To the extent that a Statutory Loss Absorption Framework is implemented in South Africa, and the Tier 2 Notes are subject to such Statutory Loss Absorption Framework, the Issuer will, following consultation with the Registrar of Banks, dis-apply the non-viability loss absorption Condition referred to in Condition 11.12 and this paragraph of the Applicable Pricing

Supplement, provided that such disapplication would not result in a Capital Disqualification Event.

For the avoidance of doubt, if a Non-Viability Trigger Event occurs on or after such date on which the non-viability loss absorption Condition referred to above is dis-applied, the Registrar of Banks or the Issuer following instructions from the Registrar of Banks, may take such action in respect of the Tier 2 Notes as is required or permitted by such Statutory Loss Absorption Regime.

For the purposes of this paragraph, "Statutory Loss Absorption Regime" means any legal, statutory or regulatory regime or requirement implemented in South Africa which provides the Registrar of Banks with the power to implement principal loss absorption measures in respect of capital instruments (such as the Tier 2 Notes), including, but not limited to, any such regime or requirement which is implemented pursuant to Basel III.

For the purposes of this paragraph "Capital Disqualification Event" means an event which will be deemed to have occurred with respect to the Tier 2 Notes of any Series if, as a result of a Regulatory Change, the Tier 2 Notes of that Series are fully, or to the extent permitted by the Capital Regulations, partially, excluded from Tier 2 Capital of the Issuer on a solo and/or consolidated basis (save where such non-qualification is only as a result of any applicable limitation on the amount of such capital and any amortisation of recognition as Tier 2 Capital under the Capital Rules in the final five years prior to maturity).
