resulting from claims arising from ordinary unsecured creditors (non-subordinated liabilities) unless they do not meet specific eligibility criteria set out in BRRD, as amended by BRRD II. To enhance the resolvability of institutions and entities through an effective use of the bail-in tool, the SRB should be able to require that MREL be met with own funds and other subordinated liabilities, in particular where there are clear indications that bailed-in creditors are likely to bear losses in resolution that would exceed the losses that they would incur under normal insolvency proceedings. Moreover the SRB should assess the need to require institutions and entities to meet the MREL with own funds and other subordinated liabilities where the amount of liabilities excluded from the application of the bail-in tool reaches a certain threshold

within a class of liabilities that includes MREL-eligible liabilities. Any subordination of debt instruments requested by the SRB for the MREL shall be without prejudice to the possibility to partly meet the TLAC requirements with non-subordinated debt instruments in accordance with the CRR, as amended by the CRR II, as permitted by the TLAC standard. Specific requirements apply to resolution groups with assets above EUR 100 billion (top-tier banks, including Societe Generale).

The regulation and reform of "benchmarks"

Interest rates and indices which are deemed to be "benchmarks", (including the London interbank offered rate (**LIBOR**) and the euro interbank offered rate (**EURIBOR**)) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a benchmark.

The EU Benchmarks Regulation was published in the Official Journal of the EU on 29 June 2016 and has mostly applied, subject to certain transitional provisions, from 1 January 2018. The EU Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities (such as Societe Generale) of benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed). The applicable Final Terms will specify whether the benchmark is provided by an administrator included in the register referred to in Article 36 of the EU Benchmarks Regulation.

Each benchmark specified in this Base Prospectus is listed in the table below, with the name of the relevant Administrator providing such benchmark.

As at the date of this Base Prospectus, the relevant Administrator appears/ does not appear, as the case may be, on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority pursuant to Article 36 of the EU Benchmarks Regulation, as specified in the table below.

If "Does not appear and exempted" is specified in the table below, it means that the relevant Administrator does not fall within the scope of the EU Benchmarks Regulation by virtue of Article 2 of that regulation.

If "Does not appear and non-exempted" is specified in the table below, it means that, as far as the Issuer is aware, the transitional provisions in Article 51 of the EU Benchmarks Regulation apply, such that the relevant Administrator is not currently required to obtain authorisation or registration.

Regulation (EU) 2019/2089 of the European Parliament and of the Council of 27 November 2019 has amended the existing provisions of the EU Benchmarks Regulation by extending the transitional provisions applicable to material benchmarks and third-country benchmarks until the end of 2021. The existing provisions of the EU Benchmarks Regulation were further amended by the Amending Regulation.

The Amending Regulation introduced a harmonised approach to deal with the cessation or wind-down of certain benchmarks by conferring the power to designate a statutory replacement for certain benchmarks on the Commission, such replacement being limited to contracts and financial instruments. In addition, the transitional provisions applicable to third-country benchmarks were extended until the end of 2023. The Commission is empowered to further extend this period until the end of 2025, if necessary. The Amending Regulation applied as of 13 February 2021.

The sustainability of LIBOR has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks. The UK Financial Conduct Authority (FCA) has subsequently confirmed that it would no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021. As such, all euro, Swiss franc and certain Japanese yen settings, all sterling LIBOR settings other than 1-, 3- and 6-month sterling LIBOR, and the 1-week and 2-month U.S. dollar settings of LIBOR were discontinued on 31 December 2021. Synthetic sterling and Japanese yen LIBOR for 1-, 3- and 6-month settings have been published since 4 January 2022, although these LIBOR settings were deemed no longer to be representative of the relevant underlying market. The continued publication of the Japanese yen LIBOR settings will cease permanently at the end of 2022.

The remaining U.S. dollar settings will cease or no longer be representative immediately after 30 June 2023.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by EU Benchmarks Regulation or the UK Benchmarks Regulation, as the case may be, or any of the international or national reforms in making any investment decision with respect to any Notes linked to or referencing a benchmark.

Financial Transactions Tax (FTT)

A proposal of the European Commission (the **Commission's Proposal**) published on 14 February 2013 for a common FTT in Belgium, Germany, Greece, Estonia, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**) could apply in certain circumstances to persons both within and outside of the participating Member States and primarily to "financial institutions". However, Estonia has since stated that it will not participate.

However, the Commission's Proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains uncertain. Additional EU Member States may also decide to participate and/or participating Member States may decide to withdraw.

At the ECOFIN Council meeting of 14 June 2019, a state of play of the work on the FTT was presented on the basis of a note prepared by Germany on 7 June 2019 indicating a consensus among the participating Member States (excluding Estonia) to continue negotiations on the basis of a joint French-German proposal based on the French financial transactions tax model which in principle would only concern shares of listed companies whose head office is in a member state of the European Union. However, such proposal is still subject to change until a final approval.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

Foreign Account Tax Compliance Act Withholding

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (**FATCA**) may impose a 30% withholding tax on certain payments made to certain financial institutions and other entities that do not comply with the requirements under FATCA or to investors that fail to provide their broker or custodian with any information, forms, other documentation, or consents (**FATCA Documentation**) that may be necessary for the payments to be made free of FATCA withholding.

U.S. Withholding Tax under Section 871(m)

Section 871(m) of the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder (**Section 871(m)**) generally impose a 30% withholding tax on dividend equivalent amounts paid or deemed paid to non-U.S. holders with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities. Section 871(m) provides certain exceptions to this withholding regime, in particular for instruments linked to certain broad-based indices that meet requirements set forth in the applicable Treasury regulations (such as an index, a **Qualified Index**). Additionally, IRS guidance excludes from the scope of Section 871(m) instruments issued prior to January 1, 2023 that are not "delta-one" instruments with respect to underlying securities that could pay U.S.-source dividends for U.S. federal income tax purposes (each an **Underlying Security**). If the Issuer has determined withholding under Section 871(m) applies, it will generally apply withholding at a 30% rate without regard to any applicable treaty rate(s) or any investor's individual tax situation.

Investors should consult their tax adviser regarding the potential application of Section 871(m) Regulations to their investment in the Notes.

The Dodd-Frank Wall Street Reform and Consumer Protection Act and the European Market Infrastructure Regulation

Passage of the Dodd-Frank Wall Street Reform and Consumer Protection Act (**Dodd-Frank Act**) in 2010 in the United States and of the European Regulation 648/2012, known as the European Market Infrastructure Regulation (**EMIR**) which entered into force on 16 August 2012 and took direct effect in the Member States of the European Union, has led to significant structural reforms affecting the financial services industry. The Dodd-Frank Act also contains prohibitions, commonly called, together with the implementing regulations, the **Volcker Rule**, which regulate the ability of banking entities to engage as principal in proprietary trading activities and sponsoring or investing in hedge, private equity or similar funds. Even though some modifications to the Volcker Rule implementing regulations took effect in 2020, the Volcker Rule continues to operate as a constraint on these activities.

Both Title VII (**Title VII**) of the Dodd-Frank Act and EMIR establish comprehensive regulatory regimes for a broad range of derivatives contracts including swaps, security-based swaps and mixed swaps (collectively referred to in this section as **Covered Swaps**).

In particular, under Title VII of the Dodd-Frank Act and under EMIR, swaps entered into by any Issuer may be required to be cleared through a central counterparty, executed on a trading venue, and subject to additional margin and capital, reporting and recordkeeping requirements that could result in additional regulatory burdens, costs and expenses (including extraordinary, non-recurring expenses of such Issuer).

In addition, the Dodd-Frank Act, amending the CEA, expanded the definition of a "commodity pool" to include any form of enterprise operated for the purpose of trading in commodity interests, including swaps. Each Issuer has imposed certain restrictions on sales in order to fall outside the scope of the CEA. In addition, if any Issuer were deemed to be a "commodity pool", it would be required to register as such with the CFTC and the National Futures Association and would have to comply with a number of reporting requirements that are designed to apply to traded commodity pools. It is presently unclear how such Issuer could comply with certain of these reporting requirements on an ongoing basis.

Investment Company Act

SG Issuer has not registered with the United States Securities and Exchange Commission (the **SEC**) as an investment company pursuant to the Investment Company Act. Investors in the Notes will not have the protections of the Investment Company Act.

If the SEC or a court of competent jurisdiction were to find that the relevant Issuer is required, but in violation of the Investment Company Act, has failed, to register as an investment company, possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the relevant Issuer could sue such Issuer and recover any damages caused by the violation; and (iii) any contract to which the relevant Issuer is party that is made in, or whose performance involves, a violation of the Investment Company Act would be unenforceable by any party to the contract unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act.

IMPORTANT INFORMATION RELATING TO NON-EXEMPT OFFERS OF NOTES

Certain Tranches of Notes may be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to below as a Non-exempt Offer.

If, in the context of a Non-exempt Offer, you are offered Notes by any entity, you should check that such entity has been given consent to use this Base Prospectus for the purposes of making its offer before agreeing to purchase any Notes.

The following entities have consent to use this Base Prospectus in connection with a Non-exempt Offer:

- any entity named as a Dealer in the applicable Final Terms;

- if the clause "*Type of Consent*" is stated as being "*Individual Consent*" in the applicable Final Terms:

- (a) any financial intermediary specified in the applicable Final Terms as having been granted specific consent to use the Base Prospectus; or

- (b) any financial intermediary named on the relevant website(s) of the Issuer as an Authorised Offeror in respect of the Non-exempt Offer (if that financial intermediary has been appointed after the date of the applicable Final Terms); and

- (c) if the clause "*Type of Consent*" is stated as being "*General Consent*" in the applicable Final Terms, any financial intermediary authorised to make such offers under MiFID II who has published the Acceptance Statement (as defined below) on its website.

The consent referred to above only relates to Offer Periods (if any) occurring within 12 months from the date of this Base Prospectus.

The entities listed above have been given consent to use the Base Prospectus only during the Offer Period specified in the applicable Final Terms and only in the Non-exempt Offer Jurisdictions.

For Non-exempt Offers which will close after the validity of this Base Prospectus, investors should refer to the succeeding base prospectus which will be available on the relevant website(s) of the Issuer and the section "Ongoing Non-exempt Offers".

Other than as set out above, the Issuer has not authorised the making of any Non-exempt Offer by any person and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Notes.

1. CONSENT GIVEN IN ACCORDANCE WITH ARTICLE 5(1) OF THE PROSPECTUS REGULATION

In the context of any offer of Notes that is not within an exemption from the requirement to publish a prospectus under the Prospectus Regulation (a **Non-exempt Offer**), each of the Issuer and the Guarantor accepts responsibility, in each Relevant State (as defined below) for which it has given its consent (each a **Non-exempt Offer Jurisdiction**) as specified below, for the content of the Base Prospectus under Article 11 of the Prospectus Regulation in relation to any person (an **Investor**) to whom any offer of Notes is made by any financial intermediary to whom it has given its consent to use the Base Prospectus (an **Authorised Offeror**), where the offer is made during the period for which that consent is given in a Non-exempt Offer Jurisdiction for which that consent was given and is in compliance with all other conditions attached to the giving of the consent. The consent and conditions attached to it are set out under "*Type of Consent*" and "*Conditions to Consent*" below.

None of the Issuers, the Guarantor or any relevant Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and none of **the Issuers**, the Guarantor or any relevant Dealer has any responsibility or liability for the actions of that Authorised Offeror.

However, neither **the relevant Issuer**, the Guarantor nor the relevant Dealer has any responsibility for any of the actions of any Authorised Offeror, including the non-compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

Neither **the relevant Issuer**, the Guarantor nor the relevant Dealer authorises the use of the Base Prospectus in the case of a Non-exempt Offer of Notes in a Member State of the EEA (each, a **Relevant State**) other than a Non-exempt Offer Jurisdiction or in a Non-exempt Offer Jurisdiction but made by a financial intermediary to which **the relevant Issuer** has not given its consent. Such unauthorised Non-exempt Offers are not made by or on behalf **the relevant Issuer**, the Guarantor or the relevant Dealer and neither **the relevant Issuer**, the Guarantor nor the relevant Dealer accepts any responsibility for the actions of any person making such offers and the related consequences.

Save as provided above, neither **the relevant Issuer**, the Guarantor nor the relevant Dealer authorises that any Non-exempt Offers of Notes may be made in circumstances which would require a relevant Issuer to publish a prospectus or a Supplement to the Base Prospectus.

If, in the context of a Non-exempt Offer, a prospective investor is offered Notes by a person which is not an Authorised Offeror, such prospective investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the

relevant Non-exempt Offer and, if so, who that person is. If the prospective investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

2. TYPE OF CONSENT

Subject to the conditions set out below under "*Conditions to Consent*" and if it is specified in the applicable Final Terms relating to any Tranche of Notes, **the Issuer** consents to the use of the Base Prospectus in relation to a Non-exempt Offer of such Notes during the offer period specified in the applicable Final Terms (the **Offer Period**).

The consent given by **the Issuer** may be an individual consent (an **Individual Consent**) and/or a general consent (a **General Consent**), each as further described below and as specified in the applicable Final Terms.

2.1 Individual Consent

If the clause "*Type of Consent*" is stated as being "*Individual Consent*" in the applicable Final Terms, it means that **the Issuer** consents to the use of the Base Prospectus in relation to a Non-exempt Offer of such Notes by the relevant Dealer and by:

- (i) any financial intermediary (other than a Dealer) acting in association with **the Issuer** named **Initial Authorised Offeror**, whose name and address are specified in the applicable Final Terms; and
- (ii) any financial intermediary acting in association with the Issuer, appointed after the date of the applicable Final Terms, and named **Additional Authorised Offeror**, whose name and address will be published on the relevant website(s) of the Issuer.

2.2 General Consent

If the clause "*Type of Consent*" is stated as being "*General Consent*" in the applicable Final Terms, it means that **the Issuer** consents to the use of the Base Prospectus in relation to a Non-exempt Offer of Notes to any financial intermediary acting independently from **the Issuer** named **General Authorised Offeror** which:

(i) holds all necessary licences, consents, approvals and permissions required by any laws, rules, regulations and guidance (including from any regulatory body), applicable to the Non-exempt Offer of the Notes to be authorised to do such offer under the applicable laws of the Non-exempt Offer Jurisdiction, in particular the applicable law implementing MiFID II; and

We hereby accept the offer by the Issuer [and the Guarantor] of its consent to our use of the Base Prospectus (as defined in the Final Terms) in connection with the offer of the [insert title of relevant Notes] in accordance with the terms and subject to the conditions to such consent, each as specified in the Base Prospectus, and confirm that we are using the Base Prospectus accordingly."

(c) ensure that the existence of any fee (and any other commissions or benefits of any kind) or rebate received or paid by the relevant financial intermediary in relation to the offer or sale of the Notes does not violate the Rules, is fully and clearly disclosed to Noteholders or prospective investors prior to their investment in the Notes and to the extent required by the Rules, provides further information in respect thereof ;

FINAL TERMS OR DRAWDOWN PROSPECTUS

In this section the expression "**necessary information**" means, in relation to any Tranche of Notes, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuers and the Guarantor and of the rights attaching to the Notes. In relation to the different types of Notes which may be issued under the Programme, the Issuers and the Guarantor have endeavoured to include in this Base Prospectus all of the necessary information except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issuance of a Tranche of Notes and except for certain information specific to U.S. Exempt Securities set out in the applicable Offering Circular.

Any information relating to the Notes which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Notes will therefore be contained either in the applicable Final Terms or in a Drawdown Prospectus. Such information will be contained in the applicable Final Terms unless any of such information constitutes a significant new factor relating to the information contained in this Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant Tranche of Notes will be contained in a Drawdown Prospectus. Information specific to any issue of U.S. Exempt Securities (including information on the form of the Notes and applicable selling and transfer restrictions) shall be set out in the applicable Offering Circular in connection with the offer and sale of such U.S. Exempt Securities. In case of any issue of U.S. Exempt Securities, all references herein to "Final Terms" shall include, or be interpreted to mean, the applicable Offering Circular.

For a Tranche of Notes, which is the subject of Final Terms, those Final Terms will, for the purposes of such Tranche of Notes only, complete the Terms and Conditions of the Notes and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of Final Terms are the Terms and Conditions of the Notes as completed to the extent described in the applicable Final Terms or Drawdown Prospectus, as the case may be. The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Conditions as supplemented to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise. In the case of a Tranche of U.S. Exempt Securities which is the subject of an Offering Circular, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Offering Circular unless the context requires otherwise.

An Issuer and, if applicable, the Guarantor, may agree with any Dealer that Notes may be issued, offered to the public, and/or admitted to trading on a regulated market in a form not contemplated by the Terms and Conditions of the Notes described in this Base Prospectus, in which event a Drawdown Prospectus will be submitted for approval to the relevant competent authority and will be made available. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise. The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Terms and Conditions of the Notes as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus.

In accordance with Article 6(3) of the Prospectus Regulation, the Drawdown Prospectus will be drawn up as a single document, incorporating by reference, if applicable, the relevant parts of the Base Prospectus.

SUPPLEMENT TO THE BASE PROSPECTUS

If at any time the Issuers shall be required to prepare a supplement to this Base Prospectus pursuant to Article 23 of the Prospectus Regulation, the Issuers will prepare and make available an appropriate supplement to this Base Prospectus or a further Base Prospectus which, in respect of any subsequent issue of Notes to be listed and admitted to trading on a regulated market shall constitute a supplement to the Base Prospectus (or a new Base Prospectus, as applicable) as required (for supplements) by Article 23 of the Prospectus Regulation and shall supply each Dealer with such number of copies of such supplement hereto or new Base Prospectus as such Dealer may reasonably request.

Each Issuer has given an undertaking to the Dealers that if at any time during the duration of the Programme there is a significant new factor, material mistake, material inaccuracy or omission relating to information contained in this Base Prospectus which is capable of affecting the assessment of any Notes and whose inclusion in or removal from this Base Prospectus is necessary, for the purpose of allowing an investor to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer, the Group and the rights attaching to the Notes, the Issuer shall prepare a supplement to this Base Prospectus or publish a replacement Base Prospectus for use in connection with any subsequent offering of the Notes, and shall supply each Dealer with such number of copies of such supplement hereto as such Dealer may reasonably request.

Following the publication of this Base Prospectus, the Issuers and the Guarantor will, in the event of any significant new factor, material mistake or material inaccuracy relating to information included in this Base Prospectus which is capable of affecting the assessment of any Notes, prepare a supplement to this Base Prospectus (a **Supplement**) in accordance with Article 23 of the Prospectus Regulation or publish a new prospectus for use in connection with any subsequent issue of Notes. Such Supplement as prepared will have to be approved by the CSSF. Statements contained in any such Supplement (or contained in any document incorporated by reference therein) shall, to the extent applicable (whether expressly, by implication or otherwise), be deemed to modify or supersede statements contained in this Base Prospectus or in a document which is incorporated by reference in this Base Prospectus. Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of this Base Prospectus.

In the case of Notes subject to a Non-exempt Offer to the public, in accordance with Article 23(2) bis of the Prospectus Regulation, investors who have already agreed to purchase or subscribe for Notes before any Supplement is published have the right, exercisable within three working days after the publication of this Supplement, to withdraw their acceptances.

FORM OF FINAL TERMS

Set out below is the form of Final Terms which will be completed for each Tranche of Notes that are not U.S. Exempt Securities issued under the Programme where:

* will apply if the minimum denomination is less than €100,000

** will apply if the minimum denomination is at least €100,000

[Consider any negative target market]. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer[s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[s/s'] target market assessment) and determining appropriate distribution channels.]

[The following language applies if the Notes are listed on SIX Swiss Exchange or distributed in Switzerland:

The Notes described in these Final Terms do not constitute a participation in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes (CISA). Therefore, the Notes are not subject to authorisation and supervision by the Swiss Financial Market Supervisory Authority FINMA (FINMA), and investors in the Notes will not benefit from protection under the CISA or supervision by FINMA. Investors in the Notes will bear a credit risk on [the Issuer of the Notes] [the Guarantor].]

[Legend to be included if the Notes potentially constitute "packaged" products and no key information document will be prepared or the issuer wishes to prohibit offers to EEA retail investors for any other reason, in which case the selling restriction should be specified to be "Applicable": **PROHIBITION OF SALES TO EEA RETAIL INVESTORS** – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, MiFID II); or (ii) a customer within the meaning of Directive 2016/97/EU (as amended or superseded, the Insurance Distribution Directive), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the EU PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.]

For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended (the FSMA) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the EUWA. Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the UK PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

If Definitive Bearer Notes have already been issued, the Temporary Global Note may only thereafter be exchanged for Definitive Bearer Notes pursuant to the terms thereof. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due Certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or, in the case of Bearer Notes, for Definitive Bearer Notes is improperly withheld or refused.

Exchange Date means the day immediately following the later of (i) 40 days after the Temporary Global Note or, as the case may be, Temporary Global Certificate, is issued and (ii) 40 days after the completion of the distribution of the relevant Tranche, as certified by the relevant Dealer (in the case of a non-syndicated issue) or the relevant lead manager (in the case of a syndicated issue).

1.3.3 The Permanent Global Note with, where applicable, Receipts, Coupons and/or Talons attached will be exchangeable (free of charge), in whole but not in part, for **Definitive Bearer Notes** in the event of the occurrence of any of the circumstances described in (i), (ii) or (iii) below (each, an **Exchange Event**) or by the Issuer in the event of the occurrence of the circumstances described in (iii) below:

(i) if applicable, an Event of Default (as defined in Condition 9 below) has occurred and is continuing;

(ii) if the Issuer has been notified that both Euroclear and Clearstream have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announce an intention permanently to cease business or have in fact done so and no successor clearing system is available; or

(iii) on the occasion of the next payment in respect of any Bearer Notes, the Issuer would be required to pay additional amounts as referred to in Conditions 5 and 7 below and such payment would not be required were the Notes in definitive form; (provided, however, that if a relevant Global Note is issued in respect of a Tranche of Bearer Notes described as Partly Paid Notes in the applicable Final Terms, such Global Note may be exchanged for Definitive Notes and (if applicable) Coupons, Receipts and/or Talons as described above only if the final part payment on all such Partly Paid Notes then outstanding has been paid).

The Issuer will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream (acting on the instructions of any holder of an interest in such Global Note) may give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

1.3.4 Exchange of Talons

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Principal Paying Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 9. Each Talon shall, for the purposes of these General Terms and Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

1.4 Denomination

Notes shall be issued in the specified denomination(s) as set out in the applicable Final Terms (the Specified Denomination(s)) save that the minimum denomination of each Note issued by Societe Generale and admitted to trading on a Regulated Market within the European Economic Area (EEA) or offered to the public in a Member State of the EEA in circumstances which require the publication of a prospectus under the Prospectus Regulation will be €1,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency).

Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

ECF Notes shall be issued in one Specified Denomination only.

1.5 Redenomination - Conversion of currency

The Issuer may (if so specified in the applicable Final Terms), without the consent of the Noteholders, by giving at least 30 days' notice in accordance with Condition 13, and on or after the date on which a Member State of the European Union whose national currency is the same as the Specified Currency, has become a participating Member State in the third stage of the European Economic and Monetary Union (as provided in the Treaty on the Functioning of the European Union (the **EU**), as amended from time to time (the **Treaty**)) or events have occurred which have substantially the same effects (in either case, **EMU**), redenominate all, but not some only of the Notes into Euro and adjust any term of the Notes as the Calculation Agent deems appropriate to give effect to such change (including, without limitation, the aggregate nominal amount of the Notes). The date on which such change becomes effective shall be referred to in these General Terms and Conditions as the **Currency Conversion Date**.

The redenomination of the Notes pursuant to the above paragraph shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 140 of the Treaty and rounding the resultant figure to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards), provided that, if the Issuer determines, with the agreement of the Principal Paying Agent that the then market practice in respect of the redenomination or conversion in Euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed and the Paying Agents of such deemed amendments.

If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro.

The conversion rate applicable and the amounts in Euro so determined shall be notified to Noteholders in accordance with Condition 13. Any balance remaining from the change of currency in an amount higher than 0.01 Euro shall be paid by way of cash adjustment rounded to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards). Such cash adjustment will be payable in Euros on the Currency Conversion Date.

Upon redenomination of the Notes any reference hereon to the relevant national currency shall be construed as a reference to Euro.

The Issuer may, with prior approval of the Principal Paying Agent, without the consent of the Noteholders in connection with any redenomination or any consolidation pursuant to Condition 14, but giving not less than 30 day prior notice to the Noteholders pursuant to Condition 13, make any changes or additions to these General Terms and Conditions which it reasonably believes to be necessary or desirable to give effect to the provisions of this Condition 1.5 or Condition 14 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of the Noteholders. Any such changes or additions shall be notified to Noteholders in accordance with Condition 13 as soon as practicable thereafter.

Neither the Issuer nor any Paying Agent shall be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

Any such changes or additions made pursuant to this Condition 1.5 will, in the absence of manifest or proven error, be conclusive and binding on the Noteholders.

3. LEFT BLANK INTENTIONALLY

4. INTEREST RELATING TO THE NOTES

This Condition 4 shall apply if the applicable Final Terms specify that the clause "Fixed Rate Note Provisions", "Floating Rate Note Provisions", "Structured Interest Note Provisions" and/or "Zero Coupon Notes Provision" is stated as being "Applicable".

For the purpose of this Condition 4, any reference to "Interest Amount" shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount or the Structured Interest Amount (each as defined below) when the context requires.

4.1 Fixed Rate Note Provisions

This Condition 4.1 applies if the applicable Final Terms specify that the clause "Fixed Rate Note Provisions" is "Applicable".

The applicable Final Terms contain provisions applicable to the determination of fixed coupon amount (the **Fixed Coupon Amount**) and must be read in conjunction with this Condition 4.1 for full information on the manner in which interest is calculated on Fixed Rate Notes.

In particular, the applicable Final Terms will specify, if applicable, the Interest Commencement Date the Rate(s) of Interest, the Interest Payment Date(s), the Business Day Convention, the Fixed Coupon Amount(s), any applicable Broken Amount(s), Calculation Amount, Day Count Fraction and any applicable Determination Date.

Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms.

In the case of Notes which are Non-exempt Offer to the public and where the Rate(s) of Interest is/are to be determined by reference to a percentage to be published by the Issuer on <http://prospectus.socgen.com>, the applicable Final Terms will specify an indicative value, a minimum value and will indicate the date of publication thereof.

For the purpose of this Condition 4.1:

Fixed Rate Note means a Note which bears one or more fixed rate(s) of interest applicable to the relevant Interest Period which may be either an Adjusted Fixed Rate Note or an Unadjusted Fixed Rate Note.

Adjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date are subject to modification in accordance with the provisions of Condition 4.1.2.

Unadjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date remain, for the purposes of this Condition 4 (and without prejudice to the provisions of Condition 4.3), unchanged and are calculated in accordance with the provisions of Condition 4.1.1.

4.1.1 Unadjusted Fixed Rate Notes

Each Unadjusted Fixed Rate Note bears interest from and including (or, in respect of Uncertificated Swedish Notes from but excluding) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date, as specified in the applicable Final Terms.

If the Notes are Definitive Bearer Notes, the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified (the **Broken Amount**).

Except in the case of Notes which are Definitive Bearer Notes where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate(s) of Interest specified in the applicable Final Terms to:

- in the case of Fixed Rate Notes which are Uncertificated Notes or Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- in the case of Fixed Rate Notes which are Definitive Bearer Notes or Definitive Registered Notes, the Calculation Amount,

and, in each case, multiplying such amount by the applicable Day Count Fraction (if any), and rounding the resultant figure to the nearest sub-unit (as defined in Condition 4.7 below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards. Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms. Where the Specified Denomination of a Fixed Rate Note which is a Definitive Bearer Note or a Definitive Registered Note is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.1.2 Adjusted Fixed Rate Notes

4.1.2.1 Each Adjusted Fixed Rate Note bears interest from and including (or, in respect of Uncertificated Swedish Notes from but excluding) the Interest Commencement Date specified in the applicable Final Terms, and such interest will be payable in respect of each Interest Period and in arrear on the Interest Payment Date(s) in each year specified in the applicable Final Terms; provided that (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then if the applicable Final Terms specify that the clause "Business Day Convention" is:

"Following Business Day Convention", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or

"Modified Following Business Day Convention", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or

"Preceding Business Day Convention", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day,

and the expression "Interest Payment Date" shall be construed accordingly.

4.1.2.2 The Calculation Agent will calculate the amount of interest (the **Adjusted Fixed Rate Interest Amount**) payable on the Adjusted Fixed Rate Notes for the relevant Interest Period by applying the Rate(s) of Interest to:

(i) in the case of Adjusted Fixed Rate Notes which are Uncertificated Notes or Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or

(ii) in the case of Adjusted Fixed Rate Notes which are Definitive Bearer Notes or Definitive Registered Notes, the Calculation Amount;

and, in each case, multiplying such amount by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of an Adjusted Fixed Rate Note which is a Definitive Bearer Note or a Definitive Registered Note is a multiple of the Calculation Amount, the Adjusted Fixed Rate Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.2 Floating Rate Note and Reference Rate Note Provisions

This Condition 4.2 applies if (i) the applicable Final Terms specify that the clause "*Floating Rate Note Provisions*" is "Applicable", or (ii) with respect to U.S. Exempt Securities, the applicable Offering Circular specifies that the clause "Floating Rate Note Provisions" is stated as being "Applicable".

The applicable Final Terms contain provisions applicable to the determination of floating coupon amount (the **Floating Coupon Amount**) and must be read in conjunction with this Condition 4.2 for full information on the manner in which interest is calculated on Floating Rate Notes.

In particular, the applicable Final Terms will specify the Floating Coupon Amount(s), the Interest Payment Date(s), the Business Day Convention, the method of determination of the Rate of Interest and Interest Amount, any Margin(s)/Spread(s), any Leverage Factor, any minimum rate of interest (the **Minimum Rate of Interest**) or any maximum rate of interest (the **Maximum Rate of Interest**) (whereby these latter elements may also be specified in the formula for the calculation of the Floating Coupon Amount specified in the applicable Final Terms), and any Day Count Fraction, and any rate multiplier (the **Rate Multiplier**).

In the case of Notes which are Non-exempt Offer to the public and the Floating Coupon Amount is to be determined by reference to one or more component(s) being a percentage to be published by the Issuer on <http://prospectus.socgen.com>, the applicable Final Terms will specify an indicative value, a minimum value, and will indicate the date of publication thereof.

4.2.1 Specified Period(s) and Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in respect of each Interest Period on either:

(1) the Interest Payment Date(s) specified in the applicable Final Terms; or

(2) if no Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Interest Payment Date specified in the applicable Final Terms an **Interest Payment Date**) numerically corresponding to the immediately preceding Interest Payment Date and which falls the number of months or other period(s) (the **Specified Period(s)**) specified in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date (and if no Interest Commencement Date is specified, after the Issue Date).

4.2.2 Floating Coupon Amount

The Floating Coupon Amount payable on the Interest Payment Date(s) in respect of the Floating Rate Notes will be determined by applying the Rate of Interest to the Specified Denomination as specified in the applicable Final Terms.

4.2.3 Rate of Interest

The Rate of Interest in respect of the Floating Rate Notes or Reference Rate Linked Notes as the case may be, will be determined pursuant to the provisions below as specified in the Final Terms.

4.2.3.1 ISDA Determination

If the applicable Final Terms specify that "Method of determination of the Rate of Interest and Interest Amount" is "ISDA Determination", the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the Final Terms) the margin(s) (the **Margin(s)**), (if any), which, for the avoidance of doubt, may be also referred to as the spread(s) (the **Spread(s)**) in the applicable Final Terms multiplied by any leverage factor (the **Leverage Factor**).

For the purposes of this paragraph, **ISDA Rate** for an Interest Period means, subject to the provisions of 4.2.3.5 below, a rate equal to the Floating Rate that would be determined by the Calculation Agent or any other person specified in the Final Terms, under an interest rate swap transaction if the Calculation Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the ISDA Definitions (as defined below) and under which:

(1) the Floating Rate Option is as specified in the Final Terms;

(2) the Designated Maturity is a period specified in the Final Terms; and

(3) the relevant Reset Date is as specified in the Final Terms;

(the "**Hypothetical Swap Transaction**")

For the purposes of this subparagraph, **Floating Rate**, **Calculation Agent**, **Floating Rate Option**, **Designated Maturity**, **Reset Date** and **Euro-zone** have the meanings given to those terms in the 2021 ISDA Interest Rate Derivatives Definitions published by the International Swaps and Derivatives Association, Inc. (the **2021 ISDA Definitions**) and as amended and updated as at the Issue Date of the first Tranche Notes.

Where ISDA Determination is specified in the Final Terms as the "Method of determination of the Rate of Interest and Interest Amount", unless a higher Minimum Rate of Interest is specified in the Final Terms, the Minimum Rate of Interest shall be deemed to be zero.

Except if the provisions of 4.2.3.3 or 4.2.3.4 apply, in the Final Terms, when the paragraph "Floating Rate Option" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Floating Rate Option, one of which shall be determined as if the Designated Maturity were the period of time for which rates are available of next shorter length before the length of the relevant Interest Period, and the other of which shall be determined as if the Designated Maturity were the period of time, for which rates are available of next longer length after the length of the relevant Interest Period.

4.2.3.2 Standard Screen Rate Determination

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is "Standard Screen Rate Determination" or otherwise provide that "Standard Screen Rate Determination" applies, the Rate of Interest for each Interest Period will, subject as provided below, and in Condition 4.2.3.5 below, be either:

(1) the offered quotation; or

(2) the arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate *per annum*), for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at the specified time (**Specified Time**) or the Specified Time in the principal financial centre of the jurisdiction of the relevant Reference Rate on the interest determination date in question (the **Interest Determination Date**) as specified in the Final Terms plus or minus (as indicated in the Final Terms) the Margin or Spread (if any), multiplied by any Leverage Factor, all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if in the case of paragraph (1) above, no such offered quotation appears or, in the case of paragraph (2) above, fewer than three such offered quotations appear, in each case as at the Specified Time, the Calculation Agent shall request the principal office of each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such offered quotations plus or minus (as appropriate) the Margin (if any), and multiplied by any Leverage Factor, all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the relevant inter-bank market plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer and the Calculation Agent suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in the relevant inter-bank market (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor.

Where:

Reference Rate(s) means, for the purpose of this Condition 4.2.3.2, as specified in the applicable Final Terms, the deposit rate, the interbank rate, the swap rate or bond yield, as the case may be, which appears on the Relevant Screen Page at the Specified Time on the Interest Determination Date and as determined by the Calculation Agent.

Reference Banks has the meaning given to it, for each Reference Rate, in the 2021 ISDA Definitions as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series. For instance, in case of an EURIBOR rate, the Reference Banks will be the principal Euro-zone office of four major banks in the Euro-zone inter-bank market.

Euro-zone has the meaning given to such term in the 2021 ISDA Definitions.

In the applicable Final Terms, when the clause "*Reference Rate*" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the maturity were the period of time, for which rates are available, of next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the maturity were the period of time, for which rates are available, of next longer than the length of the relevant Interest Period.

4.2.3.3 Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination

4.2.3.5.2.3

(A) This provision applies if an Index Event occurs in respect of a Reference Rate or Underlying Benchmark and:

- ISDA Determination applies pursuant to 4.2.3.1 but the Floating Rate Option specified in the Final Terms is not a Floating Rate Option of the ISDA Matrix; or
- Standard Screen Rate Determination applies pursuant to 4.2.3.2 above but the Underlying Benchmark is not a Major Underlying Benchmark; or
- Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to paragraph 4.2.3.3. above but the Underlying Benchmark is not a Major Underlying Benchmark;
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.3.5.2.2.5 above, or
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.4,

then the Issuer shall use its reasonable endeavours to appoint a Rate Determination Agent, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with paragraph (B) below) and, in either case, an Adjustment Spread if any (in accordance with paragraph (C) below) and any Conforming Changes (in accordance with Condition 4.2.3.6 below).

A Rate Determination Agent appointed pursuant to this Condition shall act in good faith in a commercially reasonable manner as an expert and in consultation with the Issuer. In the absence of bad faith or fraud, the Rate Determination Agent shall have no liability whatsoever to the Issuer, the Paying Agents, the Noteholders or the Couponholders for any determination made by it, pursuant to this Condition.

(B) Successor Rate or Alternative Rate

If the Rate Determination Agent determines that:

(i) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3); or

(ii) there is no Successor Rate but there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3).

(C) Adjustment Spread

If an Index Cessation or an Administrator/Benchmark Event has occurred in respect of a Reference Rate or an Underlying Benchmark, and the Calculation Agent in respect of any rate determined pursuant to Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 or the Rate Determination Agent in respect of a Successor Rate or Alternative Rate determines (i) that an Adjustment Spread is required to be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining such Adjustment Spread, then such Adjustment Spread shall be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be).

Provided however that :

(y) if an Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, then the Reference Rate or the Underlying Benchmark for the Affected Interest Period shall be determined pursuant to the provisions that would apply to the determination of the Reference Rate or Underlying Benchmark as if no Index Event had occurred;

and

(z) if the Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, and if the Reference Rate or the Underlying Benchmark specified in the applicable Final Terms affected by the Index Event and used to determine the Rate of Interest of an Interest Period is a Term Rate determined before or at the beginning of such Interest Period and pursuant to the application of the provisions above, it will be replaced by a Successor Rate or an Alternative Rate to be determined at the end or just after the end of an Interest Period as the result of the compounding or averaging of an overnight rate, as observed on dates during a period starting on or before the beginning of the Interest Period, as the case may be plus an Adjustment Spread, then the Successor Rate or Alternative Rate shall be used as from the Affected Interest Period and determined at the end or just after such Affected Interest Period.

“Term Rate” means a benchmark that reflects the rate of return in the relevant market for one or more specified periods of time, with the relevant period of time to be specified in the Final Terms as the Designated Maturity or as part of the Floating Rate Option.

If, in respect of Eligible Notes only, the Issuer determines that the replacement of the Reference Rate or Underlying Benchmark with the Replacement Rate and/or any Adjustment Spread and/or any Conforming Changes (as the case may be): (x) would result in the aggregate nominal amount of the Notes being fully or partially excluded from the eligible liabilities available to meet the MREL Requirements or MREL or TLAC Requirements (as called or defined by the then applicable laws and regulations or MREL or TLAC criteria applicable to the Issuer) and hence can trigger a MREL Disqualification Event or a MREL or TLAC Disqualification Event or (y) could reasonably result in the Relevant Resolution Authority treating any future Interest Payment Date as the effective maturity of the Notes, rather than the relevant Maturity Date (for example if the switch to the Replacement Rate would create an incentive to redeem the Notes inconsistent to maintain the regulatory status of Eligible Notes), then the Issuer may decide that no Successor Rate or Alternative Rate, will be adopted and the Reference Rate applicable to the next succeeding Interest Period will be equal to the latest available Reference Rate (based on the sequence of levels of Underlying Benchmark available to determine such latest available Reference Rate, as the case may be) .

If (i) the Issuer is unable to appoint a Rate Determination Agent or (ii) neither the Calculation Agent is able to determine a rate pursuant to Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 nor the Rate Determination Agent appointed by it is able to determine a Successor Rate or an Alternative Rate prior to the relevant Interest Determination Date then the Issuer may decide either that (x) that no Replacement Rate will be adopted and the Reference Rate applicable to the next succeeding Interest Period will be equal to the latest available Reference Rate (based on the sequence of levels of Underlying Benchmark available to determine such latest available Reference Rate, as the case may be) or (y) to apply the provisions of Condition 6.2.2..

4.2.3.6 Conforming Changes

Following the occurrence of an Index Event, the Calculation Agent may make any technical, administrative or operational changes (including without limitation, changes to the determination dates, timing and frequency of determining rates and making payments, rounding of amounts or tenors, the introduction or modification of any time delay or lag between the calculation or observation period of a rate and the related payment dates, the application of a mathematical formula to the Reference Rate or Underlying Benchmark and other administrative matters) that the Calculation Agent decides may be appropriate to reflect the change of Reference Rate or Underlying Benchmark by the Replacement Rate in a manner substantially consistent with the prevailing market practice (or, if the Calculation Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent determines that no market practice for use of the Replacement Rate exists, in such other manner as the Calculation Agent determines is reasonably necessary) and/or in order to adapt solutions provided by the 2021 ISDA Definitions and the ISDA Matrix that are designed for the OTC transactions to the context of the Notes (the **"Conforming Changes"**).

These conforming changes shall be binding upon the Noteholders.

(A) Notices

Any Replacement Rate, Adjustment Spread (if any) and Conforming Changes (if any) determined under this Condition 4.2.3. will be notified promptly by the Issuer, after receiving such information from the Rate Determination Agent or the Calculation Agent, to the Principal Paying Agent, the Calculation Agent, the Paying Agents, and, in accordance with Condition 13, the Noteholders and the Couponholders.

Such notice shall be irrevocable and shall specify the effective date of the Conforming Changes, if any.

Any Replacement Rate, Adjustment Spread (if any) and the Conforming Changes (if any) specified in such notice, will (in the absence of manifest error or bad faith in the determination of the Replacement Rate, the Adjustment Spread (if any) and the Conforming Changes (if any) be final and binding on the Issuer, the Principal Paying Agent, the Calculation Agent, the Paying Agents, the Noteholders and the Couponholders.

(B) Survival of Original Reference Rate

Without prejudice to the obligations of the Issuer under Conditions 4.2.3.5.2.3 and 4.2.3.6, the Original Reference Rate with its Original Underlying Benchmark will continue to apply unless and until these priority fallback provisions fail to provide a means of determining the Rate of Interest.

4.2.3.7 Definitions:

“Adjustment Spread” means the adjustment, if any, to a Replacement Rate that the Calculation Agent determines is required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value from (a) the Issuer to the Noteholders or (b) the Noteholders to the Issuer, in each case that would otherwise arise as a result of the replacement of the Reference Rate or Underlying Benchmark with the Replacement Rate .

Any such adjustment may take account of, without limitation, any anticipated transfer of economic value as a result of any difference in the term structure or tenor of the Replacement Rate by comparison to the Original Reference Rate or Original Underlying Benchmark. The Adjustment Spread may be positive, negative or zero or determined pursuant to a formula or methodology.

“Administrator” means, in respect of a Reference Rate or an Underlying Benchmark, the administrator for that Reference Rate or Underlying Benchmark or, if there is no administrator, the provider of that Reference Rate or Underlying Benchmark; or in either case, any successor administrator or, as applicable, any successor administrator or provider.

In such event, interest will continue to be calculated and to accrue until whichever is the earlier of:

(1) the date on which all amounts due in respect of such Note have been paid; and

(2) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten years after the Relevant Date (as defined in Condition 8) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Where any Floating Rate Note, Dual Currency Note, Structured Note or Physical Delivery Note which is settled by way of cash is presented for

redemption without all unmatured Coupons appertaining thereto, payment of all amounts due in relation to such Note will be made only against the provision of such indemnity as the relevant Issuer and, if applicable, the Guarantor may decide.

If the due date for redemption of any Definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Bearer Note.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments due under Registered Notes.

Renminbi Currency Event means any one of Renminbi Illiquidity, Renminbi Non-Transferability and Renminbi Inconvertibility.

Renminbi Illiquidity means the general Renminbi exchange market in Hong Kong becomes illiquid as a result of which the Issuer and/or any of its affiliates cannot obtain sufficient Renminbi in order to make a payment or perform any other of its obligations under the Notes, as determined by the Calculation Agent in good faith and in a commercially reasonable manner.

Renminbi Inconvertibility means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to convert any amount into or from Renminbi as may be required to be paid by the Issuer under the Notes on any payment date or such other amount as may be determined by the Calculation Agent at the general Renminbi exchange market in Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of the Issuer and/or the relevant affiliate to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date of the first Tranche of the relevant Series of Notes and it is impossible or, having used its reasonable endeavours, impractical, for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer or the relevant affiliate, to comply with such law, rule or regulation).

Renminbi Non-Transferability means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to deliver Renminbi between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of the Issuer and/or the relevant affiliate to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible or, having used its reasonable endeavours, impractical, for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer and/or the relevant affiliate, to comply with such law, rule or regulation).

Relevant Currency means U.S. dollars, Hong Kong Dollars or such other currency as specified in the applicable Final Terms.

5.16 Provisions specific to Dual Currency Notes

Amounts payable in respect of payment of principal and/or interest, if any, in respect of Dual Currency Notes, shall be determined by the Calculation Agent by converting the relevant amounts in the relevant Specified Currency into the Settlement Currency at the relevant fixing of Dual Currency Exchange Rate.

The method of determining the fixing of Dual Currency Exchange Rate will be specified in the applicable Final Terms and may be one of the following methods:

(1) if "Predetermined" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the Calculation Agent shall use the Predetermined Fixing as the fixing of Dual Currency Exchange Rate to convert the relevant amount(s);

(2) if "Screen Rate Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be the relevant exchange rate fixing specified on the Relevant Screen Page at the Dual Currency Valuation Time on the Dual Currency Valuation Date;

(3) if "Calculation Agent Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be determined by the Calculation Agent by reference to such sources it deems appropriate, at the Dual Currency Valuation Time on the Dual Currency Valuation Date.

Notwithstanding any of the above, upon a Dual Currency Disruption Event occurring or continuing on any Dual Currency Valuation Date as determined by the Calculation Agent, the Calculation Agent shall:

(a) determine that the Dual Currency Valuation Date shall be the first succeeding Dual Currency Scheduled Trading Day that is not a Dual Currency Disrupted Day unless each of the eight Dual Currency Scheduled Trading Days immediately following the scheduled Dual Currency Valuation Date is also a Dual Currency Disrupted Day. In that case that eighth Dual Currency Scheduled Trading Day shall be deemed to be the Dual Currency Valuation Date notwithstanding the fact that such day is a Dual Currency Disrupted Day, and the Calculation Agent shall determine its good faith estimate of the fixing of the Dual Currency Exchange Rate as of the Dual Currency Valuation Time on that eighth Dual Currency Scheduled Trading Day and the good faith estimate of the fixing so calculated shall be deemed the fixing of Dual Currency Exchange Rate; and/or

(b) postpone any payment date related to such Dual Currency Valuation Date (including, if applicable, the Maturity Date) until the second Business Day following the date on which a Dual Currency Disruption Event is no longer subsisting, or the date on which the Calculation Agent determines its good faith estimate of the fixing of the Dual Currency Exchange Rate pursuant to the provisions of paragraph (a) above, as the case may be. No interest or other amount shall be paid by the Issuer in respect of such postponement.

provided however that, all references to the word "second" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purpose of this Condition:

Clearing System means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

Settlement Currency means the currency or currencies specified as such in the applicable Final Terms. The applicable Final Terms may specify that the Settlement Currency may vary depending on the occurrence of different scenarios described in the applicable Final Terms;

Dual Currency Disrupted Day means any Dual Currency Scheduled Trading Day on which the Calculation Agent determines that a Dual Currency Disruption Event has occurred;

Dual Currency Disruption Event means the occurrence or existence of (a) a Price Source Disruption, (b) an Illiquidity Disruption, (c) a Dual Exchange Rate or (d) any other event that, in the opinion of the Calculation Agent, is analogous to (a), (b) or (c). For the purpose hereof:

(a) Price Source Disruption means that it becomes impossible to obtain the rate or rates from which the Dual Currency Exchange Rate is calculated;

(b) Illiquidity Disruption means the occurrence of any event in respect of the Specified Currency and/or Settlement Currency whereby it becomes impossible for the Calculation Agent to obtain a firm quote for such currency in an amount deemed necessary by the Calculation Agent to hedge its obligations under the Notes (in one or more transaction(s)) on any Dual Currency Valuation Date; and

(c) Dual Exchange Rate means that the Dual Currency Exchange Rate splits into dual or multiple foreign exchange rates.

Dual Currency Exchange Rate means an exchange rate expressed as X/Y (X and Y are currencies) and specified as such in the applicable Final Terms. For the avoidance of doubt, an exchange rate expressed as X/Y means the number of units (or part units) of Y for which one unit of X can be exchanged;

Dual Currency Scheduled Trading Day means a day on which commercial banks are open (or, but for the occurrence of a Dual Currency Disruption Event would have been open) for business (including dealings in foreign exchange in accordance with the market practice of the foreign exchange market) in the principal financial centres of the Dual Currency Exchange Rate.

5.17 Physical Delivery Notes

If the applicable Final Terms specify that "*Physical Delivery Provisions*" is "Applicable", this Condition applies.

In particular, the applicable Final Terms will specify the Deliverable Asset(s), the Physical Delivery Amount, the provisions governing whether transfer of Deliverable Asset(s) or payment of a cash sum will apply, the Issuer's option to vary method of settlement and the method of transfer of Deliverable Asset(s) in respect of the Physical Delivery Amount.

For the purposes of this Condition:

Deliverable Asset(s) means the deliverable asset(s) which may be either:

(i) the Underlying(s) of the Notes specified under the paragraph "Underlying(s)" in the applicable Final Terms, which may be any Underlying as defined in the Additional Terms and Conditions for Structured Notes or

(ii) if different from the Underlying(s) of the Notes, a share, an American or global depositary receipt and/or an exchange traded fund and/or a fund and/or an exchange traded product and/or a bond and/or a preference share and/or a warrant and/or a future, and/or any other asset specified under the paragraph "Deliverable Asset(s)" in the applicable Final Terms, in such case the provisions of the Additional Terms and Conditions relating to such Underlying shall apply, or in the case of Credit Linked Notes, the "Specified Deliverable Obligation(s)" subject to the provisions of the Additional Terms and Conditions for Credit Linked Notes.

However,

(a) no share in Societe Generale or the Group will be deliverable. If a Share in Societe Generale or the Group should be delivered, such share will be replaced by, in due proportion, an equivalent amount in cash; and

(b) no Fund Unit in respect of any underlying fund which is a hedge fund will be delivered to retail investors.

Physical Delivery Amount means an amount determined and calculated in the manner described in the applicable Final Terms.

Any reference in these General Terms and Conditions to "Physical Delivery Amount(s)", shall mean such amount less any expenses, fees, stamp duty, levies or other amounts including, but not limited to, any taxes or duties arising from the delivery or transfer of Deliverable Asset(s) payable on or in respect of such Physical Delivery Amount(s).

5.17.1 Method of transfer of Deliverable Asset(s) in respect of Physical Delivery Amount

When the settlement of a Physical Delivery Note is by way of physical delivery, the delivery of any Physical Delivery Amount (including, without limitation, liability for the costs of transfer of Deliverable Asset(s)) will be made through Clearstream or Euroclear or other relevant Clearing System.

The Deliverable Asset(s) will be delivered at the risk of the relevant Noteholders in such manner as may be specified in the transfer notice pursuant to which such Deliverable Assets are delivered (the **Transfer Notice**), the form of which is annexed to the Agency Agreement and, notwithstanding Condition 2, no additional payment or delivery will be due to a Noteholder where any Deliverable Asset(s) is/are delivered after their due date in circumstances beyond the control of either the Issuer or the Settlement Agent. The Transfer Notice will be delivered using the transfer procedures currently utilised by the relevant Clearing System.

A Noteholder's entitlement to any Physical Delivery Amount will be evidenced:

(i) by the Noteholder's account balance appearing on the records of the relevant Clearing System,

(ii) in the case of Credit Linked Notes by the account balances appearing in the records of the relevant Clearing System or, if necessary, the number of Notes held by each Noteholder as notified to the Principal Paying Agent by the relevant Clearing System, and

(iii) in the case of Definitive Registered Notes, by the entries maintained at the relevant time on the Register maintained by the Registrar.

When Notes are held in a Clearing System, to the extent that a beneficial Noteholder holds such Notes through a custodian, the Issuer may in its discretion (and subject to obtaining such proof, evidence and/or indemnity arrangements as it deems appropriate) take account of such custodial arrangements when determining where to deliver Deliverable Asset(s) which form the Physical Delivery Amount.

Any delivery of Deliverable Assets will only be made in compliance with applicable securities laws.

5.17.2 Issuer's option to vary method of settlement

When the applicable Final Terms specify that "*Issuer's option to vary method of settlement*" is "Applicable", the Issuer may elect to pay or cause to be paid to the Noteholder the Final Redemption Amount on the Maturity Date in lieu of its obligation to deliver or procure delivery of the Physical Delivery Amount. Notification of any such election will be given to the Noteholder in accordance with Condition 13.

5.17.3 No obligations in relation to underlying asset

Except as expressly provided, the purchase of Notes does not confer on any Noteholder any rights (whether in respect of voting, distributions or otherwise) attached to any Underlying.

The Issuer shall be under no obligation to register or procure the registration of any Noteholder or any other person as the registered holder in respect of any relevant asset(s) comprised in any Physical Delivery Amount in any relevant register.

For such period of time after the Maturity Date as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of any asset(s) comprised in any assets comprising the Physical Delivery Amount (or equivalent amounts in circumstances where the

Notes are subject to early redemption, purchase or cancellation) (the **Intervening Period**), neither the Issuer nor any other such person shall (a) be under any obligation to deliver or procure delivery to the relevant Noteholder or any subsequent beneficial owner of such asset(s) or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such asset(s), (b) be under any obligation to exercise or procure exercise of any or all rights (including any voting rights) attaching to such asset(s) during the Intervening Period or (c) be under any liability to the relevant Noteholder or any subsequent beneficial owner of such asset(s) or any other person in respect of any loss or damage which the relevant Noteholder or subsequent beneficial owner or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any other such person being the legal owner of such asset(s) during such Intervening Period.

5.17.4 Settlement Disruption Event

If a Settlement Disruption Event does prevent delivery of the Physical Delivery Amount on the Maturity Date, then such delivery shall occur on the first succeeding day on which delivery of the Physical Delivery Amount can take place through the relevant Clearing System (the **Actual Settlement Date**) unless a Settlement Disruption Event prevents delivery for a period of 20 Clearing System Days immediately following the original date that would have been the Actual Settlement Date (the **Delivery Period**). In that latter case, the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the fair market value of the number of Deliverable Asset(s) to be delivered (the **Fair Market Value**) converted into the Specified Currency at the current exchange rate, if applicable.

The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Delivery Period:

(a) if a dividend is paid in respect of the Deliverable Asset(s) from and including the Valuation Date to and, as the case may be, (i) excluding the Delivery Date or (ii) including, in the event of a Settlement Disruption Event, the date on which the Fair Market Value is calculated, then, the net dividend amount relating to the number of Deliverable Asset(s) to be delivered per Note (excluding any related tax credit) converted into the Specified Currency at the current exchange rate, if applicable, will be paid in cash to the Noteholders as soon as practicable; and

(b) all stamp duties, or other similar taxes and/or duties, in respect of physical delivery of Deliverable Asset(s) shall be borne by the Noteholders.

Provided that in the case of Credit Linked Notes, upon the occurrence of a Settlement Disruption Event, the relevant Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the Cash Redemption Amount per Undeliverable Obligations (as defined in the Additional Terms and Conditions for Credit Linked Notes) to be delivered converted into the Specified Currency at the current exchange rate, if applicable.

For the purposes of this Condition:

Clearing System Day means, in respect of a Clearing System, any day on which such Clearing System is open for the acceptance and execution of settlement instructions.

To exercise the right to require redemption of a Note, the Noteholder must within the Notice Period deliver a duly completed and signed notice (a **Put Notice**) :

(i) if the Note is in definitive form and held outside Euroclear and Clearstream, in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the Registrar, to the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the Registrar and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition and, in the case of Registered Notes, the nominal amount thereof to be redeemed and, if less than the full nominal amount of the Registered Notes so surrendered is to be redeemed, an address to which a new Registered Note in respect of the balance of such Registered Notes is to be sent subject to and in accordance with the provisions of Condition 13. If this Note is in definitive form, the Put Notice must be accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to the order or under its control, or

(ii) if the Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream or SIS or any other clearing institution in Switzerland recognised for such purposes by SIX Swiss Exchange (as applicable) (**Clearing System**), to the Principal Paying Agent in accordance with the standard procedures of the relevant Clearing System (which may include notice being given on his instruction by the Clearing System or any common depository or common safekeeper, as the case may be, for them to the Principal Paying Agent by electronic means) in a form acceptable to the relevant Clearing System from time to time, or

(iii) If the Note is an Uncertificated Note, in a form in accordance with the rules and procedures of the relevant Clearing System, provided that:

(x) a Put Notice will not be effective against the Issuer before the date on which the relevant Notes have been transferred to the account designated by the Principal Paying Agent specified in the applicable Final Terms (which, for the purposes of the Uncertificated Notes, will be an account operator specifically authorised by the relevant central securities depository and clearing institution to process and register issues in the system of the relevant central securities depository and clearing institution), and blocked by such Principal Paying Agent to prevent further transfer as of the Optional Redemption Date, and

(y) if there is any inconsistency between the above and the rules and procedures of the relevant Clearing System, then the rules and procedures of the relevant Clearing System shall prevail.

If the applicable Final Terms specify that "Automatic Early Redemption" is "Applicable", the Notes are subject to automatic redemption prior to the Maturity Date at the automatic early redemption amount(s) (**Automatic Early Redemption Amount(s)**) on the automatic early redemption date(s) (**Automatic Early Redemption Date(s)**) and following the automatic early redemption event (**Automatic Early Redemption Event**), as specified in the applicable Final Terms.

The Automatic Early Redemption Amount(s) shall be determined as follows:

(i) Any reference to "Interest Amount" shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount and/or the Structured Interest Amount (each defined above) as the context requires.

(ii) Any reference to "Redemption Amount" shall be deemed to be a reference to the Final Redemption Amount, the Automatic Early Redemption Amount and/or the Optional Redemption Amount (each defined in this Condition 6) as the context requires.

If the applicable Final Terms specify that "Interest Amount and/or the Redemption Amount switch at the option of the Issuer" is "Applicable" and if the market value of the Note is higher than or equal to a predefined market value (the **Market Value for the Switch**), the Issuer shall then have the right (i) to add any Interest Amount or (ii) to replace any Interest and/or Redemption Amount by the other Amounts, described here below.

The applicable Final Terms will specify the Market Value for the Switch, the substitute coupon amount (the **Substitute Coupon Amount**) and the substitute coupon additional amount (the **Additional Substitute Coupon Amount**) if "Substitute Coupon" is "Applicable" and/or the substitute final redemption amount (the **Substitute Final Redemption Amount**) if "Substitute Final Redemption" is "Applicable" and the optional modification date(s) (the **Optional Modification Date(s)**) and the Notice Period (as defined below).

Substitute Coupon Amount means an amount determined in accordance with Condition 4.1 related to Fixed Rate Notes or with Condition 4.2 related to Floating Rate Notes.

Additional Substitute Coupon Amount means an amount determined in accordance with Condition 4.1 related to Fixed Rate Notes or with Condition 4.2 related to Floating Rate Notes.

Substitute Final Redemption Amount means an amount determined in accordance with the following provisions:

Substitute Final Redemption Amount = Specified Denomination multiplied by the percentage specified in the applicable Final Terms

The Issuer may, after having given notice to the Noteholders (in accordance with Condition 13) pursuant to a notice period (the Notice Period) specified in the applicable Final Terms (which notice shall be irrevocable and shall specify the date fixed for the switch), substitute the Interest Amount and/or the Redemption Amount by other Amounts.

Any Notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to such Note in the event that, prior to the giving of such Notice by the Issuer, the Noteholder had already delivered a Put Notice in relation to that Note in accordance with Condition 6.1.3.1.2.

6.1.3.4 Open-ended Notes

If the applicable Final Terms specify that the Notes are "Open-ended Notes", the Notes will not have a predefined maturity date.

The Issuer and the Noteholders will have the right to redeem the Notes, at their Optional Redemption Amount as per Condition 6.1.3.1.1 or Condition 6.1.3.1.2 and Condition 13.

6.1.3.5 Instalment Notes

If the applicable Final Terms specify that "*Instalment Notes Provisions*" is "Applicable", this Condition applies.

The applicable Final Terms will specify the instalment amount(s) (**Instalment Amount(s)**) and the instalment date(s) (**Instalment Date(s)**).

An adjusted specified denomination (**Adjusted Specified Denomination**) may be used for the purpose of calculating the Instalment Amount(s), and will be then specified in the applicable Final Terms.

In the case of early redemption, the Early Redemption Amount will be determined pursuant to Condition 6.3.

6.1.3.6 Partly Paid Notes

If the applicable Final Terms specify that "*Partly Paid Notes Provisions*" is "Applicable", this Condition applies.

The applicable Final Terms will specify the part payment amount(s) (**Part Payment Amount(s)**) and the part payment date(s) (**Part Payment Date(s)**).

Partly Paid Notes will be subscribed at the Part Payment Amount(s) on the Part Payment Date(s) specified in the applicable Final Terms. The obligation to pay a Part Payment Amount on the relevant Part Payment Date is only incurred by the Noteholders on such Part Payment Date.

Partly Paid Notes will be redeemed on the Maturity Date at their nominal amount and on any Optional Redemption Date at their paid-up nominal amount as at the date fixed for redemption. In the event that any Noteholder fails to pay a Part Payment Amount on the relevant Part Payment Date (such date a **Part Payment Default Date**), any such Notes held by such Noteholder shall automatically be redeemed on the relevant Early Redemption Date at the Settlement Amount.

For the purposes of this Condition:

Early Redemption Date means, in respect of any Note, the seventh Payment Business Day following a Part Payment Default Date;

Settlement Amount means, in respect of any Note, an amount determined by the Calculation Agent in accordance with the following formula:

Max [0; [Paid-up Nominal Amount – Unwinding Costs]]

Where:

Paid-up Nominal Amount means, in respect of any Part Payment Date, the paid-up nominal amount of the relevant Note up to (and including) the applicable Part Payment Date. Interest will neither accrue nor be payable in respect of the period from and including the applicable Part Payment Default Date to and including the applicable Early Redemption Date; and

Unwinding Costs means the pro rata share, in respect of each Note, of the losses (expressed as a positive number) or the gains (expressed as a negative number) of unwinding all hedging arrangements (taking into account the present value of any Part Payment Amount(s) remaining to be paid in respect of the Notes) entered into or purchased by the Issuer and/or the Guarantor in respect of the Notes.

6.1.3.7 Late Payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note, except for Registered Notes, pursuant to Condition 6 or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as per Condition 4.4 with references therein to the date fixed for the redemption or the date upon which the Zero Coupon Note becomes due and repayable replaced by references to the date which is the earlier of:

- (1) the date on which all amounts due in respect of the Zero Coupon Note have been paid; and
- (2) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Note has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

6.2 Redemption following a Special Event

A **Special Event** means any of the events as defined below:

- a Tax Event (6.2.1),
- a Special Tax Event (6.2.1),

- a MREL or TLAC Disqualification Event (for Eligible Non Structured Notes only) or a MREL Disqualification Event (for Eligible Structured Notes only) (6.2.5).

Except as otherwise specified in this Condition 6.2, if a Special Event, as defined in this Condition, occurs in respect of a Series of Notes on or after the Issue Date of the first Tranche of the Series of Notes, the Issuer or the Guarantor (as applicable) and in respect of Eligible Notes, subject to the prior written permission of the Relevant Resolution Authority, may by notice to the Principal Paying Agent and to the Noteholders, elect that the Notes shall be redeemed early on the fourteenth (14th) calendar day after the delivery by the Issuer (or the Guarantor, as applicable) of the applicable notice of early redemption (the **Early Redemption Date**), in accordance with this Condition.

Preference Share Linked Notes and Warrant Linked Notes shall be redeemed at their Early Redemption Amount as defined in the Additional Terms and Conditions for the relevant Notes.

Notes other than Preference Share Linked Notes and Warrant Linked Notes will be redeemed as further described in this Condition.

For the purposes of this Condition:

Administrator/Benchmark Event has the meaning given to it in Condition 4.2.3.7.

Change in Law means (i) the adoption, enactment, promulgation, execution or ratification of any applicable new law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) after the Issue Date of the Notes, (ii) the implementation or application of any applicable law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) already in force on the Issue Date of the Notes but in respect of which the manner of its implementation or application was not known or unclear at the Issue Date, or (iii) the change of any applicable law, regulation or rule existing at the Issue Date of the Notes, or the change in the interpretation or application or practice relating thereto, existing on the Issue Date of the Notes of any applicable law, regulation or rule, by any competent court, tribunal, regulatory authority or any other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government (including any additional or alternative court, tribunal, authority or entity, to that existing on the Issue Date).

Early Redemption of the Notes means the redemption of the Notes, in whole, but not in part, at any time (in the case of Notes other than Floating Rate Notes or any other interest bearing Notes in respect of which the Rate of Interest is not calculated on a fixed rate basis (Structured Interest Notes)) or on any Interest Payment Date (in the case of Floating Rate Notes or Structured Interest Notes) at the Early Redemption Amount referred to in Condition 6.3, together (if appropriate) with accrued interest to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the date of redemption provided that in respect of Preference Share Linked Notes or Warrant Linked Notes, the redemption of the Notes shall be at the relevant Early Redemption Amount as defined in the Additional Terms and Conditions for the relevant Notes.

Event of Default has the meaning given to it in Condition 9.

Force Majeure Event means that, by reason of the occurrence of an event or an act of state, on or after the Issue Date, for which the Relevant Entity (as defined below) is not accountable, it becomes impossible and insurmountable for the Relevant Entity to perform its obligations under the Notes, so that the continuance of the Notes is thereby rendered definitively impossible.

Monetisation with Early Redemption at the option of the Noteholder means that the Issuer will apply "Monetisation until the Maturity Date" in accordance with Condition 6.5 but will also offer the Noteholders the option of having their Notes redeemed prior to the Maturity Date in whole (but not in part). If a Noteholder requires the Issuer to redeem such Notes, the Issuer shall terminate its obligations under such Notes and shall pay or cause to be paid an Early Redemption Amount determined on the basis of Market Value as defined in Condition 6.3.

MREL or TLAC Disqualification Event means a change in the classification of the Eligible Non Structured Notes under the MREL or TLAC Requirements, that was not reasonably foreseeable by Société Générale at the Issue Date of such Notes, and that would be likely to result in or has resulted in the Eligible Non Structured Notes being fully or partially excluded from the eligible liabilities available to meet the MREL or TLAC Requirements (as named or defined by the then applicable laws and regulations or MREL or TLAC criteria applicable to the Issuer). For the avoidance of doubt, the exclusion of a Series of Eligible Non Structured Notes from the eligible liabilities available to meet the MREL or TLAC Requirements due to the remaining term of such Notes being less than any period prescribed thereunder does not constitute a MREL or TLAC Disqualification Event.

MREL Disqualification Event means a change in the classification of the Eligible Structured Notes under the MREL Requirements, that was not reasonably foreseeable by Société Générale at the Issue Date of such Notes, and that would be likely to result in or has resulted in the Eligible Structured Notes being fully or partially excluded from the eligible liabilities available to meet the MREL Requirements (as named or defined by the then applicable laws and regulations or MREL criteria applicable to the Issuer). For the avoidance of doubt, the exclusion of a Series of Eligible Structured Notes from the eligible liabilities available to meet the MREL Requirements due to the remaining term of such Notes being less than any period prescribed thereunder does not constitute a MREL Disqualification Event.

Regulatory Event means, following the occurrence of a Change in Law with respect to the Issuer and/or Societe Generale as Guarantor or in any other capacity (including without limitation as market maker of the Notes or direct or indirect shareholder or sponsor of the Issuer) or any of its affiliates involved in the issue of the Notes (hereafter the **Relevant Affiliates** and each of the Issuer, Societe Generale and the Relevant Affiliates, a **Relevant Entity**) that, after the Issue Date of the Notes, (i) any Relevant Entity would incur a materially increased (as compared with circumstances existing prior to such event) amount of tax, duty, liability, penalty, expense, fee, cost or regulatory capital charge however defined or collateral requirements for performing its obligations under the Notes, including, without limitations, due to clearing requirements of, or the absence of, clearing of the transactions entered into in connection with the issue of the Notes, (ii) the Relevant Entity would be required to obtain any licence, authorization, approval, permit, registration from any governmental, inter-governmental, supranational authority, agency, instrumentality, ministry or department thereof that it does not hold as of the Issue Date or to modify its by-laws to comply with the new requirements (a) to hold, acquire, issue, reissue, substitute, maintain, redeem, settle or as the case may be, guarantee, the Notes, (b) to acquire, hold, sponsor or dispose of any asset(s) (or any interests therein) of any other transaction(s) such Relevant Entity may use in connection with the issue of the Notes, (c) to perform obligations in connection with, the Notes or any contractual arrangement entered into between the Issuer and Societe Generale or any Relevant Affiliate or (d) to hold, acquire, maintain, increase, substitute or redeem all or a substantial part of its direct or indirect shareholding in the Issuer's capital or the capital of any Relevant Affiliate or to directly or indirectly sponsor the Issuer or any Relevant Affiliate, or (iii) there is or may be a material adverse effect on a Relevant Entity in connection with the issue of the Notes.

Relevant Notice means, a notice given in accordance with Condition 13 (i) not less than 30 nor more than 45 days, in respect of a Tax Event, a Regulatory Event or a Force Majeure Event, (ii) not less than 7 nor more than 45 days in respect of a Special Tax Event, to the Noteholders (which notice shall be irrevocable) and to the Principal Paying Agent.

Special Tax Event means that the Issuer or, as the case may be, the Guarantor would, on the occasion of the next payment (including payment of principal or interest, if any) or delivery in respect of the Notes, be prevented by the law of a Tax Jurisdiction (as defined

in Condition 7) from causing payment or delivery, as the case may be, to be made to the Noteholders of the full amount then due and payable or deliverable, as the case may be, notwithstanding the undertaking to pay additional amounts contained in Condition 7.2.

Tax Event means that (i) the Issuer or, as the case may be, the Guarantor, has or will become obliged to pay additional amounts as provided or referred to in Condition 7 as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 7) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date of the first Tranche of the Notes, and (ii) such obligation cannot be avoided by the Issuer or, as the case may be, the Guarantor taking reasonable measures available to it.

A Tax Event, Special Tax Event, Regulatory Event or Force Majeure Event are each an **Exceptional Event** and together the **Exceptional Events**.

6.2.1 Redemption for Tax Event, Special Tax Event, Regulatory Event (except for Eligible Non Structured Notes), Force Majeure Event (except for Eligible Non Structured Notes) or Event of Default (except for Eligible Notes)

If the applicable Final Terms specify:

(a) "Early Redemption"

then, upon the occurrence of an Exceptional Event, the Calculation Agent may, on giving a Relevant Notice, apply Early Redemption of the Notes as defined above, or

(b) "Early Redemption or Monetisation until the Maturity Date",

then, upon the occurrence of a Tax Event, Special Tax Event or Regulatory Event, the Calculation Agent may, on giving a Relevant Notice, decide to apply either:

(i) Early Redemption of the Notes, or

(ii) "Monetisation until the Maturity Date" in accordance with Condition 6.5,

and upon the occurrence of a Force Majeure Event or Event of Default (unless the applicable Final Terms specify that Event of Default is not applicable) and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes, or

(c) "Monetisation with Early Redemption at the option of the Noteholders, except for Force Majeure Event or Event of Default",

then, upon the occurrence of a Tax Event, Special Tax Event or Regulatory Event, the Calculation Agent may, on giving a Relevant Notice, apply Monetisation with Early Redemption at the option of the Noteholder as defined above, and

upon the occurrence of a Force Majeure Event or Event of Default (unless the applicable Final Terms specify that Event of Default is not applicable) and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes.

If following the occurrence of Tax Event or Special Tax Event, Early Redemption of the Notes does not apply (in accordance with (b) or (c) above), then Condition 7.2 "Gross-up" will not apply.

If the applicable Final Terms specify that Tax Event or Special Tax Event is not applicable, then in case of occurrence of a Tax Event or Special Tax Event the Notes will remain unchanged.

6.2.2 Redemption upon the occurrence of an Administrator /Benchmark Event (except for Eligible Non Structured Notes)

This Condition applies if the applicable Final Terms specify that "EU Benchmarks Regulation - Benchmark" is "Applicable".

Upon the occurrence or likely occurrence, as determined by the Calculation Agent, of an Administrator/Benchmark Event in case of Floating Rate Notes as described in Condition 4.2.3.1 above, on or after the Issue Date and if the Calculation Agent has not been able to determine a Replacement Benchmark and, as the case may be, an Adjustment Spread in accordance with the provisions of Condition 4.2.3.5.2 above, then the Calculation Agent, acting in good faith, may either:

(i) consider such event as an event triggering an early redemption of the Notes (hereafter, an Early Redemption Event). In that case, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount based on the Market Value as defined in Condition 6.3 below; or

(ii) apply Monetisation until the Maturity Date (as defined in Condition 6.5 below).

6.2.3 Trigger redemption at the option of the Issuer

If the applicable Final Terms specify that "Trigger redemption at the option of the Issuer" is "Applicable", then in the event that at any time during the life of the Notes and for any reason whatsoever, the Aggregate Outstanding Nominal Amount of the Notes equals or falls below the Outstanding Amount Trigger Level, the Issuer shall have the option, subject to any applicable law and regulation, and

in the case of Eligible Notes, subject to the prior written permission of the Relevant Resolution Authority, to redeem all (but not some only) of the remaining outstanding Notes at the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 upon giving not less than fifteen (15) Business Days' notice to the Noteholders (in accordance with Condition 13) specifying that the Outstanding Amount Trigger Level has been reached.

For the purposes of this Condition:

Aggregate Outstanding Nominal Amount means, at any time, the product of (a) the Specified Denomination and (b) the number of Notes outstanding held at such time by Noteholders other than Societe Generale or its affiliates for their own account as determined in good faith by the Paying Agent in consultation with the clearing institution(s) in or through which the Notes are held and transactions in such Notes are cleared.

Outstanding Amount Trigger Level means 10% of the Aggregate Nominal Amount of the Notes initially issued or, if different from 10%, the level specified as such in the applicable Final Terms.

6.2.4 Redemption or forced transfer of Registered Notes (except for Eligible Non Structured Notes)

Any transfer or other disposition of any legal or beneficial ownership interest in a Non-U.S. Registered Note to a person that is not a Permitted Transferee will be void *ab initio* and of no legal effect whatsoever. Any purported transferee of any legal or beneficial ownership interest in a Non-U.S. Registered Note in such a transaction will not be entitled to any rights as a legal or beneficial owner of such interest in such a Non-U.S. Registered Note. If the Issuer determines at any time that a holder of a Non-U.S. Registered Note (i) is a person that is not a Permitted Transferee, or (ii) purchased such Non-U.S. Registered Note in breach of the deemed or actual representations given by such Noteholder upon the purchase of such Non-U.S. Registered Note, the Issuer may (a) redeem such Non-U.S. Registered Note at the Early Redemption Amount, or (b) direct such Noteholder to sell or transfer its Non-U.S. Registered Note to a Permitted Transferee in an offshore transaction meeting the requirements of Regulation S within 30 days following receipt of such notice, and if such Noteholder fails to sell or transfer its Non-U.S. Registered Note within such 30 day period, the Issuer may transfer or sell such Non-U.S. Registered Note on behalf of such Noteholder.

No payments will be made on the affected Notes from the date notice of the sale requirement is sent to the date on which the affected Notes are sold.

There can be no assurance that a Noteholder, or an interest therein, who is required to sell Notes, or whose Notes are sold on his behalf (pursuant to this Condition) will not incur a significant loss as a result of the need for the relevant Issuer, or for the transferor, to find a qualifying transferee willing to purchase the Notes. Neither the relevant Issuer, the Guarantor (if applicable) nor any other party shall be liable to a Noteholder for any such loss.

6.2.5 Redemption for a MREL or TLAC Disqualification Event (for Eligible Non Structured Notes) or MREL Disqualification Event (for Eligible Structured Notes)

Upon the occurrence of a MREL or TLAC Disqualification Event in respect of Eligible Non Structured Notes or a MREL Disqualification Event in respect of Eligible Structured Notes, the Issuer may, at any time, at its option (subject to the prior written permission of the Relevant Resolution Authority) and having given not less than thirty (30) nor more than forty-five (45) calendar days' prior irrevocable notice to the Principal Paying Agent, the Noteholders and the Couponholders, in accordance with Condition 13, redeem the outstanding Notes in whole but not in part at their Early Redemption Amount specified in the applicable Final Terms, together, if appropriate, with accrued interest to (but excluding) the date of redemption.

6.3 Early Redemption

Where the amount due to be paid to (or delivered to, in the case of Physical Delivery Notes) a Noteholders as a result of Condition 6.2 and Condition 9 is expressed to be the "Early Redemption Amount", such amount will be determined in accordance with the applicable provisions of this Condition.

The Early Redemption Amount will be calculated as follows:

- (1) in the case of Notes with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof; or
- (2) in the case of Notes (other than Zero Coupon Notes) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount determined and calculated pursuant the provisions of Condition 5.1; or
- (3) in the case of Notes with an Early Redemption Amount specified as Market Value in the applicable Final Terms:
 - (i) at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Notes, shall represent the fair market value of the Notes and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; or

(ii) in case of Italian Certificates only, at an amount determined in good faith and in a commercially reasonable manner by the Calculation Agent to be the fair market value of the Italian Certificates immediately prior (and ignoring the circumstances leading) to such early termination; or

(iii) in case of EU Allowance Notes only, at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Notes, shall represent the fair market value of the Notes, shall take into account the relevant Spread Value(t) and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; the Market Value may be less than the market value of a Societe Generale vanilla bond having the same coupon and maturity as these Notes; or

(4) in the case of Physical Delivery Notes, at the Physical Delivery Amount specified in the applicable Final Terms; or

(5) in the case of Zero Coupon Notes, at the Amortised Face Amount; or

(6) in the case of Preference Share Linked Notes and Warrant Linked Notes, at the Early Redemption Amount determined and calculated in accordance with the Additional Terms and Conditions for Preference Share Linked Notes and the Additional Terms and Conditions for Warrant Linked Notes or at an amount specified in the applicable Final Terms, as the case may be.

For the avoidance of doubt, for the purpose of calculating the Market Value following an Event of Default pursuant to Condition 9 only, no account shall be taken of the creditworthiness of:

(i) the Issuer, which shall be deemed to be able to perform fully its obligations in respect of the Notes;

(ii) the Guarantor, which shall be deemed to be able to perform fully its obligations under the Guarantee;

in respect of Notes bearing interest, notwithstanding anything to the contrary in these Conditions, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this paragraph shall include any accrued interest to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer or, as the case may be, the Guarantor in respect of such redemption. Where such calculation is to be made for a period of less than a full year, it shall be made on the basis of the Day Count Fraction, if applicable, as specified in the applicable Final Terms.

6.4 Conditions to early redemption, purchase and cancellation with respect to Eligible Notes issued by Societe Generale

As indicated above, the Notes issued by Societe Generale that are Eligible Notes may be early redeemed, purchased or cancelled pursuant to Conditions 6.1.3.1.1, 6.2, 14.3 and 14.4, as the case may be, subject to prior written permission of the Relevant Resolution Authority.

6.5 Monetisation until the Maturity Date

If (i) for the purpose of Conditions 6.2.1 or 6.2.2. the Issuer elects to apply Monetisation until the Maturity Date or if the applicable Final Terms specify that Early Redemption, will not apply or (ii) if pursuant to the applicable Additional Terms and Conditions specified in the applicable Final Terms, the Calculation Agent elects to apply Monetisation as per this Condition, then the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date, and/or (2) the Optional Redemption Amount on the Optional Redemption Date, and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 6.5.1, 6.5.2 and/or 6.5.3 below.

In addition, in respect of Physical Delivery Notes, following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for delivery of (1) the Physical Delivery Amount related to the Intermediate Amount Payment Date, and/or (2) the Physical Delivery Amount related to the Optional Redemption Date, and/or (3) the Physical Delivery Amount as defined in the applicable Final Terms on the Maturity Date but instead will, in full and final satisfaction of its obligations, deliver Deliverable Asset(s) in an amount equal to the amount described in Conditions 6.5.1, 6.5.2 or 6.5.3 below.

This Condition 6.5 and the Monetisation with Early Redemption at the option of the Noteholder will apply, if "Redemption for Tax Event, Special Tax Event, Regulatory Event, Force Majeure Event or Event of Default", of the applicable Final Terms specifies that "Monetisation with Early Redemption at the option of the Noteholders, except for Force Majeure Event, or Event of Default" applies.

All references to the word "fourth" in the paragraphs below may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

6.5.1.1 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that, Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be, would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Intermediate Hedge Positions,

if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.1.2 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the Minimum Intermediate Amount)

Pursuant to the provisions of this Condition, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

(a) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and

(b) an amount equal to the Minimum Intermediate Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.2 Monetisation of any Optional Redemption Amount

6.5.2.1 In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Final Terms could be as low as zero

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.2.2 In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the Optional Minimum Redemption Amount)

Pursuant to the provisions of this Condition, the Issuer shall pay on the Optional Redemption Date an amount per Note equal to the Optional Minimum Redemption Amount and on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

(3) the Issuer institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or the jurisdiction of its head office, or the Issuer consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or the Issuer consents to a petition for its winding-up or liquidation by it or by such regulator, supervisor or similar official, provided that proceedings instituted or petitions presented by creditors and not consented to by the Issuer shall not constitute an Event of Default; or

(5) in the case of Secured Notes issued by SG Issuer, a Required Collateral Default Notice is delivered in relation to a Collateral Pool securing such Secured Notes; then

- the Noteholder may give written notice, for Notes issued by SG Issuer or Societe Generale, to the relevant Issuer and the Guarantor (if any) that the Notes are, and they shall accordingly forthwith become, immediately due and repayable at their Early Redemption Amount, together with, if appropriate and subject as otherwise provided herein, interest accrued to the date of repayment.

Mutilated or defaced Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued. Any such notice shall be deemed to have been given on the fourth day after mailing.

13.1.4 All notices to holders of Uncertificated Notes shall be deemed to be validly given if sent by mail to a Noteholder on the address registered for such Noteholder in the system of the relevant central securities depository and clearing institution or in accordance with the legislation, rules and regulations applicable to, and/or issued by, the relevant central securities depository and clearing institution.

Any such notice shall be deemed to have been given, if sent by mail to the Noteholder, on the fourth day following the day the notice was sent by mail.

13.1.5 Notices to be given by any Noteholder (except in the case of Uncertificated Notes) shall be in writing and given by lodging the same, together (in the case of any Note in definitive form) with the relative Note or Notes, with the Principal Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes). Whilst any of the Notes are represented by a Global Note such notice may be given by any Noteholder to the Principal Paying Agent or the Registrar (as applicable) via Euroclear and/or Clearstream, as the case may be, in such manner as the Principal Paying Agent or the Registrar (as applicable) and Euroclear and/or Clearstream and/or DTC, as the case may be, may approve for this purpose.

13.2 Notices regarding SIS Notes and other English Law Notes listed on SIX Swiss Exchange

Unless otherwise specified in the relevant Final Terms, notices regarding SIS Notes may be given by communication through the Principal Swiss Paying Agent to the Intermediary for forwarding to the Noteholders. Any notice so given shall be deemed to have been validly given with the communication to the Intermediary.

So long as SIS Notes, other English Law Notes are listed on SIX Swiss Exchange and so long as the rules of SIX Swiss Exchange so require, all notices in respect of such Notes will also be given without cost to the Noteholders through the Principal Swiss Paying Agent either:

In addition, or as an alternative, notices concerning SIS Notes may be published in a leading daily newspaper (such as, for example, the *Neue Zürcher Zeitung*) having general circulation in Switzerland. Any notice so given shall be deemed to have been validly given on the date of such publication (or, if published more than once, on the date of the first such publication).

13.3 Notices regarding EUI Notes

All notices to EUI Noteholders shall be valid if:

(1) delivered to the address of the EUI Noteholder appearing in the Record by first class post or by hand or, if such address is not in the United Kingdom, by airmail post (such notices to be delivered or sent in accordance with this Condition shall be sent at the risk of the relevant EUI Noteholder); or

(3) for so long as the EUI Notes are listed or admitted to trading on any stock exchange published in accordance with the rules of such stock exchange.

Any such notice shall be deemed to have been given on the second Business Day following, in the case of Condition 13.3(1), such delivery or, in the case of Condition 13.3(2), the date of such publication or, if published more than once, on the date of the first such publication and in the case of Condition 13.3(3) the date of such publication.

13.4 Notices regarding ECF Notes

All notices required to be given to the holders of ECF Notes pursuant to these General Terms and Conditions may be given by delivery of the relevant notice to Euroclear France in substitution for the publication as required by Condition 13.1, except that so long as such Notes are listed on any regulated market or stock exchange(s) or are admitted to trading by a relevant authority and the applicable rules of that regulated market or stock exchange or relevant authority so require, notices shall also be published in a daily financial newspaper with general circulation in the city/ies where the regulated market or other stock exchange(s) on which such Notes are listed.

If any such publication pursuant to this Condition is not practicable, notice shall be validly given if published in a leading daily financial newspaper with general circulation in Europe. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the date of the first publication as provided above.

14. FURTHER ISSUES AND CONSOLIDATION - SUBSCRIPTIONS AND PURCHASES - CANCELLATION

14.1 Further Issues

The Issuer may from time to time, without the consent of the Noteholders create and issue further Notes ranking *pari passu* in all respects and on the same Terms and Conditions (save for their Issue Date, Interest Commencement Date, Issue Price and/or the amount and date of the first payment of interest thereon), and so that the same shall be consolidated and form a single series with the outstanding Notes.

14.2 Consolidation

If the applicable Final Terms specify that clause "*Consolidation*" is "Applicable", the Issuer may from time to time on any Interest Payment Date occurring on or after the date specified for a redenomination of the Notes pursuant to Condition 1.5, on giving not less than 30 days' prior notice to the Noteholders in accordance with Condition 13, without the consent of Noteholders, consolidate the Notes with one or more issues of other Notes issued by it, whether or not originally issued in one of the European national currencies or in Euro, provided such other Notes have been redenominated in Euro (if not originally denominated or payable in Euro) and which otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions as the Notes.

The provisions of this Condition shall not apply to Preference Share Linked Notes or Warrant Linked Notes.

14.3 Subscriptions and Purchases

The Issuer or (if applicable) the Guarantor shall have the right to subscribe and/or to purchase Notes (provided that, in the case of Definitive Bearer Notes, all unmaturing Receipts, Coupons and Talons appertaining thereto are purchased (in the case of Preference Share Linked Notes or Warrant Linked Notes, by the Issuer) therewith) at any price in the open market or otherwise, in accordance with applicable laws and regulations.

In respect of Eligible Notes, any such purchase shall be subject to the prior written permission of the Relevant Resolution Authority and held in accordance with applicable law.

14.4 Cancellation

All Notes purchased for cancellation by or on behalf of the Issuer will forthwith be cancelled (together with, in the case of Definitive Bearer Notes, all unmaturing Receipts, Coupons and Talons appertaining thereto or surrendered therewith). All Notes purchased and cancelled (together with, in the case of Definitive Bearer Notes, all unmaturing Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent (or, in the case of Registered Notes, the Registrar) and cannot be reissued or resold and the obligations of the Issuer or (if applicable) the Guarantor in respect of any such Notes shall be discharged.

In respect of Eligible Notes, any such cancellation shall be subject to the prior written permission of the Relevant Resolution Authority.

15. CALCULATIONS AND DETERMINATIONS - ADJUSTMENTS AND DISRUPTION

With respect to a Type of Structured Notes (as specified in the applicable Final Terms) to which the relevant Additional Terms and Conditions for Structured Notes apply, the Calculation Agent responsible for determining and calculating any rate, rate of interest, interest payable and any amount payable shall be the Calculation Agent specified in the applicable Final Terms (pursuant to the provisions of Condition 11).

Whenever a Calculation Agent is required to make any calculations, determinations, adjustments or act in any way (and unless otherwise provided herein), it will do so in good faith and in a commercially reasonable manner.

The calculations and determinations of the Calculation Agent will be conclusive and binding upon the Issuer, the Guarantor (if any), the Agent, the Noteholders, in the absence of manifest error or proven error.

Following the occurrence of an event giving rise to an adjustment which is substantial in the opinion of the Calculation Agent or of an extraordinary event affecting, in respect of the relevant Additional Terms and Conditions for Structured Notes:

(i) a relevant Underlying, and/or

(ii) a Selected Obligation or a Deliverable Obligation and/or (iii) a Bond,

the Calculation Agent shall notify the Issuer, which shall in its turn notify the Agent and the Noteholders, pursuant to the provisions of Condition 13, of the relevant adjustment made or decision taken by the Calculation Agent. Details of such adjustment made or decision taken can be obtained by the Noteholders upon request at the Calculation Agent's address specified in the applicable Final Terms.

16. MEETINGS OF NOTEHOLDERS

The Agency Agreement contains provisions for convening meetings (including by way of conference call or by use of a video conference platform) of the Noteholders (except holders of the Uncertificated Notes) to consider any matter affecting their interests, including the sanctioning by extraordinary resolution (an **Extraordinary Resolution**) of a modification of the Notes (except Uncertificated Notes), the Receipts, the Coupons or any provisions of the Agency Agreement. Such a meeting may be convened by the Issuer or the Guarantor (if any) at any time or by Noteholders holding not less than 10 per cent. in nominal amount of the Notes for the time being outstanding. The quorum at any such meeting for passing such Extraordinary Resolution is one or more persons holding or representing in the aggregate not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes (including but not limited to modifying the date of maturity of the Notes, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes, or altering the currency of payment of the Notes, Receipts or Coupons modifying of the majority required to pass an Extraordinary Resolution, sanctioning of any scheme or proposal for the exchange or sale of the Notes for, or the conversion of the Notes into, or the cancellation of the Notes in consideration of, shares, stock, notes, bonds, debentures, debenture stock and/or other obligations and/or securities of the Issuer (as further described in the Agency Agreement)), the necessary quorum for passing an Extraordinary Resolution will be one or more persons holding or representing not less than two-thirds, or at any adjourned such meeting not less than one-third, in nominal amount of the Notes for the time being outstanding. The Agency Agreement provides that (i) a resolution passed at a meeting duly convened and held in accordance with the Agency Agreement by a majority consisting of not less than three fourths of the votes cast on such resolution, (ii) a resolution in writing signed by or on behalf of the holders of not less than 90 per cent. in nominal amount of the Notes for the time being outstanding or (iii) consent given by way of electronic consents through the clearing systems (in a form satisfactory to the Principal Paying Agent) by or on behalf of the holders of not less than three fourths in nominal amount of the Notes for the time being outstanding shall, in each case, be effective as an Extraordinary Resolution of the Noteholders. In addition, in respect of Eligible Notes, any proposed modification of any provision of the Notes can only be effected with the prior written permission of the Relevant Resolution Authority. An Extraordinary Resolution passed pursuant to the provisions above at any meeting of the Noteholders in writing or by electronic consents, shall be binding on all Noteholders, whether or not they are present at the meeting, and whether or not they voted on the resolution, and on all Receiptholders and Couponholders.

The Principal Paying Agent, the Issuer and the Guarantor (if any) may agree, without the consent of the Noteholders, to any modification of the Notes or the Agency Agreement which is (i) to cure or correct any ambiguity or defective or inconsistent provision contained therein, or which is of a formal, minor or technical nature or (ii) not materially prejudicial to the interests of the Noteholders (provided the proposed modification does not relate to a matter in respect of which an Extraordinary Resolution would be required if a meeting of Noteholders were held to consider such modification) and subject to, in case of Eligible Notes, any prior written permission of the Relevant Resolution Authority, or (iii) to correct a manifest error or proven error or (iv) to comply with mandatory provisions of the law. Any such modification shall be binding on the Noteholders and any such modification shall be notified to the Noteholders in accordance with Condition 13.

In respect of Uncertificated Notes other than EUI Notes, the Issuer may decide, without the consent of the Noteholders to make (a) any modification (except such modifications in respect of which an increased quorum is required as mentioned above) of the Notes which is not materially prejudicial to the interests of the Noteholders; or (b) any modification of the Notes which is of formal, minor or technical nature or is made to correct a manifest error or proven error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer is incorporated. Any such modification shall be binding on the relevant Noteholders and any such modification shall be notified to such Noteholders in accordance with Condition 13.

The EUI Agency Agreement contains provisions for convening meetings of the EUI Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the EUI Agency Agreement) of a modification of the EUI Notes or any of the provisions of the EUI Agency Agreement. Such a meeting may be convened by the Issuer or the Guarantor.

At least 21 clear days' notice specifying the place, date and hour of the meeting shall be given to the EUI Noteholders. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing in the aggregate not less than 50 per cent. of the EUI Notes for the time being unexercised or outstanding, as the case may be, or at any adjourned meeting one or more persons being or representing EUI Noteholders whatever the number of EUI Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the EUI Notes (including but not limited to modifying the date of maturity of the EUI Notes, reducing or cancelling the amount of principal or the rate of interest payable in respect of the EUI Notes, or altering the currency of payment of the EUI Notes, modifying of the majority required to pass an Extraordinary Resolution, sanctioning of any scheme or proposal for the exchange or sale of the Notes for, or the conversion of the Notes into, or the cancellation of the Notes in consideration of, shares, stock, notes, bonds, debentures, debenture stock and/or other obligations and/or securities of the Issuer (as further described in the EUI Agency Agreement)), the quorum shall be one or more persons holding or representing in the aggregate not less than two-thirds of the EUI Notes for the time being unexercised or outstanding, as the case may be, or at any adjourned such meeting one or more persons holding or representing not less than one-third of the EUI Notes for the time being unexercised or outstanding, as the case may be. In addition, in case of Eligible Notes, any proposed modification of any provision of the Notes can only be effected subject to the prior written permission of the Relevant Resolution Authority. An Extraordinary Resolution passed at any meeting of the EUI Noteholders shall be binding on all the EUI Noteholders, whether or not they are present at the meeting. Resolutions can be passed in writing if passed unanimously.

The EUI Agent and the Issuer may agree, without the consent of the Noteholders, to:

- any modification (except such modifications in respect of which an increased quorum is required as mentioned above) of the EUI Notes or EUI Agency Agreement which is not prejudicial to the interests of the EUI Noteholders and subject to, in case of Eligible Notes, any prior permission of the Relevant Resolution Authority; or
- any modification of the EUI Notes or the EUI Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest or proven error, to cure any ambiguity or to comply with mandatory provisions of law.

Any such modification shall be binding on the EUI Noteholders and any such modification shall be notified to the EUI Noteholders as soon as practicable thereafter, provided that failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

In respect of SG Issuer only, the provisions of articles 470-1 to 470-19 of the Luxembourg Act dated 10 August 1915 on commercial companies, as amended (the **Companies Act 1915**), shall not apply to the Notes. No Noteholders may initiate proceedings against SG Issuer based on article 470-21 of the Companies Act 1915.

17. SUSPENSION OF TRADING AND DELISTING OF NOTES

Notes that are listed on any regulated market or stock exchange(s) or admitted to trading by a relevant authority may be suspended from trading and/or delisted at any time in accordance with applicable rules and regulations of the relevant regulated market or relevant stock exchange(s).

In addition, the Principal Paying Agent, the Issuer and the Guarantor (if any) may agree at any time and without any further consent from the Noteholders to delist Notes listed on the SIX Swiss Exchange by giving notice to the Noteholders in accordance with Condition 13 at least three months prior to the last trading day stating that such Notes will be delisted from the SIX Swiss Exchange and no longer traded on the SIX Swiss Exchange.

18. WAIVER OF SET-OFF

No holder of any Note may at any time exercise or claim any Waived Set-Off Rights against any right, claim, or liability which the Issuer has or may have or acquire against such holder, directly or indirectly, howsoever arising (and, for the avoidance of doubt, including all such rights, claims and liabilities arising under or in relation to any and all agreements or other instruments of any sort or any non-contractual obligations, in each case whether or not relating to the Notes) and each such holder shall be deemed to have waived all Waived Set-Off Rights to the fullest extent permitted by applicable law in relation to all such actual and potential rights, claims and liabilities.

For the avoidance of doubt, nothing in this Condition is intended to provide or shall be construed as acknowledging any right of deduction, set-off, netting, compensation, retention or counterclaim or that any such right is or would be available to any holder of any Note but for this Condition.

For the purposes of this Condition, **Waived Set-Off Rights** means any and all rights of or claims of any holder of any Note for deduction, set-off, netting, compensation, retention or counterclaim arising directly or indirectly under or in connection with any such Note.

19. LIMITED RECOURSE AGAINST SG ISSUER

Each holder of a Note or Notes issued by SG Issuer is deemed to have acknowledged and undertaken, on its acquisition of such Notes, that, in the event of a default by SG Issuer of payment of principal of (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any Final Redemption Amount(s)) on any such Note(s), whenever such payment falls due (such payment defaults, **Defaulted Payments**), such holder shall not institute any proceeding, judicial or otherwise, or otherwise assert a claim against SG Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against the relevant Issuer.

For the avoidance of doubt, such acknowledgement, undertaking and waiver are without prejudice to the holder's rights under the Guarantee and do not alter or impair the Guarantor's obligations under the relevant guarantee and accordingly each holder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Guarantor to enforce any obligation due under the relevant guarantee, including without limitation in respect of any Defaulted Payments, subject in all cases to the terms of the Guarantee.

Such acknowledgement, undertaking and waiver do not alter or impair the rights of the Noteholders to require the enforcement of the relevant Pledge Agreement, pursuant to the provisions of the Additional Terms and Conditions relating to Secured Notes.

20. ACKNOWLEDGMENT OF BAIL-IN AND WRITE DOWN OR CONVERSION POWERS

20.1 Acknowledgement of bail-in and write-down or conversion powers on the relevant Societe Generale's or SG Issuer's Liabilities and of the write-down and conversion of Notes of SG Issuer following the bail-in and write-down and conversion of some Societe Generale's Liabilities

By the acquisition of Notes, each Noteholder (which, for the purposes of this Condition, includes any current or future holder of a beneficial interest in the Notes) acknowledges, accepts, consents and agrees:

(1) to be bound by the effect of the exercise of the Bail-in Power (as defined below) by the Relevant Resolution Authority (as defined below) on Societe Generale's and SG Issuer's liabilities under the Notes, which may include and result in any of the following, or some combination thereof:

(i) the reduction of all, or a portion, of the Amounts Due (as defined below), on a permanent basis;

(ii) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person (and the issue to the Noteholder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Notes, in which case the Noteholder agrees to accept in lieu of its rights under the Notes any such shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person;

(iii) the cancellation of the Notes; and/or

(iv) the amendment or alteration of the maturity of the Notes or amendment of the amount of interest payable on the Notes, or the date on which the interest becomes payable, including by suspending payment for a temporary period; and

that terms of the Notes are subject to, and may be varied, if necessary, to give effect to the exercise of the Bail-in Power by the Relevant Resolution Authority or the regulator.
(the "**Statutory Bail-in**")

and

(2) in respect of Notes issued by SG Issuer, if the Relevant Resolution Authority (as defined below) exercises its Bail-in Power (as defined below) on liabilities of Societe Generale, pursuant to Article L 613-30-3-I-3 of the French Monetary and Financial Code (the **M&F Code**):

(A) ranking:

(i) junior to liabilities of Societe Generale benefitting from statutorily preferred exceptions pursuant to Article L 613-30-3-I 1° and 2 of the M&F Code;

(ii) *pari passu* with liabilities of Societe Generale as defined in Article L.613-30-3-I-3 of the M&F Code; and

(iii) senior to liabilities of Societe Generale as defined in Article L.613-30-3-I-4 of the M&F Code; and

(B) which are not *titres non structurés* as defined under Article R.613-28 of the M&F Code, and

(C) which are not or are no longer eligible to be taken into account for the purposes of the MREL (as defined below) ratio of Societe Generale

and such exercise of the Bail-in Power results in the write-down or cancellation of all, or a portion of, the principal amount of, or the outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or the outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of Societe Generale or another person, including by means of variation to their terms and conditions in order to give effect to such exercise of Bail-in Power, then SG Issuer's obligations under the Notes (other than Secured Notes) will be limited to (i) payment of the amounts of principal and/or interest as reduced or cancelled that would be recoverable by the Noteholders and/or (ii) the delivery or the payment of value of the shares or other securities or other obligations of Societe Generale or another person that would be paid or delivered to the Noteholders as if, in either case, the Notes had been directly issued by Societe Generale itself and any Amount Due under the Notes had accordingly been directly subject to the exercise of the Bail-in Power (the "**Contractual Bail-in**").

20.2 Consequences of the Statutory Bail-in and Contractual Bail-in

No repayment or payment of the Amounts Due will become due and payable or be paid after the exercise of the Statutory Bail-in with respect to the relevant Issuer or the Guarantor unless, at the time such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by the relevant Issuer or the Guarantor under the applicable laws and regulations in effect in France or Luxembourg and the European Union applicable to the relevant Issuer or the Guarantor or other members of its group.

No repayment or payment of the Amounts Due will become due and payable or be paid under the Notes issued by SG Issuer after implementation of the Contractual Bail-in.

Upon the exercise of the Statutory Bail-in or upon implementation of the Contractual Bail-in with respect to the Notes, the relevant Issuer or the Guarantor will provide a written notice to the Noteholders in accordance with Condition 13 as soon as practicable regarding such exercise of the Statutory Bail-in or implementation of the Contractual Bail-in. The relevant Issuer or the Guarantor will also deliver a copy of such notice to the Principal Paying Agent for informational purposes, although the Principal Paying Agent shall not be required to send such notice to Noteholders. Any delay or failure by the relevant Issuer or the Guarantor to give notice shall not affect the validity and enforceability of the Statutory Bail-in or Contractual Bail-in nor the effects on the Notes described above.

Neither a cancellation of the Notes, a reduction, in part or in full, of the Amounts Due, the conversion thereof into another security or obligation of the relevant Issuer or the Guarantor or another person, as a result of the exercise of the Statutory Bail-in or the implementation of the Contractual Bail-in with respect to Notes will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Noteholder to any remedies (including equitable remedies) which are hereby expressly waived.

Upon the exercise of any Statutory Bail-in or the implementation of the Contractual Bail-in, the relevant Issuer, the Guarantor (if any) and each Noteholder (including each holder of a beneficial interest in the Notes) hereby agree that (a) the Principal Paying Agent shall not be required to take any directions from Noteholders, and (b) the Agency Agreement shall impose no duties upon the Principal Paying Agent whatsoever, in each case with respect to the exercise of any Statutory Bail-in or implementation of the Contractual Bail-in.

Notwithstanding the foregoing, if, following the completion of the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in, any Notes remain outstanding (for example, if the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in results in only a partial write-down of the principal of the Notes), then the Principal Paying Agent's duties under the Agency Agreement shall remain applicable with respect to the Notes following such completion to the extent that the relevant Issuer, the Guarantor (if any) and the Principal Paying Agent shall agree pursuant to an amendment to the Agency Agreement.

If in a Statutory Bail-In the Relevant Resolution Authority exercises the Bail-in Power or if the Contractual Bail-in is implemented, with respect to less than the total Amounts Due, unless the Principal Paying Agent is otherwise instructed by the relevant Issuer or the Guarantor or, as the case may be, the Relevant Resolution Authority, any cancellation, write-off or conversion made in respect of the Notes will be (in the case of a Contractual Bail-In) or may be (in the case of a Statutory Bail-in) made on a pro-rata basis.

The matters set forth in this Condition shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Issuer, the Guarantor (if any) and each Noteholder

No expenses necessary for the procedures under this Condition, including, but not limited to, those incurred by the relevant Issuer, the Guarantor (if any) and the Principal Paying Agent, shall be borne by any Noteholder.

In the case of resolution pursuant to the exercise of the Bail-in Power (as defined below) by the Relevant Resolution Authority on Societe Generale's liabilities, the claim on Société Générale with respect to Eligible Structured Notes, will be the amount to be taken into account for the purposes of Article R. 613-46-1 III 2° of the French *Code monétaire et financier*; this amount is fixed or increasing and does not exceed the initially paid-up amount of the liability.

For the purpose of this Condition:

Amounts Due means the prevailing outstanding amounts of the Notes issued by the relevant Issuer, and any accrued and unpaid interest on such Notes, that have not been previously cancelled or otherwise are no longer due.

Bail-in Power means any statutory cancellation, write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms, including but not limited to any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of a European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms, or any other applicable laws or regulations, as amended, or otherwise, pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled, varied or otherwise modified in any way and/or converted into shares or other securities or obligations of the obligor or any other person.

MREL means the Minimum Requirement for own funds and Eligible Liabilities as defined in Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (as amended from time to time).

Relevant Resolution Authority means any authority with the ability to exercise the Bail-in Power on Societe Generale or SG Issuer as the case may be.

21. GOVERNING LAW AND SUBMISSION TO JURISDICTION

21.1 Governing Law

If the applicable Final Terms indicate that the clause "*Governing law*" is "English law":

- the Notes and any non-contractual obligations arising out of or in connection with the Notes will be governed by, and shall be construed in accordance with, English law.

- Uncertificated Notes and any non-contractual obligations arising out of or in connection with these Notes will be governed by, and shall be construed in accordance with, English Law, except in respect of their form, title, transfer, exercise of options and the provisions relating to payments in Condition 1.1.3, 1.2.4, Condition 5.6, 5.7 and 5.9 and Condition 5.17 thereon which shall be governed by the laws, rules and regulations applicable to the relevant central securities depository and clearing institution, being initially Euroclear Sweden, Euroclear Finland, VPS or SIS (or any other clearing institution in Switzerland recognised for such purposes by SIS Swiss Exchange, respectively) or Euroclear France, on which they are respectively admitted or registered.

The Agency Agreement, the EUI Agency Agreement, the Swiss Paying Agency Agreement and the Deed of Covenant and any non-contractual obligations arising out of or in connection with the Agency Agreement, the EUI Agency Agreement, the Swiss Paying Agency Agreement and the Deed of Covenant will be governed by, and shall be construed in accordance with, English law.

The Guarantee and any non-contractual obligations arising out of or in connection with the Guarantee will be governed by, and shall be construed in accordance with, French law.

21.2 Submission to jurisdiction

The Issuer irrevocably agrees that the courts of England are to have jurisdiction to settle any disputes which may arise out of or in connection with the Notes and accordingly submits to the jurisdiction of the courts of England.

The Issuer waives any objection to the courts of England on the grounds that they are an inconvenient or inappropriate forum. To the extent allowed by law, the Noteholders may take any suit, action or proceedings (together referred to as **Proceedings**) arising out of or in connection with the Notes and any non-contractual obligations arising out of or in connection with the Notes against the Issuer in any other court of competent jurisdiction and concurrent Proceedings in any number of jurisdictions.

The Issuer appoints Societe Generale, London Branch (**SGLB**), currently of One Bank Street, Canary Wharf, London E14 4SG, United Kingdom, as its agent for service of process, and undertakes that, in the event of SGLB ceasing so to act or ceasing to be registered in England, it will appoint another person as its agent for service of process in England in respect of any Proceedings. Nothing herein shall affect the right to serve proceedings in any other manner permitted by law.

The Issuer and, where applicable, the Guarantor have in the Agency Agreement, the EUI Agency Agreement and the Deed of Covenant submitted to the jurisdiction of the English courts and appointed an agent for service of process in terms substantially similar to those set out above.

Any claim against the Guarantor in connection with the Guarantee shall be brought before the commercial court of Paris (*Tribunal de Commerce de Paris*).

22. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

The Notes shall not confer any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce or enjoy any term of the Notes, but this does not affect any right or remedy of a third party which may exist or is available apart from that Act.

GENERAL TERMS AND CONDITIONS OF THE FRENCH LAW NOTES

3. LEFT BLANK INTENTIONALLY

4. INTEREST RELATING TO THE NOTES

This Condition 4 shall apply if the applicable Final Terms specify that the clause "Fixed Rate Note Provisions", "Floating Rate Note Provisions", "Structured Interest Note Provisions" and/or "Zero Coupon Notes Provision" is stated as being "Applicable".

For the purpose of this Condition 4, any reference to "Interest Amount" shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount or the Structured Interest Amount (each as defined below) when the context requires.

4.1 Fixed Rate Note Provisions

This Condition 4.1 applies if the applicable Final Terms specify that the clause "*Fixed Rate Note Provisions*" is "Applicable".

The applicable Final Terms contain provisions applicable to the determination of fixed coupon amount (the **Fixed Coupon Amount**) and must be read in conjunction with this Condition 4.1 for full information on the manner in which interest is calculated on Fixed Rate Notes.

In particular, the applicable Final Terms will specify, if applicable, the Interest Commencement Date the Rate(s) of Interest, the Interest Payment Date(s), the Business Day Convention, the Fixed Coupon Amount(s), any applicable Broken Amount(s), Calculation Amount, Day Count Fraction and any applicable Determination Date.

Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms.

In the case of Notes which are Non-exempt Offer to the public and where the Rate(s) of Interest is/are to be determined by reference to a percentage to be published by the Issuer on <http://prospectus.socgen.com>, the applicable Final Terms will specify an indicative value, a minimum value and will indicate the date of publication thereof.

For the purpose of this Condition 4.1:

Fixed Rate Note means a Note which bears one or more fixed rate(s) of interest applicable to the relevant Interest Period which may be either an Adjusted Fixed Rate Note or an Unadjusted Fixed Rate Note.

Adjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date are subject to modification in accordance with the provisions of Condition 4.1.2.

Unadjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date remain, for the purposes of this Condition 4 (and without prejudice to the provisions of Condition 4.3), unchanged and are calculated in accordance with the provisions of Condition 4.1.1.

4.1.1 Unadjusted Fixed Rate Notes

Each Unadjusted Fixed Rate Note bears interest from and including the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date, as specified in the applicable Final Terms.

If the Notes are Definitive Materialised Bearer Notes, the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified (the **Broken Amount**).

Except in the case of Notes which are Definitive Materialised Bearer Notes where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate(s) of Interest specified in the applicable Final Terms to:

- in the case of Fixed Rate Notes which are Dematerialised Notes, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- in the case of Fixed Rate Notes which are Materialised Bearer Notes, the Calculation Amount,

and, in each case, multiplying such amount by the applicable Day Count Fraction (if any), and rounding the resultant figure to the nearest sub-unit (as defined in Condition 4.7 below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards. Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms.

Where the Specified Denomination of a Fixed Rate Note which is a Materialised Bearer Note is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.1.2 Adjusted Fixed Rate Notes

4.1.2.1 Each Adjusted Fixed Rate Note bears interest from and including the Interest Commencement Date specified in the applicable Final Terms, and such interest will be payable in respect of each Interest Period and in arrear on the Interest Payment Date(s) in each year specified in the applicable Final Terms; provided that (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then if the applicable Final Terms specify that the clause "Business Day Convention" is:

"Following Business Day Convention", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or

"Modified Following Business Day Convention", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or

"Preceding Business Day Convention", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day,

and the expression "Interest Payment Date" shall be construed accordingly.

4.1.2.2 The Calculation Agent will calculate the amount of interest (the **Adjusted Fixed Rate Interest Amount**) payable on the Adjusted Fixed Rate Notes for the relevant Interest Period by applying the Rate(s) of Interest to:

(i) in the case of Adjusted Fixed Rate Notes which are Dematerialised Notes, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or

(ii) in the case of Adjusted Fixed Rate Notes which are Materialised Bearer Notes, the Calculation Amount;

and, in each case, multiplying such amount by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of an Adjusted Fixed Rate Note which is a Materialised Bearer Note is a multiple of the Calculation Amount, the Adjusted Fixed Rate Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.2 Floating Rate Note and Reference Rate Note Provisions

This Condition 4.2 applies if (i) the applicable Final Terms specify that the clause "*Floating Rate Note Provisions*" is "Applicable", or (ii) with respect to U.S. Exempt Securities, the applicable Offering Circular specifies that the clause "Floating Rate Note Provisions" is stated as being "Applicable".

The applicable Final Terms contain provisions applicable to the determination of floating coupon amount (the **Floating Coupon Amount**) and must be read in conjunction with this Condition 4.2 for full information on the manner in which interest is calculated on Floating Rate Notes.

In particular, the applicable Final Terms will specify the Floating Coupon Amount(s), the Interest Payment Date(s), the Business Day Convention, the method of determination of the Rate of Interest and Interest Amount, any Margin(s)/Spread(s), any Leverage Factor, any minimum rate of interest (the **Minimum Rate of Interest**) or any maximum rate of interest (the **Maximum Rate of Interest**) (whereby these latter elements may also be specified in the formula for the calculation of the Floating Coupon Amount specified in the applicable Final Terms), and any Day Count Fraction, and any rate multiplier (the **Rate Multiplier**).

In the case of Notes which are Non-exempt Offer to the public and the Floating Coupon Amount is to be determined by reference to one or more component(s) being a percentage to be published by the Issuer on <http://prospectus.socgen.com>, the applicable Final Terms will specify an indicative value, a minimum value, and will indicate the date of publication thereof.

4.2.1 Specified Period(s) and Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in respect of each Interest Period on either:

(1) the Interest Payment Date(s) specified in the applicable Final Terms; or

(2) if no Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Interest Payment Date specified in the applicable Final Terms an **Interest Payment Date**) numerically corresponding to the immediately preceding Interest Payment Date and which falls the number of months or other period(s) (the **Specified Period(s)**) specified in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date (and if no Interest Commencement Date is specified, after the Issue Date).

4.2.2 Floating Coupon Amount

The Floating Coupon Amount payable on the Interest Payment Date(s) in respect of the Floating Rate Notes will be determined by applying the Rate of Interest to the Specified Denomination as specified in the applicable Final Terms.

4.2.3 Rate of Interest

The Rate of Interest in respect of the Floating Rate Notes or Reference Rate Linked Notes as the case may be, will be determined pursuant to the provisions below as specified in the Final Terms.

4.2.3.1 ISDA Determination

If the applicable Final Terms specify that "Method of determination of the Rate of Interest and Interest Amount" is "ISDA Determination", the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the Final Terms) the margin(s) (the **Margin(s)**), (if any), which, for the avoidance of doubt, may be also referred to as the spread(s) (the **Spread(s)**) in the applicable Final Terms multiplied by any leverage factor (the **Leverage Factor**).

For the purposes of this paragraph, **ISDA Rate** for an Interest Period means, subject to the provisions of 4.2.3.5 below, a rate equal to the Floating Rate that would be determined by the Calculation Agent or any other person specified in the Final Terms, under an interest rate swap transaction if the Calculation Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the ISDA Definitions (as defined below) and under which:

- (1) the Floating Rate Option is as specified in the Final Terms;
- (2) the Designated Maturity is a period specified in the Final Terms; and
- (3) the relevant Reset Date is as specified in the Final Terms;

(the "**Hypothetical Swap Transaction**")

For the purposes of this subparagraph, **Floating Rate**, **Calculation Agent**, **Floating Rate Option**, **Designated Maturity**, **Reset Date** and **Euro-zone** have the meanings given to those terms in the 2021 ISDA Interest Rate Derivatives Definitions published by the International Swaps and Derivatives Association, Inc. (the **2021 ISDA Definitions**) and as amended and updated as at the Issue Date of the first Tranche Notes.

Where ISDA Determination is specified in the Final Terms as the "Method of determination of the Rate of Interest and Interest Amount", unless a higher Minimum Rate of Interest is specified in the Final Terms, the Minimum Rate of Interest shall be deemed to be zero.

Except if the provisions of 4.2.3.3 or 4.2.3.4 apply, in the Final Terms, when the paragraph "Floating Rate Option" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Floating Rate Option, one of which shall be determined as if the Designated Maturity were the period of time for which rates are available of next shorter length before the length of the relevant Interest Period, and the other of which shall be determined as if the Designated Maturity were the period of time, for which rates are available of next longer length after the length of the relevant Interest Period.

4.2.3.2 Standard Screen Rate Determination

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is "Standard Screen Rate Determination" or otherwise provide that "Standard Screen Rate Determination" applies, the Rate of Interest for each Interest Period will, subject as provided below, and in Condition 4.2.3.5 below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate *per annum*), for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at the specified time (**Specified Time**) or the Specified Time in the principal financial centre of the jurisdiction of the Relevant Reference Rate on the interest determination date in question (the **Interest Determination Date**) as specified in the Final Terms plus or minus (as indicated in the Final Terms) the Margin or Spread (if any), multiplied by any Leverage Factor, all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if in the case of paragraph (1) above, no such offered quotation appears or, in the case of paragraph (2) above, fewer than three such offered quotations appear, in each case as at the Specified Time, the Calculation Agent shall request the principal office of each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such offered quotations plus or minus (as appropriate) the Margin (if any), and multiplied by any Leverage Factor, all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005

being rounded upwards) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the relevant inter-bank market plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer and the Calculation Agent suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in the relevant inter-bank market (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor.

Where:

Reference Rate(s) means, for the purpose of this Condition 4.2.3.2, as specified in the applicable Final Terms, the deposit rate, the interbank rate, the swap rate or bond yield, as the case may be, which appears on the Relevant Screen Page at the Specified Time on the Interest Determination Date and as determined by the Calculation Agent.

Reference Banks has the meaning given to it, for each Reference Rate, in the 2021 ISDA Definitions as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series. For instance, in case of an EURIBOR rate, the Reference Banks will be the principal Euro-zone office of four major banks in the Euro-zone inter-bank market.

Euro-zone has the meaning given to such term in the 2021 ISDA Definitions.

In the applicable Final Terms, when the clause "*Reference Rate*" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the maturity were the period of time, for which rates are available, of next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the maturity were the period of time, for which rates are available, of next longer than the length of the relevant Interest Period.

4.2.3.3 Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is "Compounded RFR Screen Rate Determination" or "Averaged RFR Screen Rate Determination" or otherwise provide that "Compounded RFR Screen Rate Determination" or "Averaged RFR Screen Rate Determination" applies and the Reference Rate specified in the applicable Final Terms in respect of the Floating Rate Notes or Reference Rate Linked Notes as the case may be, is based on an overnight risk-free rate (such as and without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA, CORRA)(each an **Underlying Benchmark**), the Rate of Interest for each Interest Period will, subject as provided below in 4.2.3.5, be such Reference Rate which is either (i) a Published Compounded RFR or (ii) a Published Averaged RFR, plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards).

For the purposes of Conditions this sub-paragraph, a **Published Compounded RFR** means the relevant Reference Rate as provided by the Administrator to authorised distributors and published at the specified time (the **Specified Time**) on the Relevant Screen Page (each as specified in the applicable Final Terms) and on a date (the **Interest Determination Date**) (specified in the applicable Final Terms or if none is specified, it shall be deemed to be on the 5th Business Day preceding the Interest Payment Date, corresponding to, the rate of return of a daily compound interest investment over a certain period of time (the **Tenor**) calculated in accordance with any one of the RFR Compounding Methods described in 4.2.3.4.1 to 4.2.3.4.4 below (each as specified in the applicable Final Terms).

For the purposes of Conditions this sub-paragraph, a **Published Averaged RFR** means the relevant Reference Rate as provided by the Administrator to authorised distributors and published at the specified time (the **Specified Time**) on the Relevant Screen Page (each as specified in the applicable Final Terms) and on a date (the **Interest Determination Date**) (specified in the applicable Final Terms or if none is specified, it shall be deemed to be on the 5th Business Day preceding the Interest Payment Date), corresponding to the arithmetic average of the Underlying Benchmark as observed over a certain period of time (the **Tenor**) calculated in accordance with any one of the RFR Averaging Methods described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below (each as specified in the applicable Final Terms).

4.2.3.4 Determination of the Rate of Interest based on RFR Compounding Methods and RFR Averaging Methods

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is any of "Compounding with Lookback", "Compounding with Observation Shift", "Compounding with Lockout" or "OIS Compounding" (each a **RFR Compounding Method** and together the **RFR Compounding Methods**), the Rate of Interest for each Interest Period, will subject as provided in 4.2.3.5 below, be equal to (i) the Reference Rate corresponding to the rate of return of a daily compound interest investment over a certain tenor calculated on the basis of an overnight risk-free rate such as without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA or CORRA (each an Underlying Benchmark specified in the applicable Final Terms) in accordance with any one of the **RFR Compounding Methods** described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below, as determined on the relevant Interest Determination Date (each as specified in the Final Terms) (ii) plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor, (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards); or

If the applicable Final Terms specify that the “Method of determination of the Rate of Interest and Interest Amount” is any of “Averaging with Lookback”, “Averaging with Observation Shift”, “Averaging with Lockout” or “Overnight Averaging” (each an **RFR Averaging Method** and together the **RFR Averaging Methods**) the Rate of Interest for each Interest Period, will subject as provided below, be equal to (i) the Reference Rate corresponding to the arithmetic average over a certain tenor of an overnight risk-free rate (such as without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA or CORRA) (each an **Underlying Benchmark** specified in the applicable Final Terms) in accordance with any one of the **RFR Averaging Methods** described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below as determined on the relevant Interest Determination Date (each as specified in the Final Terms) (ii) plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards).

4.2.3.4.1 Lookback

4.2.3.4.1.1 If “Compounding with Lookback” is specified in the applicable Final Terms as the applicable RFR Compounding Method, the Reference Rate is equal to:

$$[\text{Product (i from 1 to } d_0)(1+(\text{Underlying Benchmark Level } i\text{-Lookback } r \text{ ABD} \times n_i) / \text{Day Count Basis}) - 1] \times \text{Day Count Basis} / d$$

4.2.3.4.1.2 If “Averaging with Lookback” is specified in the applicable Final Terms as the applicable RFR Averaging Method, the Reference Rate is equal to:

$$[\text{Sum(for } i \text{ from 1 to } d_0) (\text{Underlying Benchmark Level } i\text{-Lookback } r \text{ ABD})] \times 1/d$$

4.2.3.4.1.3 Definitions for Lookback

d is the number of calendar days in the relevant Interest Period;

d₀ is, for any Interest Period :

- if “Compounding with Lookback” applies: the number of Applicable Business Days in the relevant Interest Period except if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is the number of Applicable Business Days in the relevant Interest Period plus one; or
- if “Averaging with Lookback” applies, the number of calendar days in that Interest Period

Day Count Basis means, if “Compounding with Lookback” applies, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the relevant Reference Rate and which is either 365 or 360;

a. if the first calendar day in the relevant Interest Period is an Applicable Business Day, a series of whole numbers from one to **d₀**, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

b. If the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is a series of whole numbers from 1 to **d₀**, where $i = 1$ represents the first calendar day of the relevant Interest Period, and each of $i = 2$ to **d₀**, represents the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

4.2.3.4.2.3 Definitions for Observation Shift

For the purposes of Conditions 4.2.3.4.2.1 and 4.2.3.4.2.2

"Applicable Business Day" means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the Underlying Benchmark of the relevant Reference Rate;

"d" is the number of calendar days in the relevant Observation Period;

(ii) Temporary Non-Publication with respect to GBP Recommended Rate. If there is a GBP Recommended Rate before the end of the first London Business Day following the Applicable Fallback Effective Date with respect to SONIA but neither the Administrator nor authorised distributors provide or publish the GBP Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the GBP Recommended Rate is required, references to the GBP Recommended Rate will be deemed to be references to the last provided or published GBP Recommended Rate. However, if there is no last provided or published GBP Recommended Rate, then in respect of any day for which the GBP Recommended Rate is required, references to the GBP Recommended Rate will be deemed to be references to the last provided or published SONIA.

(iii) No GBP Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to GBP Recommended Rate.

If:

(a) there is no GBP Recommended Rate before the end of the first London Business Day following the Applicable Fallback Effective Date with respect to SONIA; or

(b) there is a GBP Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SONIA or the Applicable Fallback Effective Date with respect to the GBP Recommended Rate (as applicable) will be the UK Bank Rate.

4. References to the UK Bank Rate. In respect of any day for which the UK Bank Rate is required, references to the UK Bank Rate will be deemed to be references to the last provided or published UK Bank Rate as at close of business in London on that day.

Where:

“GBP Recommended Rate” means, in respect of any relevant day (including any day “i”), the rate (inclusive of any spreads or adjustments) recommended as the replacement for SONIA by (i) the administrator of SONIA if the administrator of SONIA is a national central bank, or (ii) if the national central bank administrator of SONIA does not make a recommendation or the administrator of SONIA is not a national central bank, a committee designated for this purpose by one or both of the Financial Conduct Authority (or any successor thereto) and the Bank of England and as provided by the then Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

4.2.3.5.2.2.5 The Major Underlying Benchmark is TONA

(i) If an Index Cessation Event or Administrator/Benchmark Event with respect to TONA occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.5 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to TONA will be the JPY Recommended Rate.

(ii) Temporary Non-Publication with respect to JPY Recommended Rate. If there is a JPY Recommended Rate before the end of the first Tokyo Business Day following the Applicable Fallback Effective Date with respect to TONA but neither the Administrator nor authorised distributors provide or publish the JPY Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published JPY Recommended Rate. However, if there is no last provided or published JPY Recommended Rate, then in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published TONA.

(iii) No JPY Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to JPY Recommended Rate.

If:

(a) there is no JPY Recommended Rate before the end of the first Tokyo Business Day following the Applicable Fallback Effective Date with respect to TONA; or

(b) there is a JPY Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to TONA or the JPY Recommended Rate (as applicable) will be determined in accordance with the provisions of 4.2.3.5.2.3 below.

"JPY Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for TONA by a committee officially endorsed or convened by the Bank of Japan for the purpose of recommending a replacement for TONA (which rate may be produced by the Bank of Japan or another administrator) and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"Tokyo Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in Tokyo.

Any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 shall be determined by the Calculation Agent.

4.2.3.5.2.3

(A) This provision applies if an Index Event occurs in respect of a Reference Rate or Underlying Benchmark and:

- ISDA Determination applies pursuant to 4.2.3.1 but the Floating Rate Option specified in the Final Terms is not a Floating Rate Option of the ISDA Matrix; or
- Standard Screen Rate Determination applies pursuant to 4.2.3.2 above but the Underlying Benchmark is not a Major Underlying Benchmark; or
- Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to paragraph 4.2.3.3. above but the Underlying Benchmark is not a Major Underlying Benchmark;
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.3.5.2.2.5 above, or
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.4,

then the Issuer shall use its reasonable endeavours to appoint a Rate Determination Agent, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with paragraph (B) below) and, in either case, an Adjustment Spread if any (in accordance with paragraph (C) below) and any Conforming Changes (in accordance with Condition 4.2.3.6 below).

A Rate Determination Agent appointed pursuant to this Condition shall act in good faith in a commercially reasonable manner as an expert and in consultation with the Issuer. In the absence of bad faith or fraud, the Rate Determination Agent shall have no liability whatsoever to the Issuer, the Paying Agents, the Noteholders or the Couponholders for any determination made by it, pursuant to this Condition.

(B) Successor Rate or Alternative Rate

If the Rate Determination Agent determines that:

(i) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3); or

(ii) there is no Successor Rate but there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3).

(C) Adjustment Spread

If an Index Cessation or an Administrator/Benchmark Event has occurred in respect of a Reference Rate or an Underlying Benchmark, and the Calculation Agent in respect of any rate determined pursuant to Condition 4.2.3.5.2.2.1. to Condition 4.2.3.5.2.2.5 or the Rate Determination Agent in respect of a Successor Rate or Alternative Rate determines (i) that an Adjustment Spread is required to be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology

for determining such Adjustment Spread, then such Adjustment Spread shall be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be).

Provided however that :

(y) if an Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, then the Reference Rate or the Underlying Benchmark for the Affected Interest Period shall be determined pursuant to the provisions that would apply to the determination of the Reference Rate or Underlying Benchmark as if no Index Event had occurred;

and

(z) if the Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, and if the Reference Rate or the Underlying Benchmark specified in the applicable Final Terms affected by the Index Event and used to determine the Rate of Interest of an Interest Period is a Term Rate determined before or at the beginning of such Interest Period and pursuant to the application of the provisions above, it will be replaced by a Successor Rate or an Alternative Rate to be determined at the end or just after the end of an Interest Period as the result of the compounding or averaging of an overnight rate, as observed on dates during a period starting on or before the beginning of the Interest Period, as the case may be plus an Adjustment Spread, then the Successor Rate or Alternative Rate shall be used as from the Affected Interest Period and determined at the end or just after such Affected Interest Period.

“Term Rate” means a benchmark that reflects the rate of return in the relevant market for one or more specified periods of time, with the relevant period of time to be specified in the Final Terms as the Designated Maturity or as part of the Floating Rate Option.

If, in respect of Eligible Notes only, the Issuer determines that the replacement of the Reference Rate or Underlying Benchmark with the Replacement Rate and/or any Adjustment Spread and/or any Conforming Changes (as the case may be): (x) would result in the aggregate nominal amount of the Notes being fully or partially excluded from the eligible liabilities available to meet the MREL Requirements or MREL or TLAC Requirements (as called or defined by the then applicable laws and regulations or MREL or TLAC criteria applicable to the Issuer) and hence can trigger a MREL Disqualification Event or a MREL or TLAC Disqualification Event or (y) could reasonably result in the Relevant Resolution Authority treating any future Interest Payment Date as the effective maturity of the Notes, rather than the relevant Maturity Date (for example if the switch to the Replacement Rate would create an incentive to redeem the Notes inconsistent to maintain the regulatory status of Eligible Notes), then the Issuer may decide that no Successor Rate or Alternative Rate, will be adopted and the Reference Rate applicable to the next succeeding Interest Period will be equal to the latest available Reference Rate (based on the sequence of levels of Underlying Benchmark available to determine such latest available Reference Rate, as the case may be) .

If (i) the Issuer is unable to appoint a Rate Determination Agent or (ii) neither the Calculation Agent is able to determine a rate pursuant to Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 nor the Rate Determination Agent appointed by it is able to determine a Successor Rate or an Alternative Rate prior to the relevant Interest Determination Date then the Issuer may decide either that (x) that no Replacement Rate will be adopted and the Reference Rate applicable to the next succeeding Interest Period will be equal to the latest available Reference Rate (based on the sequence of levels of Underlying Benchmark available to determine such latest available Reference Rate, as the case may be) or (y) to apply the provisions of Condition 6.2.2..

4.2.3.6 Conforming Changes

Following the occurrence of an Index Event, the Calculation Agent may make any technical, administrative or operational changes (including without limitation, changes to the determination dates, timing and frequency of determining rates and making payments, rounding of amounts or tenors, the introduction or modification of any time delay or lag between the calculation or observation period of a rate and the related payment dates, the application of a mathematical formula to the Reference Rate or Underlying Benchmark and other administrative matters) that the Calculation Agent decides may be appropriate to reflect the change of Reference Rate or Underlying Benchmark by the Replacement Rate in a manner substantially consistent with the prevailing market practice (or, if the Calculation Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent determines that no market practice for use of the Replacement Rate exists, in such other manner as the Calculation Agent determines is reasonably necessary) and/or in order to adapt solutions provided by the 2021 ISDA Definitions and the ISDA Matrix that are designed for the OTC transactions to the context of the Notes (the **"Conforming Changes"**).

These conforming changes shall be binding upon the Noteholders.

(A) Notices

Any Replacement Rate, Adjustment Spread (if any) and Conforming Changes (if any) determined under this Condition 4.2.3. will be notified promptly by the Issuer, after receiving such information from the Rate Determination Agent or the Calculation Agent, to the Principal Paying Agent, the Calculation Agent, the Paying Agents, and, in accordance with Condition 13, the Noteholders and the Couponholders.

Such notice shall be irrevocable and shall specify the effective date of the Conforming Changes, if any.

Any Replacement Rate, Adjustment Spread (if any) and the Conforming Changes (if any) specified in such notice, will (in the absence of manifest error or bad faith in the determination of the Replacement Rate, the Adjustment Spread (if any) and the Conforming Changes (if any) be final and binding on the Issuer, the Principal Paying Agent, the Calculation Agent, the Paying Agents, the Noteholders and the Couponholders.

(B) Survival of Original Reference Rate

Without prejudice to the obligations of the Issuer under Conditions 4.2.3.5.2.3 and 4.2.3.6, the Original Reference Rate with its Original Underlying Benchmark will continue to apply unless and until these priority fallback provisions fail to provide a means of determining the Rate of Interest.

4.2.3.7 Definitions:

Any such adjustment may take account of, without limitation, any anticipated transfer of economic value as a result of any difference in the term structure or tenor of the Replacement Rate by comparison to the Original Reference Rate or Original Underlying Benchmark. The Adjustment Spread may be positive, negative or zero or determined pursuant to a formula or methodology.

If, for a Reference Rate or Underlying Benchmark, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes an Index Cessation Event or (ii) an Index Cessation Event and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will in either case constitute an Index Cessation Event and will not constitute or give rise to an Administrator/Benchmark Event.

The Calculation Agent will calculate the Interest Amount payable on the Floating Rate Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate(s) of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Floating Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination, as detailed in the applicable Final Terms.

4.2.6 Provisions specific to SHIBOR rate

SHIBOR means the Shanghai Interbank Offered Rate as published on <http://www.shibor.org>, by China Foreign Exchange Trade System & National Interbank Funding Centre under the authorisation of the People's Bank of China, at around 11.30 a.m., Beijing time on each business day, including 8 critical terms, i.e. O/N, 1W, 2W, 1M, 3M, 6M, 9M, 1Y, each representing the rate for the corresponding period.

If the Reference Rate is specified in the applicable Final Terms as SHIBOR, "SHIBOR" will be the rate determined by the Calculation Agent acting by and through its Hong Kong Branch on the following basis:

(i) if, at or around 11:30 a.m. (Beijing time) on the Interest Determination Date, a relevant SHIBOR is published on <http://www.shibor.org>, then the relevant SHIBOR will be that rate; and for the purposes of these General Terms and Conditions, the relevant SHIBOR means SHIBOR in a critical term corresponding to the relevant Interest Period, and

(ii) if for any reason the relevant SHIBOR is not published in respect of a certain Interest Determination Date, the relevant SHIBOR in respect of the business day immediately preceding that Interest Determination Date shall be applied in place thereof.

4.3 Structured Interest Note Provisions

This Condition applies if the applicable Final Terms, specify that the clause "*Structured Interest Note Provisions*" is stated as being "Applicable".

The applicable Final Terms contain provisions applicable to the determination of the Interest Amount and must be read in conjunction with this Condition 4.3 for full information on the manner in which interest is calculated on Structured Notes. In particular, the applicable Final Terms will specify the Interest Commencement Date, the Interest Payment Date(s), the Structured Interest Amount(s), the Business Day Convention and, if applicable, the relevant Day Count Fraction.

4.3.1 Structured Interest Amount(s)

The Structured Interest Amount payable in respect of the Structured Notes shall be determined as follows:

Structured Interest Amount = Specified Denomination multiplied by the Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in the applicable Final Terms.

For the purpose of this Condition:

Product Formula and **Reference of the Product** shall have the meaning given to them, respectively, in the Additional Terms and Conditions relating to Formulae.

4.3.2 Calculation of Interest Amount in respect of Structured Notes

The Calculation Agent will at or as soon as practicable after each time at which the Interest Amount is to be calculated, calculate the Interest Amount for the relevant Interest Period. The Calculation Agent will notify the Principal Paying Agent of the Interest Amount for the relevant Interest Period as soon as practicable after calculating the same (but in no event later than the first Business Day after such calculation).

The Calculation Agent will calculate the Interest Amount payable on the Structured Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated in accordance with the Product Formula as specified in the applicable Final Terms, multiplying such amount by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Structured Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Structured Interest Amount to the Specified Denomination, as detailed in the applicable Final Terms.

4.4 Zero Coupon Notes

This Condition applies if the applicable Final Terms specify that the clause "*Zero Coupon Notes Provisions*" is "Applicable".

The applicable Final Terms will specify the accrual yield (the **Accrual Yield**), the reference price (the **Reference Price**) and the Day Count Fraction in relation to Early Redemption Amounts and late payment (pursuant to the provisions of Conditions 6.5.1 and 6.1.3.7).

Where a Zero Coupon Note becomes due and repayable and is not paid when due, the amount due and repayable (the **Amortised Face Amount**) shall be an amount equal to the sum of :

(A) the Reference Price; and

(B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and notified in accordance with Condition 13, *mutatis mutandis*.

4.5 Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes.

4.6 Accrual of Interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if applicable) from the due date for its redemption unless payment of principal (or, in the case of any Physical Delivery Note, transfer of the Deliverable Asset(s) in respect of the Physical Delivery Amount) is improperly withheld or refused (provided that, in the case of any Physical Delivery Amount, transfer shall not be deemed to have been improperly withheld or refused where such transfer is delayed by reason of circumstances beyond the control of the relevant Issuer or any of its Agents). In such event, interest will continue to be calculated and to accrue until whichever is the earlier of:

(1) the date on which all amounts due in respect of such Note have been paid; and

(2) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

4.7.1.4 if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Preceding Business Day Convention**", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day.

4.7.1.5 Notwithstanding the provisions of Conditions 4.7.1.1, 4.7.1.2, 4.7.1.3 or 4.7.1.4 above, where the applicable Final Terms specify that the relevant Business Day Convention is to be applied on an "**unadjusted**" basis, the Interest Amount payable on any date shall not be affected by the application of such Business Day Convention.

Where any Floating Rate Note, Dual Currency Note, Structured Note or Physical Delivery Note which is settled by way of cash is presented for redemption without all unmatured Coupons appertaining thereto, payment of all amounts due in relation to such Note shall be made only against the provision of such indemnity as the relevant Issuer and, if applicable, the Guarantor may decide.

If the due date for redemption of any Definitive Materialised Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Materialised Bearer Note.

5.14 Currency Unavailability

This Condition shall apply when payment is due to be made in respect of any Note in the Specified Currency and the Specified Currency is not available to the relevant Issuer or the Guarantor (as applicable) due to the imposition of exchange controls, the Specified Currency's replacement or disuse or other circumstances beyond the control of the relevant Issuer or the Guarantor (as applicable) (**Currency Unavailability**).

In the event of Currency Unavailability, the relevant Issuer or the Guarantor (as applicable) will be entitled to satisfy its obligations to the Noteholder by making payment in euro or U.S. dollars on the basis of the spot exchange rate at which the Specified Currency is offered in exchange for euro or U.S. dollars (as applicable) in an appropriate inter-bank market at noon, Paris time, four Business Days prior to the date on which payment is due or, if such spot exchange rate is not available on that date, as of the most recent prior practicable date. Any payment made in euro or U.S. dollars (as applicable) in accordance with this Condition will not constitute an Event of Default.

This Condition shall not apply to Preference Share Linked Notes or Warrant Linked Notes.

5.15 Provisions specific to Renminbi Currency Event

If "Renminbi Currency Event" is specified in the applicable Final Terms and a Renminbi Currency Event, as determined by the Calculation Agent, exists on a date for payment of any amount in respect of any Note, the Issuer may determine one or more of the following, and require the Calculation Agent to take such action or make such determination accordingly:

- (a) the relevant payment of the Issuer be postponed to 10 Business Days after the date on which the Renminbi Currency Event ceases to exist or, if that would not be possible (as determined by the Issuer acting in good faith) as soon as reasonably practicable thereafter;
- (b) that the Issuer's obligation to make a payment in Renminbi under the terms of the Notes be replaced by an obligation to pay such amount in the Relevant Currency (converted at the Alternate Settlement Rate determined by the Calculation Agent as of a time selected in good faith by the Calculation Agent); and/or
- (c) the Issuer may redeem all, but not some only, of the Notes, each Note being redeemed at its Early Redemption Amount.

Upon the occurrence of a Renminbi Currency Event, the Issuer shall give notice, as soon as practicable, to the Noteholders in accordance with the Condition 13 stating the occurrence of the Renminbi Currency Event, giving brief details thereof and the action proposed to be taken in relation thereto.

For the purpose of this Condition:

Alternate Settlement Rate means the spot rate between Renminbi and the Relevant Currency determined by the Calculation Agent, taking into consideration all available information which the Calculation Agent deems relevant (including, but not limited to, the pricing

information obtained from the Renminbi non-deliverable market outside the PRC and/or the Renminbi exchange market inside the PRC).

Renminbi Currency Event means any one of Renminbi Illiquidity, Renminbi Non-Transferability and Renminbi Inconvertibility.

Renminbi Illiquidity means the general Renminbi exchange market in Hong Kong becomes illiquid as a result of which the Issuer and/or any of its affiliates cannot obtain sufficient Renminbi in order to make a payment or perform any other of its obligations under the Notes, as determined by the Calculation Agent in good faith and in a commercially reasonable manner.

Renminbi Inconvertibility means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to convert any amount into or from Renminbi as may be required to be paid by the Issuer under the Notes on any payment date or such other amount as may be determined by the Calculation Agent at the general Renminbi exchange market in Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of the Issuer and/or the relevant affiliate to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date of the first Tranche of the relevant Series of Notes and it is impossible or, having used its reasonable endeavours, impractical, for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer or the relevant affiliate, to comply with such law, rule or regulation).

Renminbi Non-Transferability means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to deliver Renminbi between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of the Issuer and/or the relevant affiliate to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible or, having used its reasonable endeavours, impractical, for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer and/or the relevant affiliate, to comply with such law, rule or regulation).

Governmental Authority means any *de facto* or *de jure* government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Hong Kong.

Relevant Currency means U.S. dollars, Hong Kong Dollars or such other currency as specified in the applicable Final Terms.

5.16 Provisions specific to Dual Currency Notes

Amounts payable in respect of payment of principal and/or interest, if any, in respect of Dual Currency Notes, shall be determined by the Calculation Agent by converting the relevant amounts in the relevant Specified Currency into the Settlement Currency at the relevant fixing of Dual Currency Exchange Rate.

The method of determining the fixing of Dual Currency Exchange Rate will be specified in the applicable Final Terms and may be one of the following methods:

(1) if "Predetermined" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the Calculation Agent shall use the Predetermined Fixing as the fixing of Dual Currency Exchange Rate to convert the relevant amount(s);

(2) if "Screen Rate Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be the relevant exchange rate fixing specified on the Relevant Screen Page at the Dual Currency Valuation Time on the Dual Currency Valuation Date;

(3) if "Calculation Agent Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be determined by the Calculation Agent by reference to such sources it deems appropriate, at the Dual Currency Valuation Time on the Dual Currency Valuation Date.

Notwithstanding any of the above, upon a Dual Currency Disruption Event occurring or continuing on any Dual Currency Valuation Date as determined by the Calculation Agent, the Calculation Agent shall:

(a) determine that the Dual Currency Valuation Date shall be the first succeeding Dual Currency Scheduled Trading Day that is not a Dual Currency Disrupted Day unless each of the eight Dual Currency Scheduled Trading Days immediately following the scheduled Dual Currency Valuation Date is also a Dual Currency Disrupted Day. In that case that eighth Dual Currency Scheduled Trading Day shall be deemed to be the Dual Currency Valuation Date notwithstanding the fact that such day is a Dual Currency Disrupted Day, and the Calculation Agent shall determine its good faith estimate of the fixing of the Dual Currency Exchange Rate as of the Dual Currency Valuation Time on that eighth Dual Currency Scheduled Trading Day and the good faith estimate of the fixing so calculated shall be deemed the fixing of Dual Currency Exchange Rate; and/or

(b) postpone any payment date related to such Dual Currency Valuation Date (including, if applicable, the Maturity Date) until the second Business Day following the date on which a Dual Currency Disruption Event is no longer subsisting, or the date on which the Calculation Agent determines its good faith estimate of the fixing of the Dual Currency Exchange Rate pursuant to the provisions of paragraph (a) above, as the case may be. No interest or other amount shall be paid by the Issuer in respect of such postponement.

provided however that, all references to the word "second" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purpose of this Condition:

Clearing System means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

Settlement Currency means the currency or currencies specified as such in the applicable Final Terms. The applicable Final Terms may specify that the Settlement Currency may vary depending on the occurrence of different scenarios described in the applicable Final Terms;

Dual Currency Disrupted Day means any Dual Currency Scheduled Trading Day on which the Calculation Agent determines that a Dual Currency Disruption Event has occurred;

Dual Currency Disruption Event means the occurrence or existence of (a) a Price Source Disruption, (b) an Illiquidity Disruption, (c) a Dual Exchange Rate or (d) any other event that, in the opinion of the Calculation Agent, is analogous to (a), (b) or (c). For the purpose hereof:

(a) Price Source Disruption means that it becomes impossible to obtain the rate or rates from which the Dual Currency Exchange Rate is calculated;

(b) Illiquidity Disruption means the occurrence of any event in respect of the Specified Currency and/or Settlement Currency whereby it becomes impossible for the Calculation Agent to obtain a firm quote for such currency in an amount deemed necessary by the Calculation Agent to hedge its obligations under the Notes (in one or more transaction(s)) on any Dual Currency Valuation Date; and

(c) Dual Exchange Rate means that the Dual Currency Exchange Rate splits into dual or multiple foreign exchange rates.

Dual Currency Exchange Rate means an exchange rate expressed as X/Y (X and Y are currencies) and specified as such in the applicable Final Terms. For the avoidance of doubt, an exchange rate expressed as X/Y means the number of units (or part units) of Y for which one unit of X can be exchanged.

Dual Currency Scheduled Trading Day means a day on which commercial banks are open (or, but for the occurrence of a Dual Currency Disruption Event would have been open) for business (including dealings in foreign exchange in accordance with the market practice of the foreign exchange market) in the principal financial centres of the Dual Currency Exchange Rate.

5.17 Physical Delivery Notes

If the applicable Final Terms specify that "*Physical Delivery Provisions*" is "Applicable", this Condition applies.

In particular, the applicable Final Terms will specify the Deliverable Asset(s), the Physical Delivery Amount, the provisions governing whether transfer of Deliverable Asset(s) or payment of a cash sum will apply, the Issuer's option to vary method of settlement and the method of transfer of Deliverable Asset(s) in respect of the Physical Delivery Amount.

For the purposes of this Condition:

Deliverable Asset(s) means the deliverable asset(s) which may be either:

(i) the Underlying(s) of the Notes specified under the paragraph "Underlying(s)" in the applicable Final Terms, which may be any Underlying as defined in the Additional Terms and Conditions for Structured Notes or

(ii) if different from the Underlying(s) of the Notes, a share, an American or global depositary receipt and/or an exchange traded fund and/or a fund and/or an exchange traded product and/or a bond and/or a preference share and/or a warrant and/or a future, and/or any other assets specified under the paragraph "Deliverable Asset(s)" in the applicable Final Terms, in such case the provisions of the Additional Terms and Conditions relating to such Underlying shall apply, or in the case of Credit Linked Notes, the "Specified Deliverable Obligation(s)" subject to the provisions of the Additional Terms and Conditions for Credit Linked Notes.

However,

(a) no share in Societe Generale or the Group will be deliverable. If a Share in Societe Generale or the Group should be delivered, such share will be replaced by, in due proportion, an equivalent amount in cash; and

(b) no Fund Unit in respect of any underlying fund which is a hedge fund will be delivered to retail investors.

Physical Delivery Amount means an amount determined and calculated in the manner described in the applicable Final Terms.

Any reference in these General Terms and Conditions to "Physical Delivery Amount(s)", shall mean such amount less any expenses, fees, stamp duty, levies or other amounts including, but not limited to, any taxes or duties arising from the delivery or transfer of Deliverable Asset(s) payable on or in respect of such Physical Delivery Amount(s).

5.17.1 Method of transfer of Deliverable Asset(s) in respect of Physical Delivery Amount

When the settlement of a Physical Delivery Note is by way of physical delivery, the delivery of any Physical Delivery Amount (including, without limitation, liability for the costs of transfer of Deliverable Asset(s)) will be made through Clearstream or Euroclear or other relevant Clearing System.

The Deliverable Asset(s) will be delivered at the risk of the relevant Noteholders in such manner as may be specified in the transfer notice pursuant to which such Deliverable Assets are delivered (the **Transfer Notice**), the form of which is annexed to the French Law Agency Agreement and, notwithstanding Condition 2, no additional payment or delivery will be due to a Noteholder where any Deliverable Asset(s) is/are delivered after their due date in circumstances beyond the control of either the Issuer or the Settlement Agent. The Transfer Notice will be delivered using the transfer procedures currently utilised by the relevant Clearing System.

A Noteholder's entitlement to any Physical Delivery Amount will be evidenced:

(i) by the Noteholder's account balance appearing on the records of the relevant Clearing System,

(ii) in the case of Credit Linked Notes by the account balances appearing in the records of the relevant Clearing System or, if necessary, the number of Notes held by each Noteholder as notified to the Principal Paying Agent by the relevant Clearing System, and

(iii) in the case of Dematerialised Notes in fully registered form, by the entries maintained at the relevant time on the Register maintained by the Registration Agent.

When Notes are held in a Clearing System, to the extent that a beneficial Noteholder holds such Notes through a custodian, the Issuer may in its discretion (and subject to obtaining such proof, evidence and/or indemnity arrangements as it deems appropriate) take account of such custodial arrangements when determining where to deliver Deliverable Asset(s) which form the Physical Delivery Amount.

Any delivery of Deliverable Assets will only be made in compliance with applicable securities laws.

5.17.2 Issuer's option to vary method of settlement

When the applicable Final Terms specify that "*Issuer's option to vary method of settlement*" is applicable, the Issuer may elect to pay or cause to be paid to the Noteholder the Final Redemption Amount on the Maturity Date in lieu of its obligation to deliver or procure delivery of the Physical Delivery Amount. Notification of any such election will be given to the Noteholder in accordance with Condition 13.

5.17.3 No obligations in relation to underlying asset

Except as expressly provided, the purchase of Notes does not confer on any Noteholder any rights (whether in respect of voting, distributions or otherwise) attached to any Underlying.

The Issuer shall be under no obligation to register or procure the registration of any Noteholder or any other person as the registered holder in respect of any relevant asset(s) comprised in any Physical Delivery Amount in any relevant register.

For such period of time after the Maturity Date as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of any asset(s) comprised in any assets comprising the Physical Delivery Amount (or equivalent amounts in circumstances where the Notes are subject to early redemption, purchase or cancellation) (the **Intervening Period**), neither the Issuer nor any other such person shall (a) be under any obligation to deliver or procure delivery to the relevant Noteholder or any subsequent beneficial owner of such asset(s) or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such asset(s), (b) be under any obligation to exercise or procure exercise of any or all rights (including any voting rights) attaching to such asset(s) during the Intervening Period or (c) be under any liability to the relevant Noteholder or any subsequent beneficial owner of such asset(s) or any other person in respect of any loss or damage which the relevant Noteholder or subsequent beneficial owner or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any other such person being the legal owner of such asset(s) during such Intervening Period.

5.17.4 Settlement Disruption Event

If a Settlement Disruption Event does prevent delivery of the Physical Delivery Amount on the Maturity Date, then such delivery shall occur on the first succeeding day on which delivery of the Physical Delivery Amount can take place through the relevant Clearing System (the **Actual Settlement Date**) unless a Settlement Disruption Event prevents delivery for a period of 20 Clearing System Days immediately following the original date that would have been the Actual Settlement Date (the **Delivery Period**). In that latter case, the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the fair market value of the number of Deliverable Asset(s) to be delivered (the **Fair Market Value**) converted into the Specified Currency at the current exchange rate, if applicable.

The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Delivery Period:

(a) if a dividend is paid in respect of the Deliverable Asset(s) from and including the Valuation Date to and, as the case may be, (i) excluding the Delivery Date or (ii) including, in the event of a Settlement Disruption Event, the date on which the Fair Market Value is calculated, then, the net dividend amount relating to the number of Deliverable Asset(s) to be delivered per Note (excluding any related tax credit) converted into the Specified Currency at the current exchange rate, if applicable, will be paid in cash to the Noteholder as soon as practicable; and

(b) all stamp duties, or other similar taxes and/or duties, in respect of physical delivery of Deliverable Asset(s) shall be borne by the Noteholders.

Provided that in the case of Credit Linked Notes, upon the occurrence of a Settlement Disruption Event, the relevant Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the Cash Redemption Amount per Undeliverable Obligations (as defined in the Additional Terms and Conditions for Credit Linked Notes) to be delivered converted into the Specified Currency at the current exchange rate, if applicable.

For the purposes of this Condition:

Clearing System Day means, in respect of a Clearing System, any day on which such Clearing System is open for the acceptance and execution of settlement instructions.

Delivery Date means, as the case may be, (a) the Maturity Date or (b) in the event of a Settlement Disruption Event, the Actual Settlement Date.

Settlement Disruption Event means any event beyond the control of the Issuer as a result of which the relevant Clearing System cannot clear the transfer of the Physical Delivery Amount.

Any Notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to such Note in the event that, prior to the giving of such Notice by the Issuer, the Noteholder had already delivered a Put Notice in relation to that Note in accordance with Condition 6.1.3.1.2.

6.1.3.7 Late Payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note, except for Registered Notes, pursuant to Condition 6 or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as per Condition 4.4 with references therein to the date fixed for the redemption or the date upon which the Zero Coupon Note becomes due and repayable replaced by references to the date which is the earlier of:

Except as otherwise specified in this Condition 6.2, if a Special Event, as defined in this Condition, occurs in respect of a Series of Notes on or after the Issue Date of the first Tranche of the Series of Notes, the Issuer or the Guarantor (as applicable) and in respect of Eligible Notes, subject to the prior written permission of the Relevant Resolution Authority, may by notice to the Principal Paying Agent and to the Noteholders, elect that the Notes shall be redeemed early on the fourteenth (14th) calendar day after the delivery by the Issuer (or the Guarantor, as applicable) of the applicable notice of early redemption (the **Early Redemption Date**), in accordance with this Condition.

Preference Share Linked Notes and Warrant Linked Notes shall be redeemed at their Early Redemption Amount, as defined in the Additional Terms and Conditions for the relevant Notes.

Notes other than Preference Share Linked Notes and Warrant Linked Notes will be redeemed as further described in this Condition.

For the purposes of this Condition:

Administrator/Benchmark Event has the meaning given to it in Condition 4.2.3.7.

Change in Law means (i) the adoption, enactment, promulgation, execution or ratification of any applicable new law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) after the Issue Date of the Notes, (ii) the implementation or application of any applicable law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) already in force on the Issue Date of the Notes but in respect of which the manner of its implementation or application was not known or unclear at the Issue Date, or (iii) the change of any applicable law, regulation or rule existing at the Issue Date of the Notes, or the change in the interpretation or application or practice relating thereto, existing on the Issue Date of the Notes of any applicable law, regulation or rule, by any competent court, tribunal, regulatory authority or any other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government (including any additional or alternative court, tribunal, authority or entity, to that existing on the Issue Date).

Early Redemption of the Notes means the redemption of the Notes, in whole, but not in part, at any time (in the case of Notes other than Floating Rate Notes or any other interest bearing Notes in respect of which the Rate of Interest is not calculated on a fixed rate basis (Structured Interest Notes)) or on any Interest Payment Date (in the case of Floating Rate Notes or Structured Interest Notes) at the Early Redemption Amount referred to in Condition 6.3, together (if appropriate) with accrued interest to (but excluding) the date of redemption provided that in respect of Preference Share Linked Notes or Warrant Linked Notes, the redemption of the Notes shall be at the relevant Early Redemption Amount as defined in the Additional Terms and Conditions for the relevant Notes.

Monetisation with Early Redemption at the option of the Noteholder means that the Issuer will apply "Monetisation until the Maturity Date" in accordance with Condition 6.5 but will also offer the Noteholders the option of having their Notes redeemed prior to the Maturity Date in whole (but not in part). If a Noteholder requires the Issuer to redeem such Notes, the Issuer shall terminate its obligations under such Notes and shall pay or cause to be paid an Early Redemption Amount determined on the basis of Market Value as defined in Condition 6.3.

MREL or TLAC Disqualification Event means a change in the classification of the Eligible Non Structured Notes under the MREL or TLAC Requirements, that was not reasonably foreseeable by Société Générale at the Issue Date of such Notes, and that would be likely to result in or has resulted in the Eligible Non Structured Notes being fully or partially excluded from the eligible liabilities

available to meet the MREL or TLAC Requirements (as named or defined by the then applicable laws and regulations or MREL or TLAC criteria applicable to the Issuer). For the avoidance of doubt, the exclusion of a Series of Eligible Non Structured Notes from the eligible liabilities available to meet the MREL or TLAC Requirements due to the remaining term of such Notes being less than any period prescribed thereunder does not constitute a MREL or TLAC Disqualification Event.

MREL Disqualification Event means a change in the classification of the Eligible Structured Notes under the MREL Requirements, that was not reasonably foreseeable by Société Générale at the Issue Date of such Notes, and that would be likely to result in or has resulted in the Eligible Structured Notes being fully or partially excluded from the eligible liabilities available to meet the MREL Requirements (as named or defined by the then applicable laws and regulations or MREL criteria applicable to the Issuer). For the avoidance of doubt, the exclusion of a Series of Eligible Structured Notes from the eligible liabilities available to meet the MREL Requirements due to the remaining term of such Notes being less than any period prescribed thereunder, does not constitute a MREL Disqualification Event.

Regulatory Event means, following the occurrence of a Change in Law with respect to the Issuer and/or Societe Generale as Guarantor or in any other capacity (including without limitation as market maker of the Notes or direct or indirect shareholder or sponsor of the Issuer) or any of its affiliates involved in the issue of the Notes (hereafter the **Relevant Affiliates** and each of the Issuer, Societe Generale and the Relevant Affiliates, a **Relevant Entity**) that, after the Issue Date of the Notes, (i) any Relevant Entity would incur a materially increased (as compared with circumstances existing prior to such event) amount of tax, duty, liability, penalty, expense, fee, cost or regulatory capital charge however defined or collateral requirements for performing its obligations under the Notes, including, without limitations, due to clearing requirements of, or the absence of, clearing of the transactions entered into in connection with the issue of the Notes, (ii) the Relevant Entity would be required to obtain any licence, authorization, approval, permit, registration from any governmental, inter-governmental, supranational authority, agency, instrumentality, ministry or department thereof that it does not hold as of the Issue Date or to modify its by-laws to comply with the new requirements (a) to hold, acquire, issue, reissue, substitute, maintain, redeem, settle or as the case may be, guarantee, the Notes, (b) to acquire, hold, sponsor or dispose of any asset(s) (or any interests therein) of any other transaction(s) such Relevant Entity may use in connection with the issue of the Notes, (c) to perform obligations in connection with, the Notes or any contractual arrangement entered into between the Issuer and Societe Generale or any Relevant Affiliate or (d) to hold, acquire, maintain, increase, substitute or redeem all or a substantial part of its direct or indirect shareholding in the Issuer's capital or the capital of any Relevant Affiliate or to directly or indirectly sponsor the Issuer or any Relevant Affiliate, or (iii) there is or may be a material adverse effect on a Relevant Entity in connection with the issue of the Notes.

Relevant Notice means a notice given in accordance with Condition 13 (i) not less than 30 nor more than 45 days, in respect of a Tax Event, a Regulatory Event or a Force Majeure Event, (ii) not less than 7 nor more than 45 days in respect of a Special Tax Event, to the Noteholders (which notice shall be irrevocable) and to the Principal Paying Agent.

Special Tax Event means that the Issuer or, as the case may be, the Guarantor would, on the occasion of the next payment (including payment of principal or interest, if any) or delivery in respect of the Notes, be prevented by the law of a Tax Jurisdiction (as defined in Condition 7) from causing payment or delivery, as the case may be, to be made to the Noteholders of the full amount then due and payable or deliverable, as the case may be, notwithstanding the undertaking to pay additional amounts contained in Condition 7.2.

Tax Event means that (i) the Issuer or, as the case may be, the Guarantor, has or will become obliged to pay additional amounts as provided or referred to in Condition 7 as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 7) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date of the first Tranche of the Notes, and (ii) such obligation cannot be avoided by the Issuer or, as the case may be, the Guarantor taking reasonable measures available to it.

A Tax Event, Special Tax Event, Regulatory Event or Force Majeure Event are each an **Exceptional Event** and together the **Exceptional Events**.

6.2.1 Redemption for Tax Event, Special Tax Event, Regulatory Event (except for Eligible Non Structured Notes), Force Majeure (except for Eligible Non Structured Notes) or Event or Event of Default (except for Eligible Notes)

If the applicable Final Terms specify:

(a) "Early Redemption"

then, upon the occurrence of an Exceptional Event, the Calculation Agent may, on giving a Relevant Notice, apply Early Redemption of the Notes as defined above, or

(b) "Early Redemption or Monetisation until the Maturity Date",

then, upon the occurrence of a Tax Event, Special Tax Event or Regulatory Event, the Calculation Agent may, on giving a Relevant Notice, decide to apply either:

(i) Early Redemption of the Notes, or

(ii) "Monetisation until the Maturity Date" in accordance with Condition 6.5,

and upon the occurrence of a Force Majeure Event or Event of Default (unless the applicable Final Terms specify that Event of Default is not applicable) and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes, or

(c) "Monetisation with Early Redemption at the option of the Noteholders, except for Force Majeure Event or Event of Default",

then, upon the occurrence of a Tax Event, Special Tax Event or Regulatory Event, the Calculation Agent may, on giving a Relevant Notice, apply Monetisation with Early Redemption at the option of the Noteholder as defined above, and

upon the occurrence of a Force Majeure Event or Event of Default (unless the applicable Final Terms specify that Event of Default is not applicable) and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes.

If following the occurrence of Tax Event or Special Tax Event, Early Redemption of the Notes does not apply (in accordance with (b) or (c) above), then Condition 7.2 "Gross-up" will not apply.

If the applicable Final Terms specify that Tax Event or Special Tax Event is not applicable, then in case of occurrence of a Tax Event or Special Tax Event the Notes will remain unchanged.

6.2.2 Redemption upon the occurrence of an Administrator/Benchmark Event (except for Eligible Non Structured Notes)

This Condition applies if the applicable Final Terms specify that "EU Benchmarks Regulation - Benchmark" is "Applicable".

Upon the occurrence or likely occurrence, as determined by the Calculation Agent, of an Administrator/Benchmark Event in case of Floating Rate Notes as described in Condition 4.2.3.1 above, on or after the Issue Date and if the Calculation Agent has not been able to determine a Replacement Benchmark and as the case may be an Adjustment Spread in accordance with the provisions of Condition 4.2.3.5.2 above, then the Calculation Agent, acting in good faith, may either:

(i) consider such event as an event triggering an early redemption of the Notes (hereafter, an Early Redemption Event). In that case, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount based on the Market Value as defined in Condition 6.3 below; or

(ii) apply Monetisation until the Maturity Date (as defined in Condition 6.5 below).

6.2.3 Trigger redemption at the option of the Issuer

If the applicable Final Terms specify that "*Trigger redemption at the option of the Issuer*" is "Applicable", then in the event that at any time during the life of the Notes and for any reason whatsoever, the Aggregate Outstanding Nominal Amount of the Notes equals or falls below the Outstanding Amount Trigger Level, the Issuer shall have the option, subject to any applicable law and regulation, and in the case of Eligible Notes, subject to the prior written permission of the Relevant Resolution Authority, to redeem all (but not some only) of the remaining outstanding Notes at the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 upon giving not less than fifteen (15) Business Days' notice to the Noteholders (in accordance with Condition 13) specifying that the Outstanding Amount Trigger Level has been reached.

For the purposes of this Condition:

Aggregate Outstanding Nominal Amount means, at any time, the product of (a) the Specified Denomination and (b) the number of Notes outstanding held at such time by Noteholders other than Societe Generale or its affiliates for their own account as determined in good faith by the Principal Paying Agent in consultation with the clearing institution(s) in or through which the Notes are held and transactions in such Notes are cleared.

Outstanding Amount Trigger Level means 10% of the Aggregate Nominal Amount of the Notes initially issued or, if different from 10%, the level specified as such in the applicable Final Terms.

6.2.4 Redemption or forced transfer of Registered Notes (except for Eligible Non Structured Notes)

Any transfer or other disposition of any legal or beneficial ownership interest in a Non-U.S. Registered Note to a person that is not a Permitted Transferee will be void *ab initio* and of no legal effect whatsoever. Any purported transferee of any legal or beneficial ownership interest in a Non-U.S. Registered Note in such a transaction will not be entitled to any rights as a legal or beneficial owner of such interest in such a Non-U.S. Registered Note. If the Issuer determines at any time that a holder of a Non-U.S. Registered Note (i) is a person that is not a Permitted Transferee, or (ii) purchased such Non-U.S. Registered Note in breach of the deemed or actual representations given by such Noteholder upon the purchase of such Non-U.S. Registered Note, the Issuer may (a) redeem such Non-U.S. Registered Note at the Early Redemption Amount, or (b) direct such Noteholder to sell or transfer its Non-U.S. Registered Note to a Permitted Transferee in an offshore transaction meeting the requirements of Regulation S within 30 days following receipt of such notice, and if such Noteholder fails to sell or transfer its Non-U.S. Registered Note within such 30 day period, the Issuer may transfer or sell such Non-U.S. Registered Note on behalf of such Noteholder.

No payments will be made on the affected Notes from the date notice of the sale requirement is sent to the date on which the affected Notes are sold.

There can be no assurance that a Noteholder, or an interest therein, who is required to sell Notes, or whose Notes are sold on his behalf (pursuant to this Condition) will not incur a significant loss as a result of the need for the relevant Issuer, or for the transferor, to find a qualifying transferee willing to purchase the Notes. Neither the relevant Issuer, the Guarantor (if applicable) nor any other party shall be liable to a Noteholder for any such loss.

6.2.5 Redemption for a MREL or TLAC Disqualification Event (for Eligible Non Structured Notes) or MREL Disqualification Event (for Eligible Structured Notes)

Upon the occurrence of a MREL or TLAC Disqualification Event in respect of Eligible Non Structured Notes or a MREL Disqualification Event in respect of Eligible Structured Notes, the Issuer may, at any time, at its option (subject to the prior written permission of the Relevant Resolution Authority) and having given not less than thirty (30) nor more than forty-five (45) calendar days' prior irrevocable notice to the Principal Paying Agent, the Noteholders and the Couponholders, in accordance with Condition 13, redeem the outstanding Notes in whole but not in part at their Early Redemption Amount specified in the applicable Final Terms, together, if appropriate, with accrued interest to (but excluding) the date of redemption.

- (2) in the case of Notes (other than Zero Coupon Notes) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount determined and calculated pursuant the provisions of Condition 5.1; or
- (3) in the case of Notes with an Early Redemption Amount specified as Market Value in the applicable Final Terms:
 - (i) at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Notes, shall represent the fair market value of the Notes and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; or
 - (ii) in case of EU Allowance Notes only, at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Notes, shall represent the fair market value of the Notes, shall take into account the relevant Spread Value(t) and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; the Market Value may be less than the market value of a Societe Generale vanilla bond having the same coupon and maturity as these Notes; or
- (4) in the case of Physical Delivery Notes, at the Physical Delivery Amount specified in the applicable Final Terms; or
- (5) in the case of Zero Coupon Notes, at the Amortised Face Amount; or

For the avoidance of doubt, for the purpose of calculating the Market Value following an Event of Default pursuant to Condition 9 only, no account shall be taken of the creditworthiness of:

- (i) the Issuer, which shall be deemed to be able to perform fully its obligations in respect of the Notes;
- (ii) the Guarantor, which shall be deemed to be able to perform fully its obligations under the Guarantee;

in respect of Notes bearing interest, notwithstanding anything to the contrary in these Conditions, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this paragraph shall include any accrued interest to (but excluding) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer or, as the case may be, the Guarantor in respect of such redemption. Where such calculation is to be made for a period of less than a full year, it shall be made on the basis of the Day Count Fraction, if applicable, as specified in the applicable Final Terms.

Pursuant to Article L.228-85 of the French *Code de commerce*, in the absence of such appointment of a nominee, the judicial representative (*mandataire judiciaire*), at its own initiative or at the request of any Noteholder will ask the court to appoint a representative of the Noteholders who will file the proof of Noteholders' claim; and

(K) to deliberate on any other matter that relates to the common rights, actions and benefits which now or in the future may accrue with respect to the Notes.

it being specified, however, that a General Meeting may not establish any unequal treatment between the Noteholders, and that the above provisions (in particular under (H) above) are without prejudice to the powers of the *Autorité de Contrôle Prudentiel et de Résolution*, the Single Resolution Board established pursuant to Regulation (EU) No 806/2014, or any other authority having resolution powers over the Issuer, and in addition, in respect of Eligible Notes, any proposed modification of any provision of the Notes can only be effected subject to the prior written permission of the Relevant Resolution Authority,

provided that the special quorum provisions in paragraph (vii) shall apply to any Resolution (a **Special Quorum Resolution**) for the purpose of making a modification to the Notes which would have the effect of:

- (a) modify the Maturity Date of the Notes or reduction or cancellation of the nominal amount payable at maturity; or
- (b) reduce or cancel the amount payable or modify the payment date in respect of any interest in respect of the Notes or vary the method of calculating the rate of interest in respect of the Notes; or

- (y) the transfer of the registered office of a European Company (*Societas Europaea* – SE) to a different Member State of the European Union; or
- (z) the decrease of the share capital of the Issuer for reasons other than to compensate losses suffered by the Issuer.

However, each Noteholder is a creditor of the Issuer and as such enjoys, pursuant to Article L.213-6-3 IV of the M&F Code, all the rights and prerogatives of individual creditors in the circumstances described under (x) to (z) above, including the right to object (*former opposition*) to the transactions described under (x) to (z).

(iii) Convening of a General Meeting

A General Meeting may be held at any time on convocation by the Issuer. One or more Noteholders, holding together at least one tenth of the principal amount of the Notes outstanding, may address to the Issuer a demand for convocation of the General Meeting. If such General Meeting has not been convened within seven (7) calendar days after such demand, the Noteholders may commission one of their members to petition a competent court in Paris to appoint an agent (*mandataire*) who will call the General Meeting and determine its agenda.

Notice of the date, hour, place and agenda of any General Meeting will be given in accordance with Condition 13 not less than twenty-one (21) calendar days prior to the date of such General Meeting.

(iv) Arrangements for Voting

Each Noteholder has the right to participate in a General Meeting in person, by proxy or, in the case of Dematerialised Notes only, by correspondence or by videoconference or by any other means of telecommunication allowing the identification of participating

Noteholders as provided *mutatis mutandis* by Article R.225-97 of the French *Code de commerce* (upon referral of Article R.228-68 of the French *Code de commerce*).

Each Note carries the right to one vote.

In accordance with Article R.228-71 of the French *Code de commerce*, the right of each holder of a Dematerialised Note to participate in General Meetings will be evidenced by the entries in the books of the relevant Account Holder of the name of such Noteholder as of 0:00, Paris time, on the second business day in Paris preceding the date set for the meeting of the relevant General Meeting.

(v) Chairman

The Noteholders present at a General Meeting shall choose one of their members to be chairman (the “**Chairman**”) by a simple majority of votes present or represented at such General Meeting (notwithstanding the absence of any quorum at the time of such vote). If the Noteholders fail to designate a Chairman, the Noteholder holding or representing the highest number of Notes and present at such meeting shall be appointed Chairman, failing which the Issuer may appoint a Chairman. The Chairman of an adjourned meeting need not be the same person as the Chairman of the meeting from which the adjournment took place.

(vi) Quorum, Adjournment and Voting

The quorum at any meeting for passing a Resolution shall be one or more Noteholders present and holding or representing in the aggregate not less than one twentieth in nominal amount of the Notes for the time being outstanding provided that at any meeting the business of which includes any Special Quorum Resolution, the quorum shall be one or more Noteholders present and holding or representing in the aggregate not less than two-thirds in nominal amount of the Notes for the time being outstanding.

If within 15 minutes (or such longer period not exceeding 30 minutes as the Chairman may decide) after the time appointed for any meeting a quorum is not present for the transaction of any particular business, then, subject and without prejudice to the transaction of the business (if any) for which a quorum is present, the meeting shall if convened by Noteholders be dissolved. In any other case, it shall be adjourned for a period being not less than 14 clear days nor more than 42 clear days and at a place appointed by the Chairman and approved by the Principal Paying Agent. If within 15 minutes (or a longer period not exceeding 30 minutes as the Chairman may decide) after the time appointed for any adjourned meeting a quorum is not present for the transaction of any particular business, then, subject and without prejudice to the transaction of the business (if any) for which a quorum is present, the Chairman may either dissolve the meeting or adjourn it for a period, being not less than 14 clear days (but without any maximum number of clear days) and to a place as may be appointed by the Chairman (either at or after the adjourned meeting) and approved by the Principal Paying Agent, and the provisions of this sentence shall apply to all further adjourned meetings.

At any adjourned meeting one or more Noteholders present (whatever the nominal amount of the Notes so held or represented by them) shall (subject as provided below) form a quorum and shall (subject as provided below) have power to pass any Resolution, any Special Quorum Resolution or other resolution and to decide upon all matters which could properly have been dealt with at the meeting from which the adjournment took place had the required quorum been present.

Notice of any adjourned meeting shall be given in accordance with Condition 13 but not less than ten (10) clear days prior to the date of a General Meeting for the approval of a Resolution other than a Special Quorum Resolution and not less than twenty-one (21) clear days prior to the date of a meeting for the approval of a Special Quorum Resolution and the notice shall state the relevant quorum.

Decisions at meetings shall be taken by a majority of the votes cast by Noteholders attending or represented at such General Meetings for the approval of a Resolution other than a Special Quorum Resolution and by 75 per cent. of the votes cast by Noteholders attending or represented at such General Meetings for the approval of a Special Quorum Resolution.

(vii) Written Resolutions and Electronic Consent

Pursuant to Article L.228-46-1 of the French *Code de commerce*, but in respect of any Series of Dematerialised Notes only, the Issuer shall be entitled, instead of the holding of a General Meeting, to seek approval of a Resolution from the Noteholders by way of a Written Resolution. Subject to the following sentence, a Written Resolution may be contained in one document or in several documents in like form, each signed by or on behalf of one or more of the Noteholders. Pursuant to Article L.228-46-1 of the French *Code de commerce*, approval of a Written Resolution may also be given by way of electronic communication allowing the identification of Noteholders (**Electronic Consent**).

Notice seeking the approval of a Written Resolution (including by way of Electronic Consent) will be given in accordance with Condition 13 not less than fifteen (15) calendar days prior to the date fixed for the passing of such Written Resolution (the **Written Resolution Date**). Notices seeking the approval of a Written Resolution will contain the conditions of form and time-limits to be complied with by the Noteholders who wish to express their approval or rejection of such proposed Written Resolution. Noteholders expressing their approval or rejection before the Written Resolution Date will undertake not to dispose of their Notes until after the Written Resolution Date.

For the purpose hereof, a **Written Resolution** means a resolution in writing signed or approved by or on behalf of the Noteholders of not less than 90 per cent. in nominal amount of the Notes outstanding.

(viii) Effect of Resolutions

A Resolution passed at a General Meeting, a Written Resolution or an Electronic Consent, shall be binding on all Noteholders, whether or not present at the General Meeting and whether or not, in the case of a Written Resolution or an Electronic Consent, they have participated in such Written Resolution or Electronic Consent and each of them shall be bound to give effect to the Resolution accordingly. In addition, in respect of Eligible Notes, any proposed modification of any provision of the Notes can only be effected subject to the prior written permission of the Relevant Resolution Authority,

16.2 Full Masse

If the applicable Final Terms specify "Full Masse", the Noteholders will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a *masse* (in each case, the **Masse**).

(i) Legal Personality

The Masse will be a separate legal entity and will act in part through a representative of the Masse (the **Representative**) and in part through a general meeting of the Noteholders (a **General Meeting**). The provisions of the French *Code de commerce* relating to the Masse shall apply, as completed by, and subject to, the provisions of this paragraph (b).

(ii) Representative of the Masse

Pursuant to Article L.228-51 of the French *Code de commerce*, the Representative will be DIIS Group, Société par actions simplifiée, 12 rue Vivienne, 75002 Paris, FRANCE or any other Representative as set out in the applicable Final Terms. The Representative appointed in respect of the first Tranche of any Series of Notes will be the Representative of the single Masse of all Tranches in such Series.

In the event of death, liquidation, retirement, dissolution or revocation of appointment of the Representative, such Representative will be replaced by another Representative. In the event of the death, liquidation, retirement, dissolution or revocation of appointment of the alternate Representative, an alternate will be elected by the General Meeting.

All interested parties will at all times have the right to obtain the names and addresses of the initial Representative and the alternate Representative at the head office of the Issuer and the specified offices of any of the Paying Agents.

(iii) General Meetings

In accordance with Article R. 228-71 of the French *Code de commerce*, the right of each holder of a Dematerialised Note to participate in General Meetings will be evidenced by the entries in the books of the relevant Account Holder of the name of such Noteholder as of 0:00, Paris time, on the second business day in Paris preceding the date set for the meeting of the relevant General Meeting.

In accordance with Articles L.228-59 and R.228-67 of the French *Code de commerce*, notice of date, hour, place and agenda of any General Meeting will be given in accordance with Condition 13 not less than fifteen (15) calendar days prior to the date of such General Meeting on first convocation, and five (5) calendar days on second convocation.

Each Noteholder has the right to participate in a General Meeting in person, by proxy, by correspondence and, in accordance with Article L.228-61 of the French *Code de commerce*, in the case of Dematerialised Notes only, by videoconference or by any other means of telecommunication allowing the identification of participating Noteholders, as provided *mutatis mutandis* by Article R.225-97 of the French *Code de commerce* (upon referral of Article R.228-68 of the French *Code de commerce*).

Each Note carries the right to one vote.

Decisions relating to General Meetings and Written Resolutions once approved will be published in accordance with Condition 13.

In addition, in respect of Eligible Notes, any proposed modification of any provision of the Notes can only be effected subject to the prior written permission of the Relevant Resolution Authority.

(iv) Written Resolutions and Electronic Consent

Condition 16.1(vii) is deemed reproduced here.

16.3 Contractual Masse

If the applicable Final Terms specify "Contractual Masse", the Noteholders will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a *masse* (in each case, the **Masse**).

The Masse will be governed by the provisions of the French *Code de commerce* with the exception, pursuant to Article L.228-90 of the French *Code de commerce*, of Article L.228-48, the second sentence of the first paragraph of Article L.228-71 and Articles R.228-63 and R.228-69, and subject to the following provisions:

(i) Legal Personality

The Masse will be a separate legal entity and will act in part through a representative (the **Representative**) and in part through a general meeting of the Noteholders (the **General Meeting**).

(ii) *Representative of the Masse*

Condition 16.2(ii) is deemed to be reproduced here.

(iii) *General Meetings*

Condition 16.2(iii) is deemed to be reproduced here, except for the last sentence of the last paragraph which is not applicable.

(iv) *Written Resolutions and Electronic Consent*

Condition 16.1 (vii) is deemed to be reproduced here.

16.4 Information to Noteholders

Each Noteholder or (if there is one) the Representative thereof will have the right, during the fifteen (15) calendar day period preceding the day of each General Meeting, and, in the case of an adjourned General Meeting or a Written Resolution, the five (5) calendar days period preceding the holding of such General Meeting or the Written Resolution Date, as the case may be, to consult or make a copy of the text of the Resolutions which will be proposed and of the reports prepared in connection with such Resolutions, all of which will be available for inspection by the relevant Noteholders at the registered office of the Issuer, at the specified offices of any of the Paying Agents and at any other place specified in the notice of the General Meeting or Written Resolution.

16.5 Expenses

The Issuer will pay all expenses relating to the operation of the *Masse*, the calling and holding of General Meetings and seeking of a Written Resolution and, more generally, all administrative expenses resolved upon by the General Meeting or in writing by the Noteholders, it being expressly stipulated that, where the applicable Final Terms specify “No *Masse*” or “Contractual *Masse*”, no expenses may be imputed against interest payable under the Notes.

16.6 Single Masse

Whether the applicable Final Terms specify “Full *Masse*” or “Contractual *Masse*”, the Noteholders of the same Series, and the holders of Notes of any other Series which have been consolidated (*assimilées* for the purposes of French law) with the Notes of such first mentioned Series in accordance with Condition 14, shall, for the defence of their respective common interests, be grouped in a single *Masse*. The Representative appointed in respect of the first Tranche of any Series of Notes issued will be the Representative of the single *Masse* of all such Series.

16.7 One Noteholder

Whether the relevant Final Terms specify “Full *Masse*” or “Contractual *Masse*”, if and for so long as the Notes of any Series are held by a single Noteholder, the provisions of this Condition will not apply. Such sole Noteholder shall hold a register of the decisions it will have taken in this capacity, shall provide copies of such decisions to the Issuer and shall make them available, upon request, to any subsequent holder of all or part of the Notes of such Series.

16.8 Miscellaneous

In accordance with Article L.213-6-3 V of the M&F Code, the Issuer has the right to amend the Terms and Conditions of the Notes with an initial denomination of, or which can only be traded in amounts of, at least €100,000, without having to obtain the prior approval of the Noteholders, in order to correct a mistake which is of a formal, minor or technical nature.

In respect of SG Issuer only, the provisions of articles 470-1 to 470-19 of the Luxembourg act dated 10 August 1915 on commercial companies, as amended (the **Companies Act 1915**), shall not apply to the Notes. No holder of Notes may initiate proceedings against SG Issuer based on article 470-21 of the Companies Act 1915.

For the avoidance of doubt, in this Condition, “outstanding” (as such term is defined in the French Law Agency Agreement) shall not include those Notes purchased by the Issuer pursuant to Article L.213-0-1 of the M&F Code that are held by it and not cancelled.

17. SUSPENSION OF TRADING AND DELISTING OF NOTES

Notes that are listed on any regulated market or stock exchange(s) or admitted to trading by a relevant authority may be suspended from trading and/or delisted at any time in accordance with applicable rules and regulations of the relevant regulated market or relevant stock exchange(s).

In addition, the Principal Paying Agent, the Issuer and the Guarantor (if any) may agree at any time and without any further consent from the Noteholders to delist Notes listed on the SIX Swiss Exchange by giving notice to the Noteholders in accordance with Condition 13 at least three months prior to the last trading day stating that such Notes will be delisted from the SIX Swiss Exchange and no longer traded on the SIX Swiss Exchange.

18. WAIVER OF SET-OFF

No holder of any Note may at any time exercise or claim any Waived Set-Off Rights against any right, claim, or liability which the Issuer has or may have or acquire against such holder, directly or indirectly, howsoever arising (and, for the avoidance of doubt, including all such rights, claims and liabilities arising under or in relation to any and all agreements or other instruments of any sort or any non-contractual obligations, in each case whether or not relating to the Notes) and each such holder shall be deemed to have waived all Waived Set-Off Rights to the fullest extent permitted by applicable law in relation to all such actual and potential rights, claims and liabilities.

For the avoidance of doubt, nothing in this Condition is intended to provide or shall be construed as acknowledging any right of deduction, set-off, netting, compensation, retention or counterclaim or that any such right is or would be available to any holder of any Note but for this Condition.

For the purposes of this Condition, **Waived Set-Off Rights** means any and all rights of or claims of any holder of any Note for deduction, set-off, netting, compensation, retention or counterclaim arising directly or indirectly under or in connection with any such Note.

19. LIMITED RECOURSE AGAINST SG ISSUER

Each holder of a Note or Notes issued by SG Issuer is deemed to have acknowledged and undertaken, on its acquisition of such Notes, that, in the event of a default by SG Issuer, of payment of principal of (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any Final Redemption Amount(s)) on any such Note(s), whenever such payment falls due (such payment defaults, **Defaulted Payments**), such holder shall not institute any proceeding, judicial or otherwise, or otherwise assert a claim against SG Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against the relevant Issuer.

For the avoidance of doubt, such acknowledgement, undertaking and waiver are without prejudice to the holder's rights under the Guarantee and do not alter or impair the Guarantor's obligations under the relevant guarantee and accordingly each holder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Guarantor to enforce any obligation due under the relevant guarantee, including without limitation in respect of any Defaulted Payments, subject in all cases to the terms of the Guarantee.

Such acknowledgement, undertaking and waiver do not alter or impair the rights of the Noteholders to require the enforcement of the relevant Pledge Agreement, pursuant to the provisions of the Additional Terms and Conditions relating to Secured Notes.

20. ACKNOWLEDGMENT OF BAIL-IN AND WRITE DOWN OR CONVERSION POWERS

20.1 Acknowledgement of bail-in and write-down or conversion powers on the relevant Societe Generale's or SG Issuer's Liabilities and of the write-down and conversion of Notes of SG Issuer following the bail-in and write-down and conversion of some Societe Generale's Liabilities

By the acquisition of Notes, each Noteholder (which, for the purposes of this Condition, includes any current or future holder of a beneficial interest in the Notes) acknowledges, accepts, consents and agrees:

(1) to be bound by the effect of the exercise of the Bail-in Power (as defined below) by the Relevant Resolution Authority (as defined below) on Societe Generale's and SG Issuer's liabilities under the Notes, which may include and result in any of the following, or some combination thereof:

(i) the reduction of all, or a portion, of the Amounts Due (as defined below), on a permanent basis;

(ii) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person (and the issue to the Noteholder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Notes, in which case the Noteholder agrees to accept in lieu of its rights under the Notes any such shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person;

(iii) the cancellation of the Notes; and/or

(iv) the amendment or alteration of the maturity of the Notes or amendment of the amount of interest payable on the Notes, or the date on which the interest becomes payable, including by suspending payment for a temporary period; and

that terms of the Notes are subject to, and may be varied, if necessary, to give effect to the exercise of the Bail-in Power by the Relevant Resolution Authority or the regulator.
(the "**Statutory Bail-in**")

and

(2) in respect of Notes issued by SG Issuer, if the Relevant Resolution Authority (as defined below) exercises its Bail-in Power (as defined below) on liabilities of Societe Generale, pursuant to Article L 613-30-3-I-3 of the French Monetary and Financial Code (the **M&F Code**):

(A) ranking:

(i) junior to liabilities of Societe Generale benefitting from statutorily preferred exceptions pursuant to Article L 613-30-3-I 1° and 2 of the M&F Code;

(ii) *pari passu* with liabilities of Societe Generale as defined in Article L.613-30-3-I-3 of the M&F Code; and

(iii) senior to liabilities of Societe Generale as defined in Article L.613-30-3-I-4 of the M&F Code; and

(B) which are not *titres non structurés* as defined under Article R.613-28 of the M&F Code, and

(C) which are not or are no longer eligible to be taken into account for the purposes of the MREL (as defined below) ratio of Societe Generale

and such exercise of the Bail-in Power results in the write-down or cancellation of all, or a portion of, the principal amount of, or the outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or the outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of Societe Generale or another person, including by means of variation to their terms and conditions in order to give effect to such exercise of Bail-in Power, then SG Issuer's obligations under the Notes (other than Secured Notes) will be limited to (i) payment of the amounts of principal and/or interest as reduced or cancelled that would be recoverable by the Noteholders and/or (ii) the delivery or the payment of value of the shares or other securities or other obligations of Societe Generale or another person that would be paid or delivered to the Noteholders as if, in either case, the Notes had been directly issued by Societe Generale itself and any Amount Due under the Notes had accordingly been directly subject to the exercise of the Bail-in Power (the "**Contractual Bail-in**").

20.2 Consequences of the Statutory Bail-in and Contractual Bail-in

No repayment or payment of the Amounts Due will become due and payable or be paid after the exercise of the Statutory Bail-in with respect to the relevant Issuer or the Guarantor unless, at the time such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by the relevant Issuer or the Guarantor under the applicable laws and regulations in effect in France or Luxembourg and the European Union applicable to the relevant Issuer or the Guarantor or other members of its group.

No repayment or payment of the Amounts Due will become due and payable or be paid under the Notes issued by SG Issuer after implementation of the Contractual Bail-in.

Upon the exercise of the Statutory Bail-in or upon implementation of the Contractual Bail-in with respect to the Notes, the relevant Issuer or the Guarantor will provide a written notice to the Noteholders in accordance with Condition 13 as soon as practicable regarding such exercise of the Statutory Bail-in or implementation of the Contractual Bail-in. The relevant Issuer or the Guarantor will also deliver a copy of such notice to the Principal Paying Agent for informational purposes, although the Principal Paying Agent shall not be required to send such notice to Noteholders. Any delay or failure by the relevant Issuer or the Guarantor to give notice shall not affect the validity and enforceability of the Statutory Bail-in or Contractual Bail-in nor the effects on the Notes described above.

Neither a cancellation of the Notes, a reduction, in part or in full, of the Amounts Due, the conversion thereof into another security or obligation of the relevant Issuer or the Guarantor or another person, as a result of the exercise of the Statutory Bail-in or the implementation of the Contractual Bail-in with respect to Notes will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Noteholder to any remedies (including equitable remedies) which are hereby expressly waived.

Upon the exercise of any Statutory Bail-in or the implementation of the Contractual Bail-in, the relevant Issuer, the Guarantor (if any) and each Noteholder (including each holder of a beneficial interest in the Notes) hereby agree that (a) the Principal Paying Agent shall not be required to take any directions from Noteholders, and (b) the French Law Agency Agreement shall impose no duties upon the Principal Paying Agent whatsoever, in each case with respect to the exercise of any Statutory Bail-in or implementation of the Contractual Bail-in.

Notwithstanding the foregoing, if, following the completion of the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in, any Notes remain outstanding (for example, if the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in results in only a partial write-down of the principal of the Notes), then the Principal Paying Agent's duties under the French Law Agency Agreement shall remain applicable with respect to the Notes following such completion to the extent that the relevant Issuer, the Guarantor (if any) and the Principal Paying Agent shall agree pursuant to an amendment to the French Law Agency Agreement.

If in a Statutory Bail-In the Relevant Resolution Authority exercises the Bail-in Power or if the Contractual Bail-in is implemented, with respect to less than the total Amounts Due, unless the Principal Paying Agent is otherwise instructed by the relevant Issuer or the Guarantor or, as the case may be, the Relevant Resolution Authority, any cancellation, write-off or conversion made in respect of the Notes will be (in the case of a Contractual Bail-In) or may be (in the case of a Statutory Bail-in) made on a pro-rata basis.

The matters set forth in this Condition shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Issuer, the Guarantor (if any) and each Noteholder

No expenses necessary for the procedures under this Condition, including, but not limited to, those incurred by the relevant Issuer, the Guarantor (if any) and the Principal Paying Agent, shall be borne by any Noteholder.

Family of Product	A Family of Products is a group of Product having similar characteristics. For each Family of Product, formulae and variable data are defined in order to determine the Product Amounts (defined below).
Reference of the Product	A Reference of the Product is a three-digit reference number with the first two digits corresponding to the reference of the Family of Product to which the Product belongs and the third digit corresponding to the Product itself. The applicable Final Terms of a Product shall indicate the Reference of the Product (which corresponds to a paragraph of Condition 3 below where are listed all the formulae and variable data used to determine the Product Amounts (defined below)), and as the case may be, the Options and Add-ons necessary to determine these amounts.

Product :

a Product is a Note to which these Additional Terms and Conditions relating to Formulae apply and having one or more Structured Interest Amount(s) (if any), one or more Automatic Early Redemption Amount(s) (if any), and a Final Redemption Amount (each a **Product Amount** and together the **Product Amounts**), each determined by the Calculation Agent on the basis of a set of definitions and formulae listed in Condition 3 below in the relevant paragraph corresponding to the Reference of the Product.

Structured Interest Amount(s) (as the case may be) [as described in Condition 1.1 below]	<p><u>Common principles:</u></p> <p>For each Product, each Product Amount (i.e. Structured Interest Amount(s), Automatic Early Redemption Amount(s) and the Final Redemption Amount) is equal to the formula (Specified Denomination x Product Formula)</p> <p>For each Product and each Product Amount, a Product Formula is based on and/or combines one or more specific definitions and formulae, called Variable Data and ReferenceFormula(e).</p> <p>For the avoidance of doubt, several Variable Data and ReferenceFormula(e) can be associated with a particular Product Formula.</p> <p>Product Formula = Function{Schedule(s) ; Specific Definition(s) ; Variable Data ; Reference Formula(e) ; Add-on(s)}</p>

1.3.2 Physical Delivery principles

a) Description of Physical Delivery Amount:

CASE 1: *if the Final Redemption Amount of a Product is determined and calculated on the basis of one Underlying and the currency of the Underlying is the same as the Specified Currency:*

An integer number of Deliverable Asset determined and calculated pursuant to the following formula:

Physical Delivery Amount(T) = Specified Denomination / PhysicalDeliveryStrikePrice

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Closing Price of the Underlying as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

CASE 2: *if the Final Redemption Amount of a Product is determined and calculated on the basis of one Underlying and the currency of the Underlying is different from the Specified Currency:*

An integer number of Deliverable Asset determined and calculated pursuant to the following formula:

Physical Delivery Amount(T) = Specified Denomination / (PhysicalDeliveryStrikePrice x FXRate(T))

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Product of (i) the relevant Closing Price of the Underlying as of Valuation Date(T) and (ii) the relevant FXRate as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

CASE 3: *if the Final Redemption Amount of a Product is determined and calculated on the basis of more than one Underlying and the currency of these Underlyings is the same as the Specified Currency:*

An integer number of Deliverable Asset(k) determined and calculated pursuant to the following formula:

Physical Delivery Amount(T) = Specified Denomination / PhysicalDeliveryStrikePrice(k)

With:

(k) being the Underlying with the lowest Performance(T,k), provided that if several Underlyings achieve the same lowest Performance(T,k), the Underlying having the largest market capitalisation is retained;

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Closing Price of this Underlying as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

CASE 4: *if the Final Redemption Amount of a Product is determined and calculated on the basis of more than one Underlying and the currency of at least one Underlying is different from the Specified Currency:*

An integer number of Deliverable Asset(k) determined and calculated pursuant to the following formula:

Physical Delivery Amount(T) = Specified Denomination / (PhysicalDeliveryStrikePrice(k) x FXRate(T))

With:

(k) being the Underlying with the lowest Performance(T,k), provided that if several Underlyings achieve the same lowest Performance(T,k), the Underlying having the largest market capitalisation is retained;

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Product of (i) the relevant Closing Price of the Underlying as of Valuation Date(T) and (ii) the relevant FXRate as of Valuation Date(T). This cash amount is rounded up to 4 decimals.

Being specified that, in the case where (i) a Non-exempt Offer and (ii) the share in Societe Generale is specified as Deliverable Asset in the applicable Final Terms, the part of the Physical Delivery Amount composed by shares in Societe Generale will be replaced by a cash amount. This cash amount is calculated by multiplying (a) the number of shares in Societe Generale being in the composition of the Physical Delivery Amount by (b) the Closing Price of the share in Societe Generale as of Valuation Date(T) specified in the applicable Final Terms. This cash amount is rounded up to 4 decimals and converted, if any, in the Specified Currency.

b) Variable Data:

PhysicalDeliveryStrikePrice

1.4.9 Add on relating to Optional Redemption Amount(s)

In the case of Notes other than Preference Share Linked Notes and Warrant Linked Notes, if the applicable Final Terms specify that the clause "Redemption at the option of the Issuer" is "Applicable":

- The Product Formula(e) relating to the Optional Redemption Amount may be determined on the basis of one or more Product Formula(e) (i) relating to the Final Redemption Amount of any other Product of any other Family of Product described in Condition 3 below calculated on the valuation date linked to the relevant Optional Redemption Date and (ii) different from the Product Formula of the Final Redemption Amount specified in the applicable Final Terms.

If the applicable Final Terms specify that the clause "Redemption at the option of the Noteholders" is "Applicable":

1.4.10 Add-on relating to Variable Data

Any Variable Data that may be used to determine and/or to calculate the Product Amount of a Product of any Family of Products defined in Condition 3 below, can be replaced by any Reference Formulae appearing in Conditions 4.0 to 4.29 or by any value yielded by one or several mathematical operations which may imply one or several Reference Formula(e) appearing in Conditions 4.0 to 4.29, and applied to the Underlying(s) of the Product on the relevant valuation date(s) linked to the Product Amount.

Illustration :

For the product 3.3.2 "Digital Coupon Autocall", the paragraph "Variable Data" indicates "CouponBarrier" among other Variable Datas. If the Add-on relating to Variable Data is specified as Applicable, CouponBarrier can be replaced by any Reference Formulae appearing in Conditions 4.0 to 4.29.

As an example, CouponBarrier(i) can be defined as ModifiedTarget(i, Target(i), Threshold(i-1), ReferenceFormula(i-1)).

1.4.11 Add-on relating to EU Allowance

Any product formula defined in Condition 3 below and used to determine and calculate a Structured Interest Amount related to a Valuation Date(i) (i from 1 to T) and/or an Automatic Early Redemption Amount and/or determine an Automatic Early Redemption Event related to an Automatic Early Redemption Date(i) (i from 1 to T) and/or a Final Redemption Amount, as the case may be, can be modified in order to take into account the Arbitrage Opportunity. The applicable Final Terms shall indicate the Reference Formulae from Condition 4 below used in this incoming Product Formula.

where applied to the Structured Interest Amount:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

1.5 Payment currency(ies)

Payments in respect of the Product will be made in the Specified Currency, as defined in the applicable Final Terms, except when the applicable Final Terms specify that "Dual Currency Notes Provisions" is applicable, where payments in respect of the Product will be

made in the Settlement Currency (which can vary depending of the different scenarios of the Product), as defined in the applicable Final Terms,

In case of Dual Currency Notes, any relevant currency can be specified in the paragraph relating to any Product Amount.

1.6 Instalment products

When the applicable Final Terms specify that "Instalment Note Provisions" is applicable, the Specified Denomination can be replaced by the Adjusted Specified Denomination (as defined the applicable Final Terms) for the purpose of calculating any Product Amount relating to the Product.

2. SCHEDULE – GENERAL DEFINITIONS AND SPECIFIC DEFINITION(S) - VARIABLE DATA - REFERENCE FORMULA(E)

2.1 Schedule

A **Schedule** designates either (A) a list of Valuation Date(s) or Relevant Valuation Date(s) or any other date(s), or (B) all Valuation Date(s) or Relevant Valuation Date(s) or any other date(s) comprised within a defined period.

For the avoidance of doubt, several Schedules may be used for the determination and calculation of a Product Amount. For ease of reading, Schedules may be renamed (e.g. Period, Corridor Period, , European Knock-In Period, American Knock-In Period,...).

Furthermore, in respect of a Product Formula and a particular Schedule, also for ease of reading, "Valuation Date" or "Relevant Valuation Date" may be renamed (for instance, for a Schedule made of daily Valuation Dates, "Valuation Date" may be renamed "Daily Valuation Date", for a Schedule with annual Valuation Dates, "Valuation Date" may be renamed "Annual Valuation Date", for another Schedule relating to a specific Underlying_A, "Valuation Date" may be renamed "Underlying_A Valuation Date",...).

2.2 General Definitions and Specific Definition(s)

2.2.1 General Definitions: Definitions listed in Condition 5 below are applicable to all the Families of Products and to each Product within a Family of Products.

2.2.2 Specific Definition(s): Definitions used, as the case may be, to determine and calculate a Product Amount and/or the related Reference Formula. One or more specific definitions may be necessary (hereafter the Specific Definition(s)). The Specific Definitions are set out in the paragraph of Condition 5 below corresponding to the relevant Reference of the Product and called "Specific Definitions" and replicated in the applicable Final Terms. When no Specific Definition is necessary to determine and calculate a Product Amount, the paragraph "Specific Definition(s)" shall mention: "No Specific Definition is necessary to determine and calculate a Product Amount".

2.3 Variable Data

One or more variable data are necessary to determine and calculate a Product Amount of a Product (referred to as the **Variable Data**). The definition of the Variable Date that may be used for the Product Amount of a Product of any Family of Products are listed in Condition 5.4 below.

The Variable Data listed in Condition 5.4 and that may be used in respect of one or more Products of a Family of Products are set out in the sub-paragraph titled "Variable Data" of the relevant Family of Product (e.g. 3.3.0).

The Variable Data listed in Condition 5.4 necessary to a specific Product are set out in the paragraph "Variable Data" of such Product.

In the applicable Final Terms, depending on their respective definition set out in Condition 5.4 below, each Variable Data can be an amount, a level, a percentage or the observed value of a Reference Formula applied to the Underlying(s) of the Product.

A Variable Data may depend on a specific Schedule or dates as defined above in Condition 2.1.

o Illustration in respect of Notes:

for the Reference of the Product 3.1.1 "Certificate", the paragraph "Automatic Early Redemption Amount" refers to the Variable Data "ConstantRedemptionLevel_AERA(i)" which is the value of the ConstantRedemptionLevel_AERA on a specific Valuation Date (i), date in respect of which an Automatic Early Redemption Event is deemed to have occurred, as determined by the Calculation Agent:

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = **ConstantRedemptionLevel_AERA(i)**

If in respect of a Product Formula of a Product Amount of a specific Product, a Variable Data has a value of either 0 (zero) or 1 (one), or is not used or not useful or if a Variable Data is not applicable for the calculation of certain Product Amounts, then Product Formula(e) as specified in the applicable Final Terms may be simplified in the applicable Final Terms for the purpose of improving the reading and intelligibility of formula(e).

o Illustration in respect of Notes: for instance, if the Product Formula of a Product Amount of a particular Product is:

$\text{ConstantRedemptionLevel} + \text{Min}(\text{Cap} ; \text{Participation} \times \text{ReferenceFormula_Coupon})$

and the Variable Data "ConstantRedemptionLevel" is equal to 0, "Participation" is equal to 1, and "Cap" is not applicable, then the Product Formula of such Product Amount may be simplified in the applicable Final Terms as follows:

ReferenceFormula_Coupon

2.4 Reference Formula(e)

Reference Formula(e) are pre-defined basic formulae specified under Condition 4 below (referred to as individually the **Reference Formula** and collectively **Reference Formulae**) which are used, as the case may be, as inputs in respect of an Option, a Product Formula and/or one or several Specific Definitions or Add-ons necessary to determine and calculate a Product Amount.

For each Product described in Condition 3 below appears a paragraph called "Reference Formula(e)".

This paragraph indicates:

2.4.1 on one side, the context in which the Reference Formulae of the Product are used, by the suffix which follows the expression "Reference Formula_" e.g.

- "**ReferenceFormula_Final**" which means that the Reference Formula of the Product is used to determine the Final Redemption Amount of the Product and the Product Formula, the Option and/or one or several Specific Definitions necessary to the determination of the Final Redemption Amount contain the instruction "Reference Formula_Final";

For example, for the product 3.5.1.1 "Resetable Accumulator", the paragraph "Reference Formula(e)" indicates "Reference Formula_Final" which means that a Reference Formula is used to determine the Final Redemption Amount and the paragraph "Final Redemption" indicates:

$\text{Final Redemption Amount} = \text{Specified Denomination} \times \text{Product Formula(T)}$

$\text{Product Formula(T)} = \text{ConstantRedemption} + \text{Max}(\text{Floor} ; \text{Min}(\text{Cap} ; \text{Participation} \times \text{Max}(0 ; \text{Reference Formula_Final(T)} - \text{Strike})))$

"**ReferenceFormula_AERA**" means that the Reference Formula of the Product is used to determine the Automatic Early Redemption Amount of the Product, if any.

For example, for the product 3.1.2 "European Forward", the paragraph "Reference Formula(e)" indicates "ReferenceFormula_AERA" means that a Reference Formula is used to determine the Automatic Early Redemption Amount and the paragraph "Automatic Early Redemption" indicates:

$\text{Automatic Early Redemption Amount} = \text{Specified Denomination} \times \text{Product Formula(i)}$

$\text{Product Formula(i)} = \text{ConstantRedemptionLevel_AERA(i)} + \text{Coupon_AERA(i)} + \text{Participation_AERA(i)} \times \text{ReferenceFormula_AERA(i)}$

"**ReferenceFormula_Coupon**" means that the Reference Formula of the Product is used to determine the Final Redemption Amount of the Product and the Product Formula, the Option and/or one or several Specific Definitions necessary to the determination of the Final Redemption Amount contain the instruction "ReferenceFormula_Coupon";

For example, for the product 3.5.1 "Accumulator", the paragraph "Reference Formula(e)" indicates "ReferenceFormula_Coupon" means that a Reference Formula is used to determine the Structured Interest Amount and the paragraph "Structured Interest" indicates:

$\text{Structured Interest Amount(i)} = \text{Specified Denomination} \times \text{Product Formula(i)}$

$\text{Product Formula(i)} = \text{Max}(\text{Floor(i)} ; \text{Min}(\text{Cap(i)} ; \text{Participation(i)} \times \text{ReferenceFormula_Coupon(RVD(i))}))$

2.4.2 on the other side, the name of the applicable Reference Formulae and/or the ones most likely to be applicable to the Product. The paragraph "Reference Formula(e)" will also indicate the Families of Products to which the applicable or the most likely to be applicable Reference Formula(e) belongs to. For example, if the paragraph "Reference Formula(e)" indicates "AverageTimeLevel (as defined under Condition 4.9 below of the Family of "TimeLevel")", it means that the Reference Formula "AverageTimeLevel", belonging to the "TimeLevel" Family as defined in Condition 4.9 below, is applicable or is the most likely to be applicable to the Product.

A Reference Formula will be used to determine either Reference Price(s), Reference Performance(s), Reference Level(s) or Reference Fixing(s).

For the avoidance of doubt, when Reference Formula(e) is/are not relevant for a Product, it shall not appear in the applicable Final Terms of this Product.

Additional Terms and Conditions relating to Formulae

Any Reference Formula indicated in Condition 4 below may also, in respect of a Product Formula, be defined as a "Sum of ReferenceFormula", a "Difference of ReferenceFormula" or "ReferenceFormula – 100%" or "100%,- ReferenceFormula" or be expressed as a negative component and be preceded by the sign "-".

Where:

- o A: "Sum of ReferenceFormula" means that two or more Reference Formulae have been added together in order to determine a new Reference Formula for the purpose of determining a Product Amount.
- o B: "Difference ReferenceFormula" means that a Reference Formula have been subtracted from another Reference Formula in order to determine a new Reference Formula for the purpose of determining a Product Amount.
- o C: "ReferenceFormula – 100%" means that 100% has been subtracted from a Reference Formula in order to determine a new Reference Formula for the purpose of determining a Product Amount.
- o D: "100% - ReferenceFormula" means that a ReferenceFormula has been subtracted from 100% in order to determine the Reference Formula(e) for the purpose of determining a Product Amount.

Provided that options A to D above may be combined: for example a new Reference Formula may be created as a Sum of ReferenceFormula as per option A, and then subtracted from 100% as per option D.

Any Reference Formula defined in a currency other than the Specified Currency may be converted into the Specified Currency based on the applicable Foreign Exchange Rate between the currency of the Product Formula and the Specified Currency. Reference Formula(e), Variable Data, applicable options and any other term which are defined in brackets "[...]" are optional.

Description of how the value of the relevant Notes can be affected by the value of the Underlying(s)

The Family of Products "Barrier" comprises Products which provide exposure to the positive or negative performance of an Underlying or a Basket of one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on one or several conditions (categorized in several scenarios). Typically, a condition is satisfied [or not] if the performance or level of an Underlying or Basket of one or several Underlying(s) within a Basket is higher than or equal to [or lower] a pre-defined barrier performance or level. Performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.

Option 8 with [2/3/4/5/6] Scenarios Description:

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 (or the 3, or the 4, or the 5, or the 6 depending upon the number of scenarios selected) possible:

o The occurrence of these scenarios depends upon the value(s) of the relevant ReferenceFormula(e) applied to the Underlying(s) of the Product and of its (their) position(s) compared to one (several) FinalBarrier(s) and / or whether or not a[n] [American] [European] [Low Barrier] [High Barrier] [Memory] [Target] [a Range] Knock-In Event occurs.

o The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or cap and / or with a leverage factor.

The Product Amount(s) are determined based on (a) performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket, and / or (b) historical variance or historical volatility of the Underlying or Basket and / or (c) additional parameters (if relevant). Performance or level or historical variance or historical volatility of the Underlying or Basket can be weighted, leveraged, averaged, locked, floored and/or capped.

and

(y) the difference between 1 and the division of:

3.10.7.2 Structured Interest Amount: Not Applicable

3.10.7.3 Automatic Early Redemption Amount: Applicable

Automatic Early Redemption Amount(i) = Market Value

Where :

Market Value means, as per Condition 6.3 of the General Terms and Conditions, an amount determined by the Calculation Agent, which, on the due date for the redemption of the Note, shall represent the fair market value of the Notes and shall have the effect (after taking into account the costs of unwinding any hedging arrangements entered into in respect of the Notes) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date.

Automatic Early Redemption Event is deemed to have occurred, as determined by the Calculation Agent, if on a Valuation Date(i)(i from 1 to T):

[If Single Name Notes

(i) the Reference Entity Spread on such day is higher than or equal to Barrier_Single
[or (ii) a Credit Event Determination Date occurs in respect of the Reference Entity.]

[If Basket Notes and Credit Index Option is not Applicable

(i) the Average Spread on such day is higher than or equal to Barrier_Basket

[or (ii) the Reference Entity Spread with respect to any Reference Entity(k) on such day is higher than or equal to Barrier_Single(k)]

The Automatic Early Redemption Event that is the subject of an Automatic Early Redemption Event Notice does not need to be continuing on the Automatic Early Redemption Event Determination Date.

Current Market Value means an amount determined by the Calculation Agent, which, on the relevant Valuation Date(i) (i from 1 to T), shall represent the Market Value of the Notes that would be computed if the Notes were to be redeemed as of such Valuation Date(i) (i from 1 to T).

Dealer means any dealer (other than Societe Generale) determined by the Calculation Agent in its sole and absolute discretion as being a dealer in respect of providing quotations in respect of credit default swap transactions.

Dealer Poll Method means that, on any day, the Reference Entity Spread will be determined by the Calculation Agent as follows:

(A) the Calculation Agent will attempt to obtain offer quotations from five Dealers, whereby:

a. If three or more such quotations are obtained prior to 17.00 (London time) on such day (the "Quotation Deadline Time"), the Reference Entity Spread will be the arithmetic mean of such quotations without regard to the quotations having the highest or lowest values (and, if more than one such quotation have the same highest or lowest quotation, then one of such highest or lowest quotations (as relevant) may be disregarded); or

b. If two such quotations are obtained prior to the Quotation Deadline Time, the Reference Entity Spread will be the arithmetic mean of such quotations; or

c. If one such quotation is obtained prior to the Quotation Deadline Time, the Reference Entity Spread will be such quotation; or

(B) If it is not possible to obtain any quotations prior to the Quotation Deadline Time, the Reference Entity Spread will be a rate determined by the Calculation Agent in its sole and absolute discretion acting in good faith, having regard to the conditions prevailing in the market.

Leverage means Leverage_FRA.

[if Basket Notes and Credit Index Option is not Applicable

Average Spread means, on any Valuation Date(i), the weighted average of the Reference Entity Spread for all Reference Entities calculated as: $\text{Sum (for } k \text{ from 1 to } N) [\text{Weight}(k) \times \text{Spread}(k)]$

N means the number of Reference Entities in the Reference Portfolio

Weight(k) means the Reference Entity Weighting in respect of the kth Reference Entity

Effective Credit Index: means the Initial Credit Index or, if subsequent versions are published after the Initial Index, the latest version of the Initial Credit Index, published by the Index Publisher and effective as of the relevant date. For the avoidance of doubt, it is expected that the Index Publisher publishes a new version each time a Credit Event Determination Date has occurred, and the Final Value has been determined pursuant to relevant Transaction Auction Settlement Terms.

Effective Credit Index Spread: means the offer rate, expressed as a quoted spread, for a credit default swap on the Effective Credit Index in the Credit Index Currency and with a maturity equal to the Credit Index Maturity, determined by the Calculation Agent in accordance with the Dealer Poll Method.

- Bloomberg requested Index Coupon: Credit Index Coupon
- Bloomberg requested Currency: Credit Index Currency
- Bloomberg requested Maturity Date: Credit Index Maturity
- Bloomberg requested Recovery Rate: Credit Index Recovery Rate

[if Single Name Notes]

Reference Entity Spread means, in respect of the Reference Entity and any day, the offer rate, expressed as a quoted spread, for a single-name credit default swap on the Reference Entity governed by the 2014 ISDA Credit Derivatives Definitions, in USD, with the Reference CDS Maturity and for a size equal to the product of (i) the Aggregate Nominal Amount of the Notes, and (ii) the Leverage (such credit default swap, the “Reference CDS”), determined by the Calculation Agent using the Dealer Poll Method. For the avoidance of doubt, if the Calculation Agent observes or receives a quotation expressed with an upfront amount (the “Upfront Quotation”), it will convert such Upfront Quotation into a quoted spread by using the function CDSW in Bloomberg or any other calculation as the Calculation Agent may deem appropriate in its sole and absolute discretion, but acting in good faith and in a commercially reasonable manner.]

[if Basket Notes]

Reference Entity Spread means, in respect of the Reference Entity and any day, the offer rate, expressed as a quoted spread, for a single-name credit default swap on the Reference Entity governed by the 2014 ISDA Credit Derivatives Definitions, in USD, with the Reference CDS Maturity and for a size equal to the product of (i) the Aggregate Nominal Amount of the Notes, (ii) the Reference Entity Weighting and (iii) the Leverage (such credit default swap, the "Reference CDS"), determined by the Calculation Agent using the Dealer Poll Method. For the avoidance of doubt, if the Calculation Agent observes or receives a quotation expressed with an upfront amount (the "Upfront Quotation"), it will convert such Upfront Quotation into a quoted spread by using the function CDSW in Bloomberg or any other calculation as the Calculation Agent may deem appropriate in its sole and absolute discretion, but acting in good faith and in a commercially reasonable manner.]

The Reference Formulae of the Family of Reference Formulae in sections 4.1 to 4.29 below are used to determine or calculate either (i) a price of one or several Underlying(s) which is called a Reference Price, (ii) a level of the price of one or several Underlying(s) which is called a Reference Level, (iii) a performance of the price of one or several Underlying(s) which is called a Reference Performance and/or (iv) a fixing of one or several Reference Rate(s) and/or (v) a fixing of one or several foreign exchange rate(s).

1) Price, Level or Performance

In sections 4.1 to 4.29 below, (a) when the denomination of a Reference Formula in a Family of Reference Formulae contains the word "Price", such Reference Formula is used to determine a Reference Price, (b) when the denomination of a Reference Formula in a Family of Reference Formulae contains the word "Level", such Reference Formula is used to calculate a Reference Level, (c) when the denomination of a Reference Formula in a Family of Reference Formulae contains the word "Performance", such Reference Formula is used to calculate a Reference Performance and (d) when the denomination of the Reference Formula in a Family of Reference Formulae contains the word "Fixing", such Reference Formula is used to determine or calculate a Reference Fixing.

Notwithstanding the foregoing in respect of a Product (i) a Reference Formula used to calculate a Reference Level (a "**Base Reference Formula**"), can also be used to determine a Reference Price or to calculate a Reference Performance and in that case its denomination in the applicable Final Terms of the relevant Product shall contain the word Price or Performance (an "**Alternative Reference Formula**"), (ii) a Reference Formula used to calculate a Reference Performance (a "**Base Reference Formula**"), can also be used to determine a Reference Price or to calculate a Reference Level and in that case its denomination in the applicable Final Terms of the relevant Product shall contain the word Price or Level (an "**Alternative Reference Formula**") provided that in each case the Alternative Reference Formula shall be deemed to be part of the same Family of Reference Formulae as the Base Reference Formula.

Example:

Section 4.11 contains the following Reference Formula: **WeightedMaxTimeLevel(i)** means the Sum, for k from 1 to N, of the Product $W(i,k)$ and $MaxTimeLevel(i,k)$ and is used to calculate a level of the Price of the Underlying. The same Reference Formula can also be used to determine a performance of the price of the Underlying and is then expressed in the applicable Final Terms as follows:

WeightedMaxTimePerformance(i) means the Sum, for k from 1 to N, of the Product $W(i,k)$ and $MaxTimePerformance(i,k)$

2) Cap, Floor, Leverage, Shift

When the denomination of a Reference Formula in a Family of Reference Formulae described in sections 4.1 to 4.29 below use a Cap and contains the word "Capped", this means that by applying such Reference Formula, the price(s), level(s) or performance(s) of one or more Underlying(s) or fixing(s) of the Reference Rate retained to calculate a Product Amount will be the lower between (i) the Cap and (ii) the actual relevant price(s), level(s) or performance(s) of such Underlying(s) or of the fixing(s) of the Reference Rate.

When the denomination of a Reference Formula in a Family of Reference Formulae in sections 4.1 to 4.29 below uses a Floor and contains the word "Floored", this means that by applying such Reference Formula, the price(s), level(s) or performance(s) of one or more Underlying(s) or fixing(s) of the Reference Rate retained to calculate a Product Amount will be the higher between (i) the Floor and (ii) the actual relevant price(s), level(s) or performance(s) of such Underlying(s) or of the fixing(s) of the Reference Rate(s).

When the denomination of a Reference Formula in a Family of Reference Formulae in sections 4.1 to 4.29 below uses a Leverage and contains the word "Leverage", this means that by applying such Reference Formula, the price(s), level(s) or performance(s) of one or more Underlying(s) or fixing(s) of the Reference Rate retained to calculate a Product Amount will be the Product of the Leverage and the actual relevant price(s), level(s) or performance(s) of such Underlying(s) or of the fixing(s) of the Reference Rate(s).

When the denomination of a Reference Formula in a Family of Reference Formulae described in sections 4.1 to 4.29 below use a Shift and contains the word "Shifted", this means that by applying such Reference Formula, the price(s), level(s) or performance(s) of one or more Underlying(s) or fixing(s) of the Reference Rate retained to calculate a Product Amount will be the sum of (i) the Shift and (ii) the actual relevant price(s), level(s) or performance(s) of such Underlying(s) or of the fixing(s) of the Reference Rate.

Notwithstanding the foregoing:

a) In respect of a Product (i) a Reference Formula the denomination of which uses a Cap and contains the word "Capped" (a "**Base Reference Formula**"), can also be used with a Floor and in that case in the applicable Final Terms of the relevant Product, it shall embed a Floor and its denomination will contain the word "Floored" (an "**Alternative Reference Formula**") and (ii) a Reference Formula the denomination of which uses a Floor and contains the word "Floored" (a "**Base Reference Formula**"), can also be used with a Cap and in that case in the applicable Final Terms of the relevant Product, it shall embed a Cap and its denomination will contain the word "Capped" (an "**Alternative Reference Formula**"). In each case the Alternative Reference Formula shall be deemed to be part of the same Family of Reference Formulae as the Base Reference Formula;

Example:

Section 4.1 contains the following Reference Formula: **CappedLevel(i, Strike, Cap(i))** means the Minimum between Level(i, Strike) and Cap(i).

A Floor shall appear in the applicable Final Terms of the relevant Product as follows: **FlooredLevel(i, Strike, Floor(i))** means the Maximum between Level(i, Strike) and Floor(i).

b) A Reference Formula in a Family of Reference Formulae in sections 4.1 to 4.29 below which does not contain a Cap or a Floor or a Leverage or a Shift (a "**Base Reference Formula**"), can be used (i) with a Floor and in that case in the applicable Final Terms of the relevant Product, it shall embed a Floor and its denomination will contain the word "Floored" (an "**Alternative Reference Formula**") or (ii) with a Cap and in that case in the applicable Final Terms of the relevant Product, it shall embed a Cap and its denomination will contain the word "Capped" (an "**Alternative Reference Formula**") or (iii) with a Leverage and in that case in the applicable Final Terms of the relevant Product, it shall embed a Leverage and its denomination will contain the word "Leverage" (an "**Alternative Reference Formula**") or (iv) with a Shift and in that case in the applicable Final Terms of the relevant Product, it shall embed a Shift and its denomination will contain the word "Shifted" (an "**Alternative Reference Formula**"). In each case the Alternative Reference Formula shall be deemed to be part of the same Family of Reference Formulae as the Base Reference Formula and the impact of the addition of a Cap or a Floor or a Leverage shall be as described in 2) above.

Example:

Section 4.3 contains the following Reference Formula:

BasketLevel(i) means the Sum, for k from 1 to N, of the Product of W(i,k) and Level(i,k).

Such Reference Formula may also be used with a Cap and then reads as follows:

In addition any Reference Formula of a Family of Reference Formulae in sections 4.1 to 4.29 below for Products that have more than one Underlying can be used either on the whole basket of the N Underlyings or on a sub-basket of such whole basket. In this case, the prefix "Sub" will be added to the Reference Formula as described below.

The prefix "Sub" can be added to any Reference Formula (a "**Base Reference Formula**") in a Family of Reference Formulae in sections 4.1 to 4.29 below. In that case its denomination in the applicable Final Terms of the relevant Product shall contain the prefix "Sub" (an "**Alternative Reference Formula**") provided that in each case the Alternative Reference Formula shall be deemed to be part of the same Family of Reference Formulae as the Base Reference Formula.

Example:

AverageBasketLevel(i) means the Arithmetic Average, for k from 1 to N , of Level(i, k).

WorstPrice(i) means the Minimum, for k from 1 to N of Price(i,k).

By introducing the notion of "Sub", it becomes:

SubAverageBasketLevel(i, SubN1, SubN2) means the Arithmetic Average, for k from SubN1 to SubN2, of Level(i, k).

SubWorstPrice(i, SubN1, SubN2) means the Minimum, for k from SubN1 to SubN2 of Price(i,k).

6) Level, Performance of FX underlying

When the denomination of a Reference Level or a Reference Performance (a "Base Reference Formula") in a Family of Reference Formulae in sections 4.1 to 4.29 below is applied to a foreign exchange rate underlying, the Level or Performance retained to calculate a Product Amount may be expressed in a standard version like in sections 4.1 to 4.29 below or, as the case may be, as follows:

FXLevel(i) means $1 / (S(i) / S(0))$, which may also be written as $(S(0) / S(i))$

FXPerformance(i) means $(1 / (S(i) / S(0))) - 100\%$, which may also be written as $(S(0) / S(i)) - 100\%$ or **FXPerformance(i)** means $100\% - (S(i) / S(0))$

In the case of a basket of underlyings:

FXBasketPerformance(i) means $100\% - \text{BasketLevel}(i)$

In that case the applicable Final Terms of the relevant Product shall contain the word "FX" (an "**Alternative Reference Formula**") provided that in each case the Alternative Reference Formula shall be deemed to be part of the same Family of Reference Formulae as the Base Reference Formula.

Example:

Section 4.5 contains the following Reference Formula: **BestPerformance(i)** means the Maximum, for k from 1 to N , of $\text{Performance}(i,k)$. The same Reference Formula may be applied to FX underlyings and is then expressed in the applicable Final Terms as follows:

Shifted

Illustration 2:

MinTimeLevel(i) means the Minimum, for k from 1 to N , of $\text{Level}(i,k)$.

By introducing the notion of Daily Valuation Date (abbreviated as "DVD"):

MinTimeLevel(DVD(i)) means the Minimum, for k from 1 to N , of $\text{Level}(\text{DVD}(i),k)$

b. Case of a Schedule

When a Schedule is necessary, it has to be associated to a ReferenceFormula as follows:

- ReferenceFormula($\{\text{Schedule}(i)\}$) refers to any Dates belonging to the considered Schedule(i).

Illustration 1:

MaxTimeLevel(t) means the Maximum, for i from 1 to t , of $\text{Level}(i)$.

If (a) the Price Source (or any page that may be substituted for it) is not available or (b) the fixing of the foreign exchange rate is not available on the Price Source at the Valuation Time, the fixing shall be the foreign exchange rate expressed as X/Y (X and Y are currencies) as ascertained by the Calculation Agent based on the Substitute Price Source (as such term is defined in the relevant Additional Terms and Conditions for Foreign Exchange Rate Linked Notes) at the Valuation Time, failing which if, on the Valuation Date(i) at the Valuation Time, (a) there is no Substitute Price Source defined in the applicable Final Terms, (b) the Substitute Price Source (or any page that may be substituted for it) is not available or (c) the fixing of such foreign exchange rate is not available on the Substitute Price Source at the Valuation Time, then the fixing for the foreign exchange rate will be determined by the Calculation Agent acting in good faith and commercially reasonable manner. For the avoidance of doubt, FXRate or FXRate(i) or FXRate(i, X, Y, Price Source, Substitute Price Source, Valuation Time) will not be used to determine the Closing Price of an Underlying that is a Foreign Exchange Rate.

5. GENERAL DEFINITIONS USED IN THESE ADDITIONAL TERMS AND CONDITIONS RELATING TO FORMULAE

5.1 Generic indices, enumeration, simplification and scenario conventions

5.1.1 Generic indices convention used in Product Formulae definitions

"i" or "t" or "t1" or "t2" means the reference to any date relating to a Valuation Date, Relevant Valuation Date or a date within a relevant Schedule. For ease of reading, those letters can be replaced by n, t, x, y or z, being clarified that this list is not exhaustive.

"k" or "s" means the reference to any Underlying specified in the relevant Basket.

"N" means the number of Underlyings comprised in the relevant Basket.

"SubN" means the number of Underlyings comprised in the relevant sub-basket defined as a part of the relevant Basket. SubN is strictly lower than N.

"RVD(i)" ("**Relevant Valuation Date**") and with the abbreviate "**RVD**") means, in respect of any date(i), the reference to a date (which may be different from date(i))

For illustration purposes, Valuation Date(i) may be, in respect of an Interest Payment Date(i), the Valuation Date immediately preceding such Interest Payment Date.

"t0" (or "0") means the first Valuation Date or the first date of a relevant Schedule.

"T" means the last Valuation Date or the last date of a relevant Schedule.

For the avoidance of doubt, i-1, t-1, t1-1, t2-1, or T-1 (resp. t+1, t1+1, t2+1, or T+1) means the Valuation Date immediately preceding (resp. following) i, t, t1, t2 or T.

5.1.2 Enumeration convention

Enumeration will be generally defined as follows:

The dates within the Reference Formula are defined using the following enumeration "from 0 to t" and / or "from 1 to t" and / or "from t1 to t2". The ReferenceFormula listed below can be defined with any of such three enumerations, as the case may be to determine the Product Formula.

Illustration

"**MaxTimeBasketLevel(t)**" means the Maximum, for i from 1 to t, of BasketLevel(i)"
could be modified in:

"**MaxTimeBasketLevel(t1, t2)**" means the Maximum, for i from t1 to t2, of BasketLevel(i)."

"(i from t1 to t2)" means any date(i) from and including t1 to and including t2.

"(k from 1 to N)" means any Underlying(k) within a Basket from and including Underlying(1) to and including Underlying(N).

For the avoidance of doubt, lower and upper bounds of enumerations used in Product Formulae definitions can be modified notably (but not only) to take into account specificities of Schedules relating to Products. For instance (i from 0 to T) used in a generic Product Formula can become (i from 1 to T-1) for the purpose of defining a Product Formula in respect of a particular Product.

5.1.3 Simplification convention

5.1.3.1 For ease of reading, certain conditions relating to Product Formula(e) as defined herein may be simplified as follows:

Case 1: *only one barrier condition is required*

For example in respect of the following conditions:

"If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] AutocallBarrier(T) and ReferenceFormula_Barrier(T) is higher than [or equal to] FinalBarrier, then:",

If the second condition "ReferenceFormula_Barrier(T) is higher than [or equal to] FinalBarrier" is not required, these conditions may be simplified as follows: "If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] AutocallBarrier(T), then".

Case 2: *one of the barrier condition is redundant*

For example, in respect of the following conditions:

"If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] AutocallBarrier(T) and ReferenceFormula_Barrier(T) is lower than [or equal to] FinalBarrier, then:",

If "ReferenceFormula_Autocall(T) is equal to ReferenceFormula_Barrier(T) and FinalBarrier is lower than or equal to AutocallBarrier(T)", is not required, these conditions may be simplified as follows:

"If on Valuation Date(T), ReferenceFormula_Autocall(T) is lower than [or equal to] FinalBarrier, then".

Case 3: *addition of Variable Data and values determined based on Reference Formulae*

For example, in respect of the following Product Formula:

"Product Formula(T) = ConstantRedemptionLevel_FRA + Participation x (ReferenceFormula_Final(T) – Strike)"

If ConstantRedemptionLevel_FRA is equal to 90%, Participation is equal to 100% and Strike is equal to 10%, Product Formula may be simplified as follows:

"Product Formula(T) = 80% + ReferenceFormula_Final(T)"

where:

80% = 90% - 10%

5.1.3.2 EU Allowance

For ease of reading, where the application of the formulae produces the same Product Amount in both scenarios, the Final Redemption Amount may be simplified as follows:

Final Redemption Amount = Product Amount

5.1.4 Scenario convention

The convention described hereunder is applicable to all the different Scenarios described in Condition 3.

A scenario is deemed to have occurred and therefore to pay an associated Product Formula according to the position of the relevant Reference Formula and a predefined barrier and/or according to the occurrence of an knock-in event. The position of the relevant Reference Formula and a predefined barrier can be "higher", "lower", "higher or equal to" or "lower or equal to". When the position of the relevant Reference Formula is described as being "higher" or "lower", it can be written as "strictly higher" or "strictly lower".

Upon the occurrence or likely occurrence, as determined by the Calculation Agent, of a Benchmark Event affecting an Underlying (the **Affected Underlying**) on or after the Issue Date the Calculation Agent may:

(A) adjust the Affected Underlying as it may determine appropriate to account for the relevant event or circumstance and, without limitation, such adjustments may include selecting a successor Underlying which is representative of the same economic or geographic sector, and making any other change or adjustment to the terms of the Structured Notes including where applicable to reflect any increased costs of the Issuer providing such exposure to the successor Underlying and, in the case of more than one successor Underlying, making provision for allocation of exposure between the successor Underlyings; or

(B) If the Calculation Agent has not made an adjustment in accordance with A above, then the Calculation Agent, acting in good faith, may either:

(i) consider such event as an event triggering an early redemption of the Notes (hereafter an **Early Redemption Event**). In that case, the Issuer shall terminate its obligations under the Structured Notes and shall pay or cause to be paid an Early Redemption Amount based on the Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

(iii) in respect of a Benchmark, a public statement or publication of information by the regulatory supervisor for the administrator of such Benchmark announcing that (a) the regulatory supervisor has determined that such Benchmark is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that such Benchmark is intended to measure and that representativeness will not be restored and (b) it is being made in the awareness that the statement or publication will engage certain contractual triggers for fallbacks activated by pre-cessation announcements by such supervisor (howsoever described) in contracts;

(iv) any event which otherwise constitutes an "index cessation event" (regardless of how it is actually defined or described in the definition of the Benchmark) in relation to which a Priority Fallback (as defined in Condition 3 of the General Terms and Conditions) is specified.

If, for a Benchmark, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes a Benchmark Cessation or (ii) a Benchmark Cessation and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will in either case constitute a Benchmark Cessation and will not constitute or give rise to an Administrator/Benchmark Event.

The following Conditions will not apply to Structured Notes that are Commodity Linked Notes, Fund Linked Notes, ETF Linked Notes, ETP Linked Notes or Portfolio Linked Notes but shall apply to any other Structured Notes.

(i) **Change in Law** means in respect of Structured Notes that have one or more Underlying(s) and/or Bond(s) and/or Reference Entity(ies), that, on or after the first to occur of (a) the Issue Date, (b) the trade date of any Hedge Position, and (c) the first Valuation Date of the Structured Notes (if applicable) (i) due to the adoption of, or any change in, any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements and, with respect to SGI Index Linked Notes only, any regulation, rule or procedure of any Exchange on which any Index Component or any component thereof is traded) (the **Applicable Law and Regulation**) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority or

brought in a court of competent jurisdiction), the Calculation Agent determines in good faith that (a) in respect of Underlyings, Bonds or Reference Entities negotiated or located in AEJ Closed Markets, it will, or there is a substantial likelihood that it will, within the next 30 calendar days, but before the Maturity Date of the Note, become, or it has become illegal and (b) in respect of any other Underlying, it has become illegal, for Societe Generale or any of its affiliates to maintain the agreement entered into with Societe Generale or any of its affiliates by the Issuer of the Notes relating to the Underlying of the Structured Notes and/or Reference Entity(ies) and/or Bond(s).

Where:

(iii) Increased Cost of Hedging means, unless it being specified as "Not Applicable" in the applicable Final Terms in respect of Structured Notes that have one or more Underlying(s) and/or Reference Entity(ies) and/or Bond(s), that Societe Generale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Societe Generale or any of its affiliates enters into the Hedge Positions in respect of the Structured Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (or any other relevant price risk including, without limitation, the bond price risk, credit price risk, currency risk, equity price risk, dividend risk, interest rate risk, foreign exchange risk, warrant price risk) of entering into and performing its obligations with respect to the Structured Notes or any agreement entered into by the Issuer with Societe Generale or any of its affiliates in relation to the Structured Notes or (b) freely realise, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into by the Issuer with Societe Generale or any of its affiliates in relation to the Structured Notes.

Where:

In the case of occurrence of an Extraordinary Event as defined above, the Calculation Agent may:

(A) replace the Affected Underlying by a new Underlying, the Affected Reference Entity by a new reference entity or the Affected Bond by a new bond, as the case may be, which is representative of the same economic or geographic sector; or

(B) in the case of Increased Cost of Hedging only, deduct:

(i) from the Interest Amount(s) (if any) due under any Structured Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Societe Generale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Structured Notes, such amount to be apportioned pro rata amongst the outstanding Structured Notes (the **Reduction Amount**); provided however that if on an Interest Payment Date on which a Reduction Amount shall

be deducted from the Interest Amount, the Reduction Amount in respect of one Structured Note is higher than such Interest Amount due under one Structured Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Structured Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

(ii) in the absence of any Interest Amount in respect of the Structured Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Structured Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero); or

(iii) in the case of Structured Notes that are Physical Delivery Notes, any Physical Delivery Amount which is calculated in connection with the Structured Notes shall be reduced by the Reduction Amount (subject to a floor of zero).

If the Calculation Agent has not made a replacement in accordance with (A) above (or a deduction in accordance with (B) above in the case of Increased Cost of Hedging only), then the Calculation Agent, acting in good faith, may either:

(A) consider such event as an event triggering an early redemption of the Structured Notes (hereafter, an **Early Redemption Event**). In that case, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions of the Notes; or

(B) apply Monetisation until the Maturity Date (as defined in Condition 6.5 of the General Terms and Conditions).

Following the occurrence of any Potential Adjustment Event as defined above, the Calculation Agent will, as soon as reasonably practicable after it becomes aware of such event determine whether such Potential Adjustment Event has a diluting or concentrative effect:

(i) on the theoretical value of the Share and, if so, will (a) calculate the corresponding adjustment, if any, to be made to the elements relating to the relevant Share used to determine any settlement or payment terms under the Notes and/or adjust any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes and (b) determine the effective date of that adjustment; or

(ii) on the Deposited Securities that affects the theoretical value of the Depositary Receipts, provided that an event that has a diluting or concentrative effect on the Deposited Securities will affect the theoretical value of the Depositary Receipts unless (and to the extent that) the Company or the Depositary, pursuant to its authority (if any) under the Deposit Agreement, elects to adjust the number of the Deposited Securities that are represented by each Depositary Receipt such that the price of the Depositary Receipts will not be affected by any such event (as determined by the Calculation Agent), in which case the Calculation Agent will make no adjustment. If the Company or the Depositary elects not to adjust the number of Deposited Securities that are represented by a Depositary Receipt or makes an adjustment that the Calculation Agent determines not to have been adequate, then the Calculation Agent may make the necessary adjustment to the elements relating to the Underlying used to determine any settlement or payment terms under the Notes and/or any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes (subject to any Local Taxes to be withheld or paid) and determine the effective date of that adjustment. The Depositary may also have the ability pursuant to the Deposit Agreement to make adjustments in respect of the Depositary Receipts for share distributions, rights distributions, cash distributions and distributions other than shares, rights and cash. Upon any such adjustment by the Depositary, the Calculation Agent may make the necessary adjustments as the Calculation Agent deems appropriate to account for such event.

In its determinations of the existence and extent of any dilutive or concentrative effect on the theoretical value of the Shares or on the Deposited Securities that affects the theoretical value of the Depositary Receipts of any Potential Adjustment Event, and any related adjustments to the terms of the Notes, the Calculation Agent shall take into account (i) any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Potential Adjustment Event and, in respect of Shares traded through the China Connect Services only, (ii) any requirement, adjustment and/or limitation that may be imposed by the China Connect Service or any action or inaction by any one or more of the Exchange, SEHK, CSDCC and HKSCC in relation to such Potential Adjustment Event.

The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options on the Share or on the Deposited Securities traded on such Related Exchange.

Definitions applicable to this Condition:

Offshore Investor means a holder of Shares or Deposited Securities who is an institutional investor not resident in the country in which the Company has been incorporated or in which the Exchange, on which the Share (or the Deposited Securities) is (are) listed is located (the **Local Jurisdiction**), for the purposes of the tax laws and regulations of the Local Jurisdiction and, for the avoidance of doubt, whose jurisdiction of residence (a) shall be determined by the Calculation Agent and (b) may be the jurisdiction of Societe Generale or any of its affiliates.

3.1.2 Extraordinary events and consequences

A. Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of the opening of an Offering Period relating to a Merger Event, a De-merger Event, a Tender Offer, a De-listing Event, an Insolvency or a Nationalisation, in respect of (i) the Company or issuance of Shares by the Company, as applicable (an **Affected Share**) or (ii) a Depositary Receipt (an **Affected Depositary Receipt**), then during such Offering Period, the Calculation Agent may

decide in good faith to apply Method of Substitution with respect to the Affected Share or Affected Depositary Receipt as the case may be.

B. If the Calculation Agent decides not to apply Method of Substitution during the Offering Period with respect to the Affected Share or the Affected Depositary Receipt, then:

(a) in respect of a Merger Event (or a Tender Offer as the case may be), from the Merger Date (or the Tender Offer Date as the case may be), and/or upon consummation of the Merger Event (or the Tender Offer as the case may be), until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, shall apply, in relation to Share-for-Share, Share-for-Other and Share-for-Combined, either:

(x) Calculation Agent Adjustment and/or

(y) Method of Substitution

(b) in the case of a Merger Event affecting two Shares or two Depositary Receipts comprised in a Basket, the Calculation Agent will either:

(x) continue with the share or the Depositary Receipt resulting from the Merger Event and in order to maintain the original number of companies in the Basket, a Substitute Share or Substitute Depositary Receipt (as applicable) will be elected and included in the Basket;

(y) substitute both Shares or Depositary Receipts with two Substitute Shares or Substitute Depositary Receipt selected as described in the Method of Substitution;

(c) in respect of a De-merger Event, from the De-merger Date, and/or upon consummation of the De-merger Event, until the sixtieth Business Day thereafter, the Calculation Agent will either:

(x) replace the Affected Share or the Affected Depositary Receipt with the shares or depositary receipts of the successor companies;

(y) substitute one or more share(s) or depositary receipt(s) resulting from such De-merger Event pursuant to the Method of Substitution;

it being understood that, in the case of a Basket, the Calculation Agent shall maintain the initial number of companies in the Basket and that in the case where the Calculation Agent has elected to substitute the Affected Share or the Affected Depositary Receipt with several shares or depositary receipts resulting from such De-merger Event, such shares or depositary receipts shall be placed in a sub-basket and considered as one component of the Basket;

(d) in respect of a De-listing Event or a Nationalisation, from the effective date of such event, until the sixtieth Business Day thereafter, the Calculation Agent may apply the Method of Substitution;

(e) in respect of an Insolvency, the Calculation Agent will decide either:

(x) that the Affected Share or the Affected Depositary Receipt will be substituted pursuant to the Method of Substitution;

(y) that the value of the relevant component in the formula used to determine the amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms, representing the Affected Share or the Affected Depositary Receipt will be accounted by the Calculation Agent for its fair market value determined at any time as from the date of occurrence of such Insolvency until the last Valuation Date or the last Averaging Date. The determination of the fair market value shall depend upon the liquidity of the market and the trading conditions relating to the Share or the Depositary Receipt affected at the time of calculation;

(f) In each case as developed in (a), (b), (c), (d) and (e) above, if the Calculation Agent has not retained as the case may be, (x) or if in (y) no share or depositary receipt meets the criteria as set out in the Method of Substitution, then the Calculation Agent may either:

(x) apply Condition 6.5 "Monetisation until the Maturity Date" of the General Terms and Conditions; or

(y) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the relevant Notes and pay to each Noteholder, as soon as possible after the occurrence of any of the events described in (a), (b), (c), (d) and (e) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

C. Notwithstanding anything herein to the contrary, the Calculation Agent shall use its reasonable endeavours at all times to maintain the original number of companies in the Basket as Companies hereunder.

Definitions applicable to this Condition:

Calculation Agent Adjustment means, in respect of a Merger Event (or a Tender Offer as the case may be), the Calculation Agent shall, on or after the relevant Merger Date (or the Tender Offer Date as the case may be), (A) make such adjustment to the exercise, settlement, payment or any other terms of the Note as the Calculation Agent determines appropriate to account for the economic effect on the Note of such Merger Event (or such Tender Offer as the case may be) (provided that no adjustments will be made to

account solely for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or the Depositary Receipt or to the Note), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event (or such Tender Offer as the case may be) by an options exchange to options on the relevant Shares or Depositary Receipts traded on such options exchange and (B) determine the effective date of that adjustment.

Combined Consideration means New Shares in combination with Other Consideration.

De-listing Event means, in respect of a Share or a Depositary Receipt, that such Share or Depositary Receipt (or Deposited Securities related to such Depositary Receipt): (a) ceases to be listed, traded or publicly quoted on the relevant Exchange or listing compartment of the relevant Exchange (for any reason other than a Merger Event or a Tender Offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any Member State of the European Union) or (b) has its listing, trading or public quotation maintained in inappropriate conditions in the opinion of the Calculation Agent (such conditions to include, without limitation, a lack of liquidity or the disappearance of the relevant futures and/or option contract of the relevant Share or Depositary Receipt (or Deposited Securities related to such Depositary Receipt)).

De-merger Event means, in respect of any Share or Depositary Receipt, that the Company relevant to such Share or Depositary Receipt is affected by a de-merger including, without limitation, a spin off, *scission* or any operation of a similar nature.

De-merger Date means the date on which a De-merger Event becomes effective.

Early Redemption means that there will be an early redemption of the Notes on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

Fixing Period means the period subject to a maximum of ten Exchange Business Days, which shall expire no later than 90 Business Days following the Merger Date, the De-merger Date, the Tender Offer Date or the effective date of the De-listing Event, Nationalisation or Insolvency during which:

A. Societe Generale or any of its affiliates sells the Affected Shares or the Affected or Depositary Receipt, the New Shares and/or the Other Consideration, (as the case may be), on the basis of the weighted average of the closing prices of the relevant assets traded by Societe Generale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period; and

B. the proceeds of such sale are re-invested in the Substitute Shares, Substitute Depositary Receipt and/or New Shares accordingly during the said Fixing Period on the basis of the weighted average of the closing prices of such Substitute Shares, Substitute Depositary Receipt and/or New Shares traded by Societe Generale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period.

Insolvency means, in respect of a Company, voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of, or any analogous proceeding affecting, such Company, as determined in good faith by the Calculation Agent.

Merger Date means, in respect of a Share or a Deposited Security, the date upon which holders of the necessary number of the relevant Shares or Deposited Securities (other than, in the case of a takeover offer, Shares or Deposited Securities owned or controlled by the offeror) to constitute a Merger Event have agreed or have irrevocably become obliged to transfer their Shares or Deposited Securities.

Merger Event means, in respect of any Share or Depositary Receipt:

A. any reclassification or change of such Share or Deposited Security (including the change of currency reference of the Share or the Deposited Security) that results in a transfer of or an irrevocable commitment to transfer all of such Share or Deposited Security outstanding to another entity or person;

B. any consolidation, amalgamation, merger or binding share exchange of the relevant Company with or into another entity (other than a consolidation, amalgamation or merger in which such Company is the continuing entity and which does not result in a reclassification or change of all of the outstanding Shares or Deposited Securities);

C. other take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares or Deposited Securities that results in a transfer of or an irrevocable commitment to transfer all or part of such Shares or Deposited Securities (other than any of such Shares or Deposited Securities owned or controlled by the offeror); or

D. any consolidation, amalgamation, merger or binding share exchange of the relevant Company or its subsidiaries with or into another entity in which such Company is the continuing entity and which does not result in a reclassification or change of all of the outstanding Shares or Deposited Securities but results in the outstanding Shares or Deposited Securities (other than Shares or Deposited Securities owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares or Deposited Securities immediately following such event.

Method of Substitution means that in the case of a Merger Event, De-merger Event, Tender Offer, De-listing Event, Nationalisation or Insolvency (regardless of the consideration to be received), in respect of an Affected Share or the Affected Depositary Receipt, the Calculation Agent may consider that the Affected Share, the Affected Depositary Receipt, the New Shares and/or, all or part of the Other Consideration (as the case may be) is/are converted into cash and that the proceeds will be reinvested either (a) into a new share or a new depositary receipt of the same economic sector or into a share or a depositary receipt issued by a company of a

similar international standing or creditworthiness as the Company related to the Affected Share or the Affected Depositary Receipt (the **Substitute Share** or the **Substitute Depositary Receipt**, as the case may be) or (b) in the case of Combined Consideration into New Shares. In the event of Other Consideration to be received in cash, in the future, the Calculation Agent may consider that the cash to be received in the future is discounted in order to immediately re-invest the proceeds then procured in accordance with (a) and (b) above.

The sale of the Affected Share, the Affected Depositary Receipt, the New Shares and/or the Other Consideration shall be deemed to take place during the Fixing Period. The Substitute Share or the Substitute Depositary Receipt, as the case may be, and the company issuing such Substituted Share or, in the case of a Depositary Receipt, the company issuing the Deposited Securities will be deemed a **Share** or a **Depositary Receipt** and the **Company** respectively, and the Calculation Agent will adjust any relevant terms of the Notes.

For information purposes, it is understood that in all cases described herein where a Share or a Depositary Receipt is substituted, on any date "t", with a Substitute Share or Substitute Depositary Receipt, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute Depositary Receipt and would mean the closing price of such Substitute Share or Substitute Depositary Receipt on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share or the Affected Depositary Receipt on such date "t".

Nationalisation means that all the Shares or the Deposited Securities or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

New Shares means shares or depositary receipts (whether of the offeror or a third party) that are listed or quoted on a recognised exchange involved in the application of Method of Substitution or Calculation Agent Adjustment as determined by the Calculation Agent.

Offering Period means the period from and including the date on which the Tender Offer, the Merger Event, the De-listing Event, the De-merger Event, the Insolvency or the Nationalisation is publicly and officially announced to but excluding the Merger Date or the De-merger Date, the Tender Offer Date, the effective date of the De-listing Event, the Insolvency or the Nationalisation.

Other Consideration means cash and/or any securities (other than New Shares) or assets (whether of the offeror or a third party).

Share-for-Combined means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists of Combined Consideration.

Share-for-Other means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists solely of Other Consideration.

Share-for-Share means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists (or, at the option of the holder of such Shares or Depositary Receipts, may consist) solely of New Shares.

Tender Offer means, in respect of any Share or Depositary Receipt, a take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Company, as determined by the Calculation Agent based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

Tender Offer Date means, in respect of a Share or a Deposited Security, the date on which voting shares in the amount of the applicable percentage threshold are actually purchased or otherwise obtained (as determined by the Calculation Agent).

3.1.3 Stop-Loss Event

Unless "**Stop-Loss Event**" is specified as not applicable in the applicable Final Terms, if on any Exchange Business Day between the initial Valuation Date (excluded) and the last Valuation Date (included), the Closing Price of a Share or a Depositary Receipt is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Share** or the **Affected Depositary Receipt** and the event, the **Stop-Loss Event**), then:

A. the Calculation Agent may decide to substitute the Affected Share or the Affected Depositary Receipt by a new share or depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share or the Affected Depositary Receipt (the **Substitute Share** or **Substitute Depositary Receipt**, as the case may be) and will adjust any relevant terms of the Notes accordingly; or

B. the Calculation Agent may decide to continue with the Affected Share or the Affected Depositary Receipt; or

C. if the Calculation Agent has neither retained any Substitute Share or Substitute Depositary Receipt nor decided to continue with the Affected Share or the Affected Depositary Receipt, the Calculation Agent may either:

(a) apply Condition 6.5 "Monetisation until the Maturity Date" of the General Terms and Conditions; or

(b) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

For information purposes, it is understood that in all cases described herein where a Share or a Depositary Receipt is substituted, on any date "t", with a Substitute Share or Substitute Depositary Receipt, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute Depositary Receipt and would mean that the closing price of such Substitute Share or Substitute Depositary Receipt on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share or the Affected Depositary Receipt on such date "t".

3.1.4 Correction of the Closing Price

In the event that any price or level of a Share or a Depositary Receipt published on the Exchange which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction,

provided however that, all references to the word "four" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

Change in Law, Hedging Disruption, Holding Limit Event, Increased Cost of Hedging and Insolvency Filing have the meanings given to them in the Additional Terms and Conditions for Structured Notes.

In case of the occurrence of a Change in Law, a Hedging Disruption, Holding Limit Event, Increased Cost of Hedging or an Insolvency Filing relating to a Share or a Depositary Receipt (the **Affected Underlying**), the Calculation Agent may apply the adjustments as specified in the Additional Terms and Conditions for Structured Notes.

3.2.2 China Connect Share Disqualification and China Connect Service Termination and consequences

In respect of Shares traded through the China Connect Services, the following paragraphs apply:

China Connect Share Disqualification means, on or after the Issue Date, the Shares cease to be accepted as "China Connect Securities" (as defined in the rules of the exchange of SEHK) for the purpose of the China Connect Service;

China Connect Service Termination means, on or after the Issue Date, the announcement by one or more of the Exchange, SEHK, the CSDCC, HKSCC or any regulatory authority with competent jurisdiction of a suspension or termination of the China Connect Service or a part thereof for any reason which materially affects the routing of orders in respect of, or holding of, the Shares through the China Connect Service and the Calculation Agent determines that there is a reasonable likelihood that such suspension or termination is not, or will not be, temporary,

then upon the occurrence of such events, the Calculation Agent may elect, while China Connect Share Disqualification or China Connect Service Termination is continuing, to terminate the transaction(s), upon at least two Scheduled Trading Days' notice specifying the date of such termination, in which event the Calculation Agent will apply the Early Redemption.

3. ADJUSTMENTS AND EVENTS - CHANGE IN LAW, HEDGING DISRUPTION, HOLDING LIMIT EVENT, INCREASED COST OF HEDGING AND CONSEQUENCES

3.1 Adjustments and Events

3.1.1 Adjustments

A. If an Index is:

(a) not calculated and announced by the relevant Index Sponsor or the Index Calculation Agent as the case may be, but is calculated and announced by a relevant successor sponsor (the **Successor Index Sponsor**) or a successor calculation agent (the **Successor Index Calculation Agent**) acceptable to the Calculation Agent; or

(b) replaced by a successor index (the **Successor Index**) using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Index;

then the Index will be deemed to be the index so calculated and announced by the relevant Successor Index Sponsor or Successor Index Calculation Agent or that Successor Index (as the case may be).

B. If, in the determination of the Calculation Agent:

(a) on or prior to a Valuation Date or an Averaging Date, the relevant Index Sponsor (or if applicable the Successor Index Sponsor) makes a material change in the formula for, or the method of calculating, that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events (an **Index Modification**)). For the avoidance of doubt, the following events do not constitute

"routine events": a sub-division (split) of the level of the Index or a consolidation (reverse split) of the level of the Index, or any other event linked to either the performance or the level of the Index);

(b) on or prior to any Valuation Date or Averaging Date, the relevant Index Sponsor (or, if applicable, the relevant Successor Index Sponsor) or the Index Calculation Agent (or the Successor Index Calculation Agent) as the case may be, fails to calculate and publish the level of the Index and such failure is likely to have a material impact on the hedge of Societe Generale or one of its affiliates in connection with the Notes (an **Index Disruption**);

(c) the Index Sponsor (or, if applicable, the Successor Index Sponsor) permanently cancels the Index and no Successor Index exists (an **Index Cancellation** and together with an Index Modification and an Index Disruption, each an **Index Adjustment Event**); or

(d) for an Index which comprises any Fund Unit or ETF Share, an FRTB Event has occurred;

then the Calculation Agent shall either:

(x) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, *in lieu* of a published level for the Index, the level of that Index as at the Valuation Time on the relevant Valuation Date or Averaging Date, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to that Index Adjustment Event, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event (other than those securities that have since ceased to be listed on any relevant Exchange);

(y) replace the Index by a new index provided that such index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries; or

(z) only in case of FRTB Event, substitute the Index with a Substitute Index (an **Index Substitution Event**), where **Substitute Index** means an Index determined by the Calculation Agent as being similar to the benchmark of the affected Index or, in the absence of benchmark for the affected Index, as having an investment strategy similar to the investment strategy of the affected Index.

If the Calculation Agent has not retained (x) or (z) and if in (y) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either:

(i) apply "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions; or

(ii) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

3.1.2 Stop-Loss Event

Unless "Stop-Loss Event" is specified as not applicable in the applicable Final Terms, if on an Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of an Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Index** and the event, the **Stop-Loss Event**), then:

A. the Calculation Agent may decide to substitute the Affected Index by a new index representative of the same economic or geographic sector (as the case may be), and to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries (the **Substitute Index**) and will adjust any relevant terms of the Notes accordingly; or

B. the Calculation Agent may decide to continue with the Affected Index; or

If a date is specified in the applicable Final Terms as both a Barrier Date and a Valuation Date, it will be considered as a Valuation Date. Unless otherwise specified in the applicable Final Terms, if a Barrier Date falls on a date which is not a Scheduled Trading Day in respect of all SGI Indices which Index Rules specify that the only Basket Component "type" is "Physical Commodity" and/or "Commodity Contract", it shall be postponed to the next following day which is a Scheduled Trading Day with respect to all such SGI Indices.

(d) for an SGI Index in respect of which the Index Components comprise (i) one or more Equity Instruments that is a Fund Unit or an ETF Share or (ii) one or more Underlying Indices composed of one or more Fund Units or ETF Shares or (iii) any other similar instrument specified in the Index Rules, an FRTB Event has occurred;

then the Calculation Agent shall either:

(i) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, in lieu of a published level for the SGI Index, the level of that SGI Index on the relevant Valuation Date, Averaging Date or, in respect of any event described in B(a) and (b) above, Barrier Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that SGI Index last in effect prior to that Index Adjustment Event, but using only those Index Components that composed the SGI Index immediately prior to that Index Adjustment Event (other than those Index Components that have since then ceased to be listed on any relevant Exchange), and adjust, as the case may be, any of the relevant terms of the Notes; or

(ii) replace the SGI Index by a Similar Index (except for the case described in (b) above); or

(iii) consider such Index Adjustment Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

(iv) apply "Monetisation until the Maturity Date" (as defined in Condition 6.5 of the General Terms and Conditions); or

(v) only in case of FRTB Event, substitute the SGI Index with the Substitute Index (an **Index Substitution Event**), where **Substitute Index** means an Index determined by the Calculation Agent as being similar to the benchmark of the affected SGI Index or, in the absence of benchmark for the affected SGI Index as having an investment strategy similar to the investment strategy of the affected SGI Index. Following the occurrence of the Index Substitution Event, the Notes shall be governed by the Additional Terms and Conditions for Index Linked Notes for any aspect in relation with the Substitute Index.

provided that, for the avoidance of doubt:

in the event of the occurrence or existence, on a Barrier Date (which is not also a Valuation Date), of an Index Disruption in respect of an SGI Index which Index Rules specify that the only Basket Component "type" is "Physical Commodity" and/or "Commodity Contract", such Index Disruption will not result in the Calculation Agent taking any of the steps described in (i), (ii) and (iii) above with respect to such Barrier Date. Instead, such date will no longer be considered a Barrier Date, and accordingly the Calculation Agent will not determine whether a Barrier Level is reached, or any other condition has occurred, for such date with respect to the SGI Index affected by the Index Disruption.

3.1.2 Stop-Loss Event relating to an SGI Index

If, on any Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of an SGI Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected SGI Index** and the event, the **Stop-Loss Event**), then the Calculation Agent may decide to:

A. substitute the Affected SGI Index by a Similar Index and will adjust any relevant terms of the Notes accordingly; or

B. continue with the Affected SGI Index; or

C. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay or deliver, as the case may be, to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

3.1.3 Correction of the Closing Price of an SGI Index

In the event that any price or level published by the Index Calculation Agent which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Index Calculation Agent after the original publication but no later than four Business Days prior to the Maturity Date, (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction, *provided however that*, all references to the word "four" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

3.2 Change in Law, Hedging Disruption, Increased Cost of Hedging, Holding Limit Event and consequences

Change in Law, Hedging Disruption, Increased Cost of Hedging and **Holding Limit Event** have the meanings given to them in the Additional Terms and Conditions for Structured Notes.

In the case of the occurrence of a Change in Law, a Hedging Disruption, a Holding Limit Event or an Increased Cost of Hedging relating to an SGI Index (the **Affected Underlying**), the Calculation Agent may apply the adjustments as specified in the Additional Terms and Conditions for Structured Notes.

ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE RATE LINKED NOTES

The provisions of these Additional Terms and Conditions for Foreign Exchange Rate Linked Notes apply if the applicable Final Terms specify that the clause "*Type of Structured Notes*" is stated as being "*Foreign Exchange Rate Linked Notes*".

1. DEFINITIONS

Averaging Date means the dates specified as such in the applicable Final Terms or, if any such day is not a Scheduled Trading Day, the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

For EU Allowance Notes, Closing Price means the:

Spot FX Rate, which in respect of a Valuation Date, means the bid price ('FwdsBid') published by the Price Source (or its successor) in respect of such date; and

Fwd FX Rate, which, in respect of a Valuation Date, means the ask price ('FwdsAsk') published by the Price Source (or its successor) in respect of that date, provided that:

(a) If the exact maturity of the ask price is not available on the Price Source, the Calculation Agent will determine the Closing Price by applying linear interpolation based on the next shorter and next longer maturities available; and

(b) If it is not possible to determine the ask price based on the Price Source, the Closing Price will be a rate determined by the Calculation Agent acting in good faith and having regard to the conditions prevailing in the market.

Disrupted Day means any Scheduled Trading Day on which a Disruption Event has occurred.

Disruption Events means, in respect of a Foreign Exchange Rate, the occurrence or existence of (a) a Price Source Disruption, (b) an Illiquidity Disruption, (c) a Dual Exchange Rate or (d) any other event that, in the opinion of the Calculation Agent, is analogous to (a), (b) or (c). For the purpose hereof:

A. **Price Source Disruption** means that it becomes impossible to obtain the rate or rates from which the Closing Price is calculated.

B. **Illiquidity Disruption** means the occurrence of any event in respect of any Foreign Exchange Rate whereby it becomes impossible for the Calculation Agent to obtain a firm quote for such currency in an amount deemed necessary by the Calculation Agent to hedge its obligations under the Notes (in one or more transaction(s)) on the relevant Averaging Date or any Valuation Date.

C. **Dual Exchange Rate** means that the Foreign Exchange Rate splits into dual or multiple foreign exchange rates.

Foreign Exchange Rate means any exchange rate expressed as X/Y (X and Y are currencies) and specified as Underlying in the applicable Final Terms. For the avoidance of doubt, an exchange rate expressed as X/Y means the number of units (or part units) of Y for which one unit of X can be exchanged.

Intraday Price Source means, the published source, information vendor or provider as specified in the applicable Final Terms containing or reporting the rate or rates from which the Intraday Price is calculated.

Price Source means the published source, information vendor or provider as specified in the applicable Final Terms containing or reporting the rate or rates from which the Closing Price is calculated.

Scheduled Trading Day means a day on which commercial banks are open (or, but for the occurrence of a Disruption Event would have been open) for business (including dealings in foreign exchange in accordance with the market practice of the foreign exchange market) in the principal financial centres of the Foreign Exchange Rate.

Substitute Price Source means the substitute published source, information vendor or provider as specified in the applicable Final Terms (if any) containing or reporting the rate or rates from which the Closing Price is calculated.

Valuation Date means each date specified as such in the applicable Final Terms or, if such day is not a Scheduled Trading Day, the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

- (a) Such date shall be the Valuation Date for the Foreign Exchange Rates for which this date is a Scheduled Trading Day.
- (b) The Valuation Date for the Foreign Exchange Rates for which such date is not a Scheduled Trading Day shall be the immediately succeeding Scheduled Trading Day for each of these Foreign Exchange Rates unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

In case a Foreign Exchange Rate X/Y is described in the applicable Final Terms as the combination of two other Foreign Exchange Rates ($X/Y = X/Z$ multiplied by Z/Y , with X/Z and Z/Y the **Intermediate Foreign Exchange Rates**) and a day specified as a Valuation Date in the applicable Final Terms is a Scheduled Trading Day for one of the Intermediate Foreign Exchange Rates and not for the other, the Valuation Date for both Intermediate Foreign Exchange Rates (but only for the purpose of determining the Foreign Exchange Rate that is the combination of these two Intermediary Foreign Exchange Rates) shall be the first succeeding day that is a Scheduled Trading Day for both Intermediary Foreign Exchange Rates unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

Valuation Time means the time at which the Price Source publishes the relevant rate or rates from which the Closing Price is calculated, as specified in the applicable Final Terms.

2. CONSEQUENCES OF A DISRUPTION EVENT

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively), is a Disrupted Day for a Foreign Exchange Rate, the Calculation Agent shall :

- (a) determine to apply any of the following methods:
 - (x) determine that the Valuation Date or Averaging Date for such Foreign Exchange Rate shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of such Foreign Exchange Rate, unless each of the fourteen calendar days immediately following the Scheduled Valuation Date or Scheduled Averaging Date is also a Disrupted Day. In that case, the Scheduled Trading Day immediately following such fourteen calendar day shall be deemed to be the Valuation Date or Averaging Date for the Foreign Exchange Rate notwithstanding the fact that such day is a Disrupted Day, and the Calculation Agent shall determine, its good faith estimate of the fixing of the Foreign Exchange Rate as of the Valuation Time on that eighth Scheduled Trading Day and the good faith estimate of the fixing of the Foreign Exchange Rate so calculated shall be deemed the Closing Price.

Provided however that, if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the fourteen calendar day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then the Scheduled Trading Day immediately following such fourteen calendar day shall be deemed the Averaging Date (irrespective of whether that Scheduled Trading Day immediately following such fourteen calendar day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (x) above, and the good faith estimate of the fixing of the Foreign Exchange Rate so calculated shall be deemed the Closing Price; or

- (y) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

- (z) apply Condition 6.5 "Monetisation until the Maturity Date" of the General Terms and Conditions.

- (b) postpone any payment date related to such Averaging Date or Valuation Date (including, if applicable, the Maturity Date) until the second Business Day following the date on which a Disruption Event is no longer subsisting. No interest or other amount shall be paid by the Issuer in respect of such postponement.

provided however that all references to the word "second" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purposes of this Condition 2, **Clearing System** means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

3. CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING, HOLDING LIMIT EVENT AND CONSEQUENCES

Change in Law, Hedging Disruption, Increased Cost of Hedging and **Holding Limit Event** have the meanings given to them in the Additional Terms and Conditions for Structured Notes.

In the case of the occurrence of a Change in Law, a Hedging Disruption, a Holding Limit Event or an Increased Cost of Hedging relating to a Foreign Exchange Rate (the **Affected Underlying**), the Calculation Agent may apply the adjustments as specified in the Additional Terms and Conditions for Structured Notes.

2. PROVISIONS APPLICABLE TO COMMODITIES OTHER THAN INDICES

2.1 Commodity Business Day Adjustment

2.1.1 If a Valuation Date is not a Commodity Business Day with respect to a Commodity Reference Price, then the Valuation Date for such Commodity Reference Price shall be postponed to the next day which is a Commodity Business Day with respect to such Commodity Reference Price, subject to valuation deadline provisions in Condition 2.1.3 below.

2.1.2 If a Barrier Date is not a Common Commodity Business Day, then such Barrier Date shall be postponed to the next day which is a Common Commodity Business Day, subject to determination deadline provisions in Condition 2.1.3 below.

2.1.3 Notwithstanding the foregoing, a Valuation Date or a Barrier Date, shall occur not later than the earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date or Barrier Date, as the case may be. The earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) such fourth Business Day shall be deemed to be the Valuation Date or Barrier Date, as relevant, and the Calculation Agent shall determine the fair market value of the Commodity or Commodities for which the earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) that fourth Business Day is not a Commodity Business Day.

2.2 Consequences of Market Disruption Events

2.2.1 If a Market Disruption Event occurs or is continuing with respect to a Commodity Reference Price on a Valuation Date, then the price of such Commodity with respect to such Valuation Date will be (subject to the determination deadline provision in Condition 2.2.2 below):

(a) the Commodity Reference Price for such Valuation Date published by the relevant Exchange on the next Commodity Business Day on which there is no Market Disruption Event (the **Determination Day**);

(b) if the Commodity Reference Price is not determined as per paragraph (a) above or is a Limit Price, the Commodity Reference Price published by the relevant Exchange for such Determination Day.

(i) with respect to the Commodity or Commodities which are not affected by a Market Disruption Event on the fifth Commodity Business Day, the relevant Commodity Reference Price for that fifth Commodity Business Day and

(ii) with respect to the Commodity or Commodities which are affected by a Market Disruption Event on the fifth Commodity Business Day, the fair market value of such Commodity or Commodities.

2.2.2. 2.3 Consequences of extraordinary events affecting the Commodities or Commodity Reference Prices

If, any of the following extraordinary event occurs in respect of a Commodity or a Commodity Reference Price in the determination of the Calculation Agent:

A. the relevant Commodity Reference Price disappears or permanently discontinues or otherwise becomes unavailable; or

B. at any time following the first Valuation Date, a material change in the formula or the calculation method for the relevant Commodity Reference Price occurs; or

C. at any time following the first Valuation Date, a material change in the content, the composition or the constitution of the relevant Commodity occurs,

then, except in case of EU Allowance Notes, the Calculation Agent will be entitled to either:

Y. determine the fair market value of the relevant Commodity for the relevant Valuation Date or Barrier Date; or

Z. replace, to the extent possible, the affected Commodity Reference Price with a similar price.

If the Calculation Agent does not make a determination in accordance with Y above and if in the determination of the Calculation Agent, no price meets the criteria to be an appropriate replacement price in accordance with Z above, then, except in the case of EU Allowance Notes, the Calculation Agent will decide to either:

a. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

b. apply the "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions.

Subparagraph (a) shall not apply to Notes to be listed on the Italian Stock Exchange (Borsa Italiana S.p.A.).

2.4 Consequences of adjustment events affecting the Commodity Reference Price

If a Commodity Reference Price made public on the relevant Price Source's page and used in any calculation or determination made under the Notes is subsequently corrected and the correction is made available to the public on the relevant Price Source's page after the original publication but no later than the earlier of (i) the Maturity Date of a Note and (ii) four Commodity Business Days or Index Business Days, as applicable, prior to the Maturity Date of such Note or any payment date(s) (as set out in the applicable Final Terms), the Calculation Agent will determine whether adjustments to the terms of the Notes are necessary to account for such correction.

3. PROVISIONS APPLICABLE TO INDICES ON COMMODITIES

3.1 Index Business Day Adjustment

3.1.1 If a Valuation Date is not an Index Business Day with respect to a Commodity Index, then the Valuation Date for such Commodity Index shall be postponed to the next day which is an Index Business Day with respect to such Commodity Index, subject to valuation deadline provisions in Condition 3.1.3 below.

3.1.2 If a Barrier Date is not a Common Index Business Day, then such Barrier Date shall be postponed to the next day which is a Common Index Business Day, subject to determination deadline provisions in Condition 3.1.3 below.

3.1.3 Notwithstanding the foregoing, a Valuation Date or a Barrier Date shall occur not later than the earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date or Barrier Date; as the case may be. The earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) such fourth Business Day shall be deemed to be the Valuation Date or Barrier Date, as relevant, and the Calculation Agent shall determine the fair market level of the Commodity Index or Commodity Indices for which the earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) that fourth Business Day is not an Index Business Day.

3.2 Consequences of Index Disruption Events

3.2.1 If a Valuation Date specified in the applicable Final Terms is subject to an Index Disruption Event for a Commodity Index or any Underlying Index, as applicable, the level of such Commodity Index or Underlying Index shall be determined by the Calculation Agent in accordance with the formula and calculation method for that Commodity Index and Underlying Index, as applicable, then in effect (subject to determination deadline provisions in Condition 3.2.2 below), using:

(a) with respect to each commodity comprised in the Commodity Index or any Underlying Index for which no Commodity Instrument is affected by an Index Disruption Event, its settlement price as determined and made public by the relevant Exchange for the Valuation Date; and

(b) with respect to each commodity comprised in the Commodity Index or any Underlying Index for which one or more Commodity Instrument is affected by an Index Disruption Event:

(i) the settlement price of the Commodity Instruments related to such commodity as determined by the relevant Exchange for the Valuation Date and made public on the Valuation Date or retrospectively on the next Commodity Business Day on which there is no Index Disruption Event with respect to such Commodity Instruments;

(ii) if the settlement price of one or more Commodity Instruments related to such commodity is not determined as per (b)(i) above or is a Limit Price, the settlement price of all Commodity Instruments related to such commodity published by the relevant Exchange for

the next Commodity Business Day on which the Index Disruption Event ceases to exist with respect to all such Commodity Instruments;

(iii) the settlement price of such Commodity Instruments shall be determined within five (5) Commodity Business Days from and including the relevant Valuation Date for the purposes of paragraph (b)(i) and (b)(ii) above;

(iv) if the settlement price of one or more Commodity Instruments is not determined as per (b)(i) or (b)(ii) above,

Y. for each Commodity Instrument which is not affected by an Index Disruption Event on the fifth (5th) Commodity Business Day from and including the relevant Valuation Date and for which the relevant Exchange determines and makes public the settlement price on that day (and that settlement price is not a Limit Price), the settlement price of such Commodity Instrument(s) as determined and made public by the relevant Exchange; and

Z. for each other Commodity Instrument the fair market value of all such Commodity Instruments on that fifth Commodity Business Day, as determined by the Calculation Agent taking into consideration the latest available settlement price for such Commodity Instruments as determined and made public by the relevant Exchange and any other information that the Calculation Agent may in good faith deem relevant.

3.2.2 Notwithstanding the foregoing, the date on which the value of a Commodity comprised in the Commodity Index and the level of Commodity Index are determined shall occur not later than the earlier of (i) the Maturity Date of a Commodity Linked Note and (ii) the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such date.

3.3 Consequences of extraordinary events and adjustments to Indices

A. If a Commodity Index is:

(a) not calculated and made public by the relevant Index Sponsor and/or Index Calculation Agent but is calculated and made public by a relevant successor sponsor or calculation agent (the **Successor Sponsor** or **Successor Calculation Agent**, as the case may be) acceptable to the Calculation Agent, or

(b) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Commodity Index (the **Successor Index**);

then the Commodity Index will be deemed to be the index so calculated and made public by the relevant Successor Sponsor or Successor Calculation Agent or that Successor Index (as the case may be).

B. If, on or prior to a Valuation Date or a Barrier Date, in the determination of the Calculation Agent, the relevant Index Sponsor or Index Calculation Agent (as applicable) (or if applicable the Successor Sponsor or Successor Calculation Agent, as the case may be):

(a) makes a material change in the formula or calculation method of a Commodity Index or in any other way materially modifies a Commodity Index (other than a modification prescribed in that formula or method to maintain that Commodity Index in the event of changes in commodities comprised in the Commodity Index and capitalisation and other routine events). For the avoidance of doubt, and without limitation, any sub-division (split) of the Commodity Index or any consolidation (reverse split) of the level of the Commodity Index, or any other event linked to the performance or the level of the Commodity Index shall not be considered a routine event; or

(b) fails to calculate and publish the level of the Commodity Index for a continuous period of at least four (4) Commodity Business Days before and including that Valuation Date; or

(c) permanently ceases to calculate or cancels a Commodity Index and no Successor Index exists;

each of the events described in paragraphs (a), (b) and (c) above, an **Index Adjustment Event**;

then the Calculation Agent will be entitled to either:

Y. determine the level of that Commodity Index for the relevant Valuation Date or Barrier Date in accordance with the formula and calculation method for that Commodity Index last in effect prior to that Index Adjustment Event (provided that the Calculation Agent may, if required in the Calculation Agent's determination, adapt such formula or calculation method to take the Index Adjustment Event into account). The Commodity Index so calculated will be used in lieu of the Closing Price made public by the Index Sponsor or Index Calculation Agent (as applicable) for the determination of an amount to be paid under the Notes or to determine whether a condition, if any, has occurred or not, or

Z. replace the Commodity Index with a new index to the extent possible, representative of the similar type of commodities comprised in the Commodity Index and traded on one or more Exchanges.

If the Calculation Agent does not make a determination in accordance with Y above and if in the determination of the Calculation Agent, no index meets the criteria to be an appropriate replacement index in accordance with Z above, then the Calculation Agent will decide to either:

a. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid, an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

b. apply the "Monetisation until the Maturity Date", as defined in Condition 6.5 of the General Terms and Conditions.

4. CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING AND CONSEQUENCES

Change in Law means, with respect to Notes that have one or more Commodity(ies) or one or more Commodity Indice(s) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes, due to:

A. the adoption of, enactment, promulgation, execution or ratification of, or any change in, any applicable law or regulation (including without limitation, any Commodity Futures Trading Commission or any law or regulation in respect of tax, solvency or capital requirements) or any regulation, rule or procedure of any exchange or principal trading market on which a Commodity or any component thereof is traded (together the **Applicable Regulation**); or

B. the promulgation of, or any change in the published interpretation by official practice of any court, tribunal, regulatory or similar authority with competent jurisdiction or supervisory duty or exchange, of any Applicable Regulation (including without limitation any action taken by a taxing authority),

the Calculation Agent determines that:

Y. it is or will become illegal or contrary to any Applicable Regulation for Societe Generale or any of its affiliates to (a) hold, acquire or dispose of any Hedge Position (as defined below) or (b) maintain the agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes or to perform its obligations or exercise its rights thereunder; or

Z. Societe Generale or any of its affiliates incurs or there is a substantial likelihood that Societe Generale or any of its affiliates will incur increased costs, fees or charges in (a) acquiring, establishing, re-establishing, substituting, maintaining, unwinding or disposing of any Hedge Position or (b) maintaining any agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes or performing its obligations thereunder.

Hedging Disruption means, unless specified as "Not Applicable" in the applicable Final Terms in respect of Notes that have one or more Commodity(ies) or one or more Indice(s) as Underlying(s), that, as determined in good faith by the Calculation Agent, Societe Generale or any of its affiliates is unable, after using commercially reasonable efforts, to either:

A. acquire, establish, re-establish, substitute, maintain, unwind or dispose of any Hedge Position; or

B. freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Position or any agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes.

For the purpose hereof, **Hedge Position** means (i) one or more positions in or contracts related to commodities, over-the-counter or exchange-traded commodity derivative transactions, one or more positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions (ii) securities lending/borrowing transactions, (iii) any cash deposits or cash borrowing and/or (iv) other instruments, arrangements, assets or liabilities (howsoever described) necessary to hedge, individually or on a portfolio basis or otherwise, the risks of Societe Generale or any of its affiliates of (a) issuing and performing any of the obligations with respect to the Notes or (b) entering into and performing the obligations under any agreement entered into in relation to the Notes or the Underlying(s) of the Notes.

Increased Cost of Hedging means, unless specified as "Not Applicable" in the applicable Final Terms in respect of Notes that have one or more Commodity(ies) or one or more Indice(s) as Underlying(s), that as determined by the Calculation Agent, Societe Generale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date (s) on which Societe Generale enters into the Hedge Position in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, price risk, foreign exchange risk and interest rate risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into with Societe Generale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realize, recover or remit the proceeds of the proceeds of its Hedge Positions.

Upon the occurrence of Change in Law, Hedging Disruption or an Increased Cost of Hedging (the relevant Commodity(ies) as Underlying being the Affected Underlying), except in case of EU Allowance Notes, the Calculation Agent may either:

a. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

b. replace, to the extent possible, the Affected Underlying by a new underlying which is representative of the same economic or geographic sector; or

c. apply the "Monetisation until the Maturity Date", as defined in Condition 6.5 of the General Terms and Conditions;

or,

d. but only in the case of Increased Cost of Hedging (and provided that the Notes are not Notes listed on the Italian Stock Exchange (Borsa Italiana S.p.A.)), deduct :

(i) from the Interest Amount(s) (if any) due under any Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Societe Generale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes, such amount to be apportioned pro rata amongst the outstanding Notes (the **Reduction Amount**); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero), provided that the value of Associated Costs shall be equal to 0 (zero) in respect of Notes listed on the Italian Stock Exchange (Borsa Italiana S.p.A.); or

Q. R. Strategy Breach:

(i) If “Fund Linked Notes_Events2” is set as applicable in the applicable Final Terms, means (a) any breach or violation of any strategy or investment guidelines stated in the related Fund Documents, that affects the value of the Fund Units or the rights or remedies of any holders thereof, in each case, as determined by the Calculation Agent or (b) any material modification, as determined by the Calculation Agent, of the risk profile of the Fund from its risk profile prevailing on the Issue Date of the Notes by reason of, but not

(ii) Otherwise, means (a) any breach or violation of any strategy or investment guidelines stated in the related Fund Documents, that is reasonably likely to affect the value of the Fund Units or the rights or remedies of any holders thereof, in each case, as determined by the Calculation Agent or (b) any material modification, as determined by the Calculation Agent, of the risk profile of the Fund from its risk profile prevailing on the Issue Date of the Notes by reason of, but not limited to, the modification of the proportions, or reduction of diversification, of the type of assets in which the Fund invests or a reduction of the average liquidity of the assets of the Fund,

where **FRTB Information** means sufficient information, including relevant risk sensitivities data, in a processable format to enable Societe Generale, as a holder of the Fund Unit, to calculate its market risk in relation thereto as if it were holding directly the assets of the Fund; "processable format" means that the format of such information can be readily used by Societe Generale by using the existing functionality of a software or application commonly used by financial institutions to compute its market risk as described above.

then the Calculation Agent may:

X. (i) consider such Extraordinary Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

(ii) only in case of Liquidity Modification, (a) consider such event as an Early Redemption Event and may decide to pay, in full or in part, the Early Redemption Amount by the delivery of the Fund Units in lieu of its obligations to pay the Early Redemption Amount in cash; or (b) if Liquidity Modification is continuing on the last Valuation Date and the Calculation Agent did not consider such event as an Early Redemption Event may decide to pay, in full or in part, the Final Redemption Amount by the delivery of the Fund Units in lieu of its obligations to pay the Final Redemption Amount in cash; or

Y. in the case of (N) above only, replace the Fund Unit by the kind and number of units or other securities and property receivable on such conversion, split, consolidation, merger, sale or conveyance by a holder of Fund Units prior to such conversion, split, consolidation, merger, sale or conveyance for the purposes of determining the value of the Fund Unit and make any adjustment (if necessary) to the value of such Fund Unit; or

Z. apply any of the following methods:

(a) **Substitution** and the Calculation Agent shall (i) identify a fund (the **Substitute Fund**) having an investment strategy similar to the investment strategy of the **Fund** affected by the Extraordinary Event (the **Affected Fund**) and (ii) may adjust any relevant terms of the Notes to preserve the economic equivalent of the obligations of the Issuer under the Notes.

For information purposes, it is understood that in all cases described herein where a Fund is substituted, on any date "t", with a Substitute Fund, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Fund and would mean the closing price of such Substitute Fund on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Fund on such date "t", or

(b) Postponement to the Adjusted Payment Date (as defined below), or

(c) "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions, or

only in the case of Increased Cost of Hedging :

AA. deduct:

(i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging and that would be incurred by the Hypothetical Investor, in relation to the Intermediate Hypothetical Hedge Positions or Optional Hypothetical Hedge Positions or Hypothetical Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is or higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction

Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

(ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

Provided, however, that:

If "Redemption at the option of the Noteholders" or "Redemption at the option of the Issuer" is specified as being applicable in the applicable Final Terms then:

(x) upon the occurrence or likely occurrence of an Extraordinary Event, any Put Notice or the exercise by the Issuer of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling after the date of such occurrence shall be null and void; and

(z) upon the occurrence or likely occurrence of an Extraordinary Event, with respect to Put Notices or the exercise by the Issuer of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling on or before the date of such occurrence, the Calculation Agent may proceed with the determinations and/or adjustments described in (X), (Y) or (Z) above.

Only in case of FRTB Event:

AB. substitute the Affected Fund with the Substitute Index (an **Index Substitution Event**), where Substitute Index means an Index determined by the Calculation Agent as being similar to the benchmark of the Affected Fund, or, in the absence of benchmark for the Affected fund, as having an investment strategy similar to the investment strategy of the Affected Fund.

Following the occurrence of the Index Substitution Event, the Notes shall be governed by the Additional Terms and Conditions for Index Linked Notes for any aspect in relation with the Substitute Index.

Sub-paragraph (Z) shall not apply to Notes listed on the Italian Stock Exchange (Borsa Italiana S.p.A.).

2.3 Disruption Events and consequences

Upon the occurrence or, unless the applicable Final Terms specify that "Fund Linked Notes_Events2" applies, the likely occurrence, as determined by the Calculation Agent, of any of the following events (each a **Disruption Event**) in respect of a Valuation Date or an Averaging Date (the **Disrupted Day**) and a Fund or Fund Unit (the **Affected Fund**):

A. Calculation and/or Publication Disruption means the occurrence of an event, beyond the control of a Hypothetical Investor (including in case of any gate, deferral, suspension or other provisions in the Fund Documents permitting the Fund to delay or refuse subscription and/or redemption orders) which precludes the calculation and/or publication of the official net asset value per Unit of the Fund by the Fund (or the Fund Service Provider generally in charge of calculating such official net asset value); or

B. Fund Settlement Disruption means a failure by the Fund to pay in cash the full amount of the redemption proceeds on the date by which the Fund was scheduled to have paid such amount and which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price, including without limitation due to (a) the transfer of all illiquid assets of such Fund to a dedicated fund, account or structure pending the liquidation of such assets for the benefit of existing holders of the Fund Units (side pocket), (b) the restriction on the amount or number of redemptions orders that the Fund (or the Fund Service Provider generally in charge of accepting redemption orders) will accept in relation to a single date on which the Fund normally accepts redemption orders (a gate), (c) the suspension for any reason of the subscription or redemption orders by the Fund (or the Fund Service Provider generally in charge of accepting subscription and redemption orders), or (d) the postponement of the payment of the balance of redemption proceeds to a date occurring after the financial statements of the Fund have been reviewed by the Fund's statutory auditors (holdback), in each case whether these events are imposed by the Fund without being envisaged in the Fund Documents on the Issue Date of the Notes or are already envisaged by the Fund Documents on the Issue Date of the Notes and are solely implemented by the Fund after such date; or

C. NAV Determination Disruption Event means the occurrence of any event (beyond the control of a Hypothetical Investor) other than the events mentioned in "Calculation and/or Publication Disruption" in (A) above or "Fund Settlement Disruption" in (B) above affecting such Fund which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price,

the Valuation Date or the Averaging Date (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively) in respect of the Affected Fund shall be postponed to the immediately following Fund Business Day or Fund Valuation Day (as specified

in relation to such Valuation Date or Averaging Date in the applicable Final Terms) that is no longer affected by a Disruption Event for such Affected Fund.

If a Disruption Event has occurred or is continuing on each of the five scheduled Fund Business Days or Fund Valuation Days, as the case may be, following the Scheduled Valuation Date or the Scheduled Averaging Date, or if no Fund Business Day or Fund Valuation Day, as the case may be, that is not affected by a Disruption Event has occurred at the latest on the thirty-fifth calendar day following the Scheduled Valuation Date or the Scheduled Averaging Date, then the Calculation Agent may either:

X. determine its good faith estimate of the net asset value per Unit of such Fund which shall be deemed to be the Closing Price in respect of such Valuation Date;

Y. (i) consider such Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

(ii) only in case of Fund Settlement Disruption, (a) consider such event as an Early Redemption Event and may decide to pay, in full or in part, the Early Redemption Amount by the delivery of the Fund Units in lieu of its obligations to pay the Early Redemption Amount in cash; or (b) if Fund Settlement Disruption is continuing on the last Valuation Date and the Calculation Agent did not consider such event as an Early Redemption Event may decide to pay, in full or in part, the Final Redemption Amount by the delivery of the Fund Units in lieu of its obligations to pay the Final Redemption Amount in cash; or

Z. apply either (i) "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions, (ii) Postponement to the Adjusted Payment Date, or (iii) Substitution.

Provided that:

(a) if "*Redemption at the option of the Noteholders*" or "*Redemption at the option of the Issuer*" is specified as being applicable in the applicable Final Terms then:

(i) upon the occurrence or likely occurrence of a Disruption Event, the Put Notices or the exercise by the Issuer of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling after the date of such occurrence shall be null and void.

(ii) upon the occurrence or likely occurrence of a Disruption Event, with respect to Put Notices or the exercise by the Issuer of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling on or before the date of such occurrence, the Calculation Agent may proceed with the determinations and/or adjustments described in (X), (Y) or (Z) above:

(b) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Fund Business Day or Fund Valuation Day, as the case may be, that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the earlier of (i) the fifth Fund Business Day or Fund Valuation Day, as the case may be, following the Scheduled Averaging Date and (ii) the thirty-fifth calendar day following the Scheduled Averaging Date, a Fund Business Day or Fund Valuation Day, as the case may be, that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that fifth Fund Business Day or Fund Valuation Day, or that thirty-fifth calendar day, as the case may be, shall be deemed the Averaging Date (irrespective of whether that fifth Fund Business Day or Fund Valuation Day, or that thirty-fifth calendar day, as the case may be, is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (X) above, and the good faith estimate of the net asset value per Unit of such Fund so calculated shall be deemed the Closing Price;

(c) notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or the Averaging Date and the Calculation Agent shall elect to make the determinations and/or adjustments described in either (X), (Y) or (Z) above on such fourth Business Day and, in case the Calculation Agent elects to make the determinations described in (X) above, the good faith estimate of the net asset value of the Fund so calculated shall be deemed the Closing Price.

For the purposes of this Condition 2.3 :

- All references to the word "fourth" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System; and

- **Clearing System** means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

2.4 Consequences of Maturity Disruption Event

Upon the occurrence or, unless the applicable Final Terms specify that “Fund Linked Notes_Events2” applies, the likely occurrence, as determined by the Calculation Agent, of a Maturity Disruption Event, then the Calculation Agent may either:

(i) unless the applicable Final Terms specify that “Fund Linked Notes_Events2” applies (in which case only paragraph (ii) below is applicable), consider such Maturity Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

(ii) apply Postponement to the Adjusted Maturity Date (as described in Condition 3.1.3).

3. POSTPONEMENT TO THE ADJUSTED PAYMENT DATE - SUBSTITUTION

3.1 Postponement to the Adjusted Payment Date

Following the occurrence of an event giving rise to the Postponement to the Adjusted Payment Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.1.1 and/or 3.1.2 and/or 3.1.3 below.

Notwithstanding the above, following the occurrence or likely occurrence of a Maturity Disruption Event, the Issuer shall no longer be liable for the payment on the Maturity Date of the Intermediate Amount(s) and/or the Optional Redemption Amount and/or the Final Redemption Amount, but instead will, in full and final satisfaction of its obligations, pay an amount described in Condition 3.1.3 below.

3.1.1 Postponement to the Adjusted Intermediate Payment Date

Pursuant to the provisions of Condition 3.1, the Issuer shall pay on the Adjusted Intermediate Payment Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision).

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

3.1.1.2 *In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the **Minimum Intermediate Amount**)*

Pursuant to the provisions of Condition 3.1, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Adjusted Intermediate Payment Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

(i) (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision) and

(ii) an amount equal to the Minimum Intermediate Amount;

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

3.1.2.1 *In respect of the payment of any Optional Redemption Amount as defined in the applicable Final Terms which could be as low as zero*

Pursuant to the provisions of Condition 3.1, the Issuer shall pay on the Adjusted Optional Redemption Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the

Optional Full Liquidation Date, as a result of liquidating the Optional Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a **Calculation Amount** for the purposes of this provision).

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Optional Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Optional Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

3.1.2.2 *In respect of the payment of any Optional Redemption Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the **Minimum Optional Redemption Amount**)*

Pursuant to the provisions of Condition 3.1, the Issuer shall pay (1) on the Optional Redemption Date an amount per Note equal to the Minimum Optional Redemption Amount and (2) on the Adjusted Optional Redemption Date an amount per Note, determined by the Calculation Agent, equal to the positive difference between:

(i) (a) the net positive cash amount that a Hypothetical Investor would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a Calculation Amount for the purposes of this provision) and

(ii) an amount equal to the Minimum Optional Redemption Amount;

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Optional Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Optional Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

3.1.3 Postponement to the Adjusted Maturity Date

3.1.3.1 *In respect of the payment of any Intermediate Amount and/or the Optional Redemption Amount and/or the Final Redemption Amount as defined in the applicable Final Terms which could be as low as zero*

Pursuant to the provisions of Condition 3.1, the Issuer shall pay on the Adjusted Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date and/or the Full Liquidation Date, as a result of liquidating the Intermediate Hypothetical Hedge Positions and/or the Optional Hypothetical Hedge Positions and/or the Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions and/or Optional Hypothetical Hedge Positions and/or Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions and/or the Optional Hypothetical Hedge Positions and/or the Hypothetical Hedge Positions, as the case may be) minus (b) the Associated Costs (the result of which converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date and/or on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period, if any, (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date and/or the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Adjusted Maturity Date (excluded),

provided however that:

- all references to the word "fourth" in (y) above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purposes of this Condition 3.1.3, **Clearing System** means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions and/or Optional Hypothetical Hedge Positions and/or Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and/or Optional Hypothetical Hedge Positions and/or Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

3.1.3.2 *In respect of the payment of any Intermediate Amount and/or the Optional Redemption Amount and/or the Final Redemption Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the **Minimum Redemption Amount**)*

The Calculation Agent shall (i) identify a fund (the **New Fund**) having an investment strategy similar to the investment strategy of the Fund affected by the event giving rise to the Substitution and (ii) may adjust any relevant terms of the Notes to preserve the economic equivalent of the obligations of the Issuer under the Notes.

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

The provisions of these Additional Terms and Conditions for Credit Linked Notes apply if the applicable Final Terms specify that (i) the clause "Type of Structured Notes" is "Credit Linked Notes" and (ii) the clause "Credit Linked Notes Provisions" is "Applicable". If relevant, the applicable Final Terms will also specify whether "Additional Provisions related to CDS Spread" of Condition 3 apply.

The 2014 ISDA Credit Derivatives Definitions may be obtained from the relevant Issuer upon request at the address and contact details specified in the applicable Final Terms.

Capitalised terms used but not defined herein shall have the meanings given to them in the General Terms and Conditions.

**** means that the section so indicated will be deemed not to apply if the applicable Final Terms specify that the clause "Settlement Method" is "Physical Settlement".*

***** means that the section so indicated will be deemed not to apply if the applicable Final Terms specify that the clause "Settlement Method" is "Cash Settlement".*

1. CREDIT EVENT PROVISIONS

1.1 Settlement Method

1.1.1 Physical Settlement

If the Notes are Single Name Notes or First-to-Default Notes and if the applicable Final Terms specify that the clause "Settlement Method" is "Physical Settlement":

1.1.1.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and a Credit Event Notice and, unless specified as "Not Applicable" in the applicable Final Terms, a Notice of Publicly Available Information, are delivered during the Notice Delivery Period by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, then (i) the Issuer will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will, in full and final satisfaction of its obligations hereunder in respect of the redemption of each Credit Linked Note, Deliver or procure Delivery of the Physical Delivery Amount to the Noteholders during the Physical Settlement Period, subject to the next following paragraphs and the cash settlement provisions hereafter and (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be as specified in Condition 1.2 below.

If the Physical Delivery Amount is not equal to an authorised denomination (or integral multiple thereof) of the Specified Deliverable Obligations then (i) the Physical Delivery Amount of Specified Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or integral multiple thereof, or, if none, to zero, and (ii) in addition to the Delivery of the Physical Delivery Amount, the Issuer will pay or procure payment of a cash amount determined by the Calculation Agent as the market value of the Specified Deliverable Obligations that were not capable of being Delivered due to such rounding.

The Delivery of the Specified Deliverable Obligations or payment of the Cash Redemption Amount is subject to the prior delivery by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, of a Notice of Physical Settlement between the Credit Event Determination Date and the Latest Notification Date (both dates inclusive).

1.1.1.2 Following the occurrence of a Credit Event with respect to a Reference Entity, the Issuer will select the Specified Deliverable Obligations.

1.1.1.3 The Issuer will not necessarily Deliver all the Specified Deliverable Obligations on the same date and may Deliver Specified Deliverable Obligations to different Noteholders on different dates or to the same Noteholder on different dates.

1.1.1.4 The Issuer is not obliged to Deliver the same type and proportion of Deliverable Obligations to each Noteholder and a Noteholder may receive various types of Deliverable Obligations.

1.1.1.5 If any or all of the Specified Deliverable Obligations are not eligible for clearance by the relevant Clearing System, then the Issuer may, upon prior notice to the Noteholders, arrange:

(A) Delivery of those Specified Deliverable Obligations (if any) that are eligible for clearance by the relevant Clearing System in the relevant Clearing System and Delivery of those Specified Deliverable Obligations that are not eligible for clearance by the relevant Clearing System outside the relevant Clearing System; or

(B) Delivery of all the Specified Deliverable Obligations (whether or not those Specified Deliverable Obligations are eligible for clearance) outside the relevant Clearing System.

The relevant Clearing System will then be instructed to block and, upon confirmation by the Issuer that delivery has taken place, cancel the Noteholders' positions in its books and the Principal Paying Agent in turn will cancel the outstanding Credit Linked Notes. If Delivery is to take place outside the relevant Clearing System, the Issuer shall have to receive the relevant Noteholders' transfer instructions, in terms that are satisfactory to the Issuer, sufficiently before the Latest Permissible Physical Settlement Date to allow for physical settlement, otherwise the cash settlement provisions set out below will apply.

1.1.2 Fallback to Cash Settlement

1.1.2.1 If the Notes are Single Name Notes or First-to-Default Notes and if the applicable Final Terms specify that the clause "Settlement Method" is "Physical Settlement" but, on the Latest Permissible Physical Settlement Date, the Calculation Agent (acting on behalf of the Issuer) determines that it is Illegal or Impossible for the Issuer to Deliver all or part of the Specified Deliverable Obligations to all or some of the Noteholders or if the Issuer does not receive transfer instructions as described in the last sentence of Condition 1.1.1.5 above, then the Calculation Agent will calculate a Cash Redemption Amount, in respect of such part of the Specified Deliverable Obligations which are Undeliverable Obligations, and the Issuer will, on the Cash Redemption Date, pay or procure payment of a Cash Redemption Amount to the relevant Noteholders in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.

1.1.2.2 The Issuer must notify the relevant Noteholders through the relevant Clearing System that there are Undeliverable Obligations and the reasons why it is Illegal or Impossible to Deliver such Specified Deliverable Obligations.

1.1.2.3 If, before the Latest Permissible Physical Settlement Date, the Calculation Agent determines that the Delivery of all of the Specified Deliverable Obligations is Illegal or Impossible, and it deems in good faith that such Delivery is to remain Illegal or Impossible until the Latest Permissible Physical Settlement Date, then the Calculation Agent may give notice thereof to the relevant Clearing System for the attention of the Noteholders. The Credit Valuation Date will then be the date that is two Business Days after the date on which the Calculation Agent delivers such notice to the relevant Clearing System, and the Issuer will pay the Noteholders a Cash Redemption Amount on the Cash Redemption Date, in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.

1.1.2.4 If Delivery is partially Illegal or Impossible, the Issuer may, for each Noteholder Deliver the Specified Deliverable Obligations and pay a Cash Redemption Amount. The Issuer shall not be obliged to ensure that each Noteholder receives the same type and proportion of Deliverable Obligations and the same proportion of Deliverable Obligations and Cash Redemption Amount as each other Noteholder.

1.1.2.5 If Condition 1.1.2.1 or Condition 1.1.2.3 above applies, the Issuer may arrange that all settlements hereunder be made outside the relevant Clearing System in the manner described in Condition 1.1.1.5 above provided that the Issuer receives transfer instructions in terms that are satisfactory to the Issuer to allow for such settlements.

1.1.2.6 The Calculation Agent will inform the Noteholders via the relevant Clearing System of the Cash Redemption Amount by sending a Final Valuation Notice.

1.1.3 Cash Settlement

If the applicable Final Terms specify that the clause "Settlement Method" is "Cash Settlement":

1.1.3.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and if a Credit Event Notice and, unless specified as "Not Applicable" in the applicable Final Terms, a Notice of Publicly Available Information, are delivered during the Notice Delivery Period by or on behalf of the Issuer to the Noteholders, then the Issuer will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will pay or procure payment of the Cash Redemption Amount (or a formula based on the Cash Redemption Amount, as specified in the applicable Final Terms) on the Cash Redemption Date (subject as specified in Condition 1.1.3.2 below), in full and final satisfaction of its obligations hereunder in respect of the redemption of each Credit Linked Note, and (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be as specified in Condition 1.2 below. The Selected Obligations, the Cash Redemption Amount and the Cash Redemption Date shall be notified to the Noteholders in the Final Valuation Notice on the Final Valuation Notice Receipt Date.

1.1.3.2 In the case of Basket Notes or Tranche Notes, unless Preliminary Cash Redemption is specified as "*Not Applicable*", if an Unsettled Credit Event has occurred, a Preliminary Cash Redemption Amount will be payable on the Scheduled Maturity Date and a Residual Cash Redemption Amount will be payable on the Maturity Date.

1.3.1.1 the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that is less than the Nominal Amount outstanding of each Credit Linked Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.1 or Condition 1.2 shall be deemed to apply to the Partial Redemption Amount , only and each such Credit Linked Note shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount) (and for the avoidance of doubt, without prejudice to the effect of the Principal Credit Factor on the redemption amount);

1.3.1.2 for the avoidance of doubt (i) the Nominal Amount of each such Credit Linked Note not so redeemed in part shall remain outstanding and, if applicable, interest shall accrue on the Nominal Amount outstanding of the Credit Linked Note as provided in the applicable Final Terms (adjusted in such manner as the Calculation Agent determines to be appropriate) and (ii) the provisions of Condition 1.1 or Condition 1.2 shall apply to such Nominal Amount outstanding of such Credit Linked Note in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity; and

1.3.1.3 on redemption of part of each Credit Linked Note, the relevant Credit Linked Note or, if the Credit Linked Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such partial redemption .

If the applicable Final Terms specify that the clause "Settlement Type" is "European Settlement":

1.3.1.4 the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that is less than the Nominal Amount outstanding of each Credit Linked Note immediately prior to the delivery of such Credit Event Notice. 1.3.2 Basket Notes and Tranche Notes

(a) The Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Restructuring Notional Amount**) that is less than the Reference Entity Notional Amount of the relevant Reference Entity immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.1.3 shall apply to the Partial Restructuring Notional Amount instead of the Reference Entity Notional Amount; and

(b) For the avoidance of doubt, following such Restructuring, the provisions of these Additional Terms and Conditions for Credit Linked Notes shall apply in respect of the relevant Reference Entity with such Reference Entity's Reference Entity Weighting being reduced by the ratio of the Partial Restructuring Notional Amount divided by the Reference Portfolio Notional Amount. In the event of the occurrence of further Restructurings with respect to such Reference Entity, the relevant Reference Entity Notional Amount will be further reduced by the relevant Partial Restructuring Notional Amount.

Where Multiple Successors to such Reference Entity (each, a **Sub-Multiple Successor**) have been identified in respect of a Reference Entity (an **Original Multiple Successor**) that is itself a Multiple Successor, each such Sub-Multiple Successor shall be a Reference Entity for the purposes of these Conditions, but the Multiple Successor Notional Amount in respect of a Sub-Multiple Successor shall be equal to the Multiple Successor Notional Amount in respect of such Original Multiple Successor divided by the number of Sub-Multiple Successors to such Original Multiple Successor. Following the delivery of a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information, in respect of a Multiple Successor, Credit Linked Notes will not be redeemed , in whole but an amount shall be deliverable or, as the case may be, payable in respect of each Credit Linked Note (an **Instalment Amount**) which amount shall be determined in the same manner, *mutatis mutandis*, as the Physical Delivery Amount or Cash Redemption Amount that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Credit Linked Note equal to the relevant Multiple Successor Notional Amount only. The date of delivery or payment, as the case may be, of any such Instalment Amount (an **Instalment Date**) shall be determined in the same manner, *mutatis mutandis*, as the Physical Settlement Date or Cash Redemption Date, that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity.

The provisions of Condition 1.2 shall apply, *mutatis mutandis*, to determine the amount of interest that would otherwise have been determined following the occurrence of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Credit Linked Note equal to the relevant Multiple Successor Notional Amount only.

More than one Instalment Amount may be delivered or payable on the same day in respect of different Multiple Successors, but not more than one Credit Event Notice may be delivered in relation to a single Multiple Successor unless a Restructuring occurs in relation to a Multiple Successor, in which case the provisions of Condition 1.3 will apply in respect of each such Multiple Successor. Upon the determination by the Calculation Agent of the identity of Multiple Successors, the Calculation Agent shall determine the modifications required to be made to these Conditions and any other related documents, to preserve substantially the economic effect for a Noteholder of a holding of the Credit Linked Notes and the Issuer shall use its reasonable endeavours to effect such modifications.

If the applicable Final Terms specify that the clause "Settlement Type" is "European Settlement":

Following the occurrence of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Credit Linked Note shall be correspondingly reduced by the proportion of such principal amount and, if applicable, interest on each Credit Linked Note shall accrue on the reduced Nominal Amount of each Credit Linked Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information in relation to the original Reference Entity.

For the avoidance of doubt, this Condition 1.4 will not apply to First-to-Default Notes, Basket Notes and Tranche Notes.

Obligation Currency means the currency or currencies in which an Obligation is denominated.

(ii) If the applicable Final Terms specify that the clause "Structured Interest Note Provisions" is "Applicable":

Observed Interest shall be the amount as specified in the Additional Terms and Conditions relating to Formulae (except that, where relevant, "Specified Denomination" will be replaced by "Nominal Amount" in the formula of the Structured Interest Amount except if the applicable Final Terms specify that the clause "Accrual of Interest upon Credit Event" is "Guaranteed Coupon").

(i) first, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, where applicable in accordance with the definition of Deliverable/Selected Obligation Accrued Interest, the Reference Entity's accrued but unpaid interest payment obligations which, in the case of a Guarantee will be the lower of (A) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (B) the amount of the Fixed Cap, if any;

(ii) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation (A) is subject to any Prohibited Action or (B) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (x) payment or (y) a Permitted Contingency) (the amount determined in (i) less any amounts subtracted in accordance with (ii), the "**Non-Contingent Amount**"; and

(iii) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance.

in each case, determined;

unless otherwise specified, in accordance with the terms of the obligation in effect on the date selected by the Calculation Agent by reference to any Hedge Positions; and

with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

Where:

Quantum of the Claim means the lowest amount of the claim which could be validly asserted against the Reference Entity in respect of the Non-Contingent Amount if the obligation had become redeemable, been accelerated, terminated or had otherwise become due and payable at the time of the relevant determination, provided that the Quantum of the Claim cannot exceed the Non-Contingent Amount.

If "Fallback Discounting" is specified as applicable in the applicable Final Terms, then notwithstanding the above, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under (iii)(B) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

(x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "Original Obligation(s)") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and

(y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a Noteholder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee.

(iv) if "*Financial Reference Entity Terms*" is specified as "*Applicable*" in the applicable Final Terms, and the Credit Linked Notes are a Subordinated Transaction, Relevant Obligations shall exclude Senior Obligations and any Further Subordinated Obligations of the Reference Entity which fall within the Obligation Category "Bond or Loan", provided that if no such Relevant Obligations exist, "*Relevant Obligations*" shall have the same meaning as it would if the Credit Linked Notes were a Senior Transaction.

Relevant Proportion means the proportion which one Credit Linked Note bears to the total number of Credit Linked Notes outstanding.

Repudiation/Moratorium means the occurrence of both of the following events: (i) an authorised officer of a Reference Entity or a Governmental Authority (a) disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, one or more Obligations in an aggregate amount of not less than the Default Requirement or (b) declares or imposes a moratorium, standstill, roll over or deferral, whether *de facto* or *de jure*, with respect to one or more Obligations in an aggregate amount of not less than the Default Requirement and (ii) a Failure to Pay, determined without regard to the Payment Requirement, or a Restructuring, determined without regard to the Default Requirement, with respect to any such Obligation occurs on or prior to the Repudiation/Moratorium Evaluation Date.

Repudiation/Moratorium Evaluation Date means, if a Potential Repudiation/Moratorium occurs on or prior to the Scheduled Last Credit Event Occurrence Date, (i) if the Obligations to which such Potential Repudiation/Moratorium relates include Bonds, the date that is the later of (A) the date that is 60 days after the date of such Potential Repudiation/Moratorium and (B) the first payment date under any such Bond after the date of such Potential Repudiation/Moratorium (or, if later, the expiration date of any applicable Grace Period in respect of such payment date) and (ii) if the Obligations to which such Potential Repudiation/Moratorium relates do not include Bonds, the date that is 60 days after the date of such Potential Repudiation/Moratorium; provided that, in either case, the Repudiation/Moratorium Evaluation Date shall occur no later than the Scheduled Maturity Date unless the Repudiation/Moratorium Extension Condition is satisfied.

Repudiation/Moratorium Extension Condition means a condition that is satisfied:

(a) if the DC Secretary publicly announces, pursuant to a valid request that was delivered and effectively received on or prior to the Scheduled Maturity Date that the relevant Credit Derivatives Determinations Committee has Resolved that an event that constitutes a Potential Repudiation/Moratorium has occurred with respect to an Obligation of the relevant Reference Entity and that such event occurred on or prior to the Scheduled Last Credit Event Occurrence Date, or

(b) otherwise, by the delivery of a Repudiation/Moratorium Extension Notice and unless Notice of Publicly Available Information is specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information by or on behalf of the Issuer to the Noteholders that is effective on or prior to the Scheduled Maturity Date.

In all cases, the Repudiation/Moratorium Extension Condition will be deemed not to have been satisfied, or not capable of being satisfied, if, or to the extent that, the DC Secretary publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved that either (i) an event does not constitute a Potential Repudiation/Moratorium with respect to an Obligation of the relevant Reference Entity or (ii) an event that constitutes a Potential Repudiation/Moratorium has occurred with respect to an Obligation of the relevant Reference Entity but that such event occurred after the Scheduled Last Credit Event Occurrence Date.

Repudiation/Moratorium Extension Notice means an irrevocable notice delivered by or on behalf of the Issuer to the Noteholders that describes a Potential Repudiation/Moratorium that occurred on or prior to the Scheduled Last Credit Event Occurrence Date. A Repudiation/Moratorium Extension Notice must contain a description in reasonable detail of the facts relevant to the determination that a Potential Repudiation/Moratorium has occurred and indicate the date of the occurrence. The Potential Repudiation/Moratorium that is the subject of the Repudiation/Moratorium Extension Notice need not be continuing on the date the Repudiation/Moratorium Extension Notice is effective. Unless Notice of Publicly Available Information is specified as "*Not Applicable*" in the applicable Final Terms, if a Repudiation/Moratorium Extension Notice contains Publicly Available Information, such Repudiation/Moratorium Extension Notice will also be deemed to be a Notice of Publicly Available Information.

Residual Cash Redemption Amount means, in relation to Basket Notes and Tranche Notes with respect to which one or more Unsettled Credit Event(s) has(ve) occurred, an amount payable on the Maturity Date representing the difference between the Cash Redemption Amount and the Preliminary Cash Redemption Amount.

Resolve has the meaning given to it in the DC Rules, and "*Resolved*" and "*Resolves*" shall be construed accordingly.

Restructured Bond or Loan means an Obligation which is a Bond or Loan and in respect of which the relevant Restructuring has occurred.

Restructuring means that:

(a) with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, any one or more of the following events occurs in a form that binds all holders of such Obligation, is agreed between a Reference Entity or a Governmental Authority and a sufficient number of holders of such Obligation to bind all holders of the Obligation or is announced (or otherwise decreed) by a Reference Entity or a Governmental Authority in a form that binds all holders of such Obligation (including, in each case, in respect of Bonds only, by way of an exchange) and such event is not expressly provided for under the terms of such Obligation in effect as of the later of the First Credit Event Occurrence Date (or such other date determined by the Calculation Agent by reference to any Hedge Position) and the date as of which such Obligation is issued or incurred:

(1) a reduction in the rate or amount of interest payable or the amount of scheduled interest accruals (including by way of redenomination);

(2) a reduction in the amount of principal or premium payable at redemption (including by way of redenomination);

(3) a postponement or other deferral of a date or dates for either (a) the payment or accrual of interest, or (b) the payment of principal or premium;

(4) a change in the ranking in priority of payment of any Obligation, causing the Subordination of such Obligation to any other Obligation; or

(5) any change in the currency of any payment of interest, principal or premium to any currency other than the lawful currency of Canada, Japan, Switzerland, the United Kingdom and the United States and the euro and any successor currency to any of the aforementioned currencies (which in the case of the euro, shall mean the currency which succeeds to and replaces the euro in whole).

(b) Notwithstanding the provisions of paragraph (a) above, none of the following will constitute a Restructuring:

(1) the payment in euros of interest, principal or premium in relation to an Obligation denominated in a currency of a Member State of the European Union that adopts or has adopted the single currency in accordance with the Treaty establishing the European Community, as amended by the Treaty on European Union;

(2) the redenomination from euros into another currency, if (A) the redenomination occurs as a result of action taken by a Governmental Authority of a Member State of the European Union which is of general application in the jurisdiction of such Governmental Authority and (B) a freely available market rate of conversion between euros and such other currency existed at the time of such redenomination and there is no reduction in the rate or amount of interest, principal or premium payable, as determined by reference to such freely available market rate of conversion;

(3) the occurrence of agreement to or announcement of any of the events described in paragraphs (a)(1) to (a)(5) above, due to an administrative adjustment, accounting adjustment or tax adjustment or other technical adjustment occurring in the ordinary course of business; and

(4) the occurrence of agreement to or announcement of any of the events described in paragraphs (a)(1) to (a)(5) above in circumstances where such event does not directly or indirectly result from a deterioration in the creditworthiness or financial condition of the Reference Entity, provided that in respect of paragraph (a)(5) above only, no such deterioration in the creditworthiness or financial condition of the Reference Entity is required where the redenomination is from euros into another currency and occurs as a result of action taken by a Governmental Authority of a Member State of the European Union which is of general application in the jurisdiction of such Governmental Authority.

(c) For the purposes of paragraphs (a) and (b) above and, unless Multiple Holder Obligation is specified as "Not Applicable" in the applicable Final Terms, paragraph (e) below and the definition of Multiple Holder Obligation, the term Obligation shall be deemed to include Underlying Obligations for which the Reference Entity is acting as provider of a Guarantee. In the case of a Guarantee and an Underlying Obligation, references to the Reference Entity in paragraph (a) above shall be deemed to refer to the Underlying Obligor and the reference to the Reference Entity in paragraph (b) above shall continue to refer to the Reference Entity.

(d) If an exchange has occurred, the determination as to whether one of the events described under paragraphs (a)(1) to (a)(5) above has occurred will be based on a comparison of the terms of the Bond immediately prior to such exchange and the terms of the resulting obligations immediately following such exchange.

(e) Unless Multiple Holder Obligation is specified as "Not Applicable" in the applicable Final Terms, then, notwithstanding anything to the contrary in paragraphs (a), (b) and (c) above, the occurrence of, agreement to or announcement of any of the events described in paragraphs (a)(1) to (a)(5) above shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

Restructuring Date means the date on which a Restructuring is legally effective in accordance with the terms of the documentation governing such Restructuring.

Restructuring Maturity Limitation Date means, with respect to a [Deliverable]** [Selected]* Obligation, the Limitation Date occurring on or immediately following the Scheduled Maturity Date. Notwithstanding the foregoing, if the final maturity date of the Restructured Bond or Loan with the latest final maturity date of any Restructured Bond or Loan, occurs prior to the 2.5-year Limitation Date (such Restructured Bond or Loan a **Latest Maturity Restructured Bond or Loan**) and the Scheduled Maturity Date occurs prior to the final maturity date of such Latest Maturity Restructured Bond or Loan, then the Restructuring Maturity Limitation Date will be the final maturity date of such Latest Maturity Restructured Bond or Loan.

(b) Either:

(1) In respect of Basket Notes, the product of the Principal Loss Factor and the aggregate of the Loss Amounts for all the Unsettled Credit Events (assuming a Final Value of zero in respect of each Unsettled Credit Event); or

(2) In respect of Tranche Notes, the amount by which the product of the Principal Loss Factor and the Aggregate Loss Amount on the Maturity Date (assuming a Final Value of zero in respect of each Unsettled Credit Event) would exceed the product of the Principal Loss Factor and the Aggregate Loss Amount immediately prior to the Scheduled Maturity Date.

Scheduled Last Credit Event Occurrence Date means the date specified as such in the applicable Final Terms.

(d) if Asset Package Delivery is applicable, any Prior Deliverable Obligation (if "*Financial Reference Entity Terms*" is specified as "*Applicable*" in respect of the Reference Entity in the applicable Final Terms) or any Package Observable Bond (if the Reference Entity is a Sovereign), PROVIDED THAT such Prior Deliverable Obligation or Package Observable Bond, as applicable, may be replaced by the related Asset Package, and (i) such Asset Package shall be treated as having the same currency, Outstanding Principal Balance or Due and Payable Amount, as applicable, as the Prior Deliverable Obligation or Package Observable Bond to which it corresponds had immediately prior to the Asset Package Credit Event, and (ii) if the Asset Package is zero, the Final Price of such Asset Package shall be deemed to be zero,

in each case, (i) unless it is an Excluded Selected Obligation; and (ii) provided that the obligation has an Outstanding Principal Balance or Due and Payable Amount which is greater than zero (determined for the purposes of paragraph (d) above of this definition, immediately prior to the Asset Package Credit Event).

For purposes of assessing the applicability of Selected Obligation Characteristics and the requirements specified in the definition of Mod R and Mod Mod R to a Prior Deliverable Obligation or a Package Observable Bond, any such assessment shall be made by reference to the terms of the relevant Obligation in effect immediately prior to the Asset Package Credit Event.

If "*Subordinated European Insurance Terms*" is specified as "*Applicable*" in the applicable Final Terms, if a Selected Obligation would otherwise satisfy the Maximum Maturity Selected Obligation Characteristic, the existence of any Solvency Capital Provisions in the relevant Selected Obligation shall not cause such Selected Obligation to fail to satisfy such Selected Obligation Characteristic.

Where a Selected Obligation is denominated in a currency other than the Specified Currency of the Credit Linked Notes, the Calculation Agent will, where required, determine the Specified Currency equivalent of the Outstanding Principal Balance or Due and Payable Amount, as the case may be, in respect of that Selected Obligation by reference to the mid-point rate of conversion published by WM/Reuters at 4:00 pm (London time), or any successor rate source selected by the Calculation Agent on the Credit Valuation Date, or on such other date as determined by the Calculation Agent as appropriate by reference to any Hedge Positions and, if such rate is not available at such time, the Calculation Agent shall determine the rate at such time and by reference to such sources as it deems appropriate.

Selected Obligation Characteristics means any one or more of Not Subordinated, Specified Currency, Not Sovereign Lender, Not Domestic Currency, Not Domestic Law, Listed, Assignable Loan, Consent Required Loan, Transferable, Not Bearer, Maximum Maturity, Not Domestic Issuance and Accelerated or Matured as specified in the applicable Final Terms. If more than one of Assignable

Loan and Consent Required Loan are specified as Selected Obligation Characteristics in the applicable Final Terms, the Selected Obligation may include any Loan that satisfies any one of such Selected Obligation Characteristics specified and need not satisfy all such Selected Obligation Characteristics.

If "*Financial Reference Entity Terms*" and "*Governmental Intervention*" are specified as applicable in the applicable Final Terms, if an obligation would otherwise satisfy a particular Selected Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Selected Obligation Characteristic.

Senior Obligation means any obligation which is not Subordinated to any unsubordinated Borrowed Money obligation of the Reference Entity.

Senior Transaction means, in respect of a Reference Entity, that (a) the Reference Obligation or Prior Reference Obligation, as applicable, is a Senior Obligation, or (b) there is no Reference Obligation or Prior Reference Obligation.

Sovereign Restructured Selected Obligation means an Obligation of a Reference Entity which is a Sovereign (either directly or as provider of a Relevant Guarantee) (a) in respect of which a Restructuring that is the subject of the relevant Credit Event Notice has occurred and (b) which fell within the definition of a Selected Obligation immediately preceding the date on which such Restructuring is legally effective in accordance with the terms of the documentation governing such Restructuring.

Specified Deliverable Obligation(s) means Deliverable Obligations of the Reference Entity or First-to-Default Reference Entity as specified in the Notice of Physical Settlement (subject to the definition of such term) which, for the avoidance of doubt, may where Asset Package Delivery is applicable, include any Prior Deliverable Obligation, Package Observable Bond or Asset Package.

Standard Unwind Costs means in respect of each Credit Linked Note, an amount, subject to a minimum of zero, determined by the Calculation Agent equal to the sum of (without duplication) all costs, expenses (including break funding charges and loss of funding, which, for the avoidance of doubt, represents the loss of future interest amounts to be received under the funding arrangement(s) entered into in relation to the Credit Linked Notes), tax and duties incurred directly or indirectly by Societe Generale or any of its Affiliates in relation to the occurrence of a Credit Event Determination Date and the related partial or total termination, settlement or re-establishment of any Hedge Position, such amount to be apportioned *pro rata* amongst the outstanding Credit Linked Notes.

Subordinated Transaction means, in respect of a Reference Entity, that the Reference Obligation or Prior Reference Obligation, as applicable, is a Subordinated Obligation.

Subordination means, with respect to an obligation (the **Second Obligation**) and another obligation of the Reference Entity to which such obligation is being compared (the **First Obligation**), a contractual, trust or similar arrangement providing that (i) upon the liquidation, dissolution, reorganisation or winding-up of the Reference Entity, claims of the holders of the First Obligation are required to be satisfied prior to the claims of the holders of the Second Obligation or (ii) the holders of the Second Obligation will not be entitled to receive or retain payments in respect of their claims against the Reference Entity at any time that the Reference Entity is in payment arrears or is otherwise in default under the First Obligation. **Subordinated** will be construed accordingly. For the purposes of determining whether Subordination exists or whether an obligation is Subordinated with respect to another obligation to which it is being compared, (x) the existence of preferred creditors arising by operation of law or of collateral, credit support or other credit enhancement or security arrangements shall not be taken into account, except that, notwithstanding the foregoing, priorities arising by operation of law shall be taken into account where the Reference Entity is a Sovereign and (y) in the case of the Reference Obligation or the Prior Reference Obligation, as applicable, the ranking in priority of payment shall be determined as of the date as of which it was issued or incurred (or in circumstances where the Reference Obligation or a Prior Reference Obligation is the Standard Reference Obligation and "Standard Reference Obligation" is applicable, then the priority of payment of the Reference Obligation or the Prior Reference Obligation, as applicable, shall be determined as of the date of selection) and, in each case, shall not reflect any change to such ranking in priority of payment after such date.

Substitute Reference Obligation(s) means, with respect to a Non-Standard Reference Obligation to which a Substitution Event has occurred, the obligation that will replace the Non-Standard Reference Obligation, determined by the Calculation Agent as follows:

(a) The Calculation Agent shall identify the Substitute Reference Obligation in accordance with paragraph (c), (d) and (e) below to replace the Non-Standard Reference Obligation; provided that the Calculation Agent will not identify an obligation as the Substitute Reference Obligation if, at the time of determination, such obligation has already been rejected as the Substitute Reference Obligation by the relevant Credit Derivatives Determinations Committee and such obligation has not changed materially since the date of the relevant DC Resolution.

(b) If any of the events set forth under paragraphs (i) to (iii) of the definition of Substitution Event have occurred with respect to the Non-Standard Reference Obligation, the Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the "Not Subordinated" Obligation Characteristic or "Not Subordinated" [Selected]* [Deliverable]** Obligation Characteristic and paragraph (c)(ii) below). If the event set forth in paragraph (ii) of the definition of Substitution Event has occurred with respect to the Non-Standard Reference Obligation and no Substitute Reference Obligation is available, the Non-Standard Reference Obligation will continue to be the Reference Obligation until the Substitute Reference Obligation is identified or, if earlier, until any of the events set forth under paragraphs (i) to (iii) of the definition of Substitution Event occur with respect to such Non-Standard Reference Obligation.

(c) The Substitute Reference Obligation shall be an obligation that on the Substitution Date:

(i) is a Borrowed Money obligation of the Reference Entity (either directly or as provider of a guarantee);

(ii) satisfies the Not Subordinated [Selected]* [Deliverable]** Obligation Characteristic as of the date it was issued or incurred (without reflecting any change to the priority of payment after such date) and on the Substitution Date; and

(iii) (A) if the Non-Standard Reference Obligation was a Conforming Reference Obligation when issued or incurred and immediately prior to the Substitution Event Date:

(1) is a [Selected]* [Deliverable]** Obligation (other than a Loan) determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as "Not Applicable" in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*; or if no such obligation is available,

(2) is a Loan (other than a Private-side Loan) which constitutes a [Selected]* [Deliverable]** Obligation determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as "*Not Applicable*" in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*;

(B) if the Non-Standard Reference Obligation was a Bond (or any other Borrowed Money obligation other than a Loan) which was a Non-Conforming Reference Obligation when issued or incurred and/or immediately prior to the Substitution Event Date:

(1) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,

(2) is a [Selected]* [Deliverable]** Obligation (other than a Loan) determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as "*Not Applicable*" in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*; or if no such obligation is available,

(3) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan) or, if no such obligation is available,

(4) is a Loan (other than a Private-side Loan) which constitutes a [Selected]* [Deliverable]** Obligation determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as "*Not Applicable*" in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*; or

(C) if the Non-Standard Reference Obligation was a Loan which was a Non-Conforming Reference Obligation when incurred and/or immediately prior to the Substitution Event Date:

(1) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,

(2) is a Non-Conforming Substitute Reference Obligation (other than a Loan) or if no such obligation is available,

(3) is a [Selected]* [Deliverable]** Obligation (other than a Loan) determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as "*Not Applicable*" in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*; or if no such obligation is available,

(4) is a Loan (other than a Private-side Loan) which constitutes a [Selected]* [Deliverable]** Obligation determined in accordance with paragraph (B) of the definition of [Selected]* [Deliverable]** Obligation [or, where Selected Obligation is specified as "*Not Applicable*" in the applicable Final Terms, any relevant obligation determined by the Calculation Agent by reference to any Hedge Positions]*.

(d) If more than one potential Substitute Reference Obligation is identified pursuant to the process described in paragraph (c) above, the Substitute Reference Obligation will be the potential Substitute Reference Obligation that most closely preserves the economic equivalent of the delivery and payment obligations of the Issuer under the Credit Linked Notes, as determined by the Calculation Agent. The Substitute Reference Obligation will replace the Non-Standard Reference Obligation on such date as determined by the Calculation Agent by reference to any Hedge Positions, which is expected to be as soon as reasonably practicable after it has been identified in accordance with paragraph (c) above. Information about the occurrence of a Substitute Reference Obligation with a description in reasonable detail of the facts relevant to the determination of the Substitute Reference Obligation, including the identity thereof and the date of substitution, may be requested at any time by the Noteholders at the specified office of the Calculation Agent (subject to proof of ownership of such Credit Linked Notes in a form acceptable to the Calculation Agent).

(e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation, then, subject to paragraph (a) above and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with paragraph (b) above, the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation.

Substitution Date means, with respect to a Substitute Reference Obligation, the date, selected by the Calculation Agent by reference to any Hedge Positions, that the Calculation Agent has determined in accordance with the definition of Substitute Reference Obligation.

(ii) the aggregate amounts due under the Non-Standard Reference Obligation have been reduced by redemption or otherwise below USD 10,000,000 (or its equivalent in the relevant Obligation Currency, as determined by the Calculation Agent); or

(iii) for any reason, other than due to the existence or occurrence of a Credit Event, the Non Standard Reference Obligation is no longer an obligation of the Reference Entity (either directly or as provider of a guarantee).

For purposes of identification of a Non-Standard Reference Obligation, any change in the Non-Standard Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, constitute a Substitution Event.

If an event described in paragraph (i) or (ii) above has occurred on or prior to the Issue Date, then a Substitution Event shall be deemed to have occurred pursuant to paragraph (i) or (ii), as the case may be, on the Issue Date.

If a Substitution Event occurs in respect of the Reference Obligation in Reference Obligation Only Notes and unless Substitution Event Early Redemption is specified as "*Not Applicable*" in the applicable Final Terms, the Calculation Agent shall consider such event as an event triggering the early redemption of the Credit Linked Notes and the Issuer shall terminate its obligations under the Credit Linked Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions. Notice shall be given by or on behalf of the Issuer to the Noteholders informing them of the Substitution Event and the date scheduled for early redemption.

Succession Date means the legally effective date of an event in which one or more entities succeed to some or all of the Relevant Obligations of the Reference Entity; provided that if at such time, there is a Steps Plan, the Succession Date will be the legally effective date of the final succession in respect of such Steps Plan, or if earlier (i) the date on which a determination pursuant to paragraph (a) of the definition of Successor would not be affected by any further related successions in respect of such Steps Plan, or (ii) the occurrence of a Credit Event Determination Date in respect of the Reference Entity or any entity which would constitute a Successor.

Successor means, in respect of a Reference Entity, the entity or entities, if any, determined as follows:

(a) subject to paragraph (c) below of this definition, the entity or entities, if any determined as follows:

(1) subject to paragraph (a)(7) below, if one entity succeeds, either directly or as a provider of a Relevant Guarantee, to seventy-five per cent. or more of the Relevant Obligations of the Reference Entity, that entity will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the succession.

(2) If only one entity succeeds, either directly or as a provider of a Relevant Guarantee, to more than twenty-five per cent. (but less than seventy five per cent.) of the Relevant Obligations of the Reference Entity, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than twenty-five per cent. of the Relevant Obligations will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the succession.

(3) If more than one entity each succeeds, either directly or as a provider of a Relevant Guarantee to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than twenty-five per cent. of the Relevant Obligations will each be a Successor and the terms of the Credit Linked Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Condition 1.5 above. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity Weighting of the Reference Entity before the succession, divided by the number of Successors.

(4) If one or more entities each succeeds, either directly or as a provider of a Relevant Guarantee, to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity, and more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and the terms of the Credit Linked Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Condition 1.5 above. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity Weighting of the Reference Entity before the succession, divided by the number of Successors.

(5) If one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the terms of the Credit Linked Notes will not be changed in any way as a result of such succession.

(6) If one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor) and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such Successor(s) will be the Reference Entity Weighting of the Reference Entity before the succession, divided by the number of Successor(s).

(7) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and either (A) the Reference Entity has ceased to exist or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, that entity (the "**Universal Successor**") will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the succession or as otherwise determined by the Calculation Agent by reference to Hedge Positions.

PROVIDED THAT, in the case of Basket Notes and Tranche Notes, if the resulting Successor of a Reference Entity affected by a succession, or as the case may be, one or more of the several resulting Successors of such Reference Entity is(are) another Reference Entity comprised in the Reference Portfolio at the legally effective date of the succession, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the succession as determined in accordance with paragraphs (a)(1), (a)(2), (a)(3), (a)(4), (a)(6) or (a)(7) above and the Reference Entity Weighting of such Successor in effect prior to the succession.

PROVIDED FURTHER THAT, in the case of Basket Notes and Tranche Notes, if two or more Reference Entities are affected by a succession resulting in at least one common Successor, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the succession as determined in accordance with paragraphs (a)(1), (a)(2), (a)(3), (a)(4), (a)(6) or (a)(7) above with respect to each Reference Entity in respect of which it is a Successor.

PROVIDED FURTHER THAT (for paragraph (a) above), if the applicable Final Terms specify that the clause "*N-to-M-to-Default*" is "*Applicable*" or in respect of First-to-Default Notes, the Calculation Agent will adjust the effect of any succession as necessary so that in all cases the number of Reference Entities in the Reference Portfolio will remain unchanged and if the applicable Final Terms specify that the clause "*N-to-M-to-Default*" is "*Applicable*", so that the Reference Entity Weighting will remain the same for all Reference Entities comprised in the Reference Portfolio, in particular:

(x) if the resulting Successor of a Reference Entity (the **Legacy Reference Entity**) affected by a succession is another Reference Entity comprised in the Reference Portfolio (the **Surviving Reference Entity**) at the legally effective date of the succession, the Calculation Agent acting in good faith shall select a new entity having an equivalent Rating (as defined below) or an equivalent credit risk (if no Rating is available) to the Legacy Reference Entity immediately prior to the occurrence of the succession; such new entity shall be deemed to have replaced the Legacy Reference Entity as Reference Entity effective on and from the date of the succession and if the applicable Final Terms specify that the clause "*N-to-M-to-Default*" is "*Applicable*", the Reference Entity Weighting of the Surviving Reference Entity shall remain the Reference Entity Weighting of the Surviving Reference Entity in effect prior to the succession and the Reference Entity Weighting of the entity having replaced the Legacy Reference Entity shall be equal to the Reference Entity Weighting of the Legacy Reference Entity prior to the succession; and

(y) if a succession would result in more than one Successor (the **Potential Successors**) to a Reference Entity either directly or as provider of a Relevant Guarantee, the Calculation Agent shall select only one entity (the **Chosen Successor**) among the Potential Successors to replace the Reference Entity; the Chosen Successor shall be deemed to have replaced the Reference Entity and if the applicable Final Terms specify that the clause "*N-to-M-to-Default*" is "*Applicable*", its Reference Entity Weighting shall be equal to the Reference Entity Weighting of the Reference Entity prior to the succession.

For the purposes of this definition **Rating** means the senior unsecured debt rating assigned by the three rating agencies Moody's France S.A.S, S&P Global Ratings Europe Limited, and Fitch Ratings Ireland Limited or any of them, being understood that if the ratings assigned in respect of an entity are not equivalent, only the highest one(s) will be taken into consideration.

(b) The Calculation Agent will be responsible for determining with effect from the Succession Date any Successor or Successors under paragraph (a) above; provided that the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations. Information about the occurrence of a succession (or, in relation to a Reference Entity that is a Sovereign, a Sovereign Succession Event) pursuant to which one or more Successors to a Reference Entity can be determined, with reasonable detail of the facts relevant to the determination, pursuant to paragraph (a) of the definition of Successor, of the identity of any Successor(s), may be requested at any time by the Noteholders at the specified office of the Calculation Agent (subject to proof of ownership of such Credit Linked Notes in a form acceptable to the Calculation Agent), and will be notified as part of a notice of Potential Failure to Pay or a Repudiation/Moratorium Extension Notice or a Credit Event Notice (as the case may be) in respect of the relevant Reference Entity.

The Calculation Agent will make all calculations and determinations required to be made under this definition on the basis of Eligible Information.

In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a)(1) to (7) (inclusive) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions contemplated by such Steps Plan in aggregate as if forming part of a single succession.

(c) An entity may only be a Successor if:

(d) For the purposes of this definition, "*succeed*" means, with respect to a Reference Entity and its Relevant Obligations, that an entity other than the Reference Entity (i) assumes or becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord,

entente, pact or other agreement) or (ii) issues Bonds or incurs Loans (the **Exchange Bonds or Loans**) that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable. For the purposes of this definition, **succeeded** and **succession** shall be construed accordingly.

(e) In the case of an exchange offer, the determination required pursuant to paragraph (a) above shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

(f) If two or more entities (each, a **Joint Potential Successor**) jointly succeed to one or more Relevant Obligations (collectively, the **Joint Relevant Obligations**) either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the relevant Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

in any case, it being understood that, in case of (A) or (B) above :

(a) such replacement or substitution shall affect only the provisions related to Reference Entity Spread; and

ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

The provisions of these Additional Terms and Conditions for Inflation Linked Notes apply if the applicable Final Terms specify that the clause "Type of Structured Notes" is "Inflation Linked Notes".

1. DEFINITIONS

Closing Price means the level of the Inflation Index for a Reference Period which is relevant to the calculation of a payment under the Notes.

Fallback Bond means a bond, if any, selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Inflation Index relates and which pays an interest or redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date, if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date, if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays an interest or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged). For the avoidance of doubt, if no bond defined in (a), (b) or (c) above is selected by the Calculation Agent, there will be no Fallback Bond.

Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) any cash deposits or cash borrowing and/or (d) other instruments, arrangements, assets or liabilities howsoever described in order to hedge, individually or on a portfolio basis, the part of Societe Generale or any of its affiliates' obligations under the Notes.

Index Sponsor means the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index on a regular basis.

Inflation Index means any inflation index specified as Underlying in the applicable Final Terms, subject to adjustment pursuant to the provisions of Condition 2.1 below.

Payment Date means any date on which a payment is due and payable pursuant to the terms of the Notes.

Reference Period means the time period for which the level of the Inflation Index was calculated and to which, as a result, such level of Inflation Index refers, regardless of when this level is published or announced. The time period may be, but is not limited to, a calendar year, a semester, a quarter or a month.

Substitute Index Level means an index level, determined by the Calculation Agent in accordance with Condition 2.1(a) below.

Successor Index has the meaning given to it in Condition 2.2 below.

2. ADJUSTMENTS AND EVENTS

2.1 Delay of Publication

(a) If the Closing Price is not published or announced by the day that is five Business Days prior to the next following Payment Date under the Notes, the Calculation Agent will determine a **Substitute Index Level** (in place of such Closing Price) by using the following methodology:

(i) if applicable, the Calculation Agent shall take the same action to determine the Substitute Index Level for such Payment Date as that taken by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond;

(ii) if (i) above does not result in a Substitute Index Level for such Payment Date for any reason, then the Calculation Agent shall determine the Substitute Index Level as follows:

Substitute Index level = Base Level x (Latest Level / Reference Level)

Where:

Base Level means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the time period which is 12 calendar months prior to the time period for which the Substitute Index Level is being determined;

Latest Level means the latest level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the time period in respect of which the Substitute Index Level is being calculated; and

Reference Level means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the time period that is 12 calendar months prior to the time period referred to in "Latest Level" above.

(b) If a Closing Price is published or announced at any time after the day that is five Business Days prior to the next following Payment Date under the Notes, such Closing Price will not be used in any calculations. The Substitute Index Level so determined pursuant to the paragraph (a) above will be the definitive level for that Reference Period.

If the Calculation Agent determines a Substitute Index Level in accordance with this Condition 2.1, the Calculation Agent may make any adjustment or adjustments (without limitation) to (x) the Substitute Index Level determined in accordance with this Condition 2.1 and/or (y) any amount payable under the Notes and/or any other relevant term of the Notes, in each case, as the Calculation Agent deems necessary.

Provided however that:

- all references to the word "five" in (a) and (b) above shall be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purposes of this Condition 2, **Clearing System** means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

2.2 Cessation of Publication

If the Calculation Agent determines that the level of an Inflation Index is not calculated and announced by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index and/or the Index Sponsor cancels the Inflation Index, then the Calculation Agent shall determine a successor index (a **Successor Index**) (in lieu of any previously applicable Inflation Index) for the purposes of the Notes as follows:

(i) if at any time, a successor index has been designated by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond, such successor index shall be designated a Successor Index for the purposes of all subsequent Payment Dates in relation to the Notes, notwithstanding that any other Successor Index may previously have been determined under paragraphs (ii), (iii) or (iv) below;

(ii) if a Successor Index has not been determined under paragraph (i) above, and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Notes from the date that such replacement index comes into effect;

(iii) if a Successor Index has not been determined under paragraphs (i) or (ii) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If at least four responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If fewer than three responses are received, the Calculation Agent will proceed to paragraph (iv) hereof;

(iv) if no Successor Index has been determined under paragraphs (i), (ii) and (iii) above by the fifth Business Day prior to the next following Payment Date under the Notes, the Calculation Agent will determine an appropriate alternative index for such date, acting in good faith and in a commercially reasonable manner, and such index will be deemed the "Successor Index";

Provided however that:

- all references to the word "fifth" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System; and

(v) if the Calculation Agent determines that no alternative index is appropriate, the Calculation Agent shall:

(a) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions ; or

(b) apply "Monetisation until the Maturity Date" (as defined in Condition 6.5 of the General Terms and Conditions).

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Index shall be deemed to replace the Inflation Index for the purposes of the Notes.

If a Successor Index is determined in accordance with this Condition 2.2, the Calculation Agent may make any adjustment or adjustments (without limitation) to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems necessary.

2.3 Rebasing of the Inflation Index

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the **"Rebased Index"**) will be used for purposes of determining the Closing Price from the date of such rebasing; provided, however, that the Calculation Agent shall make such adjustments as are made by the calculation agent pursuant to the terms and conditions of the Fallback Bond, if any, to the level of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Fallback Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Notes.

2.4 Material Modification Prior to Payment Date

If, on or prior to the day that is five Business Days prior to the next following Payment Date under the Notes, the Index Sponsor announces that it will make a material change to the Inflation Index, then the Calculation Agent, acting in good faith and in a commercially reasonable manner, shall make any such adjustments to the Inflation Index consistent with adjustments made to the Fallback Bond, or, if there is no Fallback Bond, only those adjustments necessary for the modified Inflation Index to continue as the Inflation Index.

Provided however that:

- all references to the word "five" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

2.5 Manifest Error in Publication

If, within the earlier of (i) 30 days of publication, and (ii) the day that is five Business Days prior to the next following Payment Date under the Notes, the Calculation Agent determines that the Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent may make any adjustment to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems appropriate as a result of such correction and/or determine the amount (if any) that is payable as a result of that correction.

Provided however that:

- all references to the word "five" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

3. CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING, HOLDING LIMIT EVENT AND CONSEQUENCES

an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions.

Bond Final Price means, in respect of a Bond, a quotation (expressed as a percentage of the Bond Notional Amount) obtained from Quotation Dealers in the manner provided below. The Calculation Agent will determine, based on the then current market practice, whether such quotations will include or exclude accrued but unpaid interest and all quotations will be obtained in accordance with this determination. The Calculation Agent will determine the Bond Final Price from the Full Quotations, the Weighted Average Quotation, the Partial Weighted Average Quotation or the Residual Quotation Amount (each as defined below). For the avoidance of doubt, the Bond Final Price, as determined by the Calculation Agent, is based on obtained Quotations, without any obligation by the Calculation Agent to actually realise any sale transaction in relation to such Quotations.

The Calculation Agent will require each Quotation Dealer to provide quotations to the extent reasonably practicable on the relevant day at approximately 11.00 a.m. London time or 11.00 a.m. New York time or 11.00 a.m. in any other leading market where the liquidity of such Bond may be better, as determined by the Calculation Agent, as the case may be. The Calculation Agent may on the First Quotation Day and if applicable, on the Second Quotation Day, acting in a commercially reasonable manner, determine whether

to request (i) at least one Full Quotation and/or (ii) several firm bid quotations from Quotation Dealers in order to establish a Weighted Average Quotation.

To such end:

(a) if the Calculation Agent obtains at least one Full Quotation and/or one Weighted Average Quotation on the First Quotation Day, the Bond Final Price will be the highest Quotation of the Full Quotation(s) or Weighted Average Quotation(s) obtained (if any) by the Calculation Agent;

(b) if the Calculation Agent is unable to obtain at least one Full Quotation or to determine a Weighted Average Quotation on the First Quotation Day, the Calculation Agent will attempt to obtain at least one Full Quotation and/or one Weighted Average Quotation on the Second Quotation Day, and the Bond Final Price will be the highest Quotation of the Full Quotation(s) or Weighted Average Quotation(s) obtained (if any) by the Calculation Agent; or

(c) if the Calculation Agent obtains quotations for an aggregate amount lower than the Quotation Amount on the Second Quotation Day, then on the Third Quotation Day it will attempt to obtain several firm bid quotations from Quotation Dealers in order to establish a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount. If the Calculation Agent is unable to establish on the Third Quotation Day a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount, it will, until obtaining a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount, on each Quotation Day during the Auction Period, attempt to obtain several firm bid quotations from Quotation Dealers in order to establish a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount. For the avoidance of doubt, once a Partial Weighted Average Quotation is obtained on either the Third Quotation Day or on any Quotation Day in the Auction Period there will be no obligation on the Calculation Agent to seek a further Partial Weighted Average Quotation. The Bond Final Price will then be the weighted average of (i) the firm bid quotations obtained on the Second Quotation Day (if any) and (ii) the Partial Weighted Average Quotation (if any) for the portion equal to the Residual Quotation Amount and (iii) the value determined by the Calculation Agent, acting in a commercially reasonable manner and for the avoidance of doubt this value can be zero for any remaining amount for which no quotation was obtained.

A Qualifying Guarantee shall not include any guarantee:

(a) which is structured as a surety bond, financial guarantee insurance policy or letter of credit (or legal arrangement which is equivalent thereto in form); or

In order for a guarantee to constitute a Qualifying Guarantee:

(i) the benefit of such guarantee must be capable of being Delivered together with the Delivery of the Underlying Obligation; and

(ii) if a guarantee contains a Fixed Cap, all claims to any amounts which are subject to such Fixed Cap must be capable of being Delivered together with the Delivery of such guarantee.

Repudiation/Moratorium Extension Condition means a condition that is satisfied:

(a) if the DC Secretary publicly announces, pursuant to a valid request that was delivered and effectively received on or prior to the Scheduled Maturity Date, that the relevant Credit Derivatives Determinations Committee has Resolved that an event that constitutes a Potential Repudiation/Moratorium for purposes of the relevant Credit Derivative Transaction has occurred with respect to an Obligation of the Bond Issuer and that such event occurred on or prior to the Scheduled Termination Date, or

condition of the Bond Issuer is required where the redenomination is from euros into another currency and occurs as a result of action taken by a Governmental Authority of a Member State of the European Union which is of general application in the jurisdiction of such Governmental Authority.

(c) For the purposes of paragraphs (a) and (b) above and Multiple Holder Obligation, the term Obligation shall be deemed to include Underlying Obligations for which the Bond Issuer is acting as provider of a Guarantee. In the case of a Guarantee and an Underlying Obligation, references to the Bond Issuer in paragraph shall be deemed to refer to the Underlying Obligor and the reference to the Bond Issuer in paragraph (b) above shall continue to refer to the Bond Issuer.

(d) If an exchange has occurred, the determination as to whether one of the events described under paragraphs (a)(1) to (a)(5) above has occurred will be based on a comparison of the terms of the Bond immediately prior to such exchange and the terms of the resulting obligations immediately following such exchange.

(e) Unless Multiple Holder Obligation is specified as not applicable in the related Confirmation, then, notwithstanding anything to the contrary above, the occurrence of, agreement to or announcement of any of the events described in paragraphs (a)(1) to (a)(5) above shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

or only in the case of Increased Cost of Hedging:

AA. deduct:

(i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging and that would be incurred by the Hypothetical Investor, in relation to the Intermediate Hypothetical Hedge Positions or Optional Hypothetical Hedge Positions or Hypothetical Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the **"Reduction Amount"**); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

Or only in case of FRTB Event:

AB. Substitute the Affected ETP or the Affected ETF with the Substitute Index (an **Index Substitution Event**), where Substitute Index means an Index determined by the Calculation Agent as being similar to the benchmark of the Affected ETP or the Affected ETF, or, in the absence of benchmark for the Affected ETP or the Affected ETF as having an investment strategy similar to the

Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of any of the following events (each a **Disruption Event**) in respect of a Valuation Date (the **Disrupted Day**) and in respect of an ETP Issuer or ETP:

A. Calculation and/or Publication Disruption means the occurrence of an event, beyond the control of a Hypothetical Investor (including in case of any gate, deferral, suspension or other provisions in the ETP Documents permitting the ETP Issuer to delay or refuse subscription and/or redemption orders) which precludes the calculation and/or publication of the official ETP Value by the ETP Issuer (or the ETP advisor or agent generally in charge of calculating such official ETP Value); or

B. ETP Settlement Disruption means a failure by the ETP Issuer to pay in cash the full amount of the redemption proceeds on the date by which the ETP Issuer was scheduled to have paid such amount and which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price, including without limitation due to (a) the restriction on the amount or number of redemptions orders that the ETP Issuer (or the ETP advisor or agent generally in charge of accepting redemption orders) will accept in relation to a single date on which the ETP Issuer normally accepts redemption orders (a gate), (b) the suspension for any reason of the subscription or redemption orders by the ETP Issuer (or the ETP advisor or agent generally in charge of accepting subscription and redemption orders);

C. ETP Determination Disruption Event means the occurrence of any event (beyond the control of a Hypothetical Investor) other than the events mentioned in "*Calculation and/or Publication Disruption*" in (A) above or "*ETP Settlement Disruption*" in (B) above affecting such ETP which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price,

the Valuation Date, in respect of the ETP affected by such Disruption Event, shall be postponed to the immediately following Business Day (as specified to be applicable in relation to such Valuation Date in the applicable Final Terms) that is no longer affected by a Disruption Event for such affected ETP.

If a Disruption Event has occurred or is continuing on each of the five scheduled Business Days, following the Scheduled Valuation Date or if no Business Day, that is not affected by a Disruption Event has occurred at the latest on the thirty-fifth calendar day following the Scheduled Valuation Date, then the Calculation Agent may either:

X. (a) determine its good faith estimate of the ETP Value which shall be deemed to be the Closing Price in respect of such Valuation Date provided that if the Calculation Agent decides to make such determination, the Valuation Date shall occur no later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of such determination (except in respect of Uncertificated Nordic Notes for which the determination shall be made pursuant to the provisions below"); or

(ii) only in case of ETP Settlement Disruption,

(a) consider such event as an Early Redemption Event and may decide to pay, in full or in part, the Early Redemption Amount by the delivery of the ETP in lieu of its obligations to pay the Early Redemption Amount in cash; or (b) if Liquidity Modification or ETP Settlement Disruption is continuing on the last Valuation Date and the Calculation Agent did not consider such event as an Early Redemption Event may decide to pay, in full or in part, the Final Redemption Amount by the delivery of the ETP in lieu of its obligations to pay the Final Redemption Amount in cash; or

Y. consider such Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or

Z. apply one of the following methods:

(a) "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions, or

(b) substitute the ETP affected by such Disruption Event with an ETP having an investment strategy and/or an economic pay-out similar to the investment strategy and/or the economic pay-out of the ETP affected by such Disruption Event (the **New ETP**) and adjust any relevant terms of the Notes to preserve the economic equivalent of the obligations of the Issuer under the Notes.

Notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the value of the ETP so calculated shall be deemed the Closing Price,

provided however that:

all references to the word "fourth" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purposes of this Condition 3.3, **Clearing System** means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

3.4 Maturity Disruption Event relating to any ETP Issuer and/or any ETP

Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of a Maturity Disruption Event:

- A. the Issuer shall consider such extraordinary event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions; or
- B. apply "Monetisation until the Maturity Date" as defined above.

$$PL(t) = (PL(t-1) + Perf(t-1,t) + Fin(t-1,t)) - ReplicationFeeCost(t) - TC(t-1,t)$$

Where:

PL(0) means the initial level of the Portfolio as of Calculation Date (0), as specified in the applicable Final Terms or, if no such level is specified, the Specified Denomination.

And with

- If Crash Put Costs Calculation is specified as applicable in the applicable Final Terms:

ReplicationFeeCost(t) means $(PL(t-1) + Perf(t-1,t) + Fin(t-1,t)) \times CPC(t-1) \times ACT(t-1,t) / TimeBasis$

- Otherwise, if Crash Put Costs Calculation is not specified or is specified as not applicable in the applicable Final Terms:

ReplicationFeeCost(t) = 0

Where

If Weight Reset is specified as applicable in the applicable Final Terms and Calculation Date (t) is a Weight Reset Date:

$TC(t-1,t) = \text{Sum}(k \text{ from } 1 \text{ to } TNPC(t-1,t)) (Abs(Q(k,t) - Q(k,t-1) \times AdjustmentFactor(k,t)) \times S(k,t) \times PortfolioFX(k,t) \times TCR(k,t))$

And

Fin_ForexStrat(t-1,t) = $\text{Sum}(k \text{ from } 1 \text{ to } NPC(t-1,t)) (FXRatio(k,t-1) \times FXHedgeInd(k) \times Q(k,t-1) \times PortfolioFX(k,t-1) \times S(k,t-1) \times (IsFunded(k) \times Rate(k,t-1) \times Act(t-1,t) / TimeBasis - IsFunded(k) \times ERate(k,t-1) \times Act(t-1,t) / TimeBasis))$

Or :

$\text{EffectiveGearingLong}(t-\text{Lag}) + \text{EffectiveGearingShort}(t-\text{Lag}) > \text{GrossGearingSup}$

Then:

$$\text{ReweightFactorLong}(t) = \text{TargetGearingLong}(t) \times 2 \times (\text{PL}(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)) / (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-1)) + Q(k,t-1)) \times \text{AdjustmentFactor}(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t))$$

Else:

$\text{ReweightFactorLong}(t)=1$

For the avoidance of doubt, if neither GearingInfLong nor GearingSupLong nor Simultaneous Long and Short Restrikes is specified in the applicable Final Terms, then ReweightFactorLong(t) shall always be set to 1.

Or if:

t is a Restriking Date

Or if:

Simultaneous Long and Short Restrikes is specified as Applicable in the applicable Final Terms

And:

Either:

$\text{EffectiveGearingLong}(t-\text{Lag}) > \text{GearingSupLong}$

Or:

$\text{EffectiveGearingLong}(t-\text{Lag}) < \text{GearingInfLong}$

Or:

$\text{EffectiveGearingLong}(t-\text{Lag}) + \text{EffectiveGearingShort}(t-\text{Lag}) > \text{GrossGearingSup}$

Then:

$\text{ReweightFactorShort}(t) = \text{TargetGearingShort}(t) \times 2 \times (\text{PL}(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)) / (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-1)) - Q(k,t-1)) \times \text{AdjustmentFactor}(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t)))$

Else:

$\text{ReweightFactorShort}(t)=1$

For the avoidance of doubt, if neither GearingInfShort nor GearingSupShort nor Simultaneous Long and Short Restrikes is specified in the applicable Final Terms, then $\text{ReweightFactorShort}(t)$ shall always be set to 1.

EffectiveGearingLong(t-Lag) is determined in accordance with the following

$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-\text{Lag})) + Q(k,t-\text{Lag})) \times S(k,t-\text{Lag}) \times \text{PortfolioFX}(k,t-\text{Lag})) / (2 \times \text{PL}(t-\text{Lag}))$

EffectiveGearingShort(t-Lag) is determined in accordance with the following

$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-\text{Lag})) - Q(k,t-\text{Lag})) \times S(k,t-\text{Lag}) \times \text{PortfolioFX}(k,t-\text{Lag})) / (2 \times \text{PL}(t-\text{Lag}))$

If Reinvestment Method is set to Individual Components or if no Reinvestment Method is specified in the applicable Final Terms:

$\text{AdjustmentFactor}(k,t) = 1 + (\text{DistRate}(k,t) \times \text{PortfolioDist}(k,t)) / (S(k,t-1) - \text{PortfolioDist}(k,t))$

And $\text{DivBucket}(t) = 0$

If Reinvestment Method is set to Portfolio in the applicable Final Terms:

$\text{AdjustmentFactor}(k,t) = 1 + (\text{Sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (0.5 \times (\text{Abs}(Q(j,t-1)) + \text{Sign}(Q(k,t-1)) \times Q(j,t-1)) \times \text{PortfolioFX}(j,t-1) \times \text{DistRate}(j,t) \times \text{PortfolioDist}(j,t))) / (\text{Sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (0.5 \times (\text{Abs}(Q(j,t-1)) + \text{Sign}(Q(k,t-1)) \times Q(j,t-1)) \times \text{PortfolioFX}(j,t-1) \times S(j,t-1)))$

And $\text{DivBucket}(t) = 0$

If Reinvestment Method is set to Cash Bucket in the applicable Final Terms:

$\text{AdjustmentFactor}(k,t) = 1$

And

$\text{DivBucket}(t) = \text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) (\text{DistRate}(k,t) \times \text{PortfolioDist}(k,t) \times Q(k,t-1) \times \text{PortfolioFX}(k,t-1))$

provided that, if so provided in the applicable Final Terms, any of one of the above options may be applied in a different manner in respect of (i) different Scheduled Calculation Dates, (ii) different Portfolio Components or provided that, if "Dynamic Portfolio" is set to applicable in the applicable Final Terms, any one of the above options may be applied in a different manner in respect of any Scheduled Calculation Dates and any Portfolio Components, depending on whether a Modification Proposal (as defined in Condition 3) is effective on a given Calculation Date.

2.6 Determination of the Crash Put Cost CPC(t)

If:

$$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t))) ((\text{Abs}(Q(k,t)) + Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times \text{PL}(t))) +$$

$$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t))) ((\text{Abs}(Q(k,t)) - Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times \text{PL}(t))) > 1$$

Then:

$$\text{CPC}(t) = \text{LeverageEff}(t) \times \text{CPLLevel}(\text{ADD}(t))$$

Else:

$$\text{CPC}(t) = 0$$

Where LeverageEff is the effective leverage determined as follows

$$\text{LeverageEff}(t) = \text{Max}((\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t))) ((\text{Abs}(Q(k,t)) + Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times \text{PL}(t))) ; (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t))) ((\text{Abs}(Q(k,t)) - Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times \text{PL}(t))))$$

And the Crash Put Level (CPLLevel(ADD(t))) is, in respect of Calculation Date (t), determined by the Calculation Agent based on the value of the Average Decade Down (ADD(t)) as of such date. and in accordance with the CPLLevel table specified in the applicable Final Terms, The CPLLevel table contains the CPLLevel rates applicable for any given level of the Average Decade Down.

The Average Decade Down ADD(t) is, in respect of Calculation Date (t), determined by the Calculation Agent in accordance with the following formula:

$$ADD(t) = \text{LeverageLS}(t) \times DDLS + \text{LeverageIMP}(t) \times DDIMP(t)$$

Where

The Long-Short Leverage (LeverageLS(t)) is determined as follows on each Calculation Date(t):

$$\text{LeverageLS}(t) = \text{Min}((\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t))) ((\text{Abs}(Q(k,t)) + Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times \text{PL}(t))) ; (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t))) ((\text{Abs}(Q(k,t)) - Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times \text{PL}(t))))$$

The Implicit Leverage (LeverageIMP(t)) is determined as follows on each Calculation Date(t):

$$\text{LeverageIMP}(t) = \text{LeverageEff}(t) - \text{LeverageLS}(t)$$

DDIMP(t) is determined as follows on each Calculation Date(t):

$$\text{If } (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t))) (Q(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t)) \geq 0$$

$$\text{Then: } DDIMP(t) = DDIMPLong$$

$$\text{Else: } DDIMP(t) = DDIMPShort$$

2.7 Determination of the Portfolio Cash Component Level, "PCCL(t)"

The Portfolio Cash Component Level is determined, in respect of Calculation Date (t), in accordance with the following formula:

$$PCCL(t) = \text{PL}(t) - (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t))) (Q(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t))$$

3.2 Amendments to Condition 2

The following amendments are made to Condition 2 above for the purpose of determining the Portfolio Level of the Portfolio.

3.2.1 Amendments to Condition 2.1

The formula used to determine the Portfolio Level is replaced with the following:

$$PL(t) = PL(t-1) + Perf(t-1,t) + Fin(t-1,t) - TC(t-1,t)$$

Where:

$PL(0)$ means the initial level of the Portfolio as of Calculation Date (0), as specified in the applicable Final Terms or, if no such level is specified, the Specified Denomination.

$$TC(t-1,t) = \text{Sum}(k \text{ from } 1 \text{ to } TNPC(t-1,t)) (\text{Abs}(Q(k,t) - Q(k,t-1) \times \text{AdjustmentFactor}(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t) \times TCR(k,t))$$

$TCR(k,t)$ means in respect of Calculation Date (t) and Portfolio Component (k) the transaction cost of such Portfolio Component (k), as specified in the applicable Final Terms or, if no such level is specified, the transaction cost is determined in accordance with the following:

And $\text{ExecCostRate}(k,t)$ is determined in accordance with the following:

If $Q(k,t) \geq Q(k,t-1) \times \text{AdjustmentFactor}(k,t)$ then $\text{ExecCostRate}(k,t) = \text{ExecCostRateIn}(k,t)$

If $Q(k,t) < Q(k,t-1) \times \text{AdjustmentFactor}(k,t)$ then $\text{ExecCostRate}(k,t) = \text{ExecCostRateOut}(k,t)$

3.2.2 Amendments to Condition 2.4

Condition 2.4 is deleted in its entirety and replaced with the following:

For each Calculation Date (t) and Portfolio Component (k), and subject to any adjustment determined by the Calculation Agent pursuant to a Portfolio Extraordinary Event or a Portfolio Disruption Event $Q(k,t)$ shall be determined by the Calculation Agent in accordance with the following formulae:

If there is no Modification Proposal with a Rebalancing Date on Calculation Date (t)

- If Weight Reset is specified as applicable in the applicable Final Terms and Calculation Date is a Weight Reset Date:

$$Q(k,t) = PL(t-1) \times \text{InitialWeight}(k) / (S(k,t-1) \times \text{PortfolioFX}(k,t-1))$$

- Otherwise

$$Q(k,t) = Q(k,t-1) \times \text{AdjustmentFactor}(k,t) \times \text{ReweightFactor}(k,t)$$

Where:

unless specified otherwise in the applicable Final Terms:

$$Q(k,0) = PL(0) \times \text{InitialWeight}(k) / (S(k,0) \times \text{PortfolioFX}(k,0))$$

ReweightFactor(k,t) is determined as follows on each Calculation Date (t) and in respect of each Portfolio Component (k):

If $Q(k,t-1) \geq 0$ then

$$\text{ReweightFactor}(k,t) = \text{ReweightFactorLong}(t)$$

If $Q(k,t-1) < 0$ then

$$\text{ReweightFactor}(k,t) = \text{ReweightFactorShort}(t)$$

ReweightFactorLong(t) is determined as follows on each Calculation Date (t):

If:

$$\text{EffectiveGearingLong}(t-\text{Lag}) > \text{GearingSupLong}$$

Or if:

$$\text{EffectiveGearingLong}(t-\text{Lag}) < \text{GearingInfLong}$$

Or if:

t is a Restriking Date

Or if:

Simultaneous Long and Short Restrikes is specified as Applicable in the applicable Final Terms

And:

Either:

$$\text{EffectiveGearingShort}(t-\text{Lag}) > \text{GearingSupShort}$$

Or:

$$\text{EffectiveGearingShort}(t-\text{Lag}) < \text{GearingInfShort}$$

Or:

$$\text{EffectiveGearingLong}(t-\text{Lag}) + \text{EffectiveGearingShort}(t-\text{Lag}) > \text{GrossGearingSup}$$

Then:

$$\text{ReweightFactorLong}(t) = \text{TargetGearingLong}(t) \times 2 \times (PL(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)) / (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) ((\text{Abs}(Q(k,t-1)) + Q(k,t-1)) \times \text{AdjustmentFactor}(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t)))$$

Else:

$$\text{ReweightFactorLong}(t) = 1$$

For the avoidance of doubt, if neither GearingInfLong nor GearingSupLong nor Simultaneous Long and Short Restrikes is specified in the applicable Final Terms, then ReweightFactorLong(t) shall always be set to 1.

ReweightFactorShort(t) is determined as follows on each Calculation Date (t):

If:

$$\text{EffectiveGearingShort}(t-\text{Lag}) > \text{GearingSupShort}$$

Or if:

$$\text{EffectiveGearingShort}(t-\text{Lag}) < \text{GearingInfShort}$$

Or if:

t is a Restriking Date

Or if:

Simultaneous Long and Short Restrikes is specified as Applicable in the applicable Final Terms

And:

Either:

$$\text{EffectiveGearingLong}(t-\text{Lag}) > \text{GearingSupLong}$$

Or:

$\text{EffectiveGearingLong}(t-\text{Lag}) < \text{GearingInfLong}$

Or:

$\text{EffectiveGearingLong}(t-\text{Lag}) + \text{EffectiveGearingShort}(t-\text{Lag}) > \text{GrossGearingSup}$

Then:

$\text{ReweightFactorShort}(t) = \text{TargetGearingShort}(t) \times 2 \times (\text{PL}(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)) / (\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) ((\text{Abs}(Q(k,t-1)) - Q(k,t-1)) \times \text{AdjustmentFactor}(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t)))$

Else:

$\text{ReweightFactorShort}(t)=1$

For the avoidance of doubt, if neither GearingInfShort nor GearingSupShort nor Simultaneous Long and Short Restrikes is specified in the applicable Final Terms, then ReweightFactorShort(t) shall always be set to 1.

EffectiveGearingLong(t-Lag) is determined in accordance with the following:

$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-\text{Lag})) + Q(k,t-\text{Lag})) \times S(k,t-\text{Lag}) \times \text{PortfolioFX}(k,t-\text{Lag})) / (2 \times \text{PL}(t-\text{Lag})))$

EffectiveGearingShort(t-Lag) is determined in accordance with the following:

$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-\text{Lag})) ((\text{Abs}(Q(k,t-\text{Lag})) - Q(k,t-\text{Lag})) \times S(k,t-\text{Lag}) \times \text{PortfolioFX}(k,t-\text{Lag})) / (2 \times \text{PL}(t-\text{Lag})))$

AdjustmentFactor(k,t) and **DivBucket(t)** are determined in accordance with the following on each Calculation Date (t) and in respect of each Portfolio Component (k):

- If Reinvestment Method is set to Individual Components or if no Reinvestment Method is specified in the applicable Final Terms:

$\text{AdjustmentFactor}(k,t) = 1 + (\text{DistRate}(k,t) \times \text{PortfolioDist}(k,t)) / (S(k,t-1) - \text{PortfolioDist}(k,t))$

And $\text{DivBucket}(t) = 0$

- If Reinvestment Method is set to Portfolio in the applicable Final Terms:

$\text{AdjustmentFactor}(k,t) = 1 + (\text{Sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (0.5 \times (\text{Abs}(Q(j,t-1)) + \text{Sign}(Q(k,t-1)) \times Q(j,t-1)) \times \text{PortfolioFX}(j,t-1) \times \text{DistRate}(j,t) \times \text{PortfolioDist}(j,t))) / (\text{Sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (0.5 \times (\text{Abs}(Q(j,t-1)) + \text{Sign}(Q(k,t-1)) \times Q(j,t-1)) \times \text{PortfolioFX}(j,t-1) \times S(j,t-1)))$

And $\text{DivBucket}(t) = 0$

- If Reinvestment Method is set to Cash Bucket in the applicable Final Terms:

$\text{AdjustmentFactor}(k,t) = 1$

And $\text{DivBucket}(t) = \text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) (\text{DistRate}(k,t) \times \text{PortfolioDist}(k,t) \times Q(k,t-1) \times \text{PortfolioFX}(k,t-1))$

If there are one or more Modification Proposal(s) affecting Portfolio Component (k) with a Rebalancing Date on Calculation Date (t):

Unless communicated by the Weighting Advisor in accordance with Condition 3.3, $Q(k,t)$ is determined according with the below formula:

$Q(k,t) = \text{PL}(t-\text{RLag}) \times \text{RebalWeight}(k) / (S(k,t-\text{RLag}) \times \text{PortfolioFX}(k,t-\text{RLag}))$

Where:

RebalWeight (t) is providing by the Weighting Advisor in accordance with Condition 3.3;

RLag means the maximum between (i) 1 and (ii) the Rebalancing Lag.

- (iv) any combination thereof.

(each a **Modification Proposal**, together the **Modification Proposals**) in accordance with the procedure described in Condition 3.4 (the **Re-Weighting Procedure**). For the avoidance of doubt, any $Q(k,t)$ may be equal to 0 in which case the Portfolio Component shall be deemed to be removed from the Portfolio. It is understood that it is under the responsibility of the Weighting Advisor to ensure that any Modification Proposal complies with the Portfolio Eligibility Criteria and that, subject to Condition 3.3.2, neither the Issuer nor the Calculation Agent will influence a Modification Proposal.

In addition, when submitting a Modification Proposal, the Weighting Advisor shall provide (i) all necessary details required to implement such Modification Proposal and (ii) the Modification Trigger(s) applicable to such Modification Proposal.

3.3.2 Under normal market conditions, the Calculation Agent shall implement the Modification Proposals relating to the Portfolio unless the Calculation Agent determines:

(ii) the Weighting Advisor fails to comply with the General Terms and Conditions of the Notes, and in particular the Modification Proposal is in breach of any Applicable Portfolio Eligibility Criteria set out in the applicable Final Terms; or

(iii) the information provided by the Weighting Advisor in relation to a proposed Modification Proposal is incomplete, in particular it does not include parameters which are necessary to implement the proposed Modification Proposal, including but not limited to the applicable Modification Trigger and information necessary to identify each Portfolio Component or elements necessary to determine the quantity of each Portfolio Component; or

(iv) the Issuer's or any of its affiliate's ability to hedge its exposure under the Notes would be materially affected by the implementation of the Modification Proposal or such Modification Proposal would increase the cost of hedging the Notes, including but not limited to (i) as a result of a change in law or regulation, (ii) the imposition of taxes, stamp duties, financial transaction tax or any other tax or levy having a similar effect or (iii) in case the Calculation Agent determines in good faith and in a commercially reasonable manner that the liquidity of the Portfolio Component affected by such Modification Proposal is not sufficient for the Issuer, the Calculation Agent or any of their affiliates, to implement such Modification Proposal; or

(v) a case of Force Majeure Event affecting the Notes, the Issuer, the Calculation Agent or the Weighting Advisor has occurred and is continuing.

Unless a Modification Proposal has been rejected by the Calculation Agent on the basis of one or more of the above grounds, the Calculation Agent shall then implement such Modification Proposal in accordance with the Re-Weighting Procedure without any liability of the Calculation Agent in relation to the opportunity of such Modification Proposal.

The following information shall be made available by the Calculation Agent on the Portfolio Publication Website:

- the composition of the Portfolio; and
- the detail of each Modification Proposal including the applicable Modification Trigger.

3.4 Re-Weighting Procedure

Subject to the provision of 3.3.2 above, the Calculation Agent shall on each Rebalancing Date make the Modification Proposal(s) to the Portfolio requested by the Weighting Advisor, provided the relevant request was received before the Communication Deadline on the Review Date. 3.6 Changing the target exposures

3.6.1 The Weighting Advisor may on each Review Date propose to the Calculation Agent a modification to the target gearing percentages of the exposures.

The Weighting Advisor will be entitled to make modification proposals in relation to:

- (i) the value of TargetGearingLong;
- (ii) the value of TargetGearingShort;

(each a **Target Exposure Modification Proposal**, together the **Target Exposure Modification Proposals**) in accordance with the procedure described in Condition 3.7 (the **Change in Target Gearings Procedure**). It is understood that neither the Issuer nor the Calculation Agent will influence a Target Exposure Modification Proposal.

In addition, when submitting a Target Exposure Modification Proposal, the Weighting Advisor shall provide (i) all necessary details required to implement such Target Exposure Modification Proposal and (ii) the Target Exposure Modification Trigger(s) applicable to such Target Exposure Modification Proposal.

3.6.2 Under normal market conditions, the Calculation Agent shall implement the Target Exposure Modification Proposals relating to the Portfolio unless the Calculation Agent determines:

- (i) the proposed Target Exposure Modification would breach or cause a breach of any provision of the Weighting Advisory Agreement, any applicable law, regulations or risk or compliance guidelines and policy of the Issuer or the Calculation Agent; or
- (ii) the Weighting Advisor fails to comply with the General Terms and Conditions of the Notes; or

(iii) the information provided by the Weighting Advisor in relation to a proposed Target Exposure Modification is incomplete, in particular it does not include parameters which are necessary to implement the proposed Target Exposure Modification, including but not limited to the applicable Target Exposure Modification Trigger; or

(iv) the Issuer's or any of its affiliate's ability to hedge its exposure under the Notes would be materially affected by the implementation of the Target Exposure Modification Proposal; or

(v) a case of Force Majeure Event affecting the Notes, the Issuer, the Calculation Agent or the Weighting Advisor has occurred and is continuing.

Unless a Target Exposure Modification Proposal has been rejected by the Calculation Agent on the basis of one or more of the above grounds, the Calculation Agent shall then implement such Target Exposure Modification Proposal in accordance with the Change in Target Gearings Procedure without any liability of the Calculation Agent in relation to the opportunity of such Target Exposure Modification Proposal.

The following information shall be made available by the Calculation Agent on the Portfolio Publication Website:

- the values of the TargetGearingLong and TargetGearingShort; and
- the detail of each Target Exposure Modification Proposal including the applicable Target Exposure Modification Trigger.

3.7 Change in Target Gearings Procedure

Subject to the provision of 3.6.2 above, the Calculation Agent shall on each Target Exposure Implementation Date make the Target Exposure Modification Proposal(s) to the Portfolio requested by the Weighting Advisor, provided the relevant request was received before the Communication Deadline on the Review Date. Any request received on a Review Date after the Communication Deadline shall be deemed to be received on the immediately subsequent Review Date.

3.8 Effect of Termination of Weighting Advisory Agreement

If the Weighting Advisory Agreement is terminated prior to the Maturity Date (or, in case of open-ended Notes, the last Optional Redemption Date), the Calculation Agent may:

(i) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid, an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Condition (such paragraph (i) shall not apply to Notes to be listed on the Italian Exchange (Borsa Italiana S.p.A.));

(ii) apply "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions; or

name a substitute Weighting Advisor (the "**Substitute Weighting Advisor**"), suitable to the Calculation Agent, that will take over the obligations of the existing Weighting Advisor, as soon as possible after the occurrence of the Termination of the Weighting Advisory Agreement and no later than one month after the Termination of the Weighting Advisory Agreement. If the substitute Weighting Advisory Agreement is not signed at the same time as the Weighting Advisory Agreement is terminated, the Portfolio Components will keep the same weightings as those on the date of Termination of the Weighting Advisory Agreement. If no such Substitute Weighting Advisor is named up to one month after the Termination of the Weighting Advisory Agreement, the Calculation Agent may apply either (i) or (ii) above.

4. CONSEQUENCES OF DISRUPTED DAYS FOR VALUATION DATES OR AVERAGING DATES

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date or the Scheduled Averaging Date**) is a Disrupted Day for a Portfolio, then the Valuation Date or Averaging Date for such Portfolio shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day in respect of that Portfolio, unless each of the eight Scheduled Calculation Dates immediately following the Scheduled Valuation Date or Averaging Date is a Disrupted Day. In that case:

A. the eighth Scheduled Calculation Date shall be deemed to be the Valuation Date or Averaging Date, notwithstanding the fact that such day is a Disrupted Day; and

B. the Calculation Agent shall determine the level of the Portfolio on that eighth Scheduled Calculation Date in accordance with the formula for and method of calculating that Portfolio last in effect prior to the occurrence of the first Disrupted Day;

provided that if the Portfolio is included in a Basket, the hereabove provisions shall apply only to the Portfolio affected by the occurrence of a Disrupted Day and the Valuation Date or Averaging Date for each other underlying comprised in the Basket and not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date;

provided however that:

a) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Calculation Date that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the

eighth Scheduled Calculation Date following the Scheduled Averaging Date a Scheduled Calculation Date that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Calculation Date shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Calculation Date is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (B) above, and the good faith estimate of the level of the Portfolio so calculated shall be deemed the Closing Price; and

b) notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date. If a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest on such fourth Business Day and the good faith estimate of the level of the Portfolio so calculated shall be deemed the Portfolio Level,

provided however that, all references to the word "fourth" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purposes of this Condition 4, Clearing System means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

5. ADJUSTMENTS, EVENTS, MONETISATION UNTIL THE MATURITY DATE, HEDGING DISRUPTION, INCREASED COST OF HEDGING, INCREASED COST OF BORROW, LOSS OF BORROW, CHANGE IN LAW CHINA CONNECT SHARE DISQUALIFICATION, CHINA CONNECT SERVICE TERMINATION, HOLDING LIMIT EVENTS AND CONSEQUENCES

5.1 Stop-Loss Event relating to a Portfolio

If, on any Calculation Date after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Portfolio Level of a Portfolio is affected by a decrease of 80 per cent. or more of its Portfolio Level on the initial Valuation Date (the **Affected Portfolio** and the event, the **Stop-Loss Event**), then the Calculation Agent may decide to:

A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions (but such paragraph A. shall not apply to Notes to be listed on the Italian Stock Exchange (Borsa Italiana S.p.A.));

B. continue the Notes according to their terms.

5.2 Hedging Disruption, Increased Cost of Hedging, Increased Cost of Borrow, Loss of Borrow and consequences

Hedging Disruption means, in respect of Notes that have one or more Portfolio(s) as Underlying(s) that Societe Generale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the price risk of entering into and performing its obligations with respect to the Notes or the agreement entered into with Societe Generale or any of its affiliates by the Issuer in relation to the Notes; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

In addition, for Shares traded through the China Connect Services, the definition of Hedging Disruption is completed by adding:

For the avoidance of doubt, "using commercially reasonable efforts" to hedge the risks with respect to the transaction(s) referred to in Hedging Disruption does not include the use of any quota granted to Societe Generale or its Affiliates under the Qualified Foreign Institutional Investor (QFII) and Renminbi Qualified Foreign Institutional Investor (RQFII) regimes.

Increased Cost of Hedging means, in respect of Notes that have one or more Portfolio(s) as Underlying(s), that Societe Generale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Societe Generale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) or costs specified in these Additional Terms and Conditions, and the applicable Final Terms to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Notes or any agreement entered into with Societe Generale or any of its affiliates by the Issuer with respect to the Notes or (b) freely realize, recover or remit the proceeds of its Hedge Positions.

Increased Cost of Borrow means, in respect of Notes that have one or more Portfolio(s) as Underlying(s), that Societe Generale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Societe Generale or any of its affiliates enters into the Hedge Positions in respect of the Notes) rate to borrow hedging instruments in respect of the Notes.

Loss of Borrow means, in respect of Notes that have one or more Portfolio(s) as Underlying(s), that Societe Generale or any of its affiliates is unable, after using commercially reasonable efforts, to borrow (or maintain a borrowing of) hedging instruments with

respect to the Notes in an amount it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Notes or any agreement entered into with Societe Generale or any of its affiliates by the Issuer with respect to the Notes.

In case of the occurrence of a Hedging Disruption, an Increased Cost of Hedging, an Increased Cost of Borrow or a Loss of Borrow relating to a Portfolio (the **Affected Underlying**), the Calculation Agent may:

A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions (such paragraph (i) shall not apply to Notes to be listed on the Italian Exchange (Borsa Italiana S.p.A.);

B. apply the "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions, or; but only in the case of Increased Cost of Hedging; or

C. replace the Affected Underlying by a Similar Portfolio provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes (subject to any taxes to be withheld or paid). In particular, the Calculation Agent may but shall be under no obligation to remove the Portfolio Component triggering the Hedging Disruption, Increased Cost of Hedging, Increased Cost of Borrow or Loss of Borrow and reinvest its proceeds into the other Portfolio Components,

and:

deduct:

(i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Societe Generale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the **"Reduction Amount"**); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

(ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

Subparagraph A shall not apply to Notes to be listed on the Italian Stock Exchange (Borsa Italiana S.p.A.).

5.3 Change in Law and consequences

Change in Law means in respect of Notes that have one or more Portfolio(s) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines that it has become illegal for Societe Generale or any of its affiliates to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with Societe Generale or any of its affiliates by the Issuer, relating to the Underlying of the Notes (the **Affected Underlying**).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, the Calculation Agent will decide to:

A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid, an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions; or (such paragraph (i) shall not apply to Notes to be listed on the Italian Exchange (Borsa Italiana S.p.A.);

B. replace the Affected Underlying by a Similar Portfolio provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes (subject to any taxes to be withheld or paid). In particular, the Calculation Agent may but shall be under no obligation to remove the Portfolio Component triggering the Change in Law and reinvest its proceeds into the other Portfolio Components; or

C. apply the "Monetisation until the Maturity Date " as defined in Condition 6.5 of the General Terms and Conditions.

5.4 China Connect Share Disqualification and China Connect Service Termination and consequences

In respect of Shares traded through the China Connect Services, the following paragraphs apply:

China Connect Share Disqualification means, on or after the Issue Date, the Shares cease to be accepted as "China Connect Securities" (as defined in the rules of the exchange of SEHK) for the purpose of the China Connect Service;

China Connect Service Termination means, on or after the Issue Date, the announcement by one or more of the Exchange, SEHK, the CSDCC, HKSCC or any regulatory authority with competent jurisdiction of a suspension or termination of the China Connect Service or a part thereof for any reason which materially affects the routing of orders in respect of, or holding of, the Shares through the China Connect Service and the Calculation Agent determines that there is a reasonable likelihood that such suspension or termination is not, or will not be, temporary, then upon the occurrence of such events, the Calculation Agent may elect, while China Connect Share Disqualification or China Connect Service Termination is continuing, to terminate the transaction(s), upon at least two Scheduled Trading Days' notice specifying the date of such termination, in which event the Calculation Agent will apply the Early Redemption.

5.5 Holding Limit Event

In case of the occurrence of a Holding Limit Event relating to a Portfolio Component (the **Affected Underlying**), the Calculation Agent may:

A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6.3 of the General Terms and Conditions (such paragraph (i) shall not apply to Notes to be listed on the Italian Exchange (Borsa Italiana S.p.A.);

B. apply the "Monetisation until the Maturity Date " as defined in Condition 6.5 of the General Terms and Conditions; or

C. replace the Affected Underlying by a Similar Portfolio Component provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes (subject to any taxes to be withheld or paid). In particular, the Calculation Agent may but shall be under no obligation to remove the Portfolio Component triggering the Holding Limit Event and reinvest its proceeds into the other Portfolio Components.

6. PORTFOLIO DISRUPTION EVENTS

6.1 Consequences of a Portfolio Disruption Event

For the purposes of this Condition:

Portfolio Disruption Event means a Basket Component Disruption Event or a Market Data Disruption Event, both as determined by the Calculation Agent.

Basket Component Disruption Event means an Equity Instrument Disruption Event, a Commodity Instrument Disruption Event, a Debt Instrument Disruption Event or a Derivatives Instrument Disruption Event.

If a Portfolio Disruption Event occurs on a Scheduled Calculation Date (a Disrupted Day), then the Calculation Agent shall not calculate the Portfolio Level on such Disrupted Day and the next Calculation Date for all Portfolio Components shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day for any Portfolio Component as determined by the Calculation Agent, unless each of the eight Scheduled Calculation Dates immediately following the initial Disrupted Day is also a Disrupted Day for any Portfolio Component, in which case:

(i) the eighth Scheduled Calculation Date following the initial Disrupted Day, and each Scheduled Calculation Date that is a Disrupted Day thereafter, shall be deemed to be a Calculation Date (each, a **Disrupted Calculation Date**), notwithstanding the existence of a Portfolio Disruption Event on such date and only for the purpose of determining the Portfolio Level; and

(ii) on each Disrupted Calculation Date, the Calculation Agent shall calculate the Portfolio Level in accordance with the formula for and method of calculating the Portfolio Level as set out in these Conditions provided that:

(a) if the Portfolio Disruption Event is a Basket Component Disruption Event in relation to one or more of the Basket Component(s) only (such Basket Component(s) the **Affected Basket Component(s)**):

(x) the level or price of the Affected Basket Component(s) shall be calculated using the level or price of such Affected Basket Component(s) last in effect prior to the occurrence of the relevant Basket Component Disruption Event; and

(y) the level of each of the Market Data as described in the definition of such Market Data on the relevant date(s) of determination shall be calculated as if no Portfolio Disruption Event existed;

(b) if the Portfolio Disruption Event is a Market Data Disruption Event in relation to one or more of the Market Data only (such Market Data the **Affected Market Data**):

(x) the level or price of each Basket Component as described in the definition of such Basket Component(s), on the relevant date(s) of determination shall be calculated as if no Portfolio Disruption Event existed; and
(y) the level of the Affected Market Data shall be determined in good faith using relevant market indicators on the relevant date(s) of determination; or

(c) if the Portfolio Disruption Event comprises both a Basket Component Disruption Event as well as a Market Data Disruption Event:

(x) the level or price of the Affected Basket Component(s) shall be calculated using the level or price of such Affected Basket Component last in effect prior to the occurrence of the relevant Basket Component Disruption Event; and
(y) the level of the Affected Market Data shall be determined in good faith using relevant market indicators on the relevant date(s) of determination.

For the avoidance of doubt, for the purpose of this Condition 6.1, any Portfolio Component(s) that are neither an Affected Basket Component, nor an Affected Market Data will be valued as of the Disrupted Calculation Date.

Notwithstanding the foregoing, if a Portfolio Disruption Event is continuing on any day falling on or after the first Disrupted Calculation Date, then the Calculation Agent may:

(a) apply "Monetisation until the Maturity Date" as defined in Condition 6.5 of the General Terms and Conditions; or

(b) substitute the relevant Affected Basket Component or Affected Market Data with another instrument (which shall then become a substitute Basket Component or Market Data) provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes (subject to any taxes to be withheld or paid); or

(c) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

6.2 Equity Instrument Disruption Event

Equity Instrument Disruption Event means, in respect of any Basket Component that is an Equity Instrument,

1. if the Equity Instrument is a Share, an ETF Share or an Underlying Index on the aforementioned, and

(a) if the Basket Component Type is "Share" or "ETF", the occurrence or existence of a Share Disruption Event, or

(b) if the Basket Component Type is "Index", the non-publication of the Underlying Index, or the announcement of a disruption event by the index sponsor of such Underlying Index, or a Share Disruption Event in respect of one or more of the components in such Underlying Index, or

2. if the Equity Instrument is a Fund Unit or an Underlying Index on Funds or any similar instrument specified in the applicable Final Terms, and

(a) if the Basket Component Type is "Fund", the occurrence or existence of a Fund Disruption Event, or

(b) if the Basket Component Type is "Index", the non-publication of the Underlying Index, or the announcement of a disruption event by the index sponsor of such Underlying Index, or a Fund Disruption Event in respect of one or more of the components in such Underlying Index.

Where,

Share Disruption Event means (a) a Trading Disruption; (b) an Exchange Disruption or (c) an Early Closure.

For the purpose hereof:

A. Trading Disruption means in respect of an Equity Instrument that is a Share, an ETF Share or Underlying Index on the aforementioned, any suspension of or limitation on trading imposed by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise

(a) relating to (i) such Shares, ETF Shares or (ii) any securities or instruments underlying such Underlying Index on the relevant Exchange(s), or

(b) relating to futures or options contracts on any relevant Related Exchange relating to (i) such Shares, ETF Shares, Underlying Index or (ii) any securities or instruments underlying such Underlying Index;

B. Exchange Disruption means in respect of an Equity Instrument that is a Share, an ETF Share or an Underlying Index on the aforementioned, any event (other than an Early Closure) that disrupts or impairs the ability of market participants in general to effect transactions in, or obtain market values for

- (a) (i) such Shares, ETF Shares or (ii) any securities or instruments underlying such Underlying Index on the relevant Exchange(s) or
- (b) futures or options contracts on any relevant Related Exchange, relating to (i) such Shares, ETF Shares, Underlying Index or (ii) any securities or instruments underlying such Underlying Index;

C. Early Closure means in respect of an Equity Instrument that is a Share, an ETF Share or an Underlying Index on the aforementioned, the closure on any Exchange Business Day of

- (a) any relevant Exchange(s) relating to (i) Shares, ETF Shares or (ii) any securities or instrument underlying such Underlying Index or
- (b) any Related Exchange for futures or options contracts relating to (i) such Shares, ETF Shares, Underlying Index or (ii) any securities or instrument underlying such Underlying Index;

in each case prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of (x) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (y) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Scheduled Closing Time on such Exchange Business Day.

And where,

3.1.1 Potential Adjustment Events relating to Shares or Depositary Receipts

Potential Adjustment Event means, in relation to a Share or a Depositary Receipt, any of the following:

- A. a subdivision, consolidation or reclassification of such Share or Deposited Securities (unless resulting in a Merger Event), including, for the avoidance of doubt, a stock split or reverse stock split, or a free distribution or dividend of any such Shares or Deposited Securities to existing holders by way of bonus, capitalisation or similar issue;
- B. a distribution, issue or dividend to existing holders of (a) such Shares or Deposited Securities, (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Shares or Deposited Securities, (c) share capital, other securities of another issuer acquired or owned (directly or indirectly) by the Company as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;
- C. an extraordinary dividend as determined by the Calculation Agent;
- D. a call by the Company in respect of Shares or Deposited Securities that are not fully paid;
- E. a repurchase by the Company or any of its subsidiaries of Shares or Deposited Securities whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- F. an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- G. any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the Shares or the Depositary Receipt.

If a Potential Adjustment Event (as defined in this Condition 3.1.1) occurs affecting the Share or Depositary Receipts (the **Affected Share** or the **Affected Depositary Receipts**) the dividend of which is used to determine the amounts due under Notes indexed on Dividends, then the Calculation Agent will, subject to the provisions of the last paragraph of the definition of "Dividend" in Condition 1 above, adjust any terms of the Notes, it determines appropriate, in order to take into account the economic effect on the Notes of such event.

Subject as described in the paragraph above, following the occurrence of any Potential Adjustment Event as defined above, the Calculation Agent will, as soon as reasonably practicable after it becomes aware of such event determine whether such Potential Adjustment Event has a diluting or concentrative effect:

- (i) on the theoretical value of the Share and, if so, will (a) calculate the corresponding adjustment, if any, to be made to the elements relating to the relevant Share used to determine any settlement or payment terms under the Notes and/or adjust any other terms of

the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes and (b) determine the effective date of that adjustment; or

(ii) on the Deposited Securities that affects the theoretical value of the Depositary Receipts, provided that an event that has a diluting or concentrative effect on the Deposited Securities will affect the theoretical value of the Depositary Receipts unless (and to the extent that) the Company or the Depositary, pursuant to its authority (if any) under the Deposit Agreement, elects to adjust the number of the Deposited Securities that are represented by each Depositary Receipt such that the price of the Depositary Receipts will not be affected by any such event (as determined by the Calculation Agent), in which case the Calculation Agent will make no adjustment. If the Company or the Depositary elects not to adjust the number of Deposited Securities that are represented by a Depositary Receipt or makes an adjustment that the Calculation Agent determines not to have been adequate, then the Calculation Agent may make the necessary adjustment to the elements relating to the Depositary Receipt used to determine any settlement or payment terms under the Notes and/or any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes (subject to any Local Taxes to be withheld or paid) and determine the effective date of that adjustment. The Depositary may also have the ability pursuant to the Deposit Agreement to make adjustments in respect of the Depositary Receipts for share distributions, rights distributions, cash distributions and distributions other than shares, rights and cash. Upon any such adjustment by the Depositary, the Calculation Agent may make the necessary adjustments as the Calculation Agent deems appropriate to account for such event.

In its determinations of the existence and extent of any dilutive or concentrative effect on the theoretical value of the Shares or on the Deposited Securities that affects the theoretical value of the Depositary Receipts of any Potential Adjustment Event, and any related adjustments to the terms of the Notes, the Calculation Agent shall take into account (i) any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Potential Adjustment Event and, in respect of Shares traded through the China Connect Services only, (ii) any requirement, adjustment and/or limitation that may be imposed by the China Connect Service or any action or inaction by any one or more of the Exchange, SEHK, CSDCC and HKSCC in relation to such Potential Adjustment Event.

The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options on the Share or on the Deposited Securities traded on such Related Exchange.

Definitions applicable to this Condition:

Offshore Investor means a holder of Shares or Deposited Securities who is an institutional investor not resident in the country in which the Company has been incorporated or in which the Exchange, on which the Share (or the Deposited Securities) is (are) listed is located (the **Local Jurisdiction**), for the purposes of the tax laws and regulations of the Local Jurisdiction and, for the avoidance of doubt, whose jurisdiction of residence (a) shall be determined by the Calculation Agent and (b) may be the jurisdiction of Societe Generale or any of its affiliates.

3.1.2 Extraordinary Events relating to Shares or Depositary Receipts and consequences

A. Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of the opening of an Offering Period relating to a Merger Event, a De-merger Event, a Tender Offer, a De-listing Event, an Insolvency or a Nationalisation, in respect of (i) the Company or issuance of Shares by the Company, as applicable (an **Affected Share**) or (ii) a Depositary Receipt (an **Affected Depositary Receipt**), then during such Offering Period, the Calculation Agent may decide to apply Method of Substitution with respect to the Affected Share or Affected Depositary Receipt as the case may be.

B. If the Calculation Agent decides not to apply Method of Substitution during the Offering Period with respect to the Affected Share or the Affected Depositary Receipt, then:

(a) in respect of a Merger Event (or a Tender Offer as the case may be), from the Merger Date (or the Tender Offer Date as the case may be), and/or upon consummation of the Merger Event (or the Tender Offer as the case may be), until the sixtieth Business Day thereafter, the Calculation Agent shall apply in relation to Share-for-Share, Share-for-Other and Share-for-Combined, either:

(x) Calculation Agent Adjustment and/or

(y) Method of Substitution

(b) in the case of a Merger Event affecting two Shares or two Depositary Receipts comprised in a Basket, the Calculation Agent will either:

(x) continue with the share or the Depositary Receipt resulting from the Merger Event and in order to maintain the original number of companies in the Basket, a Substitute Share or Substitute Depositary Receipt (as applicable) will be elected and included in the Basket;

(y) substitute both Shares or Depositary Receipts with two Substitute Shares or Substitute Depositary Receipt selected as described in the Method of Substitution;

(c) in respect of a De-merger Event, from the De-merger Date, and/or upon consummation of the De-merger Event, until the sixtieth Business Day thereafter, the Calculation Agent will either:

(x) replace the Affected Share or the Affected Depositary Receipt with the shares or depositary receipts of the successor companies;

(y) substitute one or more share(s) or depositary receipt(s) resulting from such De-merger Event pursuant to the Method of Substitution;

it being understood that, in the case of a Basket, the Calculation Agent shall maintain the initial number of companies in the Basket and that in the case where the Calculation Agent has elected to substitute the Affected Share or the Affected Depositary Receipt with several shares or depositary receipts resulting from such De-merger Event, such shares or depositary receipts shall be placed in a sub-basket and considered as one component of the Basket;

(d) in respect of a De-listing Event or a Nationalisation, from the effective date of such event, until the sixtieth Business Day thereafter, the Calculation Agent may apply the Method of Substitution;

(e) in respect of an Insolvency, the Calculation Agent will decide either:

(x) that the Affected Share or the Affected Depositary Receipt will be substituted pursuant to the Method of Substitution;

(y) that the value of the relevant component in the formula used to determine the amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms, representing the Affected Share or the Affected Depositary Receipt will be accounted by the Calculation Agent for its fair market value determined at any time as from the date of occurrence of such Insolvency until the last Valuation Date or the last Averaging Date. The determination of the fair market value shall depend upon the liquidity of the market and the trading conditions relating to the Share or the Depositary Receipt affected at the time of calculation;

(f) In each case as developed in (a), (b), (c), (d) and (e) above, if the Calculation Agent has not retained as the case may be, (x) or if in (y) no share or depositary receipt meets the criteria as set out in the Method of Substitution, then the Calculation Agent may either:

(x) apply Condition 6.5 "Monetisation until the Maturity Date" of the General Terms and Conditions; or

(y) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the relevant Notes and pay to each Noteholder, as soon as possible after the occurrence of any of the events described in (a), (b), (c), (d) and (e), an Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

C. Notwithstanding anything herein to the contrary, the Calculation Agent shall use its reasonable endeavours at all times to maintain the original number of companies in the Basket as Companies hereunder.

Definitions applicable to this Condition :

Calculation Agent Adjustment means that, in respect of a Merger Event (or a Tender Offer as the case may be), the Calculation Agent shall, on or after the relevant Merger Date (or the Tender Offer Date as the case may be), (A) make such adjustment to the exercise, settlement, payment or any other terms of the Note as the Calculation Agent determines appropriate to account for the economic effect on the Note of such Merger Event (or such Tender Offer as the case may be) (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or the Depositary Receipt or to the Note), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event (or such Tender Offer as the case may be) by an options exchange to options on the relevant Shares or Depositary Receipts traded on such options exchange and (B) determine the effective date of that adjustment.

Combined Consideration means New Shares in combination with Other Consideration.

De-listing Event means, in respect of a Share or a Depositary Receipt, that such Share or Depositary Receipt (or Deposited Securities related to such Depositary Receipt): (a) ceases to be listed, traded or publicly quoted on the relevant Exchange or listing compartment of the relevant Exchange (for any reason other than a Merger Event or a Tender Offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any Member State of the European Union) or (b) has its listing, trading or public quotation maintained in inappropriate conditions in the opinion of the Calculation Agent (such conditions to include, without limitation, a lack of liquidity or the disappearance of the relevant futures and/or option contract of the relevant Share or Depositary Receipt (or Deposited Securities related to such Depositary Receipt)).

De-merger Event means, in respect of any Share or Depositary Receipt, that the Company relevant to such Share or Depositary Receipt is affected by a de-merger including, without limitation, a spin off, *scission* or any operation of a similar nature.

De-merger Date means the date on which a De-merger Event becomes effective.

Early Redemption means that there will be an early redemption of the Notes on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

Fixing Period means the period subject to a maximum of ten Exchange Business Days, which shall expire no later than 90 Business Days following the Merger Date, the De-merger Date, the Tender Offer Date or the effective date of the De-listing Event, Nationalisation or Insolvency during which:

A. Societe Generale or any of its affiliates sells the Affected Shares or the Affected Depositary Receipt, the New Shares and/or the Other Consideration, (as the case may be), on the basis of the weighted average of the closing prices of the relevant assets traded by Societe Generale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period; and

B. the proceeds of such sale are re-invested in the Substitute Shares, Substitute Depositary Receipt and/or New Shares accordingly during the said Fixing Period on the basis of the weighted average of the closing prices of such Substitute Shares, Substitute Depositary Receipt and/or New Shares traded by Societe Generale or any of its affiliates with regards to the relevant Notes, as observed during such Fixing Period.

Insolvency means, in respect of a Company, voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of, or any analogous proceeding affecting, such Company, as determined by the Calculation Agent.

Merger Date means, in respect of a Share or a Deposited Security, the date upon which holders of the necessary number of the relevant Shares or Deposited Securities (other than, in the case of a takeover offer, Shares or Deposited Securities owned or controlled by the offeror) to constitute a Merger Event have agreed or have irrevocably become obliged to transfer their Shares or Deposited Securities.

Merger Event means, in respect of any Share or Depositary Receipt:

A. any reclassification or change of such Share or Deposited Security (including the change of currency reference of the Share or the Deposited Security) that results in a transfer of or an irrevocable commitment to transfer all of such Share or Deposited Security outstanding to another entity or person;

B. any consolidation, amalgamation, merger or binding share exchange of the relevant Company with or into another entity (other than a consolidation, amalgamation or merger in which such Company is the continuing entity and which does not result in a reclassification or change of all of the outstanding Shares or Deposited Securities);

C. other take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain one hundred per cent. of the outstanding Shares or Deposited Securities that results in a transfer of or an irrevocable commitment to transfer all or part of such Shares or Deposited Securities (other than any of such Shares or Deposited Securities owned or controlled by the offeror); or

D. any consolidation, amalgamation, merger or binding share exchange of the relevant Company or its subsidiaries with or into another entity in which such Company is the continuing entity and which does not result in a reclassification or change of all of the outstanding Shares or Deposited Securities but results in the outstanding Shares or Deposited Securities (other than Shares or Deposited Securities owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares or Deposited Securities immediately following such event.

Method of Substitution means that in the case of a Merger Event, De-merger Event, Tender Offer, De-listing Event, Nationalisation or Insolvency (regardless of the consideration to be received), in respect of an Affected Share or the Affected Depositary Receipt, the Calculation Agent may consider that the Affected Share, the Affected Depositary Receipt, the New Shares and/or, all or part of the Other Consideration (as the case may be) is/are converted into cash and that the proceeds will be reinvested either (a) into a new share or a new depositary receipt of the same economic sector or into a share or a depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share or the Affected Depositary Receipt (the **Substitute Share** or the **Substitute Depositary Receipt**, as the case may be) or (b) in the case of Combined Consideration into New Shares. In the event of Other Consideration to be received in cash, in the future, the Calculation Agent may consider that the cash to be received in the future is discounted in order to immediately re-invest the proceeds then procured in accordance with (a) and (b) above.

The sale of the Affected Share, the Affected Depositary Receipt, the New Shares and/or the Other Consideration shall be deemed to take place during the Fixing Period. The Substitute Share or the Substitute Depositary Receipt, as the case may be, and the company issuing such Substituted Share or, in the case of a Depositary Receipt, the company issuing the Deposited Securities will be deemed a **Share** or a **Depositary Receipt** and the **Company** respectively, and the Calculation Agent will adjust any relevant terms of the Notes.

For information purposes, it is understood that in all cases described herein where a Share or a Depositary Receipt is substituted, on any date "t", with a Substitute Share or Substitute Depositary Receipt, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute Depositary Receipt and would mean the closing price of such Substitute Share or Substitute Depositary Receipt on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share or the Affected Depositary Receipt on such date "t".

Nationalisation means that all the Shares or the Deposited Securities or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

New Shares means shares or depositary receipts (whether of the offeror or a third party) that are listed or quoted on a recognised exchange involved in the application of Method of Substitution or Calculation Agent Adjustment as determined by the Calculation Agent.

Offering Period means the period from and including the date on which the Tender Offer, the Merger Event, the De-listing Event, the De-merger Event, the Insolvency or the Nationalisation is publicly and officially announced to but excluding the Merger Date or the De-merger Date, the Tender Offer Date or the effective date of the De-listing Event, the Insolvency or the Nationalisation.

Other Consideration means cash and/or any securities (other than New Shares) or assets (whether of the offeror or a third party).

Share-for-Combined means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists of Combined Consideration.

Share-for-Other means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists solely of Other Consideration.

Share-for-Share means, in respect of a Merger Event or Tender Offer, that the consideration for the relevant Shares or Depositary Receipts consists (or, at the option of the holder of such Shares or Depositary Receipts, may consist) solely of New Shares.

Tender Offer means, in respect of any Share or Depositary Receipt, a take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than ten per cent. and less than one hundred per cent. of the outstanding voting shares of the Company, as determined by the Calculation Agent based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

Tender Offer Date means, in respect of a Share or a Deposited Security, the date on which voting shares in the amount of the applicable percentage threshold are actually purchased or otherwise obtained (as determined by the Calculation Agent).

3.1.3 Stop-Loss Event

Unless "**Stop-Loss Event**" is specified as "Not applicable" in the applicable Final Terms, if on any Exchange Business Day between the initial Valuation Date (excluded) and the last Valuation Date (included), the Closing Price of a Share or a Depositary Receipt is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Share** or the **Affected Depositary Receipt** and the event, the **Stop-Loss Event**), then:

A. the Calculation Agent may decide to substitute the Affected Share or the Affected Depositary Receipt by a new share or depositary receipt issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share or the Affected Depositary Receipt (the **Substitute Share** or **Substitute Depositary Receipt**, as the case may be) and will adjust any relevant terms of the Notes accordingly; or

B. the Calculation Agent may decide to continue with the Affected Share or the Affected Depositary Receipt; or

C. if the Calculation Agent has neither retained any Substitute Share or Substitute Depositary Receipt nor decided to continue with the Affected Share or the Affected Depositary Receipt, the Calculation Agent may either:

(a) apply Condition 6.5 "Monetisation until the Maturity Date" of the General Terms and Conditions; or

(b) consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

For information purposes, it is understood that in all cases described herein where a Share or a Depositary Receipt is substituted, on any date "t", with a Substitute Share or Substitute Depositary Receipt, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute Depositary Receipt and would mean that the closing price of such Substitute Share or Substitute Depositary Receipt on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share or the Affected Depositary Receipt on such date "t".

3.1.4 Correction of the Closing Price

In the event that any price or level of a Share or a Depositary Receipt published on the Exchange which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction, *provided however that*, all references to the word "four" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

3.2 China Connect Share Disqualification and China Connect Service Termination and consequences

In respect of Shares traded through the China Connect Services, the following paragraphs apply:

China Connect Share Disqualification means, on or after the Issue Date, the Shares cease to be accepted as "China Connect Securities" (as defined in the rules of the exchange of SEHK) for the purpose of the China Connect Service;

China Connect Service Termination means, on or after the Issue Date, the announcement by one or more of the Exchange, SEHK, the CSDCC, HKSCC or any regulatory authority with competent jurisdiction of a suspension or termination of the China Connect Service or a part thereof for any reason which materially affects the routing of orders in respect of, or holding of, the Shares through the China Connect Service and the Calculation Agent determines that there is a reasonable likelihood that such suspension or termination is not, or will not be, temporary, then upon the occurrence of such events, the Calculation Agent may elect, while China Connect Share Disqualification or China Connect Service Termination is continuing, to terminate the transaction(s) upon at least two Scheduled Trading Days' notice specifying the date of such termination, in which event the Calculation Agent will consider this event as an event triggering the early redemption of the Notes (hereafter an **"Early Redemption Event"**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

4. ADJUSTMENTS AND EVENTS IN RELATION TO AN INDEX – CHANGE IN LAW, HEDGING DISRUPTION, HOLDING LIMIT EVENT, INCREASED COST OF HEDGING, AND CONSEQUENCES

4.1 Adjustments in relation to an Index

A. If an Index is:

(a) not calculated and announced by the relevant Index Sponsor or the Index Calculation Agent as the case may be, but is calculated and announced by a successor sponsor (the **Successor Index Sponsor**) or a successor calculation agent (the **Successor Index Calculation Agent**)), in each case acceptable to the Calculation Agent; or

(b) replaced by a successor index (the **Successor Index**) using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Index;

then the Index will be deemed to be the index so calculated and announced by the relevant Successor Index Sponsor or Successor Index Calculation Agent or that Successor Index (as the case may be).

B. If, in the determination of the Calculation Agent:

(a) on or prior to a Valuation Date or an Averaging Date, the relevant Index Sponsor (or if applicable the Successor Index Sponsor) makes a material change in the formula for, or the method of calculating, that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events (an **Index Modification**)). For the avoidance of doubt, the following events do not constitute "routine events": a sub-division (split) of the level of the Index or a consolidation (reverse split) of the level of the Index, or any other event linked to either the performance or the level of the Index);

(b) on or prior to any Valuation Date or Averaging Date, the relevant Index Sponsor (or, if applicable, the relevant Successor Index Sponsor) or the Index Calculation Agent (or the Successor Index Calculation Agent) as the case may be, fails to calculate and publish the level of the Index and such failure is likely to have a material impact on the hedge of Societe Generale or one of its affiliates in connection with the Notes (an **Index Disruption**); or

(c) the Index Sponsor (or, if applicable, the Successor Index Sponsor) permanently cancels the Index and no Successor Index exists (an **Index Cancellation** and together with an Index Modification and an Index Disruption, each an **Index Adjustment Event**).

then the Calculation Agent shall either:

(x) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, *in lieu* of a published level for the Index, the level of that Index as at the Valuation Time on the relevant Valuation Date or Averaging Date, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to that Index Adjustment Event, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event (other than those securities that have since ceased to be listed on any relevant Exchange); or

(y) replace the Index by a new index provided that such index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries.

If the Calculation Agent has not retained (x) and if in (y) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Calculation Agent may either:

(i) apply Monetisation until the Maturity Date as defined in Condition 6.5 of the General Terms and Conditions; or

(ii) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

4.2 Stop-Loss Event in relation to an Index

Unless "Stop-Loss Event" is specified as "Not applicable" in the applicable Final Terms, if on an Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of an Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Index** and the event, the **Stop-Loss Event**), then:

A. the Calculation Agent may decide to substitute the Affected Index by a new index representative of the same economic or geographic sector (as the case may be), and to the extent possible, representative of shares listed on one or more Exchanges of one or more OECD countries (the **Substitute Index**) and will adjust any relevant terms of the Notes accordingly; or

B. the Calculation Agent may decide to continue with the Affected Index; or

C. if the Calculation Agent has neither retained any Substitute Index nor decided to continue with the Affected Index, the Calculation Agent may either:

(a) apply Monetisation until the Maturity Date as defined in Condition 6.5 of the General Terms and Conditions; or

(b) consider such event as an event triggering an Early Redemption Event. Where Stop-Loss Event occurs, the Issuer shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Stop-Loss Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions.

4.3 Correction of the Closing Price in relation to an Index

In the event that any price or level published on the Exchange or by the Index Sponsor and which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange or the Index Sponsor after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction, provided however that, all references to the word "four" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

5. EXTRAORDINARY EVENTS RELATING TO DIVIDENDS

5.1 Failure to Publish

5.1.1 Failure to Publish

In respect of an Index, if during the Dividend Period the Index Sponsor fails (for whatever reason including without limitation, a Market Disruption Event) to calculate and publish (i) the Official Number or (ii) the Official Index Divisor, then the Calculation Agent shall determine the Official Number or the Official Index Divisor (as the case may be).

In making any such determination, the Calculation Agent may (but shall not be obliged to) make reference to the formula for and method of calculating the Official Number or the Official Index Divisor (as the case may be) last in effect prior to the failure by the Index Sponsor to make the relevant calculation or publication.

5.1.2 Corrections

In respect of an Index, in the event that an Official Index Divisor or Official Number calculated and published by the Index Sponsor (or determined by the Calculation Agent pursuant to the provisions of Condition 5.1.1 above) and utilized for any calculation or determination made in respect of the Notes is subsequently corrected (or, where there has been a Failure to Publish, published by the Index Sponsor) and the correction is published (or, where there has been a Failure to Publish, publication is made) by the Index Sponsor within five Scheduled Trading Days after the original publication, the Calculation Agent will adjust the Dividend, as required, to take into account such correction, *provided that* such correction or subsequent publication occurs no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms),

provided however that:

- all references to the word "fourth" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System, as specified in the applicable Final Terms.

5.2 Dividend Recovery

In respect of a Share or a Depositary Receipt or in respect of each Share or Depositary Receipt comprising an Index, if (a) the amount actually paid or delivered by an issuer to holders of record of the relevant Share or Depositary Receipt in respect of any Dividend declared by such issuer to holders of record of such Share or Depositary Receipt (a **Declared Dividend**) is not equal to such Declared Dividend (a **Dividend Mismatch Event**); or (b) such issuer fails to make any payment or delivery in respect of such Declared Dividend by the third Business Day following the relevant due date, then the Calculation Agent may (but shall not be obliged to) determine: (i) any appropriate adjustment or repayment to be made to account for such Dividend Mismatch Event or non-payment or non-delivery of the Declared Dividend, as the case may be, (ii) the date any such repayment should be made, and (iii) any interest on any amount subsequently due under the Notes.

5.3 Change in Law, Hedging Disruption, Holding Limit Event, Increased Cost of Hedging and consequences in relation to a Dividend

Change in Law, Hedging Disruption, Holding Limit Event and **Increased Cost of Hedging** have the meanings given to them in the Additional Terms and Conditions for Structured Notes.

In case of the occurrence of Change in Law, Hedging Disruption, Holding Limit Event or Increased Cost of Hedging relating to a Dividend (the **Affected Underlying**), the Calculation Agent may apply the adjustments as specified in the Additional Terms and Conditions for Structured Notes.

ADDITIONAL TERMS AND CONDITIONS RELATING TO SECURED NOTES

The provisions of these Additional Terms and Conditions relating to Secured Notes apply if the applicable Final Terms specify that the clause "*Secured Notes Provisions*" is stated as being "*Applicable*".

In the event of any inconsistency between the General Terms and Conditions applicable to the Secured Notes on the one hand and these Additional Terms and Conditions on the other hand, these Additional Terms and Conditions shall prevail.

In these Additional Terms and Conditions, any references to Issuer shall be construed as referring to SG Issuer as only SG Issuer can issue Secured Notes.

Under each Pledge Agreement, the Issuer will grant first ranking security over the Collateral Assets contained in the Collateral Accounts.

In relation to each Series of English law Notes secured pursuant to a Pledge Agreement, BNY Mellon Corporate Trustee Services Limited, or any substitute or replacement thereof, (the **Security Trustee**) appointed as pledgee pursuant to such Pledge Agreement will enter into a security trust deed governed by English law on behalf of itself and the relevant Noteholders and the other relevant Secured Parties with the Issuer on each Issue Date specified in the applicable Final Terms (a **Security Trust Deed**). Under the terms of each Security Trust Deed, the Security Trustee will covenant that it will exercise its rights under the relevant Pledge Agreement on behalf of and as trustee for the Noteholders and will declare a trust in favour of the Noteholders and the other relevant Secured Parties over the rights granted to it under the relevant Pledge Agreement.

The Security Agent and the Representative of the Masse of the Noteholders will enter into a security agency agreement governed by French law, pursuant to which the Security Agent is mandated, pursuant to Article L.228-53 of the French *Code de commerce*, to act as agent (mandataire) by the Representative of the Masse of the Noteholders acting as principal (mandant) within the framework of Article L.228-77 of the French *Code de commerce* and governing the role of the Security Agent in relation to each Series of Secured Notes (the **Security Agency Agreement**).

By acquiring and holding French Law Notes secured pursuant to a Pledge Agreement, Noteholders of a Series of such Notes will be deemed to agree and accept the appointment of the Security Agent by the Representative of the Masse as agent of the Representative of the Masse of the Noteholders and of the other Secured Parties in respect thereof and will be deemed to have notice of the provisions of the relevant Pledge Agreement and the Security Agency Agreement.

In case of a failure by the Security Agent to perform its obligations in respect of the Pledge Agreement, the Representative of the Masse of the Noteholders will be entitled to enforce directly the terms of the Pledge Agreement on behalf of the Noteholders.

2.3 Description of the Collateral Arrangements

2.3.1 Collateral Agency Agreement

Pursuant to the terms of a collateral agency agreement (the **Collateral Agency Agreement**) between, *inter alia*, the Issuer and Societe Generale or any successor thereto acting as collateral agent (the **Collateral Agent**), the Collateral Agent will calculate on the Issue Date of each Series of Secured Notes and on each Collateral Test Date thereafter the Collateral Value as set out in these Additional Terms and Conditions.

Pursuant to the terms of a collateral monitoring agency agreement (the **Collateral Monitoring Agency Agreement**) between, *inter alia*, the Issuer and The Bank of New York Mellon, London Branch acting as collateral monitoring agent or any successor thereto (the **Collateral Monitoring Agent**), the Collateral Monitoring Agent shall, on each Collateral Test Date, calculate the Collateral Value and the Required Collateral Value and verify that the Collateral Test is satisfied.

2.3.5 Disposal Agency Agreement

Pursuant to a disposal agency agreement concluded with the Issuer, the Security Trustee and the Security Agent, the Collateral Custodian, The Bank of New York Mellon London Branch or any successor thereto (the **Disposal Agent**) shall undertake the duties of disposal agent in respect of the Secured Notes. As such, it may dispose of all or some of the Collateral Assets on behalf of and only when instructed to do so by the Security Trustee or the Security Agent, as applicable (the **Disposal Agency Agreement**). Following receipt of a Collateral Enforcement Notice, the Security Trustee or the Security Agent will enforce the relevant Pledge Agreement relating to the Collateral Pool and instruct the Disposal Agent to liquidate or realize the Collateral Assets and to distribute the Collateral Enforcement Proceeds Share or, in case of Physical Delivery of Collateral Assets, to deliver the Collateral Assets, to the Noteholders.

2.3.6 Substitute Paying Agency Agreement

The Issuer has appointed The Bank of New York Mellon, London Branch or any successor thereto as substitute paying agent in relation to all Secured Notes (the Substitute Paying Agent) pursuant to the terms of a substitute paying agency agreement between, *inter alia*, the Issuer and the Substitute Paying Agent (the **Substitute Paying Agency Agreement**). The Substitute Paying Agent shall act as agent of the Security Trustee and the Security Agent for the purposes of assisting with the payment of any Collateral Enforcement Proceeds Share or the Delivery of any Collateral Assets Entitlement to Noteholders (if so requested by the Security Trustee or the Security Agent, as the case may be), communicating notices to Noteholders on behalf of the Security Trustee and the Security Agent, as the case may be, and performing any other obligations as set out in these Additional Terms and Conditions.

2.3.7 Calculations and determinations

In relation to each issue of Secured Notes, the Collateral Agent, the Collateral Monitoring Agent and the Securities Valuation Agent act solely as agents of the Issuer, and do not assume any obligation or duty to, or any relationship of agency or trust for or with, the Noteholders.

All calculations and determinations made in respect of the Secured Notes by the Collateral Agent, Collateral Monitoring Agent and Securities Valuation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Guarantor, the Noteholders and the Security Trustee or the Security Agent.

Each of the Collateral Agent, Collateral Monitoring Agent and Securities Valuation Agent may, with the consent of the Issuer, delegate any of their obligations and functions to a third party as provided for in the Collateral Agency Agreement, Collateral Monitoring Agency Agreement and Securities Valuation Agency Agreement, as applicable.

2.4 Description of the Collateral Assets

2.4.1 Assets held in a Collateral Account and delivered to the Collateral Custodian are referred to as **Collateral Assets**. The Collateral Assets secured pursuant to a Pledge Agreement are referred to as the **Collateral Pool**.

Collateral Assets contained in a Collateral Pool may comprise:

- cash;
- debt securities (including, but not limited to, government bonds, corporate bonds, covered bonds and asset backed securities);
- equity securities, shares, units or interests in a fund; and/or
- any other negotiable financial instruments in book entry-form.

In order to be included in the calculation of the Collateral Value, Collateral Assets must satisfy the Eligibility Criteria specified in the applicable Final Terms. Collateral Assets satisfying the relevant Eligibility Criteria are referred to as **Eligible Collateral Assets**.

The Eligibility Criteria specified in the applicable Final Terms may include limitations on the type of Collateral Assets that may be held, the maturity of the Collateral Assets, the liquidity of the Collateral Assets, requirements regarding the jurisdiction of the obligor of the Collateral Assets or its guarantor or the credit rating of the obligor of the Collateral Assets or its guarantor and/or any other limitations, restrictions and/or requirements concerning the Collateral Assets.

In addition to the Eligibility Criteria, the applicable Final Terms will set out the collateral rules which must be satisfied in order for the Collateral Test to be satisfied (the **Collateral Rules**). The Collateral Rules may include requirements relating to the diversification of types of Eligible Collateral Assets, the concentration of the Eligible Collateral Assets, the geographical location of the Eligible Collateral Assets or the currency of the Eligible Collateral Assets which may be held in a Collateral Pool and/or any other limitations, restrictions and/or requirements concerning the Eligible Collateral Assets contained in the relevant Collateral Pool as may be specified in the applicable Final Terms. For the avoidance of doubt, the Collateral Rules relating to a particular Collateral Pool will be satisfied to the extent that Eligible Collateral Assets with a Collateral Value at least equal to the Required Collateral Value together satisfy the Collateral Rules.

2.4.2 Delegation to Collateral Agent

The Issuer may, pursuant to the terms of the Collateral Agency Agreement, delegate to the Collateral Agent the role of managing each Collateral Pool to comply with the requirements of these Additional Terms and Conditions (including, but not limited to, compliance with Conditions 3.4 and 3.5).

2.5 Type of Collateral Pool

A Collateral Pool may be either a Single Series Collateral Pool or a Multiple Series Collateral Pool, each as further defined below.

2.5.1 Single Series Collateral Pool

Where the applicable Final Terms in respect of a Series of Secured Notes specify that the Type of Collateral Pool is "*Single Series Collateral Pool*", such Series of Secured Notes will be the only Series of Secured Notes to be secured by the relevant Collateral Pool (a **Single Series Collateral Pool**).

2.5.2 Multiple Series Collateral Pool

Where the applicable Final Terms in respect of a Series of Secured Notes specify that the Type of Collateral Pool is "*Multiple Series Collateral Pool*", such Series of Secured Notes may be secured by a Collateral Pool which secures one or more Series of Secured Notes (a **Multiple Series Collateral Pool**).

Each Series of Secured Notes secured pursuant to a Multiple Series Collateral Pool must (i) be subject to the same governing law, (ii) be subject to the same method of distribution of Collateral Assets following enforcement of the relevant Pledge Agreement (i.e. exclusively either subject to "*Physical Delivery of Collateral Assets*" or not subject to "Physical Delivery of Collateral Assets"), (iii) be subject to the same Eligibility Criteria and Collateral Rules, (iv) be subject to the same Haircut value(s) for each type or class of Eligible Collateral Assets, and (v) have the same Collateral Test Dates, pursuant to the Collateralisation Percentage applicable to each Series of Secured Notes.

In such a scenario, following enforcement of the relevant Pledge Agreement, all Series of Secured Notes secured on such Collateral Pool would share in the distribution of the proceeds of realisation of the Collateral Assets constituting such Collateral Pool or Notes or, where the clause "Physical Delivery of Collateral Assets" is specified as applicable in the applicable Final Terms, in the delivery of the Collateral Assets contained in such Collateral Pool.

Noteholders acquiring and holding Secured Notes in relation to a Multiple Series Collateral Pool will be deemed to acknowledge, accept and agree to the rights of existing and future Noteholders of different Series of Secured Notes to share rateably in the security created over the Collateral Assets in the Multiple Series Collateral Pool.

2.6 Segregation between Collateral Pools, Limited Recourse and Non-Petition

2.6.1 Limited Recourse against the Issuer

By acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that the obligations of the Issuer to the Noteholders are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Secured Notes both in the case of a Single Series Collateral Pool and a Multiple Series Collateral Pool.

If:

(a) there are no remaining relevant Collateral Assets in the relevant Collateral Pool which are capable of being realised or otherwise converted into cash;

(b) all amounts available from the relevant Collateral Assets in the relevant Collateral Pool have been applied to meet or provide for the relevant obligations specified in, and in accordance with, the provisions of the relevant Pledge Agreement and these Additional Terms and Conditions; and

(c) there are insufficient amounts available from the relevant Collateral Assets in the relevant Collateral Pool to pay in full, in accordance with the provisions of the relevant Pledge Agreement and these Additional Terms and Conditions, amounts outstanding under the Secured Notes (including payments of principal, premium (if any) and interest).

then the Noteholders of such Secured Notes shall have no further claim against the Issuer in respect of any amounts owed to them which remain unpaid (including, for the avoidance of doubt, payments of principal, premium (if any) and/or interest in respect of the Notes). For the avoidance of doubt, in such a scenario, Noteholders will continue to be able to claim under the terms of the Guarantee against the Guarantor for any unpaid amounts.

2.6.2 Segregation between Collateral Pools

No Noteholder shall be entitled to have recourse to the Collateral Assets contained in a Collateral Pool other than the Collateral Pool which secures the Notes held by such Noteholder.

2.6.3 Non-petition

By acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that they will not take any steps or initiate proceedings to procure the winding-up, administration or liquidation (or any other analogous proceeding) of the Issuer.

2.7 Hedging of Issuer's obligations

The Issuer may hedge its obligations in relation to a Series of Secured Notes in a number of different ways, including by entering into repurchase agreements (**Repurchase Agreements**) or swap agreements (**Swap Agreements**) or any other agreements (any Repurchase Agreement, Swap Agreement or any other such agreement being a **Hedging Agreement**) with a counterparty which may be Societe Generale or an affiliate of Societe Generale or such other entities as the Issuer deems appropriate from time to time (each such entity being a **Counterparty**). Such transactions may also include provisions for the transfer to the Issuer of assets which may be treated as Collateral Assets by the Issuer and used to fulfil its obligations in relation to the Secured Notes. Where such Hedging Agreements provide for the transfer of assets to the Issuer, such transfer shall be made with full title.

A Swap Agreement may be evidenced by a 2002 ISDA Master Agreement and Schedule together with the confirmation entered into by the Issuer and the Counterparty in respect of the relevant Series of Secured Notes. If the Counterparty's obligations under the Swap Agreement are to be collateralised, the Swap Agreement may be supplemented by a 1995 ISDA Credit Support Annex (Bilateral Form - Transfer).

A Repurchase Agreement may be substantially in the form of a 2000 TBMA/ISMA Global Master Repurchase Agreement, a "*Convention Cadre FBF relative aux opérations de pensions livrées*", each as amended, supplemented or otherwise modified from time to time, or any other agreement having a similar effect.

2.8 Collateral Disruption Events

If the Issuer or the Collateral Agent determines that a Collateral Disruption Event has occurred, the Issuer may in its sole and absolute discretion redeem or cancel, as applicable, all of the relevant Secured Notes at the Early Redemption Amount following the occurrence of a Collateral Disruption Event as specified in the applicable Final Terms.

The occurrence of a Collateral Disruption Event will not constitute an Event of Default.

3. COLLATERALISATION OF SECURED NOTES

3.1 Valuation of Collateral and Secured Notes

In order to ensure that a Series of Secured Notes is collateralised in accordance with its terms, the Collateral Value and the Secured Note Market Value of each Series of Secured Notes secured by such Collateral Pool will each be tested on the Issue Date of such Series of Secured Notes and on each Collateral Test Date as specified in the applicable Final Terms.

3.1.1 Valuation of Collateral

The Collateral Value and the Secured Note Market Value will be used in order to calculate the Required Collateral Value of Eligible Collateral Assets (as further described in Condition 3.3) which must be held in a Collateral Account to secure one or more Series of Secured Notes .

In relation to each Series of Secured Notes , on the Issue Date of such Series of Secured Notes and on each Collateral Test Date thereafter the Collateral Agent will determine the Collateral Value on the basis of such valuation method or methods as the Collateral Agent may determine acting in good faith and in a commercially reasonable manner.

Except if, under the Secured Notes Provisions of the applicable Final Terms, "Collateral Valuation at Nominal Value" is specified as "applicable", the collateral value means the aggregate market value as of the relevant Valuation Point expressed in the Collateral

Valuation Currency, of the Eligible Collateral Assets in a Collateral Pool, in each case taking into account any Haircut applied in relation thereto (the **Collateral Value**).

If the applicable Final Terms specify that "Collateral Valuation at Nominal Value" is applicable, the Collateral Value shall be deemed to be equal to the aggregate nominal value of the Collateral Assets constituting Eligible Collateral Assets (after taking into account any Haircut applied in relation thereto, as further described below) (the **Collateral Valuation at Nominal Value**) and "Collateral Value" shall be construed accordingly throughout these Additional Terms and Conditions.

Where the relevant currency of denomination of a Collateral Asset is other than the Collateral Valuation Currency, the Collateral Agent shall convert the value of such Collateral Asset at the relevant spot exchange rate.

If Predetermined Collateral Valuation Currency Rate of Exchange is specified as applicable in the applicable Final Terms, the relevant spot exchange rate shall be the predetermined rate specified in the applicable Final Terms (the **Predetermined Collateral Valuation Currency Rate of Exchange**).

Except if Predetermined Collateral Valuation Currency Rate of Exchange is specified as applicable in the applicable Final Terms, the relevant spot exchange rate shall be the rate displayed on the Collateral Valuation Currency Screen Page at the Collateral Valuation Currency Specified Time or, if no such Collateral Valuation Currency Screen Page is specified in the applicable Final Terms or such Collateral Valuation Currency Screen Page is not available, the relevant spot rate shall be the rate determined by the Collateral Agent in good faith and in a commercially reasonable manner.

In performing its calculations as described in the section "*Verification by Collateral Monitoring Agent*" below, the Collateral Monitoring Agent will use the same method of valuation of the Collateral Assets and, as the case may be, the relevant Haircut value(s) specified in the applicable Final Terms.

3.1.2 Valuation of Secured Notes

On each Collateral Test Date for each Series of Secured Notes in relation to which MV Collateralisation, Min (MV, NV) Collateralisation or Max (MV, NV) Collateralisation is applicable as specified in the applicable Final Terms, the Securities Valuation Agent will calculate the market value applicable to each Secured Note of such Series of Secured Notes as of the Valuation Point on the basis of such valuation method as the Securities Valuation Agent may, acting in good faith and in a commercially reasonable manner and in accordance with the terms of the Securities Valuation Agency Agreement, determine (the **Secured Note Market Value**). The Securities Valuation Agent will provide such value to the Collateral Agent and the Collateral Monitoring Agent.

For the avoidance of doubt, the Secured Note Market Value determined by the Securities Valuation Agent may differ from the Market Value determined by the Calculation Agent in accordance with Condition 6.3 of the General Terms and Conditions and from the price proposed, as the case may be, by Societe Generale or any of its affiliates or any other entities acting as market maker on the secondary market for a Note.

When NV Collateralisation is specified as being the Type of Collateralisation in the applicable Final Terms, the value of the Secured Notes shall be deemed to be equal to the aggregate nominal value of the Secured Notes.

3.2 Waiver of Rights to Collateral Assets

If "*Waiver of Rights*" is specified as applicable in the applicable Final Terms, certain Noteholders intending to hold Secured Notes (including but not limited to, in their capacity as a market maker) may waive their rights by written notice (i) to receive the proceeds of realisation of the Collateral Assets securing such Series of Secured Notes, (or where Physical Delivery of Collateral Assets is specified as applicable in the applicable final terms, delivery of the Collateral Assets) following the enforcement of the relevant Pledge Agreement (any such Secured Notes being **Waived Notes**).

Holders of Waived Notes are deemed to waive their rights to give written notice to the Issuer and the Guarantor that the Waived Notes are immediately due and repayable at their Early Redemption Amount on the occurrence of an Event of Default following the delivery of a Required Collateral Default Notice (as described below). As a consequence, when calculating the Required Collateral Value in accordance with the provisions described below, the Collateral Agent and the Collateral Monitoring Agent shall only take into account the value of the Secured Notes that have not been subject to such waiver (any such Notes being **Non-Waived Notes**).

Each holder of Waived Notes shall be required to (i) inform by written notice and, upon request from the Collateral Agent, provide evidence to, the Collateral Agent of the number of Waived Notes that he holds on the Issue Date and on each Collateral Test Date and (ii) notify the Collateral Agent following any transfer of Waived Notes. The Collateral Business Day following such notification will be deemed to be a Collateral Test Date and the Collateral Agent shall notify the Issuer and the Collateral Monitoring Agent of the same. Notwithstanding the above, all Secured Notes held by Societe Generale or one or more of its affiliates, including but not limited to, in its capacity as market maker, will be deemed to be Waived Notes, unless otherwise notified in writing by Societe Generale or one or more of its affiliates to the Collateral Agent.

None of the Issuer, the Guarantor, the Collateral Agent, the Collateral Monitoring Agent or the Security Trustee or the Security Agent, as the case may be, shall be responsible for any incorrect, inaccurate or incomplete information relating to the number of Waived Notes relating to any one or more Series of Secured Notes that may have been provided to the Collateral Agent by or on behalf of any holder of Waived Notes and none of the Issuer, the Guarantor, the Collateral Agent, the Collateral Monitoring Agent or the Security Trustee or the Security Agent, as the case may be, shall be under any duty to verify or otherwise confirm the number of Waived Notes so held.

3.3 Required Collateral Value

The required collateral value will be calculated by the Collateral Agent on the Issue Date and on each relevant Collateral Test Date as follows (the **Required Collateral Value**), except if the applicable Final Terms specify "NV Collateralisation" as being the Type of Collateralisation in the applicable Final Terms, the Collateral Agent will be required to use the Secured Note Market Value determined by the Securities Valuation Agent in determining the Required Collateral Value:

A. Single Series Collateral Pool:

In relation to a Single Series Collateral Pool, the Required Collateral Value will be determined by the Collateral Agent on the Issue Date and on each relevant Collateral Test Date in respect of such Series of Secured Notes as follows:

(i) where "*MV Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the product of (a) the Collateralisation Percentage, (b) the Secured Note Market Value and (c) the number of Non-Waived Notes of such Series;

(ii) where "*NV Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the product of (a) the Collateralisation Percentage and (b) the total aggregate nominal value of the Non-Waived Notes of such Series;

(iii) where "*Min (MV, NV) Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the lower of:

(a) the product of (1) the Collateralisation Percentage, (2) the Secured Note Market Value and (3) the number of Non-Waived Notes in such Series of Secured Notes or

(b) the product of (1) the Collateralisation Percentage and (2) the total aggregate nominal value of the Non-Waived Notes of such Series; or

(iv) where "*Max (MV, NV) Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the greater of:

(a) the product of (1) the Collateralisation Percentage, (2) the Secured Note Market Value and (3) the number of Non-Waived Notes in such Series of Secured Notes or;

(b) the product of (1) the Collateralisation Percentage and (2) the specified proportion of the total aggregate nominal value of the Non-Waived Notes of such Series.

B. Multiple Series Collateral Pool

In relation to a Multiple Series Collateral Pool, the Required Collateral Value will be determined by the Collateral Agent on the Issue Date and on each relevant Collateral Test Date in respect of each Series of Secured Notes secured by the relevant Collateral Pool as follows:

(i) where "*MV Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the sum of the amounts calculated in respect of each Series of Secured Notes as follows: the product of (a) the Collateralisation Percentage, (b) the Secured Note Market Value and (c) the number of Non-Waived Notes of such Series;

(ii) where "*NV Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the sum of the amounts calculated in respect of each Series of Secured Notes as follows: the product of (a) the Collateralisation Percentage and (b) the total aggregate nominal value of the Non-Waived Notes of such Series;

(iii) where "*Min (MV, NV) Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the sum of the lower of the amount calculated in respect of each Series of Secured Notes as follows:

(a) the product of (1) the Collateralisation Percentage, (2) the Secured Note Market Value and (3) the number of Non-Waived Notes in such Series of Secured Notes; or

(b) the product of (1) the Collateralisation Percentage and (2) the total aggregate nominal value of the Non-Waived Notes of such Series; or

(iv) where "*Max (MV, NV) Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the sum of the greater of the amount calculated in respect of each Series of Secured Notes as follows:

(a) the product of (1) the Collateralisation Percentage, (2) the Secured Note Market Value and (3) the number value of the Non-Waived Notes of such Series.

C. Conversion in case Specified Currency is not the Collateral Valuation Currency

In determining the Required Collateral Value, where the Specified Currency of any Secured Note is other than the Collateral Valuation Currency, the Collateral Agent shall convert the Secured Note Market Value and/or the nominal value, as the case may be, of such Secured Note at the relevant spot exchange rate, in accordance with Condition 3.1.1.

D. Collateralisation Percentage

The collateralisation percentage relating to a Series of Secured Notes will be specified in the applicable Final Terms and may be a fixed percentage or a percentage determined by applying a predetermined formula (the **Collateralisation Percentage**). The applicable Final Terms may also specify that the Collateralisation Percentage may vary during the term of the Notes, after a certain date, following the occurrence of a trigger event or following a unanimous decision of the Noteholders.

If the applicable Final Terms specify that the Collateralisation Percentage may vary in certain circumstances following a unanimous decision of the Noteholders, to exercise such option, a Noteholder (or the Representative of the Masse in the case of French Law Notes) shall notify the unanimous decision of the Noteholders specifying the new Collateralisation Percentage and the date of variation of the Collateralisation Percentage, to the Issuer in accordance with Condition 13 of the General Terms and Conditions within the notice period specified in the applicable Final Terms.

3.4 Adjustments to Collateral Pool and Collateral Test Notice

On each Collateral Test Date relating to a relevant Series of Secured Notes the Collateral Agent will determine whether (i) the Collateral Rules applicable to such Collateral Pool are satisfied and (ii) the Collateral Value is greater than or equal to 97 per cent of the Required Collateral Value for such Collateral Pool (taking into account any Haircut value(s) to be applied to the Collateral Assets and the aggregate value of any Waived Notes) (limbs (i) and (ii) above being referred to as the **Collateral Test**).

When determining whether the Collateral Test is satisfied:

- Collateral Assets for which instructions for the transfer to the relevant Collateral Account have been provided on or before such Collateral Test Date will be included; and

- Collateral Assets for which instructions for the removal from the relevant Collateral Account have been provided on or before such Collateral Test Date will be excluded,

for the purposes of such determination.

If on a Collateral Test Date the Collateral Agent determines that the Collateral Test is not satisfied for a specific Collateral Pool, the Collateral Agent on behalf of the Issuer will select the type and quantity of Collateral Assets to be deposited in the Collateral Account (or will select existing Collateral Assets to be replaced with other Collateral Assets), in order that after such adjustment the Collateral Test will be satisfied.

If on a Collateral Test Date the Collateral Agent determines that the Collateral Test is satisfied for a specific Collateral Pool and, if on such date, the Collateral Value is greater than the Required Collateral Value, the Collateral Agent on behalf of the Issuer shall be entitled to select Collateral Assets to be removed from the Collateral Account (or shall be entitled to select existing Collateral Assets to be replaced with other Collateral Assets), provided that after such adjustment the Collateral Test continues to be satisfied.

On each Collateral Business Day, if the Collateral Agent on behalf of the Issuer intends to make adjustments to the Collateral Assets held in a Collateral Pool (including, but not limited to, adjustments in order to ensure that the Collateral Test will be satisfied), the Collateral Agent will send or cause to be sent a notice to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to such particular Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed) (the **Collateral Test Notice**).

3.5 Verification by Collateral Monitoring Agent

If on the relevant Collateral Test Date:

(i) a Collateral Test Notice has been delivered by the Collateral Agent and the Collateral Monitoring Agent determines that the Collateral Test will not be satisfied (including after taking into account any adjustments specified in such Collateral Test Notice); or

(ii) no Collateral Test Notice has been delivered by the Collateral Agent but the Collateral Monitoring Agent has determined the Collateral Test will not be satisfied (or will no longer be satisfied) after taking into account any adjustments specified in such Collateral Test Notice;

then the Collateral Monitoring Agent shall, on the Collateral Business Day immediately following the relevant Collateral Test Date, notify the Collateral Agent in writing providing details of why it considers that the Collateral Test is or will not be satisfied (such notice being hereafter referred to as a **Collateral Monitoring Agent Notice**).

Following receipt of a Collateral Monitoring Agent Notice, the Collateral Agent will determine whether it is in agreement with the contents of the Collateral Monitoring Agent Notice.

Should the Collateral Agent agree with the contents of a Collateral Monitoring Agent Notice, the Collateral Agent shall on the Collateral Business Day immediately following receipt of a Collateral Monitoring Agent Notice send or cause to be sent a revised Collateral Test Notice (a **First Level Revised Collateral Test Notice**) to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the agreed adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed) such that the Collateral Test will be satisfied. The First Level Revised Collateral Test Notice shall be prepared in the same way and shall provide the same information as is required to be included in a Collateral Test Notice.

If the Collateral Agent disputes the contents of a Collateral Monitoring Agent Notice, it shall, on the Collateral Business Day immediately following receipt of a Collateral Monitoring Agent Notice, notify the Collateral Monitoring Agent of such dispute in writing (a **Dispute Notice**) and the Collateral Monitoring Agent and the Collateral Agent shall consult with each other in good faith in an attempt to resolve the dispute.

After having (i) disputed the contents of a Collateral Monitoring Agent Notice, (ii) delivered a Dispute Notice in relation thereto and (iii) resolved and agreed such dispute with the Collateral Monitoring Agent, the Collateral Agent shall on the Collateral Business Day immediately following receipt of a Dispute Notice send or cause to be sent a revised Collateral Test Notice to the Collateral Monitoring Agent (a **Second Level Revised Collateral Test Notice**) and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the agreed adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed) such that the Collateral Test will be satisfied. This Second Level Revised Collateral Test Notice shall be prepared in the same way and shall provide the same information as is required to be included in a Collateral Test Notice

If the Collateral Agent and the Collateral Monitoring Agent fail to resolve the dispute by the second Collateral Business Day following delivery of the Dispute Notice, then the Collateral Agent (on behalf of the Issuer) shall notify the Collateral Monitoring Agent in writing (such notice being a **Dispute Resolution Procedure Notice**) that it will commence the dispute resolution procedure to determine the adjustments (if any) to be made to the Collateral Pool (the **Collateral Test Dispute Resolution Procedure**):

(i) utilizing any calculations, rules or criteria which the Collateral Agent and the Collateral Monitoring Agent have agreed are not in dispute;

(ii) if such dispute relates to the satisfaction of the Eligibility Criteria or the Collateral Rules, appointing an independent third person (acting as an expert and not as an arbitrator) selected by the Collateral Agent and approved by the Collateral Monitoring Agent (such approval not to be unreasonably withheld) to determine whether such Eligibility Criteria and Collateral Rules are satisfied with the determination of any such person being final and binding upon the Collateral Agent and the Collateral Monitoring Agent; and

(iii) calculating the value of those Collateral Assets the value of which is in dispute by using reasonable endeavours to seek four actual, firm and executable quotations at mid-market for such Collateral Assets with contract sizes approximately equal to the value of such Collateral Assets from leading dealers in assets of the type of the Collateral Assets who are committed to trade with the Issuer or the Counterparty, which may include Societe Generale, as selected by the Collateral Agent acting in a commercially reasonable manner, and taking the weighted average of those obtained; provided that if four quotations are not available for a particular Collateral Asset, then fewer than four quotations may be used for that Collateral Asset, and if no quotations are available for a particular Collateral Asset, then the Collateral Agent's original calculations will be used for the Collateral Asset.

Following the conclusion of a Collateral Test Dispute Resolution Procedure, the Collateral Agent shall send a notice to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be), providing the same information as is required to be included in a Collateral Test Notice, containing the Collateral Value, the Required Collateral Value and any adjustments to be made to the Collateral Pool such that the Collateral Test will be satisfied, in each case determined in accordance with the Collateral Test Dispute Resolution Procedure, as soon as possible but in any event not later than the 30th Collateral Business Day following the delivery of the Collateral Monitoring Agent Notice (the **Post Dispute Collateral Test Notice**). A Post Dispute Collateral Test Notice issued following the conclusion of a Collateral Test Dispute Resolution Procedure shall be binding on the Collateral Agent and the Collateral Monitoring Agent and shall not be subject to further verification by the Collateral Monitoring Agent.

For the avoidance of doubt, the determination of the Collateral Value, the Required Collateral Value and the adjustments to be made to a Collateral Pool in accordance with the Collateral Test Dispute Resolution Procedure will not constitute an Event of Default.

3.6 Required Settlement Period

The required period for settlement of the Collateral Assets relating to the adjustments to be made to a Collateral Pool in accordance with a Collateral Test Notice, First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable (such period the **Required Settlement Period**) shall be ten (10) Collateral Business Days following delivery of a Collateral Test Notice or, where such Collateral Test Notice is followed by a Collateral Monitoring Agent Notice, ten (10) Collateral Business Days following delivery of the First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable; provided however that this ten (10) Collateral Business Day period may be extended up to a maximum additional period of sixty (60) Collateral Business Days (i) if the adjustments to be made to the Collateral Pool have not been settled as a result of an event beyond the control of the Collateral Agent, the Collateral Monitoring Agent and the Issuer (including, but not limited to, as a result of a failure or inability of the relevant clearing system to clear the relevant Collateral Assets), (an **External Event**) or (ii) in relation to Collateral Assets for which the regular settlement period is greater than

ten (10) Collateral Business Days under normal market conditions ((i) and (ii) being referred to as a **Collateral Settlement Disruption**).

During the above additional sixty (60) Collateral Business Day period the Collateral Agent may propose the replacement of the affected Collateral Assets by other Collateral Assets complying with the Collateral Rules and the Eligibility Criteria, or propose any other relevant measures so that the Collateral Test be satisfied.

If at the end of the sixty (60) Collateral Business Day period (i) the External Event(s) continue(s) to exist or (ii) the Collateral Assets for which the regular settlement period is greater than ten (10) Collateral Business Days under normal market conditions have not been settled, this shall constitute a Collateral Disruption Event.

3.7 Collateral Substitution

If "*Collateral Substitution*" is specified as being applicable in the applicable Final Terms, the Issuer (or the Collateral Agent on its behalf) may withdraw and/or replace Collateral Assets from any Collateral Account provided that following such adjustment the Collateral Test continues to be satisfied. The Issuer (or the Collateral Agent on its behalf) will send or cause to be sent a Collateral Test Notice to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed). The Collateral Business Day immediately following the day on which such Collateral Test Notice is given by the Issuer (or the Collateral Agent on its behalf) for the substitution of Collateral Assets as described above will be deemed to be a Collateral Test Date.

3.8 Notification of settlement failure

The Collateral Custodian shall notify the Issuer, the Collateral Agent and the Collateral Monitoring Agent if the settlement of any transfer of Collateral Assets has not completed within the common market practice timeframe for settlement of the type of Collateral Asset being so transferred. For the avoidance of doubt, such notification shall be taken into account when assessing whether settlement has occurred during the Required Settlement Period described above.

4. DEFAULT, ENFORCEMENT AND REALISATION

4.1 Events of Default

In accordance with Condition 9 of the General Terms and Conditions, Secured Notes will be subject to:

- (i) the same Events of Default as are applicable to Notes which are not Secured Notes, and
- (ii) an additional Event of Default if the Collateral Monitoring Agent delivers a Required Collateral Default Notice in relation to a Collateral Pool securing such Secured Notes, meaning that a Required Collateral Default has occurred.

A **Required Collateral Default** means that:

- (1) following receipt of a Collateral Monitoring Agent Notice which indicates that the Collateral Test is not satisfied (or will not be satisfied after taking into account any adjustments specified in a Collateral Test Notice):

- (a) no First Level Revised Collateral Test Notice or Dispute Notice has been sent; or
- (b) no Second Level Revised Collateral Test Notice or Dispute Resolution Procedure Notice has been sent; or
- (c) no Post Dispute Collateral Test Notice has been sent,

in each case on or before the fifth Collateral Business Day following the date on which the Collateral Agent had the obligation to send such notice to the Collateral Monitoring Agent; or

- (2) the Issuer or the Collateral Agent (on behalf of the Issuer) fails to deliver the additional necessary Collateral Assets within the Required Settlement Period and such failure results in the Collateral Test not being satisfied for five (5) consecutive Collateral Business Days following the end of such Required Settlement Period (when determining whether the Collateral Test has been so satisfied, only Collateral Assets which have actually been transferred to the relevant Collateral Account shall be taken into account).

Following the occurrence of a Required Collateral Default, the Collateral Monitoring Agent shall send, as soon as reasonably practicable and in any case within two Collateral Business Days, a notice to the Issuer, the Guarantor, the Collateral Agent, the Collateral Custodian or the Security Trustee or the Security Agent, as the case may be, specifying that a Required Collateral Default has occurred (the **Required Collateral Default Notice**).

Upon receipt of such Required Collateral Default Notice, the Issuer or failing which the Security Trustee or the Security Agent, as applicable, shall give notice in accordance with Condition 13 of the General Terms and Conditions, as soon as reasonably practicable to all relevant Noteholders.

Following the occurrence of an Event of Default in relation to a Series of Secured Notes, a Noteholder (or the Representative of the Masse in the case of French Law Notes acting pursuant to the request of a Noteholder) may give written notice to the Issuer, the Guarantor and the Security Trustee or the Security Agent, as the case may be, that the Notes held by such Noteholder (or by a Noteholder represented by the Representative of the Masse in the case of French Law Notes) are immediately due and repayable at

their Early Redemption Amount (as defined in the General Terms and Conditions) (the delivery of such a notice being hereafter referred to as a **Secured Note Acceleration Event**).

If a Secured Note Acceleration Event occurs in relation to one or more Secured Notes (such Notes being **Accelerated Secured Notes**), all Secured Notes which are secured by the same Collateral Pool as the one securing such Accelerated Secured Note(s) will also become immediately due and repayable at their Early Redemption Amount. This applies both in the case of a Single Series Collateral Pool and in the case of a Multiple Series Collateral Pool.

Following the occurrence of a Secured Note Acceleration Event, the Issuer or failing which the Security Trustee or the Security Agent, as the case may be, shall give notice in accordance with Condition 13 of the General Terms and Conditions, as soon as reasonably practicable to all relevant Noteholders of one or more Secured Notes which are secured by the same Collateral Pool as such Noteholders.

Following the occurrence of a Secured Note Acceleration Event in relation to a Secured Note, the Pledge Agreement relating to the Collateral Pool securing such Series of Secured Notes will not become immediately enforceable, but instead Noteholders whose Notes have become immediately due and repayable in accordance with this Condition 4.1 will initially be entitled to claim for any outstanding amounts due to them under the terms of the Guarantee.

If neither the Issuer nor the Guarantor has paid all amounts due to Noteholders of a Series of Secured Notes in relation to which a Secured Note Acceleration Event has occurred within a period of three (3) Collateral Business Days following notification to Noteholders of the occurrence of such Secured Note Acceleration Event, any Noteholder of such Series (or the Representative of the Masse in the case of French Law Notes acting pursuant to the request of a holder of Notes of such Series) will be entitled to send a notice in writing to the Security Trustee or the Security Agent requesting that the relevant Pledge Agreement be enforced in accordance with the terms thereof (a **Collateral Enforcement Notice**).

Although the Pledge Agreement relating to a particular Collateral Pool may only be enforced following a failure by the Issuer or the Guarantor to pay, within the three (3) Collateral Business Day period referred to above, accelerated amounts due after the occurrence of a Secured Note Acceleration Event, the security provided pursuant to the Pledge Agreement remains security granted by the Issuer in relation to the Issuer's payment obligations under the Secured Notes and does not secure the payment obligations of the Guarantor under the Guarantee.

The Security Trustee or the Security Agent, as the case may be, shall, following receipt of a Collateral Enforcement Notice, promptly give notice of the same to the Issuer, the Guarantor, the Collateral Agent, the Collateral Custodian and the other Noteholders whose Notes are secured on the Collateral Pool in relation to which such Collateral Enforcement Notice relates.

4.2 Enforcement and Realisation of Collateral Assets

Upon receipt of a Collateral Enforcement Notice, the Security Trustee or the Security Agent, as the case may be, will enforce the relevant Pledge Agreement relating to the relevant Collateral Pool in accordance with the terms thereof and these Additional Terms and Conditions (as completed by the applicable Final Terms) and will:

- (i) give instructions to the Disposal Agent to liquidate or realise the Collateral Assets in each Collateral Pool which secures a Series of Secured Notes in accordance with Condition 4.6 and subsequently distribute the relevant Collateral Enforcement Proceeds Share to relevant Noteholders in accordance with Condition 4.5 or
- (ii) where Physical Delivery of Collateral Assets is specified as applicable in the applicable Final Terms, arrange for delivery of the relevant Collateral Assets Entitlement to the relevant Noteholders in accordance with Condition 4.7,

in each case after payment of any amounts payable to the Secured Parties ranking prior to the holders of the Non Waived Notes in accordance with the Order of Priority, (such amounts to be paid either out of the proceeds of such liquidation or realisation of Collateral Assets or out of the proceeds transferred by the Noteholders in accordance with Condition 4.7).

4.3 Enforcement and Realisation by Noteholders

No Noteholder or the Representative of the Masse in the case of French Law Notes shall be entitled to enforce a Pledge Agreement or to proceed directly against the Issuer to enforce the other provisions of a Pledge Agreement unless the Security Trustee or the Security Agent having become bound to enforce or proceed, fails to do so within a reasonable time and such failure is continuing or if the Security Trustee or the Security Agent is prevented from enforcing a Pledge Agreement by any court order.

4.4 Method of realisation of Collateral Assets

Subject as may otherwise be provided for in these Additional Terms and Conditions or the applicable Final Terms, the Security Trustee or the Security Agent, as the case may be or the Disposal Agent acting on their behalf may sell the Collateral Assets in one single tranche or in smaller tranches as it considers appropriate in order to attempt reasonably to maximise the proceeds from such sale. The Security Trustee, the Security Agent or the Disposal Agent acting on their behalf may affect sales of the Collateral Assets (i) on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted, (ii) on the over-the-counter market or (iii) on transactions otherwise than on such exchanges or on the over-the-counter market.

In general, the Security Trustee and the Security Agent shall be able to exercise any right regarding the realisation of the Collateral Assets in accordance with article 11 of the Collateral Act 2005 including but not limited to the appropriation of the Collateral Assets at their value as determined by the Collateral Agent as at the most recent Collateral Test Date.

Where the Security Trustee, the Security Agent or the Disposal Agent acting on their behalf is required or requested to dispose of any Collateral Assets other than on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted then, in compliance with the relevant provisions of the Collateral Act 2005:

(a) the Security Trustee, the Security Agent or the Disposal Agent acting on their behalf shall seek firm bid quotations from at least three independent dealers in assets similar in nature to the relevant Collateral Assets (and, for such purpose, it may seek quotations in respect of such Collateral Assets in their entirety or in respect of designated tranches thereof, as it considers appropriate in order to maximise the proceeds of the sale of such Collateral Assets);

(b) for the purposes of obtaining the quotations referred to in (a) above, the Security Trustee, the Security Agent or the Disposal Agent acting on their behalf may itself provide a bid in respect of the relevant Collateral Assets or any tranche thereof; and

(c) the Security Trustee, the Security Agent or the Disposal Agent acting on their behalf shall be authorised to accept in respect of each relevant tranche or, as applicable, the entirety of the relevant Collateral Assets the highest quotation so obtained (which may be a quotation from the Security Trustee, the Security Agent or the Disposal Agent acting on their behalf (when providing such quotations themselves, the Security Trustee, the Security Agent or the Disposal Agent shall act in a commercially reasonable manner).

4.5 Application and distribution of proceeds of enforcement

Unless "*Physical Delivery of Collateral Assets*" is specified in the applicable Final Terms, in connection with the enforcement of a Pledge Agreement, after the realisation and liquidation in full of all the Collateral Assets in a Collateral Pool in accordance with Condition 4.4, the Security Trustee or the Security Agent shall use the proceeds of such realisation and liquidation of the Collateral Assets to make payment of any amounts payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms.

The net proceeds of realisation of, or enforcement with respect to, the Collateral Assets in a Collateral Pool following payment of all amounts payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms, constitutes the **Collateral Enforcement Proceeds** from which, the Security Trustee or the Security Agent shall determine the Collateral Enforcement Proceeds Share in respect of each Secured Note and shall notify such amounts to the Noteholders in accordance with Condition 13 of the General Terms and Conditions, as applicable.

The Security Trustee or the Security Agent will determine the **Collateral Enforcement Proceeds Share** in respect of a Series of Secured Notes, by calculating the pro rata share of the Aggregate Collateral Enforcement Proceeds Share attributable to each Secured Note in such Series of Secured Notes.

Where:

Aggregate Collateral Enforcement Proceeds Share means, in respect of a Series of Secured Notes, the product of the Collateral Ratio applicable to such Series of Secured Notes and the Collateral Enforcement Proceeds in respect of the Collateral Pool which secures such Series of Secured Notes.

Collateral Ratio means, in respect of a Series of Secured Notes, the amount (expressed as a percentage) equal to the Final Required Collateral Value applicable to such Series of Secured Notes divided by the Pool Aggregate Final Required Collateral Value applicable to the Collateral Pool which secures such Series of Secured Notes. In case of Single Series Collateral Pool the Collateral Ratio shall be 100 per cent and therefore the Aggregate Collateral Enforcement Proceeds Shares is equal to the Collateral Enforcement Proceeds in respect of such Collateral Pool.

Final Required Collateral Value means the Required Collateral Value for a Series of Secured Notes as calculated by the Collateral Monitoring Agent at the Collateral Test Date immediately preceding the delivery of a Collateral Enforcement Notice.

Pool Aggregate Final Required Collateral Value means, in respect of a Multiple Series Collateral Pool, the aggregate of the Final Required Collateral Value of each Series of Secured Notes which is secured by such Collateral Pool. Subject as provided below, the remaining proceeds from the realisation of the Collateral Assets in a Collateral Pool will then be applied in meeting the claims of Noteholders under the Secured Notes which are secured by the relevant Collateral Pool (taking into account any amounts which have been paid to Noteholders by the Guarantor pursuant to the terms of the Guarantee) *pro rata* to the Collateral Enforcement Proceeds Share of each such Secured Note.

Such claim will be adjusted in accordance with the following rules:

- If the Collateral Enforcement Proceeds Share for a particular Secured Note is greater than the difference between (A) the amount due to such Noteholder, by the Issuer in respect of the Notes, or by the Guarantor under the terms of the Guarantee and (B) any amounts which have been paid to such Noteholder by the Issuer or the Guarantor in respect of this particular Secured Note, being the **Owed Amount**, then such excess amount will not be distributed to such Noteholder but will be distributed to the Secured Parties ranking after the holders of Non-Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms;

- otherwise, if the Collateral Enforcement Proceeds Share for a particular Secured Note is lower than, the Owed Amount then, in accordance with Condition 2.6.1, such Noteholder shall not be entitled to any further recourse against the Issuer for such shortfall amount but may claim any payment of such shortfall amount from the Guarantor under the terms of the Guarantee.

Order of Priority means the order specified in the applicable Final Terms following which the Security Trustee or the Security Agent shall apply moneys received following enforcement of the relevant Pledge Agreement in accordance with Condition 4. The Order of Priority may be the Standard Order of Priority (as defined below) or any alternative order between item (a), (b), (c), (d), (e) and (f) below, as specified in the applicable Final Terms.

(a) payment or satisfaction of all Liabilities incurred by or payable by the Issuer or Guarantor, in relation to the relevant Secured Notes, to the Security Trustee, the Security Agent or the Representative of the Masse or, where applicable, the Disposal Agent and/or Substitute Paying Agent (which shall include any taxes required to be paid, the costs of realising any security (including the distribution of enforcement proceeds and/or, where Physical Delivery of Collateral Assets is applicable, Delivery of the Collateral Assets Entitlement to the Noteholders of the related Secured Notes) and the remuneration of the Security Trustee or the Security Agent or, where applicable, the Disposal Agent and/or Substitute Paying Agent);

(b) payment of any amounts due to be paid or reimbursed to the Collateral Custodian by the Issuer;

(c) payment of any amounts due to be paid or reimbursed to the Collateral Monitoring Agent by the Issuer;

(d) payment of any amounts due to holders of Non-Waived Notes in accordance with Condition 4.5 herein;

(e) pro rata payment of any amounts owed to the creditors (if any) whose claims have arisen as a result of the creation, operation or liquidation of the Collateral Assets (save to the extent that the claims of any such creditor fall within paragraphs (a) to (d) above; and;

(f) payment of the balance (if any) to the Issuer;

the **Standard Order of Priority** means that the Order of Priority shall follow the order (a), (b), (c), (d), (e), (f) specified above.

4.6 Inability to realise Collateral Assets

If the Security Trustee, the Security Agent or the Disposal Agent acting on their behalf is unable to sell the Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of one or more Collateral Assets, in each case pursuant to Condition 4.4, for a period of one year from the date of the relevant Secured Note Acceleration Event (such Collateral Assets being **Non-Realised Collateral Assets**), then in lieu of cash settlement of such Non-Realised Collateral Assets and notwithstanding any other provision hereof, the Security Trustee or the Security Agent shall be entitled to Deliver, or procure the Delivery of, such Non-Realised Collateral Assets to the relevant Noteholders in accordance with Condition 4.7 and the Order of Priority specified in the applicable Final Terms.

If Delivery of any Non-Realised Collateral Assets is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event (as defined below) that is continuing for a period of more than 20 Collateral Business Days, the Security Trustee, the Security Agent or the Disposal Agent on their behalf, shall be entitled to either (i) sell such Non-Realised Collateral Assets by accepting the first available price for such Non-Realised Collateral Assets or (ii) Deliver such Non-Realised Collateral Assets if Delivery subsequently becomes possible.

Physical Delivery of Collateral Assets Disruption Event means any event beyond the control of the Issuer, the Collateral Agent, the Substitute Paying Agent, the Disposal Agent, the Security Trustee or the Security Agent, as applicable, as a result of which the relevant Clearing System (as defined in the applicable Final Terms) cannot Deliver some or all of the Collateral Assets Entitlement required to be delivered pursuant to the terms of these Additional Terms and Conditions.

4.7 Physical Delivery of Collateral Assets

Where "*Physical Delivery of Collateral Assets*" is specified in the applicable Final Terms, it means that upon enforcement of a Pledge Agreement, the Security Trustee or the Security Agent will not sell, or cause to be sold, the Collateral Assets (unless there is a Physical Delivery of Collateral Assets Disruption Event and other than in order to pay any amounts payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms) but will instead deliver or cause to be delivered the Collateral Assets Entitlement to each Noteholder in the manner set out in this Condition 4.7 (**Physical Delivery of Collateral Assets**). In such case, following enforcement of a Pledge Agreement, the Security Trustee or the Security Agent will determine the Collateral Assets Entitlement in respect of each Secured Note and shall notify such amounts to the Noteholders in accordance with Condition 13 of the General Terms and Conditions, as applicable.

Where:

Collateral Assets Entitlement means, for each Non Waived Note in a Series of Secured Notes Collateral Assets with a value (based on the market valuations of such assets by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of the Collateral Enforcement Notice) equal to (a) the product of (i) the Collateral Ratio applicable to such Series of Secured Notes and (ii) the Final Collateral Value in respect of the Collateral Pool which secures such Series of Secured Notes divided by (b) the number of Non-Waived Notes of such Series of Secured Notes ;

Final Collateral Value means the Collateral Value determined by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of a Collateral Enforcement Notice less any amounts payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms;

Subject as provided below, the Security Trustee or the Security Agent will either:

- realise and liquidate sufficient Collateral Assets in accordance with Condition 4.4, to ensure payment of any amounts payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms, or

- upon transfer of sufficient funds by the Noteholders, pay any such amount payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms.

Following such payment, the Security Trustee or the Security Agent will notify Noteholders of the relevant Collateral Delivery Date and will Deliver the Collateral Assets Entitlement to the Noteholders of the Secured Notes secured by the relevant Collateral Pool in accordance with the method of transfer of Collateral Assets specified in the applicable Final Terms, subject to the following provisions:

- If the market value of the Collateral Assets contained in a Collateral Assets Entitlement (based on the valuations of the market value of such assets by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of the Collateral Enforcement Notice) for a particular Secured Note is greater than the Owed Amount then assets from the Collateral Assets Entitlement for a value equal to such excess amount will be liquidated and the proceeds thereof will then be distributed to the Secured Parties ranking after the holders of Non-Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms;

- otherwise, when the market value of the Collateral Assets contained in a Collateral Assets Entitlement (based on the valuations of the market value of such assets by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of the Collateral Enforcement Notice) for a particular Secured Note is lower than the Owed Amount, then, in accordance with Condition 2.6.1 such Noteholder shall not be entitled to any further recourse against the Issuer for such shortfall amount, but may claim any payment of such shortfall amount from the Guarantor under the terms of the Guarantee.

4.8 Physical Delivery of Collateral Assets Disruption Event

4.8.1 If, in the opinion of the Substitute Paying Agent, the Security Trustee or the Security Agent, Delivery of all or some of the Collateral Assets forming part of the Collateral Assets Entitlement using the method of Delivery specified in the applicable Final Terms, or such other commercially reasonable manner as the Substitute Paying Agent, the Security Trustee or the Security Agent has determined, is not practicable by reason of a Physical Delivery of Collateral Assets Disruption Event having occurred and continuing on any Collateral Delivery Date, then such Collateral Delivery Date shall be postponed to the first following Collateral Business Day in respect of which there is no such Physical Delivery of Collateral Assets Disruption Event, provided that the Substitute Paying Agent or the Security Trustee or the Security Agent may elect to Deliver the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner as it may select and in such event the Collateral Delivery Date shall be such day as the Substitute Paying Agent, the Security Trustee or the Security Agent deems appropriate in connection with Delivery of the Collateral Assets forming part of the Collateral Assets Entitlement.

For the avoidance of doubt, where a Physical Delivery of Collateral Assets Disruption Event affects some but not all of the Collateral Assets forming part of the Collateral Assets Entitlement due to be delivered to a Noteholder, the Collateral Delivery Date for those Collateral Assets forming part of the Collateral Assets Entitlement which are able to be Delivered will be the Collateral Delivery Date on which such Collateral Assets are delivered.

4.8.2 If a Physical Delivery of Collateral Assets Disruption Event occurs and is continuing for a period of more than 20 Collateral Business Days (or such other period specified in the applicable Final Terms), then in lieu of physical settlement and notwithstanding any other provision hereof, the Security Trustee or the Security Agent or the Disposal Agent acting on their behalf, shall sell or realise the assets they are unable to deliver (the Undeliverable Collateral Assets) and deliver the proceeds thereof to Noteholders in the manner set out in Conditions 4.4 and 4.5.

4.8.3 If the Security Trustee, the Security Agent or the Disposal Agent acting on their behalf is unable to either (i) sell the Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of the Collateral Assets, in each case pursuant to Condition 4.4 or (ii) Deliver such Collateral Assets due to the continuation of a Physical Delivery of Collateral Assets Disruption Event, for a period of one year from the date of the relevant Secured Note Acceleration Event, the Security Trustee, the Security Agent or the Disposal Agent shall be entitled to accept the first available price for such Collateral Assets.

The Security Trustee or the Security Agent or the Substitute Paying Agent on their behalf, shall give notice as soon as practicable to the Noteholders in accordance with Condition 13 of the General Terms and Conditions, as applicable, that a Physical Delivery of Collateral Assets Disruption Event has occurred. No Noteholder shall be entitled to any payment in respect of the relevant Secured Notes in the event of any delay in the Delivery of the Collateral Assets forming part of the Collateral Assets Entitlement due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event and no liability in respect thereof shall attach to the Issuer, the Guarantor, the Disposal Agent, the Security Trustee or the Security Agent.

4.9 Liability of the Security Trustee and the Security Agent

Neither the Security Trustee nor the Security Agent will, in the absence of negligence, fraud and wilful misconduct, have any liability as to the consequence of any enforcement or realisation action and neither will have regard to the effect of such action on individual Noteholders.

Monte Titoli S.p.A. (**Monte Titoli**), an Italian limited liability company, is a central securities depository authorised pursuant to Regulation (EU) 909/2014.

The securities registered in the electronic book-entry system managed by Monte Titoli are regulated under the Italian Financial Act, any implementing regulation and any operating procedures applicable to and/or issued by Monte Titoli from time to time.

Transfer and exchange of the ownership and any other right relating to these securities must only take place through authorised intermediaries which are direct or indirect participants to Monte Titoli; accordingly, a Noteholder (or such Noteholder's nominee) must establish a book-entry account with any such intermediaries. The holder of a security will be the person being shown in the records of the relevant intermediary as holder of the securities.

2. TRANSFERS OF NOTES REPRESENTED BY REGISTERED GLOBAL NOTES

Transfers of any interests in Notes represented by a Registered Global Note will be effected in accordance with the customary rules and operating procedures of the relevant Clearing System.

3. CREST AND CREST DEPOSITORY INTERESTS

3.1 EUI or CREST

EUI Notes will be held in registered uncertificated form in accordance with the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof for the time being in force (the **Regulations**) and as such are dematerialised and not constituted by any physical document of title. The EUI Notes are participating securities for the purposes of the Regulations. Title to the EUI Notes is recorded on the relevant Operator register of corporate securities. The EUI Agent on behalf of the Issuer shall, in relation to the EUI Notes, maintain a record of uncertificated corporate securities in accordance with the records of Euroclear UK & Ireland Limited (**EUI or CREST**) (formerly known as CRESTCo Limited) (the **Record**) and shall procure that the Record is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator. Subject to this requirement, (i) each person who is for the time being shown in the Record as the holder of a particular number of EUI Notes shall be treated by the Issuer and the EUI Agent as the holder of such number of EUI Notes for all purposes (and the expression **EUI Noteholder** and related expressions shall be construed accordingly), and (ii) neither the Issuer, the Guarantor nor the EUI Agent shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Record which the EUI Agent maintains are in accordance with particulars entered in the Operator register of corporate securities relating to the EUI Notes.

3.2 CREST Depository Interests

Following their delivery into Euroclear and Clearstream, interests in Notes may be delivered, held and settled in CREST by means of the creation of dematerialised depository interests representing the interests in the relevant Notes.

Pursuant to the CREST Reference Manual Securities held in global form by the Common Depository may be settled through the CREST system, and the CREST Depository will issue CREST Depository Interests (**CDIs**). The CDIs will be independent securities, constituted under English law which may be held and transferred through the CREST system.

The CDIs will be created pursuant to and issued on the terms of a deed poll executed by the CREST Depository in favour of the holders of the CDIs from time to time (the **CREST Deed Poll**). Prospective holders of CDIs should note that they will have no rights against CRESTCo or its subsidiaries in respect of the underlying Notes, interests therein, or the CDIs representing them.

Interests in the underlying Notes will be credited to the CREST nominee's account with Euroclear and the CREST nominee will hold such interests as nominee for the CREST Depository which will issue CDIs to the relevant CREST participants.

Each CDI will be treated as one underlying Note, for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to holders of CDIs any interest or other amounts received by it as holder of the underlying Notes on trust for such CDI holder. CDI holders will also be able to receive from the CREST Depository notices of meetings of holders of underlying Notes and other relevant notices issued by the Issuer.

Transfers of interests in underlying Notes by a CREST participant to a participant of Euroclear or Clearstream will be effected by cancellation of the CDIs and transfer of an interest in such underlying Notes to the account of the relevant participant with Euroclear or Clearstream.

The CDIs will have the same international security identification number (ISIN) as the underlying Notes and will not require a separate listing on the Official List.

Prospective subscribers for Notes represented by CDIs are referred to Chapter 3 of the CREST Reference Manual which contains the form of the CREST Deed Poll to be entered into by the CREST Depository.

The rights of the holders of CDIs will be governed by the arrangements between CREST, Euroclear, Clearstream and the Issuer including the CREST Deed Poll (in the form contained in Chapter 3 of the CREST International Reference Manual (which forms part of the CREST Reference Manual)) executed by the CREST Depository. These rights may be different from those of holders of Notes which are not represented by CDIs.

GENERAL INFORMATION

1. AUTHORISATION

1.1 Societe Generale

No authorisation procedures are required of Societe Generale by French law for the update of the Programme or the giving of the guarantees in respect of the Programme. However, to the extent that Notes issued by Societe Generale under the Programme may constitute *obligations* under French law, the issue of such Notes will be authorised in accordance with French law.

1.2 SG Issuer

The issue of Notes has been duly authorised by a resolution of the management board of SG Issuer dated 28 April 2022.

2. CREDIT RATINGS

In respect of SG Issuer:

Unsecured Senior debt of SG Issuer is rated "A" by S&P Global Ratings Europe Limited: An S&P Global Ratings Europe Limited issue credit rating is a forward-looking opinion on a scale of 'AAA' to 'D' about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program.

In respect of Societe Generale:

At the date of this Base Prospectus, Societe Generale is rated:

"A" by Fitch Ratings Ireland Limited: A long-term senior preferred debt rating at Fitch Ratings Ireland Limited provides an ordinal ranking of long-term senior preferred debts of issuers, on a scale of 'AAA' to 'D', based on the agency's view of their relative vulnerability to default, rather than a prediction of a specific percentage likelihood of default. 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories.

"A1" by Moody's France S.A.S.: Ratings assigned on Moody's France S.A.S.'s global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by financial institutions on a scale of 'Aaa' to 'C'. Obligations rated 'A' are judged to be upper-medium grade and are subject to low credit risk. Moody's France S.A.S.'s appends numerical modifiers 1, 2, and 3 to each generic rating classification from 'Aa' through 'Caa'. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

"A" by Rating and Investment Information, Inc.: An Issuer Rating is R&I's opinion on an issuer's general capacity to fulfil its financial obligations and is, in principle, assigned to all issuers. Ratings are issued on a scale of 'AAA' to 'D', reflecting R&I's view on the creditworthiness of the Issuer. An issuer rated 'A' has a high creditworthiness supported by a few excellent factors.

"A" by S&P Global Ratings Europe Limited: A S&P Global Ratings Europe Limited issue credit rating is a forward-looking opinion on a scale of 'AAA' to 'D' about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program. The opinion reflects S&P Global Ratings Europe Limited's view of the obligor's capacity and willingness to meet its financial commitments as they come due, and may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default. An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

Each of Moody's France S.A.S., Fitch Ratings and S&P Global Ratings Europe Limited is established in the European Union and is registered under the CRA Regulation and is included in the list of credit rating agencies registered in accordance with the CRA Regulation published on the European Securities and Markets Authority's website (<https://www.esma.europa.eu/supervision/credit-rating-agencies/risk>). Rating and Investment Information, Inc. is established in Japan. It has not been registered in accordance with the CRA Regulation.

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.
